

PRELIMINARY OFFICIAL STATEMENT

Dated: December 22, 2025

NEW ISSUE: BOOK-ENTRY-ONLY

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds (as defined below) is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986. In the further opinion of Bond Counsel, interest on the Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Bond Counsel observes that interest on the Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds (see "TAX MATTERS" herein).

\$442,915,000*

CONROE INDEPENDENT SCHOOL DISTRICT
(A political subdivision of the State of Texas located in Montgomery County)
UNLIMITED TAX SCHOOL BUILDING BONDS, SERIES 2026

Dated Date: February 1, 2026

Due: February 15, as shown on page ii

Interest Accrues from Delivery Date (defined below)

The Conroe Independent School District (the "District") is issuing its \$442,915,000* Unlimited Tax School Building Bonds, Series 2026 (the "Bonds,") in accordance with the Constitution and general laws of the State of Texas (the "State"). The Bonds are authorized by Chapter 45, Texas Education Code; Chapter 1371, Texas Government Code; an election held in and for the District on November 7, 2023 (the "Election"); and a bond order (the "Bond Order") approved by the Board of Trustees of the District (the "Board") on September 16, 2025. In the Bond Order, the Board delegated to the District's Superintendent of Schools or Chief Financial Officer (each a "Pricing Officer") the authority to complete the sale of the Bonds. The final pricing information for the Bonds will be included in a pricing certificate (the "Pricing Certificate"), which will be approved and executed by a Pricing Officer (the Bond Order and the Pricing Certificate are collectively referred to as the "Order"). The Bonds constitute direct obligations of the District and are payable as to principal and interest from the proceeds of an annual ad valorem tax levied, without legal limit as to rate or amount, against all taxable property located within the District. **An application has been filed by the District with, and conditional approval has been received from, the Texas Education Agency for the Bonds to be guaranteed by the Permanent School Fund Guarantee Program of the State of Texas (see "THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM" and "APPENDIX D").**

Interest on the Bonds will accrue from the date of their initial delivery ("Delivery Date") to the underwriters named below (the "Underwriters"), and will be payable on August 15, 2026, and semiannually thereafter on each succeeding February 15 and August 15 until stated maturity or prior redemption. The Bonds will be issued in principal denominations of \$5,000 or any integral multiple thereof within a maturity (see "THE BONDS – General Description").

The Bonds maturing on and after February 15, 2036*, are subject to redemption prior to maturity at the option of the District, in whole or in part, in principal amounts of \$5,000 or any integral multiple thereof, on February 15, 2035*, or any date thereafter, at a redemption price equal to the principal amount thereof plus accrued interest to the date fixed for redemption (see "THE BONDS – Optional Redemption"). If two or more consecutive maturities are combined to create one or more term bonds (the "Term Bonds"), such Term Bonds will additionally be subject to mandatory sinking fund redemption as provided herein (see "THE BONDS – Mandatory Sinking Fund Redemption").

The District intends to use the Book-Entry-Only System of The Depository Trust Company, New York, New York ("DTC"), but use of such system could be discontinued. The principal amount of the Bonds at maturity or amounts due upon a prior redemption date and interest on the Bonds will be payable to Cede & Co., as nominee for DTC, by The Bank of New York Mellon Trust Company, N.A., as the initial paying agent/registrar (the "Paying Agent/Registrar") for the Bonds. **No physical delivery of the Bonds will be made to the beneficial owners thereof.** Such Book-Entry-Only System will affect the method and timing of payment and the method of transfer of the Bonds (see "BOOK-ENTRY-ONLY SYSTEM").

Proceeds from the sale of the Bonds will be used for (i) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement and equipment of school buildings in the District, the purchase of the necessary sites for school buildings, and the purchase of new school buses, including new schools, campus additions, campus renovations and infrastructure, safety, transportation and technology improvements; (ii) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement and upgrading of technology devices and instructional technology; (iii) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement, and equipment of school buildings in the District, including physical education classrooms/elementary gymnasiums and career and technical education agricultural barns; (iv) capitalized interest on the Bonds; and (v) to pay the costs of issuance related to the Bonds (see "THE BONDS – Purpose").

CUSIP PREFIX: 208418 / MATURITY, PRINCIPAL AMOUNT, INTEREST RATE, INITIAL YIELD & 9 DIGIT CUSIP – See

Maturity Schedule on Page ii

The Bonds are offered when, as and if issued, and accepted by the Underwriters, subject to the approving opinion of the Attorney General of Texas and the opinion of Orrick, Herrington & Sutcliffe LLP, Houston, Texas, Bond Counsel. Certain legal matters will be passed upon for the Underwriters by their counsel, Bracewell LLP, Houston, Texas. The Bonds are expected to be available for initial delivery through the facilities of DTC on or about February 3, 2026.

- (a) The Bonds maturing on and after February 15, 2036*, are subject to redemption prior to maturity at the option of the District, in whole or in part, in principal amounts of \$5,000 or any integral multiple thereof, on February 15, 2035*, or any date thereafter, at a redemption price equal to the principal amount thereof plus accrued interest to the date fixed for redemption (see “THE BONDS – Optional Redemption”). If two or more consecutive maturities are combined to create one or more term bonds (the “Term Bonds”), such Term Bonds will additionally be subject to mandatory sinking fund redemption as provided herein (see “THE BONDS – Mandatory Sinking Fund Redemption”).
- (b) The initial yields will be established by and are the sole responsibility of the Underwriters, and may subsequently be changed.
- (c) CUSIP is a registered trademark of the American Bankers Association. CUSIP data herein is provided by CUSIP Global Services, managed by FactSet Research Systems Inc. on behalf of the American Bankers Association. CUSIP numbers have been assigned to this issue by the CUSIP Service Bureau and are included solely for the convenience of the owners of the Bonds. This data is not intended to create a database and does not serve in any way as a substitute for CUSIP services. None of the District, the Financial Advisor (hereinafter defined) or the Underwriters shall be responsible for the selection or correctness of the CUSIP numbers set forth herein.

USE OF INFORMATION IN OFFICIAL STATEMENT

For purposes of compliance with Rule 15c2-12 (the “Rule”) of the United States Securities and Exchange Commission, this document constitutes an Official Statement of the District with respect to the Bonds that has been deemed “final” by the District as of its date except for the omission of no more than the information permitted by the Rule.

This document, when further supplemented by adding additional information specifying the interest rates and certain other information relating to the Bonds, shall constitute a “final official statement” of the District with respect to the Bonds, as such term is defined in the Rule.

No dealer, broker, salesman or other person has been authorized to give any information, or to make any representations other than those contained in this Official Statement, and, if given or made, such other information or representations must not be relied upon as having been authorized by the District, the Financial Advisor (hereinafter defined) or the Underwriters.

Certain information set forth herein has been obtained from the District and other sources which are believed to be reliable but it is not guaranteed as to accuracy or completeness, and it is not to be construed as a representation by the Financial Advisor or the Underwriters.

This Official Statement is not to be used in connection with an offer to sell or the solicitation of an offer to buy in any jurisdiction in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

Any information and expressions of opinion herein contained are subject to change without notice, and neither the delivery of the Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. See “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM – PSF Continuing Disclosure Undertaking” and “CONTINUING DISCLOSURE OF INFORMATION” for a description of the undertakings of the Texas Education Agency (“TEA”) and the District, respectively, to provide certain information on a continuing basis.

THE BONDS ARE EXEMPT FROM REGISTRATION WITH THE UNITED STATES SECURITIES AND EXCHANGE COMMISSION AND CONSEQUENTLY HAVE NOT BEEN REGISTERED THEREWITH. THE REGISTRATION, QUALIFICATION OR EXEMPTION OF THE BONDS IN ACCORDANCE WITH APPLICABLE SECURITIES LAW PROVISIONS OF THE JURISDICTION IN WHICH THE BONDS HAVE BEEN REGISTERED, QUALIFIED OR EXEMPTED SHOULD NOT BE REGARDED AS A RECOMMENDATION THEREOF.

IN CONNECTION WITH THIS OFFERING, THE UNDERWRITERS MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE THE MARKET PRICE OF THE BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

None of the District, the Financial Advisor, or the Underwriters make any representation or warranty with respect to the information contained in this Official Statement regarding DTC or its book-entry-only system described under “BOOK-ENTRY-ONLY SYSTEM” or the affairs of the TEA described under “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” or “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” as such information has been provided by DTC and TEA, respectively.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement in accordance with, and as part of, their respective responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriters do not guarantee the accuracy or completeness of such information.

The agreements of the District and others related to the Bonds are contained solely in the contracts described herein. Neither this Official Statement nor any other statement made in connection with the offer or sale of the Bonds is to be construed as constituting an agreement with the purchaser of the Bonds. INVESTORS SHOULD READ THE ENTIRE OFFICIAL STATEMENT, INCLUDING ALL SCHEDULES AND APPENDICES ATTACHED HERETO, TO OBTAIN INFORMATION ESSENTIAL TO MAKING AN INFORMED INVESTMENT DECISION.

THIS OFFICIAL STATEMENT CONTAINS “FORWARD-LOOKING” STATEMENTS. SUCH STATEMENTS MAY INVOLVE KNOWN AND UNKNOWN RISKS, UNCERTAINTIES AND OTHER FACTORS WHICH MAY CAUSE THE ACTUAL RESULTS, PERFORMANCE AND ACHIEVEMENTS TO BE DIFFERENT FROM THE FUTURE RESULTS, PERFORMANCE AND ACHIEVEMENTS EXPRESSED OR IMPLIED BY SUCH FORWARD-LOOKING STATEMENTS. INVESTORS ARE CAUTIONED THAT THE ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE SET FORTH IN THE FORWARD-LOOKING STATEMENTS (SEE “FORWARD-LOOKING STATEMENTS” HEREIN).

References to web site addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader’s convenience. Unless specified otherwise, such web sites and the information or hyperlinks contained therein are not incorporated into, and are not part of, this final official statement for any purposes.

SELECTED DATA FROM THE OFFICIAL STATEMENT

The selected data is subject in all respects to the more complete information and definitions contained or incorporated in this Official Statement. The offering of the Bonds to potential investors is made only by means of this entire Official Statement. No person is authorized to detach this selected data from this Official Statement or to otherwise use it without the entire Official Statement.

The District	Conroe Independent School District (the “District”) is a political subdivision of the State of Texas (the “State”) located in Montgomery County, Texas. The District is governed by a seven-member Board of Trustees (the “Board”). Policy-making and supervisory functions are the responsibility of, and are vested in, the Board. The Board delegates administrative responsibilities to the Superintendent of Schools, who is the chief administrative officer of the District. Support services are supplied by consultants and advisors. For more information regarding the District, see “APPENDIX A – FINANCIAL INFORMATION REGARDING THE DISTRICT” and “APPENDIX B – GENERAL INFORMATION REGARDING THE DISTRICT AND ITS ECONOMY”.
Authority for Issuance	The District’s Unlimited Tax School Building Bonds, Series 2026 (the “Bonds”) are being issued pursuant to the Constitution and general laws of the State. The Bonds are being issued for school building purposes and are authorized by Chapter 45, Texas Education Code; Chapter 1371, Texas Government Code; an election held in and for the District on November 7, 2023 (the “Election”); and a bond order (the “Bond Order”) approved by the Board on September 16, 2025. In the Bond Order, the Board delegated to the District’s Superintendent of Schools or Chief Financial Officer (each a “Pricing Officer”) the authority to complete the sale of the Bonds. The final pricing information for the Bonds will be included in a pricing certificate (the “Pricing Certificate”) which will be approved and executed by a Pricing Officer (the Bond Order and the Pricing Certificate are collectively referred to as the “Order”) (see “THE BONDS – Authorization”).
The Bonds	The Bonds shall mature on the dates and in the amounts set forth on page ii of this Official Statement. The Bonds, when issued, will constitute valid and binding obligations of the District and will be payable solely from the proceeds of an annual ad valorem tax levied, without legal limit as to rate or amount, against all taxable property within the District.
Payment of Interest	Interest on the Bonds will accrue from the date of their initial delivery and will be payable on August 15, 2026 and semiannually thereafter on each succeeding February 15 and August 15 until maturity or prior redemption, and will be calculated on the basis of a 360-day year consisting of twelve 30-day months (see “THE BONDS – General Description”).
Security	The Bonds constitute direct obligations of the District, payable as to principal and interest from an annual ad valorem tax levied, without legal limit as to rate or amount, against all taxable property located within the District (see “THE BONDS – Security”). Also see “STATE AND LOCAL FUNDING OF SCHOOL DISTRICTS IN TEXAS” and “CURRENT PUBLIC SCHOOL FINANCE SYSTEM” for a discussion of recent developments in State law affecting the financing of school districts in the State. Additionally, for the Bonds, an application has been filed with, and the District has received conditional approval from, the Texas Education Agency for the payment of the Bonds to be guaranteed by the corpus of the Permanent School Fund of the State of Texas (see “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM”).
Redemption Provisions*	The Bonds maturing on and after February 15, 2036*, are subject to redemption prior to maturity at the option of the District, in whole or in part, in principal amounts of \$5,000 or any integral multiple thereof, on February 15, 2035*, or any date thereafter, at a redemption price equal to the principal amount thereof plus accrued interest to the date fixed for redemption. If two or more consecutive maturities are combined to create one or more term bonds (the “Term Bonds”), such Term Bonds will be subject to mandatory sinking fund redemption as provided herein (see “THE BONDS – Mandatory Sinking Fund Redemption”).
Use of Proceeds	Proceeds from the sale of the Bonds will be used for (i) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement and equipment of school buildings in the District, the purchase of the necessary sites for school buildings, and the purchase of new school buses, including new schools, campus additions, campus renovations and infrastructure, safety, transportation and technology improvements; (ii) the design, construction, acquisition, rehabilitation, renovation,

* Preliminary, subject to change.

expansion, improvement and upgrading of technology devices and instructional technology; (iii) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement, and equipment of school buildings in the District, including physical education classrooms/elementary gymnasiums and career and technical education agricultural barns; (iv) capitalized interest on the Bonds; and (v) to pay the costs of issuance related to the Bonds (see “THE BONDS – Purpose”).

Tax Exemption

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel, based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986. In the further opinion of Bond Counsel, interest on the Bonds is not a specific preference item for the purposes of the federal individual alternative minimum tax. Bond Counsel observes that interest on the Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds (see “TAX MATTERS”).

Ratings

Moody’s Investors Service (“Moody’s”) and S&P Global Ratings (“S&P”), have assigned municipal bond ratings of “Aaa” and “AAA”, respectively, to the Bonds based upon the guarantee of the Bonds by the Permanent School Fund of the State of Texas. Moody’s and S&P generally rate all bond issues guaranteed by the Permanent School Fund of the State of Texas “Aaa” and “AAA”, respectively (see “RATINGS” and “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM”).

The underlying rating for the Bonds (without consideration of the Permanent School Fund Guarantee or other credit enhancement) is “Aa2” (negative outlook) by Moody’s and “AA+” (stable outlook) by S&P (see “RATINGS”).

Book-Entry-Only System

The definitive Bonds will be initially registered and delivered only to Cede & Co., the nominee of The Depository Trust Company, New York, New York (“DTC”) pursuant to the Book-Entry-Only System described herein. Beneficial ownership of the Bonds may be acquired in denominations of \$5,000, or integral multiples thereof, of principal amount. No physical delivery of the Bonds will be made to the beneficial owners thereof. The principal amount of the Bonds at maturity, or amounts due upon a prior redemption date and interest with respect to the Bonds will be payable by the Paying Agent/Registrar (as defined below) to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds (see “BOOK-ENTRY-ONLY SYSTEM”).

Paying Agent/Registrar

The initial Paying Agent/Registrar for the Bonds is The Bank of New York Mellon Trust Company, N.A. (see “THE BONDS – Paying Agent/Registrar”).

Continuing Disclosure of Information

Pursuant to the Order, the District is obligated to provide certain updated financial information and operating data annually, and to provide timely notice of certain specified events which will be available to investors as described in the section captioned “CONTINUING DISCLOSURE OF INFORMATION.” Also see “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM – PSF Continuing Disclosure Undertaking” for a description of the undertaking of the Texas Education Agency to provide certain information on a continuing basis.

Payment Record

The District has never defaulted on the payment of its bonded indebtedness.

Legality

Delivery of the Bonds is subject to, among other things, the approval by the Attorney General of Texas and the rendering of an opinion as to legality by Orrick, Herrington & Sutcliffe LLP, Houston, Texas, Bond Counsel.

PRELIMINARY OFFICIAL STATEMENT RELATING TO
CONROE INDEPENDENT SCHOOL DISTRICT
(A political subdivision of the State of Texas located in Montgomery County, Texas)

\$442,915,000*
UNLIMITED TAX SCHOOL BUILDING BONDS, SERIES 2026

INTRODUCTORY STATEMENT

General

This Official Statement, including Appendices A, B and E, has been prepared by the Conroe Independent School District (the “District”), located in Montgomery County, Texas, in connection with the offering by the District of its Unlimited Tax School Building Bonds, Series 2026 (the “Bonds”).

All financial and other information presented in this Official Statement has been provided by the District from its records, except for information expressly attributed to other sources. The presentation of information, including tables of receipts from taxes and other sources, is intended to show recent historic information and is not intended to indicate future or continuing trends in the financial position or other affairs of the District. No representation is made that past experience, as is shown by that financial and other information, will necessarily continue or be repeated in the future (see “FORWARD LOOKING STATEMENTS”).

There follows in this Official Statement descriptions of the Bonds and the Order (as defined herein), and certain other information about the District and its finances. All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each such document. Copies of such documents may be obtained upon request by electronic mail or upon payment of reasonable copying, mailing, and handling charges by writing the District’s Financial Advisor, BOK Financial Securities, Inc., 1401 McKinney Street, Suite 1000, Houston, Texas 77010.

This Official Statement speaks only as of its date and the information contained herein is subject to change. A copy of the final Official Statement will be submitted to the Municipal Securities Rulemaking Board (the “MSRB”) and will be available through its Electronic Municipal Market Access (“EMMA”) system. See “CONTINUING DISCLOSURE OF INFORMATION” for information regarding the EMMA system and for a description of the District’s undertaking to provide certain information on a continuing basis.

THE BONDS

Authorization

The Bonds are being issued pursuant to the Constitution and general laws of the State of Texas (the “State”). The Bonds are authorized by Chapter 45, Texas Education Code; Chapter 1371, Texas Government Code; an election held in and for the District on November 7, 2023 (the “Election”); and a bond order (the “Bond Order”) approved by the Board of Trustees of the District (the “Board”) on September 16, 2025. In the Bond Order, the Board delegated to the District’s Superintendent of Schools or Chief Financial Officer (each a “Pricing Officer”) the authority to complete the sale of the Bonds. The final pricing information for the Bonds will be included in a pricing certificate (the “Pricing Certificate”), which will be approved and executed by a Pricing Officer (the Bond Order and the Pricing Certificate are collectively referred to as the “Order”). Capitalized terms used herein have the same meanings assigned to such terms in the Order, except as otherwise indicated.

Purpose

Proceeds from the sale of the Bonds will be used for (i) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement and equipment of school buildings in the District, the purchase of the necessary sites for school buildings, and the purchase of new school buses, including new schools, campus additions, campus renovations and infrastructure, safety, transportation and technology improvements; (ii) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement and upgrading of technology devices and instructional technology; (iii) the design, construction, acquisition, rehabilitation, renovation, expansion, improvement, and equipment of school buildings in the District, including physical education classrooms/elementary gymnasiums and career and technical education agricultural barns; (iv) capitalized interest on the Bonds; and (v) to pay the costs of issuance related to the Bonds.

General Description

The Bonds will accrue interest from the date of their initial delivery (the “Delivery Date”) to the Underwriters, and such interest is payable on February 15 and August 15 in each year, commencing August 15, 2026 until maturity or prior redemption. Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months. The paying agent and registrar for the Bonds is initially The Bank of New York Mellon Trust Company, N.A. (the “Paying Agent/Registrar”).

* Preliminary, subject to change.

Initially, the Bonds will be registered and delivered only to Cede & Co., the nominee of The Depository Trust Company, New York, New York (“DTC”), pursuant to the Book-Entry-Only System described herein. No physical delivery of the Bonds will be made to the beneficial owners. Principal amount of the Bonds at maturity or amounts due upon a prior redemption date and interest on the Bonds will be payable by the Paying Agent/Registrar to Cede & Co., which will distribute the amounts paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds. See “BOOK-ENTRY-ONLY SYSTEM” for a more complete description of such system.

Interest on the Bonds will be payable to the registered owner whose name appears on the bond registration books of the Paying Agent/Registrar at the close of business on the Record Date (hereinafter defined) and such accrued interest will be paid by (i) check sent by United States mail, first class, postage prepaid, to the address of the registered owner appearing on such registration books of the Paying Agent/Registrar or (ii) such other method, acceptable to the Paying Agent/Registrar, requested by, and at the risk and expense of, the registered owner. The record date for the interest payable on any interest payment date for the Bonds is the last business day of the month next preceding such interest payment date (see “THE BONDS – Record Date for Interest Payment”). The principal of the Bonds, at maturity or on a prior redemption date will be payable only upon presentation of such Bonds at the designated office of the Paying Agent/Registrar upon maturity or prior redemption, as applicable; provided, however, that so long as Cede & Co. (or other DTC nominee) is the registered owner of the Bonds, all payments will be made as described under “BOOK-ENTRY-ONLY SYSTEM” herein.

Security

The Bonds are direct obligations of the District and are payable as to principal and interest from an annual ad valorem tax levied, without legal limit as to rate or amount, on all taxable property within the District, as provided in the Order. Additionally, the District has received conditional approval from the Texas Education Agency for the payment of the Bonds to be guaranteed by the corpus of the Permanent School Fund of the State of Texas (see “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM,” “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM,” “STATE AND LOCAL FUNDING OF SCHOOL DISTRICTS IN TEXAS” and “CURRENT PUBLIC SCHOOL FINANCE SYSTEM”).

Permanent School Fund Guarantee

In connection with the sale of the Bonds, the District has received conditional approval from the Texas Commissioner of Education (the “Education Commissioner”) for guarantee of the Bonds under the Permanent School Fund Guarantee Program (Chapter 45, Subchapter C of the Texas Education Code, as amended). Subject to satisfying certain conditions discussed under the heading “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” herein, the Bonds will be guaranteed by the corpus of the Permanent School Fund of the State of Texas. In accordance with the terms of the Guarantee Program for School District Bonds (the “Permanent School Fund Guarantee”).

In the event of default of payment, registered owners will receive all payments due on the Bonds from the corpus of the Permanent School Fund. The Permanent School Fund Guarantee will terminate with respect to Bonds that are defeased (see “THE BONDS – Defeasance of Bonds” and “REGISTERED OWNERS’ REMEDIES”).

Paying Agent/Registrar

The initial Paying Agent/Registrar is The Bank of New York Mellon Trust Company, N.A. The District covenants that at all times while any Bonds are Outstanding it will provide a legally qualified bank, trust company, financial institution or other agency to act as Paying Agent/Registrar for the Bonds. The District reserves the right to change the Paying Agent/Registrar for the Bonds on not less than sixty (60) days’ written notice to the Paying Agent/Registrar, as long as any such notice is effective not less than 60 days prior to the next succeeding principal or interest payment date on the Bonds. Promptly upon the appointment of any successor Paying Agent/Registrar, the previous Paying Agent/Registrar shall deliver the Register or a copy thereof to the new Paying Agent/Registrar, and the new Paying Agent/Registrar shall notify each Owner, by United States mail, first class postage prepaid, of such change and of the address of the new Paying Agent/Registrar. Each Paying Agent/Registrar hereunder, by acting in that capacity, shall be deemed to have agreed to the provisions of the Bond Order.

Registration, Transfer and Exchange

In the event the Book-Entry-Only System should be discontinued, the Bonds may be transferred and exchanged on the registration books of the Paying Agent/Registrar only upon presentation and surrender thereof to the Paying Agent/Registrar at its designated payment office and such transfer or exchange shall be without expenses or service charge to the registered owner, except for any tax or other governmental charges required to be paid with respect to such registration, exchange for and transfer. Bonds may be assigned by the execution of an assignment form on the Bonds or by other instrument of transfer and assignment acceptable to the Paying Agent/Registrar. A new Bond or Bonds will be delivered by the Paying Agent/Registrar, in lieu of the Bond or Bonds being transferred or exchanged, at the designated payment office of the Paying Agent/Registrar, or sent by United States mail, first class, postage prepaid, to the new registered owner or his designee. To the extent possible, new Bonds issued in an exchange or transfer of Bonds will be delivered to the registered owner or assignee of the registered owner in not more than three business days after the receipt of the Bonds to be canceled, and the written instrument of transfer or request for exchange duly executed by the registered owner or his duly

authorized agent, in form satisfactory to the Paying Agent/Registrar. New Bonds registered and delivered in an exchange or transfer shall be in any integral multiple of \$5,000 of principal amount for any one maturity and for a like aggregate principal amount as the Bond or Bonds surrendered for exchange or transfer. See "BOOK-ENTRY-ONLY SYSTEM" herein for a description of the system to be utilized initially in regard to ownership and transferability of the Bonds.

Record Date for Interest Payment

The record date ("Record Date") for determining the person to whom the interest payable on the Bonds on any interest payment date means the close of business on the last business day of the month next preceding such interest payment date. In the event of a nonpayment of interest on a scheduled payment date that continues for 30 days or more thereafter a new record date for such interest payment (a "Special Record Date") will be established by the Paying Agent/Registrar, if and when funds for the payment of such interest have been received from or on behalf of the District. Notice of the Special Record Date and of the scheduled payment date of the past due interest shall be sent at least five business days prior to the Special Record Date by United States mail, first class, postage prepaid, to the address of each registered owner of a Bond appearing on the books of the Paying Agent/Registrar at the close of business on the last business day next preceding the date of mailing of such notice.

Optional Redemption*

The Bonds maturing on and after February 15, 2036* are subject to redemption prior to maturity, at the option of the District, in whole or in part, in principal amounts of \$5,000 or any integral multiple thereof, on February 15, 2035* or any date thereafter, at a redemption price equal to the principal amount thereof plus accrued interest to the date fixed for redemption. If less than all of the Bonds are to be redeemed, the District shall determine the principal amount and maturities (or mandatory sinking fund payment within a maturity with respect to Term Bonds) to be redeemed and shall direct the Paying Agent/Registrar to select by lot or other customary method that results in a random selection, the Bonds or portions thereof within a maturity, to be redeemed.

Mandatory Sinking Fund Redemption*

In addition to the foregoing optional redemption provision, if principal amounts designated in the serial maturity schedule on page ii hereof are combined to create one or more term Bonds (the "Term Bonds"), each such Term Bond shall be subject to mandatory sinking fund redemption commencing on February 15 of the first year which has been combined to form such Term Bond and continuing on February 15 in each year thereafter until the stated maturity date of that Term Bond, and the amount required to be redeemed in any year shall be equal to the principal amount for such year set forth in the serial maturity schedule on page ii hereof.

Prior to each scheduled mandatory redemption date, the Paying Agent/Registrar shall select for redemption by lot, or by any other customary method that results in a random selection, a principal amount of Term Bonds equal to the aggregate principal amount of such Term Bonds to be redeemed. The principal amount of the Term Bonds required to be redeemed on any mandatory sinking fund redemption date shall be reduced, at the option of the District, by the principal amount of any Term Bonds which, at least forty-five (45) days prior to the mandatory sinking fund redemption date (i) shall have been acquired by the District and delivered to the Paying Agent/Registrar for cancellation, or (ii) shall have been redeemed pursuant to the optional redemption provisions of the Order and not previously credited to a mandatory sinking fund redemption.

Notice of Redemption

At least 30 days prior to the date fixed for any such redemption of Bonds, the Paying Agent/Registrar shall cause a written notice of such redemption to be deposited in the United States mail, first-class postage prepaid, addressed to each registered owner at the address shown on the registration books of the Paying Agent/Registrar at the close of business on the business day next preceding the date of mailing such notice.

ANY NOTICE SO MAILED SHALL BE CONCLUSIVELY PRESUMED TO HAVE BEEN DULY GIVEN WHETHER OR NOT THE REGISTERED OWNER RECEIVES SUCH NOTICE. UPON THE GIVING OF THE NOTICE OF REDEMPTION AND ANY OTHER CONDITION TO REDEMPTION SATISFIED, THE BONDS CALLED FOR REDEMPTION SHALL BECOME DUE AND PAYABLE ON THE SPECIFIED REDEMPTION DATE, AND INTEREST ON SUCH BONDS OR PORTION THEREOF SHALL CEASE TO ACCRUE IRRESPECTIVE OF WHETHER SUCH BONDS ARE SURRENDERED FOR PAYMENT.

The Paying Agent/Registrar and the District, so long as a Book-Entry-Only System is used for the Bonds, will send any notice of redemption, notice of proposed amendment to the Order or other notices with respect to the Bonds only to DTC. Any failure by DTC to advise any DTC participant, or of any DTC participant or indirect participant to notify the beneficial owner, shall not affect the validity of the redemption of the Bonds called for redemption or any other action premised on any such notice. Redemption of portions of the Bonds by the District will reduce the outstanding principal amount of such Bonds held by DTC. In such event, DTC may implement, through its Book-Entry-Only System, a redemption of such Bonds held for the account of DTC participants in accordance with its rules or other agreements with DTC participants and then DTC participants and indirect participants may implement a redemption of such Bonds from the beneficial owners. Any such selection of Bonds to be redeemed will not be governed by the Order

* Preliminary, subject to change.

and will not be conducted by the District or the Paying Agent/Registrar. Neither the District nor the Paying Agent/Registrar will have any responsibility to DTC participants, indirect participants or the persons for whom DTC participants act as nominees, with respect to the payments on the Bonds or the providing of notice to DTC participants, indirect participants, or beneficial owners of the selection of portions of the Bonds selected for redemption (see “BOOK-ENTRY-ONLY SYSTEM”).

Legality

The Bonds are offered when, as and if issued, and subject to the approval of legality by the Attorney General of the State of Texas and the opinion of Orrick, Herrington & Sutcliffe LLP, Houston, Texas, Bond Counsel (see “LEGAL MATTERS” and “APPENDIX C – FORM OF LEGAL OPINION OF BOND COUNSEL”).

Payment Record

The District has never defaulted with respect to the payment of its bonded indebtedness.

Defeasance of Bonds*

The District reserves the right to redeem, refund, discharge or defease the Bonds in any manner now or hereafter permitted by law. The Permanent School Fund Guarantee will terminate with respect to Bonds that have been defeased.

Sources and Uses of Funds

The proceeds from the sale of the Bonds will be applied approximately as follows:

Sources:	
Principal Amount of the Bonds	\$
[Net] Original Issue Premium on the Bonds	
Total Sources of Funds	<u>\$</u>
Uses:	
Deposit to Construction Fund	\$
Deposit to Interest and Sinking Fund for Capitalized Interest	
Underwriters’ Discount	
Costs of Issuance(a)	
Total Uses of Funds	<u>\$</u>

^(a) Includes legal fees of the District, financial advisory fees, rating agency fees, fees of the Paying Agent/Registrar, contingency, and other costs of issuance.

Future Borrowing

At an election held on November 7, 2023, voters in the District approved \$1,972,877,000 in school building bonds. After the sale of the Bonds, the District will have \$332,877,000* of voter authorized but unissued bonds. Depending on the rate of development within the District, changes in assessed valuation, and the amounts, interest rates, maturities and the timing of issuance of any additional bonds, increases in the District’s annual ad valorem tax rate may be required to provide for the payment of the principal of and interest on the District’s outstanding bonds, the Bonds, and any such future bonds. See “APPENDIX A – FINANCIAL INFORMATION REGARDING THE DISTRICT – Table 9 – Authorized but Unissued Bonds.”

Other Borrowing

A Texas school district such as the District may also issue the following obligations or enter into agreements obligating payments of district funds including the levy of maintenance and operations taxes and/or use of State funds as follows:

- Maintenance tax notes for renovations to existing school buildings, lawful maintenance and operations expenses of the school district, or the purchase of equipment which are payable from a levy of maintenance and operations ad valorem tax and/or state funds lawfully available, but such notes are limited in outstanding aggregate principal amount not to exceed 75% of the previous year’s income.
- Delinquent maintenance tax notes for the maintenance, repair, rehabilitation, or equipping of existing school properties which are payable from delinquent taxes levied for maintenance purposes for specific past, current, and future school years.

* Preliminary, subject to change.

- Time warrants to construct, repair, renovate, or purchase school buildings or purchase school equipment which are payable from “available funds” of a school district, but such notes are limited to a total principal amount outstanding of \$1,000,000.
- Personal property finance contractual obligations for the use or the purchase or other acquisition of any personal property including equipment leases which are payable from the pledge of all or any part of any revenues, funds, or taxes available to the school district for its public purposes.
- Lease purchase agreements for the use or purchase or other acquisition of real property or an improvement to real property which are subject to annual appropriation and payable from a source other than ad valorem taxes; the payments under such agreements are not considered payment of indebtedness of the school district.
- Other types of revenue debt generally payable from revenues from the sale of surplus school district land or from revenues of specified revenue generating facilities.

At the current time, the District has no such obligations outstanding and no plans to issue any such obligations or to enter any such agreements obligating payment of District funds.

BOOK-ENTRY-ONLY SYSTEM

This section describes how ownership of the Bonds is to be transferred and principal of, premium, if any, redemption payments and interest on the Bonds are to be paid to and credited by DTC while the Bonds are registered in its nominee name. The information in this section concerning DTC and the Book-Entry-Only System has been provided by DTC for use in disclosure documents such as this Official Statement. The District, the Financial Advisor and the Underwriters believe the source of such information to be reliable, but none of the District, the Financial Advisor or the Underwriters take any responsibility for the accuracy or completeness thereof.

