New Issue

This Official Statement ("Official Statement") has been prepared by the State Board of Finance to provide information on the $357,320,000 State of New Mexico Severance Tax Bonds, Series 2026A (the "Bonds"). Selected information is presented on this cover page for the convenience of the user. To make an informed decision, a prospective investor should read the entire Official Statement. Certain capitalized terms used in the cover page and elsewhere in this Official Statement have the meanings given in the Official Statement.

$357,320,000
STATE OF NEW MEXICO
SEVERANCE TAX BONDS
SERIES 2026A

Dated: Delivery Date **Due: July 1, as shown on the inside front cover**

Ratings on the Bonds	"Aa2" Moody's Investors Service "AA-" S&P Global Ratings
Tax Exemption	*In the opinion of Taft Stettinius & Hollister LLP, Tax Counsel, assuming continuous compliance with certain covenants described herein, interest on the Bonds (defined herein) is excluded from gross income pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date of delivery of the Bonds (the "Tax Code"), and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code; however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. See "TAX MATTERS" herein. Tax Counsel is also of the opinion that the interest on the Bonds is exempt from income taxation by the State of New Mexico. The Bonds have not been designated as "qualified tax-exempt obligations" for purpose of Section 265(b)3 of the Code.*
Redemption of Bonds	The Bonds will be subject to optional redemption prior to maturity. The Bonds maturing on or after July 1, 2032, are subject to redemption at the option of the State on any date on or after July 1, 2031, either in whole or in part, at a Redemption Price equal to 100 percent of their principal amount plus unpaid accrued interest to the date of redemption.
Source of Payment	The Bonds are special limited obligations of the State payable from, and secured by, taxes levied upon certain natural resource products severed and saved from the soil of the State deposited into the Severance Tax Bonding Fund.
Priority	The Bonds are being issued under the authority of NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2026) (the "Severance Tax Bonding Act"). The Bonds will be on a parity with Severance Tax Bonds now or hereafter outstanding and senior to Supplemental Severance Tax Bonds now or hereafter outstanding.
Purposes	Net proceeds of the Bonds are being used to provide funds to finance capital improvements approved by the State Legislature.
Interest Payment Dates	January 1 and July 1, commencing January 1, 2027.
Public Sale	The Bonds were sold pursuant to competitive bidding process on June 11, 2026.
Closing/Settlement/Denominations	$5,000 or integral multiples thereof on or about June 25, 2026.
Book-Entry System	The Depository Trust Company
Registrar/Paying Agent	State Treasurer of New Mexico
Bond Counsel	Rodey, Dickason, Sloan, Akin & Robb, P.A.
Disclosure Counsel	Kutak Rock LLP
Tax Counsel	Taft Stettinius & Hollister LLP
Issuer Contact	State Board of Finance: Ashley Leach, Director, 505-629-9745; ashley.leach@dfa.nm.gov
Date of Official Statement:	June 11, 2026

In connection with the offering of the Bonds, the Underwriter (defined below) may over-allot or effect transactions which stabilize or maintain the market price of such Bonds at a level above that which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time.

No dealer, broker, salesperson or other person has been authorized to give any information or to make any representation other than those contained in this Official Statement and, if given or made, such information or representation must not be relied upon. This Official Statement does not constitute an offer to sell or solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person, in any jurisdiction in which it is unlawful to make such an offer, solicitation or sale. The information and expressions of opinion herein are subject to change without notice. Neither the delivery of this Official Statement nor any sales hereunder shall under any circumstances create any implication that there has been no change in the affairs of the State of New Mexico or in the imposition and collection of severance taxes since the date hereof.

This Official Statement contains statements relating to the State's receipt of future revenues that are "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words "estimate," "intend," "expect" and similar expressions are intended to identify forward-looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof.

The State Board of Finance (the "Board") is the author of this Official Statement and is responsible for its accuracy and completeness. Morgan Stanley & Co. LLC (the "Underwriter") purchased the Bonds pursuant to a public sale held on June 11, 2026. Both the Preliminary Official Statement and the Official Statement are "deemed final" by the Board for purposes of Rule 15c2-12 of the Securities and Exchange Commission.

CliftonLarsonAllen LLP, the State's independent auditor, has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. CliftonLarsonAllen LLP also has not performed any procedures relating to this offering document.

SUMMARY OF INFORMATION

$357,320,000
STATE OF NEW MEXICO
SEVERANCE TAX BONDS
SERIES 2026A

The following material represents a summary of information concerning the Bonds and the security therefor set forth in this Official Statement and is qualified in its entirety by the detailed information herein. Purchasers of the Bonds should review the entire Official Statement before making an investment decision.

Dated:	Delivery Date.
Interest Payment:	Interest is payable semi-annually on January 1 and July 1, commencing on January 1, 2027.
Principal Payment:	The Bonds mature in serial installments as set forth on the inside cover page of this Official Statement.
Redemption of Bonds:	The Bonds will be subject to optional redemption prior to maturity. The Bonds maturing on or after July 1, 2032, are subject to redemption at the option of the State on any date on or after July 1, 2031, either in whole or in part, at a Redemption Price equal to 100% of their principal amount plus unpaid accrued interest to the date of redemption.
Registration:	The Bonds are being issued solely in book-entry form in the denomination of $5,000 or any integral multiple thereof. The Bonds are being registered to Cede & Co., as nominee of The Depository Trust Company ("DTC"), New York, New York, which will act as depository.
Legal Opinion:	The Bonds are offered when, as and if issued, subject to the approval of legality by Rodey, Dickason, Sloan, Akin & Robb, P.A., Bond Counsel and approval of tax-related matters by Taft Stettinius & Hollister LLP, Tax Counsel.
Security:	The Bonds constitute special limited obligations of the State of New Mexico and will be payable solely from deposits to and revenues of the Severance Tax Bonding Fund (the "Bonding Fund"), consisting primarily of receipts from certain taxes levied on certain natural resource products severed and saved from the soil of the State of New Mexico as more fully described herein.
Additional Parity Bonds:	The Board is prohibited by statute from issuing Senior Severance Tax Bonds and short-term Senior Severance Tax Funding Notes unless the aggregate amount of total Senior Severance Tax Bonds and Senior Funding Notes outstanding, after giving effect to the proposed issuance, can be serviced with not more than 47.6 percent of the annual deposits into the Bonding Fund, as determined by the lesser of the deposits during the preceding Fiscal Year or the deposits during the current Fiscal Year, as estimated by the Board of Finance Division of the Department of Finance and Administration (the "Division").

THE STATE OF NEW MEXICO
SEVERANCE TAX BONDS
SERIES 2026A

INTRODUCTION

The purpose of this Official Statement, including the cover page, the inside cover page, the Summary of Information and the Appendices hereto, is to furnish information regarding the issuance of the $357,320,000 State of New Mexico Severance Tax Bonds, Series 2026A (the "Bonds") of the State of New Mexico (the "State") by the State Board of Finance (the "Board").

The Bonds are being issued under authority of the Severance Tax Bonding Act, NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2026) (the "Severance Tax Bonding Act"), the Supplemental Public Securities Act, NMSA 1978, Sections 6-14-8 to -11 (1983, as amended through 2017) and pursuant to a resolution of the Board adopted on May 19, 2026, as may be amended on June 16, 2026 and as supplemented by a Final Terms Certificate approved in accordance with the terms of such resolution (collectively, the "Bond Resolution")

This Official Statement contains summaries of the terms of the Bonds, certain fiscal matters of the State, and the Severance Taxes (defined below) imposed by the State. The descriptions included in this Official Statement do not purport to be comprehensive or definitive, and such summaries and descriptions are qualified in their entirety by reference to such laws, and the definitive forms of documents, exhibits or appendices where applicable.

Requests for additional information about the State, the Severance Taxes, or requests for copies of any document or statute referred to in this Official Statement, may be directed to:

THE SEVERANCE TAX BONDS

General Terms

The Bonds are dated their date of delivery, bear interest until the principal amount thereof is paid, and mature as set forth on the inside cover page hereof. Interest on the Bonds is payable on January 1 and July 1, commencing on January 1, 2027. The Bonds are being issued solely in book-entry form in denominations of $5,000 or integral multiples thereof. The Bonds are being registered in the name of Cede & Co., as nominee of The Depository Trust Company ("DTC"), New York, New York, which will act as depository for the Bonds. The Bonds are subject to transfer and exchange as set forth in the Bond Resolution.

Optional Redemption of Bonds

The Bonds will be subject to optional redemption prior to maturity. The Bonds maturing on or after July 1, 2032, are subject to redemption at the option of the State on any date on or after July 1, 2031, either in whole or in part, at a Redemption Price equal to 100% of their principal amount plus unpaid accrued interest to the date of redemption. Redemption notices will be sent at least 30 days prior to optional redemption. See "SUMMARY OF CERTAIN PROVISIONS OF THE BOND RESOLUTION—Timing of Redemption Notices."

Security for the Bonds

There are two categories of bonds issued by the Board for which the money in the Bonding Fund is pledged for their retirement. Those bonds are referred to in the Severance Tax Bonding Act as "New Mexico Severance Tax Bonds" and as "New Mexico Supplemental Severance Tax Bonds" but, for clarity, are referred to herein as "Senior Severance Tax Bonds" and "Supplemental Severance Tax Bonds,"

respectively. Where appropriate, Senior Severance Tax Bonds and Supplemental Severance Tax Bonds are collectively referred to herein as "Severance Tax Bonds."

Security for the Bonds. The Board is prohibited by statute from issuing Senior Severance Tax Bonds unless the aggregate amount of Senior Severance Tax Bonds and Senior Funding Notes outstanding, after giving effect to the proposed issuance, can be serviced with not more than 47.6 percent of the annual deposits into the Bonding Fund, as determined by the lesser of the deposits during the preceding Fiscal Year or the deposits during the current Fiscal Year, as estimated by the Division.

In addition, Supplemental Severance Tax Bonds with a term that extends beyond the Fiscal Year in which they are issued may be issued if the debt service on such Supplemental Severance Tax Bonds, when added to the debt service previously paid or scheduled to be paid during that Fiscal Year on Senior Severance Tax Bonds, Senior Funding Notes and Supplemental Severance Tax Bonds and Supplemental Funding Notes (defined below), does not exceed 60.1 percent of the lesser of the deposits in the Bonding Fund during the preceding fiscal year or the deposits into the Bonding Fund during the current fiscal year, as estimated by the Division.

Short-term Supplemental Severance Tax Funding Notes ("Supplemental Funding Notes") which mature in the Fiscal Year in which they are issued may also be issued if the debt service on such Supplemental Funding Notes, when added to the debt service previously paid or scheduled to be paid during that Fiscal Year on Senior Severance Tax Bonds, Senior Funding Notes and Supplemental Severance Tax Bonds does not exceed 86.2 percent of the lesser of the deposits in the Bonding Fund during the preceding fiscal year or the deposits into the Bonding Fund during the current fiscal year, as estimated by the Division.

The Senior Severance Tax Bonds and Senior Funding Notes fund a wide variety of capital projects, while Supplemental Severance Tax Bonds and Supplemental Funding Notes are earmarked for capital projects for public education. The Board has authority to issue Supplemental Severance Tax Bonds for public school projects in amounts certified to the Board from time to time by the Public School Capital Outlay Council of the State or the Public Education Department of the State. The Board may, from time to time, have the authority to issue Supplemental Severance Tax Bonds and Funding Notes for projects directly appropriated by the legislature that are not certified by the Public School Capital Outlay Council but instead by other education institutions or entities. The lien of the pledge of such Supplemental Severance Tax Bonds (including Supplemental Funding Notes) is subordinate to any outstanding Senior Severance Tax Bonds.

NMSA 1978, Section 7-27-8 requires that on each December 31 and each June 30 the State Treasurer shall transfer to the Severance Tax Permanent Fund ("STPF") all money in the Bonding Fund except the amount necessary to meet all principal and interest payments on bonds payable from the Bonding Fund on the next two ensuing semiannual payment dates.

In 2024 the New Mexico Legislature passed House Bill 253 which amended the Severance Tax Bonding Act. The general purpose of the bill was to establish a reserve fund (the "Capital Development and Reserve Fund") for capital projects that could be appropriated in future years and create an annual fund for appropriation that is targeted to the funding of small capital projects and design and engineering for large projects (the "Capital Development Program Fund"). For the creation of the Capital Reserve Fund, the Severance Tax Bonding Act now requires the State Board of Finance to estimate debt service savings by calculating the difference between (1) severance tax bonding capacity for appropriation pursuant to existing statutory debt limitations and Board policy on issuing level debt over 10 years and (2) a lower capacity available for appropriation that would result in stable levels of state tax-supported debt relative to the median state debt ratios published by the national municipal bond rating agencies. The Severance Tax Bonding Act also requires the State Board of Finance to distribute any cash savings resulting from reduced

long-term bond issuance (i.e., the debt service savings) annually to the Capital Development and Reserve Fund. In Fiscal Year 2024 only, the Board was authorized to issue up to $500 million in short-term severance tax notes for distribution to the Capital Development and Reserve Fund which is held and invested by the State Investment Council. The Board ultimately transferred $475.8 million to the Capital Development and Reserve Fund in 2024 and $81.6 million in 2025. The Board anticipates transferring $197.1 million to the Capital Development and Reserve Fund by June 30, 2026.

The State Investment Council is required to distribute five percent of the average of the year-end market values of the Capital Development and Reserve Fund for the previous three calendar years each January 1 to the Capital Development Program Fund. The State Investment Council transferred $23.8 million to the Severance Tax Bonding Fund for the Program Fund for Fiscal Year 2025 and $26.6 million for Fiscal Year 2026. During the 2025 legislative session, the Legislature appropriated up to $24 million from the fund for two purposes: (1) the funding of capital projects that total less than $5,000,000 and (2) the planning and design of capital projects that total more than $5,000,000 (but not the funding of construction of such projects). During the 2026 legislative session, $26.2 million was appropriated from the fund.

The total aggregate principal amount of outstanding Severance Tax Bonds issued by the State does not now, nor will such amount upon the issuance of the Bonds, exceed any applicable limit prescribed by the Constitution or laws of the State.

The Bonds, all currently outstanding Senior Severance Tax Bonds, and any Senior Severance Tax Bonds or Senior Funding Notes issued on a parity with the Bonds will have a pledge and lien senior to any Supplemental Severance Tax Bonds or Supplemental Funding Notes now outstanding or hereafter issued.

The Bonds are special obligations of the State secured by and payable solely from, on a parity basis to Senior Severance Tax Bonds and Senior Funding Notes now or hereafter outstanding and on a prior lien basis to Supplemental Severance Tax Bonds and Supplemental Funding Notes now or hereafter outstanding, deposits to the Bonding Fund into which are deposited, pursuant to the Severance Tax Bonding Act, the net receipts from taxes levied in accordance with the Severance Tax Act, NMSA 1978, Sections 7-26-1 to -8 (1937, as amended through 2025) (the "Severance Tax Act"), and the Oil and Gas Severance Tax Act, NMSA 1978, Sections 7-29-1 to -23 (1959, as amended through 2025) (the "Oil and Gas Severance Tax Act"), upon certain natural resource products severed and saved from the soil of the State ("Severance Taxes"), investment earnings on such deposits and on unused bond proceeds in certain accounts, and such other moneys as the Legislature in its sole discretion may from time to time determine. On June 30 and December 31 of each year, the excess money in the Bonding Fund over the amount necessary to meet all principal and interest payments on all outstanding Severance Tax Bonds on the next two ensuing semiannual payment dates must be transferred to the STPF.

Once moneys are so transferred, they no longer may be used to pay, or to secure payment of, principal, premium, if any, or interest on any Severance Tax Bonds. Severance Tax Bonds are not general obligations of the State and the State is prohibited by law from using the proceeds of property taxes as a source of payment of revenue bonds, including Severance Tax Bonds.

The State Treasurer keeps separate accounts for all money collected as Severance Taxes and is directed by State statute to pay Severance Tax Bonds from moneys on deposit in the Bonding Fund. The Bond Resolution provides for the creation of a separate Debt Service Account within the Bonding Fund for the payment of principal and interest on the Bonds.

The Severance Tax Bonding Act requires the Legislature to provide for the continued assessment, levy, collection and deposit into the Bonding Fund of Severance Taxes which, together with such other moneys as may be deposited into the Bonding Fund, will be sufficient to produce an amount at least equal to annual debt service on all outstanding Severance Tax Bonds.

In addition, the Board covenants in the Bond Resolution that the State will use its best efforts to collect and deposit in the Bonding Fund proceeds from Severance Taxes as set forth in the Severance Tax Bonding Act which, when combined with other amounts the State Legislature, in its sole discretion, may from time to time deposit in the Bonding Fund will equal at least two-hundred percent (200%) of the amount of the principal and interest scheduled to be due in each fiscal year of the State on Severance Tax Bonds, including the Bonds. However, the Board does not have the power to levy or impose Severance Taxes, and no assurance exists that the 200 percent requirement will be met.

USE OF PROCEEDS

Purpose

The proceeds of the Bonds are being used to provide funds to finance capital improvements as described in legislation approved by the State Legislature and signed by the Governor.

The proceeds of the Bonds are expected to be applied in the manner set forth in the following table:

SOURCES:	
Par Amount	$357,320,000.00
Original Issue Premium	28,863,026.80
TOTAL SOURCES	$386,183,026.80
USES: [1]	
Deposit to Capital Project Account	$385,000,000.00
Underwriter's Discount	1,180,117.91
Additional Proceeds	2,908.89
TOTAL USES	$386,183,026.80

[1] Costs of issuance to be paid from available funds in the Severance Tax Bonding Fund.

SEVERANCE TAX BONDING FUND AND DEBT SERVICE REQUIREMENTS

Severance Taxes have been collected by the State since the adoption of the Severance Tax Act in 1937. Since 1959, certain Severance Tax receipts and certain other moneys determined by the Legislature have been deposited into the Bonding Fund and used, in part, to service bond issues, which have funded a variety of capital improvements in the State. Pursuant to the provisions of the Severance Tax Act and the Oil and Gas Severance Tax Act, Severance Tax receipts, including penalties and interest, and such other moneys as the Legislature in its sole discretion may from time to time determine (including interest earnings on moneys in the Bonding Fund and the project accounts and reversions from project accounts in the Bonding Fund), are deposited into the Bonding Fund. As of the date of this Official Statement, other moneys including interest earnings on moneys in the Bonding Fund, reversions from project accounts in the Bonding Fund, and prepayments and tax settlements have been deposited. See Table 4 entitled "Severance Tax Bonding Fund Receipts, Disbursements and Transfers" herein. The moneys in the Bonding Fund are pledged for the payment of principal, premium, if any, and interest on Severance Tax Bonds and Supplemental Severance Tax Bonds, and there are no other liens or encumbrances of any nature on or against (i) the Bonding Fund, or (ii) the net revenues derived from Severance Taxes that are required to be

credited to the Bonding Fund; provided, however, that semiannual transfers of excess funds in the Bonding Fund to the STPF are required by state statute December 31 and June 30 of each fiscal year. See "— Issuance of Severance Tax Bonds" below. The moneys in the Bonding Fund are also available to pay costs of issuance in connection with the sale of Severance Tax Bonds and Supplemental Severance Tax Bonds.

Severance taxation is determined by State statute. For a description of the various Severance Tax rates and methods of their calculation, see "SEVERANCE TAX REVENUE" below.

Investments

Funds on deposit in the Bonding Fund are invested by the State Treasurer at the direction and approval of the Board, pursuant to the State Treasurer's Investment Policy ("Investment Policy"), adopted on December 17, 2019. For a description of the Investment Policy, see State Treasurer's Office Investment Responsibilities in "Appendix A." Investments are made in securities, which are at the time legal investments of the State, and no such investment or deposit shall violate any applicable restrictions imposed by the Tax Code (defined herein) and applicable Treasury Department regulations relating to the market price and the existence of an established market.

Except for funds deposited into the Rebate Fund (defined in the Bond Resolution) for any bond series, net interest earned on the amounts on deposit in the Debt Service Account for those bonds shall be retained therein, and net interest earned on amounts on deposit in the Project Fund for those bonds shall be credited to the Debt Service Account for those bonds and applied to the payment of principal and interest on the bonds next becoming due. Any net loss, after applying any earnings in that account or fund to the loss, resulting from any investment shall be charged to the applicable account from which such investment was made.

Issuance of Severance Tax Bonds

The Severance Tax Bonding Act authorizes the issuance and sale of Senior Severance Tax Bonds and Supplemental Severance Tax Bonds payable from the net receipts from taxes levied upon certain natural resource products severed and saved from the soil ("Severance Taxes") in accordance with the provisions of, and as described in, the Severance Tax Bonding Act.

Severance Taxes are collected on a monthly basis by the New Mexico Taxation and Revenue Department (the "TRD") and deposited in the Extraction Taxes Suspense Fund within the General Fund of the State. If the TRD determines that there is no substantial risk of protest or litigation related to those tax revenues, they are released from the Extraction Taxes Suspense Fund and deposited in the Bonding Fund in the month following the collection of the Severance Taxes; otherwise the tax revenues are held in the Extraction Taxes Suspense Fund until the substantial risk of protest or litigation is no longer present.

On December 31 and June 30 of each fiscal year, excess funds in the Bonding Fund are transferred into the STPF. Excess funds are defined as funds in excess of the next two semi-annual payments of debt service on Severance Tax Bonds. **Balances in the STPF are not pledged as security for the Bonds.**

In addition to the sale of long-term Senior Severance Tax Bonds and Supplemental Severance Tax Bonds, the State issues Senior Funding Notes and Supplemental Funding Notes from time to time to utilize excess capacity available in the Bonding Fund, as authorized by the Legislature, and to make those funds available for capital projects of the State. The Senior Funding Notes and Supplemental Funding Notes generally are taxable for federal income tax purposes, have a maturity of five days or less, mature in the fiscal year in which they are issued and are purchased by the State Treasurer.

