Rating Action: Moody's Ratings assigns Aa2 issuer rating to Travis County WC&ID 17, TX; upgrades defined area GOs to A1 and assigns A1 to new GOs

27 Feb 2026

New York, February 27, 2026 -- Moody's Ratings (Moody's) has assigned a Aa2 issuer rating to Travis County Water Control and Improvement District 17, TX. Concurrently, we have upgraded the district's Serene Hills Defined Area general obligation unlimited tax (GOULT) rating to A1 from A3, and assigned an A1 rating to the proposed \$5.7 million Serene Hills Defined Area Unlimited Tax Bonds, Series 2026. This action concludes a review for direction uncertain, which was initiated on December 9, 2025 in conjunction with the release of the US Special Purpose Districts methodology. The district has about \$109 million of total debt outstanding.

RATINGS RATIONALE

The Aa2 issuer rating reflects the district's very strong resident income of 215% of the national median located just west of the Austin metroplex. The rating also reflects the district's strong available fund balance and liquidity ratios of 121% and 157%, respectively. Reserves will remain strong given the fiscal 2026 budget (Sept 30 year-end) shows a general fund surplus and improvement in the debt service fund balance. The available fund balance is moderate compared to long-term liabilities at 46%, although it is expected to remain stable based on consistent annual surplus operations that will keep pace with debt issuances. Including the Series 2026 bonds, leverage is low for the rating category, representing about 1.1% of full value. Additional plans for the district will keep leverage near this level.

The A1 Serene Hills Defined Area GOULT rating is two notches lower than the issuer rating, reflecting a more limited but still sizeable tax base of \$478 million, representing only 5% of the district's total fiscal 2026 tax base, and an unlimited property tax that is dedicated for debt service and levied upon all taxable property within the defined area of the district.

RATING OUTLOOK

We do not assign outlooks to local government issuers with this amount of debt outstanding.

FACTORS THAT COULD LEAD TO AN UPGRADE OF THE RATINGS

- Increase in the available fund balance to liabilities ratio to over 60%
- Sustained decline in long-term liabilities to below 0.75% of full value

FACTORS THAT COULD LEAD TO A DOWNGRADE OF THE RATINGS

- Increase in long-term liabilities to over 1.5% of full value
- Trend of operational imbalance leading to material decline in fund balance and/or liquidity to below 100% of revenue

PROFILE

Travis County Water Control & Improvement District 17 was created in 1958 and encompasses 15,000 acres

following multiple annexations. The Serene Hills Defined Area comprises 456 acres within the district and has an estimated population of 2,300.

METHODOLOGY

The principal methodology used in these ratings was US Special Purpose Districts published in December 2025 and available at <https://ratings.moodys.com/rmc-documents/455982>. Alternatively, please see the Rating Methodologies page on <https://ratings.moodys.com> for a copy of this methodology.

REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found on <https://ratings.moodys.com/rating-definitions>.

For any affected securities or rated entities receiving direct credit support/credit substitution from another entity or entities subject to a credit rating action (the supporting entity), and whose ratings may change as a result of a credit rating action as to the supporting entity, the associated regulatory disclosures will relate to the supporting entity. Exceptions to this approach may be applicable in certain jurisdictions.

For ratings issued on a program, series, category/class of debt or security, certain regulatory disclosures applicable to each rating of a subsequently issued bond or note of the same series, category/class of debt, or security, or pursuant to a program for which the ratings are derived exclusively from existing ratings, in accordance with Moody's rating practices, can be found in the most recent Credit Rating Announcement related to the same class of Credit Rating.

For provisional ratings, the Credit Rating Announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating.

Moody's does not always publish a separate Credit Rating Announcement for each Credit Rating assigned in the Anticipated Ratings Process or Subsequent Ratings Process.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Please see <https://ratings.moodys.com> for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the issuer/deal page on <https://ratings.moodys.com> for additional regulatory disclosures for each credit rating.