The District and the Underwriters cannot and do not give any assurance that (1) DTC will distribute payments of debt service on the Bonds, or redemption or other notices, to DTC Participants, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the Bonds), or redemption or other notices, to the Beneficial Owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this Official Statement. The current rules applicable to DTC are on file with the Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC.

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each stated maturity of Bonds, as set forth on page ii hereof, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard & Poor’s rating of “AA+.” The DTC Rules applicable to its Participants are on file with the United States Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, principal amounts and interest payments will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent/Registrar, on payable dates in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as in the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent/Registrar or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds and principal and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered.

Use of Certain Terms in Other Sections of this Official Statement

In reading this Official Statement it should be understood that while the Bonds are in the Book-Entry-Only System, references in other sections of this Official Statement to registered owners should be read to include the person for which the Participant acquires an interest in the Bonds, but (i) all rights of ownership must be exercised through DTC and the Book-Entry-Only System, and (ii) except as described above, notices that are to be given to registered owners under the Order will be given only to DTC.

Information concerning DTC and the Book-Entry-Only System has been obtained from DTC and is not guaranteed as to accuracy or completeness by, and is not to be construed as a representation by the District, the Financial Advisor or the Underwriters.

Effect of Termination of Book-Entry-Only System

In the event that the Book-Entry-Only System is discontinued by DTC or the use of the Book-Entry-Only System is discontinued by the District, printed Bonds will be issued to the holders and the Bonds will be subject to transfer, exchange and registration provisions as set forth in the Order and summarized under "THE BONDS - Registration, Transfer and Exchange" above.

REGISTERED OWNERS' REMEDIES

The Order does not provide for the appointment of a trustee to represent the interests of the Bondholders upon any failure of the District to perform in accordance with the terms of the Order or upon any other condition and, in the event of any such failure to perform, the registered owners would be responsible for the initiation and cost of any legal action to enforce performance of the Order. Furthermore, the Order does not establish specific events of default with respect to the Bonds and, under State law, there is no right to the acceleration of maturity of the Bonds upon the failure of the District to observe any covenant under the Order. A registered owner of Bonds could seek a judgment against the District if a default occurred in the payment of principal of or interest on any such Bonds; however, such judgment could not be satisfied by execution against any property of the District and a suit for monetary damages could be vulnerable to the defense of sovereign immunity. A registered owner's only practical remedy, if a default occurs, is a mandamus or mandatory

injunction proceeding to compel the District to levy, assess and collect an annual ad valorem tax sufficient to pay principal of and interest on the Bonds as it becomes due or perform other material terms and covenants contained in the Order. In general, Texas courts have held that a writ of mandamus may be issued to require a public official to perform legally imposed ministerial duties necessary for the performance of a valid contract, and Texas law provides that, following their approval by the Attorney General and issuance, the Bonds are valid and binding obligations for all purposes according to their terms. However, the enforcement of any such remedy may be difficult and time consuming and a registered owner could be required to enforce such remedy on a periodic basis.

Chapter 1371, Texas Government Code (“Chapter 1371”), which forms part of the authority for the issuance of the Bonds, permits the District to waive sovereign immunity in the proceedings authorizing the issuance of the Bonds. However, the District has not waived the defense of sovereign immunity with respect thereto. Because it is unclear whether the Texas Legislature has effectively waived the District’s sovereign immunity from a suit for money damages beyond Chapter 1371, Bondholders may not be able to bring such a suit against the District for breach of the Bonds or Order covenants.

The District is also eligible to seek relief from its creditors under Chapter 9 of the U.S. Bankruptcy Code (“Chapter 9”). Although Chapter 9 provides for the recognition of a security interest represented by a specifically pledged source of revenues, the pledge of taxes in support of a general obligation of a bankrupt entity is not specifically recognized as a security interest under Chapter 9. Chapter 9 also includes an automatic stay provision that would prohibit, without Bankruptcy Court approval, the prosecution of any other legal action by creditors or Bond holders of an entity which has sought protection under Chapter 9. Therefore, should the District avail itself of Chapter 9 protection from creditors, the ability to enforce would be subject to the approval of the Bankruptcy Court (which could require that the action be heard in Bankruptcy Court instead of other federal or state court); and the Bankruptcy Code provides for broad discretionary powers of a Bankruptcy Court in administering any proceeding brought before it. The opinion of Bond Counsel will note that all opinions relative to the enforceability of the Order and the Bonds are qualified with respect to the customary rights of debtors that are political subdivisions relative to their creditors, including rights afforded to creditors under the Bankruptcy Code.

See “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” and “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” herein for a description of the procedures to be followed for payment of the bonds by the Permanent School Fund in the event that the District fails to make a payment on the Bonds when due.

THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM

Subject to satisfying certain conditions, the payment of the Bonds will be guaranteed by the corpus of the Permanent School Fund of the State of Texas. In the event of default, registered owners will receive all payments due on the Bonds from the Permanent School Fund, and the Charter District Bond Guarantee Reserve would be the first source to pay debt service if a charter school was unable to make such payment. See “APPENDIX D – THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM” for pertinent information regarding the Permanent School Fund Guarantee Program. The disclosure regarding the Permanent School Fund Guarantee Program in APPENDIX D is incorporated herein and made a part hereof for all purposes.

LEGAL MATTERS

The District will furnish to the Underwriters a complete transcript of the proceedings incident to the authorization and issuance of the Bonds, including the unqualified approving legal opinion of the Attorney General of the State of Texas to the effect that the Bonds are valid and legally binding obligations of the District, and based upon examination of such transcript of proceedings, the approving legal opinion of Orrick, Herrington & Sutcliffe LLP, Houston, Texas, Bond Counsel in substantially the form attached hereto as APPENDIX C.

Though it represents the Financial Advisor and the Underwriters from time to time in matters unrelated to the issuance of the Bonds, Bond Counsel has been engaged by and only represents the District in connection with the issuance of the Bonds. Except as noted below, Bond Counsel did not take part in the preparation of the Official Statement, and such firm has not assumed any responsibility with respect hereto or undertaken independently to verify any of the information contained herein except that in its capacity as Bond Counsel, such firm has reviewed the information appearing under captions or subcaptions, “THE BONDS” (except for the information under the subcaptions “Permanent School Fund Guarantee,” “Payment Record,” “Sources and Uses of Funds,” “Future Borrowing,” and “Other Borrowing,” as to which no opinion is expressed), and “CONTINUING DISCLOSURE OF INFORMATION” (except for the information under the subcaption “Compliance with Prior Undertakings,” as to which no opinion is expressed), excluding any material that may be treated as included under such captions by cross-reference or reference to other documents or sources, and Bond Counsel is of the opinion that the statements and information contained therein fairly and accurately reflect the provisions of the Order; further, Bond Counsel has reviewed the statements and information contained in this Official Statement under the captions and sub-captions “LEGAL MATTERS” (except for the last two sentences of the second paragraph and the third paragraph, as to which no opinion is expressed), “TAX MATTERS,” “REGISTRATION AND QUALIFICATION OF BONDS FOR SALE,” “STATE AND LOCAL FUNDING OF SCHOOL DISTRICTS IN TEXAS,” “CURRENT PUBLIC SCHOOL FINANCE SYSTEM,” “TAX RATE LIMITATIONS,” and “LEGAL INVESTMENTS AND ELIGIBILITY TO SECURE PUBLIC FUNDS IN TEXAS,” excluding any material that may be treated as included under such captions by cross-reference or reference to other documents or sources, and Bond Counsel is of the opinion that the statements and information contained therein are correct as to matters of law. The legal fee to be paid Bond Counsel for services rendered in connection with the issuance of the Bonds is contingent upon the sale and delivery of the Bonds. The legal opinion of Bond Counsel will accompany

the Bonds deposited with DTC or will be printed on the definitive Bonds in the event of the discontinuance of the Book-Entry-Only System. Certain legal matters will be passed upon for the Underwriters by their counsel, Bracewell LLP, Houston, Texas. The legal fee of such firm is contingent upon the sale and delivery of the Bonds.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction. Nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

TAX MATTERS

In the opinion of Orrick, Herrington & Sutcliffe LLP, Bond Counsel (“Bond Counsel”), based upon an analysis of existing laws, regulations, rulings and court decisions, and assuming, among other matters, the accuracy of certain representations and compliance with certain covenants, interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986 (the “Code”). Bond Counsel is of the further opinion that interest on the Bonds is not a specific preference item for purposes of the federal individual alternative minimum tax. Bond Counsel observes that interest on the Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. Bond Counsel expresses no opinion regarding any other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds. A complete copy of the proposed form of opinion of Bond Counsel is set forth in APPENDIX C hereto.

To the extent the issue price of any maturity of the Bonds is less than the amount to be paid at maturity of such Bonds (excluding amounts stated to be interest and payable at least annually over the term of such Bonds), the difference constitutes “original issue discount,” the accrual of which, to the extent properly allocable to each Beneficial Owner thereof, is treated as interest on the Bonds which is excluded from gross income for federal income tax purposes. For this purpose, the issue price of a particular maturity of the Bonds is the first price at which a substantial amount of such maturity of the Bonds is sold to the public (excluding bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). The original issue discount with respect to any maturity of the Bonds accrues daily over the term to maturity of such Bonds on the basis of a constant interest rate compounded semiannually (with straight-line interpolations between compounding dates). The accruing original issue discount is added to the adjusted basis of such Bonds to determine taxable gain or loss upon disposition (including sale, redemption, or payment on maturity) of such Bonds. Beneficial Owners of the Bonds should consult their own tax advisors with respect to the tax consequences of ownership of Bonds with original issue discount, including the treatment of Beneficial Owners who do not purchase such Bonds in the original offering to the public at the first price at which a substantial amount of such Bonds is sold to the public.

Bonds purchased, whether at original issuance or otherwise, for an amount higher than their principal amount payable at maturity (or, in some cases, at their earlier call date) (“Premium Bonds”) will be treated as having amortizable bond premium. No deduction is allowable for the amortizable bond premium in the case of obligations, like the Premium Bonds, the interest on which is excluded from gross income for federal income tax purposes. However, the amount of tax-exempt interest received, and a Beneficial Owner’s basis in a Premium Bond, will be reduced by the amount of amortizable bond premium properly allocable to such Beneficial Owner. Beneficial Owners of Premium Bonds should consult their own tax advisors with respect to the proper treatment of amortizable bond premium in their particular circumstances.

The Code imposes various restrictions, conditions and requirements relating to the exclusion from gross income for federal income tax purposes of interest on obligations such as the Bonds. The District has made certain representations and covenanted to comply with certain restrictions, conditions and requirements designed to ensure that interest on the Bonds will not be included in federal gross income. Inaccuracy of these representations or failure to comply with these covenants may result in interest on the Bonds being included in gross income for federal income tax purposes, possibly from the date of original issuance of the Bonds. The opinion of Bond Counsel assumes the accuracy of these representations and compliance with these covenants. Bond Counsel has not undertaken to determine (or to inform any person) whether any actions taken (or not taken), or events occurring (or not occurring), or any other matters coming to Bond Counsel’s attention after the date of issuance of the Bonds may adversely affect the value of, or the tax status of interest on, the Bonds. Accordingly, the opinion of Bond Counsel is not intended to, and may not, be relied upon in connection with any such actions, events or matters.

Although Bond Counsel is of the opinion that interest on the Bonds is excluded from gross income for federal income tax purposes, the ownership or disposition of, or the accrual or receipt of amounts treated as interest on, the Bonds may otherwise affect a Beneficial Owner’s federal, state or local tax liability. The nature and extent of these other tax consequences depends upon the particular tax status of the Beneficial Owner or the Beneficial Owner’s other items of income or deduction. Bond Counsel expresses no opinion regarding any such other tax consequences.

Current and future legislative proposals, if enacted into law, clarification of the Code or court decisions may cause interest on the Bonds to be subject, directly or indirectly, in whole or in part, to federal income taxation or otherwise prevent Beneficial Owners from realizing the full current benefit of the tax status of such interest. The introduction or enactment of any such legislature proposals or clarification

of the Code or court decisions may also affect, perhaps significantly, the market price for, or marketability of, the Bonds. Prospective purchasers of the Bonds should consult their own tax advisors regarding the potential impact of any pending or proposed federal or state tax legislation, regulations or litigation, as to which Bond Counsel expresses no opinion.

The opinion of Bond Counsel is based on current legal authority, covers certain matters not directly addressed by such authorities, and represents Bond Counsel's judgment as to the proper treatment of the Bonds for federal income tax purposes. It is not binding on the Internal Revenue Service ("IRS") or the courts. Furthermore, Bond Counsel cannot give and has not given any opinion or assurance about the future activities of the District or about the effect of future changes in the Code, the applicable regulations, the interpretation thereof or the enforcement thereof by the IRS. The District has covenanted, however, to comply with the requirements of the Code.

Bond Counsel's engagement with respect to the Bonds ends with the issuance of the Bonds, and, unless separately engaged, Bond Counsel is not obligated to defend the District or the Beneficial Owners regarding the tax-exempt status of the Bonds in the event of an audit examination by the IRS. Under current procedures, Beneficial Owners would have little, if any, right to participate in the audit examination process. Moreover, because achieving judicial review in connection with an audit examination of tax-exempt bonds is difficult, obtaining an independent review of IRS positions with which the District legitimately disagrees, may not be practicable. Any action of the IRS, including but not limited to selection of the Bonds for audit, or the course or result of such audit, or an audit of bonds presenting similar tax issues may affect the market price for, or the marketability of, the Bonds, and may cause the District or the Beneficial Owners to incur significant expense.

Payments on the Bonds generally will be subject to U.S. information reporting and possibly to "backup withholding." Under Section 3406 of the Code and applicable U.S. Treasury Regulations issued thereunder, a non-corporate Beneficial Owner of Bonds may be subject to backup withholding with respect to "reportable payments," which include interest paid on the Bonds and the gross proceeds of a sale, exchange, redemption, retirement or other disposition of the Bonds. The payor will be required to deduct and withhold the prescribed amounts if (i) the payee fails to furnish a U.S. taxpayer identification number ("TIN") to the payor in the manner required, (ii) the IRS notifies the payor that the TIN furnished by the payee is incorrect, (iii) there has been a "notified payee underreporting" described in Section 3406(c) of the Code or (iv) the payee fails to certify under penalty of perjury that the payee is not subject to withholding under Section 3406(a)(1)(C) of the Code. Amounts withheld under the backup withholding rules may be refunded or credited against a Beneficial Owner's federal income tax liability, if any, provided that the required information is timely furnished to the IRS. Certain Beneficial Owners (including among others, corporations and certain tax-exempt organizations) are not subject to backup withholding. The failure to comply with the backup withholding rules may result in the imposition of penalties by the IRS.

REGISTRATION AND QUALIFICATION OF BONDS FOR SALE

No registration statement relating to the Bonds has been filed with the United States Securities and Exchange Commission under the Securities Act of 1933, as amended, in reliance upon the exemption provided thereunder by Section 3(a)(2). The Bonds have not been approved or disapproved by the United States Securities and Exchange Commission, nor has the United States Securities and Exchange Commission passed upon the accuracy or adequacy of the Official Statement. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein; nor have the Bonds been registered or qualified under the securities acts of any other jurisdiction. The District assumes no responsibility for registration or qualification of the Bonds under the securities laws of any jurisdiction in which the Bonds may be sold, assigned, pledged, hypothecated or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions.

It is the obligation of the Underwriters to register or qualify the sale of the Bonds under the securities laws of any jurisdiction which so requires. The District agrees to cooperate, at the Underwriters' written request and sole expense, in registering or qualifying the Bonds or in obtaining an exemption from registration or qualification in any state where such action is necessary; provided, however, that the District shall not be required to qualify as a foreign corporation or to execute a general or special consent to service of process in any jurisdiction.

STATE AND LOCAL FUNDING OF SCHOOL DISTRICTS IN TEXAS

Litigation Relating to the Texas Public School Finance System

On seven occasions in the last thirty years, the Texas Supreme Court (the "Court") has issued decisions assessing the constitutionality of the Texas public school finance system (the "Finance System"). The litigation has primarily focused on whether the Finance System, as amended by the Texas Legislature (the "Legislature") from time to time (i) met the requirements of article VII, section 1 of the Texas Constitution, which requires the Legislature to "establish and make suitable provision for the support and maintenance of an efficient system of public free schools," or (ii) imposed a statewide ad valorem tax in violation of article VIII, section 1-e of the Texas Constitution because the statutory limit on property taxes levied by school districts for maintenance and operation purposes had allegedly denied school districts meaningful discretion in setting their tax rates. In response to the Court's previous decisions, the Legislature enacted multiple laws that made substantive changes in the way the Finance System is funded in efforts to address the prior decisions declaring the Finance System unconstitutional.

On May 13, 2016, the Court issued its opinion in the most recent school finance litigation, *Morath, et.al v. The Texas Taxpayer and Student Fairness Coalition, et al.*, 490 S.W. 3d 826 (Tex.2016) (“*Morath*”). The plaintiffs and intervenors in the case had alleged that the Finance System, as modified by the Legislature in part in response to prior decisions of the Court, violated article VII, section 1 and article VIII, section 1-e of the Texas Constitution. In its opinion, the Court held that “[d]espite the imperfections of the current school funding regime, it meets minimum constitutional requirements.” The Court also noted that:

Lawmakers decide if laws pass, and judges decide if those laws pass muster. But our lenient standard of review in this policy-laden area counsels modesty. The judicial role is not to second-guess whether our system is optimal, but whether it is constitutional. Our Byzantine school funding “system” is undeniably imperfect, with immense room for improvement. But it satisfies minimum constitutional requirements.

Possible Effects of Changes in Law on District Bonds

The Court’s decision in *Morath* upheld the constitutionality of the Finance System but noted that the Finance System was “undeniably imperfect.” While not compelled by the *Morath* decision to reform the Finance System, the Legislature could enact future changes to the Finance System. Any such changes could benefit or be a detriment to the District. If the Legislature enacts future changes to, or fails adequately to fund the Finance System, or if changes in circumstances otherwise provide grounds for a challenge, the Finance System could be challenged again in the future. In its 1995 opinion in *Edgewood Independent School District v. Meno*, 917 S.W.2d 717 (Tex. 1995), the Court stated that any future determination of unconstitutionality “would not, however, affect the district’s authority to levy the taxes necessary to retire previously issued bonds, but would instead require the Legislature to cure the system’s unconstitutionality in a way that is consistent with the Contract Clauses of the U.S. and Texas Constitutions” (collectively, the “Contract Clauses”), which prohibit the enactment of laws that impair prior obligations of contracts.

Although, as a matter of law, the Bonds, upon issuance and delivery, will be entitled to the protections afforded previously existing contractual obligations under the Contract Clauses, the District can make no representations or predictions concerning the effect of future legislation, or any litigation that may be associated with such legislation, on the District’s financial condition, revenues or operations. While the enactment of future legislation to address school funding in Texas could adversely affect the financial condition, revenues or operations of the District, the District does not anticipate that the security for payment of the Bonds, specifically, the District’s obligation to levy an unlimited debt service tax and any Permanent School Fund guarantee of the Bonds would be adversely affected by any such legislation (see “CURRENT PUBLIC SCHOOL FINANCE SYSTEM”).

CURRENT PUBLIC SCHOOL FINANCE SYSTEM

Overview

The following language constitutes only a summary of the Finance System as it is currently structured. The information contained under the captions “CURRENT PUBLIC SCHOOL FINANCE SYSTEM” and “TAX RATE LIMITATIONS” is subject to change, and only reflects the District’s understanding based on information available to the District as of the date of this Official Statement. For a more complete description of school finance and fiscal management in the State, reference is made to Chapters 43 through 49 of the Texas Education Code, as amended. Additionally, prospective investors are encouraged to review the Property Tax Code (as defined herein) for definitive requirements for the levy and collection of ad valorem taxes and the calculation of the defined tax rates.

Local funding for school districts is derived from collections of ad valorem taxes levied on property located within each school district’s boundaries. School districts are authorized to levy two types of property taxes: (i) a maintenance and operations (“M&O”) tax to pay current expenses and (ii) an interest and sinking fund (“I&S”) tax to pay debt service on bonds. School districts are prohibited from levying an M&O tax rate for the purpose of creating a surplus in M&O tax revenues to pay the district’s debt service. School districts are required to demonstrate their ability to pay debt service on outstanding bonded indebtedness through the levy of an I&S tax at a rate not to exceed \$0.50 per \$100 of taxable value at the time bonds are issued. Once bonds are issued, however, school districts generally may levy an I&S tax sufficient to pay debt service on such bonds unlimited as to rate or amount. See “TAX RATE LIMITATIONS - I&S Tax Rate Limitations” herein. Because property values vary widely among school districts, the amount of local funding generated by school districts with the same I&S tax rate and M&O tax rate is subject to wide variation; however, the public school finance funding formulas are designed to generally equalize local funding generated by a school district’s M&O tax rate.

2025 Legislative Session

The regular session of the 89th Texas Legislature commenced on January 14, 2025 and concluded on June 2, 2025 (the “89th Regular Session”). The Legislature meets in regular session in odd numbered years for 140 days. When the Legislature is not in session, the Governor of Texas (the “Governor”) may call one or more special sessions, at the Governor’s discretion, each lasting no more than 30 days, and for which the Governor sets the agenda. The Governor has called and the Legislature has concluded two special sessions since the conclusion of the 89th Regular Session. Additional special sessions may be called by the Governor.

During the 89th Regular Session, the Legislature adopted a general appropriations act and legislation affecting the Finance System and ad valorem taxation procedures and exemptions, and investments, among other legislation affecting school districts and the administrative agencies that oversee school districts. Legislation passed by both houses of the Legislature increases: (1) the State mandated general homestead exemption from \$100,000 to \$140,000, (2) the additional exemption on the residence homesteads of those at least sixty-five (65) years of age or disabled from \$10,000 to \$60,000, and (3) the exemption for tangible property used in the production of income from the current \$2,500 to \$125,000. Voters approved constitutional amendments authorizing the new exemptions at a statewide election held on November 4, 2025. Additionally, the Legislature passed legislation authorizing roughly \$8.5 billion in funding for public schools and providing districts with a \$55 per-student increase to their base funding beginning September 1, 2025, as well as additional funding for teacher and staff salaries, educator preparation, special education, safety requirements and early childhood learning.

Finally, legislation passed by the Legislature created an Education Savings Account (“ESA”) Program (commonly referred to as vouchers) for students that attend private schools or are homeschooled. The legislation becomes effective September 1, 2025, when the State fiscal biennium begins, though families will not receive ESA funds until the 2026-2027 school year. The amount spent for purposes of the program for the 2025-2027 biennium may not exceed \$1 billion. Beginning on September 1, 2027, the legislation requires the Legislature to reappropriate funds for the program for each subsequent State fiscal biennium. Such program could impact attendance in the District by incentivizing students to homeschool or attend private schools, which could negatively affect the District's attendance-based funding.

Local Funding for School Districts

A school district's M&O tax rate is composed of two distinct parts: the “Tier One Tax Rate”, which is the local M&O tax rate required for a school district to receive any part of the basic level of State funding (referred to herein as “Tier One”) under the Foundation School Program, as further described below, and the “Enrichment Tax Rate”, which is any local M&O tax effort in excess of its Tier One Tax Rate. The formulas for the State Compression Percentage and Maximum Compressed Tax Rate (each as described below) are designed to compress M&O tax rates in response to year-over-year increases in property values across the State and within a school district, respectively. The discussion in this subcaption “Local Funding For School Districts” is generally intended to describe funding provisions applicable to all school districts; however, there are distinctions in the funding formulas for school districts that generate local M&O tax revenues in excess of the school districts' funding entitlements, as further discussed under the subcaption “CURRENT PUBLIC SCHOOL FINANCE SYSTEM – Local Revenue Level In Excess of Entitlement” herein.

State Compression Percentage. The State Compression Percentage (the “SCP”) is a statutorily-defined percentage of the rate of \$1.00 per \$100 that is used to determine a school district's Maximum Compressed Tax Rate (described below). The SCP is the lesser of three alternative calculations: (1) 93% or a lower percentage set by appropriation for a school year; (2) a percentage determined by formula if the estimated total taxable property value of the State (as submitted annually to the State Legislature by the State Comptroller) has increased by at least 2.5% over the prior year; and (3) the prior year SCP. For any year, the maximum SCP is 93%. For the State fiscal year ending in 2026, the SCP is set at 63.22%.

Maximum Compressed Tax Rate. The Maximum Compressed Tax Rate (the “MCR”) is the tax rate per \$100 of valuation of taxable property at which a school district must levy its Tier One Tax Rate to receive the full amount of the Tier One funding to which the school district is entitled. The MCR is equal to the lesser of two alternative calculations: (1) the school district's current year SCP multiplied by \$1.00; or (2) a percentage determined by formula if the school district experienced a year-over-year increase in property value of at least 2.5% (if the increase in property value is less than 2.5%, then the MCR is equal to the prior year MCR). However, each year the TEA shall evaluate the MCR for each school district in the State, and for any given year, if a school district's MCR is calculated to be less than 90% of any other school district's MCR for the current year, then the school district's MCR is instead equal to the school district's prior year MCR, until TEA determines that the difference between the school district's MCR and any other school district's MCR is not more than 10%. These compression formulas are intended to more closely equalize local generation of Tier One funding among districts with disparate tax bases and generally reduce the Tier One Tax Rates of school districts as property values increase. During the 2025 Legislative Session, the Legislature took action to reduce the MCR for the 2025-2026 school year. The MCR for the 2025-2026 school year is \$0.6322 and the floor is \$0.5689.

In calculating and making available school districts' MCRs for the 2025-2026 school year, the TEA calculated and made available the rates as if the increase in the residence homestead exemption under Section 1-b(c), Article VIII, Texas Constitution, as proposed by the 89th Legislature, Regular Session, 2025, took effect. Such calculation for the 2025-2026 school year expires September 1, 2026. At a Statewide election held on November 4, 2025, voters approved constitutional amendments which increases (1) the State mandated general homestead exemption from \$100,000 to \$140,000, and (2) the additional exemption on the residence homesteads of those at least sixty-five (65) years of age or disabled from \$10,000 to \$60,000. Such constitutional amendments take effect for the tax year beginning January 1, 2025.

Tier One Tax Rate. A school district's Tier One Tax Rate is defined as a school district's M&O tax rate levied that does not exceed the school district's MCR.

Enrichment Tax Rate. The Enrichment Tax Rate is the number of cents a school district levies for M&O in excess of the Tier One Tax Rate, up to an additional \$0.17. The Enrichment Tax Rate is divided into two components: (i) “Golden Pennies” which are the first \$0.08 of tax effort in excess of a school district’s Tier One Tax Rate; and (ii) “Copper Pennies” which are the next \$0.09 in excess of a school district’s Tier One Tax Rate plus Golden Pennies.

School districts may levy an Enrichment Tax Rate at a level of their choice, subject to the limitations described under “TAX RATE LIMITATIONS – Public Hearing and Voter-Approval Tax Rate”; however, to levy any of the Enrichment Tax Rate in a given year, a school district must levy a Tier One Tax Rate equal to the school district’s MCR.

State Funding for School Districts

State funding for school districts is provided through the two-tiered Foundation School Program, which guarantees certain levels of funding for school districts in the State. School districts are entitled to a legislatively appropriated guaranteed yield on their Tier One Tax Rate and Enrichment Tax Rate. When a school district’s Tier One Tax Rate and Enrichment Tax Rate generate tax revenues at a level below the respective entitlement, the State will provide “Tier One” funding or “Tier Two” funding, respectively, to fund the difference between the school district’s entitlements and the actual M&O revenues generated by the school district’s respective M&O tax rates.

The first level of funding, Tier One, is the basic level of funding guaranteed to all school districts based on a school district’s Tier One Tax Rate. Tier One funding may then be “enriched” with Tier Two funding. Tier Two provides a guaranteed entitlement for each cent of a school district’s Enrichment Tax Rate, allowing a school district increase or decrease its Enrichment Tax Rate to supplement Tier One funding at a level of the school district’s own choice. While Tier One funding may be used for the payment of debt service (except for school districts subject to the recapture provisions of Chapter 49 of the Texas Education Code, as discussed herein), and in some instances is required to be used for that purpose (see “TAX RATE LIMITATIONS – I&S Tax Rate Limitations”), Tier Two funding may not be used for the payment of debt service or capital outlay.

The current public school finance system also provides an Existing Debt Allotment (“EDA”) to subsidize debt service on eligible outstanding school district bonds, an Instructional Facilities Allotment (“IFA”) to subsidize debt service on newly issued bonds, and a New Instructional Facilities Allotment (“NIFA”) to subsidize operational expenses associated with the opening of a new instructional facility. IFA primarily addresses the debt service needs of property-poor school districts.

Tier One and Tier Two allotments represent the State’s share of the cost of M&O expenses of school districts, with local M&O taxes representing the school district’s local share. EDA and IFA allotments supplement a school district’s local I&S taxes levied for debt service on eligible bonds issued to construct, acquire and improve facilities, provided that a school district qualifies for such funding and that the State Legislature makes sufficient appropriations to fund the allotments for a State fiscal biennium. Tier One and Tier Two allotments and existing EDA and IFA allotments are generally required to be funded each year by the State Legislature.

Tier One. Tier One funding is the basic level of funding guaranteed to a school district, consisting of a State-appropriated baseline level of funding (the “Basic Allotment”) for each student in “Average Daily Attendance” (being generally calculated as the sum of student attendance, other than students in average daily attendance who do not reside in the district and are enrolled in a full-time virtual program, for each State-mandated day of instruction divided by the number of State-mandated days of instruction, defined herein as “ADA”). The Basic Allotment is revised downward if a school district’s Tier One Tax Rate is less than the State-determined threshold. The Basic Allotment is supplemented by additional State funds, allotted based upon unique school district characteristics and demographics of students in ADA, to make up most of a school district’s Tier One entitlement under the Foundation School Program.

The Basic Allotment for school districts with a Tier One Tax Rate equal to the school district’s MCR, is \$6,160 plus the guaranteed yield increment adjustment (the “GYIA”) for each student in ADA and is revised downward for school districts with a Tier One Tax Rate lower than the school district’s MCR. The GYIA is established by October 1 of each even-numbered year for the subsequent biennium. For the 2026-27 biennium, the GYIA is set at \$55. The Basic Allotment is then supplemented for all school districts by various weights to account for differences among school districts and their student populations. Such additional allotments include, but are not limited to, increased funds for students in ADA who: (i) attend a qualified special education program, (ii) are diagnosed with dyslexia or a related disorder, (iii) are economically disadvantaged, or (iv) have limited English language proficiency. Additional allotments to mitigate differences among school districts include, but are not limited to: (i) a transportation allotment for mileage associated with transporting students who reside two miles or more from their home campus, (ii) a fast growth allotment (for school districts in the top 25% of enrollment growth relative to other school districts), (iii) a college, career and military readiness allotment to further the State’s goal of increasing the number of students who attain a post-secondary education or workforce credential, and (iv) a teacher incentive allotment to increase teacher compensation and retention in disadvantaged or rural school districts. A school district’s total Tier One funding, divided by the district’s Basic Allotment is a school district’s measure of students in “Weighted Average Daily Attendance” (“WADA”), which serves to calculate Tier Two funding.

The fast growth allotment weights change to 0.48 for districts in the top 40% of school districts for growth, 0.33 for districts in the middle 30% of school districts for growth and 0.18 for districts in the bottom 30% of school districts for growth. The fast growth allotment is limited to \$320 million for each year of the 2026-2027 state fiscal biennium.

Tier Two. Tier Two supplements Tier One funding and provides two levels of enrichment with different guaranteed yields (i.e., Golden Pennies and Copper Pennies) depending on the school district's Enrichment Tax Rate. Golden Pennies generate a guaranteed yield equal to the Basic Allotment multiplied by 0.02084. For the 2026-2027 State fiscal biennium, school districts are guaranteed a yield on each Golden Penny levied of \$129.52 per student in WADA. Copper Pennies generate a guaranteed yield per student in WADA equal to the school district's Basic Allotment multiplied by 0.008. For the 2026-2027 State fiscal biennium, school districts are guaranteed a yield on each Copper Penny levied of \$49.72 per student in WADA.

Existing Debt Allotment, Instructional Facilities Allotment, and New Instructional Facilities Allotment. The Foundation School Program also includes facilities funding components consisting of the IFA and the EDA, subject to legislative appropriation each State fiscal biennium. To the extent funded for a biennium, these programs assist school districts in funding facilities by, generally, equalizing a school district's I&S tax effort. The IFA guarantees each awarded school district a specified amount per student (the "IFA Yield") in State and local funds for each cent of I&S tax levied to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate or improve instructional facilities. The IFA Yield has been \$35 since this program first began in 1997. New awards of IFA are only available if appropriated funds are allocated for such purpose by the State Legislature. To receive an IFA award, in years where new IFA awards are available, a school district must apply to the Commissioner in accordance with rules adopted by the TEA before issuing the bonds to be paid with IFA State assistance. The total amount of debt service assistance over a biennium for which a school district may be awarded is limited to the lesser of (1) the actual debt service payments made by the school district in the biennium in which the bonds are issued; or (2) the greater of (a) \$100,000 or (b) \$250 multiplied by the number of students in ADA. The IFA is also available for lease-purchase agreements and refunding bonds meeting certain prescribed conditions. Once a school district receives an IFA award for bonds, it is entitled to continue receiving State assistance for such bonds without reapplying to the Commissioner. A school district may use additional state aid received from an IFA award only to pay the principal of and interest on the bonds for which the district received the aid. The guaranteed level of State and local funds per student percent of local tax effort applicable to the bonds may not be reduced below the level provided for the year in which the bonds were issued. For the 2026-2027 State fiscal biennium, the State Legislature did not appropriate any funds for new IFA awards; however, awards previously granted in years the State Legislature did appropriate funds for new IFA awards will continue to be funded.