State Capital Program

State General Fund balances and proceeds from General Obligation Bonds, Senior Severance Tax Bonds and Supplemental Severance Tax Bonds are important sources of capital financing for the State. The following table summarizes the capital funding administered by the Board and certain other sources for Fiscal Year 2021 through Fiscal Year 2025.

TABLE 2
Principal Sources of Capital Project Funding
Fiscal Year Ended June 30
(dollars in millions)

	2021	2022	2023	2024	2025
Proceeds from General Obligation Bonding Program [1]					
General Obligation Bonds	$ 199.5	$ 0.0	$ 258.8	$ 0.00	$ 223.6
Subtotal	199.5	0.0	258.8	0.00	223.6
Proceeds from Severance Tax Bonding Program [1]					
Severance Tax Bonds	509.1	292.0	317.2	0.0	252.5
Severance Tax Funding Notes [2]	163.3	200.5	340.3	772.3	774.4
Supplemental Severance Tax Bonds	0.0	0.0	0.0	0.0	0.0
Supplemental Severance Tax Funding Notes [2]	232.9	268.2	681.9	733.4	540.7
Subtotal	905.3	760.7	1,339.4	1,505.7	1,567.6
Proceeds From Other Sources					
Transportation Bonds [3]	0.0	234.6	0.0	0.0	0.0
Subtotal	0.0	234.6	0.0	0.0	0.0
Total [4]	$1,104.8	$995.3	$1,598.2	$1,505.7	$1,791.2

[1] Dollar amounts from State Board of Finance funding programs reflect net proceeds available for capital expenditure. Amounts vary annually by legislative action and the timing of bond closings.
[2] The Board issues Senior Funding Notes and Supplemental Funding Notes to fund authorized projects. The notes are sold to the State Treasurer and retired within the same fiscal year.
[3] Dollar amounts for transportation bonds are for new bonds issued, and do not include refunding bonds.
[4] Totals may not add due to rounding.
Sources: New Mexico State Board of Finance and the New Mexico Finance Authority (as issuer of State Transportation Bonds)

In addition to the General Obligation Bonding Program, the Severance Tax Bonding Program and the Supplemental Severance Tax Bonding Program, each issued and administered by the Board, there are a number of other sources of funds for capital projects throughout the State. These other sources of funding include surplus general fund appropriations and proceeds of bonds issued by, among others, the New Mexico Finance Authority (the "Finance Authority"), the State Transportation Commission and state educational institutions.

The Finance Authority was created by the Legislature in 1992 to assist qualified governmental entities in financing capital equipment and infrastructure projects. The Finance Authority is a state instrumentality governed by a board of directors and is not subject to the direct supervision or control of any other board, bureau, department or agency of the State.

Outstanding and Additional Senior Severance Tax Bonds

The Bonds will be secured on a parity with the following Senior Severance Tax Bonds currently outstanding (exclusive of those Senior Severance Tax Bonds which are fully secured by escrowed securities). The Bonds will be issued with a lien senior to all current and any future Supplemental Severance Tax Bonds. See "—Outstanding and Additional Supplemental Severance Tax Bonds" below.

TABLE 3
Outstanding Senior Severance Tax Bonds [1]

Severance Tax Bonds, Series 2016A	$ 15,135,000
Severance Tax Bonds, Series 2016D	11,720,000
Severance Tax Bonds, Series 2017A	17,305,000
Severance Tax Bonds, Series 2018A	44,045,000
Severance Tax Bonds, Series 2020A	55,850,000
Severance Tax Bonds, Series 2021A	208,925,000
Severance Tax Bonds, Series 2022A	195,815,000
Severance Tax Bonds, Series 2022B	220,140,000
Severance Tax Bonds, Series 2025A	235,100,000
Severance Tax Bonds, Series 2026A	357,320,000
Total	$1,361,355,000

[1] Upon issuance of the Bonds.
Source: New Mexico State Board of Finance

Additional Senior Severance Tax Bonds may be issued in the future only if certain statutory conditions as to debt service capacity are met. See "THE SEVERANCE TAX BONDS—Security for the Bonds."

Outstanding and Additional Supplemental Severance Tax Bonds

Supplemental Severance Tax Bonds are authorized pursuant to an amendment to the Severance Tax Bonding Act enacted in 1999. Supplemental Funding Notes are issued if the debt service on such Supplemental Funding Notes, when added to the debt service previously paid or scheduled to be paid during that fiscal year on Senior Severance Tax Bonds, Senior Funding Notes, Supplemental Severance Tax Bonds and any other Supplemental Funding Notes, did not exceed 86.2 percent of the deposits into the Bonding Fund as determined by the lesser of the deposits during the preceding fiscal year or the deposits during the current fiscal year as estimated by the Division. The Board has been authorized by statute to issue Supplemental Severance Tax Bonds and Supplemental Funding Notes for public school projects in amounts certified to the Board from time to time by the Public School Capital Outlay Council of the State, the Public Education Department Secretary, or other entities or institutions, as determined by the legislature. The lien of the pledge of such Supplemental Severance Tax Bonds and Supplemental Funding Notes is subordinate to any Senior Severance Tax Bonds. As of the date of this Official Statement, the State does not have any Supplemental Severance Tax Bonds outstanding.

[Remainder of Page Intentionally Left Blank]

Severance Tax Bonding Fund and Debt Service Requirements

Severance tax receipts contributed 91.8 percent of total revenue to the Severance Tax Bonding Fund in Fiscal Year 2025, with the remainder attributable to interest earnings and reversions. Severance taxes are almost entirely attributable to natural gas, crude oil and coal sales. Natural gas and crude oil together accounted for 99.9 percent of total Fiscal Year 2025 severance tax receipts as shown in Table 4. This percentage is calculated net of Intergovernmental Tax Credits.

The following tables set forth actual and projected results for the Bonding Fund including receipts, disbursements, debt service requirements, transfers and projected debt service coverage ratios.

Ending Balance, June 30	$239,548	$ 397,393	$ 435,268	$ 429,881	$ 383,482

[1] All receipts, expenditures and balances exclude amounts in rebate accounts retained for potential arbitrage rebates. Figures may not add due to rounding.
[2] Proceeds and expenditures attributable to refunding bonds are excluded from this table because such proceeds and expenditures are reserved for payments on appropriate refunding bonds and are not available for debt service payments on other Severance Tax Bonds.
[3] Reflects severance taxes collected and accrued on a cash basis. Effective July 1, 2017, the State began accounting for such receipts on a modified accrual basis. All severance tax collections in this official statement are shown on a cash basis. Fiscal year revenues and expenditures are subject to change through the first half of the following year due to accounting for revenues and expenditures at the end of fiscal year closing.
[4] The Board issues short-term Severance Tax Notes and Supplemental Severance Tax Notes to fund authorized projects. The notes are sold to the State Treasurer and retired within the same Fiscal Year.

See also, "NATURAL GAS PRODUCTION AND SEVERANCE TAX REVENUE—Projections of Severance Tax Revenues from Natural Gas" and "OIL PRODUCTION AND SEVERANCE TAX REVENUE—Projections of Severance Tax Revenues from Oil" herein.

Table 6 shows projected coverage ratios for outstanding Severance Tax Bonds as of May 1, 2026, including outstanding bonds and estimated debt service on the Bonds. The severance tax revenue outlook is prepared by the Department of Finance and Administration (the "DFA") using analysis by the Consensus Revenue Estimating Group ("CREG"), which includes economists from both the Legislative and Executive branches of New Mexico government, as well as forecasts by the U.S. Energy Information Administration, the IHS Global Insight and Moody's Analytics forecasting services and public information about NYMEX futures contracts. Global oil and gas prices continue to experience significant market volatility. Accordingly, revenue projections are subject to continuing review.

See also, Table 5 entitled "Severance Tax Bonding Fund Projected Receipts" above.

SEVERANCE TAX REVENUE

The minerals extracted from the State that contribute the largest portion of Severance Tax revenues are natural gas, crude oil and coal. Severance Taxes from natural gas and crude oil together accounted for 99.9 percent of Fiscal Year 2025 Bonding Fund tax receipts. This percentage is calculated net of applicable intergovernmental tax credits.

The State's Energy, Minerals, and Natural Resources Department ("EMNRD") records and generates data on mineral resources in the State. EMNRD produces annual reports on the State's mineral resources. The TRD (previously defined) compiles reports of taxable volume, value, deductions and tax receipts by commodity and land type. The State Consensus Revenue Estimating Group ("CREG") is composed of economists from the executive and legislative branches of New Mexico state government. CREG's annual production estimates are made jointly by the DFA, the TRD, the Department of Transportation and the Legislative Finance Committee. The DFA uses these price and volume estimates as well as national price forecasts to project Severance Tax receipts. See "APPENDIX C—FORM OF ATTORNEY GENERAL'S NO LITIGATION LETTER" for a discussion of pending litigation and other proceedings concerning the collection of Severance Taxes.

Severance Tax Collections and Reporting

Operators, purchasers and working interest owners are required to submit monthly reports to the TRD showing the total value, volume and kind of products sold from every production unit each month. Taxes must be paid at the time the report is submitted and are due 55 days after the month of production. Each production report must be accompanied by a company identification number, which facilitates automated processing of return information. Production and associated tax liability are reported by "production unit" and a designation for a well or group of wells that is assigned by the TRD based on the master operation, property name identification and pool. A suffix is added to the production unit number

to designate the specific land type and taxing authority, including county, school district and municipality. Fluctuations of oil and gas prices and other economic factors will impact the collection of severance taxes by TRD.

Complete reporting forms must be mailed or delivered, or their information electronically transmitted, on or before the 25th day of the second month after the calendar month for which the report is required. Taxpayers whose total tax liability for the month (including the oil and gas emergency school tax, the oil and gas conservation tax and the oil and gas ad valorem tax, as well as the oil and gas severance tax) exceeds $25,000 must provide payment by automated clearinghouse or by wire transfer on or before the due date. Taxpayers who fail to report or pay in a timely fashion are assessed interest at the rate established for individuals under Internal Revenue Code Section 6621 computed on a daily basis beginning the day after the due date and continuing until the date the tax is reported or paid. A penalty is assessed at a rate of 2 percent per month, up to a maximum of 20 percent of the tax due, when a taxpayer fails to pay any tax or file any report by the due date because of negligence or disregard of rules and regulations.

The State maintains an automated tax database system, which previously had been under the ONGARD (Oil and Natural Gas Administration and Revenue Database) system and now resides in the GenTax system. TRD integrated the collective oil and gas severance taxes (including the natural gas processors tax) into the GenTax system in March 2018. With the inclusion of oil and gas taxes, GenTax now manages 29 tax programs with consistent business processes. Tax returns are pre-screened to ensure quality and completeness before acceptance by TRD, which expedites distributions to correct beneficiaries. Oil and gas taxpayers have increased electronic management of their account activity through the Taxpayer Access Point ("TAP"), which allows for immediate posting of returns and amendments and report access of how payments are allocated. Some ONGARD functions remain at the State Land Office in the processing of royalty payments due to the State.

Severance taxes received by the TRD are deposited into the Extraction Tax Suspense Fund. Using the GenTax system, the TRD reconciles monthly information reports with the payments received to identify the appropriate amounts to distribute to each tax beneficiary. Oil and gas severance tax amounts that have been reconciled and as to which TRD has determined no substantive risk of protest or litigation is present are then transferred monthly to the Severance Tax Bonding Fund.

In Fiscal Year 2019, New Mexico operators resumed regular production and reporting of helium. Prior to 2019, there was sporadic production in 2006 through 2008, and again in 2013 and 2018. Helium is taxed at 3.75 percent per mcf produced under the Oil and Gas Severance Tax Act, at 0.19 percent under the Oil and Gas Conservation Tax Act, at 3.15 percent under the Oil and Gas Emergency School Tax Act, and on the value of assessed products under the Oil and Gas Ad Valorem Production Tax Act whose tax rates vary by tax district. Since December 2021, no further helium production has been reported.

Economic Conditions Impacting Severance Tax Collections

The impacts of the pandemic on global supply chains, tourism, business travel, and labor markets have largely diminished. According to Rystad Energy ("Rystad), the oil and natural gas industry is now in the "Shale 4.0" phase. During this phase, producers are focusing on scale, long-term planning, and consolidation through major acquisitions while moving away from the faster-growth-oriented model that characterized the shale revolution. This shift reflects a maturing sector that is less focused on rapid expansion and more focused on long-term production strategies and sustainable cash flow.

The December 2025 consensus estimate anticipates that oil prices will moderate due to strong supply and softer demand. It also projects that production growth will continue, though at a slower pace, over the next several years. Under this forecast, New Mexico oil production is expected to reach

820 million barrels, 840 million barrels, and 855 million barrels in Fiscal Years 2026, 2027, and 2028, respectively. The latest revenue forecast indicates that a $1.00 change in the price of oil generally results in a direct impact of $57 million on gross severance tax and federal mineral leasing revenue to the General Fund. Similarly, a $0.10 change in the price of natural gas results in a direct impact of $29.1 million in these revenues.

In Fiscal Year 2025, New Mexico reached a record oil production level of 781.2 million barrels and averaged $69 per barrel. In October 2025, the state recorded its highest oil production in history at 2.34 million barrels per day. Much of New Mexico's natural gas production is associated gas, meaning natural gas produced alongside oil. In Fiscal Year 2025, New Mexico produced 4,000 billion cubic feet of natural gas and averaged a price of $3.19 per thousand cubic feet.

New Mexico has positioned itself to stabilize direct oil and gas revenues flowing to the General Fund while investing excess revenues generated during periods of elevated prices. Senate Bill 26 ("SB 26"), enacted during the 2023 legislative session, capped oil and gas emergency school tax and federal mineral leasing revenues to the General Fund at Fiscal Year 2024 levels. Beginning in Fiscal Year 2025, any revenue above the cap is deposited into the Early Childhood and Care Fund and the Severance Tax Permanent Fund ("STPF"). This legislation, along with House Bill 83 ("HB 83") from 2020, which established the Early Childhood and Care Fund, is intended to gradually reduce the General Fund's exposure to oil and natural gas price volatility. SB 26 also strengthens the STPF corpus and its future earnings for the General Fund. Together, the annual distributions from these permanent funds provide a more stable and less volatile revenue source, helping to offset the cyclical nature of the oil and gas industry.

The state began Fiscal Year 2026 with reserves at 31.1 percent and is projected to end the fiscal year with reserves at 31.8 percent, after accounting for legislative and executive actions taken during 2026.

Overall, recurring General Fund revenues are projected to continue growing in Fiscal Year 2026, although at a slower pace than in prior years. According to the December 2025 consensus revenue forecast, recurring revenues for Fiscal Year 2026 are estimated at $13.4 billion, a decline of 1.6 percent from Fiscal Year 2025. Interest earnings from the Land Grant Permanent Fund, Severance Tax Permanent Fund, and State Treasurer's Office are projected to increase by $145 million, or 7.0 percent, and general sales tax revenues are expected to grow by $156.4 million, or 3.6 percent. The overall reduction in recurring revenue is driven primarily by state legislative changes taking effect and, more significantly, by federal legislation enacted in 2025 (H.R. 1-Public Law 119-21), which is expected to reduce corporate income tax collections. This decline is partially offset by higher State Land Office revenues in Fiscal Year 2026. Policy changes in 2024-2025 created pent-up demand for high-value leases and opened previously restricted state lands, resulting in record bonus payments during monthly auctions in late 2025. As a result, State Land Office revenue for Fiscal Year 2026 is projected at $511.9 million, which is $362.6 million above the typical annual estimate of $149.3 million. This increase is considered a one-time, nonrecurring spike. Total revenues for Fiscal Year 2026 are estimated at $13.7 billion, representing a modest increase of 0.9 percent over Fiscal Year 2025. Total revenues for Fiscal Year 2027 are projected to rise to $13.9 billion, an increase of 1.2 percent over Fiscal Year 2026.

For Fiscal Year 2026, the December 2025 consensus estimate anticipated moderating oil prices due to strong global supply, softer demand, and near-term economic uncertainty. New Mexico oil production is still expected to grow, but at a more measured pace as the industry enters the "Shale 4.0" era, defined by consolidation, long-term planning, and a greater emphasis on cash flow than on rapid output growth. Overall, the oil and gas sector appears to be maturing and shifting toward a more stable, slower growth trajectory.

The consensus estimate referenced above was developed before the Iranian-U.S. conflict began on February 28, 2026. Rystad Energy's March 2026 analysis suggests that the conflict-driven spike in oil prices would support New Mexico oil production, although the response would likely be delayed rather than immediate. The firm notes that sustained higher prices could gradually bring additional rigs back into the Permian, with at least 20 rigs expected across the basin if prices remain above $90 per barrel. On the New Mexico side, rig activity increased by about 15 percent in the fourth quarter of 2025 (i.e.,13 rigs) which Rystad says could support stronger turn-in-line activity beginning in the second quarter of 2026 and contribute approximately 129,000 barrels per day of oil output growth in 2026.

At the same time, the reports emphasize significant near-term constraints. Rystad notes that the Permian's depleted DUC inventory, the typical six- to eight-month development cycle, operator caution, and associated gas takeaway limitations will restrain any rapid production surge. In the broader Permian, Delaware Basin growth on the Texas side is expected to weaken as a result of recent rig reductions, while infrastructure bottlenecks and weaker pricing continue to limit upside across the basin. Taken together, the conflict may improve the price environment for New Mexico producers, but meaningful production gains would likely depend on sustained high prices that justify continued drilling and completions.

Moody's Analytics also revised its oil price outlook sharply upward in April 2026 due to the expanding conflict between the United States and Iran. Moody's Analytics assumes a protracted normalization period, with the energy price shock taking nearly two years to fully unwind. Prices are expected to normalize by late 2027 at approximately $75 per barrel. This estimate reflects a $70 breakeven price, representing the cost of producing the marginal barrel in the U.S. Permian Basin, plus a $5 risk premium. Structural cost pressures are expected to keep long-term prices higher than previously anticipated, including extensive damage to energy assets such as Qatar's Ras Laffan LNG plant, which may take three to five years to repair, persistently higher insurance costs, and the potential for new transit fees on vessels passing through the Strait of Hormuz. It is important to note, however, that oil prices remain inherently volatile and subject to a high degree of uncertainty. Geopolitical developments, market sentiment, and supply disruptions can lead to rapid and significant price swings in either direction, which may materially alter these projections.

Legislative protections insulate the General Fund from price downturns while also limiting volatility during periods of higher prices. As a result, the primary beneficiaries of elevated oil prices are other state funds, including the Early Childhood Trust Fund, Medicaid Trust Fund, Behavioral Health Trust Fund, and the Severance Tax Permanent Fund.

Severance Tax on Indian Land

The State can tax non-Indian oil and natural gas production on tribal land, according to *United States Supreme Court precedent in Cotton Petroleum Company v. State of New Mexico*, 490 U.S. 163, 104 L. Ed. 2d 209, 109 S. Ct. 1968 (1989). The State's authority to impose severance taxes on non-Indian oil and natural gas production on tribal land was upheld by the United States District Court in New Mexico in *Jicarilla Apache Tribe v. New Mexico Taxation and Revenue Department*, No. USDC 87-922. In 2009, the United States District Court for the District of New Mexico held that the State may not impose severance taxes on non-tribal operators extracting oil and natural gas on the tribal land of the Ute Mountain Ute Tribe. *Ute Mountain Ute Tribe v. Homans*, 775 F. Supp. 2d 1259 (D.N.M. 2009) (Parker, J.). The Tenth Circuit Court of Appeals overturned the district court opinion and held that the State severance taxes are not preempted by federal law because, among other things, the State had asserted sufficient justification for imposing the taxes. *Ute Mountain Ute Tribe v. Rodriguez*, 660 F.3d 1177 (10th Cir. 2011). The Ute Mountain Ute Tribe petitioned for an *en banc* review, which the court denied on September 12, 2011. The United States Supreme Court denied the Ute Mountain Ute Tribe's petition for a writ of certiorari on February 21, 2012. *Ute Mountain Ute Tribe v. Padilla*, 132 S.Ct. 1557 (2012).

Aggregate data reporting accessible on the TRD's TAP website based on oil and gas tax return data indicates that natural gas production and crude oil production on Indian land was approximately 3.6 percent and 0.3 percent, respectively, of total statewide production in Fiscal Year 2025. The TRD estimates that oil and natural gas production on Indian land generated $10.3 million in severance tax revenues to the State in the production months corresponding to Fiscal Year 2025. On December 30, 2014, the Navajo Nation completed the purchase of the Navajo Mine. As a result, there has not been any coal production from the mine reported to the TRD since such purchase. No potash, copper or CO2 is produced on Indian land.

Section 7-29C-1 NMSA 1978, enacted by the 1995 Legislature, authorized a credit against State production and property taxes for similar taxes imposed by tribal governments. The credit applies to crude oil and natural gas from new wells drilled on or after July 1, 1995 on land within Indian reservation boundaries on March 1, 1995. The amount of the credit is 75 percent of the lesser of State taxes or tribal taxes imposed. If the applicable tribal taxes were raised after March 1, 1995, then the amount of the State's credit is lowered. The TRD website reports that total credits claimed under this provision were about $2.53 million in Fiscal Year 2025. About $1.27 million of these credits were applied against oil and natural gas severance tax liability. The Severance Tax Bonding Fund revenue projection assumes that this amount will grow slowly in the future.

The 2001 Legislature enacted Sections 7-29C-2, 7-9-88.2 and 9-11-12.2 NMSA 1978, which provided a similar 75 percent intergovernmental tax credit against severance tax and severance surtax on coal mined on the Navajo Nation.