State financial assistance is provided for certain existing eligible debt issued by school districts through the EDA program. The EDA guaranteed yield (the "EDA Yield") is the lesser of (i) \$40 per student in ADA or a greater amount for any year provided by appropriation; or (ii) the amount that would result in a total additional EDA of \$60 million more than the EDA to which school districts would have been entitled to if the EDA Yield were \$35. The portion of a school district's local debt service rate that qualifies for EDA assistance is limited to the first \$0.29 of its I&S tax rate (or a greater amount for any year provided by appropriation by the State Legislature). In general, a school district's bonds are eligible for EDA assistance if (i) the school district made payments on the bonds during the final fiscal year of the preceding State fiscal biennium, or (ii) the school district levied taxes to pay the principal of and interest on the bonds for that fiscal year. Each biennium, access to EDA funding is determined by the debt service taxes collected in the final year of the preceding biennium. A school district may not receive EDA funding for the principal and interest on a series of otherwise eligible bonds for which the school district receives IFA funding.

Since future-year IFA awards were not funded by the State Legislature for the 2026-2027 State fiscal biennium and debt service assistance on school district bonds that are not yet eligible for EDA is not available, debt service payments during the 2026-2027 State fiscal biennium on new bonds issued by school districts in the 2026-2027 State fiscal biennium to construct, acquire and improve facilities must be funded solely from local I&S taxes, except to the extent the bonds of a school district are eligible for hold harmless funding from the State for local tax revenue lost as a result of an increase in the mandatory homestead exemption. See "State Funding For School Districts – Tax Rate and Funding Equity" below.

A school district may also qualify for a NIFA allotment, which provides assistance to school districts for operational expenses associated with opening new instructional facilities or a renovated portion of an instructional facility to be used for the first time to provide high-cost and undersubscribed career and technology education programs, as determined by the Commissioner. In the 89th Regular Session, the Legislature appropriated funds in the amount of \$150,000,000 for each fiscal year of the 2026-2027 State fiscal biennium for NIFA allotments.

Tax Rate and Funding Equity. The Commissioner may proportionally reduce the amount of funding a school district receives under the Foundation School Program and the ADA calculation if the school district operates on a calendar that provides less than the State-mandated minimum instruction time in a school year. The Commissioner may also adjust a school district's ADA as it relates to State funding where disaster, flood, extreme weather or other calamity has a significant effect on a school district's attendance.

For the 2026-2027 school year, school districts will be held harmless and entitled to additional state aid to the extent that state and local revenue used to service eligible debt is less than the state and local revenue that would have been available to the district under state law providing for state aid to districts to account for increases in the general residence homestead exemption and the elderly or disabled tax ceiling, if any increase in a residence homestead exemption under the Texas Constitution, and any additional limitation on tax increases under the elderly or disabled tax ceiling had not occurred.

Local Revenue Level in Excess of Entitlement

A school district that has sufficient property wealth per student in ADA to generate local revenues on the school district's Tier One Tax Rate and Copper Pennies in excess of the school district's respective funding entitlements (a "Chapter 49 school district"), is subject to the local revenue reduction provisions contained in Chapter 49 of Texas Education Code, as amended ("Chapter 49"). Additionally, in years in which the amount of State funds appropriated specifically excludes the amount necessary to provide the guaranteed yield for Golden Pennies, local revenues generated on a school district's Golden Pennies in excess of the school district's respective funding entitlement are subject to the local revenue reduction provisions of Chapter 49. To reduce local revenue, Chapter 49 school districts are generally subject to a process known as "recapture", which requires a Chapter 49 school district to exercise certain options to remit local M&O tax revenues collected in excess of the Chapter 49 school district's funding entitlements to the State (for redistribution to other school districts) or otherwise expending the respective M&O tax revenues for the benefit of students in school districts that are not Chapter 49 school districts, as described in the subcaption "Options for Local Revenue Levels in Excess of Entitlement". Chapter 49 school districts receive their allocable share of funds distributed from the constitutionally-prescribed Available School Fund, but are generally not eligible to receive State aid under the Foundation School Program, although they may continue to receive State funds for certain competitive grants and certain programs that remain outside the Foundation School Program.

Recapture is measured by the "local revenue level" (being the M&O tax revenues generated in a school district) in excess of the entitlements appropriated by the State Legislature each fiscal biennium. Therefore, school districts are now guaranteed that recapture will not reduce revenue below their statutory entitlement.

Options for Local Revenue Levels in Excess of Entitlement. Under Chapter 49, a school district has six options to reduce local revenues to a level that does not exceed the school district's respective entitlements: (1) a school district may consolidate by agreement with one or more school districts to form a consolidated school district; all property and debt of the consolidating school districts vest in the consolidated school district; (2) a school district may detach property from its territory for annexation by a property-poor school district; (3) a school district may purchase attendance credits from the State; (4) a school district may contract to educate nonresident students from a property-poor school district by sending money directly to one or more property-poor school districts; (5) a school district may execute an agreement to provide students of one or more other school districts with career and technology education through a program designated as an area program for career and technology education; or (6) a school district may consolidate by agreement with one or more school districts to form a consolidated taxing school district solely to levy and distribute either M&O taxes or both M&O taxes and I&S taxes. A Chapter 49 school district may also exercise any combination of these remedies. Options (3), (4) and (6) require prior approval by the Chapter 49 school district's voters. A district that enters into an agreement to exercise an option to reduce the district's local revenue level in excess of entitlement under options (3), (4), or (5) for the 2025-2026 school year and that has not previously held an election to exercise said options may request and may receive approval from the Commissioner to delay the date of the election otherwise required to be ordered before September 1. The Commissioner shall set a date by which each district that receives approval to delay an election must order the election and requires the Commissioner, not later than the 2026-2027 school year, to order detachment and annexation of district property or consolidation as necessary to reduce the district's excess local revenue to the level established by law for a district that receives approval to delay an election and subsequently fails to hold the election or does not receive voter approval at the election. A district that receives approval of a request to delay the date of an election shall pay for credit purchased in equal monthly payments as determined by the Commissioner beginning March 15, 2026, and ending August 15, 2026. Alternatively, the district may pay for credit purchased with one lump sum payment made not later than August 15, 2026, provided that the district notifies the Commissioner of the district's election to pay through a lump sum not later than March 15, 2026.

Furthermore, a school district may not adopt a tax rate until its effective local revenue level is at or below the level that would produce its guaranteed entitlement under the Foundation School Program. If a school district fails to exercise a permitted option, the Commissioner must reduce the school district's local revenue level to the level that would produce the school district's guaranteed entitlement, by detaching certain types of property from the school district and annexing the property to a property-poor school district or, if necessary, consolidate the school district with a property-poor school district. Provisions governing detachment and annexation of taxable property by the Commissioner do not provide for assumption of any of the transferring school district's existing debt.

THE SCHOOL FINANCE SYSTEM AS APPLIED TO THE DISTRICT

For the 2025-2026 school year, the District was designated as an "excess local revenue" district by the TEA. In accordance with Chapter 49, the District has entered into an agreement to purchase attendance credits. However, the District is not subject to an obligation to make recapture payments.

A district's local revenue levels must be tested for each future school year and, if local revenues exceed the district's entitlements, the district must reduce its wealth per student by the exercise of one of the permitted wealth equalization options. Accordingly, if the District's local revenues should exceed its entitlements in future school years, it will be required to exercise one or more of the permitted options to reduce local revenues.

If the District were to consolidate (or consolidate its tax base for all purposes) with a district not designated as an excess local revenue district, the outstanding debt of each district could become payable from the consolidated district's combined property tax base, and the District's ratio of taxable property to debt could become diluted. If the District were to detach property voluntarily, a portion of its

outstanding debt (including the Bonds) could be assumed by the district to which the property is annexed, in which case timely payment of the Bonds could become dependent in part on the financial performance of an annexing district (see “CURRENT PUBLIC SCHOOL FINANCE SYSTEM – Local Revenue Level in Excess of Entitlement” herein).

AD VALOREM TAX PROCEDURES

The following is a summary of certain provisions of State law as it relates to ad valorem taxation and is not intended to be complete. Reference is made to Title I of the Texas Tax Code, as amended (the “Property Tax Code”), for identification of property subject to ad valorem taxation, property exempt or which may be exempted from ad valorem taxation if claimed, the appraisal of property for ad valorem tax purposes, and the procedures and limitations applicable to the levy and collection of ad valorem taxes. See “CURRENT PUBLIC SCHOOL FINANCE SYSTEM – 2025 Legislative Session” for a discussion of certain legislation affecting ad valorem taxation.

Valuation of Taxable Property

The Property Tax Code provides for countywide appraisal and equalization of taxable property values and establishes in each county of the State an appraisal district and an appraisal review board (the “Appraisal Review Board”) responsible for appraising property for all taxing units within the county. The appraisal of property within the District is the responsibility of the Montgomery Central Appraisal District (the “Appraisal District”). Except as generally described below, the Appraisal District is required to appraise all property within the Appraisal District on the basis of 100% of its market value and is prohibited from applying any assessment ratios. In determining market value of property, the Appraisal District is required to consider the cost method of appraisal, the income method of appraisal and the market data comparison method of appraisal, and use the method the chief appraiser of the Appraisal District considers most appropriate. The Property Tax Code requires appraisal districts to reappraise all property in its jurisdiction at least once every three years. A taxing unit may require annual review at its own expense, and is entitled to challenge the determination of appraised value of property within the taxing unit by petition filed with the Appraisal Review Board.

State law requires the appraised value of an owner’s principal residence (“homestead” or “homesteads”) to be based solely on the property’s value as a homestead, regardless of whether residential use is considered to be the highest and best use of the property. State law further limits the appraised value of a homestead to the lesser of (1) the market value of the property or (2) 110% of the appraised value of the property for the preceding tax year plus the market value of all new improvements to the property (the “10% Homestead Cap”). The 10% increase is cumulative, meaning the maximum increase is 10% times the number of years since the property was last appraised.

Through December 31, 2026 an appraisal district is prohibited from increasing the appraised value of real property during the 2025 tax year on certain non-homestead properties (the “Subjected Property”) whose appraised values are not more than \$5,160,000 (the “Maximum Property Value”) to an amount not to exceed the lesser of: (1) the market value of the Subjected Property for the most recent tax year that the market value was determined by the appraisal office or (2) the sum of: (a) 20 percent of the appraised value of the Subjected Property for the preceding tax year; (b) the appraised value of the Subjected Property for the preceding tax year; and (c) the market value of all new improvements to the Subjected Property. The Maximum Property Value may be increased or decreased by the product of the preceding state fiscal year’s increase or decrease in the consumer price index, as applicable, to the maximum property value.

State law provides that eligible owners of both agricultural land and open-space land, including open-space land devoted to farm or ranch purposes or open-space land devoted to timber production, may elect to have such property appraised for property taxation on the basis of its productive capacity (“Productivity Value”). The same land may not be qualified as both agricultural and open-space land.

The appraisal values set by the Appraisal District are subject to review and change by the Appraisal Review Board. The appraisal rolls, as approved by the Appraisal Review Board, are used by taxing units, such as the District, in establishing their tax rolls and tax rates (see “– District and Taxpayer Remedies”).

State Mandated Homestead Exemptions

State law grants, with respect to each school district in the State, (1) a \$140,000 exemption of the appraised value of all homesteads, (2) a \$60,000 exemption of the appraised value of the homesteads of persons 65 years of age or older and the disabled, and (3) various exemptions for disabled veterans and their families, surviving spouses of members of the armed services killed in action and surviving spouses of first responders killed or fatally wounded in the line of duty. Pursuant to a Statewide election held on November 4, 2025, voters approved an increase in the residential homestead exemptions as follows: (1) the State mandated general homestead exemption from \$100,000 to \$140,000, and (2) the additional exemption on the residence homesteads of those at least sixty-five (65) years of age or disabled from \$10,000 to \$60,000. These increases are effective and apply retroactively to the 2025 tax year.

Local Option Homestead Exemptions

The governing body of a taxing unit, including a city, county, school district, or special district, at its option may grant: (1) an exemption of up to 20% of the appraised value of all homesteads (but not less than \$5,000) and (2) an additional exemption of at least \$3,000 of the appraised value of the homesteads of persons sixty-five (65) years of age or older and the disabled. Each taxing unit decides if it will offer the local option homestead exemptions and at what percentage or dollar amount, as applicable. The exemption described in (2), above, may also be created, increased, decreased or repealed at an election called by the governing body of a taxing unit upon presentment of a petition for such creation, increase, decrease, or repeal of at least 20% of the number of qualified voters who voted in the preceding election of the taxing unit. Cities, counties and school districts are prohibited from reducing or repealing an optional homestead exemption described in clause (1) above that was granted in tax year 2022 through December 31, 2027.

State Mandated Freeze on School District Taxes

Except for increases attributable to certain improvements, a school district is prohibited from increasing the total ad valorem tax on the homestead of persons sixty-five (65) years of age or older or of disabled persons above the amount of tax imposed in the year such homestead qualified for such exemption. This freeze is transferable to a different homestead if a qualifying taxpayer moves, and, under certain circumstances, is also transferable to the surviving spouse of persons sixty-five (65) years of age or older, but not the disabled.

Personal Property

Tangible personal property (furniture, machinery, supplies, inventories, etc.) used in the “production of income” is taxed based on the property’s market value. Taxable personal property includes income-producing equipment and inventory. Intangibles such as goodwill, accounts receivable, and proprietary processes are not taxable. Tangible personal property not held or used for production of income, such as household goods, automobiles or light trucks, and boats, is exempt from ad valorem taxation unless the governing body of a taxing unit elects to tax such property. At a Statewide election held on November 4, 2025, voters approved an increase in the residential homesteads exemptions as follows: an exemption from taxation by a taxing unit of \$125,000 of the appraised value of tangible personal property the person owns that is held or used for the production of income and has taxable situs at the same location in the taxing unit. A person who leases tangible personal property is also entitled to a tax exemption of \$125,000, regardless of where the property is located in the taxing unit.

Freeport and Goods-in-Transit Exemptions

Certain goods that are acquired in or imported into the State to be forwarded outside the State, and are detained in the State for 175 days or less for the purpose of assembly, storage, manufacturing, processing or fabrication (“Freeport Property”) are exempt from ad valorem taxation unless a taxing unit took official action to tax Freeport Property before April 1, 1990 and has not subsequently taken official action to exempt Freeport Property. Decisions to continue taxing Freeport Property may be reversed in the future; decisions to exempt Freeport Property are not subject to reversal.

Certain goods, that are acquired in or imported into the State to be forwarded to another location within or outside the State, stored in a location that is not owned by the owner of the goods and are transported to another location within or outside the State within 175 days (“Goods-in-Transit”), are generally exempt from ad valorem taxation; however, the Property Tax Code permits a taxing unit, on a local option basis, to tax Goods-in-Transit if the taxing unit takes official action, after conducting a public hearing, before January 1 of the first tax year in which the taxing unit proposes to tax Goods-in-Transit. Goods-in-Transit and Freeport Property do not include oil, natural gas or petroleum products, and Goods-in-Transit does not include aircraft or special inventories such as manufactured housing inventory, or a dealer’s motor vehicle, boat, or heavy equipment inventory.

A taxpayer may receive only one of the Goods-in-Transit or Freeport Property exemptions for items of personal property.

Temporary Exemption for Qualified Property Damaged by a Disaster

The Property Tax Code entitles the owner of certain qualified (i) tangible personal property used for the production of income, (ii) improvements to real property, and (iii) manufactured homes located in an area declared by the Governor to be a disaster area following a disaster and is at least 15 percent physically damaged by the disaster, as determined by the chief appraiser, to an exemption from taxation of a portion of the appraised value of the property. The amount of the exemption ranges from 15 percent to 100 percent based upon the damage assessment rating assigned by the chief appraiser. The governing body of the taxing unit is generally not required to take any action in order for the taxpayer to be eligible for the exemption. If a taxpayer qualifies for the exemption after the beginning of the tax year, the amount of the exemption is prorated based on the number of days left in the tax year following the day on which the Governor declares the area to be a disaster area. The Legislature recently amended Section 11.35, Property Tax Code, to clarify that “damage” for the purpose of the statute is limited to “physical damage.” For more information on the exemption, reference is made to Section 11.35 of the Property Tax Code.

Other Exempt Property

Other major categories of exempt property include property owned by the State or its political subdivisions if used for public purposes, property exempt by federal law, property used for pollution control, farm products owned by producers, property of nonprofit corporations used for scientific research or educational activities benefitting a college or university, designated historic sites, solar and wind-powered energy devices, and certain classes of intangible personal property. Beginning with the 2026 tax year, all intangible personal property is exempt from State taxation.

Tax Increment Reinvestment Zones

A city or county, by petition of the landowners or by action of its governing body, may create one or more tax increment reinvestment zones (“TIRZ”) within its boundaries. At the time of the creation of the TIRZ, a “base value” for the real property in the TIRZ is established and the difference between any increase in the assessed valuation of taxable real property in the TIRZ in excess of the base value is known as the “tax increment”. During the existence of the TIRZ, all or a portion of the taxes levied against the tax increment by a city or county, and all other overlapping taxing units that elected to participate, are restricted to paying only planned project and financing costs within the TIRZ and are not available for the payment of other obligations of such taxing units.

Until September 1, 1999, school districts were able to reduce the value of taxable property reported to the State to reflect any taxable value lost due to TIRZ participation by the school district. The ability of the school district to deduct the taxable value of the tax increment that it contributed prevented the school district from being negatively affected in terms of state school funding. However, due to a change in law, local M&O tax rate revenue contributed to a TIRZ created on or after May 31, 1999 will count toward a school district’s Tier One entitlement (reducing Tier One State funds for eligible school districts) and will not be considered in calculating any school district’s Tier Two entitlement (see “CURRENT PUBLIC SCHOOL FINANCE SYSTEM – State Funding for School Districts”).

Tax Limitation Agreements

The Texas Economic Development Act (Chapter 313, Texas Tax Code, as amended), allowed school districts to grant limitations on appraised property values to certain corporations and limited liability companies to encourage economic development within the school district. Generally, during the last eight (8) years of the ten-year term of a tax limitation agreement under Chapter 313, a school district may only levy and collect M&O taxes on the agreed-to limited appraised property value. For the purposes of calculating its Tier One and Tier Two entitlements, the portion of a school district’s property that is not fully taxable is excluded from the school district’s taxable property values. Therefore, a school district will not be subject to a reduction in Tier One or Tier Two State funds as a result of lost M&O tax revenues due to entering into a tax limitation agreement (see “CURRENT PUBLIC SCHOOL FINANCE SYSTEM – State Funding for School Districts”). The 87th Texas Legislature did not vote to extend this program, which expired by its terms effective December 31, 2022. In the 88th Legislative Session, House Bill 5 (“HB 5” or “The Texas Jobs, Energy, Technology, and Innovation Act”) was adopted to create an economic development program, subject to state oversight, which would attract jobs and investment to Texas through school district property tax abatement agreements with businesses. HB5 was codified as Chapter 403, Subchapter T, Texas Government Code (“Chapter 403”) and had an effective date of January 1, 2024. Under Chapter 403, a school district may offer a 50% abatement on taxable value for maintenance and operations property taxes for certain eligible projects, except that projects in a federally designated economic opportunity zone receive a 75% abatement. Chapter 403 also provides a 100% abatement of maintenance and operations taxes for eligible property during a project’s construction period. Taxable valuation for purposes of the debt service tax securing a series of bonds cannot be abated under Chapter 403. Eligible projects must involve manufacturing, dispatchable power generation facilities, technology research/development facilities, or critical infrastructure projects and projects must create and maintain jobs, as well as meet certain minimum investment requirements. The District is still in the process of reviewing Chapter 403 and cannot make any representations as to what impact, if any, Chapter 403 will have on its finances or operations.

For a discussion of how the various exemptions described above are applied by the District, see “THE PROPERTY TAX CODE AS APPLIED TO THE DISTRICT” herein.

District and Taxpayer Remedies

Under certain circumstances, taxpayers and taxing units, including the District, may appeal the determinations of the Appraisal District by timely initiating a protest with the Appraisal Review Board. Additionally, taxing units such as the District may bring suit against the Appraisal District to compel compliance with the Property Tax Code.

Owners of certain property with a taxable value in excess of the current year “minimum eligibility amount”, as determined by the State Comptroller, and situated in a county with a population of one million or more, may protest the determinations of an appraisal district directly to a three-member special panel of the appraisal review board, appointed by the chairman of the appraisal review board, consisting of highly qualified professionals in the field of property tax appraisal. The minimum eligibility amount is set at \$61,349,201 for the 2025 tax year, and is adjusted annually by the State Comptroller to reflect the inflation rate.

The Property Tax Code sets forth notice and hearing procedures for certain tax rate increases by the District and provides for taxpayer referenda that could result in the repeal of certain tax increases (see “TAX RATE LIMITATIONS – Public Hearing and Voter-Approval Tax Rate”). The Property Tax Code also establishes a procedure for providing notice to property owners of reappraisals reflecting increased property value, appraisals which are higher than renditions, and appraisals of property not previously on an appraisal roll.

Levy and Collection of Taxes

The District is responsible for the collection of its taxes, unless it elects to transfer such functions to another governmental entity. Taxes are due October 1, or when billed, whichever comes later, and become delinquent after January 31 of the following year. A delinquent tax incurs a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent, plus one percent (1%) for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. If the tax is not paid by July 1 of the year in which it becomes delinquent, the tax incurs a total penalty of twelve percent (12%) regardless of the number of months the tax has been delinquent and incurs an additional penalty of up to twenty percent (20%) if imposed by the District. The delinquent tax also accrues interest at a rate of one percent (1%) for each month or portion of a month it remains unpaid. The Property Tax Code also makes provision for the split payment of taxes, discounts for early payment and the postponement of the delinquency date of taxes for certain taxpayers. Furthermore, the District may provide, on a local option basis, for the split payment, partial payment, and discounts for early payment of taxes under certain circumstances. The Property Tax Code permits taxpayers owning homes or certain businesses located in a disaster area and damaged as a direct result of the declared disaster to pay taxes imposed in the year following the disaster in four equal installments without penalty or interest, commencing on February 1 and ending on August 1. See “– Temporary Exemption for Qualified Property Damaged by a Disaster” above for further information related to a discussion of the applicability of this section of the Property Tax Code.

District’s Rights in the Event of Tax Delinquencies

Taxes levied by the District are a personal obligation of the owner of the property. On January 1 of each year, a tax lien attaches to property to secure the payment of all state and local taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of each taxing unit, including the District, having power to tax the property. The District’s tax lien is on a parity with tax liens of such other taxing units. A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien, whether or not the debt or lien existed before the attachment of the tax lien; however, whether a lien of the United States is on a parity with or takes priority over a tax lien of the District is determined by applicable federal law. Personal property, under certain circumstances, is subject to seizure and sale for the payment of delinquent taxes, penalty, and interest.

At any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the District must join other taxing units that have claims for delinquent taxes against all or part of the same property.

Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, adverse market conditions, taxpayer redemption rights, or bankruptcy proceedings which restrain the collection of a taxpayer’s debt.

Federal bankruptcy law provides that an automatic stay of actions by creditors and other entities, including governmental units, goes into effect with the filing of any petition in bankruptcy. The automatic stay prevents governmental units from foreclosing on property and prevents liens for post-petition taxes from attaching to property and obtaining secured creditor status unless, in either case, an order lifting the stay is obtained from the bankruptcy court. In many cases, post-petition taxes are paid as an administrative expense of the estate in bankruptcy or by order of the bankruptcy court.

THE PROPERTY TAX CODE AS APPLIED TO THE DISTRICT

The Appraisal District has the responsibility for appraising property in the District as well as other taxing units in Montgomery County. The Appraisal District is governed by a board of directors appointed by voters of the governing bodies of various political subdivisions in Montgomery County. The District’s taxes are collected by the Montgomery County Tax Assessor-Collector (see “AD VALOREM TAX PROCEDURES – Valuation of Taxable Property”). In addition to the state mandated exemptions, the District applies the Property Tax Code, as follows:

The District grants a \$5,000 local option, additional exemption for persons who are 65 years of age or older and disabled persons above the amount of the State-mandated exemption.

The District has not granted a local option, additional exemption of up to 20% of the market value of residence homesteads.

The District does not tax non-business personal property.

Ad valorem taxes are not levied by the District against the exempt value of residence homesteads for the payment of debt.

The District does exempt Freeport Property from taxation.

The District has taken action not to tax Goods-in-Transit.

The District is not currently a participant in any TIRZ.

The District is not currently a participant in any tax abatement or tax limitation agreements.

The Board of Trustees has approved a resolution initiating an additional 20% penalty to defray attorney costs in the collection of delinquent taxes over and above the penalty automatically assessed under the Property Tax Code.

Split payments of taxes are not permitted. Discounts for the early payment of taxes are not permitted.

TAX RATE LIMITATIONS

M&O Tax Rate Limitations

The District is authorized to levy an M&O tax rate pursuant to the approval of the voters of the District at an election held on May 25, 1963 in accordance with the provisions of Article 2784e-1, Texas Revised Civil Statutes Annotated, as amended.

The maximum M&O tax rate per \$100 of taxable value that may be adopted by a school district is the sum of \$0.17 (subject to compression of the nine available copper pennies in a year in which the State increases the guaranteed yield on those pennies) and the school district's MCR. A school district's MCR is, generally, inversely proportional to the change in taxable property values both within the school district and the State, and is subject to recalculation annually. For any year, the highest possible MCR for a school district is \$0.93 (see "TAX RATE LIMITATIONS – Public Hearing and Voter-Approval Tax Rate" and "CURRENT PUBLIC SCHOOL FINANCE SYSTEM – Local Funding for School Districts" herein).

Furthermore, a school district cannot annually increase its tax rate in excess of the school district's Voter-Approval Tax Rate without submitting such tax rate to an election and a majority of the voters voting at such election approving the adopted rate (see "– Public Hearing and Voter-Approval Tax Rate" herein).

I&S Tax Rate Limitations

A school district is also authorized to issue bonds and levy taxes for payment of bonds subject to voter approval of one or more propositions submitted to the voters under Section 45.003(b)(1), Texas Education Code, as amended, which provides a tax unlimited as to rate or amount for the support of school district bonded indebtedness (see "THE BONDS – Security").

Section 45.0031, Texas Education Code, as amended, requires a school district to demonstrate to the Texas Attorney General that it has the prospective ability to pay its maximum annual debt service on a proposed issue of bonds and all previously issued bonds, other than bonds approved by district voters at an election held on or before April 1, 1991 and issued before September 1, 1992 (or debt issued to refund such bonds, collectively, "exempt bonds"), from a tax levied at a rate of \$0.50 per \$100 of assessed valuation before bonds may be issued (the "50-cent Test"). In demonstrating the ability to pay debt service at a rate of \$0.50, a school district may take into account EDA and IFA allotments to the school district, which effectively reduce the school district's local share of debt service, and may also take into account Tier One funds allotted to the school district. If a school district exercises this option, it may not adopt an I&S tax until it has credited to the school district's I&S fund an amount equal to all State allotments provided solely for payment of debt service and any Tier One funds needed to demonstrate compliance with the threshold tax rate test and which is received or to be received in that year. Additionally, a school district may demonstrate its ability to comply with the 50-cent Test by applying the \$0.50 tax rate to an amount equal to 90% of projected future taxable value of property in the school district, as certified by a registered professional appraiser, anticipated for the earlier of the tax year five (5) years after the current tax year or the tax year in which the final payment for the bonds is due. However, if a school district uses projected future taxable values to meet the 50-cent Test and subsequently imposes a tax at a rate greater than \$0.50 per \$100 of valuation to pay for bonds subject to the test, then for subsequent bond issues, the Attorney General must find that the school district has the projected ability to pay principal and interest on the proposed bonds and all previously issued bonds subject to the 50-cent Test from a tax rate of \$0.45 per \$100 of valuation. Once the prospective ability to pay such tax has been shown and the bonds are issued, a school district may levy an unlimited tax to pay debt service. Refunding bonds issued pursuant to Chapter 1207, Texas Government Code, are not subject to the 50-cent Test; however, taxes levied to pay debt service on such bonds (other than bonds issued to refund exempt bonds) are included in maximum annual debt service for calculation of the 50-cent Test when applied to subsequent bond issues that are subject to the 50-cent Test. **The Bonds are issued for school building purposes pursuant to Chapter 45, Texas Education Code as new debt and are subject to the 50-cent test.** The District has not used projected property values or State assistance (other than EDA or IFA allotment funding) to satisfy this threshold test.

Public Hearing and Voter-Approval Tax Rate

A school district's total tax rate is the combination of the M&O tax rate and the I&S tax rate. Generally, the highest rate at which a school district may levy taxes for any given year without holding an election to approve the tax rate is the "Voter-Approval Tax Rate," as described below.

A school district is required to adopt its annual tax rate before the later of September 30 or the sixtieth (60th) day after the date the certified appraisal roll is received by the taxing unit, except that a tax rate that exceeds the Voter-Approval Tax Rate must be adopted not later than the seventy-first (71st) day before the next occurring November uniform election date. A school district's failure to adopt a tax rate equal to or less than the Voter-Approval Tax Rate by September 30 or the sixtieth (60th) day after receipt of the certified appraisal roll, will result in the tax rate for such school district for the tax year to be the lower of the "no-new-revenue tax rate" calculated for that tax year or the tax rate adopted by the school district for the preceding tax year. A school district's failure to adopt a tax rate in excess of the Voter-Approval Tax Rate on or prior to the seventy-first (71st) day before the next occurring November uniform election date, will result in the school district adopting a tax rate equal to or less than its Voter-Approval Tax Rate by the later of September 30 or the sixtieth (60th) day after receipt of the certified appraisal roll. "No-new-revenue tax rate" means the rate that will produce the prior year's total tax levy from the current year's total taxable values, adjusted such that lost values are not included in the calculation of the prior year's taxable values and new values are not included in the current year's taxable values.

The Voter-Approval Tax Rate for a school district is the sum of (i) the school district's MCR; (ii) the greater of (a) the school district's Enrichment Tax Rate for the preceding year, less any amount by which the school district is required to reduce its current year Enrichment Tax Rate pursuant to Section 48.202(f), Education Code, as amended, or (b) the rate of \$0.05 per \$100 of taxable value; and (iii) the school district's current I&S tax rate. A school district's M&O tax rate may not exceed the rate equal to the sum of (i) \$0.17 (subject to compression of the nine available copper pennies in a year in which the State increases the guaranteed yield on those pennies) and (ii) the school district's MCR (see "CURRENT PUBLIC SCHOOL FINANCE SYSTEM" herein, for more information regarding the State Compression Percentage, MCR, and the Enrichment Tax Rate).

The governing body of a school district generally cannot adopt a tax rate exceeding the school district's Voter-Approval Tax Rate without approval by a majority of the voters approving the higher rate at an election to be held on the next uniform election date. Further, subject to certain exceptions for areas declared disaster areas, State law requires the board of trustees of a school district to conduct an efficiency audit before seeking voter approval to adopt a tax rate exceeding the Voter-Approval Tax Rate and sets certain parameters for conducting and disclosing the results of such efficiency audit. An election is not required for a tax increase to address increased expenditures resulting from certain natural disasters in the year following the year in which such disaster occurs; however, the amount by which the increased tax rate exceeds the school district's Voter-Approval Tax Rate for such year may not be considered by the school district in the calculation of its subsequent Voter-Approval Tax Rate.

The calculation of the Voter-Approval Tax Rate does not limit or impact the District's ability to set an I&S tax rate in each year sufficient to pay debt service on all of the District's I&S tax-supported debt obligations, including the Bonds.

Before adopting its annual tax rate, a public meeting must be held for the purpose of adopting a budget for the succeeding year. A notice of public meeting to discuss the school district's budget and proposed tax rate must be published in the time, format and manner prescribed in Section 44.004 of the Texas Education Code. Section 44.004(e) of the Texas Education Code provides that a person who owns taxable property in a school district is entitled to an injunction restraining the collection of taxes by the school district if the school district has not complied with such notice requirements or the language and format requirements of such notice as set forth in Section 44.004(b), (c), (c-1), (c-2), and (d), and, if applicable, subsection (i), and if such failure to comply was not in good faith. Section 44.004(e) further provides the action to enjoin the collection of taxes must be filed before the date the school district delivers substantially all of its tax bills. A school district that elects to adopt a tax rate before the adoption of a budget for the fiscal year that begins in the current tax year may adopt a tax rate for the current tax year before receipt of the certified appraisal roll, so long as the chief appraiser of the appraisal district in which the school district participates has certified to the assessor for the school district an estimate of the taxable value of property in the school district. If a school district adopts its tax rate prior to the adoption of its budget, both the no-new-revenue tax rate and the Voter-Approval Tax Rate of the school district shall be calculated based on the school district's certified estimate of taxable value. A school district that adopts a tax rate before adopting its budget must hold a public hearing on the proposed tax rate followed by another public hearing on the proposed budget rather than holding a single hearing on the two items.

A school district must annually calculate and prominently post on its internet website, and submit to the county tax assessor-collector for each county in which all or part of the school district is located, its Voter-Approval Tax Rate in accordance with forms prescribed by the State Comptroller.