Local Law Developments Regarding Oil and Gas

Several local governments in the State have proposed or adopted laws that could have the effect of limiting natural resource extraction in those jurisdictions. No local government in which a significant extraction of natural resources occurs has enacted laws limiting natural resource extraction.

To date, the proposal and enactment of local laws has not had a material effect on the amount of severance tax revenues collected by the State. While future actions by local governments relating to natural resource extraction are not predictable, litigation challenging any restrictive local enactments would be a likely consequence of such actions.

NATURAL GAS PRODUCTION AND SEVERANCE TAX REVENUE

Natural Gas Reserves and Well Completions

Table 7 presents the U.S. Energy Information Administration ("EIA") estimates of natural gas "proved reserves" in New Mexico over the years 2015 to 2023. This is the latest data available from the EIA as of June 25, 2025. Proved reserves are estimates of recoverable volumes under existing economic and operating conditions. They represent the narrowest measurement of energy resources. EIA updates its estimates to reflect new information, new discoveries, and production during the year. Increases due to revisions and new discoveries usually offset some or all of the decline due to current production.

New Mexico's proved natural gas reserves were estimated to be 47.16 billion cubic feet (bcf) at the end of calendar year 2024 (the most recent available), an increase from 45.43 bcf at the beginning of calendar year 2023. Production in 2024 was estimated to be 3.59 bcf. The current reserve estimate represents a New Mexico reserve-to-current-production ratio of 13:1 years.

The "proven reserves-to-production" ratio is a measure analogous to inventory-to-production for manufacturers. It represents the known resources that could be developed at today's prices. As is the case for other industries, oil and natural gas producers have to balance their need for adequate inventories with the cost of exploring and developing the reserves.

Replacement of reserves by new discoveries and further development of existing formations is a key component of the State's long-term production forecast. New discoveries and further development are expected to offset much of future production. Over time, technological improvements like horizontal drilling, directional drilling, and hydraulic fracturing have advanced the discovery of new reserves and the production capability for reserves. Accounting rules in place for 2008 and prior years required companies to calculate proved reserves based on end-of-year prices. New accounting standards adopted by the Securities and Exchange Commission now require companies to use an annual average price. Reserves are the amounts companies expect with reasonable certainty can be produced with current technology at current prices. Therefore, if prices increase, all other things being equal, reserves are expected to increase.

TABLE 7
New Mexico Natural Gas Reserves [1]
(natural gas numbers in billion cubic feet)

Calendar Year	Beginning Reserves	Net Additions/ Adjustments	Estimated Production	Ending Reserves
2015	16,426	308	1,297	15,437
2016	15,437	220	1,283	14,374
2017	14,372	7,805	1,319	20,858
2018	20,858	5,744	1,512	25,090
2019	25,090	387	1,758	23,719
2020	23,719	4,383	1,973	26,129
2021	26,129	7,722	2,283	36,134
2022	36,134	7,101	2,782	46,017
2023	46,017	(3,750)	3,165	45,432
2024	45,432	(1,861)	36,586	47,157

[1] As measured by wet after lease separation. Wet after lease separation represents the volume of natural gas that is marketable after exclusion of pentanes, hydrocarbons and nonhydrocarbons. The presence of these chemicals renders natural gas unmarketable.
Sources: Department of Finance and Administration, U.S. Energy Information Administration

According to the EIA, natural gas ending reserves have generally been increasing since the most recent EIA data was produced. The latest data is current through 2024.

Information on oil and gas drilling activity published by the Baker Hughes Company is presented in the graphs below. The Baker Hughes Company reports the number of drilling rigs actively exploring for oil and gas in the United States. Over the last decade, drilling activity in New Mexico has generally followed trends in the United States until 2016. Since 2006, drilling activity in the United States climbed steadily until the sharp decrease of energy prices in 2009. After the 2009 price drop, oil drilling rebounded strongly and at the time reaching new record levels near the end of 2014.

Drilling activity once again decreased sharply with a short lag following the decline in oil prices in 2014. Since 2015, oil prices remained relatively stable until early 2020. This, in combination with horizontal drilling, propelled New Mexico rigs to record highs in 2019. However, oil prices collapsed in March 2020 due to the loss of oil demand from the effects of the containment measures of the COVID-19 pandemic and the supply shock caused by the recent Saudi Arabia and Russia price war. With oil prices and oil demand collapsing, rig counts declined in 2020.

However, by 2022 the development of COVID-19 vaccines and the elimination of healthcare measures taken from 2020 through 2021 to mitigate the pandemic have caused oil demand to rebound causing stronger-than-expected oil price recovery.

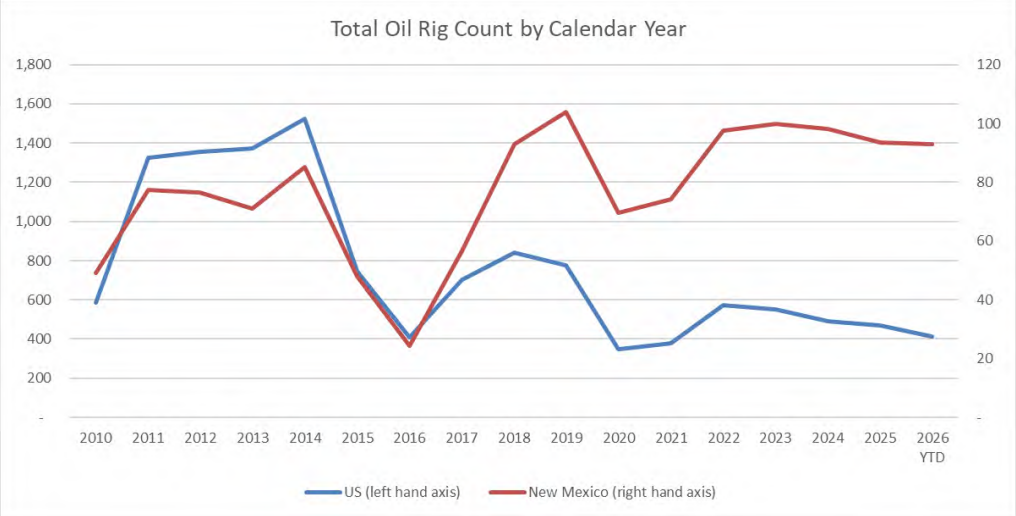
Between 2022 and 2025, New Mexico experienced a significant increase in natural gas production, primarily driven by sustained high levels of oil production in the Permian Basin. During this period, the state maintained robust drilling activity, with rig counts consistently exceeding 100 per month and averaging 103 rigs per month.

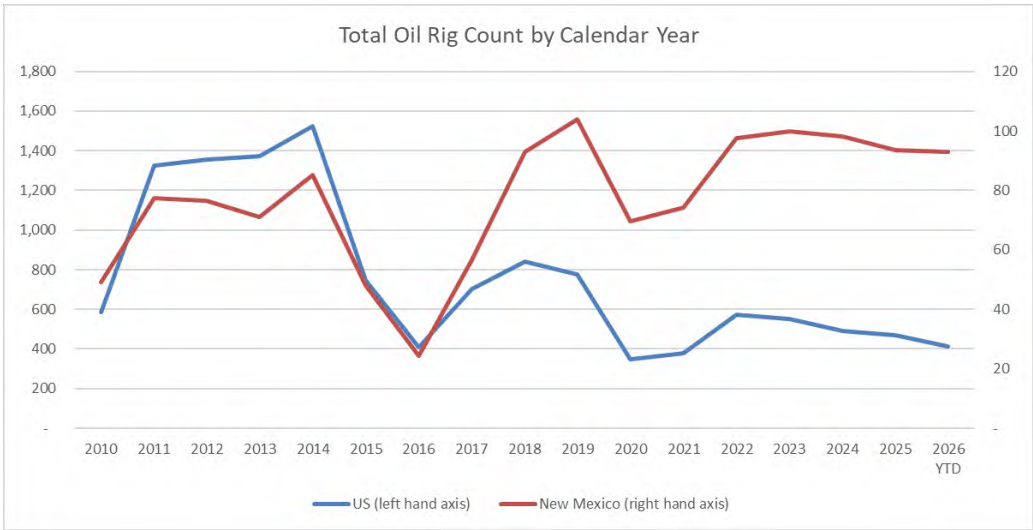
Two primary factors influenced this trend:

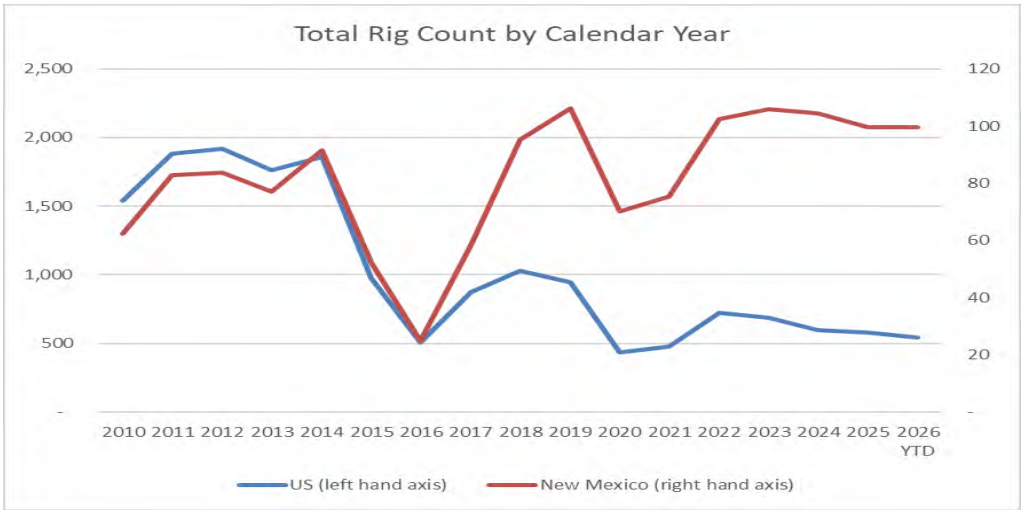
Associated Natural Gas from Oil Wells: The Permian Basin, which spans southeastern New Mexico and western Texas, is a major source of associated natural gas—natural gas produced as a byproduct of oil extraction. As oil production increased in response to favorable market conditions, so did the output of associated natural gas.

Technological Advancements: Improvements in drilling and extraction technologies, such as hydraulic fracturing and horizontal drilling, enhanced well productivity. These advancements allowed operators to extract more natural gas efficiently, contributing to the overall production growth.

According to data reported by the Baker Hughes oil rigs in New Mexico have remained at the 100 rigs mark from 2022 through April 2026.







Source: Department of Finance and Administration and Baker Hughes

By 2024, the impacts of the pandemic (2020) on global supply chains, tourism, business travel, and labor markets have largely diminished. Oil and natural gas markets have recovered and normalized. Additionally, according to Rystad Energy, the oil and natural gas industry is currently in the "Shale 4.0" phase. During this phase, producers are concentrating on establishing large-scale operations, long-term strategies, and consolidation through significant acquisitions, shifting away from the previous, more rapid growth-oriented approach of the "shale revolution." This trend indicates a maturing sector that is less focused on rapid growth and more on long-term production plans. See "SEVERANCE TAX REVENUE—Economic Conditions Impacting Severance Tax Collections."

Table 8 presents information on the number of natural gas well completions in New Mexico. Natural gas well completions have increased over the past several years from 353 in 2019 to 608 in 2025. In part this was a response to the correlation natural gas has to oil. As oil production increases or decreases, natural gas production follows. In addition, companies have shifted their attention to drilling oil wells because the relative value of oil compared with natural gas has increased dramatically in recent years. It should be noted that the Baker-Hughes data above illustrates there are three natural gas rigs in New Mexico

as of April 2025 because Baker-Hughes classifies rigs for what they are drilling for. In New Mexico producers are mainly drilling for oil; provided, however, they are also completing gas wells since some wells are more 'gassy' so that both oil wells and natural gas wells are being drilled by oil rigs.

TABLE 8
Number of Natural Gas Well Completions by Calendar Year

Calendar Year	Natural Gas Well Completions
2016	76
2017	160
2018	370

Natural Gas Markets

United States consumption of natural gas grew in all but one year between 1986 and 2002, reaching 23 trillion cubic feet (tcf) in calendar year 2002. From 2002 until 2006, total consumption remained flat despite the growing economy. Beginning in 2006, U.S. consumption began to grow, reaching 27.1 tcf in 2017. Since the fall of natural gas prices in 2009, the relatively low price of natural gas has led power generators to substitute natural gas for coal. According to the EIA, after peaking around 23.0 tcf in the mid-1970s, annual production of natural gas declined in response to falling prices to a low of 16.9 tcf in 1986. Since then, production has increased steadily in response to rising prices and technological innovations that have lowered production costs. EIA expects natural gas production to continue to grow. Total natural gas production in 2025 was 39.3 tcf.

Average annual natural gas values for the United States and New Mexico are presented in Table 9. The U.S. average references the spot price of natural gas at the Henry Hub pipeline terminal in Louisiana. This is the price typically reported in the national news media. Prices have declined from 2017 to 2020 due to the increased natural gas production associated with the boom in oil production. In 2022, rising domestic and international demand for natural gas—combined with global supply constraints—drove prices significantly higher. Prices began to normalize in 2023. Looking ahead, consensus estimates project a gradual increase in prices, driven by growing international demand for U.S. natural gas. Henry Hub spot prices and New Mexico prices are presented in Table 9.

TABLE 9
Henry Hub Spot vs New Mexico Average Wellhead Price by Fiscal Year
($ per thousand cubic feet)

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Henry Hub Spot Price	$2.34	$3.11	$3.06	$2.56	$2.03	$3.89	$6.45	$2.56	$2.47	$3.08
New Mexico Producers	2.42	3.26	3.40	2.95	1.93	3.50	7.14	5.39	3.25	3.19
NM as a percentage of Henry Hub	103.4%	104.8%	111.3%	115.2%	95.1%	90.0%	110.7%	210.5%	131.5%	103.6%

Sources: Department of Finance and Administration, U.S. Energy Information Administration

New Mexico average wellhead values have exceeded Henry Hub spot prices largely because the New Mexico average includes natural gas liquids, while Henry Hub prices represent "dry" gas only. Natural gas liquid products are used in refining, gasoline blends, home heating (propane) and a number of industrial applications such as the production of ethylene for plastics. As such, they are priced at a premium to dry gas and tend to track oil prices closely. New Mexico producers' wellhead prices in Fiscal Year 2025 were $3.19 per thousand cubic feet.

Natural Gas Production

Total natural gas production in New Mexico increased sharply in the early 1990s due to increased coal seam production in the San Juan Basin then steadily declined until 2011. Natural gas production from gas wells continued to decline at rates similar to previous years. Beginning in 2012, however, much of the decline in natural gas production from gas wells was offset by associated natural gas production from new oil wells in the Permian Basin. In Fiscal Year 2025, production totaled 4,018 bcf with prices decreasing to $3.19 resulting in gross sales revenue of an estimated $12.7 billion in Fiscal Year 2025. Taxable production volume, sales revenue, and average price per thousand cubic feet for Fiscal Years 2016 through 2025 are presented in the following table.

TABLE 10
Natural Gas Subject to Taxation
Production, Revenues and Average Price
Fiscal Years 2016-2025

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025

Severance Taxes on Natural Gas

Severance Taxes are levied by State statute on the sale or transport out of state of natural gas produced in the State. State taxation of minerals production for the General Fund began as early as 1933. The Severance Tax Bonding Act earmarked a portion of the existing severance tax to pay debt service on severance tax bonds, with remaining revenues previously going to the General Fund. The severance tax at that time was 2.5 percent of the marketable sales value, with deductions allowed for royalties to governments and for certain processing and transportation expenses. Beginning in 1973, the STPF was created, receiving excess severance tax revenues not required for debt service payments.

The tax rate was increased to 3.75 percent of value in 1974. Beginning in 1977, the tax rate was converted to a per unit basis, $0.05 per mcf of natural gas, with a deduction allowed for royalties to governments. A surtax was added, equal to the base tax rate times the percentage increase in the Consumer Price Index (CPI) from the base year. This surtax rate was updated annually. The base tax rate was increased to $0.087 per mcf in 1980, and the surtax provision continued to apply.

By July 1, 1986, the surtax had reached $0.076 and the total tax rate was $0.163 per mcf. With the sharp decline in wellhead natural gas prices in 1986, the effective severance tax rate was over 8 percent of gross sales value. The combined effective tax rate on natural gas production, including General Fund taxes, was over 11 percent, significantly higher than in neighboring natural gas-producing states. The 1987 Legislature responded to declining prices by converting the tax to 3.75 percent of value on a phased in basis. Beginning July 1, 1990, the new tax rate applied to all production.

In 1995, lower severance tax rates for certain categories of production were enacted. A 10-year exemption from Severance Taxes was provided for production from previously non-producing wells ("restoration"). A 50 percent rate reduction was provided for incremental production from a qualifying work over project ("recompletion").

In response to sharply lower oil prices and declining production of oil and associated natural gas, new severance tax incentives for production from recompletion wells and stripper wells were enacted in 1999. For natural gas, a stripper well is defined as one having average daily production of less than 60,000 cubic feet per day. For oil wells, the threshold is 10 barrels per day. Instead of a 50 percent rate reduction (from 3.75 percent to 1.875 percent) for the incremental production from recompletion wells, a tax rate of 2.45 percent was applied to all production from qualified wells. For stripper well production, the 1999 legislation introduced a sliding scale of applicable tax rates, depending on the prevailing taxable value of products.

Oil and Natural Gas Incentives

The following table summarizes incentive tax rates applied to various categories of oil and natural gas production in New Mexico as of Fiscal Year 2025. Although the State offers reduced severance tax rates for several categories of production, prices are expected to be above the statutory price threshold through the forecast period, so none of these incentives are assumed to apply. Should prices decline in the future, some of these incentives may become applicable again.

TABLE 12
Oil and Natural Gas Tax Incentive Programs

Incentive Category	Incentive Tax Rate	Threshold Price Below Which Incentive Rate Applies	Qualified Production As a Percent of Fiscal Year 2024 Total [1]
Production Restoration Project	0.00% [2]	$24.00 per barrel [3]	0.0% Oil 0.0% Natural Gas
Well workover wells	2.45%	$24.00 per barrel [3]	0.0% Oil 0.0% Natural Gas
Stripper wells	1.88%	$1.15 per mcf-Gas [4] $15.00 per barrel-Oil [3]	0.0% Natural Gas 0.0% Oil
	2.81%	$1.35 per mcf-Gas [4] $18.00 per barrel-Oil [3]	0.0% Natural Gas 0.0% Oil
Enhanced oil recovery	1.88%	$28.00 per barrel [2]	0.0% Oil

[1] No oil or natural gas volumes are expected to qualify for these incentives during the period because average taxable value exceeds the threshold levels.
[2] The incentive rate applies for 10 years after the restoration project is completed. Each year's production is tested against the threshold price.
[3] Twelve-month average price for West Texas Intermediate crude oil as reported on Oil Postings for last day of each month.
[4] Average annual taxable value of natural gas or oil sold in New Mexico during the preceding calendar year.

Projections of Severance Tax Revenues from Natural Gas

The natural gas price outlook is prepared by the DFA using analysis by CREG, as well as forecasts by the EIA, Moody's Analytics economic forecasting services, and public information about NYMEX futures contracts.

Prices declined from 2017 to 2020 due to increased natural gas production associated with the oil production boom. From 2020 to 2022, however, rising domestic and international demand—along with global supply constraints—drove prices significantly higher. Prices began to normalize in 2023 and 2024.

In Fiscal Year 2025, New Mexico producers received an average price of $3.19 per mcf, down from $3.25 in Fiscal Year 2024. Based on the latest consensus estimate, DFA assumed an average price of $3.74 per mcf for Fiscal Year 2026 and $4.58 per mcf for Fiscal Year 2027. The consensus outlook anticipates a gradual increase in prices, primarily driven by growing international demand for U.S. natural gas.

The severance tax base for natural gas is defined as the wellhead value less deductions for the expense of processing and transporting product to the first point of sale. In addition, deductions are allowed for royalties paid to governmental entities (federal, state and tribal). The deduction percentage has averaged around 28 percent to 40 percent in recent years, thus the rate used for the DFA's severance tax revenue forecast averages between 28 and 32 percent.

While dedicated natural gas drilling has slowed, production volumes remain at record levels due to associated gas from oil-heavy Permian Basin operations. New Mexico's severance tax revenues are now driven by oil, which continues to outweigh natural gas as a primary revenue source. In Fiscal Year 2025, oil production's taxable value grew by approximately 4.5 percent, rising from $48.9 billion to an estimated $51.1 billion. Furthermore, oil is projected to constitute roughly 88.2 percent of the state's total taxable value in Fiscal Year 2026.

The table below sets forth the DFA's December 2025 five-year projection for natural gas volume, price, and severance tax revenue deposits to the Severance Tax Bonding Fund for Fiscal Years 2027 through 2031.

TABLE 13
New Mexico Natural Gas Volume, Price and Severance Tax Projections [1]
Fiscal Years Ending June 30

	2027	2028	2029	2030	2031
Natural gas sales (bcf)	4,640	4,885	5,080	5,225	5,243
Average sales price ($ per mcf)	$4.58	$4.62	$4.34	$4.09	$4.23
Severance Taxes on natural gas (in thousands)	$568,514	$605,128	$583,639	$558,716	$583,669

OIL PRODUCTION AND SEVERANCE TAX REVENUE

Oil Reserves and Production

The table below presents the EIA's estimate of oil "proven reserves" from 2016 to 2023. This is the latest data available from the EIA as of the date of this Official Statement. Proven reserves are those a company believes with reasonable certainty can be produced with current technology at current prices. They represent the narrowest measurement of the country's energy resources. Each year the EIA updates its estimates to reflect new information, new discoveries and production during the year. The EIA reports on proven reserves of crude oil in the State on the basis of company surveys. Accounting rules in place for 2008 and prior years required companies to calculate proved reserves based on end-of-year prices. New accounting standards adopted by the Securities and Exchange Commission now require companies to use an annual average price.

Production in New Mexico remained relatively flat at around 60 million barrels annually from 2006 through 2008. Beginning in 2009, output began to rise steadily, reaching 147 million barrels by 2016. A significant production boom began in 2017, driven by the effectiveness of horizontal drilling techniques and favorable geology in the Permian Basin.

According to updated EIA and Table 14 data, estimated oil production in New Mexico increased from 172 million barrels in 2017 to 300 million barrels in 2019, representing a 74.4 percent increase. Production rose by 23.7 percent in 2020, reaching 371 million barrels, followed by a 24.5 percent increase in 2021 to 462 million barrels. Growth continued at a record pace in subsequent years, with production reaching 590 million barrels in 2022 (a 27.7 percent increase), 672 million barrels in 2023 (a 13.9 percent increase), and 774 million barrels in 2024 (a 15.2 percent increase). In 2025, 803 million barrels were produced (a 3.8 percent increase).

Due to New Mexico's highly efficient, high-producing wells and low breakeven prices, oil production has grown steadily from 2020 through 2025. In March 2021, New Mexico surpassed North Dakota to become the second-largest oil-producing state in the country. It has maintained this position to date, driven by the superior economics of the Delaware Basin (within the Permian Basin) compared to other national oil plays.

TABLE 14
New Mexico Oil Reserves
Crude Oil [1]

Year	Beginning Reserves	Additions/ Adjustments	Estimated Production	Ending Reserves
2016	1,581	(73)	147	1,655
2017	1,655	862	172	2,689
2018	2,689	501	249	3,439
2019	3,439	(1)	300	3,738
2020	3,738	(570)	371	3,539
2021	3,539	908	462	4,909
2022	4,909	689	590	6,188
2023	6,188	(285)	672	6,535
2024	6,535	(243)	774	7,036
2025	7,036	n/a	803	7,839

Note: EIA historical proved reserve estimates are subject to retroactive revision due to administrative reconciliation with finalized state data, incorporation of late or amended operator filings, updates to economic recoverability assumptions (e.g., prices and technology), and reporting harmonization changes associated with revised data systems.

[Remainder of Page Intentionally Left Blank]

Potential new development of oil resources is indicated by exploration and drilling activity. Secondary or tertiary recovery projects (water or carbon dioxide injection) typically require new development wells. The number of well completions are a partial indicator of increased exploration and drilling activity. Table 15 presents oil well completions during the period 2016 through 2025. The successful application of horizontal drilling, hydraulic fracturing, and longer average lateral leg length in the Permian Basin has resulted in significantly larger volume production per well.

TABLE 15
Number of Oil Well Completions
by Calendar Year

Severance Taxes on Oil

Severance Taxes are levied on oil on the basis of sales value at the time of either sale or transportation from the State. Information on oil sales occurring in the last ten Fiscal Years are presented in the following table.

TABLE 17
Oil Subject to Taxation
Production, Revenues and Average Prices
Fiscal Years 2016-2025

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Sales Volume (bbl in millions)	147.2	156.0	205.3	300.6	368.1	407.7	531.7	658.0	708.7	779.3
Gross Sales Revenues (millions)	$5,589	$6,988	$11,307	$15,471	$16,199	$20,620	$46,853	$53,055	$55,794	$53,959
Gross Average Price per bbl	$37.96	$44.81	$55.08	$51.47	$44.01	$50.58	$88.12	$80.63	$78.73	$66.69
Net Taxable Value [1] (millions)	$4,904	$6,150	$9,948	$13,615	$14,223	$18,17	$41,182	$46,485	$48,906	$47,180

[1] Data reflects estimates of revenue per product prior to adjustments for penalty, interest and other adjustments.
Source: New Mexico Taxation and Revenue Department, Tax Analysis, Research and Statistics Office

The severance tax rate on oil was increased to 3.75 percent of sales value in 1974. Beginning in 1977, the rate was converted to $0.45 per barrel, with a surtax indexed to the CPI. In 1980, the tax rate was converted back to 3.75 percent of value.

In 1992, a 50 percent reduction of the severance tax rate applied to oil produced through enhanced recovery methods was enacted. Enhanced methods include carbon dioxide miscible fluid displacement, water flood, pressure maintenance and thermal methods. The reduced rate applies to all production from an enhanced recovery project following certification of a positive production response by EMNRD's Oil Conservation Division.

In 1995, lower severance tax rates for certain categories of production were enacted. A 10-year exemption from severance tax was provided for production from previously non-producing wells ("restoration"). A 50 percent rate reduction was provided for incremental production from a qualifying work over project ("recompletion"). In 1999, the incentive program was expanded to include recompletion wells and a new incentive for stripper wells was enacted. Presently, no production qualifies for the incentive rates because the price of oil is above the statutory price threshold. The severance tax revenue forecast by the DFA assumes that the incentives will not apply into the near future.

Projections of Severance Tax Revenues From Oil

Volume of Production. Production of oil has increased in recent years, due to new technologies that facilitate access to oil deposits in tight shale, reaching 781.2 million barrels in Fiscal Year 2025. The December 2025 consensus volume includes an increase in annual production of 5 percent for Fiscal Year 2026 to 820 million barrels.

Both EIA and Rystad data confirm that oil production in New Mexico remained robust through 2025, solidifying the state's position as the second-largest oil producer in the U.S. since 2021. According to EIA data, New Mexico accounted for 16.5 percent of total national oil production in 2025.

In the current "Shale 4.0" phase, most operators in the Permian Basin are pursuing modest growth strategies. As a result, the latest consensus forecast anticipates moderate year-over-year production increases, with volumes expected to rise by 5 percent to 820 million barrels in Fiscal Year 2026 and by 2.4 percent to 840 million barrels in Fiscal Year 2027.

Prices. Over the past ten fiscal years, the weighted average annual oil price received by New Mexico producers has ranged from a low of $44.81 in Fiscal Year 2017 to a high of $88.12 in Fiscal Year 2022. In Fiscal Year 2025, the gross average price per barrel was $69. The December 2025 consensus forecast for Severance Tax revenue assumes an average oil price of $58 per barrel in Fiscal Year 2026 and $57.50 in Fiscal Year 2027.

These fiscal year price forecasts reflect sales prices from April through March due to a lag in distribution of revenues to the Bonding Fund. Like natural gas, certain deductions for transportation and royalties are available for oil producers. The deduction percentage has averaged close to 12.3 percent in recent years, which is the assumed rate in the severance tax revenue forecast.

Revenues. The table below sets forth the DFA's December 2025 consensus five-year projection for oil volume, price, and severance tax receipts to the Severance Tax Bonding Fund for Fiscal Years 2026 through 2030. This forecast does not incorporate the potential impacts of elevated oil prices or the uncertainty associated with the 2026 U.S.–Iran conflict. The forecasts are also net of the Intergovernmental Production Tax Credit.

TABLE 18
New Mexico Oil Volume, Price and Severance Tax Projections
Fiscal Years Ending June 30

	2027	2028	2029	2030	2031
Oil sales (million barrels)	780	810	835	835	835
Average price ($/barrel)	$68.00	$70.00	$70.50	$71.50	471.50
Severance Taxes on Oil (in thousands)	$1,744,353	$1,864,721	$1,936,005	$1,963,466	$1,963,466

COAL PRODUCTION AND SEVERANCE TAX REVENUE

Coal Reserves and Production

Coal production accounts for less than 1 percent of deposits into the Severance Tax Bonding Fund. The State's main coal-bearing strata are the Mesa Verde and Fruitland Formations in the San Juan Basin and the Raton and Vermejo Formations in the Raton area. Currently, all coal is being produced in the San Juan Basin. The quality of coal located in the State ranges from high-heat content bituminous coal to lower rank sub-bituminous coal. Coal found in the State is relatively low in sulfur content, ranging from 0.5 to 1.1 percent, compared to the national average of 1 to 2 percent. The State's coal varies widely in ash and moisture content. The majority of New Mexico coal is used for electrical generation.

According to the EIA, the State had the following estimated recoverable reserves in calendar year 2023 (the most recent available): 2,725 million short tons of underground coal and 3,969 million short tons of surface coal, for a total of 6,694 million short tons. Estimated recoverable reserves include the coal in the demonstrated reserve base considered recoverable after excluding coal estimated to be unavailable due to land use restrictions or currently economically unattractive for mining, and after applying assumed

mining recovery rates. The State had the following demonstrated reserve base in calendar year 2023: 5,991 million short tons of underground coal and 5,677 million short tons of surface coal, for a total of 11,668 million short tons. The demonstrated reserve base includes publicly available data on coal mapped to measured and indicated degrees of accuracy and found at depths and in coal bed thicknesses considered technologically minable at the time of determinations.

During Fiscal Year 2024, there were two mining companies producing coal in New Mexico: El Segundo Coal Company, LLC and Lee Ranch Coal Company. The San Juan Coal Company, owned by Westmoreland San Juan, LLC, a subsidiary of Westmoreland Coal Company, is in remediation work on its mines with no coal production. The El Segundo Coal Company and the Lee Ranch Coal Company are owned by Peabody Natural Resources, which has acquired contracts to produce coal in mines formerly operated by Chevron. Output from the Lee Ranch Coal Company was an estimated 0.2 million tons in Fiscal Year 2024, up from no production in Fiscal Year 2023. Since Fiscal Year 2017, there has been no reported taxable coal output from the mine through Fiscal Year 2021. In Fiscal Year 2024, the El Segundo Coal Company produced an estimated 2.7 million tons of coal, down 29 percent from Fiscal Year 2023. In December 2013, a fourth mine, the BHP Navajo Mine, was sold by BHP Billiton, the parent company of BHP Navajo Coal Company, to the Navajo Transitional Energy Company (NTEC), a Navajo Nation-owned company established for the purpose of acquiring the Navajo Mine. Output from the Navajo Coal Company was 8.5 million tons in Fiscal Year 2013, the last full fiscal year prior to the sale of the mine.

On April 13, 2016, Peabody Energy Corporation (and various affiliates and subsidiaries, including Peabody Natural Resources) filed a Voluntary Petition with the U.S. Bankruptcy Court under Chapter 11 of the U.S. Bankruptcy Code. See In re Peabody Energy Corp. (No. 16-42529, U.S. Bankruptcy Ct., E.D. Mo.). On March 17, 2017, the Bankruptcy Court confirmed the Debtors' Plan of Reorganization and Peabody Energy emerged from bankruptcy. The operations of the Lee Ranch and El Segundo Mines were not impacted by the filing. Peabody Energy has updated its financial assurance for the mines by replacing the self-bonds with surety bonds.

Currently, the El Segundo Coal Company has long-term coal agreements with Arizona Public Service Company and Tucson Electric Power. At the time that the El Segundo Mine commenced operations, the Tucson Electric Power Company expected to take 3 million tons per year for 20 years for its Springerville Generating Station, and Arizona Public Service Company expected to take as much as 4 million tons of coal per year for 19 years for its Cholla Generating Station in eastern Arizona. The Cholla Generating Station stopped producing electricity in March of 2025 on track for full closure but full shut-down is still not officially scheduled per reports. The Springerville Generating Station has several owners of its units, with Tucson Electric Power owning units 1 and 2. They have announced planned closure of those units in 2027 and 2032. Arizona Electric Power Cooperative and Western Fuel Association were supplied coal under shorter-term contracts. Western Fuel Association supplied and transported coal on its rail line from the El Segundo Coal mine to the Escalante Generating Station. The Tri-State Generation and Transmission Association announced in January 2020 the closure of the Escalante Generating Station near Prewitt, New Mexico, by the end of 2020. The Escalante Generating Station officially closed in August 2020 exhausting its final supply of coal. Due to the Western Fuel Association rail line, options exist for transporting coal from the El Segundo Mine to other possible consumers.

In December 2015, New Mexico's Public Regulation Commission approved by a 4-1 vote, a plan to reduce air emissions at the San Juan Generating Station in compliance with federal requirements under the Clean Air Act. The San Juan Generating Station is a mine-mouth (built close to a coal mine) power plant owned by the Public Service Company of New Mexico and other utilities. The plan included the installation of additional emission control technology at two coal-fired generating units, the retirement of two other coal fired generating units by year end 2017 and the construction of a natural gas power generator. The Public Service Company of New Mexico decommissioned the two coal-fired generating units as

scheduled in December of 2017. Nuclear power from the Palo Verde Generating Station in Arizona provides energy to make up for the loss from the two retired coal units. On April 1, 2020, the Public Service Company of New Mexico received a unanimous vote from the New Mexico Public Regulation Commission supporting its application to cease operations at the San Juan Generating station in 2022. A third coal-fired generating unit was retired in the second quarter of 2022. The final unit was retired in October 2022 with all operations then ceasing. In Fiscal Year 2022, Severance Taxes associated with the San Juan Generating station accounted for 40 percent of Severance Taxes collected from coal in the State (coal accounts for less than 1 percent of all Severance Taxes).

Severance Tax and Severance Tax Surtax Revenue on Coal

Severance taxes have been levied on coal production in New Mexico since 1937. The severance tax is set at a fixed rate of $0.57 per ton of surface coal and $0.55 per ton of underground coal. By statute, the surtax is calculated each year based on the Producer Price Index for coal and either increases or remains constant from the previous year. The surface-mined surtax rate of $1.28 per short ton and the underground-mined surtax rates of $1.23 per short ton have remained unchanged in Fiscal Years 2017 through 2025. In the last six years, all coal mined has always met exemptions from the surtax. These exemptions are the result of renegotiations of long-term mine-mouth contracts, which, under statute requirements, have resulted in all current coal production being exempt from the surtax. Table 19 sets forth data on coal production, prices, revenues and average tax rates for the past five Fiscal Years. The recent decline in sales volume is attributable to the closure of two electricity generating power plants in New Mexico who were fed by New Mexico coal mines. At the end of 2017, two of the four coal-fired units at the San Juan Generating Station ceased operations. The Escalante Power plant near Prewitt, New Mexico, then closed in August 2020 (which used coal from the El Segundo mine). The San Juan Generating Station ceased its remaining two coal-fired units and closed all operations in September 2022.

As reflected in the table, gross average prices have ranged during the last five Fiscal Years from a low of $30.90 per ton in Fiscal Year 2022 to a high of $51.95 per ton in Fiscal Year 2025. Output in short tons over the past five years has dropped from 7.9 million in Fiscal Year 2020 to 2.8 million in Fiscal Year 2024. No taxable coal was mined from underground mines in Fiscal Year 2025. Total coal sales are expected to continue to decline gradually due to increased competition from other electricity sources, environmental concerns, and closure of coal-fueled power plants. Sales and tax revenue reflect the drop in production and exemptions from the surtax. Fiscal Year 2025 tax revenues were $1.134 million, 44 percent lower than Fiscal Year 2024, following a 23 percent drop in coal production.

[Remainder of Page Intentionally Left Blank]

The table below sets forth data on coal production, pricing and average tax rates for the past five fiscal years.

TABLE 19
Coal Production, Prices, Revenues, and Taxes
Fiscal Years 2021 to 2025 [1]

	2021	2022	2023	2024	2025
Production:					
Total Sales Volume (tons)	6,556,724	6,143,271	4,261,754	2,873,711	1,989,530
Surface Mined Surtax Exempt	3,988,064	3,505,064	3,848,256	2,873,711	1,989,530
Surface Mined Non-Exempt	--	--	--	--	--
Underground Mined Surtax Exempt	2,568,660	2,638,207	413,498	--	--
Prices:					
Weighted Average Price per Ton for All Coal	$35.25	$30.90	$35.09	$39.06	$51.95
Sales Revenue:					
Total Sales Revenue	$231,150,580	$189,809,801	$149,549,148	$112,243,308	$103,361,408
Taxes Collected and Intergovernmental Tax Credits (ITC):					
Gross Severance Tax and Severance Surtax Due	$3,685,959	$3,448,899	$2,420,930	$1,638,016	$1,134,032
Intergovernmental Tax Credit (ITC)	--	--	--	--	--
Net Severance Tax and Severance Surtax Liability (Net of ITC)	$3,685,959	$3,448,899	$2,420,930	$1,638,016	$1,134,032
Effective Taxes (Net of ITC):					
Effective Tax Rate	1.6%	1.82%	1.62%	1.46%	1.10%
Effective Tax per Ton for all Coal (Net of ITC)	$0.56	$0.56	$0.57	$0.57	$0.57

OTHER MINERAL PRODUCTION AND SEVERANCE TAXES

Carbon Dioxide

The Bravo Dome CO2 field encompasses 1.2 million acres in Harding, Union and Quay Counties in the northeastern area of the State. It contains estimated resources of 16.3 trillion cubic feet ("tcf"), of which 7.0 tcf to 10.6 tcf are considered economically recoverable. Although the State has long produced limited quantities of liquid and solid CO2 for use in the food and the engineering industries, the main commercial value of CO2 deposits is derived from the use of the product in its gaseous form in enhanced oil recovery projects in the Permian Basin of Texas and New Mexico. Future sales ultimately will depend on the CO2 requirements of such projects and on the State's proportion of the market, which is shared with Colorado's Sheep Mountain and Little Sheep Mountain, McElmo Dome and Doe Creek Fields. Sales of CO2 were approximately 52.69 bcf in Fiscal Year 2025, decreasing from 59.7 bcf in Fiscal Year 2024. The weighted average wellhead price of CO2 sales for Fiscal Year 2025 was $1.05 per mcf reported at the production facility, a decrease of $0.07 from $1.12 per mcf during Fiscal Year 2024. Severance taxes on CO2 are levied at the rate of 3.75 percent of taxable sales value. Weighted average deductions were 39.9 percent in Fiscal Year 2025.

Other Minerals

Many other minerals and natural resources are taxed in the State upon their severance from the earth or, in some cases, their sale or shipment. Existing tax rates are listed in Table 20. In many cases, flat percentage deductions are allowed to account for certain production costs. The result is that the gross value is a percentage of the "full value." The "full value," in turn, is sometimes based upon published prices rather than actual revenues. Generally, for products with a price at the point of production, value is that price less deductions allowed for actual costs for hoisting, loading and crushing of up to 50 percent of price. For products that must be processed before sale, deductions are allowed for cost of processing and freight charges to the point of sale. Several exceptions apply, as detailed below.

For potash, the gross value is 40 percent of the posted field or market price, less those actual expenses of hoisting, crushing and loading necessary to place the severed product in marketable form and at a marketable price, but allowable deductions may not exceed 50 percent. The gross value for each type of potash and potash product requiring processing or beneficiation (other than sizing) is 33.33 percent of the proceeds realized from the sale of muriate of potash and sulphate of potash magnesia, as standard grades, and 33.33 percent of the value of such products consumed in the production of other potash products, less 50 percent of such reported value as a deduction for expenses of hoisting, loading, crushing, processing and beneficiation.

Gross values for copper, lead, zinc, gold and silver are 66.66 percent of specified Comex, London Metal Exchange cash price, London Metal Exchange Final and London spot, U.S. Equivalent, respectively, as published in Metals Week. The gross value for gold is the sales value established from published price date of the quantity of gold recoverable from the concentrate or other product that is sold or is shipped, transmitted or transported out of New Mexico without sale. The gross value for silver is 80 percent of the sales value established from published price date of the quantity of silver recoverable from the concentrate or other product that is sold or is shipped, transmitted or transported out of New Mexico without sale. For molybdenum, gross value is the value of molybdenum contained in concentrates shipped or sold from a mine site, but in no event shall it be less than market value. For copper, lead, zinc, gold, silver and molybdenum, deductions of 50 percent of the sales value are allowed for the expenses of hoisting, loading, crushing, processing and beneficiation, regardless of actual expenses incurred.

For sand and gravel, in the absence of substantial evidence of a different posted field or market price, it is presumed that the gross value is $1.75 per ton. In the absence of evidence of lower deductible expenses, the maximum 50 percent deduction will be allowed. In determining taxable value, rent and royalty payments to the federal government or the State government are deductible from gross value.

[Remainder of Page Intentionally Left Blank]

TABLE 20
Severance Tax Rates on Other Minerals

Mineral Resources	Fiscal Year 2024 Collections	Fiscal Year 2025 Collections	Tax Rate	Gross Value As Percent of Full Value
Potash	$863,685	$1,053,217	2.500%	not fixed
Copper	577,293	643,641	0.500	16.67%
Timber, Pumice, Gypsum, Clay, Fluorspar, Other	66,818	65,771	0.125	not fixed
Molybdenum [1]	--	--	0.125	50.00
Lead, Zinc	--	--	0.125	16.67
Gold	16,892	22,062	0.200	50.00
Silver	2,637	2,151	0.200	30.00
Uranium	--	--	3.500	50.00 [1]

[1] Taxable Value as a Percentage of Full Value.
Source: New Mexico Taxation and Revenue Department, Tax Analysis, Research and Statistics Office (the "GenTax System")

Severance tax revenue from copper, which is limited because of the statutorily defined narrow tax base, was $643,641 in Fiscal Year 2025, an increase from $577,293 in Fiscal Year 2024. The average price of copper was $4.93 per pound in Fiscal Year 2025, up about 7.25 percent from Fiscal Year 2024. The quantity of copper mined in Fiscal Year 2025 increased about 11.5 percent from Fiscal Year 2024. Severance tax revenue from copper increased approximately 11.64 percent with higher production offsetting higher copper prices.