RATINGS

Moody's Investors Service ("Moody's") and S&P Global Ratings ("S&P") have assigned a municipal bond rating of "Aaa" and "AAA", respectively, to the Bonds based upon the Permanent School Fund Guarantee. Moody's and S&P generally rate all bond issues guaranteed by the Permanent School Fund of the State of Texas "Aaa" and "AAA" respectively. The District's underlying rating for the Bonds (without consideration of the Permanent School Fund Guarantee or other credit enhancement) is "Aa2" (negative outlook) and "AA+" (stable outlook) by Moody's and S&P, respectively.

An explanation of the significance of such ratings may be obtained from the company furnishing the rating. The ratings reflect only the view of such organization and the District makes no representation as to the appropriateness of the ratings. A securities rating is not a recommendation to buy, sell or hold securities. There is no assurance that such ratings will continue for any given period of time or that they will not be revised downward or withdrawn entirely by such rating company, if in the judgment of such rating company, circumstances so warrant. A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

LEGAL INVESTMENTS AND ELIGIBILITY TO SECURE PUBLIC FUNDS IN TEXAS

Under the Texas Public Security Procedures Act (Texas Government Code, Chapter 1201), the Bonds are (i) negotiable instruments, (ii) investment securities to which Chapter 8 of the Texas Business and Commerce Code applies, and (iii) legal and authorized investments for (A) an insurance company, (B) a fiduciary or trustee, or (C) a sinking fund of a municipality or other political subdivision or public agency of the State of Texas. The Bonds are eligible to secure deposits of any public funds of the State, its agencies and political subdivisions, and are legal security for those deposits to the extent of their market value. For political subdivisions in Texas which have adopted investment policies and guidelines in accordance with the Public Funds Investment Act (Texas Government Code, Chapter 2256), the Bonds may have to be assigned a rating of at least "A" or its equivalent as to investment quality by a national rating agency before such obligations are eligible investments for sinking funds and other public funds (see "RATINGS"). In addition, various provisions of the Texas Finance Code provide that, subject to a prudent investor standard, the Bonds are legal investments for state banks, savings banks, trust companies with at least \$1 million of capital and savings and loan associations.

The District has made no investigation of other laws, rules, regulations or investment criteria which might apply to such institutions or entities or which might limit the suitability of the Bonds for any of the foregoing purposes or limit the authority of such institutions or entities to purchase or invest in the Bonds for such purposes. The District has made no review of laws in other states to determine whether the Bonds are legal investments for various institutions in those states.

INVESTMENT AUTHORITY AND INVESTMENT OBJECTIVES OF THE DISTRICT

The District invests in investments authorized by Texas law in accordance with investment policies by the Board of the District. Both State law and the District's investment policies are subject to change.

Legal Investments

Under State law, the District is authorized to invest in: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including the Federal Home Loan Banks; (2) direct obligations of the State or its agencies and instrumentalities; (3) collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States; (4) other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the State or the United States or their respective agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation (the "FDIC") or by the explicit full faith and credit of the United States; (5) obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent; (6) bonds issued, assumed, or guaranteed by the State of Israel; (7) interest-bearing banking deposits that are guaranteed or insured by the FDIC or the National Credit Union Share Insurance Fund (the "NCUSIF") or their respective successors; (8) interest-bearing banking deposits, other than those described in clause (7), that (i) are invested through a broker or institution with a main office or branch office in this state and selected by the District in compliance with the PFIA, (ii) the broker or institution arranges for the deposit of the funds in one or more federally insured depository institutions, wherever located, for the District's account, (iii) the full amount of the principal and accrued interest of the banking deposits is insured by the United States or an instrumentality of the United States, and (iv) the District appoints as its custodian of the banking deposits, in compliance with the PFIA, the institution in clause (8)(i) above, a bank, or a broker-dealer; (9) certificates of deposit and share certificates meeting the requirements of the PFIA (i) that are issued by an institution that has its main office or a branch office in the State and are guaranteed or insured by the FDIC or the NCUSIF, or their respective successors, or are secured as to principal by obligations described in clauses (1) through (8), above, or secured in accordance with Chapter 2257, Texas Government Code, or in any other manner and amount provided by law for District deposits, or (ii) where (a) the funds are invested by the District through a broker or institution that has a main office or branch office in the State and selected by the District in compliance with the PFIA, (b) the broker or institution arranges for the deposit of the funds in one or more federally insured depository institutions, wherever located, for the account of the District, (c) the full amount of the principal and accrued interest of each of the certificates of deposit is insured by the United States or an instrumentality of the United States; and (d) the District appoints, in compliance with the PFIA, the institution in clause (9)(i)(a) above, a bank, or broker-dealer as custodian for the District with respect to the certificates of deposit; (10) fully collateralized repurchase agreements that have a defined termination date, are secured by a combination of cash and obligations described by clauses (1) or (12), which are pledged to the District, held in the District's name, and deposited at the time the investment is made with the District or with a third party selected and approved by the District, and are placed through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in the State; (11) certain bankers' acceptances with a stated maturity of 270 days or less from date of issuance, will be liquidated in full at maturity, are eligible for collateral for borrowing from a Federal Reserve Bank, and, if the short-term obligations of the accepting bank, or of the holding company of which the bank is the largest subsidiary, are rated not less than A-1 or P-1 or the equivalent by at least one nationally recognized credit rating agency; (12) commercial paper with a stated

maturity of 365 days or less from the date of issuance that is rated at least A-1 or P-1 or an equivalent by either (i) two nationally recognized credit rating agencies, or (ii) one nationally recognized credit rating agency if the commercial paper is fully secured by an irrevocable letter of credit issued by a United States or state bank; (13) no-load money market mutual funds registered with and regulated by the Securities and Exchange Commission and provides the District with a prospectus required by the Securities Exchange Act of 1934 and complies with Securities and Exchange Commission Rule 2a-7; (14) no-load mutual funds that are registered and regulated by the Securities and Exchange Commission that have a weighted maturity of less than two years and either (i) have a duration of one year or more and are invested exclusively in obligations approved in this paragraph, or (ii) have a duration of less than one year and the investment portfolio is limited to investment grade securities, excluding asset backed securities; (15) guaranteed investment contracts that have a defined termination date and are secured by obligations described in clause (1), excluding obligations which the District is explicitly prohibited from investing in, and in an amount at least equal to the amount of bond proceeds invested under such contract and is pledged to the District and deposited to the District or third party selected by the District; (16) aggregate repurchase agreement transactions entered into by an investing entity in conformity with the provisions of subsections (a-1), (f), and (g) of Section 2256.011 of the PFIA; and (17) securities lending programs if (i) the securities loaned under the program are 100% collateralized, including accrued income, (ii) a loan made under the program allows for termination at any time, (iii) a loan made under the program is either secured by (a) obligations described in clauses (1) through (8) above, (b) irrevocable letters of credit issued by a state or national bank that is continuously rated by a nationally recognized investment rating firm at not less than A or its equivalent, or (c) cash invested in obligations described in clauses (1) through (8) above, clauses (12) through (14) above, or an authorized investment pool, (iv) the terms of a loan made under the program require that the securities being held as collateral be pledged to the District, held in the District's name, and deposited at the time the investment is made with the District or with a third party designated by the District, (v) a loan made under the program is placed through either a primary government securities dealer or a financial institution doing business in the State, and (vi) the agreement to lend securities has a term of one year or less.

The District may invest in such obligations directly or through government investment pools that invest solely in such obligations provided that the pools are rated no lower than "AAA" or "AAAm" or an equivalent by at least one nationally recognized rating service. Under State law, the District may contract with an investment management firm registered under the Investment Advisers Act of 1940 (15 U.S.C. Section 80b-1 et seq.) or with the State Securities Board to provide for the investment and management of its public funds or other funds under its control for a term of up to two years, but the District retains ultimate responsibility as fiduciary of its assets. In order to renew or extend such a contract, the District must do so by order, ordinance, or resolution. The District has not contracted with, and has no present intention of contracting with, any such investment management firm or the Texas Securities Board to provide such services. The District is specifically prohibited from investing in: (1) obligations whose payment represents the coupon payments on the outstanding principal balance of the underlying mortgage-backed security collateral and pays no principal; (2) obligations whose payment represents the principal stream of cash flow from the underlying mortgage-backed security and bears no interest; (3) collateralized mortgage obligations that have a stated final maturity of greater than 10 years; and (4) collateralized mortgage obligations the interest rate of which is determined by an index that adjusts opposite to the changes in a market index.

In addition to authorized investments described above, the Texas law provides that the District may invest in corporate bonds that, at the time of purchase, are rated by a nationally recognized investment rating firm "AA-" or the equivalent and have a stated final maturity that is not later than the third anniversary of the date the corporate bonds were purchased. As used herein, corporate bond means a senior secured debt obligation issued by a domestic business entity and rated not lower than "AA-" or the equivalent by a nationally recognized investment rating firm, and does not include unsecured debt obligations or debt obligations that, on conversion, would result in the holder becoming a stockholder or shareholder in the entity that issued the debt obligation. The District may not (1) invest in the aggregate more than 15% of its monthly average fund balance, excluding funds held for the payment of debt service, in corporate bonds or (2) invest more than 25% of the funds invested in corporate bonds in any one domestic business entity, including subsidiaries and affiliates of the entity. The investment officer of the District must sell any corporate bonds not later than seven days after a nationally recognized investment rating firm (1) issues a release that places the corporate bonds or the entity that issued the corporate bonds on negative credit watch or the equivalent, if the corporate bonds are rated "AA-" or the equivalent at the time the release is issued; or (2) changes the rating on the corporate bonds to a rating lower than "AA-" or the equivalent. The District may invest its funds in corporate bonds only if the Board of Trustees of the District (1) amends its investment policy to authorize corporate bonds as an eligible investment, (2) adopts procedures to provide for the monitoring of rating changes in corporate bonds and liquidating the investment in corporate bonds and (3) identifies the funds eligible to be invested in corporate bonds. The District has not taken such actions to authorize investment in corporate bonds.

Investment Policies

Under State law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity; that address investment diversification, yield, maturity, and the quality and capability of investment management; and that include a list of authorized investments for District funds, the maximum allowable stated maturity of any individual investment, the maximum average dollar-weighted maturity allowed for pooled fund groups, methods to monitor the market price of investments acquired with public funds, a requirement for settlement of all transactions, except investment pool funds and mutual funds, on a delivery versus payment basis, and procedures to monitor rating changes in investments acquired with public funds and the liquidation of such investments consistent with the Public Funds Investment Act. All District funds must be invested consistent with a formally adopted "Investment Strategy Statement" that specifically addresses each fund's investment. Each Investment Strategy Statement will describe its objectives concerning: (1) suitability of investment type, (2) preservation and safety of principal, (3) liquidity, (4) marketability of each investment, (5) diversification of the portfolio, and (6) yield.

State law also requires that District investments be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment considering the probable safety of capital and the probable income to be derived.” At least quarterly the District’s investment officers must submit a written investment report to the Board of Trustees detailing: (1) the investment position of the District, (2) that all investment officers jointly prepared and signed the report, (3) the beginning market value, any changes and additions to the market value (including fully accrued interest) and the ending market value of each pooled fund group, (4) the book value and market value of each separately listed asset at the end of the reporting period, (5) the maturity date of each separately invested asset, (6) the account or fund or pooled fund group for which each individual investment was acquired, and (7) the compliance of the investment portfolio as it relates to: (a) adopted investment strategy statements and (b) State law. No person may invest District funds without express written authority from the Board.

Additional Provisions

Under State law, the District is additionally required to: (1) annually review its adopted policies and strategies; (2) adopt a rule, order, ordinance or resolution stating that it has reviewed its investment policy and investment strategies and records any changes made to either its investment policy or investment strategy in the respective rule, order, ordinance or resolution; (3) require any investment officers with personal business relationships or relatives with firms seeking to sell securities to the District to disclose the relationship and file a statement with the Texas Ethics Commission and the Board; (4) require the qualified representative of firms offering to engage in an investment transaction with the District to: (a) receive and review the District’s investment policy, (b) acknowledge that reasonable controls and procedures have been implemented to preclude investment transactions conducted between the District and the business organization that are not authorized by the District’s investment policy (except to the extent that this authorization is dependent on an analysis of the makeup of the District’s entire portfolio or requires an interpretation of subjective investment standards), and (c) deliver a written statement in a form acceptable to the District and the business organization attesting to these requirements; (5) perform an annual audit of the management controls on investments and adherence to the District’s investment policy; (6) provide specific investment training for the Treasurer, Chief Financial Officer and investment officers; (7) restrict reverse repurchase agreements to not more than 90 days after when the agreement is delivered and restrict the investment of reverse repurchase agreement funds to no greater than the term of the reverse purchase agreement; (8) restrict the investment in no-load mutual funds in the aggregate to no more than 15% of the District’s monthly average fund balance, excluding bond proceeds and reserves and other funds held for debt service; (9) require local government investment pools to conform to the new disclosure, rating, net asset value, yield calculation, and advisory board requirements; and (10) at least annually review, revise and adopt a list of qualified brokers that are authorized to engage in investment transactions with the District.

Current Investments

As of August 31, 2025 (Unaudited), the District’s investable funds were invested in the following investment instruments:

<u>Investment Instrument</u>	<u>Book Value</u>	<u>Percentage</u>
Agency	\$ 20,570,320	2.04%
Money Market	84,402,196	8.39
Investment Pools	867,314,458	86.17
Treasury Securities	34,286,325	3.41
Total	<u>\$1,006,573,299</u>	100.00%

EMPLOYEES’ BENEFIT PLANS

The District’s employees participate in a retirement plan (the “Plan”) with the State of Texas. The Plan is administered by the Teacher Retirement System of Texas (“TRS”). State contributions are made to cover costs of the TRS retirement plan up to certain statutory limits. The District is obligated for a portion of TRS costs relating to employee salaries that exceed the statutory limit. For the year ended August 31, 2025 the State contributed \$41,553,431 to TRS on behalf of the District, District employees paid \$44,961,719 and other contributions into the plan made from federal and private grants and the District for salaries above the statutory minimum were \$13,769,291. For more detailed information concerning the Plan, see Note 13 to the District’s audited financial statements for the fiscal year ended August 31, 2024, attached hereto as APPENDIX E.

The Government Accounting Standards Board (“GASB”) has issued *GASB Statements No. 68*, *No. 73*, and *No. 82* regarding pension issues. The implementation of these statements is reflected in the financial statements and the notes to the financial statements.

In addition to its participation in the TRS, the District contributes to the Texas Public School Retired Employees Group Insurance Program (“TRS-Care”), a cost-sharing multiple-employer defined benefit post-employment health care plan. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under the TRS. Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. For more detailed information concerning the District’s funding policy and contributions in connection with TRS-Care, see Note 14 to the District’s audited financial statements for the fiscal year ended August 31, 2024, attached hereto as APPENDIX E.

In June 2015, Government Accounting Standards Board (GASB) Statement No. 75 (*Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions* – which supersedes GASB Statement No. 45) (“GASB 75”) was issued to improve accounting and financial reporting by state and local governments for post-employment benefits other than pensions (“OPEB”). GASB 75 requires reporting entities, such as the District, to recognize their proportionate share of the net OPEB liability in the TRS-Care Plan and a deferred outflow for the contributions made by the District subsequent to the measurement date in the Statement of Net Position, a government-wide financial statement. The changes related to OPEB in the Statement of Net Position to implement GASB 75 are reflected in the Statement of Activities, a government-wide financial statement. The changes related to the OPEB affect only the government-wide financial statements and do not affect the General Fund balance. The calculation of OPEB contributions is unaffected by the change. Such reporting began with the District’s fiscal year ended August 31, 2018. To date, the District has met all funding requirements of the TRS-Care Plan. For more detailed information concerning the District’s share of the net OPEB liability in the TRS-Care Plan, see Note 14 to the District’s audited financial statements attached hereto as APPENDIX E.

Formal collective bargaining agreements relating directly to wages and other conditions of employment are prohibited by Texas law, as are strikes by teachers. There are various local, state and national organized employee groups who engage in efforts to better the terms and conditions of employment of school employees. Some districts have adopted a policy to consult with employer groups with respect to certain terms and conditions of employment. Some examples of these groups are the Texas State Teachers Association, the Texas Classroom Teachers Association, the Association of Texas Professional Educators and the National Education Association.

CONTINUING DISCLOSURE OF INFORMATION

In the Order, the District has made the following agreement for the benefit of the owners of the Bonds. The District is required to observe the agreement for so long as it remains an “obligated person” with respect to the Bonds within the meaning of the Rule, except that the District in any event will give the notice required by the agreement of any Bond calls and defeasances that cause the District to be no longer such an “obligated person.” Under the agreement, the District will be obligated to provide certain updated financial information and operating data annually and timely notice of specified events to the Municipal Securities Rule Making Board (“MSRB”).

Annual Reports

The information to be updated includes all quantitative financial information and operating data with respect to the District of the general type included in this Official Statement in “APPENDIX A – FINANCIAL INFORMATION REGARDING THE DISTRICT” (Tables 1 and 3 through 12) and in APPENDIX E. The District will update and provide this information within six months after the end of each fiscal year.

The District may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by United States Securities and Exchange Commission Rule 15c2-12, as amended and in effect from time to time (the “Rule”). The updated information will include audited financial statements, if the District commissions an audit and it is completed by the required time. If audited financial statements are not available by the required time, the District will provide unaudited financial statements by the required time and audited financial statements when and if such audited financial statements become available. Any financial statements will be prepared in accordance with the accounting principles prescribed by the Texas State Board of Education or such other accounting principles as the District may be required to employ from time to time pursuant to state law or regulation.

The District’s current fiscal year end is August 31. Accordingly, it must provide updated information by the last day of February in each year, unless the District changes its fiscal year. If the District changes its fiscal year, it will notify the MSRB of the change.

Notices of Certain Events

The District will also provide notice of any of the following events with respect to the Bonds to the MSRB in a timely manner (but not in excess of ten business days after the occurrence of the event): (1) principal and interest payment delinquencies; (2) nonpayment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the IRS of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB), or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds; (7) modifications to rights of holders of the Bonds, if material; (8) Bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership, or similar event of the District, which shall occur as described below; (13) the consummation of a merger, consolidation, or acquisition involving the District or the sale of all or substantially all of its assets, other than in the ordinary course of business, the entry into of a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material; (15) incurrence of a financial obligation of the District, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District, any of which affect security holders, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the District, any of which reflect financial difficulties. In addition, the District will provide timely notice of any failure by the District to provide annual financial information in accordance with their agreement described above under “Annual Reports”.

For these purposes, any event described in clause (12) of in the immediately preceding paragraph is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent, or similar officer for the District in a proceeding under the United States Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the District, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement, or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the District.

The term “financial obligation” shall mean, for purposes of the events in clauses (15) and (16) a (i) debt obligation; (ii) derivative instrument entered into in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii). The term “financial obligation” shall not include municipal securities (as defined in the Securities Exchange Act of 1934, as amended) as to which a final official statement (as defined in the Rule) has been provided to the MSRB consistent with the Rule. The District intends the words used in clauses (15) and (16) and the definition of “financial obligation” to have the meanings ascribed to them in SEC Release No. 34-83885 dated August 20, 2018 (the “2018 Release”).

Availability of Information from MSRB

The District has agreed to provide the information only to the MSRB, accompanied by identifying information and in an electronic format, as prescribed by the MSRB. The MSRB has prescribed that such information must be filed with the MSRB pursuant to its EMMA system. The MSRB makes the information available to the public without charge and investors will be able to access continuing disclosure information filed with the MSRB at www.emma.msrb.org.

Limitations and Amendments

The District’s disclosure agreement is provided for the sole benefit of the Registered Owners (as defined in the Order) and beneficial owners of the Bonds, and nothing in the agreement, express or implied, shall give any benefit or any legal or equitable right, remedy, or claim under the agreement to any other person.

The District has agreed to update information and to provide notices of certain specified events only as described above. The District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell the Bonds at any future date. The District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders and beneficial owners of the Bonds may seek a writ of mandamus to compel the District to comply with its agreement. Nothing in this paragraph is intended or shall act to disclaim, waive or limit the District’s duties under federal or state securities laws.

The District may amend its continuing disclosure agreement to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the District, if, but only if, (1) the agreement, as so amended, would have permitted underwriters to purchase or sell the Bonds in the initial primary offering in compliance with the Rule, taking into account any amendments or interpretations of the Rule to the date of such amendment, as well as such changed circumstances, and (2) either (a) the holders of a majority in aggregate principal amount of the outstanding Bonds consent or (b) any qualified person unaffiliated with the District (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the holders and beneficial owners of the Bonds. If the District amends its agreement, it has agreed to include with the financial information and operating data next provided, in accordance with its agreement described above under “Annual Reports” an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of information and operating data so provided.

Compliance with Prior Undertakings

During the last five years, the District has complied in all material respects with all continuing disclosure agreements made by it in accordance with the Rule.

SEVERE WEATHER EVENTS

The District is located near the Texas Gulf Coast. Land located in this area is susceptible to, and land in the District has experienced on several occasions in the last five years, high winds, heavy rain and flooding caused by hurricanes, tropical storms, and other tropical disturbances. If a future weather event significantly damaged all or part of the properties comprising the tax base within the District, the assessed value of property within the District could be substantially reduced, which could result in a decrease in tax revenues and/or necessitate an increase the District’s tax rate. Further, Texas law allows school districts to increase property tax rates without voter approval upon the occurrence of certain natural disasters such as floods and upon a gubernatorial or presidential declaration of disaster (see “TAX RATE LIMITATIONS – Public Hearing and Voter-Approval Tax Rate”). There can be no assurance that a casualty loss to taxable property within the District will be covered by insurance (or that property owners will even carry flood or other casualty

insurance), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild or repair any damaged improvements within the District. Even if insurance proceeds are available and improvements are rebuilt, there could be a lengthy period in which assessed values within the District could be adversely affected.

EXPOSURE TO OIL AND GAS INDUSTRY

In the past, the greater Houston, Texas area has been affected by adverse conditions in the oil and gas industry, and adverse conditions in the oil and gas industry and spillover effects into other industries could adversely impact the businesses of ad valorem property taxpayers and the property values in the District, resulting in a reduction in property tax revenue. The Bonds are secured by an unlimited ad valorem tax, and a reduction in property values may require an increase in the ad valorem tax rate required to pay the Bonds. Reductions in oil and gas revenues may also have an adverse effect on State revenues available during the next biennium, which may impact how the State funds education.

CYBERSECURITY

The District, like other school districts in the State, utilizes technology in conducting its operations. As a user of technology, the District potentially faces cybersecurity threats (e.g., hacking, phishing, viruses, malware and ransomware) on its technology systems. Accordingly, the District may be the target of a cyber-attack on its technology systems that could result in adverse consequences to the District. The District employs a multi-layered approach to combating cybersecurity threats. While the District deploys layered technologies and requires employees to receive cybersecurity training, as required by State law, among other efforts, cybersecurity breaches could cause material disruptions to the District's finances or operations. The costs of remedying such breaches or protecting against future cyber-attacks could be substantial and there is no assurance that these costs will be covered by insurance. Further, cybersecurity breaches could expose the District to litigation and other legal risks, which could cause the District to incur other costs related to such legal claims or proceedings.

LITIGATION

The District is not a party to any litigation or other proceeding pending or to its knowledge, threatened, in any court, agency or other administrative body (either state or federal) which, if decided adversely to the District, would have a material adverse effect on the financial statements or operations of the District.

FINANCIAL ADVISOR

BOK Financial Securities, Inc. is employed as Financial Advisor to the District in connection with the issuance of the Bonds. The Financial Advisor's fee for services rendered with respect to the sale of the Bonds is contingent upon the issuance and delivery of the Bonds. In the normal course of business, the Financial Advisor may also from time to time sell investment securities to the District for the investment of debt proceeds or other funds of the District, upon the request of the District.

BOK Financial Securities, Inc., in its capacity as Financial Advisor, has not verified and does not assume any responsibility for the information, covenants and representations contained in any of the legal documents with respect to the federal income tax status of the Bonds, or the possible impact of any present, pending or future actions taken by any legislative or judicial bodies.

The Financial Advisor to the District has provided the following sentence for inclusion in this Official Statement. The Financial Advisor has reviewed the information in this Official Statement in accordance with, and as part of, its responsibilities to the District and, as applicable, to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Financial Advisor does not guarantee the accuracy or completeness of such information.

UNDERWRITING

The Underwriters have agreed, subject to certain customary conditions, to purchase the Bonds at a price equal to the initial offering price to the public, as shown on page ii hereof, plus a [net] premium of \$ _____, less an underwriting discount of \$ _____. The Underwriters' obligations are subject to certain conditions precedent, and they will be obligated to purchase all of the Bonds if any Bonds are purchased. The Bonds may be offered and sold to certain dealers and others at prices lower than such public offering prices, and such public prices may be changed, from time to time, by the Underwriters.

The Underwriters have provided the following sentence for inclusion in this Official Statement. The Underwriters have reviewed the information in this Official Statement pursuant to their responsibilities to investors under federal securities laws, but the Underwriters do not guarantee the accuracy or completeness of such information.

The Underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. Certain of the Underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various investment banking services for the District for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the Underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve securities and instruments of the District.

Piper Sandler & Co., an underwriter of the Bonds, has entered into a distribution agreement (“Distribution Agreement”) with Charles Schwab & Co., Inc. (“CS&Co”) for the retail distribution of certain securities offerings including the Bonds, at the original issue prices. Pursuant to the Distribution Agreement, CS&Co. will purchase Bonds from Piper Sandler & Co. at the original issue price less a negotiated portion of the selling concession applicable to any Bonds that CS&Co. sells.

SAMCO Capital Markets Inc., an underwriter of the Bonds, has entered into a retail distribution agreement with Fidelity Capital Markets, a division of National Financial Services LLC (together with its affiliates, “Fidelity”). Under this distribution agreement, SAMCO Capital Markets Inc. may distribute municipal securities to retail investors at the original issue price through Fidelity. As part of this arrangement, SAMCO Capital Markets Inc. will compensate Fidelity for its selling efforts.

FORWARD LOOKING STATEMENTS

The statements contained in this Official Statement, and in any other information provided by the District, that are not purely historical are forward-looking statements, including statements regarding the District’s expectations, hopes, intentions, or strategies regarding the future. Readers should not place undue reliance on forward-looking statements. All forward looking statements included in this Official Statement are based on information available to the District on the date hereof, and the District assumes no obligation to update any such forward-looking statements. It is important to note that the District’s actual results could differ materially from those in such forward-looking statements.

The forward-looking statements herein are necessarily based on various assumptions and estimates and are inherently subject to various risks and uncertainties, including risks and uncertainties relating to the possible invalidity of the underlying assumptions and estimates and possible changes or developments in social, economic, business, industry, market, legal and regulatory circumstances and conditions and actions taken or omitted to be taken by third parties, including customers, suppliers, business partners and competitors, and legislative, judicial and other governmental authorities and officials. Assumptions related to the foregoing involve judgments with respect to, among other things, future economic, competitive, and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the District. Any of such assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Official Statement would prove to be accurate.

AUDITED FINANCIAL STATEMENTS

The report of Weaver and Tidwell, L.L.P. relating to District’s financial statements for the fiscal year ended August 31, 2024 is included in this Official Statement in APPENDIX E; however, Weaver and Tidwell, L.L.P. has not performed any procedures on such financial statements since the date of such report, and has not performed any procedures on any other financial information of the District, including without limitation any of the information contained in this Official Statement. The District currently expects to receive its Annual Financial Report for fiscal year ended August 31, 2025 (the “2025 Annual Report”) in January 2026. Once accepted by the Board of Trustees of the District, the District expects to file the 2025 Annual Report with EMMA in accordance with its existing continuing disclosure undertakings and associate the 2025 Annual Report with the Bonds on EMMA. The 2025 Annual Report is hereby incorporated by reference into this Official Statement. After the District files the 2025 Annual Report with EMMA, it may be obtained by accessing EMMA at <https://emma.msrb.org/IssuerHomePage/Issuer?id=B7C3AAA77B2AB1B8B460AAAAF385FD4A> , or by using the EMMA Advanced Search function and entering the term “Conroe Independent School District” in the Issuer Name field within the Security Information search field filter. A copy of the 2025 Annual Report may also be obtained by written request from the District's Financial Advisor, BOK Financial Securities, Inc., 1401 McKinney Street, Suite 1000, Houston, Texas 77010, Attn: John Robuck.

CONCLUDING STATEMENT

The information set forth herein has been obtained from the District’s records, audited financial statements and other sources which are considered by the District to be reliable. There is no guarantee that any of the assumptions or estimates contained herein will ever be realized. All of the summaries of the statutes, documents and the Order contained in this Official Statement are made subject to all of the provisions of such statutes, documents, and the Order. These summaries do not purport to be complete statements of such provisions and reference is made to such summarized statutes, documents and the Order for further information. Reference is made to official documents in all respects.

MISCELLANEOUS

The Order authorizing the issuance of the Bonds approves the use of this Official Statement and any addenda, supplement or amendment thereto in the reoffering of the Bonds by the Underwriters in accordance with the provisions of the United States Securities and Exchange Commission's rule codified at 17 C.F.R. §240.15c2-12, as amended.

- (c) Includes the Bonds. Preliminary, subject to change.

Table 9
AUTHORIZED BUT UNISSUED BONDS

After the sale of the Bonds, the District will have \$332,877,000* of voter authorized but unissued bonds. Depending on the rate of development within the District, changes in assessed valuation, and the amounts, interest rates, maturities and the timing of issuance of any additional bonds, increases in the District's annual ad valorem tax rate may be required to provide for the payment of the principal of and interest on the District's outstanding bonds, the Bonds, and any such future bonds. In addition to unlimited tax bonds, the District may incur other financial obligations payable from its collection of taxes and other sources of revenues, including maintenance tax notes payable from its collection of maintenance taxes, public property finance contracted obligations, delinquent tax notes and leases for various purposes payable from State appropriations and surplus maintenance taxes.

The following table illustrates the bonds authorized, issued and remaining authorized but unissued by proposition.

Date Authorized	Proposition/Purpose	Amount Authorized	Amount Issued to Date	Amount Being Issued (a)*	Authorized But Unissued
11/7/2023	A - School Building & Security	\$ 1,820,000,000	\$ 1,115,287,000	\$ 416,600,000	\$ 288,113,000
11/7/2023	B - Technology	40,000,000	22,075,000	3,900,000	14,025,000
11/7/2023	C - Athletic Additions & CTE	112,877,000	57,638,000	24,500,000	30,739,000
	Totals:	\$ 1,972,877,000	\$ 1,195,000,000	\$ 445,000,000	\$ 332,877,000

* Preliminary, subject to change.

(a) Includes the Bonds and an allocation of the original issue premium relating to the Bonds and applied towards the amount of authorization.

APPENDIX B
GENERAL INFORMATION REGARDING
THE DISTRICT AND ITS ECONOMY

Description of the District

The Conroe Independent School District (the “District”) is located approximately 28 miles north of downtown Houston, in Montgomery County adjacent to the northern boundary of Harris County. The District is bisected by Interstate Highway 45 (the Houston-Dallas Freeway), U.S. Highway 75, State Highways 105 and 242, and Farm-to-Market roads 1314, 3083, 1484 and 2854. The District encompasses approximately 30% of the land area of Montgomery County, consists of approximately 345 square miles and includes such communities as the City of Conroe, The Woodlands, Timber Lakes, Cut and Shoot, Woodloch, Chateau Woods and Oak Ridge North.

The District operates seven high schools (Grades 9-12), three 9th grade schools, seven junior high schools (Grades 7-8), eleven intermediate schools (Grades 5-6), seven elementary/intermediate schools (Grades K-6) and thirty-three elementary schools (Grades K-4). The District also offers vocational training and accelerated learning programs at the Academy for Science and Health Professions and at Academy of Science and Technology. In addition to its vocational programs, the District has a Guidance and Placement Center and Resource and Development Center for students with learning problems. As of September 24, 2025, the District employed 9,862 persons, of which 5,313 were in the instructional field. Administration accounts for 391 employees and 4,158 employees are support personnel.

The following table has been prepared by District officials and sets forth historical and projected enrollment data through 2028-29.

School Year	Enrollment
2021-22	67,761

CITY OF CONROE

The City of Conroe (the “City”) has no obligation with respect to the District or its debt. The information concerning the City is included solely to provide information concerning economic and other matters within the District.

The City, the county seat of Montgomery County, is located in southeast Texas, approximately 35 miles north of Houston. The City is serviced by Interstate 45, Texas 75 (north-south), Texas 105 (east-west) and Loop 336 which encircles Greater Conroe. The City is the principal center of commerce in Montgomery County. The City’s population has increased from 56,207 in 2010 to 89,956 in 2020, representing a 60.04% growth rate.

In 1973, Lake Conroe was completed, forming a 21,000 acre reservoir which is owned by the San Jacinto River Authority and the City of Houston. The recreational and development opportunities afforded by the lake have had a positive economic impact on the City and Montgomery County economies.

THE WOODLANDS

The Woodlands has no obligation with respect to the District or its debt. The information concerning The Woodlands is included solely to provide information concerning economic and other matters within the District.

The Woodlands is a community located primarily within the District that is being developed approximately 27-32 miles north of downtown Houston. Located within a 28,000-acre tract of densely forested land, the community is generally situated adjacent to and west of Interstate Highway 45, south of FM 1488, and north of Spring Creek, the boundary line between Montgomery and Harris Counties. Additional acreage, known as The Woodlands Trade Center (“Trade Center”) is adjacent to and east of Interstate Highway 45 between Texas State Highway 242 and FM 1488.

The Woodlands is located in a market sector of the greater Houston metropolitan area containing approximately 150 residential developments. Residential developments located in the market sector offer a variety of housing ranging in price generally from \$200,000 to in excess of \$7.0 million. The majority of these subdivisions offer some recreational facilities (e.g., swimming pools and clubhouses) and a few provide golf and tennis facilities. In some cases, schools are located within the subdivisions.