OTHER TAXES OF NATURAL RESOURCES NOT PLEDGED

Rates for unpledged production and property taxes on New Mexico natural resources are summarized below. As discussed in prior sections of this Official Statement, proceeds from the Severance Tax and the Oil and Gas Severance Tax are pledged to the Bonding Fund for payment of interest, premium and principal of the Bonds. **Proceeds of other taxes shown below are not pledged to the payment of principal, premium, if any, or interest on Severance Tax Bonds.**

Production and Property Taxes on Oil and Natural Gas

The valuation of oil and natural gas production and the assessment of the ad valorem production tax are based on the actual value of production on a monthly basis from September 1 to August 31. Oil and natural gas are valued for the calendar year preceding the property tax year, as established in Section 7 32-15 NMSA 1978. For rate setting, the Local Government Division of the DFA may adjust the State levy for changes in oil and natural gas values.

Current effective production tax rates expressed on ad valorem and unit bases are shown below. The rates were based on data from Fiscal Year 2025 and reflect an average sales price of $69.21 per barrel for oil and $3.19 per thousand cubic feet (mcf) for natural gas. The gross rates presented in the table below show taxes paid as a percentage of gross sales value before subtracting allowable deductions and tax credits. The gross tax per unit is also based on gross sales value. The net tax per unit, however, is also based on taxable value before subtracting allowable deductions and tax credits.

TABLE 21
Tax Rates on Oil and Natural Gas
Effective Tax Rates Applicable for Fiscal Year 2025[1]

Type of Tax	Crude Oil		Natural Gas	
	Ad Valorem	Per Barrel	Ad Valorem	Per mcf
Price				
Oil and Gas School Tax	2.75%	1.91%	2.54%	$0.08
Oil and Gas Severance Tax	3.28	2.27	2.38	0.08
Oil and Gas Conservation Tax (General Fund only)	0.21	0.15	0.12	0.00
Natural Gas Processors Tax	N/A	N/A	0.23	0.01
Oil and Gas Production ad valorem Tax	1.0	0.69	0.72	0.02
Oil and Gas Production Equipment ad valorem Tax	0.23	0.16	0.14	0.01
Total [2]	7.48%	$5.89	6.13%	$0.20
Subtotal: State Tax Only (excludes *ad valorem* taxes and Natural Gas Processors Tax) [3]	6.24%	$4.32	5.04%	$0.16

[1] Excludes deductions and tax credits.
[2] Totals may not add due to rounding.
[3] Natural Gas Processors Tax is applied only to natural gas processed at natural gas processing plants in New Mexico.
Source: New Mexico Department of Taxation and Revenue

The Emergency School Tax rate of 3.15 percent imposed on natural gas was raised to 4 percent effective July 1, 1993. This action was taken partially to compensate for the large decreases in revenues due to the 1987 tax changes for natural gas. Further, it was believed that the tax increase was tolerable to the industry because of relatively higher prices. The School Tax rate imposed on crude oil continues to be 3.15 percent.

Statutory rates on oil for the Emergency School Tax (3.15 percent), the Oil and Gas Severance Tax (3.75 percent) and the Conservation Tax (0.19 percent) are effectively reduced by deductions allowed for trucking costs and for Federal, State and Indian royalties. In 2010, the Conservation Tax rate on oil was increased from 0.19 percent to 0.24 percent when the average price of WTI in the previous quarter exceeds $70.00 per barrel. The Oil and Gas Production Ad Valorem Tax and the Oil and Gas Production Equipment Ad Valorem Equipment Tax are imposed in lieu of property taxes on mineral reserves and equipment located on the leasehold. Tax rates applied to these tax bases are local rates and vary by jurisdiction. The Ad Valorem Production Tax is subject to the same deductions as for School Tax, Severance Tax and Conservation Tax. The tax base for the Oil and Gas Production Equipment Ad Valorem Tax is the wellhead price, not reduced by the value of royalties.

Production, Sales, and Property Taxes on Coal

State production and property taxes on coal totaled approximately $3.7 million in Fiscal Year 2025. Coal production decreased from approximately 2.9 million tons in Fiscal Year 2024 to 2.0 million tons in Fiscal Year 2025. The average effective tax per ton has remained flat at approximately $0.57. With total sales revenue of approximately $103 million in Fiscal Year 2025, the average effective tax was 3.35 percent of total sales revenue (this does not include the gross receipts tax).

The average burden of production, property and gross receipts taxes on a ton of coal produced and sold during Fiscal Year 2025 is shown in the following table.

TABLE 22
Tax Burden on Coal for Fiscal Year 2025 [1]

Type of Tax	Tax per Ton	Effective Tax Rate	Taxes Collected
Severance Tax and Surtax (Net of ITC)	$0.57	1.10%	$ 1,134,032
Resource Excise Tax	0.39	0.75	775,210
Conservation Tax	0.23	0.19	465,727
Total Production Taxes	$1.19	2.04%	$ 2,375,269
Property Tax2	$0.68	1.31%	$ 1,352,950
Gross Receipts Tax	5.02	9.67	9,993,309
Total Non-Production Taxes	$6.90	13.02%	$13,721,528
Total Production and Non-Production Taxes	$8.09	15.06%	$16,096,797
Price per Ton			$51.95
Total Production (Short Tons)			1,989,530
Total Value			$103,356,059

[1] The figures reported in this table come from TRD's GenTax System. These figures differ from actual distributions made by the TRD's Financial Services Bureau, as the distributions include penalties, interest, and other modifications such as previously unallocated or unidentified receipts. Total production is based on volumes reported on severance tax returns, which differ from the volumes reported on resource excise tax returns.
[2] Property tax year began September 1, 2024, with calendar year assessments completed by May 1 per statute.
Source: New Mexico Taxation and Revenue Department, Tax Analysis, Research and Statistics Office (the GenTax System, Financial Services Bureau and Property Tax Division's Central Assessment Unit)

Statutory rates for the resources excise tax and the conservation tax are effectively reduced by a deduction for federal, State and tribal royalties. The effective severance tax rate on coal reflects the mix of old and new contract sales and of underground and surface mines. Property tax pertains to both equipment and production values. Fundamental differences in tax bases preclude a true comparison between property taxes and other taxes shown above. However, property taxes are included in this analysis to prevent understating the tax burden.

In addition to production taxes, gross receipts tax is imposed on coal produced and sold within the State. During 2023, the most recent year for which data is available (Source: U.S. Energy Information Administration), 48 percent of all coal produced in the State was used by the producing company or sold to affiliate company and assumed to supply electric power plants in New Mexico. The remaining 52 percent was sold on the U.S. open market to other coal companies or consumers. In Fiscal Year 2025, 97 percent of all coal produced in New Mexico was subject to gross receipts tax. The combined state and local tax rate for Fiscal Year 2025 was 7.88 percent of taxable gross receipts.

Royalties, Rents and Bonuses

Federal Lands. Under terms of the 1920 Federal Mineral Leasing Act, the State receives 50 percent of all income generated from leasing federal lands located in the State for mineral production. Principal sources of income are royalty payments on oil and natural gas production. Additional income is derived from bonus payments for oil and natural gas leases and royalty payments on production of coal, potash and other minerals. The United States Department of the Interior's Office of Natural Resources Revenue (the "ONRR") collects federal mineral lease income and deducts two percent from the State's share for administrative costs. The State receives payments on a monthly basis and makes deposits to the

General Fund. At the end of the fiscal year, federal mineral receipts above the five-year average are transferred to the Early Childhood Trust Fund and the remainder was historically distributed to the General Fund. Following the passage of SB 26 (Chapter 22, Laws 2023), beginning in Fiscal Year 2025, the amount of federal mineral leasing payments the General Fund can receive will be capped at Fiscal Year 2024 levels, and any revenue above that amount, but below the five-year average, will be invested in the STPF. In Fiscal Year 2025, gross total distributions from federal mineral leases totaled $2.79 billion, of which $1.64 billion was distributed to the General Fund. The net federal mineral leasing distribution to the General Fund equals 12.1 percent of recurring General Fund receipts for the Fiscal Year. The $1.645 billion in Fiscal Year 2024 represents the fixed distribution amount to the General Fund going forward. In 2025 House Bill 71 temporarily reallocated 50% of the federal mineral receipts above the rolling five-year average to the newly created Medicaid Trust Fund. Beginning in Fiscal Year 2029, 100% of this excess revenue will return to the Early Childhood Trust Fund.

Federal Fiscal Year 2009 appropriations bills implemented a 2 percent administrative fee cut from the federal royalty payments to states. This 2 percent fee was extended each federal Fiscal Year since 2009 and extended for 10 years in the 2013 Bipartisan Budget Act. Approximately $11.6 million was deducted in Fiscal Year 2018, $22.9 million was deducted in Fiscal Year 2019, $16.3 million was deducted in Fiscal Year 2020, $16.2 million was deducted in Fiscal Year 2021, and $45.1 million was deducted in Fiscal Year 2022.

Royalty Resiliency Act: Impacts on Collections or Royalty Payments. In 2024, Congress passed into law the "Royalty Resiliency Act" (H.R. 7377), changing the way oil and gas leaseholders account for and remit royalties on federal lands. Previously, the ONRR determined the allocation of royalty payments among federal and state lands. After the effective date of the Royalty Resiliency Act (September 20, 2024), oil and gas leaseholders are to propose an allocation and remit royalties based on their proposed allocation until ONRR issues its determination of royalty allocations. While the allocation among such royalties in New Mexico was previously allocated approximately as two-thirds federal lands and one-third state lands, it is unknown if the allocation by leaseholders will be changed or, perhaps more importantly, delayed, while ONRR resolves a backlog of approximately 800 royalty allocation cases. While these state royalty payments are not pledged to any bonds or other debt obligations, these delays and changes to allocation methodology could impact contributions to state trust funds, although it is too soon to estimate the amount of such decreased royalty collections.

State Trust Lands. The Commissioner of Public Lands and the State Land Office manage lands acquired by the State under the federal Fergusson Act and the Enabling Act for New Mexico enacted prior to statehood, as well as under the State Constitution. All income from State trust lands is dedicated to specific institutions; each section of State trust land has a specific named beneficiary institution. As with federal lands, the oil and natural gas industry is the principal source of revenue from State trust lands. Bonus income is also collected in the form of cash payments as a result of competitive bidding for State leases. Rentals and bonus income are distributed directly to the respective beneficiary institutions on a monthly basis. The largest beneficiary group is the State's public school system. Mineral production from State trust lands also generates royalty income, which is deposited in the LGPF. Royalties are imposed on most mineral production values at the rate of 12.5 percent, although there is a provision for rates of up to 25 percent for new leases on developed acreage. LGPF beneficiaries and "State lands" beneficiaries are the same institutions and public schools. In Fiscal Year 2025, distributions to the General Fund from the State Land Office, on behalf of the public schools, totaled $101.4 million, a decrease of over $16 million over Fiscal Year 2024.

Most productive state trust lands are already under lease, with royalty rates ranging from 12.5% to 20%. However, Senate Bill 23 (2025) modified the royalty structure for new leases issued after July 1, 2025, increasing the upper limit of the range to 25%. While initial lease terms are five years, they can be

extended indefinitely as long as the land remains productive. As a result, the immediate impact of the new rates on production or revenue may be limited. Nevertheless, going forward as new leases are established SB23 is expected to generate additional revenue through the higher royalty rates, with estimated increases to the Land Grant Permanent Fund of approximately $50 million in Fiscal Year 2028 and $75 million in Fiscal Year 2029.

BOOK-ENTRY-ONLY SYSTEM

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that the State believes to be reliable, but the State takes no responsibility for the accuracy thereof.

The information in this section concerning The Depository Trust Company ("DTC") New York, NY and DTC's book-entry-only system has been obtained from DTC, and the State and the Underwriter takes no responsibility for the accuracy thereof.

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for the Bonds, as set forth on the inside cover page hereof, in the aggregate principal amount of each maturity of the Bonds and deposited with DTC.

The information in this section concerning The Depository Trust Company ("DTC") New York, NY and DTC's book-entry-only system has been obtained from DTC, and the State and the Underwriter takes no responsibility for the accuracy thereof.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation & Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as

periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book entry-system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants remain responsible for keeping accounts of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of the Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of the Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices will be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the State as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Bonds are to be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the State or Paying Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent or State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other name as may be requested by an authorized representative of DTC) is the responsibility of the State or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

A Beneficial Owner shall give notice to elect to have its Bonds purchased or tendered, through its Participant, to Tender or Remarketing Agent, and shall effect delivery of such Bonds by causing the Direct Participant to transfer the Participant's interest in the Bonds, on DTC's records, to Tender or Remarketing Agent. The requirement for physical delivery of the Bonds in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Bonds are transferred by Direct Participants on DTC's records and followed by a book-entry credit for tendered Bonds to Tender or Remarketing Agent's DTC account.

DTC may discontinue providing its services as securities depository with respect to the Bonds at any time by giving reasonable notice to the State or the Paying Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Bond certificates are required to be printed and delivered.

The State may decide to discontinue use of the system of book entry only transfers through DTC (or a successor securities depository). In that event, bond certificates will be printed and delivered to DTC.

THE STATE WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATION TO THE DTC PARTICIPANTS OR BENEFICIAL OWNERS.

SO LONG AS CEDE & CO., AS NOMINEE OF DTC, IS THE REGISTERED OWNER OF THE BONDS, REFERENCES HEREIN TO THE BONDHOLDERS OF THE BONDS WILL MEAN CEDE & CO., AND WILL NOT MEAN THE BENEFICIAL OWNERS OF THE BONDS.

When reference is made to any action which is required or permitted to be taken by the Beneficial Owners, such reference only relates to those permitted to act by State statute, regulation or otherwise on behalf of such Beneficial Owners for such purposes. When notices are given, they are to be sent to DTC, and the State does not have responsibility for distributing such notices to the Beneficial Owners.

The State does not have any responsibility or obligation to the DTC Participants or the Beneficial Owners with respect to (a) the accuracy of any records maintained by DTC or any DTC Participant; (b) the payment by DTC or any DTC Participant of any amount due to any Beneficial Owner in respect of the principal of and premium, if any, and interest on the Bonds; (c) the selection of the Beneficial Owners to receive payment in the event of any partial redemption of the Bonds; (d) any consent given or other action taken by DTC, or its nominee, Cede & Co., as Bond Owner; or (e) the distribution by DTC to DTC Participants or Beneficial Owners of any notices received by DTC as registered owner of the Bonds.

SUMMARY OF CERTAIN PROVISIONS OF THE BOND RESOLUTION

The following summarizes certain provisions of the Bond Resolution relating to the Bonds. This summary does not purport to be complete and reference is made to the Bond Resolution for a full and complete statement of its provisions.

Covenants

So long as any Bonds are outstanding, the State and the Board have covenanted and agreed with the Owners (defined in the Bond Resolution) of Bonds that: (a) the State will use its best efforts to collect and deposit in the Bonding Fund proceeds from Severance Taxes as set forth in the Severance Tax Bonding Act which, when combined with other amounts the State Legislature, in its sole discretion, may from time to time deposit in the Bonding Fund (including earnings required to be deposited in the Bonding Fund by Section 24 of the Bond Resolution and similar provisions of other bond resolutions of the Board relating to Severance Tax Bonds), will equal at least two hundred percent (200%) of the amount of the principal of

and interest scheduled to be due in each fiscal year of the State on Severance Tax Bonds, including the Bonds; (b) the State will promptly pay the principal of and the interest on the Bonds, at the places, on the dates and in the manner specified in the Bond Resolution and in the Bonds; (c) the State will keep proper books of record and account, separate and apart from all other records and accounts, showing complete and correct entries of all transactions relating to Severance Taxes, the Bonding Fund, each Project Account (defined in the Bond Resolution) and the Rebate Fund; (d) any registered Owner or Beneficial Owner of any of the Bonds or any duly authorized agent of such registered Owner or Beneficial Owner, shall have the right, at all reasonable times, to inspect all records, accounts and data relating to the Bonds, the collection of Severance Taxes and the Bonding Fund; provided, however, that pursuant to NMSA 1978, Section 6-14-10E (1983), records with regard to the ownership of or pledges of the Bonds are not subject to inspection or copying; (e) the State will prepare annual statements or audits of collections and disbursements of Severance Taxes in sufficient detail to show compliance with requirements of the Bond Resolution and the State will furnish a copy of such audit to any Owner of Bonds upon written request therefor; (f) in order to prevent any accumulation of claims for interest after maturity, the State will not directly or indirectly extend or assent to the extension of time for the payment of interest on any of the Bonds; (g) the State will make no use of the proceeds of the Bonds or any funds reasonably expected to be used to pay the Bonds which will cause the Bonds to be arbitrage bonds within the meaning of Section 148 of the Internal Revenue Code of 1986, as amended (the "Tax Code"), or which would result in the loss of the excludability from gross income for federal income tax purposes of the interest on the Bonds; (h) the State (i) will take or cause to be taken such actions which may be required of it for the interest on the Bonds to be and remain excludable from gross income for federal income tax purposes, and (ii) will not take or permit to be taken any actions which would adversely affect that excludability, and the State or persons acting for it, will, if necessary to maintain such excludability, among other acts of compliance, 1 apply, or cause to be applied, the proceeds of the Bonds to the purpose of the borrowing, 2 restrict the yield on investment property acquired with those proceeds, 3 make timely rebate payments to the federal government in accordance with Section 148 of the Tax Code and the Bond Resolution, 4 maintain books and records and make calculations and reports, and 5 refrain from certain uses of proceeds, all in such manner and to the extent necessary to assure such excludability of that interest under the Tax Code.

Defeasance

If the State shall pay all of the outstanding Bonds, or shall cause them to be paid and discharged in accordance with the next paragraph of this section, or if all payments of principal of and interest on the Bonds, due or to become due, shall otherwise be paid to the Owners of the outstanding Bonds, then the Bond Resolution shall cease and become null and void (except for those provisions surviving in accordance with the last paragraph of this section), and the covenants, agreements and obligations of the Board and the State under the Bond Resolution will be released, discharged and satisfied.

All or any part of the Bonds shall be deemed to have been paid and discharged if: (1) the Registrar/Paying Agent shall, in advance of any payment to the Owners of the outstanding Bonds, have received and set aside sufficient moneys for the payment in full of the principal of and interest on the Bonds, or part thereof, or (2) there shall have been placed in trust for the payment of the Bonds and irrevocably committed to such payment, non-callable Defeasance Obligations (defined below) which are certified by an independent public accounting firm of national reputation to be of such maturities or redemption dates and interest payment dates, and scheduled to bear such interest, as will be sufficient, together with any moneys on deposit with the Registrar/Paying Agent available to pay principal of and interest on the Bonds, without further investment or reinvestment of either the principal amount or the interest earnings on such Defeasance Obligations (which earnings are to be held likewise in trust and so committed, except as provided herein), for the payment in full of all principal of and interest on the Bonds, or part of the Bonds, deemed to have been paid, at their maturity.

As used in the Bond Resolution, "Defeasance Obligations" means, as permitted by law:

(a) direct obligations of, or obligations the full and timely payment of the principal of and interest on which is unconditionally guaranteed by, or obligations issued by or backed by the full faith and credit of corporations sponsored by, the United States of America;

(b) obligations issued or guaranteed as to full and timely payment of principal and interest by any agency or person controlled by and acting as an instrumentality of the United States of America, pursuant to authority granted by the Congress of the United States of America; and

(c) obligations described in Section 103(a) of the Tax Code (i) provisions for the payment of the principal of, premium, if any, and interest on which (1) shall have been made by the irrevocable deposit, with a bank or trust company acting as a trustee or escrow agent for holders of such obligations, of non-callable securities described in clauses (a) and (b) above, the maturing principal of and interest on which, when due and payable, without further investment or reinvestment, will provide sufficient moneys to pay when due the principal of and interest on such obligations, and (2) which securities described in clause (i) and (ii) are not available to satisfy any other claim, including any claim of such trustee or escrow agent or of any person claiming through such trustee or escrow agent or to whom such trustee or escrow agent may be obligated, including claims in the event of the insolvency of such trustee or escrow agent or proceedings arising out of such insolvency or (ii) rated by either S&P Global Ratings or Moody's Investors Service, Inc., or similar rating agency in its highest rating category (without regard to any refinement or gradation by numerical modifier or otherwise).

Any moneys held in trust in accordance with the defeasance provisions of the Bond Resolution may be invested only in non-callable Defeasance Obligations having maturity dates, or having redemption dates which, at the option of the holder of such Defeasance Obligations, shall not be later than the date or dates at which moneys will be required for the purposes described above. Within fifteen 15 days after any Bonds are deemed to be paid and discharged, a written notice of such deemed payment and discharge shall be given to each registered Owner of Bonds as shown on the registration books kept by the Registrar/Paying Agent on the date on which such Bonds are deemed paid and discharged. Such notice shall state the numbers of the Bonds deemed paid and discharged or state that all Bonds are deemed paid and discharged and set forth a description of the obligations held.

Notwithstanding that Bonds may be deemed to have been paid, any provisions of the Bond Resolution which relates to the maturity of Bonds, interest payments and dates thereof, exchange, transfer and registration of Bonds, replacement of mutilated, destroyed, lost or stolen Bonds, the safekeeping and cancellation of Bonds, non-presentment of Bonds, and the duties of the Registrar/Paying Agent in connection with all of the foregoing, shall remain in effect and be binding upon the State and the Registrar/Paying Agent until final payment of all Bonds notwithstanding the release and discharge of the Bond Resolution. Notwithstanding any provision of the Bond Resolution to the contrary, any provisions of the Bond Resolution which relates to the excludability of interest from gross income for federal tax purposes shall remain in effect and be binding upon the State and the Registrar/Paying Agent.

Amendment of Bond Resolution

The Bond Resolution may be amended or supplemented from time to time without the consent of or notice to the holders of the Bonds for any of the following purposes: (a) before or after issuance of the Bonds to add to, subtract from, or amend or clarify the list of Projects; (b) to cure any ambiguity, omission, formal defect or inconsistency; or (c) to make any change that, in the judgment of the Board, in reliance upon an opinion of counsel, does not have a material adverse effect on the rights of the Owners of any

Bonds; or (d) to achieve compliance with any applicable federal securities or tax laws or to ensure the excludability of interest on the Bonds from the gross income of the Owners of the Bonds for federal income tax purposes or the exemption from registration under applicable federal or state securities laws, trust indenture acts or similar laws.

Except as provided above, the Bond Resolution may only be amended or supplemented by resolution adopted by the Board in accordance with applicable law, with or without receipt by the State of any additional consideration, but with the written consent of the Owners of a majority in principal amount of the Bonds then outstanding; provided, however, that no such resolution shall, without the consent of the Owners of all outstanding Bonds, have the effect of permitting: (i) an extension of the maturity of any Bonds; or (ii) a reduction in the principal amount of, or the rate of interest on, any Bonds; or (iii) a reduction of the principal amount of Bonds required for consent to such amendatory or supplemental resolution; or (iv) the establishment of priorities as between Bonds issued and outstanding under the provisions of the Bond Resolution; or (v) the modification of, or otherwise affecting, the rights of the Owners of less than all of the Bonds then outstanding.

Remedies of Holders of Bonds

The registered Owners, or Beneficial Owners, of not less than twenty-five percent (25%) in aggregate principal amount of the Bonds then outstanding may bring an action to protect the rights of the registered Owners and Beneficial Owners of the Bonds under the Bond Resolution in any court of competent jurisdiction, for the specific performance of any covenant or agreement contained in the Bond Resolution or to enjoin any act or thing which may be unlawful or in violation of any right of any Owner of the Bonds. All such proceedings at law or in equity shall be instituted, had and maintained for the equal benefit of all Owners of the Bonds then outstanding. The failure of any registered Owner or Owners or Beneficial Owner or Beneficial Owners of Bonds to so proceed shall not relieve the State or the Board of any obligation to perform any duty under the Bond Resolution. Each right or privilege of such Owner and Beneficial Owner is in addition and cumulative to any other right or privilege, and the exercise of any right or privilege by or on behalf of any registered Owner or Beneficial Owner shall not be deemed a waiver of any other right or privilege.

Payment of Principal and Interest

The Bonds and the interest accruing on the Bonds shall be payable and collectible out of the Bonding Fund, which is pledged for such payment as provided in the Severance Tax Bonding Act. Interest on the Bonds shall be payable by check or draft mailed, or by Automated Clearing House or electronic payment sent, to their registered Owners, as shown on the registration books for the Bonds maintained by the Registrar/Paying Agent at the address appearing in such books at the close of business on the 15th day of the calendar month next preceding each applicable interest payment date (the "Record Date"), or, if such date is not a business day, the first business day thereafter, or in such other manner as may be agreed upon by the Registrar/Paying Agent and the registered Owner of a bond. Interest which is not timely paid or duly provided for shall cease to be payable to the Owners of the Bonds (or of one or more predecessor Bonds) as of the Record Date, but shall be payable to the registered Owners of the Bonds (or of one or more predecessor Bonds) at the close of business on a special record date (the "Special Record Date") for the payment of that overdue interest to be fixed by the Registrar/Paying Agent. The Special Record Date shall be fixed by the Registrar/Paying Agent whenever moneys become available for payment of the overdue interest, and notice of the Special Record Date shall be given to Owners of Bonds not less than 10 days prior to such date. The principal of and interest on the Bonds are payable upon presentation and surrender of the Bonds without deduction for exchange or collection charges at the office of the Registrar/Paying Agent. Principal of and interest on the Bonds are payable in lawful money of the United States of America.

If a Bond is not presented for payment at maturity, that Bond will cease to bear interest from the date of maturity.

While registered in the name of DTC or its nominee, payments of principal of and interest on the Bonds shall be made to DTC or its nominee as set forth in the Letter of Representations between DTC and the State.

Timing of Redemption Notices

Pursuant to the Bond Resolution, the Board shall give the Registrar/Paying Agent notice that Bonds will be called for redemption not less than thirty (30) nor more than forty-five (45) days prior to the redemption date. The Board will give, or cause to be given, notice of redemption to the owners of Bonds to be called for redemption by sending a copy of such notice by registered or certified first-class postage prepaid mail (or, where applicable, as otherwise specified by DTC for providing redemption notices) not less than thirty (30) nor more than forty-five (45) days prior to the redemption date to the registered owner of each Bond, to be redeemed at the address shown as of the fifth day prior to the mailing of notice on the registration books kept by the Registrar/Paying Agent. So long as a book-entry system is used for determining beneficial ownership of the Bonds, such notice of redemption will be given to DTC or any successor securities depository, or its nominee, as registered owner of the Bonds. Such notice shall be sent to DTC by a secure means as set forth in the Letter of Representations (defined below) from the Board and the Registrar/Paying Agent to DTC or as otherwise agreed to with DTC from time to time in a timely manner designed to assure that such notice is in DTC's possession at the time set forth in the Letter of Representations (defined below).

In addition, if the Bonds are not being held by DTC, notice of redemption shall be published at least once, not less than thirty (30) days nor more than sixty (60) days prior to the date of redemption, in a newspaper published and of general circulation in the State. Neither the notice, nor the Board's failure to give such notice to the Registrar/Paying Agent, nor the failure to publish such notice, shall affect the validity of the proceedings for the redemption of any Bonds for which proper notice was given by mail as set forth in this paragraph. All notices shall specify the maturity dates and the numbers of the Bonds to be redeemed (if less than all are to be redeemed), the date fixed for redemption, the redemption price to be paid and shall further state that on such redemption date there will become and be due and payable upon each Bond to be redeemed at the office of the Registrar/Paying Agent the unpaid principal amount of such Bond, or the portion of such Bond so redeemed, plus unpaid accrued interest on such principal amount to the redemption date and that from and after such date interest will cease to accrue on such principal amount. The notice of redemption shall also include additional provisions required by the Letter of Representations (defined below). Notice having been given in the manner provided, the Bond or Bonds called for redemption shall become due and payable on the redemption date designated and if an amount of money sufficient to redeem all Bonds or portions of Bonds called for redemption is on deposit with the Registrar/Paying Agent on the redemption date, the Bonds or portions of Bonds to be redeemed shall no longer be deemed to be outstanding and shall cease to bear interest from and after such redemption date. Upon presentation of any Bond redeemed at the office of the Registrar/Paying Agent, the redemption price of such Bond or Bonds shall be paid as set forth in this Bond Resolution.

TRANSCRIPT AND LEGAL OPINIONS

The Board will prepare an official transcript of proceedings of the authorization and issuance of the Bonds.

Legal matters incident to the issuance of the Bonds (see the form of opinion of Bond Counsel, attached hereto as Appendix D) are subject to the approving legal opinions of Rodey, Dickason, Sloan,

Akin & Robb, P.A. Bond Counsel to the State ("Bond Counsel"). The opinions expressed by Bond Counsel is based on existing law as of the delivery date of the Bonds. No opinion is expressed as of any subsequent date nor is any opinion expressed with respect to pending or proposed legislation. A copy of the proposed form of the opinion to be executed by Bond Counsel is attached hereto as Appendix D.

Legal matters incident to the excludability from gross income for federal and State income tax purposes of interest on the Bonds (see "TAX MATTERS" below and the form of opinion of Tax Counsel, attached hereto as Appendix E) are subject to the approving legal opinions of Taft Stettinius & Hollister LLP, Tax Counsel to the State ("Tax Counsel"). Certain legal matters will be passed upon for the State by Kutak Rock LLP, Disclosure Counsel. Certain legal matters will be passed upon for the State by the Office of the Attorney General of the State of New Mexico.

TAX MATTERS

In the opinion of Tax Counsel, assuming continuous compliance with certain covenants described below, interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Tax Code, and interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code; however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. For purposes of this paragraph and the succeeding discussion, "interest" includes the original issue discount on certain of the Bonds only to the extent such original issue discount is accrued as described herein.

The Tax Code imposes several requirements which must be met with respect to the Bonds in order for the interest thereon to be excluded from gross income and alternative minimum taxable income. Certain of these requirements must be met on a continuous basis throughout the term of the Bonds. These requirements include: (a) limitations as to the use of proceeds of the Bonds; (b) limitations on the extent to which proceeds of the Bonds may be invested in higher yielding investments; and (c) a provision, subject to certain limited exceptions, that requires all investment earnings on the proceeds of the Bonds above the yield on the Bonds to be paid to the United States Treasury. The Issuer covenants and represents in the Bond Resolution that it will not take any action or omit to take any action with respect to the Bonds, the proceeds thereof, any other funds of the Issuer or any facilities financed with the proceeds of the Bonds if such action or omission (i) would cause the interest on the Bonds to lose its exclusion from gross income for federal income tax purposes under Section 103 of the Tax Code, (ii) would cause interest on the Bonds to lose its exclusion from alternative minimum taxable income as defined in Section 55(b) of the Tax Code. Tax Counsel's opinion as to the exclusion of interest on the Bonds from gross income and alternative minimum taxable income is rendered in reliance on these covenants and assumes continuous compliance therewith. The failure or inability of the Issuer to comply with these requirements could cause the interest on the Bonds to be included in gross income, alternative minimum taxable income or both from the date of issuance. Tax Counsel's opinion also is rendered in reliance upon certifications of the Issuer and other certifications furnished to Tax Counsel. Tax Counsel has not undertaken to verify such certifications by independent investigation.

Section 55 of the Tax Code contains a 15 percent alternative minimum tax on the "adjusted financial statement income" of "applicable corporations" (as those terms are defined in Sections 56A and 59(k), respectively, of the Tax Code). "Applicable corporations" are generally corporations with average annual adjusted financial statement income over a three-year period of $1 billion or more. "Adjusted financial statement income" generally means the net income or loss of a corporation (including interest on the Bonds) as set forth on the corporation's applicable financial statement, adjusted as provided in Section 56A of the Tax Code. Corporations should consult their tax advisors about whether the corporation is an "applicable

corporation" and if the corporation is such an applicable corporation, about the calculation of "adjusted financial statement income" and the alternative minimum tax for the corporation.

With respect to any Bonds that were sold in the initial offering at a discount (the "Discount Bonds"), the difference between the stated redemption price of the Discount Bonds at maturity and the initial offering price of those bonds to the public (as defined in Section 1273 of the Tax Code) will be treated as "original issue discount" for federal income tax purposes and will, to the extent accrued as described below, constitute interest which is excluded from gross income or alternative minimum taxable income under the conditions described in the preceding paragraphs. The original issue discount on any Discount Bonds is treated as accruing over the respective terms of such Discount Bonds on the basis of a constant interest rate compounded at the end of each six-month period (or shorter period from the date of original issue) ending on January 1 and July 1 with straight line interpolation between compounding dates. The amount of original issue discount accruing each period (calculated as described in the preceding sentence) constitutes interest which is excluded from gross income or alternative minimum taxable income under the conditions and subject to the exceptions described in the preceding paragraphs and will be added to the owner's basis in the Discount Bonds. Such adjusted basis will be used to determine taxable gain or loss upon disposition of the Discount Bonds (including sale or payment at maturity). Owners should consult their own tax advisors with respect to the tax consequences of the ownership of the Discount Bonds.

Original issue discount may be included in "adjusted financial statement income" of "applicable corporations" for the purpose of the corporate alternative minimum tax imposed under Section 55(b) of the Tax Code for taxable years beginning after December 31, 2022. For this purpose, accrued original issue discount on the Discount Bonds may be deemed to be received and included in adjusted financial statement income in the year of accrual even though there will not be a corresponding cash payment. Applicable corporations should consult their tax advisors with respect to the appropriate timing and amount of original issue discount to include in "adjusted financial statement income" in any particular tax year.

Owners who purchase Discount Bonds after the initial offering or who purchase Discount Bonds in the initial offering at a price other than the initial offering price (as defined in Section 1273 of the Tax Code) should consult their own tax advisors with respect to the federal tax consequences of the ownership of the Discount Bonds. Owners who are subject to state or local income taxation should consult their tax advisor with respect to the state and local income tax consequences of ownership of the Discount Bonds. It is possible that, under the applicable provisions governing determination of state and local taxes, accrued original issue discount on the Discount Bonds may be deemed to be received in the year of accrual even though there will not be a corresponding cash payment.

The Tax Code contains numerous provisions which may affect an investor's decision to purchase the Bonds. Owners of the Bonds should be aware that the ownership of tax-exempt obligations by particular persons and entities, including, without limitation, financial institutions, insurance companies, recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, foreign corporations doing business in the United States and certain "subchapter S" corporations may result in adverse federal and state tax consequences. Under Section 3406 of the Tax Code, backup withholding may be imposed on payments on the Bonds made to any owner who fails to provide certain required information, including an accurate taxpayer identification number, to certain persons required to collect such information pursuant to the Tax Code. Backup withholding may also be applied if the owner underreports "reportable payments" (including interest and dividends) as defined in Section 3406, or fails to provide a certificate that the owner is not subject to backup withholding in circumstances where such a certificate is required by the Tax Code. Certain of the Bonds were sold at a premium, representing a difference between the original offering price of those Bonds and the principal amount thereof payable at maturity. Under certain circumstances, an initial owner of such bonds (if any) may realize a taxable gain upon their disposition, even though such bonds are

sold or redeemed for an amount equal to the owner's acquisition cost. Tax Counsel's opinion relates only to the exclusion of interest (and, to the extent described above for the Discount Bonds, original issue discount) on the Bonds from gross income and alternative minimum taxable income as described above and will state that no opinion is expressed regarding other federal tax consequences arising from the receipt or accrual of interest on or ownership of the Bonds. Owners of the Bonds should consult their own tax advisors as to the applicability of these consequences.

The opinions expressed by Tax Counsel are based on existing law as of the delivery date of the Bonds. No opinion is expressed as of any subsequent date nor is any opinion expressed with respect to pending or proposed legislation. Amendments to the federal or state tax laws may be pending now or could be proposed in the future that, if enacted into law, could adversely affect the value of the Bonds, the exclusion of interest (and, to the extent described above for the Discount Bonds, original issue discount) on the Bonds from gross income or alternative minimum taxable income or both from the date of issuance of the Bonds or any other date, the tax value of that exclusion for different classes of taxpayers from time to time, or that could result in other adverse tax consequences. In addition, future court actions or regulatory decisions could affect the tax treatment or market value of the Bonds. Owners of the Bonds are advised to consult with their own tax advisors with respect to such matters.

The Internal Revenue Service (the "Service") has an ongoing program of auditing tax-exempt obligations to determine whether, in the view of the Service, interest on such tax-exempt obligations is includable in the gross income of the owners thereof for federal income tax purposes. No assurances can be given as to whether or not the Service will commence an audit of the Bonds. If an audit is commenced, the market value of the Bonds may be adversely affected. Under current audit procedures the Service will treat the Issuer as the taxpayer and the Bond owners may have no right to participate in such procedures. The Issuer has covenanted in the Bond Resolution not to take any action that would cause the interest on the Bonds to lose its exclusion from gross income for federal income tax purposes or lose its exclusion from alternative minimum taxable income for the owners thereof for federal income tax purposes. None of the Issuer, the Financial Advisors, Bond Counsel or Tax Counsel is responsible for paying or reimbursing any Bondholder with respect to any audit or litigation costs relating to the Bonds.

The Bonds have not been designated as "qualified tax-exempt obligations" for purposes of Section 265(b)3 of the Code.

In the opinion of Tax Counsel, the interest on the Bonds is exempt from income taxation by the State.

A copy of the proposed form of opinion of Tax Counsel is attached hereto as Appendix E.

LITIGATION

At the time of the original delivery of the Bonds, the Board will deliver a no-litigation certificate to the effect that no litigation or administrative action or proceeding is pending, or, to the knowledge of the appropriate State officials, threatened, restraining or enjoining, or seeking to restrain or enjoin, the issuance and delivery of the Bonds, the effectiveness of the legislation authorizing the issuance of the Bonds, the levying or collecting of any taxes for the payment of the debt service on the Bonds (other than those cases described in Appendix C, which proceedings are not, in the opinion of the State Attorney General, reasonably expected to have a material effect on the bondholders), or contesting or questioning the proceedings and authority under which the Bonds have been authorized and are to be issued, sold, executed or delivered, or the validity of the Bonds.

The State is a party to various legal proceedings seeking damages or injunctive relief and generally incidental to its operations which proceedings are unrelated to the Bonds, and to the security therefor. The ultimate disposition of such proceedings is not presently determinable. Such proceedings are not, in the opinion of the State Attorney General, reasonably expected to have a material adverse effect on the Bonds or the security for the payment of the Bonds for the following reason: Severance Taxes are the primary source of payment for the Bonds which are limited obligations of the State. See Appendix C for a summary of litigation and administrative action or proceedings that impact Severance Taxes.

UNDERWRITING

The Bonds were purchased at a competitive sale on June 11, 2026 by Morgan Stanley & Co. LLC ("Morgan Stanley").

Morgan Stanley, an underwriter of the Bonds, has entered into a distribution agreement with its affiliate, Morgan Stanley Smith Barney LLC. As part of the distribution arrangement, Morgan Stanley may distribute municipal securities to retail investors through the financial advisor network of Morgan Stanley Smith Barney LLC. As part of this arrangement, Morgan Stanley may compensate Morgan Stanley Smith Barney LLC for its selling efforts with respect to the Bonds.

FINANCIAL ADVISORS

The Board has retained Fiscal Strategies Group, Inc., as Financial Advisor in connection with the preparation of this Official Statement and with respect to the issuance of the Bonds. Fiscal Strategies Group, Inc. has contracted with Public Resources Advisory Group (together with Fiscal Strategies Group, Inc., the "Financial Advisors") with respect to the issuance of the Bonds. The Financial Advisors are not obligated to undertake, and have not undertaken to make, an independent verification or to assume responsibility for the accuracy, completeness, or fairness of the information contained in this Official Statement nor the information, covenants and representations contained in any of the bond documentation with respect to the federal income tax status of the Bonds. The Financial Advisors are independent advisory firms and are not engaged in the business of underwriting, trading or distributing municipal securities or other public securities. The financial advisory fee for services performed with respect to the Bonds is contingent upon the issuance and delivery of the Bonds but is payable from the Bonding Fund.

RATINGS

The Bonds have received ratings from S&P Global Ratings and Moody's Investors Service as set forth on the cover of this Official Statement.

Such ratings reflect only the views of the respective organizations. An explanation of the significance of each rating may be obtained from the rating agency furnishing such rating. There is no assurance that such will continue for any given period of time or that they will not be revised downward or withdrawn entirely by such rating agencies if, in the judgment of such rating agencies, circumstances so warrant. Any downward revision or withdrawal of either rating can be expected to have an adverse effect on the market price of the Bonds.

CONTINUING DISCLOSURE UNDERTAKING

The Board will agree, by means of a continuing disclosure undertaking (the substantial form of which appears in Appendix F) to be delivered to the purchaser of the Bonds at closing, for the benefit of owners of the Bonds, to provide certain annual financial information relating to the State by no later than 210 days after the end of each fiscal year of the State, commencing with the fiscal year ending June 30,

2026, and to provide notices of occurrence of certain enumerated events. The Board will further agree in the continuing disclosure undertaking that if its audited financial statements are not provided as part of the annual financial information, the Board will provide such audited statements when available. The annual financial information and audited financial statements (when available) and material event notices will be filed by the Board with the Municipal Securities Rulemaking Board (through EMMA) and with any New Mexico State Information Depository. In the event of a failure of the Board to comply with any provision of the continuing disclosure undertaking, any owner of Bonds (including beneficial owners of the Bonds) may seek specific performance by court order from the First Judicial District Court in Santa Fe County, New Mexico.

The continuing disclosure undertaking with respect to the Bonds will be in effect from and after the issuance and delivery of the Bonds and shall extend to the earliest of: (i) the date the principal and interest on the Bonds is paid or deemed paid; (ii) the date the Board is no longer an "obligated person" with respect to the Bonds within the meaning of the Rule; and (iii) the date on which those portions of the Rule which require the continuing disclosure undertaking are held invalid or repealed.

MISCELLANEOUS

The foregoing summaries, descriptions and references do not purport to be comprehensive or definitive, and such summaries, descriptions and references are qualified in their entirety by reference to each statute, document, exhibit or other materials summarized or described. The instruments and other materials referred to in this Official Statement may be examined, or copies thereof will be furnished in reasonable amounts, upon written request to the New Mexico State Board of Finance, 407 Galisteo Street, Bataan Memorial Building, Room 181, Santa Fe, New Mexico 87501, or by telephone at (505) 827-4980.

Statements made in this Official Statement involving matters of opinion, forecasts or estimates, whether or not expressly so stated, are intended as such and not as representations of fact. The Appendices are integral parts of this Official Statement and must be read with all other parts of this Official Statement.

This Official Statement has been authorized and issued by the Board.

STATE BOARD OF FINANCE
OF THE STATE OF NEW MEXICO

By: Governor Michelle Lujan Grisham
President

[THIS PAGE INTENTIONALLY LEFT BLANK]

APPENDIX A

GENERAL INFORMATION CONCERNING THE STATE OF NEW MEXICO

The State, admitted as the forty-seventh state on January 6, 1912, is the fifth largest state by area, containing approximately 121,593 square miles. The estimated 2024 population of the State was 2,130,256 according to the United States Census Bureau. The State has a semiarid subtropical climate with light precipitation. Its climate is characterized by sunshine and bright skies in both winter and summer. Every part of the State receives no less than 70 percent sunshine year-round. Humidity ranges from 30 to 60 percent. Thunderstorms in July and August bring most of the moisture. December to March snowfalls vary from 2 inches (lower Rio Grande Valley) to 300 inches (north central mountains).