Formal opening of The Woodlands occurred in October 1974. Substantial development has occurred in the Village of Grogan’s Mill, the Village of Panther Creek, the Village of Cochran’s Crossing, the Village of Indian Springs, the Village of Alden Bridge, the Village of Sterling Ridge, Village of Creekside Park, and College Park, which are the eight residential villages planned for The Woodlands; parts of the Town Center, Research Forest, College Park; and The Trade Center. These areas currently have a population of approximately 120,000 people, and 2,460 employers provide employment for approximately 66,000 people.

APPENDIX C
FORM OF LEGAL OPINION OF BOND COUNSEL

Orrick, Herrington & Sutcliffe LLP

609 Main Street
40th Floor
Houston, TX 77002

+1 713 652 6400

orrick.com

February __, 2025

We have acted as bond counsel to the Conroe Independent School District (the “District”) in connection with the issuance of \$ _____ aggregate principal amount of bonds designated as “Conroe Independent School District Unlimited Tax School Building Bonds, Series 2026” (the “Bonds”). The Bonds are authorized by an election held in the District on November 7, 2023 and an order adopted by the Board of Trustees of the District (the “Board”) on September 16, 2025 authorizing the issuance of the Bonds and the pricing certificate executed on the date of the sale of the Bonds finalizing the terms thereof (together, the “Bond Order”). Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Bond Order.

In such connection, we have reviewed the Order, the tax certificate of the District dated the date hereof (the “Tax Certificate”), certificates of the District, and others, and such other documents, opinions and matters to the extent we deemed necessary to render the opinions set forth herein.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. Accordingly, this letter speaks only as of its date and is not intended to, and may not, be relied upon or otherwise used in connection with any such actions, events or matters. Our engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update this letter. We have assumed the genuineness of all documents and signatures presented to us (whether as originals or as copies) and the due and legal execution and delivery thereof by, and validity against, any parties other than the District. We have assumed, without undertaking to verify, the accuracy of the factual matters represented, warranted or certified in the documents referred to in the second paragraph hereof. Furthermore, we have assumed compliance with all covenants and agreements contained in the Bond Order and the Tax Certificate, including (without limitation) covenants and agreements compliance with which is necessary to assure that future actions, omissions or events will not cause interest on the Bonds to be included in gross income for federal income tax purposes. We call attention to the fact that the rights and obligations under the Bonds, the Bond Order and the Tax Certificate and their enforceability may be subject to bankruptcy, insolvency, receivership, reorganization, arrangement, fraudulent conveyance, moratorium and other laws relating to or affecting creditors’ rights, to the application of equitable principles, to the exercise of judicial discretion in appropriate cases, and to the limitations on legal

February __, 2025

Page 2

remedies against issuers in the State of Texas. We express no opinion with respect to any indemnification, contribution, liquidated damages, penalty (including any remedy deemed to constitute a penalty), right of set-off, arbitration, choice of law, choice of forum, choice of venue, non-exclusivity of remedies, waiver or severability provisions contained in the foregoing documents. Our services did not include financial or other non-legal advice. Finally, we undertake no responsibility for the accuracy, completeness or fairness of the offering material relating to the Bonds, if any, and express no opinion with respect thereto.

Based on and subject to the foregoing, and in reliance thereon, as of the date hereof, we are of the following opinions:

1. The Bonds constitute the valid and binding obligations of the District.
2. The Board has power and is obligated to levy an annual ad valorem tax, without legal limit as to rate or amount, upon taxable property located within the District, which taxes have been pledged irrevocably to pay the principal of and interest on the Bonds.
3. Interest on the Bonds is excluded from gross income for federal income tax purposes under Section 103 of the Internal Revenue Code of 1986. Interest on the Bonds is not a specific preference item for purposes of federal individual alternative minimum tax. We observe that interest on the Bonds included in adjusted financial statement income of certain corporations is not excluded from the federal corporate alternative minimum tax. We express no opinion regarding other tax consequences related to the ownership or disposition of, or the amount, accrual or receipt of interest on, the Bonds.

ORRICK, HERRINGTON & SUTCLIFFE LLP

APPENDIX D
THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM

THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM

This disclosure statement provides information relating to the program (the “Guarantee Program”) administered by the Texas Education Agency (the “TEA”) with respect to the Texas Permanent School Fund guarantee of tax-supported bonds issued by Texas school districts and the guarantee of revenue bonds issued by or for the benefit of Texas charter districts. The Guarantee Program was authorized by an amendment to the Texas Constitution in 1983 and is governed by Subchapter C of Chapter 45 of the Texas Education Code, as amended (the “Act”). While the Guarantee Program applies to bonds issued by or for both school districts and charter districts, as described below, the Act and the program rules for the two types of districts have some distinctions. For convenience of description and reference, those aspects of the Guarantee Program that are applicable to school district bonds and to charter district bonds are referred to herein as the “School District Bond Guarantee Program” and the “Charter District Bond Guarantee Program,” respectively.

Some of the information contained in this Section may include projections or other forward-looking statements regarding future events or the future financial performance of the Texas Permanent School Fund (the “PSF” or the “Fund”). Actual results may differ materially from those contained in any such projections or forward-looking statements.

The regular session of the 89th Texas Legislature (the “Legislature”) convened on January 14, 2025, and is scheduled to conclude on June 2, 2025. As of the date of this disclosure, the regular session is underway. The Texas Governor may call one or more special sessions at the conclusion of the regular session. During this time, the Legislature may enact laws that materially change current law as it relates to the Guarantee Program, the TEA, the State Board of Education (the “SBOE”), the Permanent School Fund Corporation (the “PSF Corporation”), the Act, and Texas school finance generally. No representation is made regarding any actions the Legislature has taken or may take, but the TEA, SBOE, and PSF Corporation monitor and analyze legislation for any developments applicable thereto.

History and Purpose

The PSF supports the State’s public school system in two major ways: distributions to the constitutionally established Available School Fund (the “ASF”), as described below, and the guarantee of school district and charter district issued bonds through the Guarantee Program. The PSF was created in 1845 and received its first significant funding with a \$2,000,000 appropriation by the Legislature in 1854 expressly for the benefit of the public schools of Texas, with the sole purpose of assisting in the funding of public education for present and future generations. The Constitution of 1876 described that the PSF would be “permanent,” and stipulated that certain lands and all proceeds from the sale of these lands should also constitute the PSF. Additional acts later gave more public domain land and rights to the PSF. In 1953, the U.S. Congress passed the Submerged Lands Act that relinquished to coastal states all rights of the U.S. navigable waters within state boundaries. If the State, by law, had set a larger boundary prior to or at the time of admission to the Union, or if the boundary had been approved by Congress, then the larger boundary applied. After three years of litigation (1957-1960), the U.S. Supreme Court on May 31, 1960, affirmed Texas’ historic three marine leagues (10.35 miles) seaward boundary. Texas proved its submerged lands property rights to three leagues into the Gulf of Mexico by citing historic laws and treaties dating back to 1836. All lands lying within that limit belong to the PSF. The proceeds from the sale and the mineral-related rental of these lands, including bonuses, delay rentals and royalty payments, become the corpus of the Fund. Prior to the approval by the voters of the State of an amendment to the constitutional provision under which the Fund was established and administered, which occurred on September 13, 2003 (the “Total Return Constitutional Amendment”), and which is further described below, only the income produced by the PSF could be used to complement taxes in financing public education, which primarily consisted of income from securities, capital gains from securities transactions, and royalties from the sale of oil and natural gas. The Total Return Constitutional Amendment provides that interest and dividends produced by Fund investments will be additional revenue to the PSF.

On November 8, 1983, the voters of the State approved a constitutional amendment that provides for the guarantee by the PSF of bonds issued by school districts. On approval by the State Commissioner of Education (the “Education Commissioner”), bonds properly issued by a school district are fully guaranteed by the PSF. See “The School District Bond Guarantee Program.”

In 2011, legislation was enacted that established the Charter District Bond Guarantee Program as a new component of the Guarantee Program. That legislation authorized the use of the PSF to guarantee revenue bonds issued by or for the benefit of certain open-enrollment charter schools that are designated as “charter districts” by the Education Commissioner. On approval by the Education Commissioner, bonds properly issued by a charter district participating in the Guarantee Program are fully guaranteed by the PSF. The Charter District Bond Guarantee Program became effective on March 3, 2014. See “The Charter District Bond Guarantee Program.”

State law also permits charter schools to be chartered and operated by school districts and other political subdivisions, but bond financing of facilities for school district-operated charter schools is subject to the School District Bond Guarantee Program, not the Charter District Bond Guarantee Program.

While the School District Bond Guarantee Program and the Charter District Bond Guarantee Program relate to different types of bonds issued for different types of Texas public schools, and have different program regulations and requirements, a bond guaranteed under either part of the Guarantee Program has the same effect with respect to the guarantee obligation of the Fund thereto, and all guaranteed bonds are aggregated for purposes of determining the capacity of the Guarantee Program (see “Capacity Limits for the Guarantee Program”). The Charter District Bond Guarantee Program as enacted by State law has not been reviewed by any court, nor has the Texas Attorney General (the “Attorney General”) been requested to issue an opinion, with respect to its constitutional validity.

Audited financial information for the PSF is provided annually through the PSF Corporation’s Annual Comprehensive Financial Report (the “Annual Report”), which is filed with the Municipal Securities Rulemaking Board (“MSRB”). The Texas School Land Board’s (the “SLB”) land and real assets investment operations, which are part of the PSF as described below, are also included in the annual financial report of the Texas General Land Office (the “GLO”) that is included in the annual comprehensive report of the State of Texas. The Annual Report includes the Message From the Chief Executive Officer of the PSF Corporation (the “Message”) and the Management’s Discussion and Analysis (“MD&A”). The Annual Report for the year ended August 31, 2024, as filed with the MSRB in accordance with the PSF undertaking and agreement made in accordance with Rule 15c2-12 (“Rule 15c2-12”) of the United States Securities and Exchange Commission (the “SEC”), as described below, is hereby incorporated by reference into this disclosure. Information included herein for the year ended August 31, 2024, is derived from the audited financial statements of the PSF, which are included in the Annual Report as it is filed and posted. Reference is made to the Annual Report for the complete Message and MD&A for the year ended August 31, 2024, and for a description of the financial results of the PSF for the year ended August 31, 2024, the most recent year for which audited financial information regarding the Fund is available. The 2024 Annual Report speaks only as of its date and the PSF Corporation has not obligated itself to update the 2024 Annual Report or any other Annual Report. The PSF Corporation posts (i) each Annual Report, which includes statistical data regarding the Fund as of the close of each fiscal year, (ii) the most recent disclosure for the Guarantee Program, (iii) the PSF Corporation’s Investment Policy Statement (the “IPS”), and (iv) monthly updates with respect to the capacity of the Guarantee Program (collectively, the “Web Site Materials”) on the PSF Corporation’s web site at <https://texaspsf.org> and with the MSRB at www.emma.msrb.org. Such monthly updates regarding the Guarantee Program are also incorporated herein and made a part hereof for all purposes. In addition to the Web Site Materials, the Fund is required to make quarterly filings with the SEC under Section 13(f) of the Securities Exchange Act of 1934. Such filings, which consist of a list of the Fund’s holdings of securities specified in Section 13(f), including exchange-traded (e.g., NYSE) or NASDAQ-quoted stocks, equity options and warrants, shares of closed-end investment companies and certain convertible debt securities, are available from the SEC at www.sec.gov/edgar. A list of the Fund’s equity and fixed income holdings as of August 31 of each year is posted to the PSF Corporation’s web site and filed with the MSRB. Such list excludes holdings in the Fund’s securities lending program. Such list, as filed, is incorporated herein and made a part hereof for all purposes.

Management and Administration of the Fund

The Texas Constitution and applicable statutes delegate to the SBOE and the PSF Corporation the authority and responsibility for investment of the PSF’s financial assets. The SBOE consists of 15 members who are elected by territorial districts in the State to four-year terms of office. The PSF Corporation is a special-purpose governmental corporation and instrumentality of the State entitled to sovereign immunity, and is governed by a nine-member board of directors (the “PSFC Board”), which consists of five members of the SBOE, the Land Commissioner, and three appointed members who have substantial background and expertise in investments and asset management, with one member being appointed by the Land Commissioner and the other two appointed by the Governor with confirmation by the Senate.

The PSF’s non-financial real assets, including land, mineral and royalty interests, and individual real estate holdings, are held by the GLO and managed by the SLB. The SLB is required to send PSF mineral and royalty revenues to the PSF Corporation for investment, less amounts specified by appropriation to be retained by the SLB.

The Texas Constitution provides that the Fund shall be managed through the exercise of the judgment and care under the circumstances then prevailing which persons of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation, but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as the probable safety of their capital (the “Prudent Person Standard”). In accordance with the Texas Constitution, the SBOE views the PSF as a perpetual endowment, and the Fund is managed as an endowment fund with a long-term investment horizon. For a detailed description of the PSFC Board’s investment objectives, as well as a description of the PSFC Boards’s roles and responsibilities in managing and administering the Fund, see the IPS and Board meeting materials (available on the PSF Corporation’s website).

As described below, the Total Return Constitutional Amendment restricts the annual pay-out from the Fund to both (i) 6% of the average of the market value of the Fund, excluding real property, on the last day of each of the sixteen State fiscal quarters preceding the Regular Session of the Legislature that begins before that State fiscal biennium, and (ii) the total return on all investment assets of the Fund over a rolling ten-year period.

By law, the Education Commissioner is appointed by the Governor, with Senate confirmation, and assists the SBOE, but the Education Commissioner can neither be hired nor dismissed by the SBOE. The PSF Corporation has also engaged outside counsel to advise it as to its duties with respect to the Fund, including specific actions regarding the investment of the PSF to ensure compliance with fiduciary standards, and to provide transactional advice in connection with the investment of Fund assets in non-traditional investments. TEA's General Counsel provides legal advice to the SBOE but will not provide legal advice directly to the PSF Corporation.

The Total Return Constitutional Amendment shifted administrative costs of the Fund from the ASF to the PSF, providing that expenses of managing the PSF are to be paid "by appropriation" from the PSF. In January 2005, the Attorney General issued a legal opinion, Op. Tex. Att'y Gen. No. GA-0293 (2005), stating that the Total Return Constitutional Amendment does not require the SBOE to pay from such appropriated PSF funds the indirect management costs deducted from the assets of a mutual fund or other investment company in which PSF funds have been invested.

The Act requires that the Education Commissioner prepare, and the SBOE approve, an annual status report on the Guarantee Program (which is included in the Annual Report). The State Auditor or a certified public accountant audits the financial statements of the PSF, which are separate from other financial statements of the State. Additionally, not less than once each year, the PSFC Board must submit an audit report to the Legislative Budget Board ("LBB") regarding the operations of the PSF Corporation. The PSF Corporation may contract with a certified public accountant or the State Auditor to conduct an independent audit of the operations of the PSF Corporation, but such authorization does not affect the State Auditor's authority to conduct an audit of the PSF Corporation in accordance with State laws.

For each biennium, beginning with the 2024-2025 State biennium, the PSF Corporation is required to submit a legislative appropriations request ("LAR") to the LBB and the Office of the Governor that details a request for appropriation of funds to enable the PSF Corporation to carry out its responsibilities for the investment management of the Fund. The requested funding, budget structure, and riders are sufficient to fully support all operations of the PSF Corporation in state fiscal years 2026 and 2027. As described therein, the LAR is designed to provide the PSF Corporation with the ability to operate as a stand-alone state entity in the State budget while retaining the flexibility to fulfill its fiduciary duty and provide oversight and transparency to the Legislature and Governor.

The Total Return Constitutional Amendment

The Total Return Constitutional Amendment requires that PSF distributions to the ASF be determined using a "total-return-based" approach that provides that the total amount distributed from the Fund to the ASF: (1) in each year of a State fiscal biennium must be an amount that is not more than 6% of the average of the market value of the Fund, excluding real property (the "Distribution Rate"), on the last day of each of the sixteen State fiscal quarters preceding the Regular Session of the Legislature that begins before that State fiscal biennium, in accordance with the rate adopted by: (a) a vote of two-thirds of the total membership of the SBOE, taken before the Regular Session of the Legislature convenes or (b) the Legislature by general law or appropriation, if the SBOE does not adopt a rate as provided by clause (a); and (2) over the ten-year period consisting of the current State fiscal year and the nine preceding State fiscal years may not exceed the total return on all investment assets of the Fund over the same ten-year period (the "Ten Year Total Return"). In April 2009, the Attorney General issued a legal opinion, Op. Tex. Att'y Gen. No. GA-0707 (2009) ("GA-0707"), with regard to certain matters pertaining to the Distribution Rate and the determination of the Ten Year Total Return. In GA-0707 the Attorney General opined, among other advice, that (i) the Ten Year Total Return should be calculated on an annual basis, (ii) a contingency plan adopted by the SBOE, to permit monthly transfers equal in aggregate to the annual Distribution Rate to be halted and subsequently made up if such transfers temporarily exceed the Ten Year Total Return, is not prohibited by State law, provided that such contingency plan applies only within a fiscal year time basis, not on a biennium basis, and (iii) the amount distributed from the Fund in a fiscal year may not exceed 6% of the average of the market value of the Fund or the Ten Year Total Return. In accordance with GA-0707, in the event that the Ten Year Total Return is exceeded during a fiscal year, transfers to the ASF will be halted. However, if the Ten Year Total Return subsequently increases during that biennium, transfers may be resumed, if the SBOE has provided for that contingency, and made in full during the remaining period of the biennium, subject to the limit of 6% in any one fiscal year. Any shortfall in the transfer that results from such events from one biennium may not be paid over to the ASF in a subsequent biennium as the SBOE would make a separate payout determination for that subsequent biennium.

In determining the Distribution Rate, the SBOE has adopted the goal of maximizing the amount distributed from the Fund in a manner designed to preserve "intergenerational equity." The definition of intergenerational equity that the SBOE has generally followed is the maintenance of purchasing power to ensure that endowment spending keeps pace with inflation, with the ultimate goal being to ensure that current and future generations are given equal levels of purchasing power in real terms. In making this determination, the SBOE takes into account various considerations, and relies upon PSF Corporation and TEA staff and external investment consultants, which undertake analysis for long-term projection periods that includes

certain assumptions. Among the assumptions used in the analysis are a projected rate of growth of student enrollment State-wide, the projected contributions and expenses of the Fund, projected returns in the capital markets and a projected inflation rate.

The Texas Constitution also provides authority to the GLO or another entity (described in statute as the SLB or the PSF Corporation) that has responsibility for the management of revenues derived from land or other properties of the PSF to determine whether to transfer an amount each year to the ASF from the revenue derived during the current year from such land or properties. The Texas Constitution limits the maximum transfer to the ASF to \$600 million in each year from the revenue derived during that year from the PSF from the GLO, the SBOE or another entity to the extent such entity has the responsibility for the management of revenues derived from such land or other properties. Any amount transferred to the ASF pursuant to this constitutional provision is excluded from the 6% Distribution Rate limitation applicable to SBOE transfers.

The following table shows amounts distributed to the ASF from the portions of the Fund administered by the SBOE (the “PSF(SBOE)”), the PSF Corporation (the “PSF(CORP)”), and the SLB (the “PSF(SLB)”).

Annual Distributions to the Available School Fund⁽¹⁾

Fiscal Year Ending	2015	2016	2017	2018	2019	2020	2021	2022	2023²	2024
PSF(CORP) Distribution	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$2,076	\$2,156
PSF (SBOE) Distribution	839	1,056	1,056	1,236	1,236	1,102	1,102	1,731	-	-
PSF(SLB) Distribution	0	0	0	0	300	600	600 ³	415	115	-
Per Student Distribution	173	215	212	247	306	347	341	432	440	430

¹ In millions of dollars. Source: Annual Report for year ended August 31, 2024.

² Reflects the first fiscal year in which distributions were made by the PSF Corporation.

³ In September 2020, the SBOE approved a special, one-time transfer of \$300 million from the portion of the PSF managed by the SBOE to the portion of the PSF managed by the SLB, which amount is to be transferred to the ASF by the SLB in fiscal year 2021. In approving the special transfer, the SBOE determined that the transfer was in the best interest of the PSF due to the historic nature of the public health and economic circumstances resulting from the COVID-19 pandemic and its impact on the school children of Texas.

In November 2024, the SBOE approved a \$3.6 billion distribution to the ASF for State fiscal biennium 2026-2027. In making its determination of the 2026-2027 Distribution Rate, the SBOE took into account the planned distribution to the ASF by the PSF Corporation of \$1.2 billion for the biennium.

Efforts to achieve the intergenerational equity objective, as described above, result in changes in the Distribution Rate for each biennial period. The following table sets forth the Distribution Rates announced by the SBOE in the fall of each even-numbered year to be applicable for the following biennium.

<u>State Fiscal Biennium</u>	<u>2010-11</u>	<u>2012-13</u>	<u>2014-15</u>	<u>2016-17</u>	<u>2018-19</u>	<u>2020-21</u>	<u>2022-23</u>	<u>2024-25</u>	<u>2026-27</u>
SBOE Distribution Rate ¹	2.5%	4.2%	3.3%	3.5%	3.7%	2.974%	4.18%	3.32%	3.45%

¹ Includes only distributions made to the ASF by the SBOE; see the immediately preceding table for amounts of direct SLB distributions to the ASF. In addition, the PSF Corp approved transfers of \$600 million per year directly to the ASF for fiscal biennium 2026-27.

[Remainder of Page Intentionally Left Blank]

PSF Corporation Strategic Asset Allocation

The PSFC Board sets the asset allocation policy for the Fund, including determining the available asset classes for investment and approving target percentages and ranges for allocation to each asset class, with the goal of delivering a long-term risk adjusted return through all economic and market environments. The IPS includes a combined asset allocation for all Fund assets (consisting of assets transferred for management to the PSF Corporation from the SBOE and the SLB). The IPS provides that the Fund's investment objectives are as follows:

- Generate distributions for the benefit of public schools in Texas;
- Maintain the purchasing power of the Fund, after spending and inflation, in order to maintain intergenerational equity with respect to distributions from the Fund;
- Provide a maximum level of return consistent with prudent risk levels, while maintaining sufficient liquidity needed to support Fund obligations; and
- Maintain a AAA credit rating, as assigned by a nationally recognized securities rating organization.

The table below sets forth the current strategic asset allocation of the Fund that was adopted September 2024 (which is subject to change from time to time):

Asset Class	Strategic Asset Allocation	Range	
		Min	Max
Cash	2.0%	0.0%	n/a
Core Bonds	10.0%	5.0%	15.0%
High Yield	2.0%	0.0%	7.0%
Bank Loans	4.0%	0.0%	9.0%
Treasury Inflation Protected Securities	2.0%	0.0%	7.0%
Large Cap Equity	14.0%	9.0%	19.0%
Small/Mid-Cap Equity	6.0%	1.0%	11.0%
Non-US Developed Equity	7.0%	2.0%	12.0%
Absolute Return	3.0%	0.0%	8.0%
Real Estate	12.0%	7.0%	17.0%
Private Equity	20.0%	10.0%	30.0%

The table below sets forth the investments of the PSF(SLB) for the year ended August 31, 2024.

Investment Schedule - PSF(SLB)1

<u>Fair Value (in millions) August 31, 2024</u>	
	As of <u>8-31-24</u>
Investment Type	
Investments in Real Assets	
Sovereign Lands	\$ 277.47
Discretionary Internal Investments	457.01
Other Lands	153.15
Minerals ^{(2), (3)}	<u>4,540.61</u> ⁽⁶⁾
Total Investments ⁽⁴⁾	5,428.23
Cash in State Treasury ⁽⁵⁾	0
Total Investments & Cash in State Treasury	\$ 5,428.23

¹ Unaudited figures from Table 5 in the FY 2024 Unaudited Annual Financial Report of the Texas General Land Office and Veterans Land Board.

² Historical Cost of investments at August 31, 2024 was: Sovereign Lands \$838,730.24; Discretionary Internal Investments \$318,902,420.97; Other Lands \$37,290,818.76; and Minerals \$13,437,063.73.

³ Includes an estimated 1,000,000.00 acres in freshwater rivers.

⁴ Includes an estimated 1,747,600.00 in excess acreage.

⁵ Cash in State Treasury is managed by the Treasury Operations Division of the Comptroller of Public Accounts of the State of Texas.

⁶ Future Net Revenues discounted at 10% and then adjusted for risk factors. A mineral reserve report is prepared annually by external third-party petroleum engineers.

The asset allocation of the Fund's financial assets portfolio is subject to change by the PSF Corporation from time to time based upon a number of factors, including recommendations to the PSF Corporation made by internal investment staff and external consultants. Fund performance may also be affected by factors other than asset allocation, including, without limitation, the general performance of the securities markets and other capital markets in the United States and abroad, which may be affected by different levels of economic activity; decisions of political officeholders; significant adverse weather events; development of hostilities in and among nations; cybersecurity threats and events; changes in international trade policies or practices; application of the Prudent Person Standard, which may eliminate certain investment opportunities for the Fund; management fees paid to external managers and embedded management fees for some fund investments; and PSF operational limitations impacted by Texas law or legislative appropriation. The Guarantee Program could also be impacted by changes in State or federal law or regulations or the implementation of new accounting standards.

The School District Bond Guarantee Program

The School District Bond Guarantee Program requires an application be made by a school district to the Education Commissioner for a guarantee of its bonds. If the conditions for the School District Bond Guarantee Program are satisfied, the guarantee becomes effective upon approval of the bonds by the Attorney General and remains in effect until the guaranteed bonds are paid or defeased, by a refunding or otherwise.

In the event of default, holders of guaranteed school district bonds will receive all payments as and when may become due from the corpus of the PSF. Following a determination that a school district will be or is unable to pay maturing or matured principal or interest on any guaranteed bond, the Act requires the school district to notify the Education Commissioner not later than the fifth day before the stated maturity date of such bond or interest payment. Immediately following receipt of such notice, the Education Commissioner must cause to be transferred from the appropriate account in the PSF to the Paying Agent/Registrar an amount necessary to pay the maturing or matured principal and interest, as applicable. Upon receipt of funds for payment of such principal or interest, the Paying Agent/Registrar must pay the amount due and forward the canceled bond or evidence of payment of the interest to the State Comptroller of Public Accounts (the "Comptroller"). The Education Commissioner will instruct the Comptroller to withhold the amount paid, plus interest, from the first State money payable to the school district. The amount withheld pursuant to this funding "intercept" feature will be deposited to the credit of the PSF. The Comptroller must hold such canceled bond or evidence of payment of the interest on behalf of the PSF. Following full reimbursement of such payment by the school district to the PSF with interest, the Comptroller will

cancel the bond or evidence of payment of the interest and forward it to the school district. The Act permits the Education Commissioner to order a school district to set a tax rate sufficient to reimburse the PSF for any payments made with respect to guaranteed bonds, and also sufficient to pay future payments on guaranteed bonds, and provides certain enforcement mechanisms to the Education Commissioner, including the appointment of a board of managers or annexation of a defaulting school district to another school district.

If a school district fails to pay principal or interest on a bond as it is stated to mature, other amounts not due and payable are not accelerated and do not become due and payable by virtue of the district's default. The School District Bond Guarantee Program does not apply to the payment of principal and interest upon redemption of bonds, except upon mandatory sinking fund redemption, and does not apply to the obligation, if any, of a school district to pay a redemption premium on its guaranteed bonds. The guarantee applies to all matured interest on guaranteed school district bonds, whether the bonds were issued with a fixed or variable interest rate and whether the interest rate changes as a result of an interest reset provision or other bond order provision requiring an interest rate change. The guarantee does not extend to any obligation of a school district under any agreement with a third party relating to guaranteed bonds that is defined or described in State law as a "bond enhancement agreement" or a "credit agreement," unless the right to payment of such third party is directly as a result of such third party being a bondholder.

In the event that two or more payments are made from the PSF on behalf of a district, the Education Commissioner shall request the Attorney General to institute legal action to compel the district and its officers, agents and employees to comply with the duties required of them by law in respect to the payment of guaranteed bonds.

Generally, the regulations that govern the School District Bond Guarantee Program (the "SDBGP Rules") limit guarantees to certain types of notes and bonds, including, with respect to refunding bonds issued by school districts, a requirement that the bonds produce debt service savings. The SDBGP Rules include certain accreditation criteria for districts applying for a guarantee of their bonds, and limit guarantees to districts that have less than the amount of annual debt service per average daily attendance that represents the 90th percentile of annual debt service per average daily attendance for all school districts, but such limitation will not apply to school districts that have enrollment growth of at least 25% over the previous five school years. The SDBGP Rules are codified in the Texas Administrative Code at 19 TAC section 33.6 and are available at <https://tea.texas.gov/finance-and-grants/state-funding/facilities-funding-and-standards/bond-guarantee-program>.

The Charter District Bond Guarantee Program

The Charter District Bond Guarantee Program became effective March 3, 2014. The SBOE published final regulations in the Texas Register that provide for the administration of the Charter District Bond Guarantee Program (the "CDBGP Rules"). The CDBGP Rules are codified at 19 TAC section 33.7 and are available at <https://tea.texas.gov/finance-and-grants/state-funding/facilities-funding-and-standards/bond-guarantee-program>.

The Charter District Bond Guarantee Program has been authorized through the enactment of amendments to the Act, which provide that a charter holder may make application to the Education Commissioner for designation as a "charter district" and for a guarantee by the PSF under the Act of bonds issued on behalf of a charter district by a non-profit corporation. If the conditions for the Charter District Bond Guarantee Program are satisfied, the guarantee becomes effective upon approval of the bonds by the Attorney General and remains in effect until the guaranteed bonds are paid or defeased, by a refunding or otherwise.

Pursuant to the CDBGP Rules, the Education Commissioner annually determines the ratio of charter district students to total public school students, for the 2025 fiscal year, the ratio is 7.86%. At February 27, 2025, there were 188 active open-enrollment charter schools in the State and there were 1,222 charter school campuses authorized under such charters, though as of such date, 264 of such campuses are not currently serving students for various reasons; therefore, there are 958 charter school campuses actively serving students in Texas. Section 12.101, Texas Education Code, limits the number of charters that the Education Commissioner may grant to a total number of 305 charters. While legislation limits the number of charters that may be granted, it does not limit the number of campuses that may operate under a particular charter. For information regarding the capacity of the Guarantee Program, see "Capacity Limits for the Guarantee Program." The Act provides that the Education Commissioner may not approve the guarantee of refunding or refinanced bonds under the Charter District Bond Guarantee Program in a total amount that exceeds one-half of the total amount available for the guarantee of charter district bonds under the Charter District Bond Guarantee Program.

In accordance with the Act, the Education Commissioner may not approve charter district bonds for guarantee if such guarantees will result in lower bond ratings for public school district bonds that are guaranteed under the School District Bond Guarantee Program. To be eligible for a guarantee, the Act provides that a charter district's bonds must be approved by the Attorney General, have an unenhanced investment grade rating from a nationally recognized investment rating firm, and satisfy a limited investigation conducted by the TEA.

The Charter District Bond Guarantee Program does not apply to the payment of principal and interest upon redemption of bonds, except upon mandatory sinking fund redemption, and does not apply to the obligation, if any, of a charter district to pay a redemption premium on its guaranteed bonds. The guarantee applies to all matured interest on guaranteed charter district bonds, whether the bonds were issued with a fixed or variable interest rate and whether the interest rate changes as a result of an interest reset provision or other bond resolution provision requiring an interest rate change. The guarantee does not extend to any obligation of a charter district under any agreement with a third party relating to guaranteed bonds that is defined or described in State law as a “bond enhancement agreement” or a “credit agreement,” unless the right to payment of such third party is directly as a result of such third party being a bondholder.

In the event of default, holders of guaranteed charter district bonds will receive all payments as and when they become due from the corpus of the PSF. Following a determination that a charter district will be or is unable to pay maturing or matured principal or interest on any guaranteed bond, the Act requires a charter district to notify the Education Commissioner not later than the fifth day before the stated maturity date of such bond or interest payment and provides that immediately following receipt of notice that a charter district will be or is unable to pay maturing or matured principal or interest on a guaranteed bond, the Education Commissioner is required to instruct the Comptroller to transfer from the Charter District Reserve Fund to the district's paying agent an amount necessary to pay the maturing or matured principal or interest, as applicable. If money in the Charter District Reserve Fund is insufficient to pay the amount due on a bond for which a notice of default has been received, the Education Commissioner is required to instruct the Comptroller to transfer from the PSF to the district's paying agent the amount necessary to pay the balance of the unpaid maturing or matured principal or interest, as applicable. If a total of two or more payments are made under the Charter District Bond Guarantee Program on charter district bonds and the Education Commissioner determines that the charter district is acting in bad faith under the program, the Education Commissioner may request the Attorney General to institute appropriate legal action to compel the charter district and its officers, agents, and employees to comply with the duties required of them by law in regard to the guaranteed bonds. As is the case with the School District Bond Guarantee Program, the Act provides a funding “intercept” feature that obligates the Education Commissioner to instruct the Comptroller to withhold the amount paid with respect to the Charter District Bond Guarantee Program, plus interest, from the first State money payable to a charter district that fails to make a guaranteed payment on its bonds. The amount withheld will be deposited, first, to the credit of the PSF, and then to restore any amount drawn from the Charter District Reserve Fund as a result of the non-payment.

The CDBG Rules provide that the PSF may be used to guarantee bonds issued for the acquisition, construction, repair, or renovation of an educational facility for an open-enrollment charter holder and equipping real property of an open-enrollment charter school and/or to refinance promissory notes executed by an open-enrollment charter school, each in an amount in excess of \$500,000 the proceeds of which loans were used for a purpose described above (so-called new money bonds) or for refinancing bonds previously issued for the charter school that were approved by the Attorney General (so-called refunding bonds). Refunding bonds may not be guaranteed under the Charter District Bond Guarantee Program if they do not result in a present value savings to the charter holder.

The CDBG Rules provide that an open-enrollment charter holder applying for charter district designation and a guarantee of its bonds under the Charter District Bond Guarantee Program satisfy various provisions of the regulations, including the following: It must (i) have operated at least one open-enrollment charter school with enrolled students in the State for at least three years; (ii) agree that the bonded indebtedness for which the guarantee is sought will be undertaken as an obligation of all entities under common control of the open-enrollment charter holder, and that all such entities will be liable for the obligation if the open-enrollment charter holder defaults on the bonded indebtedness, provided, however, that an entity that does not operate a charter school in Texas is subject to this provision only to the extent it has received state funds from the open-enrollment charter holder; (iii) have had completed for the past three years an audit for each such year that included unqualified or unmodified audit opinions; and (iv) have received an investment grade credit rating within the last year. Upon receipt of an application for guarantee under the Charter District Bond Guarantee Program, the Education Commissioner is required to conduct an investigation into the financial status of the applicant charter district and of the accreditation status of all open-enrollment charter schools operated under the charter, within the scope set forth in the CDBG Rules. Such financial investigation must establish that an applying charter district has a historical debt service coverage ratio, based on annual debt service, of at least 1.1 for the most recently completed fiscal year, and a projected debt service coverage ratio, based on projected revenues and expenses and maximum annual debt service, of at least 1.2. The failure of an open-enrollment charter holder to comply with the Act or the applicable regulations, including by making any material misrepresentations in the charter holder's application for charter district designation or guarantee under the Charter District Bond Guarantee Program, constitutes a material violation of the open-enrollment charter holder's charter.

From time to time, TEA has limited new guarantees under the Charter District Bond Guarantee Program to conform to capacity limits specified by the Act. The Charter District Bond Guarantee Program Capacity (the “CDBG Capacity”) is made available from the capacity of the Guarantee Program but is not reserved exclusively for the Charter District Bond Guarantee Program. See “Capacity Limits for the Guarantee Program.” Other factors that could increase the CDBG Capacity include Fund investment performance, future increases in the Guarantee Program multiplier, changes in State law

that govern the calculation of the CDBGP Capacity, as described below, changes in State or federal law or regulations related to the Guarantee Program limit, growth in the relative percentage of students enrolled in open-enrollment charter schools to the total State scholastic census, legislative and administrative changes in funding for charter districts, changes in level of school district or charter district participation in the Guarantee Program, or a combination of such circumstances.

Capacity Limits for the Guarantee Program

The capacity of the Fund to guarantee bonds under the Guarantee Program is limited to the lesser of that imposed by State law (the “State Capacity Limit”) and that imposed by regulations and a notice issued by the IRS (the “IRS Limit”, with the limit in effect at any given time being the “Capacity Limit”). From 2005 through 2009, the Guarantee Program twice reached capacity under the IRS Limit, and in each instance the Guarantee Program was closed to new bond guarantee applications until relief was obtained from the IRS. The most recent closure of the Guarantee Program commenced in March 2009 and the Guarantee Program reopened in February 2010 after the IRS updated regulations relating to the PSF and similar funds.

Prior to 2007, various legislation was enacted modifying the calculation of the State Capacity limit; however, in 2007, Senate Bill 389 (“SB 389”) was enacted, providing for increases in the capacity of the Guarantee Program, and specifically providing that the SBOE may by rule increase the capacity of the Guarantee Program from two and one-half times the cost value of the PSF to an amount not to exceed five times the cost value of the PSF, provided that the increased limit does not violate federal law and regulations and does not prevent bonds guaranteed by the Guarantee Program from receiving the highest available credit rating, as determined by the SBOE. SB 389 further provided that the SBOE shall at least annually consider whether to change the capacity of the Guarantee Program. Additionally, on May 21, 2010, the SBOE modified the SDBGP Rules, and increased the State Capacity Limit to an amount equal to three times the cost value of the PSF. Such modified regulations, including the revised capacity rule, became effective on July 1, 2010. The SDBGP Rules provide that the Education Commissioner will estimate the available capacity of the PSF each month and may increase or reduce the State Capacity Limit multiplier to prudently manage fund capacity and maintain the AAA credit rating of the Guarantee Program but also provide that any changes to the multiplier made by the Education Commissioner are to be ratified or rejected by the SBOE at the next meeting following the change. See “Valuation of the PSF and Guaranteed Bonds” below.

Since September 2015, the SBOE has periodically voted to change the capacity multiplier as shown in the following table.

<u>Changes in SBOE-determined multiplier for State Capacity Limit</u>	
<u>Date</u>	<u>Multiplier</u>
Prior to May 2010	2.50
May 2010	3.00
September 2015	3.25
February 2017	3.50
September 2017	3.75
February 2018 (current)	3.50

Since December 16, 2009, the IRS Limit was a static limit set at 500% of the total cost value of the assets held by the PSF as of December 16, 2009; however, on May 10, 2023, the IRS released Notice 2023-39 (the “IRS Notice”), stating that the IRS would issue regulations amending the existing regulations to amend the calculation of the IRS limit to 500% of the total cost value of assets held by the PSF as of the date of sale of new bonds, effective as of May 10, 2023.

The IRS Notice changed the IRS Limit from a static limit to a dynamic limit for the Guarantee Program based upon the cost value of Fund assets, multiplied by five. As of January 31, 2025 the cost value of the Guarantee Program was \$48,560,433,760 (unaudited), thereby producing an IRS Limit of \$242,802,168,800 in principal amount of guaranteed bonds outstanding.

As of January 31, 2025, the estimated State Capacity Limit is \$169,961,518,160, which is lower than the IRS Limit, making the State Capacity Limit the current Capacity Limit for the Fund.

Since July 1991, when the SBOE amended the Guarantee Program Rules to broaden the range of bonds that are eligible for guarantee under the Guarantee Program to encompass most Texas school district bonds, the principal amount of bonds guaranteed under the Guarantee Program has increased sharply. In addition, in recent years a number of factors have caused an increase in the amount of bonds issued by school districts in the State. See the table “Permanent School Fund Guaranteed Bonds” below. Effective March 1, 2023, the Act provides that the SBOE may establish a percentage of the Capacity Limit to be reserved from use in guaranteeing bonds (the “Capacity Reserve”). The SDBGP Rules provide for a maximum Capacity Reserve for the overall Guarantee Program of 5% and provide that the amount of the Capacity Reserve may be increased or decreased by a majority vote of the SBOE based on changes in the cost value, asset allocation, and risk in the portfolio, or may be increased or decreased by the Education Commissioner as necessary to prudently manage fund capacity

and preserve the AAA credit rating of the Guarantee Program (subject to ratification or rejection by the SBOE at the next meeting for which an item can be posted). The CDBGP Rules provide for an additional reserve of CDBGP Capacity determined by calculating an equal percentage as established by the SBOE for the Capacity Reserve, applied to the CDBGP Capacity. Effective March 1, 2023, the Capacity Reserve is 0.25%. The Capacity Reserve is noted in the monthly updates with respect to the capacity of the Guarantee Program on the PSF Corporation's web site at <https://texaspsf.org/monthly-disclosures/>, which are also filed with the MSRB.

Based upon historical performance of the Fund, the legal restrictions relating to the amount of bonds that may be guaranteed has generally resulted in a lower ratio of guaranteed bonds to available assets as compared to many other types of credit enhancements that may be available for Texas school district bonds and charter district bonds. However, the ratio of Fund assets to guaranteed bonds and the growth of the Fund in general could be adversely affected by a number of factors, including Fund investment performance, investment objectives of the Fund, an increase in bond issues by school districts in the State or legal restrictions on the Fund, changes in State laws that implement funding decisions for school districts and charter districts, which could adversely affect the credit quality of those districts, the implementation of the Charter District Bond Guarantee Program, or significant changes in distributions to the ASF. The issuance of the IRS Notice and the Final IRS Regulations resulted in a substantial increase in the amount of bonds guaranteed under the Guarantee Program.

No representation is made as to how the capacity will remain available, and the capacity of the Guarantee Program is subject to change due to a number of factors, including changes in bond issuance volume throughout the State and some bonds receiving guarantee approvals may not close. If the amount of guaranteed bonds approaches the State Capacity Limit, the SBOE or Education Commissioner may increase the State Capacity Limit multiplier as discussed above.

2017 Legislative Changes to the Charter District Bond Guarantee Program

The CDBGP Capacity is established by the Act. During the 85th Texas Legislature, which concluded on May 29, 2017, Senate Bill 1480 ("SB 1480") was enacted. SB 1480 amended the Act to modify how the CDBGP Capacity is established effective as of September 1, 2017, and made other substantive changes to the Charter District Bond Guarantee Program. Prior to the enactment of SB 1480, the CDBGP Capacity was calculated as the Capacity Limit less the amount of outstanding bond guarantees under the Guarantee Program multiplied by the percentage of charter district scholastic population relative to the total public school scholastic population. SB 1480 amended the CDBGP Capacity calculation so that the Capacity Limit is multiplied by the percentage of charter district scholastic population relative to the total public school scholastic population prior to the subtraction of the outstanding bond guarantees, thereby increasing the CDBGP Capacity.

The percentage of the charter district scholastic population to the overall public school scholastic population has grown from 3.53% in September 2012 to 7.86% in February 2025. TEA is unable to predict how the ratio of charter district students to the total State scholastic population will change over time.

In addition to modifying the manner of determining the CDBGP Capacity, SB 1480 provided that the Education Commissioner's investigation of a charter district application for guarantee may include an evaluation of whether the charter district bond security documents provide a security interest in real property pledged as collateral for the bond and the repayment obligation under the proposed guarantee. The Education Commissioner may decline to approve the application if the Education Commissioner determines that sufficient security is not provided. The Act and the CDBGP Rules also require the Education Commissioner to make an investigation of the accreditation status and financial status for a charter district applying for a bond guarantee.

Since the initial authorization of the Charter District Bond Guarantee Program, the Act has established a bond guarantee reserve fund in the State treasury (the "Charter District Reserve Fund"). Formerly, the Act provided that each charter district that has a bond guaranteed must annually remit to the Education Commissioner, for deposit in the Charter District Reserve Fund, an amount equal to 10% of the savings to the charter district that is a result of the lower interest rate on its bonds due to the guarantee by the PSF. SB 1480 modified the Act insofar as it pertains to the Charter District Reserve Fund. Effective September 1, 2017, the Act provides that a charter district that has a bond guaranteed must remit to the Education Commissioner, for deposit in the Charter District Reserve Fund, an amount equal to 20% of the savings to the charter district that is a result of the lower interest rate on the bond due to the guarantee by the PSF. The amount due shall be paid on receipt by the charter district of the bond proceeds. However, the deposit requirement will not apply if the balance of the Charter District Reserve Fund is at least equal to 3.00% of the total amount of outstanding guaranteed bonds issued by charter districts. At January 31, 2025, the Charter District Reserve Fund contained \$120,355,020, which represented approximately 2.44% of the guaranteed charter district bonds. The Reserve Fund is held and invested as a non-commingled fund under the administration of the PSF Corporation staff.

Charter District Risk Factors

Open-enrollment charter schools in the State may not charge tuition and, unlike school districts, charter districts have no taxing power. Funding for charter district operations is largely from amounts appropriated by the Legislature. Additionally, the amount of State payments a charter district receives is based on a variety of factors, including the enrollment at the schools operated by a charter district, and may be affected by the State's economic performance and other budgetary considerations and various political considerations.

Other than credit support for charter district bonds that is provided to qualifying charter districts by the Charter District Bond Guarantee Program, State funding for charter district facilities construction is limited to a program established by the Legislature in 2017, which provides \$60 million per year for eligible charter districts with an acceptable performance rating for a variety of funding purposes, including for lease or purchase payments for instructional facilities. Since State funding for charter facilities is limited, charter schools generally issue revenue bonds to fund facility construction and acquisition, or fund facilities from cash flows of the school. Some charter districts have issued non-guaranteed debt in addition to debt guaranteed under the Charter District Bond Guarantee Program, and such non-guaranteed debt is likely to be secured by a deed of trust covering all or part of the charter district's facilities. In March 2017, the TEA began requiring charter districts to provide the TEA with a lien against charter district property as a condition to receiving a guarantee under the Charter District Bond Guarantee Program. However, charter district bonds issued and guaranteed under the Charter District Bond Guarantee Program prior to the implementation of the new requirement did not have the benefit of a security interest in real property, although other existing debts of such charter districts that are not guaranteed under the Charter District Bond Guarantee Program may be secured by real property that could be foreclosed on in the event of a bond default.

As a general rule, the operation of a charter school involves fewer State requirements and regulations for charter holders as compared to other public schools, but the maintenance of a State-granted charter is dependent upon on-going compliance with State law and regulations, which are monitored by TEA. TEA has a broad range of enforcement and remedial actions that it can take as corrective measures, and such actions may include the loss of the State charter, the appointment of a new board of directors to govern a charter district, the assignment of operations to another charter operator, or, as a last resort, the dissolution of an open-enrollment charter school. Charter holders are governed by a private board of directors, as compared to the elected boards of trustees that govern school districts.

As described above, the Act includes a funding "intercept" function that applies to both the School District Bond Guarantee Program and the Charter District Bond Guarantee Program. However, school districts are viewed as the "educator of last resort" for students residing in the geographical territory of the district, which makes it unlikely that State funding for those school districts would be discontinued, although the TEA can require the dissolution and merger into another school district if necessary to ensure sound education and financial management of a school district. That is not the case with a charter district, however, and open-enrollment charter schools in the State have been dissolved by TEA from time to time. If a charter district that has bonds outstanding that are guaranteed by the Charter District Bond Guarantee Program should be dissolved, debt service on guaranteed bonds of the district would continue to be paid to bondholders in accordance with the Charter District Bond Guarantee Program, but there would be no funding available for reimbursement of the PSF by the Comptroller for such payments. As described under "The Charter District Bond Guarantee Program," the Act established the Charter District Reserve Fund, to serve as a reimbursement resource for the PSF.

Ratings of Bonds Guaranteed Under the Guarantee Program

Moody's Investors Service, Inc., S&P Global Ratings, and Fitch Ratings, Inc. rate bonds guaranteed by the PSF "Aaa," "AAA" and "AAA," respectively. Not all districts apply for multiple ratings on their bonds, however. See the applicable rating section within the offering document to which this is attached for information regarding a district's underlying rating and the enhanced rating applied to a given series of bonds.

[Remainder of Page Intentionally Left Blank]

Valuation of the PSF and Guaranteed Bonds

Permanent School Fund Valuations		
Fiscal Year Ended 8/31	Book Value ⁽¹⁾	Market Value ⁽¹⁾
2020	\$36,642,000,738	\$46,764,059,745
2021	38,699,895,545	55,582,252,097
2022	42,511,350,050	56,754,515,757
2023	43,915,792,841	59,020,536,667
2024 ⁽²⁾	46,276,260,013	56,937,188,265

- (1) SLB managed assets are included in the market value and book value of the Fund. In determining the market value of the PSF from time to time during a fiscal year, the current, unaudited values for PSF investment portfolios and cash held by the SLB are used. With respect to SLB managed assets shown in the table above, market values of land and mineral interests, internally managed real estate, investments in externally managed real estate funds and cash are based upon information reported to the PSF Corporation by the SLB. The SLB reports that information to the PSF Corporation on a quarterly basis. The valuation of such assets at any point in time is dependent upon a variety of factors, including economic conditions in the State and nation in general, and the values of these assets, and, in particular, the valuation of mineral holdings administered by the SLB, can be volatile and subject to material changes from period to period.
- (2) At August 31, 2024, mineral assets, sovereign lands, other lands, and discretionary internal investments, had book values of approximately \$13.4 million, \$0.8 million, \$37.2 million, and \$318.9 million, respectively, and market values of approximately \$4,540.6 million, \$277.4 million, \$153.1 million, and \$457.0 million, respectively.

Permanent School Fund Guaranteed Bonds	
At 8/31	Principal Amount ⁽¹⁾
2020	\$ 90,336,680,245
2021	95,259,161,922
2022	103,239,495,929
2023	115,730,826,682
2024	125,815,981,603 ⁽²⁾

- (1) Represents original principal amount; does not reflect any subsequent accretions in value for compound interest bonds (zero coupon securities). The amount shown excludes bonds that have been refunded and released from the Guarantee Program. The TEA does not maintain records of the accreted value of capital appreciation bonds that are guaranteed under the Guarantee Program.
- (2) At August 31, 2024 (the most recent date for which such data is available), the TEA expected that the principal and interest to be paid by school districts and charter districts over the remaining life of the bonds guaranteed by the Guarantee Program was \$196,294,405,488, of which \$70,478,423,885 represents interest to be paid. As shown in the table above, at August 31, 2024, there were \$125,815,981,603 in principal amount of bonds guaranteed under the Guarantee Program. Using the State Capacity Limit of \$169,961,518,160 (the State Capacity Limit is currently the Capacity Limit), net of the Capacity Reserve, as of January 31, 2025, 7.69% of the Guarantee Program's capacity was available to the Charter District Bond Guarantee Program. As of January 31, 2025, the amount of outstanding bond guarantees represented 76.33% of the Capacity Limit (which is currently the State Capacity Limit). January 31, 2025 values are based on unaudited data, which is subject to adjustment.

Permanent School Fund Guaranteed Bonds by Category⁽¹⁾						
Fiscal Year Ended 8/31	School District Bonds		Charter District Bonds		Totals	
	Number of Issues	Principal Amount (\$)	Number of Issues	Principal Amount (\$)	Number of Issues	Principal Amount (\$)
2020	3,296	87,800,478,245	64	2,536,202,000	3,360	90,336,680,245
2021	3,346	91,951,175,922	83	3,307,986,000	3,429	95,259,161,922
2022	3,348	99,528,099,929	94	3,711,396,000	3,442	103,239,495,929
2023	3,339	111,647,914,682	102	4,082,912,000	3,441	115,730,826,682
2024 ⁽²⁾	3,330	121,046,871,603	103	4,769,110,000	3,433	125,815,981,603

- (1) Represents original principal amount; does not reflect any subsequent accretions in value for compound interest bonds (zero coupon securities). The amount shown excludes bonds that have been refunded and released from the Guarantee Program.
- (2) At January 31, 2025 (based on unaudited data, which is subject to adjustment), there were \$129,723,799,121 in principal amount of bonds guaranteed under the Guarantee Program, representing 3,437 school district issues, aggregating \$124,794,149,121 in principal amount and 109 charter district issues, aggregating \$4,929,650,000 in principal amount. At January 31, 2025 the projected guarantee capacity available was \$39,780,221,830 (based on unaudited data, which is subject to adjustment).

Discussion and Analysis Pertaining to Fiscal Year Ended August 31, 2024

The following discussion is derived from the Annual Report for the year ended August 31, 2024, including the Message from the Chief Executive Officer of the Fund, the Management's Discussion and Analysis, and other schedules contained therein. Reference is made to the Annual Report, as filed with the MSRB, for the complete Message and MD&A. Investment assets managed by the PSF Corporation are referred to throughout this MD&A as the PSF(CORP). The Fund's non-financial real assets are managed by the SLB and these assets are referred to throughout as the PSF(SLB) assets.

At the end of fiscal year 2024, the PSF(CORP) net position was \$57.3 billion. During the year, the PSF(CORP) continued implementing the long-term strategic asset allocation, diversifying the investment mix to strengthen the Fund. The asset allocation is projected to increase returns over the long run while reducing risk and portfolio return volatility. The PSF(CORP) is invested in global markets and liquid and illiquid assets experience volatility commensurate with the related indices. The PSF(CORP) is broadly diversified and benefits from the cost structure of its investment program. Changes continue to be researched, crafted, and implemented to make the cost structure more effective and efficient. The PSF(CORP) annual rates of return for the one-year, five-year, and ten-year periods ending August 31, 2024, net of fees, were 10.12%, 7.31%, and 6.32%, respectively (total return takes into consideration the change in the market value of the Fund during the year as well as the interest and dividend income generated by the Fund's investments). See "Comparative Investment Schedule - PSF(CORP)" for the PSF(CORP) holdings as of August 31, 2024.

Effective February 1, 2024, Texas PSF transitioned into a new strategic asset allocation. The new allocation of the PSF Corporation updated the strategic asset allocation among public equities, fixed income, and alternative assets, as discussed herein. Alternative assets now include private credit, absolute return, private equity, real estate, natural resources, and infrastructure. For a description of the accrual basis of accounting and more information about performance, including comparisons to established benchmarks for certain periods, please see the 2024 Annual Report which is included by reference herein.

Infrastructure	4.41	3.63
Bank Loans	3.02	3.23
Short Term Investment Portfolio	2.42	2.28

(1) Time weighted rates of return adjusted for cash flows for the PSF(CORP) investment assets. Does not include SLB managed real estate or real assets. Returns are net of fees. Source: Annual Report for year ended August 31, 2024.

(2) Benchmarks are as set forth in the Annual Report for year ended August 31, 2024.

The SLB is responsible for the investment of money in the Real Estate Special Fund Account (RESFA) of the PSF (also referred to herein as the PSF(SLB)). Pursuant to applicable law, money in the PSF(SLB) may be invested in land, mineral and royalty interest, and real property holdings. For more information regarding the investments of the PSF(SLB), please see the 2024 Unaudited Annual Financial Report of the Texas General Land Office and Veterans Land Board.

The Fund directly supports the public school system in the State by distributing a predetermined percentage of its asset value to the ASF. In fiscal year 2024, \$2.2 billion was distributed to the ASF, \$600 million of which was distributed by the PSF(CORP) on behalf of the SLB.

Other Events and Disclosures

State ethics laws govern the ethics and disclosure requirements for financial advisors and other service providers who advise certain State governmental entities, including the PSF. The SBOE code of ethics provides ethical standards for SBOE members, the Education Commissioner, TEA staff, and persons who provide services to the SBOE relating to the Fund. The PSF Corporation developed its own ethics policy that provides basic ethical principles, guidelines, and standards of conduct relating to the management and investment of the Fund in accordance with the requirements of §43.058 of the Texas Education Code, as amended. The SBOE code of ethics is codified in the Texas Administrative Code at 19 TAC sections 33.4 et seq. and is available on the TEA web site at <https://tea.texas.gov/sites/default/files/ch033a.pdf>. The PSF Corporation's ethics policy is posted to the PSF Corporation's website at texaspsf.org.

In addition, the SLB and GLO have established processes and controls over the administration of real estate transactions and are subject to provisions of the Texas Natural Resources Code and internal procedures in administering real estate transactions for Fund assets it manages.

As of August 31, 2024, certain lawsuits were pending against the State and/or the GLO, which challenge the Fund's title to certain real property and/or past or future mineral income from that property, and other litigation arising in the normal course of the investment activities of the PSF. Reference is made to the Annual Report, when filed, for a description of such lawsuits that are pending, which may represent contingent liabilities of the Fund.

PSF Continuing Disclosure Undertaking

As of March 1, 2023, the TEA's undertaking pursuant to Rule 15c2-12 (the "TEA Undertaking") pertaining to the PSF and the Guarantee Program, is codified at 19 TAC 33.8, which relates to the Guarantee Program and is available at <https://tea.texas.gov/sites/default/files/ch033a.pdf>.

Through the codification of the TEA Undertaking and its commitment to guarantee bonds, the TEA has made the following agreement for the benefit of the issuers, holders, and beneficial owners of guaranteed bonds. The TEA (or its successor with respect to the management of the Guarantee Program) is required to observe the agreement for so long as it remains an

“obligated person,” within the meaning of Rule 15c2-12, with respect to guaranteed bonds. Nothing in the TEA Undertaking obligates the TEA to make any filings or disclosures with respect to guaranteed bonds, as the obligations of the TEA under the TEA Undertaking pertain solely to the Guarantee Program. The issuer or an “obligated person” of the guaranteed bonds has assumed the applicable obligation under Rule 15c2-12 to make all disclosures and filings relating directly to guaranteed bonds, and the TEA takes no responsibility with respect to such undertakings. Under the TEA Undertaking, the TEA is obligated to provide annually certain updated financial information and operating data, and timely notice of specified material events, to the MSRB.

The MSRB has established the Electronic Municipal Market Access (“EMMA”) system, and the TEA is required to file its continuing disclosure information using the EMMA system. Investors may access continuing disclosure information filed with the MSRB at www.emma.msrb.org, and the continuing disclosure filings of the TEA with respect to the PSF can be found at <https://emma.msrb.org/IssueView/Details/ER355077> or by searching for “Texas Permanent School Fund Bond Guarantee Program” on EMMA.

Annual Reports

The PSF Corporation, on behalf of the TEA, and the TEA will annually provide certain updated financial information and operating data to the MSRB. The information to be updated includes all quantitative financial information and operating data with respect to the Guarantee Program and the PSF of the general type included in this offering document under the heading “THE PERMANENT SCHOOL FUND GUARANTEE PROGRAM.” The information also includes the Annual Report. The PSF Corporation will update and provide this information within six months after the end of each fiscal year.

The TEA and the PSF Corporation may provide updated information in full text or may incorporate by reference certain other publicly-available documents, as permitted by Rule 15c2-12. The updated information includes audited financial statements of, or relating to, the State or the PSF, when and if such audits are commissioned and available. In the event audits are not available by the filing deadline, unaudited financial statements will be provided by such deadline, and audited financial statements will be provided when available. Financial statements of the State will be prepared in accordance with generally accepted accounting principles as applied to state governments, as such principles may be changed from time to time, or such other accounting principles as the State Auditor is required to employ from time to time pursuant to State law or regulation. The financial statements of the Fund are required to be prepared to conform to U.S. Generally Accepted Accounting Principles as established by the Governmental Accounting Standards Board.

The Fund is composed of two primary segments: the financial assets (PSF(CORP)) managed by PSF Corporation, and the non-financial assets (PSF(SLB)) managed by the SLB. Each of these segments is reported separately und different bases of accounting.

The PSF Corporation reports as a special-purpose government engaged in business-type activities and reports to the State of Texas as a discretely presented component unit accounted for on an economic resources measurement focus and the accrual basis of accounting. Measurement focus refers to the definition of the resource flows measured. Under the accrual basis of accounting, all revenues reported are recognized in the period they are earned or when the PSF Corporation has a right to receive them. Expenses are recognized in the period they are incurred, and the subsequent amortization of any deferred outflows. Additionally, costs related to capital assets are capitalized and subsequently depreciated over the useful life of the assets. Both current and long-term assets and liabilities are presented in the statement of net position.

The SLB manages the Fund’s non-financial assets (PSF(SLB)), is classified as a governmental permanent fund and accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, amounts are recognized as revenues in the period in which they are available to finance expenditures of the current period and are measurable. Amounts are considered measurable if they can be estimated or otherwise determined. Expenditures are recognized in the period in which the related liability is incurred, if measurable.

The State’s current fiscal year end is August 31. Accordingly, the TEA and the PSF Corporation must provide updated information by the last day of February in each year, unless the State changes its fiscal year. If the State changes its fiscal year, the TEA and PSF Corporation will notify the MSRB of the change.

Event Notices

The TEA and the PSF Corporation will also provide timely notices of certain events to the MSRB. Such notices will be provided not more than ten business days after the occurrence of the event. The TEA or the PSF Corporation will provide notice of any of the following events with respect to the Guarantee Program: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if such event is material within the meaning of the federal securities laws; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit

enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the IRS of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB), or other material notices or determinations with respect to the tax status of the Guarantee Program, or other material events affecting the tax status of the Guarantee Program; (7) modifications to rights of holders of bonds guaranteed by the Guarantee Program, if such event is material within the meaning of the federal securities laws; (8) bond calls, if such event is material within the meaning of the federal securities laws, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of bonds guaranteed by the Guarantee Program, if such event is material within the meaning of the federal securities laws; (11) rating changes of the Guarantee Program; (12) bankruptcy, insolvency, receivership, or similar event of the Guarantee Program (which is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent, or similar officer for the Guarantee Program in a proceeding under the United States Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the Guarantee Program, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement, or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the Guarantee Program); (13) the consummation of a merger, consolidation, or acquisition involving the Guarantee Program or the sale of all or substantially all of its assets, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if such event is material within the meaning of the federal securities laws; (14) the appointment of a successor or additional trustee with respect to the Guarantee Program or the change of name of a trustee, if such event is material within the meaning of the federal securities laws; (15) the incurrence of a financial obligation of the Guarantee Program, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the Guarantee Program, any of which affect security holders, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the Guarantee Program, any of which reflect financial difficulties. (Neither the Act nor any other law, regulation or instrument pertaining to the Guarantee Program make any provision with respect to the Guarantee Program for bond calls, debt service reserves, credit enhancement, liquidity enhancement, early redemption, or the appointment of a trustee with respect to the Guarantee Program.) In addition, the TEA or the PSF Corporation will provide timely notice of any failure by the TEA or the PSF Corporation to provide information, data, or financial statements in accordance with its agreement described above under “Annual Reports.”

Availability of Information

The TEA and the PSF Corporation have agreed to provide the foregoing information only to the MSRB and to transmit such information electronically to the MSRB in such format and accompanied by such identifying information as prescribed by the MSRB. The information is available from the MSRB to the public without charge at www.emma.msrb.org.

Limitations and Amendments

The TEA and the PSF Corporation have agreed to update information and to provide notices of material events only as described above. The TEA and the PSF Corporation have not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The TEA and the PSF Corporation make no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell bonds at any future date. The TEA and the PSF Corporation disclaim any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders of Bonds may seek a writ of mandamus to compel the TEA and the PSF Corporation to comply with its agreement.

The continuing disclosure agreement is made only with respect to the PSF and the Guarantee Program. The issuer of guaranteed bonds or an obligated person with respect to guaranteed bonds may make a continuing disclosure undertaking in accordance with Rule 15c2-12 with respect to its obligations arising under Rule 15c2-12 pertaining to financial information and operating data concerning such entity and events notices relating to such guaranteed bonds. A description of such undertaking, if any, is included elsewhere in this offering document.

This continuing disclosure agreement may be amended by the TEA or the PSF Corporation from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the TEA or the PSF Corporation, but only if (1) the provisions, as so amended, would have permitted an underwriter to purchase or sell guaranteed bonds in the primary offering of such bonds in compliance with Rule 15c2-12, taking into account any amendments or interpretations of Rule 15c2-12 since such offering as well as such changed circumstances and (2) either (a) the holders of a majority in aggregate principal amount of the outstanding bonds guaranteed by the Guarantee Program consent to such amendment or (b) a person that is unaffiliated with the TEA or the

PSF Corporation (such as nationally recognized bond counsel) determines that such amendment will not materially impair the interest of the holders and beneficial owners of the bonds guaranteed by the Guarantee Program. The TEA or the PSF Corporation may also amend or repeal the provisions of its continuing disclosure agreement if the SEC amends or repeals the applicable provision of Rule 15c2-12 or a court of final jurisdiction enters judgment that such provisions of Rule 15c2-12 are invalid, but only if and to the extent that the provisions of this sentence would not prevent an underwriter from lawfully purchasing or selling bonds guaranteed by the Guarantee Program in the primary offering of such bonds.

Compliance with Prior Undertakings

Except as stated below, during the last five years, the TEA and the PSF Corporation have not failed to substantially comply with their previous continuing disclosure agreements in accordance with Rule 15c2-12. On April 28, 2022, TEA became aware that it had not timely filed its 2021 Annual Report with EMMA due to an administrative oversight. TEA took corrective action and filed the 2021 Annual Report with EMMA on April 28, 2022, followed by a notice of late filing made with EMMA on April 29, 2022. TEA notes that the 2021 Annual Report was timely filed on the TEA website by the required filing date and that website posting has been incorporated by reference into TEA's Bond Guarantee Program disclosures that are included in school district and charter district offering documents. On March 31, 2025, the TEA and the PSF Corporation became aware that the 2022 operating data was not timely filed with EMMA due to an administrative oversight. TEA and PSF Corporation took corrective action and filed a notice of late filing with EMMA on April 4, 2025. The annual operating data was previously posted to EMMA on March 31, 2023.

SEC Exemptive Relief

On February 9, 1996, the TEA received a letter from the Chief Counsel of the SEC that pertains to the availability of the "small issuer exemption" set forth in paragraph (d)(2) of Rule 15c2-12. The letter provides that Texas school districts which offer municipal securities that are guaranteed under the Guarantee Program may undertake to comply with the provisions of paragraph (d)(2) of Rule 15c2-12 if their offerings otherwise qualify for such exemption, notwithstanding the guarantee of the school district securities under the Guarantee Program. Among other requirements established by Rule 15c2-12, a school district offering may qualify for the small issuer exemption if, upon issuance of the proposed series of securities, the school district will have no more than \$10 million of outstanding municipal securities.

APPENDIX E
EXCERPTS FROM THE AUDITED FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

The information contained in this Appendix consists of excerpts from the Conroe Independent School District Annual Financial Report for the Year Ended August 31, 2024, and is not intended to be a complete statement of the District's financial condition. Reference is made to the complete Report for further information.

January 16, 2025

Mrs. Misty Odenweller, President,
Members of the Board of Trustees, and Citizens
Conroe Independent School District
3205 West Davis
Conroe, TX 77304

Dear Members of the Board of Trustees and Citizens:

The Texas Education Code requires that all school districts file a complete set of financial statements with the Texas Education Agency (TEA) within 150 days of the close of each fiscal year. The financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and audited by a firm of licensed certified public accountants in accordance with generally accepted auditing standards. Pursuant to that requirement, we hereby issue the Annual Comprehensive Financial Report (ACFR) of the Conroe Independent School District (the District) for the fiscal year ended August 31, 2024.