Governmental Organization

The Executive Branch of State government consists of a Governor, Lieutenant Governor, Secretary of State, State Auditor, State Treasurer, Attorney General, and Commissioner of Public Lands. These officials are elected to four-year terms beginning January 1 after their election. An elected Executive Branch officer may succeed himself or herself in office once. The primary functions of the Executive Branch are currently carried out by the offices of each elected Executive Branch officeholder, in addition to approximately 22 cabinet departments, each headed by a cabinet secretary appointed by the Governor and approved by the Senate, and approximately 9 cabinet-level agencies. The next elections for all statewide offices will be held in November 2026.

The State Board of Finance (the "Board") has seven voting members consisting of the Governor, the Lieutenant Governor, the State Treasurer, and four members appointed by the Governor with the advice and consent of the Senate. No more than two appointed members may be from the same political party. The DFA Secretary serves as the Executive Officer of the Board and is a non-voting Board member. The Board, in addition to other powers and duties provided by law, has general supervisory authority over the fiscal affairs of the State and over the safekeeping and depositing of all money and securities belonging to, or in the custody of, the State. The Governor serves as the President of the Board.

The DFA is the principal financial organization of State government and performs through its divisions the duties and functions relating to State and local government financing and general administration. The executive and administrative head of the DFA is the Secretary, who is appointed by the Governor with the advice and consent of the Senate. The Board of Finance Division of the DFA provides operational, analytical and administrative support to the Board. The Director of the Board is appointed by the DFA Secretary with the approval of the Board.

The Legislature consists of 112 members and is divided into a Senate and a House of Representatives. Senators are elected for four-year terms and members of the House are elected for two-year terms. The Legislature convenes in regular session annually on the third Tuesday in January. Regular sessions are constitutionally limited in length to 30 calendar days in even-numbered years and 60 calendar days in odd-numbered years. Special sessions of the Legislature may be convened by the Governor.

Extraordinary sessions may be convened by the Legislature under certain limited circumstances. Legislators do not receive any salary but do receive per diem and mileage allowances while in session or performing official State business.

The judicial branch is composed of a statewide system including Magistrate and District Courts, the Court of Appeals and the Supreme Court. The District Courts are the trial courts with general jurisdiction.

Review of Results and Projections in the General Fund
State Budget for Fiscal Years 2020 through 2026

Fiscal Year 2020. The 2020 Special Session was held in June to address the State's fiscal outlook. The 2020 Special Session adjusted the General Fund recurring budget downward by $414 million to $7.2 billion and the nonrecurring budget downward by $183.7 million to $138.4 million.

The September 2020 forecast outlook was a direct result of both the oil price volatility experienced in early 2020 from the Saudi Arabia and Russia oil price war and the continuing COVID-19 healthcare crisis. While the forecast weighed all available information, the nature of the situation at the time was unprecedented. The actual outcomes for the State's finances at the time were dependent on a variety of factors: the epidemiological path of the virus, the strategies for reopening the New Mexico and U.S. economies, the time it would take consumer confidence to rebound, the effect of business closures on the long-term viability of the State's businesses, the degree to which temporary layoffs become permanent, and the impact of global oil supply and demand on oil prices and the associated effect on the State's oil production.

Fiscal Year 2020 recurring revenues were $7.86 billion, representing a decline of 1.9 percent over Fiscal Year 2019 levels. Oil- and natural gas-related revenues were projected to decrease by 22.2 percent compared to Fiscal Year 2019 levels. However, after considering an unprecedented federal land lease payment of $497 million, oil and natural gas revenues increased by 9.9 percent. In Fiscal Year 2020 New Mexico oil prices averaged $44.02 per barrel, while New Mexico's natural gas prices averaged $1.91 per mcf. Oil volumes increased by 23.4 percent in Fiscal Year 2020, and natural gas volumes increased by 11.3 percent. Gross receipts tax revenue increased by 11.9 percent over the prior fiscal year. Non-oil- and natural gas-related revenue increased by 3.4 percent.

Fiscal Year 2021. All states across the country were impacted by the COVID-19 pandemic, however, most reported better-than-expected revenue collections and improved forecasts throughout Fiscal Year 2021. The State of New Mexico was no different, and the overall economic impact of the COVID-19 pandemic hindered economic activity and State revenues in Fiscal Year 2021. However, State revenues did not decline as much as expected in early revenue estimates of Fiscal Year 2021 due to several factors. First, the 2020 economic downturn impacted various sectors of the economy differently. Low-wage sectors such as leisure and hospitality bore the brunt of the economic downturn, while high-wage sectors such as professional/business services, healthcare, and finance all but recovered. Second, the negative impacts of the economic downturn were mitigated by unprecedented national fiscal stimulus measures totaling $5.9 trillion. These fiscal stimulus packages are the federal Coronavirus Aid, Relief, and Economic Security Act ("CARES Act") ($2.4 trillion), the December 2020 stimulus package ($900 billion), and, in early 2021, the American Rescue Plan Act ("ARPA") ($1.9 trillion). The three fiscal stimulus measures provided crucial assistance and prevented an even worse downturn. Measures employed included unemployment insurance, stimulus checks to individuals, aid to small businesses, and aid to state and local governments. Gross receipts tax revenues did not decline as severely as prior forecasts expected, mainly due to federal fiscal and monetary policy interventions. Personal income tax revenue increased by 12.5 percent when compared to the prior year. Lastly, in New Mexico, the better-than-expected oil price recovery and oil production had a significant impact on overall General Fund revenues. According to the December 2021 consensus revenue forecast, Fiscal Year 2021 recurring revenues were $8 billion, representing an increase of 2.9 percent over the Fiscal Year 2020.

Fiscal Year 2021 felt the impact of the oil price volatility experienced in early 2020 from the Saudi Arabian and Russian oil price war and the impacts of the COVID-19 pandemic. However, the oil markets experienced a better-than-expected oil price recovery. According to the U.S. Energy Information Administration, the West Texas Intermediate ("WTI") oil prices reached a monthly average of $39.40 per barrel in October 2020 and gained ground to $59.05 per barrel by February 2021. In March 2021, WTI prices reached above $65 per barrel. Gross oil- and natural gas-related revenues increased by 12 percent compared to Fiscal Year 2020. In Fiscal Year 2021, New Mexico oil prices averaged $50.58 per barrel, while natural gas prices averaged $3.40 per mcf. Oil volumes increased by 10.8 percent, and natural gas volumes increased by 16.8 percent in Fiscal Year 2021.

In Fiscal Year 2021, the State was also influenced by two federal executive orders impacting the oil and natural gas industry, both issued in the second half of January. The "Executive Order on Tackling the Climate Crisis at Home and Abroad" paused new federal land leases but did not directly impact existing leases nor did it impact existing or pending permits at the time. This executive order did not have an end date. But in June 2021, a federal judge issued a preliminary injunction requiring the Interior Department to resume leasing of federal onshore and offshore properties for oil and gas exploration. The Secretarial Order 3395 issued a 60-day pause on administrative authority from Bureau of Land Management ("BLM") field staff to approve leases, rights of way, surface disturbances, and permits to drill. This order expired on March 21, 2021, and the U.S. Department of Interior stated that BLM officials would process applications for permits. The federal executive orders had minimal impact on New Mexico oil production.

Fiscal Year 2022. In Fiscal Year 2022, recurring revenues were $9.67 billion, representing an increase of 19.7 percent over Fiscal Year 2021. Oil- and natural gas-related revenues to the General Fund increased by 9.15 percent. New Mexico oil prices averaged $88.11 per barrel, while New Mexico natural gas prices averaged $7.03 per mcf. Oil volumes increased by 30 percent in Fiscal Year 2022, and natural gas volumes increased by 21.1 percent. Non-oil- and natural gas-related revenue increased by 21.7 percent. The stronger growth in Fiscal Year 2022 is mainly due to strong gross receipts and personal income tax revenue.

Fiscal Year 2023. In Fiscal Year 2023, recurring revenues were $11.6 billion, representing an increase of 19.8 percent over Fiscal Year 2022. Oil and natural gas related revenues deposited to the General Fund increased by 9.15 percent. New Mexico oil prices averaged $80.65 per barrel, while New Mexico natural gas prices averaged $5.40 per mcf. Oil volumes increased by 23.7 percent in Fiscal Year 2023 over Fiscal Year 2022 to a record high of 657.5 million barrels. Natural gas volumes increased by 24.6 percent over Fiscal Year 2022 to 3,234.2 BCF. Non-oil- and natural gas-related revenue increased by 14.3 percent. The stronger growth in Fiscal Year 2023 was mainly due to continued strength of post pandemic recovery with resilient consumers, increased wages and salaries, and moderating inflation. These trends impacted gross receipts and personal income tax revenue. Additionally, market interest rates were conducive to investment earnings with these revenues increasing 46.1 percent over Fiscal Year 2022 to $1.34 billion.

2023 Legislative Developments. HB 547, enacted during the 2023 Legislative Session, included changes to personal and corporate income tax brackets, reductions to gross receipt tax rates, amendments to certain tax credits, and the addition of several energy-related tax credits and rebates. However, the Governor line-item vetoed the majority of the tax law changes, including all tax bracket changes, all reductions to gross receipts tax rates, and most new tax credits such as the electric vehicle tax credit. The reason given for the line-item vetoes was that HB 547 contained tax cuts that may not be fiscally responsible in the long term.

Portions of HB 547 that were not vetoed and became law include an increased child income tax credit for taxpayers at the three lowest income levels, which may impact the general fund with decreased revenue of approximately $102 million in Fiscal Year 2023, as well as expanded film tax credits as discussed above. The Governor also did not veto the one-time PIT rebates discussed above.

SB 26, also enacted during the 2023 Legislative Session amends the Tax Administration Act and the Federal Mineral Leasing Act to provide a distribution to the STPF of oil and gas school tax revenues and federal mineral leasing revenue. SB 26 sets the general fund amount of oil and gas emergency school tax and federal mineral leasing revenue to the estimated net general fund distribution in Fiscal Year 2024. This establishes a threshold amount from which future (Fiscal Year 2025 and beyond) net general fund revenues from oil and gas emergency school tax and federal mineral leasing revenue that exceed the threshold amount are transferred to the STPF. The transfers to the STPF occur after the transfers to the Early Childhood Trust Fund occur. SB 26 does not impact transfers to the Early Childhood Trust Fund.

Beginning in Fiscal Year 2025, SB 26 requires the transfer of only new windfall revenue and investment in the STPF. This will provide the State's General Fund with an additional layer of protection from the volatility of oil and gas revenues when such revenues decrease. The greater investment in STPF will yield greater contributions from STPF earnings back to the General Fund in the future as well. Lastly, SB 26 prevents the state's recurring general fund revenue dependence on oil and gas from growing in the future.

Fiscal Year 2024. In Fiscal Year 2024, recurring revenues were $13.05 billion, representing an increase of 12.6 percent over Fiscal Year 2023. Non-oil and natural gas-related revenue increased by 6.11 percent. The growth in Fiscal Year 2024 was mainly due to strong performance in interest-earning revenues from the Land Grant Permanent Fund and State Treasurer's Office earnings. Interest earnings grew $548.5 million or 47.3 percent year-over-year. General sales contributed to growth as well due to the continued resilience of consumers benefiting from increased wages and salaries, and moderating inflation. Oil and natural gas-related revenues to the General Fund increased by 40.5 percent. The increase in oil and natural gas direct revenues is a function of both commodity prices and continued elevated production levels. Oil production in New Mexico reached a record 708 million barrels in Fiscal Year 2024 with oil prices averaging $78.73 per barrel and natural gas prices averaging $3.16 per mcf. In Fiscal Year 2024, oil and natural gas volumes increased by 7.6 percent and 10.3 percent, respectively.

Fiscal Year 2025. In Fiscal Year 2025, recurring revenues totaled $13.6 billion, an increase of 4.2 percent over Fiscal Year 2024. Non–oil and natural gas-related revenues grew by 6 percent, driven largely by strong interest earnings from the Land Grant Permanent Fund and State Treasurer's Office, which increased by $196.7 million (10.4 percent). General sales tax revenues also contributed to growth, rising $251.7 million (6.1 percent) as consumer spending remained resilient.

Oil and natural gas-related revenues to the general fund are projected to decline slightly by 1.4 percent. This modest decrease reflects lower collections from smaller oil and gas revenue programs, as the major sources, the oil and gas emergency school tax and federal mineral leasing revenue, remain capped at Fiscal Year 2024 levels under SB 26. Revenue above the cap is transferred to the Early Childhood Education and Care Fund and the Severance Tax Permanent Fund. These transfers are $1.8 billion in Fiscal Year 2025.

Oil production reached a record 781.2 million barrels in Fiscal Year 2025, with average prices of $69 per barrel. Natural gas prices averaged $3.19 per mcf, and production increased by 10 percent for oil and 12 percent for natural gas.

Fiscal Year 2026. According to the December 2025 consensus revenue forecast, recurring revenues for Fiscal Year 2026 are estimated at $13.4 billion, a decline of 1.6 percent from Fiscal Year 2025. Interest earnings from the Land Grant Permanent Fund, Severance Tax Permanent Fund, and State Treasurer's Office are projected to increase by $145 million (7 percent), and general sales tax revenues are expected to grow by $156.4 million (3.6 percent). The overall reduction in recurring revenue is driven primarily by state legislative changes taking effect and, more significantly, by federal H.R.1 legislation enacted in 2025, which is anticipated to reduce corporate income tax collections.

Non-oil and non-natural gas-related revenue is projected to decline by 2.3 percent. Oil and natural gas-related revenues to the general fund are anticipated to grow slightly by 0.8 percent, driven by smaller revenue programs, as the major sources, the oil and gas emergency school tax and federal mineral leasing revenue, remain capped at Fiscal Year 2024 levels. Revenue collected above the cap continues to be transferred to the Early Childhood Education and Care Fund and the Severance Tax Permanent Fund, with an estimated $1.5 billion expected to be transferred in Fiscal Year 2026.

The recurring revenue decrease is partially offset by higher State Land Office revenues in Fiscal Year 2026. Policy changes in 2024–2025 generated pent-up demand for high-value leases and opened previously restricted state lands, resulting in record bonus payments during monthly auctions in late 2025. Consequently, State Land Office revenue for Fiscal Year 2026 is projected at $511.9 million—$362.6 million above the typical annual estimate of $149.3 million. This increase is considered a one-time, nonrecurring spike. Total revenues for Fiscal Year 2026 are estimated at $13.7 billion, representing a modest increase of 0.9 percent over Fiscal Year 2025. Total revenues for Fiscal Year 2027 are projected to rise to $13.9 billion, an increase of 1.2 percent over Fiscal Year 2026.

New Mexico oil prices are expected to average $58 per barrel in Fiscal Year 2026, while natural gas prices are projected to average $3.74 per mcf. Oil production volumes are forecast to increase by 4.9 percent, and natural gas volumes by 12 percent. For Fiscal Year 2026, the consensus estimate anticipates moderating oil prices due to strong global supply, softer demand, and near-term economic uncertainty. New Mexico oil production is still expected to grow, but at a more measured pace as the industry enters the "Shale 4.0" era, marked by consolidation, long-term planning, and a focus on cash flow over rapid output expansion. Overall, the oil and gas sector is considered mature and transitioning to a more stable slow growth trajectory. It is important to note that the consensus estimate was developed before the Iranian-U.S. conflict, and while the price spike may support New Mexico production, near-term benefits to the state are expected to be limited. Legislative protections also help keep the direct impact on the General Fund minimal, with most gains flowing to other state funds. Oil prices remain highly volatile and subject to significant uncertainty. Geopolitical developments, market sentiment, and supply disruptions could quickly push prices materially higher or lower than current projections.

Education Funding Litigation

The State's process to fund public education on a uniform and adequate basis has been challenged in various courts, including the First and Eleventh Judicial District Courts.

In 2014, two different plaintiff groups filed lawsuits in the First Judicial District Court for the State of New Mexico in Santa Fe County, each of which challenged the sufficiency of school funding and the school funding formula, specifically as applied and related to the needs of at-risk students. The two lawsuits were consolidated (*Martinez, et al. v. the State of New Mexico* consolidated with *Yazzie, et al. v. the State of New Mexico*, No. D-101-CV-2014-00793) and proceeded to a bench trial in the summer of 2017. On February 14, 2019, the Court entered a Final Judgment and Order. The Court concluded that the State violated the Education Clause, the Equal Protection Clause, and the Due Process Clause of the New Mexico Constitution. The Court required the State to take necessary steps to ensure schools have resources,

including funding and accountability measures, to give at-risk students an opportunity to obtain a sufficient education.

Multiple motions were filed in the Court following the February 14, 2019, Final Judgment, including a motion to dismiss filed by Defendants on March 13, 2020, a Motion to Strike Defendant's Motion to Dismiss on April 26, 2020, a motion to require the State to provide essential technology on December 24, 2020, and a motion to find non-compliance and require remedial action plan filed by Plaintiffs on September 4, 2024. The motion for non-compliance requests relief that includes provision for the Legislative Education Study Committee staff to implement a planning process to ensure the prompt development and implementation of a comprehensive remedial plan. On December 21, 2023, the New Mexico Department of Justice submitted an entry of appearance entering on behalf of the State and did not oppose the motion for non-compliance subsequently submitted by the plaintiffs. On April 29, 2025, the District Court partially granted the Plaintiff's motion for non-compliance and ordered the New Mexico Public Education Department to develop a comprehensive plan to comply with the original court ruling and file a status report for the Court's review on November 3, 2025. On November 3, 2025, the New Mexico Public Education Department submitted a plan with the Court. On February 19, 2026, Plaintiffs filed objections to the plan. On March 23, 2026, the New Mexico Public Education Department filed a Response to the Plaintiffs' Objections.

In 1998, the Zuni Public School District filed a lawsuit in the Eleventh Judicial District Court for the State of New Mexico in McKinley County (*Zuni Public School District, et al., v. the State of New Mexico, et al.*, No. D-1113-CV-9800014) seeking a declaratory judgment that the State's method of funding of capital improvements for public schools violated the State Constitution's requirement to provide for a uniform and adequate system of funding capital improvements, specifically as applied and related to the needs of the students of the Zuni Public School District and Gallup-McKinley County School District No. 1.

On December 29, 2020, the trial court filed a Decision and Order ruling in favor of the Plaintiffs. The December 29, 2020, order is a final appealable judgment. It provides declaratory relief in the form of a finding that the State's Public School Capital Outlay Act, NMSA 1978, Sections 22-21-1 to -12 (1975, as amended through 2020) and Public School Capital Improvements Act, NMSA 1978, Sections 22-25-1 to -11 (1975, as amended through 2020) are unconstitutional. It also enjoined the Legislature to create and implement a statutory scheme consistent with Article XII, Section 1 of the State Constitution. Notably, the decision did not expressly or indirectly reference the State's Severance Tax Bonding Act, NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2021). The matter was appealed to the New Mexico Court of Appeals on July 19, 2021. Without ruling on the merits, the Court of Appeals issued an Order of Certification to the New Mexico Supreme Court seeking for the New Mexico Supreme Court to resolve the case on August 7, 2023.

On December 2, 2024, the New Mexico Supreme Court ruled that the case was moot because of the Legislature's amendments to the capital outlay scheme that funds public school facilities and remanded the case to District Court for further proceedings, if any. On February 17, 2026, the 11th Judicial District Court dismissed the case for "lack of prosecution." On March 17, 2026, Plaintiffs filed a Motion to Reinstate the Case on grounds that the Legislature's amendments to the capital outlay scheme were insufficient which is set for hearing on June 22, 2026.

As these educational funding litigation cases go through potential appeals, post-trial discovery and any remedial measures, the outcomes of such litigation may impact the State's education funding processes and could impact the State's budget, but the extent of such impact is currently unknown.

Pension and Other Retirement Funds and Benefits

Legislative History. The Legislature enacted the Educational Retirement Act, NMSA 1978, Section 22-11-1 et seq (the "ERA"), the Public Employees Retirement Act, NMSA 1978, Section 10-11-1 et seq., and the Retiree Health Care Act, NMSA 1978, Sections 10-7C-1 through 10-7C-19, which created the retirement plans that cover most employees of the State and its political subdivisions. These retirement plans are managed by the Educational Retirement Board ("ERB"), the Public Employees Retirement Association ("PERA") and the New Mexico Retiree Health Care Authority ("NMRHCA") and are described below. The Legislature establishes all financing provisions of the plans and the provisions are not subject to negotiation. Financing provisions include employee and employer contributions, fund investment provisions and benefit provisions. In 1998, the voters amended the State Constitution, adopting Section 22 of Article XX, which states that upon meeting the minimum service requirements of an applicable retirement plan created by law for employees of the State or any of its political subdivisions or institutions, a member of a plan shall acquire a vested property right with due process protections under the applicable provisions of the New Mexico and United States Constitutions. The amendment also stated that nothing in Section 22 shall be construed to prohibit modifications to retirement plans that enhance or preserve their actuarial soundness.

Educational Retirement Board—Historic Financial Information. The ERB had 173,890 members as of June 30, 2025, including active, retired, inactive vested and inactive non-vested members. The market value of Educational Retirement Fund (the "Fund") as of June 30, 2025 was $18.9 billion. The Fund had a performance return for Fiscal Year 2025 of 9.9 percent. Over the past five years, the Fund had an annualized return of 10.4 percent.

As of June 30, 2025, the unfunded accrued actuarial liability ("UAAL") had a 19-year amortization period. The calculation of the funding policy contribution has been updated to reflect an open group projection, recognizing new hire benefits as well as anticipated cost-of-living adjustments more than the assumed 1.60 percent while the plan is less than fully funded.