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of the operation of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Management of the District is responsible for establishing and maintaining internal control structures designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

The financial statements of the District have been audited by Weaver and Tidwell LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended August 31, 2024, are free of material misstatement. The independent audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended August 31, 2024, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements is part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements but also on the audited government's internal controls and legal requirements involving the administration of federal awards. These reports are available in the Single Audit section of this report. The results of the District's Single Audit for the fiscal year ended August 31, 2024, provided no instances of material weaknesses in the internal control structures or material violations of applicable laws and regulations.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the District

The Conroe Independent School District was established in 1892 and is governed by an elected Board of seven trustees. The Board of Trustees (the Board) are Residents of the District, each of which serves for four years. Monthly meetings of the Board are posted and advertised as prescribed under state laws so that the Board may fulfill its charge to the students, parents, staff, and taxpayers of the District. Special meetings or study sessions are scheduled as needed. The Board has final control over all school matters except as limited by state law.

Serving the communities of Conroe, The Woodlands, Oak Ridge North, Shenandoah, and Cut 'n Shoot, the District's boundaries encompass approximately 348 square miles in Montgomery County. During the 2023-2024 fiscal year, the District operated six senior high schools (including three ninth-grade campuses), three high school academies, seven junior high schools, eleven intermediate schools, five elementary/intermediate (K-6), thirty-three elementary schools, a career and technology education center, and three alternative campuses. The District serves over 72,000 students and provides a full range of educational services appropriate to grade levels Pre-K through 12. These include regular and enriched academic education, special education for children with special needs, career and technology education, and programs for students with limited English proficiency. These basic programs are supplemented by a wide variety of offerings in fine arts and athletics.

The District's vision of where it is headed is the culmination of months of study, collective thought, and thoughtful activities by all constituent groups in the District.

A Vision for CISD

CISD is a learning community united in its commitment to ensuring all students graduate with confidence and competence. The schools and communities work together to provide performance standards that can be applied to the real world. This is achieved through the implementation of quality in instruction, operations, and leadership.

The goals for improvement target increased academic performance; involvement of parents and community; strategies and support for all students to read and comprehend on level by the end of third grade; closing the achievement gap; dropouts; advancing technology; continuation of Total Quality Management; and safe school environments.

The District attracts highly qualified personnel because of its commitment to excellence. During the 2023-2024 school year, the District employed over 9,400 employees consisting of professionals, office professionals, paraprofessionals, and auxiliary staff. Professional employees include more than 4,700 classroom teachers.

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered within the broader perspective of the specific environment in which the District operates.

Located just north of Houston, Texas in Montgomery County, the Conroe Independent School District covers 348 square miles and is a dynamic factor in the quality of life and economic development efforts of the area. Since the early 1990's, the District has been experiencing rapid and consistent growth averaging 2,500 students per year for the last three years and growth is expected to continue into the foreseeable future. The age of the District's school buildings ranges from earliest construction in 1926, through recent additions in 2024. The residential and commercial growth and the overall economic health of the area have dramatically increased in recent years. Increased property values and growth in the District's tax base easily demonstrate this.

With strong collaborative ties with the chambers of commerce and the business community, with the other local governmental entities in the area, and with the Lone Star College District, CISD is making new inroads in building support and targeting resources to achieve the greatest impact for all of our students. The financial, cultural, educational, and recreational climate of the area is a testimony to the collective leadership and to the communities' progressive attitude toward responsible growth and their vision of the future.

Financial Information

Accounting Systems – The Board of Trustees maintains a system of accounting controls designed to assist the administration in meeting its responsibility for accurately reporting the financial condition of the District. The system is designed to provide reasonable assurance that assets are safeguarded against loss, theft, or misuse so activities can be recorded and transacted by the administration for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's framework of internal controls has been designed to provide reasonable, rather than an absolute, assurance that the financial statements will be free from material misstatement.

The cost of operating the District's schools and the revenues to cover these costs are accounted for through the General Fund. Food Service operations and special programs funded by state or federal government grants are accounted for in Special Revenue Funds.

The District accounts for school construction financed by bond sales through a Capital Projects Fund. During the 2018-2019 school year, the District established a Capital Maintenance Fund using available fund balance. This fund will be used for capital maintenance projects.

A specific portion of the tax rate is dedicated to the payment of bond principal and interest. These transactions are recorded in the Debt Service Fund.

The District has established Internal Service Funds to account for the transactions of its self funded employee insurance.

Included in the ACFR as Fiduciary Funds are financial schedules for student activity funds.

The District's accounting records are maintained on a modified accrual basis for governmental fund types and a full accrual basis for the proprietary fund types as prescribed by Texas Education Agency Financial Accountability System Resource Guide (FASRG). Additionally, the District has prepared the government-wide financial statements on the full accrual basis as required by the Governmental Accounting Standards Board (GASB) Statement No. 34.

Financial data is submitted by the District to the Texas Education Agency through the Public Education Information Management System (PEIMS). The data is analyzed, reviewed, and presented to the State Board of Education.

Budgetary Process – State law requires that every local education agency in Texas prepare and file an annual budget of anticipated revenues and expenditures with the Texas Education Agency. The budget itself is prepared utilizing a detailed line item approach for governmental fund types and is prepared in accordance with the budgeting requirements as outlined in the FASRG. The annual budget serves as the foundation for the District's financial planning and control. The District maintains budgetary controls throughout all of its financial systems. The objective of these controls is to ensure compliance with legal provisions embodied in the annually appropriated budget approved by the Board of Trustees. Activities of the general fund, child nutrition fund, debt service fund and capital projects funds are included in the annually appropriated budget. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each individual fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Although encumbered amounts lapse at year-end, they are generally re-appropriated as part of the next year's budget through a Board-adopted budget amendment. The budget may be amended during the year to address unanticipated or

changing needs of the District. Changes to functional expenditures categories, revenue objects, or other sources and uses require Board approval.

Significant Financial Activities- The District's total tax base grew from approximately \$52.1 billion to approximately \$54.8 billion in 23-24, an increase of over 5.2%. The tax rates per \$100 of assessed value for the past five years are shown on the following table.

	19-20	20-21	21-22	22-23	23-24
M & O	\$0.9700	\$ 0.9525	\$ 0.9160	\$ 0.8546	\$ 0.7021
I & S	0.2600	0.2600	0.2600	0.2600	0.2600
	\$1.2300	\$ 1.2125	\$ 1.1760	\$ 1.1146	\$ 0.9621

The District scored the highest possible rating of "Superior" from the School FIRST (Financial Integrity Rating System of Texas), a financial accountability system for Texas School Districts. The primary goal of Schools FIRST is to ensure quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with Texas' school finance system.

Major Indicators

In looking at the most common indicators of quality in a school system, the following are examples of what is going on in the District:

Test Scores – The State of Texas created a new assessment test called State of Texas Assessment of Academic Readiness or (STAAR) beginning with the 2011-2012 school year. Conroe Independent School District received a letter rating of B for the 2021-2022 school year. Ratings for the 2022-2023 and 2023-2024 school years have not yet been released.

Attendance Rate - Despite the rapid growth in the District and the problems facing families today, the attendance rate in the District remains high.

Dropout Rate - The dropout rate has decreased over the last several years and is below the State average, meaning more students are finishing high school and are entering college or the workforce.

Public Support - The 2023 Bond Referendum Prop A, Prop B, and Prop C each passed with a vote of greater than 58%. Patrons continue to be extremely supportive of the District's efforts.

Other Information

Awards - The District has been awarded the Certificate of Excellence in Financial Reporting awarded to government entities by the Association of School Business Officials International for the 2022-2023 annual comprehensive financial report. The District feels the current annual comprehensive financial report continues to meet the requirements for this award, and we will again submit the report for review. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Conroe Independent School District for its annual comprehensive financial report for the fiscal year ended August 31, 2023. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. These awards are displayed in the Introductory Section.

Acknowledgments - We would like to express appreciation to the Board of Trustees for concern in providing fiscal accountability to the patrons of our District and for its leadership in the development of one of the best educational operations within the State of Texas. Many hours have been devoted to this District by teachers, principals and administrators, and supporting staff and thanks is extended to the entire Conroe Independent School District Team who have worked so hard to provide a high-quality, cost-efficient education to the students we serve. Additionally, the preparation of this report was accomplished through much time and effort on the part of the District finance department, and special appreciation is expressed to them.

Conroe Independent School District
Conroe, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Conroe Independent School District (the District), as of and for the year ended August 31, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of August 31, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining nonmajor governmental fund financial statements, Schedule of Long-Term Debt, and Additional Supplementary Schedules, as listed in the table of contents (the Supplementary Information), and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information and Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information and Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information Included in the Annual Report

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section, as listed in the table of contents, but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 16, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Conroe Independent School District

**Conroe Independent School District
Management's Discussion and Analysis
For the Year Ended August 31, 2024
(Unaudited)**

As management of the District, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2024. We encourage readers to consider the information presented here in conjunction with the District's financial statements, which follow this section.

Financial Highlights

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows of resources at year-end by \$68,856,212, giving the District an ending net position of \$68,856,212. The District's ending net position includes net pension and OPEB liabilities of \$274.3 million and \$111.9 million, respectively.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$772,403,472. Approximately 20.3 percent of this total amount, \$156,454,394 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, the unassigned fund balance for the general fund was \$156,454,394 or 22 percent of the total general fund expenditures.

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (governmental activities) as opposed to business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The District has no business-type activities and no component units for which it is financially accountable. The government-wide financial statements can be found on pages 12-13 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over the resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds-not the District as a whole.

- Some funds are required by State law and/or bond covenants.
- Other funds may be established by the Board to control and manage money for particular purposes or to show that it is properly using certain taxes or grants.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, debt service fund, and capital projects fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The District adopts an annual appropriated budget for its general fund, debt service fund, and child nutrition fund. A budgetary comparison schedule has been provided to demonstrate compliance with these budgets. The budget comparison schedules can be found on pages 62, and 97-99. The basic governmental fund financial statements can be found on pages 14-20 of this report.
- **Proprietary funds.** Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. There are two proprietary fund types. Enterprise funds are used to report the same functions presented as business-type activities in government-wide financial statements. As mentioned above in the government-wide definition, the District has no business-type activities or enterprise funds. The second type of proprietary fund is the internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses the internal service funds to report activities for its self-funded insurance program. The basic proprietary fund financial statements can be found on pages 21-23 of this report.
- **Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary position that can be found on pages 24-25 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 27-59 of this report.

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 62-71 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information. Combining statements can be found on pages 78-88 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities and deferred inflows of the district by \$68,856,212 as of August 31, 2024. This is an increase in net position from 2022-2023 of \$2,806,285.

The District's Net Position

	2024	2023
Current and other assets	\$ 902,306,014	\$ 500,880,962
Capital assets (net)	1,912,531,900	1,781,775,068
Total assets	2,814,837,914	2,282,656,030
Deferred outflows of resources	210,294,639	200,173,726
Total assets and deferred outflows of resources	3,025,132,553	2,482,829,756
Long-term liabilities outstanding	2,537,446,164	1,994,099,579
Due within one year	105,666,630	85,433,701
Other liabilities	116,914,732	123,715,619
Total liabilities	2,760,027,526	2,203,248,899
Deferred inflows of resources	195,796,945	213,530,930
Total liabilities and deferred inflows of resources	2,955,824,471	2,416,779,829
Net position:		
Net investment in capital assets	165,730,698	128,173,853
Restricted	35,850,676	36,573,356
Unrestricted	(132,725,162)	(98,697,282)
Total net position	\$ 68,856,212	\$ 66,049,927

Net investment in capital assets (e.g., land, building, furniture, and equipment) less any related debt used to acquire those assets that are still outstanding is \$165,730,698. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position, \$35,850,676 represents resources that are subject to external restrictions on how they may be used.

Governmental activities. The District's total net position increased by \$2.8 million. The total cost of all government activities this year was \$948,096,357. The amount that our taxpayers paid for these activities through property taxes was \$484,236,127. There was a net increase in revenues of \$65,296,836 or 7.4% for the year. The majority of the increase was due to increased taxable property values and state funding for student growth.

Changes in the District's Net Position

	<u>2024</u>	<u>2023</u>
Revenues:		
Program Revenues:		
Charges for Services	\$ 12,932,110	\$ 12,735,230

Ending Net Position	<u>\$ 68,856,212</u>	<u>\$ 66,049,927</u>

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, bond covenants, and segregation for particular purposes.

Governmental Funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, The District's governmental funds reported combined ending fund balances of \$772,403,472, an increase of \$408,572,041. Approximately 20.3 percent of this total amount \$156,454,394 constitutes the unassigned fund balance. The remainder of the fund balance is non-spendable, restricted, committed, or assigned to indicate that it is not available for new spending because it has already been committed 1) for inventory \$3,634,306; 2) to pay debt service \$23,930,808; 3) for capital projects \$570,928,273; 4) for food service and grants \$12,155,752; and 5) to liquidate purchase orders of the prior period \$5,299,939.

The general fund is the primary operating fund of the District. At the end of the current fiscal year, the unassigned fund balance of the general fund was \$156,454,394 while the total fund balance was \$165,388,639. As a measure of the general fund's liquidity, it may be useful to compare both the unassigned fund balance and the total fund balance to the total fund expenditures. The unassigned fund balance represents 22 percent of the total general fund expenditures, while the total fund balance represents 23.3 percent of that same amount. The fund balance of the District's general fund increased by \$1,617,090 during the current fiscal year. The increase in fund balance was largely attributable to an increase in state funding and a return of reserve funding further discussed below.

In November 2022, the Board of Trustees created the Capital Improvement Program Contingency Fund. The purpose of the fund was to ensure construction projects would not be delayed due to funding shortages caused by events beyond both the District's or the contractors' control, such as inflation or unforeseen market conditions. As the District nears the completion of projects related to the 2019 bond and stability has returned to the market the need to reserve the funds was no longer necessary. As a result, the \$18,800,000 was returned to the General Fund.

The debt service fund has a total fund balance of \$23,930,808, all of which is restricted for the payment of debt service. The increase in fund balance during this period in the debt service fund was \$318,713.

The capital projects fund has a total fund balance of \$570,928,273. Of that amount, \$561,038,801 is restricted for the construction, equipping, and acquisition of major capital facilities. The remaining amounts are committed or assigned for other uses, \$9,889,472. Fund balance in the capital projects fund increased by \$407,675,676 during the current fiscal year.

The increases in fund balance of the debt service and capital projects funds were due to the issuance of refunding and capital bonds during the fiscal year.

General Fund Budgetary Highlights

Over the course of the year, the District recommended and the Board approved several revisions to the budgeted revenue and appropriations. These amendments fall into the following categories:

- Amendments approved shortly after the beginning of the new fiscal year for amounts committed & assigned in the prior year.
- Amendments are approved during the year for unexpected occurrences.

The District made the following amendments to budgeted revenue:

- \$193,477 increase for campus donations to the budget
- \$4,596,607 increase for Medicaid
- \$22,000,000 increase for state foundation revenues
- \$3,000,000 increase for TRS On Behalf
- \$1,000,000 increase for Teacher Incentive Allotment
- \$22,000,000 decrease for property tax revenue

Following is a summary of amendments made to appropriations:

- \$6,526,341 increase for prior year encumbrances
- \$193,477 increase for campus donations to the budget
- \$20,500,000 increase for payroll
- \$3,000,000 increase for TRS On Behalf
- \$4,596,607 increase for Medicaid
- \$1,000,000 increase for Teacher Incentive Allotment
- \$1,000,000 increase for Montgomery Central Appraisal District (MCAD) fees

After appropriations were amended as described above, actual revenues were \$7.6 million over final budgeted amounts. Actual expenditures were \$6.2 million below final budget amounts.

Capital Asset and Debt Administration

Capital assets. The District's investment in capital assets for its governmental activities as of August 31, 2024, amounts to \$1,912,531,900 (net of accumulated depreciation/amortization). This investment in capital assets includes land, construction in progress, buildings and improvements, furniture and equipment and right-to-use assets (equipment) and SBITAs.

District's Capital Assets (net of depreciation)		
	2024	2023
Land	\$ 125,608,068	\$ 111,446,235
Buildings and Improvements	1,719,584,093	1,624,121,114
Construction in Progress	26,774,483	14,173,996
Furniture and Equipment	32,162,797	28,272,354
Right-to-Use Assets-Equipment	552,599	327,762
Right-to-Use Assets-SBITA	7,849,860	3,433,607
Totals, Net	<u>\$1,912,531,900</u>	<u>\$1,781,775,068</u>

Additional information on the District's capital assets can be found in note 5 on page 44 of this report.

Long-term debt. At the end of August 31, 2024, the District had total bonded debt outstanding of \$2,014,950,000, an increase of \$464,665,000 from the prior year. The increase is due to the District issuing new debt during the year to begin planned projects from the 2023 bond referendum.

The "Aaa" long-term rating on the District's Texas' bonds reflect the Texas Permanent School Fund guarantee. The "AAA" Standard & Poor underlying rating on the District's unenhanced debt reflects the District's: 1) participation in the strong and growing Houston area economy, 2) strong administrative management, and 3) satisfactory financial performance.

The State issues guidelines recommending that a government entity should limit the amount of general obligation debt to 10 percent of its total assessed valuation. The current debt limitation for the District is \$5,487,559,745 which is significantly in excess of the District's outstanding general obligation debt.

Additional information on the District's long-term debt can be found in note 8 on pages 45-47 of this report.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the region is 4.5 percent, the state and national rates are 4.1 and 4.2 percent, respectively.
- The District's student attendance rate stayed the same at 92%.
- The District's enrollment has experienced an increase of 1.8 percent.
- The District's taxable valuation has increased by 8.36 percent. The District's M&O tax rate is currently at \$.6696 per \$100 in assessed property value.
- The District has appropriated General Fund revenues and expenditures in the 2024-25 budget of \$700,072,861 and \$711,969,241 respectively. Expenditures include budget increases of \$13.4 million for personnel, the teacher incentive allotment and teacher hiring step adjustment, \$2.55 million for general expenses, and \$1.75 million for TRS on Behalf.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Chief Financial Officer, Conroe I.S.D., 3205 West Davis, Conroe, Texas 77304.

**CONROE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
AUGUST 31, 2024**

Total fund balances--governmental funds \$ 772,403,472

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.

Historical cost	2,716,321,829	
Accumulated depreciation / amortization	(803,789,929)	
Change due to Capital Assets	<u>1,912,531,900</u>	1,912,531,900

Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures, and therefore are recorded as deferred inflows of resources in the funds.

9,322,733

Internal service funds are used by the District's management to charge the costs of the health insurance program to the individual funds. The assets and liabilities of the internal service funds are included in the government wide statement of net position.

7,752,207

Deferred outflows of resources for pension related items were not recognized on the balance sheet for governmental funds.

125,405,795

Deferred outflows of resources for OPEB related items were not recognized on the balance sheet for governmental funds.

70,315,946

Deferred inflows of resources for pension related items were not recognized on the balance sheet for governmental funds.

(12,472,253)

Deferred inflows of resources for OPEB related items were not recognized on the balance sheet for governmental funds.

(165,309,348)

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Net pension liability	274,270,438	
Net OPEB Liability	111,866,670	
Bonds payable	2,014,950,000	
Leases payable	550,733	
SBITA payable	1,153,161	
Arbitrage payable	11,532,595	
Deferred loss on refunding	(14,572,898)	
Deferred gain on refunding	17,257,348	
Premiums on Issuance	228,799,998	
Compensated Absences	1,497,934	
Interest Payable	3,788,261	
Change due to Long-term Liabilities	<u>2,651,094,240</u>	(2,651,094,240)

Total net position--governmental activities \$ 68,856,212

See Notes to the Basic Financial Statements.

**CONROE INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF
ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2024**

Net change in fund balances—total governmental funds	\$	408,572,041
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense. The capital outlays that were expensed for governmental purposes but capitalized in Statement of Net Position was:		
		200,622,920
Capital asset disposals in the current year, net of accumulated depreciations/amortizations not expensed in governmental funds were:		(3,439,283)
Total depreciation and amortization recorded in Statement of Activities not recorded in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balance.		(67,027,659)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. For the Statement of Activities for the entity wide, a portion of the current year property tax is recognized as income in the current year along with the related penalty and interest. The difference between the fund basis and full accrual basis on property taxes was:		(713,916)
Issuance of long term debt and the related premium provides current financial resources to governmental funds. Proceeds from the issuance of debt, net of payments to bond refunding escrow agents were:		(612,246,154)
Amortization of gain/loss on refunding bonds and premium on bonds payable.		14,775,529
Repayment of bond principal is an expenditure in the governmental fund, but the repayment reduces long-term liabilities in the Statement of Net Position.		84,095,000
Interest expense accrual amount for the current year over prior year amount.		(967,872)
Pension expenses not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change is to decrease net position.		(32,081,792)
OPEB expenses not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change is to increase net position.		18,969,918
Lease and SBITA expenditures are offset with other financing sources in the fund financials but are eliminated in the Statement of Net Position.		(10,464,022)
Internal service funds are used by management to charge the costs of workers compensation and health insurance to the funds. This credits back income/loss of those funds to the net position of the government.		(10,785)
Repayment of lease asset payables and SBITA payables are an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.		11,485,999
Donated fixed assets to district		600,854
Interest expense related to long term arbitrage payable is recognized on the government wide financials but not the fund financials.		(9,053,173)
Change in compensated absences to accrual basis		(311,320)
Change in net position of governmental activities	\$	<u>2,806,285</u>

See Notes to the Basic Financial Statements.

Conroe Independent School District

CONROE
INDEPENDENT
SCHOOL DISTRICT

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Conroe Independent School District (the District) is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven member Board of Trustees elected by the District's residents to staggered four-year terms autonomously governs the District.

The financial statements of the Conroe Independent School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Terminology and Classification - The District, throughout its accounting system, utilizes terminology and classification as required by the *Financial Accountability System Resource Guide* published by the TEA, which provides a uniform chart of accounts for all funds and a glossary containing definitions of terms as necessary for common understanding.

Financial Reporting

The financial reporting model for state and local governments includes management's discussion and analysis, government-wide financial statements, required supplementary information, fund financial statements and notes.

A. Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by GAAP, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions, as part of the District's financial reporting entity. Based on these considerations, the District's basic financial statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations, or functions in the District's financial reporting entity are based on criteria prescribed by GAAP. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments. Additionally, prescribed criteria under GAAP include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed for these statements. The governmental activities are supported by tax revenues and intergovernmental revenues. The District has no business-type activities that rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government Wide and Fund Financial Statements (continued)

restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Interfund activities between governmental funds and between governmental funds and proprietary funds appear as due to/due from on the Governmental Funds Balance Sheet and Proprietary Fund Statement of Net Position and as other sources and other uses on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance and on the Proprietary Fund Statement of Revenues, Expenses and Changes in Fund Net Position. All interfund transactions between governmental funds and between governmental funds and internal service funds are eliminated on the Government-wide Statements. Interfund services provided and used are not eliminated in the process of consolidation. Interfund activities between governmental funds and fiduciary funds are reclassified as receivable or payable on the Government-wide Statement of Activities.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government wide financial statements. Major individual funds are reported as separate columns in the fund financial statements.

The accounting policies of the District substantially comply with the rules prescribed by the Texas Education Agency (TEA) in its *Financial Accountability System Resource Guide*. These accounting policies conform to GAAP.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the proprietary fund. The accounting used for fiduciary funds is the *economic resources measurement focus*. Grant funds are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to pension liability, OPEB liability, compensated absences, leases and SBITA's (Subscription-based information technology arrangements), and claims and judgments, are recorded only when payment is due.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State of Texas are recognized under the susceptible-to-accrual concept. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Fund Accounting

The District reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund. Major revenue sources include local property taxes, state funding under the Foundation School Program, and interest earnings. Expenditures include all costs associated with the daily operations of the District except for specific programs funded by the federal or state government, child nutrition service, debt service, and capital projects.

The *debt service fund* accounts for the payment of principal and interest on bonded long-term debt and contractual obligations of the District. The primary source of revenue for debt service is the apportionment of local property taxes and state allocated revenue.

The *capital projects fund* includes funds, which are used to account for the expenditures of resources, accumulated from sales of bonds and related interest earnings for the acquisition and construction of school facilities and other capital asset acquisitions.

Additionally, the District reports the following funds:

Governmental Funds:

Special Revenue Funds

The Special Revenue funds are used to account for the proceeds of specific revenue sources or to finance specified activities as required by law or administrative regulations. The Special Revenue Funds include various funds, which are used to account for the District's Child Nutrition Program, including local, state, and federal revenue sources. The Child Nutrition Fund is the only legally adopted budgeted fund. For all other special revenue funds in the fund type, project accounting is employed to maintain integrity for the various sources of the funds. Resources accounted for in these funds are awarded to the District for the purpose of accomplishing specific educational tasks as defined by the grantors in contracts or other agreements.

Proprietary Fund:

Internal Service Fund

The District's internal service fund is used to account for the operation of the District's employee health insurance plan. The health insurance plan is funded through premiums paid by the general fund and special revenue funds to fund claims and administrative expenses. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations.

Fiduciary Fund:

Custodial Fund

The custodial fund accounts for resources held for the benefit of student and staff organizations. The custodial fund is not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Stewardship, Compliance, and Accountability

An annual budget for the General, Debt Service, and Child Nutrition Fund must be prepared and adopted by the Board of Trustees prior to expenditure of funds. The annual budgeting process is summarized as follows:

Beginning in January, budget goals and guidelines are established by the Superintendent and Board of Trustees. Campuses and departments are requested to submit budget requests based on the goals established for the budget year. Public hearings are held for citizen comments. The Board of Trustees approves the final budget on a fund-by-fund basis and establishes a tax rate to support the approved budget. The Board of Trustees adopted the 2023-24 budget on August 15, 2023.

A comprehensive detailed budget document is prepared for review by taxpayers, credit rating agencies and other interested parties. The annual budget is recorded as an integral part of the accounting system, providing appropriate budgetary control over revenues, expenditures, and transfers through comparison of actual data and encumbrances to budgetary data.

The District prepares its individual fund budgets for governmental fund types on a GAAP basis. Fund budgets are incorporated into the accounting system to be used as a management tool, and are reviewed by the Board of Trustees at their regular monthly meeting. The Board has legal authority to amend the adopted budget as necessary during the fiscal year, and budget amendments are submitted to the Board of Trustees on a monthly basis as necessary; the Board must approve any increases or changes in functional expenditure categories or revenue accounts prior to expenditure. Appropriations in the General Fund were increased by \$43,992,638 during the fiscal year. This increase consists primarily of re-appropriation of prior year encumbrances and amendment to the payroll budget for the increase in positions. The District uses amended budget figures for reporting and budgetary control purposes. Expenditures may not exceed total amended appropriations by fund at the function level. However, should this occur, the final official budget does not need to be adjusted at year-end should they exceed appropriations only at the functional level. Unexpended appropriations lapse at year-end.

F. Revenue Sources

Specific revenue sources that have been treated as susceptible to accrual under the modified accrual basis of accounting criteria (both measurable and available to finance expenditures of the fiscal period) are:

- The District's Property tax revenues, to the extent that historical data indicate they are collectible soon enough in the subsequent period to finance current period expenditures. Such time does not exceed 60 days after the close of the fiscal year.
- State revenue owed to the District for the 2023-24 fiscal year.
- Grants and revenues from other governments.
- Interest earned on investments.

G. Capital Assets

Capital assets, which include land, buildings, furniture, and equipment, right to use leased equipment, and right to use assets – SBITAS, and construction-in-progress are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated use life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Capital Assets (continued)

Land and Construction in Progress are not depreciated. The other tangible and intangible property, plant, equipment, the right to use leased equipment, and infrastructure of the primary government are depreciated/amortized using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	40
Buses	10
Right-to-use leased equipment	1-5
Other Vehicles	7
Other Furniture and Equipment	2-5
Right-to-use assets - SBITAs	1-8

H. Investments

Investments consist primarily of local government investment pools, Money Market accounts, U.S. Governmental Agency securities, and Municipal Bonds. Investments of the District are stated at fair value or amortized cost, as applicable, in accordance with Generally Accepted Accounting Principles, as further described in Note 2. Current Investments consist of investments with a maturity of less than one year from August 31, 2024. Long Term investments consist of investments with a maturity greater than one year from August 31, 2024.

I. Inventories

Inventories, which consist primarily of supplies and equipment, are recorded using the consumption method and are stated at cost using the first-in, first-out method. Food Commodities are used only in the child nutrition program and are recorded as unearned revenue since the title does not pass to the school district until the commodities are used.

J. Encumbrances

Encumbrance accounting is utilized in all governmental funds. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, General Fund appropriations lapse each August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. Encumbrances outstanding at August 31, 2024 that were provided for in the subsequent year's General Fund budget were \$5,299,939. These amounts are classified as assigned fund balance on the Governmental Funds Balance Sheet.

K. Liabilities for Compensated Absences

The District pays compensated absences to certain employees at the time of their separation and/or retirement. Payment for accrued sick leave at the time of retirement is limited to the current salary rate for accumulated sick leave days, up to a maximum of 60 days, for employees hired before July 1, 1988, and currently eligible for retirement. In addition, upon separation or retirement, payment for each day of accrued local leave is paid at the current standard substitute certified teacher rate for professional staff or the substitute paraprofessional rate for paraprofessional and auxiliary staff, to a maximum of \$5,000. If the employee is reemployed with the District, days for which the employee received payment shall not be available to that employee. The payment for the accrued sick leave and/or accrued local leave is made with the employees' final pay check and includes all salary related payments. Compensated absences are reported in governmental funds only if they have matured. No balances are reported as liabilities for compensated absences in the governmental funds as of August 31, 2024.

L. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, and demand deposits.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Comparative Data

Comparative total data for the prior year has been presented only for certain funds in the supplementary information in order to provide an understanding of the changes in the financial position and operations of these funds.

N. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until that time. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

Deferred outflows/inflows of resources are amortized as follows:

- Deferred outflows/inflows from pension and OPEB activities are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and OPEB plan, except for projected and actual earnings differences on investments which are amortized on a closed basis over a 5-year period.
- Deferred charge/gain on refunding is amortized over the shorter of the life of the refunded or refunding debt.
- Property taxes are recognized in the period the amount becomes available.
- District contributions to the pension and OPEB plans after the measurement date are recognized in the subsequent year.
- Deferred inflows from leases are adjusted over the life of the lease by the current portion of the principal received.

O. Other Financing Sources

Amounts recognized as other financing sources represent proceeds from issuance of bonds received by the district and related payments to escrow and operating transfers.

P. Fund Balances and Net Position

The District has adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). In accordance with GASB 54 the District classifies governmental fund balances as follows:

Non-Spendable – includes amounts that cannot be spent because they are either not in spendable form, or, for legal or contractual reasons, must be kept intact. This classification includes inventories, prepaid items and long term receivables.

Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts restricted due to constitutional provisions or enabling legislation. This classification includes the child nutrition program, retirement of long term debt, construction programs and other federal and state grants.

Committed – Committed fund balances are amounts constrained to specific purposes by the District itself, using a resolution passed by its highest decision making authority (the Board of Trustees). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level of action to remove or change the constraint. The Coke Grant in the Non-Major Governmental Funds has committed \$235,884 for Technology and Food Services. The Capital Projects Fund has \$9,889,472 committed for capital acquisition and construction.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

P. Fund Balances and Net Position (continued)

Assigned – includes fund balance amounts that are self-imposed by the District to be used for a particular purpose. Fund balance can be assigned by the District's Board, the Superintendent or the Chief Financial Officer pursuant to the District's fund balance policy. At August 31, 2024, \$5,299,939 of fund balance in the General Fund was assigned for encumbrances.

Unassigned – amounts that are available for any purpose are considered unassigned fund balance. Positive numbers can only be reported in the general fund.

Net Position may serve over time as a useful indication of a government's financial position. Net position on the Statement of Net Position includes the following: *Net Investment in Capital Assets* – this component of net position reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets; *Restricted* –this component of net position reports the difference between assets and liabilities of the District that consist of assets with constraints placed on their use by external parties; *Unrestricted* –the difference between the assets and liabilities that is not reported in Net Investment in Capital Assets, or Restricted Net Position.

Q. Leases

Lessee

The District is a lessee for noncancellable leases of property and equipment. The District recognizes a lease liability, reported with long-term debt, and a right-to-use lease asset, reported with other capital assets, in the government-wide and proprietary fund financial statements.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over the shorter of the lease term or its useful life.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, purchase option price that the District is reasonably certain to exercise, lease incentives receivable from the lessor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The district has entered into multiple lease agreements as a lessee. The leases allow the lessee the right to use equipment over the terms of the lease. The District is required to make monthly payments at its incremental borrowing rate. The lease rate, term, and ending lease liabilities are as follows:

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Leases (continued)

**Leases Payable
Governmental Activities - Lessee**

	Interest Rate	Lease Term in Months	Ending Balance
Equipment	2.624% - 3.59%	22 - 72	\$ 550,733
Total Governmental Activities			\$ 550,733

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability. As of August 31, 2024, the schedule of lease payments is as follows:

**Principal and Interest Requirements to Maturity
Governmental Activities - Lessee**

Fiscal Year	Principal Payments	Interest Payments	Total Payments
2025	\$ 98,863	\$ 13,447	\$ 112,310
2026	101,484	10,826	112,310
2027	104,174	8,136	112,310
2028	106,936	5,374	112,310
2029	109,771	2,539	112,310
2030	29,505	186	29,691
Total Requirements	\$ 550,733	\$ 40,508	\$ 591,241

Lessor

The District is a lessor for noncancellable leases of property and equipment. The District recognizes a lease receivable and a deferred inflow of resources in the government-wide, governmental fund and proprietary fund financial statements.

At the commencement of a lease, the District initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments related to leases include how the District determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The District uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease receivable are composed of fixed payments from the lessee, variable payments from the lessee that are fixed in substance or that depend on an index or a rate, residual value guarantee payments from the lessee that are fixed in substance, and any lease incentives that are payable to the lessee.

The District has entered into multiple lease agreements as a lessor. The lessee allow the leasee the right-to-use cell tower and District sites over the term of the lease. The District receives monthly payments at its incremental borrowing rate. The lease rate, terms, and ending lease receivables are as follows:

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Leases (continued)

**Leases Receivable
Governmental Activities - Lessor**

	Interest Rate	Lease Term in Months	Ending Balance
Cell Tower	3.59%	140 - 222	\$ 823,215
Site Lease	3.59%	48	6,473
Total Governmental Activities			\$ 829,688

The District monitors changes in circumstances that would require a remeasurement of its leases and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable. As of August 31, 2024, expectation of lease receipts through the expiration of all leases is as follows:

**Principal and Interest Expected to Maturity
Governmental Activities - Lessor**

Fiscal Year	Principal Payments	Interest Payments	Total Payments
2025	\$ 44,683	\$ 29,061	\$ 73,744
2026	41,356	27,512	68,868
2027	44,670	25,973	70,643
2028	48,159	24,312	72,471
2029	51,830	22,525	74,355

Total Requirements	\$ 829,689	\$ 237,115	\$ 1,066,804

R. Subscription-Based Information Technology Arrangements (SBITA)

The District has noncancellable contracts with SBITA vendors for the right to use information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets). The District recognizes a subscription liability, reported with long-term debt, and a right-to-use subscription asset (an intangible asset), reported with capital assets, in the government-wide and proprietary fund financial statements.

At the commencement of a SBITA, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of SBITA payments. The subscription asset is initially measured at the initial amount of the subscription liability, adjusted for SBITA payments made at or before the SBITA commencement date, plus certain initial implementation costs. Subsequently, the subscription asset is amortized on a straightline basis over the shorter of the subscription term or the useful life of the underlying IT assets. Key estimates and judgements related to SBITAs include how the District determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The District uses its incremental borrowing rate as the discount rate for SBITAs.
- The subscription term includes the noncancellable period of the SBITA.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

R. Subscription-Based Information Technology Arrangements (SBITA) (continued)

- Subscription payments included in the measurement of the subscription liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate, termination penalties if the District is reasonably certain to exercise such option, subscription contract incentives receivable from the SBITA vendor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District has entered into multiple subscription arrangements for both governmental activities and business-type activities. The subscriptions allow the right to use information technology over the terms of the subscription. The District is required to make annual payments at its incremental borrowing rate or interest rate stated or implied within the subscriptions. The subscription rate, terms, and ending subscription liabilities are as follows:

SBITA Payable Governmental Activities - Lessee			
	Interest Rate	Lease Term in Months	Ending Balance
IT Software	1.58% - 3.07%	16 - 84	\$ 1,153,161
Total Governmental Activities			\$ 1,153,161

The District monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability. As of August 31, 2024, the schedule of subscription payments is as follows:

Principal and Interest Requirements to Maturity Governmental Activities - SBITA			
Fiscal Year	Principal Payments	Interest Payments	Total Payments
2025	\$ 958,002	\$ 29,430	\$ 987,432
2026	195,159	3,084	198,243
Total Requirements	\$ 1,153,161	\$ 32,514	\$ 1,185,675

S. Use of Estimates

The presentation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

T. Data Control Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. TEA requires school districts to display these codes in the financial statements filed with the agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

U. Restricted Resources

When the District has both restricted and unrestricted resources available to fund an expenditure, the District intends to use the restricted resources first. Furthermore, committed fund balances are reduced first, followed by assigned amounts and the unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

V. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

W. Other Post-employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

X. Recently Issued Accounting Pronouncements

GASB Statement No. 101, Compensated Absences (GASB 101), improves the information needs of financial statements users by updating the recognition and measurement guidance for compensated absences under a unified model and amending certain previously required disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2023, with earlier application encouraged. GASB 101 will be implemented in fiscal year 2025 financial statements and the impact has not yet been determined.

NOTE 2 – DEPOSITS (CASH) AND INVESTMENTS

A. Deposits (Cash)

Deposits and investment transactions of the District are regulated by State statutes through provisions of Chapter 23, Subchapter E, Sections 23.71 through 23.8 (The School Depository Act) of the Texas Education Code and other code sections referenced therein and through provisions of the Texas Revised

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 2 – DEPOSITS (CASH) AND INVESTMENTS (continued)

A. Deposits (Cash) (continued)

Civil Statutes, Title 47 Article 2529c, and 2548a regarding security for District funds in Depository institutions.

In accordance with applicable statutes, the District has a depository contract with an area bank (depository) providing for interest rates to be earned on deposited funds and for banking charges the District incurs as a result of banking services received. All depository contracts have a term of two years, commencing with the start of every odd-numbered fiscal year. Depository contracts are awarded on the basis of competitive bids received from area banks and can be awarded to more than one bank if the bids are relatively equal.

The District may place funds with the depository in interest and non-interest bearing accounts. Statutes and the depository contract require that all funds in the depository institution be fully secured by federal depository insurance or a combination of federal depository insurance and acceptable collateral securities and/or an acceptable surety bond. The collateral securities must be delivered to the District or placed with an independent trustee institution with safekeeping receipts delivered to the District. In accordance with State statutes pertaining to lawful collateralization of District deposits, safekeeping receipts are issued in the name of the depository with proper indication that the collateral securities are pledged by the depository to secure funds for the District.

Acceptable collateral securities include direct obligations of the United States of America (U.S.) bonds of any agency of the U.S., (except Farmers Home Administration Insured Notes), bonds of the State of Texas or of any county, school district, city, or town of the State of Texas that have been rated A or better by Moody's Investor Services, Inc., and letters of credit issued by a federal home loan bank, as authorized by Chapter 2257 Collateral for Public Funds of the Government Code.

The District must approve all collateral securities prior to the security being pledged. The depository can change collateral securities pledged to secure District funds only upon obtaining the written approval of the District. All demand and time deposits in the depository bank were entirely covered by federal depository insurance and by acceptable collateral securities held in the District's name by an agent of the District at year-end in accordance with provisions of the depository contract. The District's highest balance of \$24,540,026 occurred on July 18, 2024 and the value of collateral pledged and FDIC insurance on that date totaled \$60,250,000.

A summary of the District's cash and cash equivalents at August 31, 2024 is shown below.

	Cash On hand	Bank Deposits	Total
General	\$ 500	\$ 4,496,110	\$ 4,496,610

Internal Service	-	1,027,324	1,027,324
Total Entity Wide	<u>18,750</u>	<u>8,971,506</u>	<u>8,990,256</u>
Fiduciary	-	10,158,066	10,158,066
Total	<u>\$ 18,750</u>	<u>\$ 19,129,572</u>	<u>\$ 19,148,322</u>

B. Investments

The Board of Trustees of the District has adopted a written investment policy (the "Investment Policy") regarding the investment of its funds as defined in the Public Funds Investment Act of 1995 (Chapter 2256, Texas Government Code). The Public Funds Investment Act requires an annual audit of investment

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 2 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

practices. Additionally, the investments and investment practices of the District are in compliance with the Trustees' investment policies.

The District's investment policy emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. The Investment Policy includes a list of authorized investment instruments, a maximum allowable stated maturity of any individual investment and the maximum average dollar weighted maturity allowed for fund groups. In addition, it includes an "Investment Strategy Statement" that specifically addresses each fund's investment options and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification and yield.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines of the investment policy.

1. Obligations of, or guaranteed by governmental entities as permitted by Government Code 2256.009
2. Certificates of deposit and share certificates as permitted by Government Code 2256.010
3. Fully collateralized repurchase agreements permitted by Government Code 2256.011
4. A securities lending program as permitted by Government Code 2256.0115
5. Bankers acceptances as permitted by Government Code 2256.012
6. Commercial paper as permitted by Government Code 2256.013
7. No-load money market mutual funds and no-load mutual funds as permitted by Government Code 2256.014
8. A guaranteed investment contract as an investment vehicle for bond proceeds, provided it meets the criteria and eligibility requirements established by Government Code 2256.015
9. Public funds investment pools as permitted by Government Code 2256.016.

The District's investments are insured, registered, or the District's agent holds the securities in the District's name; therefore, the District is not exposed to custodial risk. Custodial Credit risk for investments is the risk that, in event of the failure of the counterparty (e.g. broker dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. The District's policy requires that a third party bank trust department hold all securities owned by the District. The District generally holds all US government securities to maturity. The District did not purchase any derivative investment products during the current year nor participate in any reverse repurchase agreements or security lending agreement during the fiscal year 2023-24.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs-other than quoted prices within Level 1- that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 2 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

Certain investment types are not required to be measured at fair value; these include money market funds and certain other short-term, highly liquid debt instruments as well as certain investment pools which are measured at amortized cost, and other investment pools which are measured at the net asset value (NAV) determined by the pool, which approximates fair value. These instruments are exempt from categorization within the fair value hierarchy.

The *U. S. Government Agency Securities and Municipal Bonds* are classified in Level 2 of the fair value hierarchy and are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Local Government Investment Pools

As of August 31, 2024 the District's investments included Lone Star Investment Pool, Texas Class and TexPool. These pools are set up in accordance with the Texas Public Funds Investment Act for participant's investments. The Texas State Comptroller of Public Accounts and the State Auditor's office exercise regulatory oversight responsibility in monitoring external pools operations in compliance with the Public Fund Investment Act. External pools must have an advisory Board composed of both participants in the external pool and other persons who do not have a business relationship with the external pools. The advisory Board has oversight responsibility for operations, designation of management and accountability for fiscal matters. The advisory board members review the investment policy as required by the State. State statute requires that the external pools maintain at least an AAA or AAA-m or equivalent rating by a nationally recognized rating service. The investment pools do not have any limitations or restrictions on withdrawals, such as notice periods or maximum transaction amounts, and do not impose any liquidity fees or redemption gates.

Investment Risk

The risk exposure for governmental, individual major funds, non-major funds in the aggregate and fiduciary funds types of the District are not significantly greater than the deposit and investment risk of the overall primary government.

The District's Investment Policy seeks to control risk. Such risk is controlled by investing in compliance with the District's Investment Policy, qualifying the broker and financial institutions with whom the District will purchase investments, sufficient collateralization, portfolio diversification, and limiting maturity.

Credit Risk

As of August 31, 2024, the District invested in Lone Star Investment Pool, Texpool, Texas Class, Charles Schwab Government Obligations Fund, Woodforest Bank Public Fund Premium Account, Municipal Bonds, US Government Agency Securities, and US Treasury Notes. District policy requires investment pools to have a rating of at least AAAM by Standard and Poor's and obligations of the United States or its agencies to have a rating not less than an A or its equivalent.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 2 – DEPOSITS (CASH) AND INVESTMENTS (continued)

B. Investments (continued)

Concentration of Credit Risk:

The District's investment policy requires the investment portfolio to be diversified in terms of investment instruments, maturity scheduling, and financial institutions in order to reduce the risk of loss resulting from over-concentration of assets in a specific class of investments, specific maturity, or specific issuer.

Interest Rate Risk

As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that District's investment portfolio as a whole will not exceed the weighted average maturity of 18 months (547 days). The Investment Policy also limits that no investment shall have an original stated maturity greater than 3 years.

Adjustments to Investments' Fair Value

The District's portfolio value fluctuates in an inverse relationship to any change in interest rates. Accordingly, if interest rates have risen, the portfolio value will have declined. If interest rates have fallen, the portfolio value will have risen. The District's investments in Municipal Bonds, U.S. Government Agency Securities, and US Treasury Notes are reported by the District at fair value in accordance with GAAP. The District had no gains or losses from the sales of securities because they were held to maturity. The amount of increase or decrease in the fair value of investments is included in investment income. The District recorded a \$561,380 increase in the fair value of investments for the year ended August 31, 2024.

	Governmental Funds	Proprietary Funds	Total
Interest Income	\$ 42,061,340	\$ 651,020	\$ 42,712,360
Net increase in fair value of investments	561,380	-	561,380
Total Investment Income	\$ 42,622,720	\$ 651,020	\$ 43,273,740

NOTE 3 - PROPERTY TAXES

The District's ad valorem property tax is levied each October 1, based on the assessed value determined by the Montgomery Central Appraisal District (MCAD) for all real and business personal property located in the District. The MCAD, a separate governmental entity, is responsible for the recording and appraisal of property for all taxing units in the County, including the District. The MCAD is required by state law to assess property at 100% of its appraised value. Further, real property must be re-appraised at least every three years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the MCAD Appraisal Review Board through various appeals and, if necessary, legal action. Taxes are levied and due on October 1, of each year, and become delinquent on the following February 1. On January 1, of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. The assessed value for the 2023-24 fiscal year was \$54,875,597,445.

The tax rates assessed for the year ended August 31, 2024, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.7021 and \$0.26 per \$100 of valuation, respectively, for a total of \$0.9621 per \$100 of valuation. Total current and delinquent tax collections, including penalty and interest, for the year ended August 31, 2024, were 99.07% of the current tax levy. Delinquent taxes are prorated between general operations and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 3 - PROPERTY TAXES (continued)

Net property taxes receivable at August 31, 2024, consisted of the following:

	General Fund	Debt Service	Total
Delinquent Taxes - Current Year Levy	\$ 3,288,081	\$ 1,216,140	\$ 4,504,221

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 6 - UNEARNED REVENUE

Unearned revenue as of August 31, 2024, consisted of the following:

	General	Non Major Funds	Debt Service	Total
TEA	\$ -	\$ -	\$ -	\$ -
Child Nutrition	-	1,002,045	-	1,002,045
Total	\$ -	\$ 1,002,045	\$ -	\$ 1,002,045

NOTE 7 – DEFERRED INFLOWS OF RESOURCES

Deferred inflows of resources as of August 31, 2024, consisted of the following:

	General	Non Major Funds	Debt Service	Total
Property Taxes	\$ 7,004,196	\$ -	\$ 2,318,537	\$ 9,322,733
Leases	757,996	-	-	757,996
Total	\$ 7,762,192	\$ -	\$ 2,318,537	\$ 10,080,729

NOTE 8 - LONG-TERM DEBT AND DEBT SERVICE

General and Historical Information - The District's long-term liabilities consist of bond indebtedness, compensated absences, leases and SBITA's, net pension liability and net OPEB liability. The current requirements for general obligation bonds principal and interest expenditures are accounted for in the debt service fund. Current funding requirements for compensated absences, leases payable, pension, and OPEB plans are accounted for in the governmental funds. Unfunded long-term liabilities are generally liquidated with resources of the general fund.

By local referendum, the District has adopted the provisions of Section 20 of the Texas Education Code requiring the levy each year of a tax rate, unlimited as to amount, sufficient to meet principal and interest requirements during the ensuing fiscal year. Resources from the property taxes for servicing bonded debt principal and interest are accumulated in, and expended from, the Debt Service Fund (Article 278e-1, VCS).

The voters of the District authorized the sale of general obligation bonds in the amount of \$1,972,877,000 in an election held on November 7, 2023. As of August 31, 2024, \$595,000,000 of the bonds have been sold.

Long-term liability activity for the year ended August 31, 2024 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
General Obligation Bonds	\$ 1,550,285,000	\$ 601,420,000	\$ (136,755,000)	\$ 2,014,950,000	\$ 91,540,000
Plus Premiums on Bonds	186,029,180	64,106,573	(21,335,755)	228,799,998	12,972,234
Total Bonds Payable	1,736,314,180	665,526,573	(158,090,755)	2,243,749,998	104,512,234
Compensated Absences	1,186,614	557,005	(245,685)	1,497,934	310,579
Lease Payable	338,479	624,963	(412,709)	550,733	98,863
SBITA Payable	2,387,392	9,839,059	(11,073,290)	1,153,161	958,002
Net Pension Liability	223,627,723	71,166,929	(20,524,214)	274,270,438	-
Net OPEB Liability	115,666,099	583,992	(4,383,421)	111,866,670	-
Total Long Term Liabilities	\$ 2,079,520,487	\$ 748,298,521	\$ (194,730,074)	\$ 2,633,088,934	\$ 105,879,678

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 8 - LONG-TERM DEBT AND DEBT SERVICE (continued)

Current Year Defeasance of Long-term Debt

On November 21, 2023, the District issued \$51,025,000 in Unlimited Tax Refunding Bonds, Series 2023A with interest rate of 5.00% to refund \$52,660,000 of Series 2014 and 2014A Unlimited Tax School Building and Refunding Bonds with original maturities between 2025 and 2039 and interest rates of 5.00%. The Unlimited Tax Refunding Bonds, Series 2023A were issued at a premium of \$2,466,479 with issuance costs of \$427,143 and a District contribution of \$216,083. The premium is being amortized over the life of the bonds in the government-wide financial statements. The refunding was undertaken to reduce the District's total debt service over the life of the bonds by approximately \$3,091,125 and to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of approximately \$2,270,516. The net proceeds of the refunding bonds were placed in an escrow to be utilized for the redemption of the refunded bonds on the redemption date of February 15, 2024. As a result, the refunded bonds were callable on February 15, 2024, and were no longer outstanding as of September 30, 2024.

The District also completed a partial cash defeasance of the Series 2016 Unlimited Tax School Building and Refunding Bonds, consisting of \$9,560,000 in principal maturities 2027-2039. Debt Service Fund resources of \$10,043,483 were placed in an escrow for the scheduled redemption date of February 16, 2024.

Prior Year Advance Refunding of Long-term Debt

The District has no defeased bonds outstanding as of August 31, 2024 resulting from prior year advance refundings.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

Construction - During the 2023-24 fiscal year, the District continued construction of new facilities as well as renovation of some existing facilities. As of August 31, 2024, the District's construction commitments with the contractors are as follows:

Campus/Location	Authorized Contract	Total In Progress	Remaining Commitment
Eissler Elementary	\$ 45,008,193	\$ 7,175,549	\$ 37,832,644
Campbell Elementary	44,829,681	9,778,942	35,050,739
JHS 7-9	140,444,905	9,819,992	130,624,913
CHS Master Plan	154,998,625	131,196,734	23,801,891
Campus Renovations 2024	34,798,237	28,801,747	5,996,490
Safety & Security	10,957,058	9,877,048	1,080,010
TOTAL	\$ 431,036,699	\$ 196,650,012	\$ 234,386,687

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 9 - COMMITMENTS AND CONTINGENCIES (continued)

Federal Financial Assistance - The District received significant financial assistance from federal and state governmental agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies and the TEA. Any disallowed claims resulting from such audits could become a liability of the General Fund. However, in the opinion of management, such disallowed claims, if any, will not have a material effect on any of the financial statements of the individual funds included herein or on the overall financial position of the District at August 31, 2024.

Legal Proceedings - The District is a defendant in various legal proceedings relating to its operations as a school district. In the best judgment of the District's management, the outcome of any present legal proceeding will not have a material adverse effect on the accompanying basic financial statements.

NOTE 10 - GENERAL FUND FEDERAL PROGRAM REVENUE

Programs that are federally funded are accounted for in the Special Revenue Funds of the District. The District received \$4,573,589 in revenue from the SHARS and MAC Medicaid Programs. These programs are accounted for in the General Fund as required by the TEA.

NOTE 11 – REVENUES FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	General	Debt Service	Capital Projects	Other Non Major Funds	Total
Property Taxes	\$ 351,725,852	\$ 129,882,042	\$ -	\$ -	\$ 481,607,894
Penalties, Interest, and Other Tax Related Income	2,561,641	780,508	-	-	3,342,149
Summer School, Tuition and Fees	569,974	-	-	-	569,974
Investment Income	13,853,114	2,821,034	25,466,875	481,697	42,622,720
Food Sales	-	-	-	9,791,031	9,791,031
Co-Curricular Student Activities	1,352,839	-	-	-	1,352,839
Building Rental	949,760	-	-	-	949,760
Other	1,566,572	-	3,371,407	1,954	4,939,933
Total	<u>\$ 372,579,752</u>	<u>\$ 133,483,584</u>	<u>\$ 28,838,282</u>	<u>\$ 10,274,682</u>	<u>\$ 545,176,300</u>

Building Rental revenues include revenues from leases recognized under GASB 87 amounting to \$72,148 for the year ending August 31, 2024.

NOTE 12 - OTHER FINANCING SOURCES AND OTHER FINANCING USES

Other financing sources in the general fund consist of \$4,274,730 in proceeds from Right to Use Leased Assets and SBITAs. Other financing sources in the general fund and other financing uses in the capital projects fund was due to a transfer of \$18,800,000 from the capital projects fund back to the general fund to return unused funding. Other financing sources in other non major fund consist of \$6,189,292 in proceeds from Right to Use Leased Assets and SBITAs.

**CONROE INDEPENDENT SCHOOL DISTRICT

Payment to Bond Refunding Agent	\$ -	\$ (53,280,419)	\$ -	\$ -
Transfers out	-	-	(18,800,000)	-
Total Other Financing Uses	<u>\$ -</u>	<u>\$ (53,280,419)</u>	<u>\$ (18,800,000)</u>	<u>\$ -</u>

NOTE 13 - DEFINED BENEFIT PENSION PLAN

A. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

B. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://www.trs.texas.gov/Pages/about_archive_cafr.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 13 - DEFINED BENEFIT PENSION PLAN (continued)

D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Contribution rates for the last two fiscal years are as follows:

	Contribution Rates	
	2023	2024
Member	8.00%	8.25%
Non-Employer Contributing Entity(State)	8.00%	8.25%
Employer	8.00%	8.25%
District 2023 Employer contributions	\$21,974,228	
District 2023 Member contributions	\$44,260,896	
District 2023 NECE On-Behalf contributions	\$30,649,830	

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA). As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- All public schools, charter schools, and regional educational service centers must contribute 1.5 percent of the member's salary beginning in fiscal year 2020, gradually increasing to 2 percent in fiscal year 2025.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 13 - DEFINED BENEFIT PENSION PLAN (continued)

E. Actuarial Assumptions

The total pension liability in the August 31, 2022 actuarial valuation rolled forward to August 31, 2023 was determined using the following actuarial assumptions:

Valuation date	August 31, 2022 rolled forward to August 31, 2023
Actuarial cost method	Individual entry age normal
Asset valuation method	Fair value
Single discount rate	7.00%
Long-term expected investment rate of return	7.00%
Municipal bond rate as of August 2023	4.13%*
Last year ending August 31 in projection period (100 years)	2122
Inflation	2.30%
Salary increases including inflation	2.95% to 8.95% including inflation
Ad hoc post-employment benefit changes	None
Active mortality rates	The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale U-MP. The active mortality rates were based on the published PUB(2010) Mortality Tables for Teachers, below median, also with full generational mortality.

* The source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-Year Municipal GO AA Index”.

The actuarial methods and assumptions were based primarily on a study of actual experience for the four-year period ending August 31, 2021 and were adopted in July 2022.

F. Discount Rate

A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the statutorily required rates. It is assumed that future employer and state contributions will be 9.50 percent of payroll in fiscal year 2024 increasing to 9.56 percent in fiscal year 2025 and thereafter. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. As a result, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 13 - DEFINED BENEFIT PENSION PLAN (continued)

F. Discount Rate (continued)

Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2023 are summarized below:

Asset Class	Target Allocation*	Long Term Expected Geometric Real Rate of Return**	Expected Contribution to Long-Term Portfolio Returns
Global Equity			
U.S.	18%	4.0%	1.0%
Non-U.S. Developed	13%	4.5%	0.9%

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.00%) in measuring the 2023 Net Pension Liability.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
District's proportionate share of the net pension liability:	\$ 410,049,495	\$ 274,270,438	\$ 161,370,080

**CONROE INDEPENDENT SCHOOL DISTRICT

NOTE 13 - DEFINED BENEFIT PENSION PLAN (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2024, the District reported a liability of \$274,270,438 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	\$	274,270,438
State's proportionate share that is associated with District		343,347,661
Total	\$	617,618,099

The net pension liability was measured as of August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At August 31, 2023 the employer's proportion of the collective net pension liability was .3993% which was an increase of .0226% from its proportion measured as of August 31, 2022. For the year ended August 31, 2024, the District recognized pension expense of \$105,899,361 and revenue of \$51,842,526 for support provided by the State.

At August 31, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 9,772,349	\$ 3,321,115
Changes in actuarial assumptions	25,940,611	6,348,259
Difference between projected and actual investment earnings	39,913,006	-
Changes in proportion and difference between the District's contributions and the proportionate share of contributions	27,805,601	2,802,879
Contributions paid to TRS subsequent to the measurement date	21,974,228	-
	<u>\$ 125,405,795</u>	<u>\$ 12,472,253</u>

\$21,974,228 reported as a deferred outflows related to contribution subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended 2025.

FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 13 - DEFINED BENEFIT PENSION PLAN (continued)

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)

The net amounts of the other employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>For Year Ended</u>	<u>Pension Expense Amount</u>
2025	\$ 20,500,178
2026	14,201,533
2027	39,704,326
2028	14,319,025
2029	2,234,253
Thereafter	-
Total	<u>\$ 90,959,315</u>

NOTE 14 – DEFINED OTHER POST-EMPLOYMENT BENEFIT PLAN

A. Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRSCare). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

B. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

C. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with and without Medicare coverage.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 14 – DEFINED OTHER POST-EMPLOYMENT BENEFIT PLAN (continued)

C. Benefits Provided (continued)

TRS-Care Plan Premium Rates
Effective January 1, 2023 -December 31, 2023

	Medicare	Non-Medicare
Retiree or Surviving Spouse	\$ 135	\$ 200
Retiree and Spouse	529	689
Retiree or Surviving Spouse and Children	468	408
Retiree and Family	1,020	999

D. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

The following table shows contributions to the TRS-Care plan by type of contributor.

	Contribution Rates	
	2023	2024
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (state)	1.25%	1.25%
Employer/District	0.75%	0.75%
Federal/private funding remitted by employers	1.25%	1.25%

The contribution amounts for the District fiscal year 2024 are as follows:

District 2023 Employer contributions	\$4,443,276
District 2023 Member contributions	\$3,487,206
District 2023 NECE On-Behalf contributions	\$6,365,554

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

The Medicare Prescription Drug, Improvement, and Modernization act of 2003 established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. Medicare Part D allows for TRS-Care to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. For the years ended August 31, 2024, 2023, and 2022, the subsidy payments received by TRS-Care on behalf of the District were \$2,948,453, \$2,765,172, and \$1,950,678, respectively. These payments are recorded as equal revenues and expenditures in the governmental funds financial statements.

CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024

NOTE 14 – DEFINED OTHER POST-EMPLOYMENT BENEFIT PLAN (continued)

E. Actuarial Assumptions

The actuarial valuation of the total OPEB liability was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuations performed for the pension plan, except that the OPEB valuation is more complex.

The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2023 TRS annual pension actuarial valuation:

<u>Demographic Assumptions</u>	<u>Economic Assumptions</u>
Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Salary Increases
Rates of Disability	

The demographic assumptions were developed in the experience study performed by TRS for the period ending August 31, 2021.

The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non-Medicare retirees. There was an initial prescription drug trend rate of 7.75% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Actuarial Cost Method	Individual Entry Age Normal
Single Discount Rate	4.13%
Inflation	2.30%
Aging Factors	Based on plan specific experience
Election Rates	Normal retirement: 62% participation prior to age 65 and 25% after age 65. 30% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Salary Increases	2.95% to 8.95%, including inflation
Ad hoc Post-employment Benefit Changes	None

F. Discount Rate

A single discount rate of 4.13 percent was used to measure the total OPEB liability. This was an increase of .22 percent in the discount rate since the previous year. Since the plan is a pay-as-you-go plan, the single discount rate is equal to the prevailing municipal bond rate.

G. Rate Sensitivity of the Net OPEB Liability

The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (4.13%) in measuring the net OPEB liability.

	1% Decrease	Current Discount Rate	1% Increase
	3.13%	4.13%	5.13%
TRS-CARE	\$ 131,755,643	\$ 111,866,670	\$ 95,636,798

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 14 – DEFINED OTHER POST-EMPLOYMENT BENEFIT PLAN (continued)

G. Rate Sensitivity of the Net OPEB Liability (continued)

The following schedule shows the impact of the Net OPEB Liability if the healthcare cost trend rate used was 1% less than and 1% greater than the healthcare cost trend rate that was used in measuring the Net OPEB Liability.

	1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
TRS-CARE	\$ 92,116,605	\$ 111,866,670	\$ 137,275,197

H. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2024, the District reported a liability of \$111,866,670 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 111,866,670
State's proportionate share of the net OPEB liability associated with the District	134,984,332
Total	<u>\$ 246,851,002</u>

The net OPEB liability was measured as of August 31, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At the measurement date of August 31, 2023, the District's proportion of the collective net OPEB liability was .5053% which was an increase of .0222% from its proportion measured as of August 31, 2022.

For the year ended August 31, 2024, the District recognized total OPEB expense of (\$43,382,909) which includes the on-behalf portion of (\$28,856,801) from the State.

The primary reasons for the liability reduction and the presentation of negative OPEB expense for the District and the State were due to savings to the fully-insured Medicare Advantage premiums, which resulted from Congress' repeal of the Health Insurer fee in December 2019 and vendor premium guarantees, and favorable claims and rebate experience for the prescription drug benefits provided to Medicare retirees.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 14 – DEFINED OTHER POST-EMPLOYMENT BENEFIT PLAN (continued)

H. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs (continued)

At August 31, 2024, the District reported deferred outflows of resources for contributions made after the measurement date and its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,061,119	\$ 94,114,613
Changes in actuarial assumptions	15,268,985	68,498,930
Net difference between projected and actual earnings on pension plan investments	48,333	-
Changes in proportion and difference between the District's contribution: and proportionate share of contributions (cost-sharing plan)	45,494,233	2,695,805
District contributions after measurement date	4,443,276	-
	<u>\$ 70,315,946</u>	<u>\$ 165,309,348</u>

\$4,443,276 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the fiscal year ended August 31, 2024. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to OPEB will be recognized in OPEB expense as follows:

For Year Ended	OPEB Expense Amount
2025	\$ (23,837,216)
2026	(18,706,387)
2027	(11,760,155)
2028	(15,682,152)
2029	(13,650,016)
Thereafter	(15,800,753)
Total	<u>\$ (99,436,679)</u>

Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023. This change decreased the total OPEB liability.

Changes of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

NOTE 15 - RISK MANAGEMENT

The District is exposed to various risks related to torts: theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District's risk management program encompasses various means of protecting the District against loss by obtaining property, casualty, and liability coverage through commercial insurance carriers, self-insurance, and from participation in a risk pool. The District's participation in the risk pool is limited to payments of premiums. Settlements over the past three years have not exceeded the coverage of the district's commercial insurance, otherwise the exceeded amount would be funded through the general fund.

**CONROE INDEPENDENT SCHOOL DISTRICT
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2024**

NOTE 15 - RISK MANAGEMENT (Continued)

Health Benefits

On October 1, 2000, the District began a self-funded environment for provision of employee health insurance. The District made contributions to cover the employees and the employees, at their option, authorized payroll withholdings to pay contributions for dependents. The plan was authorized by state statute and was documented by contractual agreement. The contract between the District and the third party administrator is renewable annually.

In accordance with state statute, the District maintains a catastrophic loss insurance policy, which reimburses the District for annual claims totaling over \$550,000 per covered individual with an aggregate limit of liability for the insurer totaling \$5,000,000. For the fiscal years ended 2022, 2023, and 2024 the District has received insurance settlements in the amounts of \$3,732,353, \$5,096,543, and \$176,924 respectively. The District made no significant reductions in insurance coverage for the 2023-24 fiscal year. The District's contributions for benefits during the year totaled \$33,066,886. Estimates of claims payable and of claims incurred but not reported at August 31, 2024, are reflected as accrued expenses of the fund. The liabilities include an amount for claims that have been incurred but were not reported until after August 31, 2024. Because actual claims liabilities depend on such complex factors such as inflation, changes in legal requirements, and damage awards, the process used in computing claims liability is an estimate.

Analysis of claims liability for the fiscal year 2024 is as follows:

	Health Benefits	
	2024	2023
Claims payable, September 1	\$ 3,969,087	\$ 3,526,127
Incurring claims and claim adjustment expenses:		
Provision for insured events of the current fiscal year	58,291,841	55,886,464
Total incurred claims and claim adjustment expenses	58,291,841	55,886,464
Payments:		
Claims and claim adjustment expenses attributable to insured events for the current fiscal year	55,461,177	51,917,377
Claim and claim adjustment expenses attributable to insured events of prior fiscal years	3,969,087	3,526,127
Total payments	59,430,264	55,443,504
Claims payable, August 31	\$ 2,830,664	\$ 3,969,087

NOTE 16 - ARBITRAGE EARNINGS REBATE

As a result of the Tax Reform Act of 1986, the Series 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2022, 2023, and 2024 General Obligation Bonds are subject to arbitrage earnings rebate. Generally, amounts earned on investments from unspent bond proceeds in excess of the interest paid on the bonds must be rebated to the Internal Revenue Service. For the year ended August 31, 2024 the District had \$11,532,595 in arbitrage liability.

NOTE 17 – RELATED PARTY

During the 2023-2024 fiscal year, a member of the Board of Trustees was an officer and shareholder of Woodforest National Bank, the District's primary depository bank.