TABLE A-1
Schedule of Statutorily Mandated ERB Contribution Rates

Wage Category	Fiscal Year(s)	Date Range	Member Rate	Employer Rate	Total
$20k or less	2010–2013	07/01/2009–06/30/2013	7.90%	12.40%	20.30%
	2014	07/01/2013–06/30/2014	7.90	13.15	21.05
	2015–2019	07/01/2014–06/30/2019	7.90	13.90	21.80
$24k or less	2020–2021	07/01/2019–06/30/2021	7.90	14.15	22.05
	2022	07/01/2021–06/30/2022	7.90	15.15	23.05
	2023	07/01/2022–06/30/2023	7.90	17.15	25.05
	2024-Future	07/01/2023–Future	7.90	18.15	26.05
Over $20k	2010–2011	07/01/2009–06/30/2011	9.40	10.90	20.30
	2012	07/01/2011–06/30/2012	11.15	9.15	20.30
	2013	07/01/2012–06/30/2013	9.40	10.90	20.30
	2014	07/01/2013–06/30/2014	10.10	13.15	23.25
	2015–2019	07/01/2014–06/30/2019	10.70	13.90	24.60
Over $24k	2020–2021	07/01/2019–06/30/2021	10.70	14.15	24.85
	2022	07/01/2021–06/30/2022	10.70	15.15	25.85
	2023	07/01/2022–06/30/2023	10.70	17.15	27.85
	2024-Future	07/01/2023–Future	10.70	18.15	28.85

Source: New Mexico Statutes Annotated 1978, Section 22-11-21, as amended

In 2019 legislation amending NMSA 1978, Section 22-11-21 was enacted to increase the employer contribution rate to 14.15 percent and to increase to $24,000 the threshold for higher employee contributions. These changes became effective July 1, 2019. In 2021 legislation amending NMSA 1978, Section 22-11-21 was enacted to increase the employer contribution rate to 15.15 percent beginning July 1, 2021. In 2022, legislation amending NMSA 1978, Section 22-11-21 was enacted to increase the employer contribution rate to 17.15 percent beginning July 1, 2022, and 18.15 percent beginning July 1, 2023.

Senate Bill 75 ("SB 75"), which was approved during the 2025 Legislative Session and signed into law by Governor Michelle Lujan Grisham, provided enhancements and clarifications to the Educational Retirement Act. The bill confirms that any unclaimed member contributions are part of the ERB Fund. It further clarifies the requirement for members to be eligible for retirement benefits and how cost-of-living adjustments apply to members who retire due to a disability. The bill modifies the process for a member in the U.S. military to purchase service credit. Also, the bill allows ERB to share member information with the Public Employees Retirement Association to help administer retirement reciprocity between the two systems.

Senate Bill 133 ("SB 133"), which was also approved during the 2025 Legislative Session and signed into law by Governor Michelle Lujan Grisham, increased the annual salary limit for the "less than $15,000" Return-to-Work program to less than $25,000 per fiscal year. Also, the bill changed the time limit for the "36-month" Return-to-Work program from 36 months to 60 months, which can be consecutive or non-consecutive months.

House Bill 251 ("HB 251"), which was also approved during the 2025 Legislative Session and signed into law by Governor Michelle Lujan Grisham, allows a retired ERB member, for one time only, to change their designated spousal beneficiary.

Certain faculty and professional employees of New Mexico universities and colleges are eligible to elect to participate in the Alternative Retirement Plan ("ARP"), a defined contribution retirement plan available to certain faculty and professional employees. Employees who do not elect to participate in the ARP remain members of the regular defined benefit retirement plan. Each ARP participant contributes to the ARP the same amount that he or she would be required to contribute to the defined benefit plan if he or she were a member of that plan. Colleges and universities, as the employers of ARP participants, contribute the same amount that the employer would be required to contribute to the defined benefit plan if the participant were a member of that plan. From July 1, 2024, through June 30, 2025, 7.25 percent of the employer statutorily mandated contribution for ARP participants was provided to the defined benefit plan. From July 1, 2024, through June 30, 2025, the employer contribution rate was 18.15 percent, which meant that colleges and universities contributed 18.15 percent of participating employees' gross salary to the ARP vendor on behalf of the participant and 7.25 percent of the employees' gross salary to the defined benefit plan to offset the effect of having these employees not participate in the defined benefit plan. The colleges and universities are responsible for submitting the balance of the employers' contribution and the employees' contribution directly to the ARP vendors on behalf of the participants.

ERB Funded Ratio; Impact of Actuarial Assumptions and Changes to the Discount Rate. The ERB implemented Governmental Accounting Standards Board ("GASB") Statement No. 67 requirements with its June 30, 2013, financial statements. GASB Statement No. 67 ("GASB 67") requires ERB to report net pension liability ("NPL"), which is measured as total pension liability less the amount of the plan's fiduciary net position. GASB 67 replaced GASB 25, which had required ERB to report the annual required contribution of the employer ("ARC") and the percentage of the ARC contributed. The following table lists the NPL and the ERB GASB 67 and actuarial valuation funded ratios, for Fiscal Years 2021 through 2025. The funded condition of the plan is measured by the funded ratio, which is the ratio of the actuarial value of assets to the actuarial accrued liability for the actuarial valuation, or the ratio of the plan fiduciary net position to the total pension liability for the GASB 67 report. The actuarial valuation funded ratio increased from 2024 to 2025. The increase was primarily due to better than assumed asset experience. The NPL of $8,538,499,035 measured as the total pension liability, less the plan's fiduciary net position as of June 30, 2025, was calculated based on an expected rate of return on plan investments of 7.00 percent. The current NPL decreased by 2.8 percent compared to the Fiscal Year 2024 NPL of $8,787,995,457. The change for the Fiscal Year ending June 30, 2025, includes the single discount rate of 7.00 percent as of June 30, 2025.

TABLE A-2
ERB Funded Ratio

Fiscal Year	Net Pension Liability (GASB 67)	Funded Ratio (GASB 67)	Funded Ratio (Actuarial Valuation)
2021	$7,087,466,701	69.77%	62.8%
2022	8,421,711,477	64.87	63.5
2023	8,684,285,003	65.19	62.9
2024	8,787,995,457	66.57	64.8
2025	8,538,499,035	68.5	67.8

Source: Educational Retirement Board

ERB pensions are adjusted annually by a cost-of-living adjustment ("COLA") beginning on the later of either July 1 of the year in which a member reaches age 65 (for members beginning ERB membership before July 1, 2013) or age 67 (for members beginning ERB membership on or after July 1, 2013) or July 1 following the year a member retires. Senate Bill 115 ("SB 115") (Chapter 61, Laws 2013) reduced the amount of the COLA until ERB is 100 percent funded. The amount of the adjustment is determined by the change in the Consumer Price Index ("CPI"), the retiree's pension amount and the retiree's service credit. Pensions cannot be decreased if there is a decrease in the CPI.

In December 2013, the Supreme Court of New Mexico, in Bartlett v. Cameron, 2014-NMSC-002, rejected the claims of certain retired teachers, professors and other public education employees challenging the state constitutionality of SB 115 to the extent that it reduces the future amounts that all education retirees might receive as an annual COLA. The court held that Article XX Section 22 of the State Constitution did not grant the retirees a right to an annual COLA based on the formula in effect on the date of their retirement. The court held that any future COLA to a retirement benefit is merely a year-to-year expectation that, until paid, does not create a property right under the State Constitution. Once paid, the COLA by statute becomes part of the retirement benefit and a property right subject to those constitutional protections.

The Public Employees Retirement Association—Historic Financial Information. PERA had 52,581 active members as of June 30, 2025. As of June 30, 2025, the total market value of the PERA Fund was $18.6 billion. The Fiscal Year 2025 PERA total fund investment return was 9.69 percent. (Information as of June 30, 2025 is the most recent available.)

PERA performs annual actuarial valuations of the retirement funds it administers. In 2025, PERA actuaries, Gabriel, Roeder, Smith & Company conducted an experience study for the period ending June 30, 2024, testing actuarial assumptions currently used in its valuations. The PERA Board accepted the actuary's recommended economic assumptions that the assets, benefit values, reserves, and computed contribution rates reflect utilization of an inflation rate of 2.5 percent per annum and an investment rate of return of 7.25 percent. The Board also adopted a cost-of-living adjustment change of 1.25% for the next 15 years and 2.00% thereafter. The Board also maintained real wage inflation and payroll growth assumptions of 3.0 percent, each compounded annually, revised retirement assumptions, and adoption of the MP-2020 mortality table.

The assumed investment return is one of the most significant assumptions in the annual actuarial valuation process as it is used to discount the expected benefit payments for all active, inactive and retired members. Minor changes in this assumption can have a major impact on valuation results. Maintaining the current assumed rate of return was recommended by the PERA's outside actuaries after consultations with the PERA's internal investment staff and its general investment consultant.

PERA member and employer contribution rates are established by State statute. In 2020, the Legislature amended the PERA Act, NMSA 1978 10-11-1 et seq. to increase the employer contribution rate by 2.0 percent beginning July 1, 2020 in 0.5 percent increments over the next four Fiscal Years, and to increase member contribution rates by 2.0 percent beginning July 1, 2020, in 0.5 percent increments over the next four Fiscal Years. There was a two-year delay before any increased contributions for municipal or county employees and their employers. Gabriel, Roeder, Smith & Company completed an actuarial valuation of the PERA Fund, Judicial Retirement Fund, Magistrate Fund, Legislative Division and Volunteer Firefighter Fund for the Fiscal Year ending June 30, 2025.

Actuarial information for each fund as of June 30, 2025, is shown in the table below.

TABLE A-3
Summary of State Retirement Funds Managed by PERA as of June 30, 2025
(dollars in thousands)

	PERA [1]	Judicial	Magistrate	VFF	Legislative
Membership	129,772	383	206	8,299	360
Actuarial Information					
Accrued Liability [2]	$27,948,989	$220,596	$64,826	$ 52,353	$53,919
Actuarial Value of Assets [3]	18,231,855	121,948	34,073	90,043	47,263
Unfunded (Overfunded) Accrued Liability	9,717,134	98,648	30,753	(37,690)	6,665
Present Value of Statutory Obligations	32,226,501	260,654	70,486	62,557	69,109

[1] Includes both the State and municipal divisions.
[2] Includes the accrued liability of both the retired and active members.
[3] The valuation of assets is based on an actuarial value of assets whereby gains and losses relative to a 7.25 annual rate of return are smoothed over a four-year period.
Source: Public Employees Retirement Association

As of June 30, 2025, PERA has an amortization or funding period of 50 years, based on the employer and member contribution rates in effect as of July 1, 2025, and includes scheduled increases to member and employer contributions. Member and employer rates are established pursuant to Section 10-11-1 through 10-11-142 NMSA 1978. The funded ratio (ratio of the actuarial value of assets to accrued actuarial liability) was 65.2 percent as of June 30, 2025, and the UAAL of the PERA Fund increased by $1.0 billion to approximately $9.7 billion. The State's portion of the UAAL of the PERA Fund is 54.6 percent, or $5.3 billion. On a market value basis, PERA's funded ratio is approximately 54.1 percent as of June 30, 2025. Current 30-year projections as of June 30, 2025, indicate that the PERA Fund will be 100 percent funded in 2066 assuming all economic and demographic assumptions are met.

In 2025, PERA implemented GASB 67 for the 12th year. PERA will also produce an audited Schedule of Employer Allocations and Pension Amounts in early 2026 to assist its employer participants in implementing GASB 68. GASB 68 requires participating local governments to recognize their pro rata share of net pension liability ("NPL") and other pension elements on the face of their financial statements. The total NPL as of June 30, 2025, for the PERA Fund allocated to its nearly 335 cost-sharing employers that participate in the Fund is approximately $8.95 billion.

In 2025, PERA completed the Schedule of Employer Allocations required by GASB 68 and provided local governments with the allocation percentage necessary to derive an employer's proportionate share of the collective NPL as of June 30, 2024. PERA continues to provide outreach and assistance to local governments to ensure local governments continue to receive pertinent allocation information required by GASB 67 and 68.

[Remainder of Page Intentionally Left Blank]

The following table lists the funded ratios for each individual PERA fund for Fiscal Years 2021 through 2025.

TABLE A-4
Funded Ratio of State Retirement Funds Managed by PERA

Fiscal Year	PERA	Judicial	Magistrate	VFF	Legislative
2021	71.4%	53.3%	54.1%	156.5%	140.9%
2022	70.0	61.2	52.9	161.5	123.5
2023	67.7	60.5	53.1	167.7	119.6
2024	67.2	56.1	52.4	172.2	94.3
2025	65.2	55.3	52.6	172.0	87.7

Source: Public Employees Retirement Association

Legislative changes enacted during the 2009 through 2016 legislative sessions also amended various provisions of the Public Employees Retirement Act to improve the long-term stability of the fund. House Bill 573 (Chapter 288, Laws 2009) included training requirements for members of the PERA Board. House Bill 854 (Chapter 125, Laws 2009) modified employer and employee contributions to the State's retirement funds for Fiscal Years 2010 and 2011, shifting 1.5 percent of the annual contribution rate from employers to employees, for those employees with a full-time equivalent salary greater than $20,000. House Bill 628 (Chapter 178, Laws 2011) extended the existing 1.5 percent shift made in House Bill 854 through Fiscal Year 2013 and shifted an additional 1.75 percent of the annual contribution rate from employers to employees for Fiscal Year 2012. The additional 1.75 percent of the annual contribution rate shifted back from the employees to the employers for Fiscal Year 2013. The 1.5 percent contribution shift from the employers to the employees remained in place through Fiscal Year 2013. House Bill 628 also required an actuarial study by PERA prior to September 20, 2013 to analyze whether contribution rate changes have had an adverse actuarial effect on the retirement systems.

Senate Bill 27 (Chapter 225, Laws 2013) significantly amended the Public Employees' Retirement Act by creating a new tier of reduced benefits for new hires. The law reduced the cost of living adjustments for all current and future retirees; delays the application of cost of living adjustments for certain future retirees; suspends the cost of living adjustments for certain return-to-work retirees; provided for an increase in the statutory employee contribution rate of 1.5 percent (subject to certain requirements) for employees earning $20,000 or more in annual salary; provided for an increase in the statutory employer contribution of 0.4 percent beginning in Fiscal Year 2015; increased age and service requirements; lengthened the base average salary calculation amount from three to five years for Tier 2 employees; increased the vesting period for employees from five to eight years for most Tier 2 members; and lowered the annual service credit by 0.5 for most members.

Legislative changes enacted during the 2014 legislative session amended sections of the law relating to the judicial and magistrate retirement funds and followed many of the changes implemented in the 2013 legislative session for the public employees' and educational retirement funds.

House Bill 33 (Chapter 35, Laws 2014) amended the Judicial Retirement Act. Among other things, the law suspended for two years and makes adjustments to cost of living increases, adjusted employee and employer contributions, required mandatory participation in the fund and implemented changes to the benefits structure.

House Bill 216 (Chapter 39, Laws 2014) amended the Magistrate Retirement Act. Among other things, the law suspended for two years and makes adjustments to cost of living increases, adjusted employee and employer contributions, required mandatory participation and implemented changes to the benefit structure. Senate Bill 160 (Chapter 43, Laws 2014) also made changes to the Magistrate Retirement Act. This law duplicated the changes made in House Bill 216.

During the 2016 second special session, the State's distribution to the legislative retirement fund decreased from $200,000 a month to $75,000 a month, thus reducing the annual contribution from $2.4 million to $900,000.

During the State of New Mexico (53rd Legislature) special session in 2017, House Bill 2 was passed that suspended the State's distribution to the legislative retirement fund for two consecutive years (Fiscal Year 2018 and Fiscal Year 2019). Beginning July 1, 2019, the monthly distribution of $75,000 to fund the legislative retirement coverage plan resumed, for a total annual contribution of $900,000.

During the State of New Mexico (54th Legislature) regular session in 2019, House Bill 501/a was passed that increased employer contribution rates by 0.25 percent for PERA affiliated employers, with the exception of the overfunded state police and adult correctional officer plan. The contribution rate increase was effective July 1, 2019.

During the State of New Mexico (55th Legislature) regular session in 2020, Senate Bill 72/a ("SB 72/a") was passed, increasing employee and employer contributions and adjusting the COLA for retirees. Effective July 1, 2020, employee contributions increased by 2 percent, and will increase in 0.5 percent increments over four Fiscal Years. The first 0.5 percent increment will increase employee contributions under State General Plan 3 to 9.42 percent. The employer contribution rate will increase by 0.5 percent each Fiscal Year as well. There will be a two-year delay before any increased contributions for municipal or county employees and their employers. Effective July 1, 2022, municipal and county employee and employer contributions will increase by 2 percent, in 0.5 percent increments, over four Fiscal Years (2023, 2024, 2025, and 2026).

For retirees, those who were 75 years of age on or before June 30, 2020, will receive a 2.5 percent COLA, an increase from the current 2 percent COLA. Disability retirees and retirees with pensions lower than $25,000 after 25 years of service also will receive a 2.5 percent COLA. All other retirees who are COLA-eligible will receive a 2 percent, non-compounding, additional payment for three calendar years (2020, 2021, and 2022). This payment will be paid in addition to the regular July pension payment. PERA received a $55 million General Fund appropriation to cover the cost of the additional payments (2 percent non-compounding) to eligible retirees in Fiscal Years 2021, 2022, and 2023.

The changes implemented by SB 72/a will assist PERA in preserving the defined benefit offered to its members and increasing PERA's actuarial soundness moving forward.

During the State of New Mexico (55th Legislature) regular session in 2020, Senate Bill 122 was passed that delayed further distributions to the Legislative Retirement fund until Fiscal Year 2026 and provided a distribution to the magistrate and judicial retirement fund of $100,000 each month until July 1, 2025.

During the State of New Mexico (56th Legislature) regular session in 2021, Senate Bill 90 was passed that allows overtime pay required for a regular schedule tour of duty in the definition of salary for all municipal fire plans and a 1.5 percent employee contribution increase starting July 1, 2021.

During the State of New Mexico (57th Legislature) regular session in 2022, Senate Bill 159 was passed that increased the percent rate of the per diem rate to 14 percent for the legislative plan.

In the regular legislative session (58th Legislature) in 2023, House Bill 106 passed which will allow members of all coverage plans to earn up to 100 percent of their average salary, however it will not allow retroactive calculation prior to June 16, 2023.

In the regular legislative session (59th Legislature) in 2024, Senate Bill 165 increased the annual amount of the legislative pension by increasing the pension multiplier from 60 to 90.

New Mexico Retiree Health Care Authority—Historic Financial Information. NMRHCA provides comprehensive group health insurance coverage for persons who have retired from certain public service positions in the State and their eligible dependents. NMRHCA offers both pre-Medicare and Medicare plans, as well as nonsubsidized dental, vision and life insurance plans to eligible participants. As of June 30, 2025, there were 50,813 participants, 14,005 vested terminated members and 98,816 active members contributing to the program from 310 participating public entities.

NMRHCA, the agency that administers the Retiree Health Care Act, has a revenue base composed of active employee payroll deductions, participating employer contributions, monthly premium contributions of enrolled participants, investment income, subsidies associated with administering a Medicare Part D program, prescription drug rebates and amounts distributed annually from the Taxation Administration Suspense Fund ("TAA Fund"). Employer and employee contribution rates are established by statute and the amount distributed from the TAA Fund. For most participants, employer contribution rates are 2 percent of the participating employee's salary and employee contribution rates are 1 percent of the participating employee's salary. For individuals participating under an enhanced retirement plan (i.e., police and corrections officers, firefighters and judges), employers contribute 2.5 percent of the employee's salary and employees contribute 1.25 percent of their salary.

As of June 30, 2025, NMRHCA reported a projected solvency period beyond 2056 and the plans' fiduciary net position is projected to be available to make all projected future benefit payments for current plan members. This calculation compares growth in projected revenues and expenditures from all sources and includes multiple components, including medical and prescription drug costs, administrative fees, employee and employer contributions and retiree premiums. The projected solvency date and continued improvements to its timeframe are largely the result of the prudent fiscal management exercised by NMRHCA's Board of Directors, including a series of targeted benefit reductions, increased cost-sharing for plan participants, aggressive procurement practices and value-based purchasing strategies.

In 2025, NMRHCA implemented GASB 74 for the eighth year. This valuation is based on the benefits administered by the Board, characteristics of plan participants, assets as of June 30, 2025, economic assumptions and other actuarial assumptions. In a change from the GASB 43 requirements, monies that are not fully funded on an actuarial basis go through a crossover test to determine the applicable discount rate on the plan's assets. However, the latest results show that there is no projected "crossover date" when projected benefits are not covered by projected assets.

The discount rate used in the valuation for financial disclosure purposes as of June 30, 2025, is based on the assumed investment return on plan assets of 7.25 percent. Although NMRHCA does not fully prefund benefits, projections indicate that, when plan assets are projected in accordance with the method prescribed by GASB 74, they are expected to be sufficient to cover all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on plan investments of 7.25 percent annually was applied to all periods of projected benefit payments.

The results as of the June 30, 2025 valuation indicate the Total OPEB Liability ("TOL") of $3,422,408,572, offset by the plan's fiduciary net position of approximately $1,865,731,998, resulting in a Net OPEB Liability ("NOL") of $1,556,676,574.

NMRHCA and its Board of Directors are committed to further strengthening the program's financial well-being. The five-year strategic plan for 2023 through 2027 adopted by the Board of Directors in 2022 raises required contributions and makes targeted benefit reductions to increase revenues while decreasing future liabilities. Additionally, the Board of Directors established a minimum age to participate in the program (55 years old) and increased the years-of-service required to receive the maximum subsidy. These changes went into effect for most participants on July 31, 2021, but they do not apply to members who participate in an enhanced retirement plan (i.e., police and corrections officers, firefighters and judges).

Previous reporting requirements associated with GASB 43 mandated NMRHCA to report its Annual Required Contribution ("ARC") and the percentage of the ARC contributed. Beginning June 30, 2017, under GASB 74, the equivalent of the ARC is the Actuarially Determined Contribution ("ADC"). Prior to Fiscal Year 2018, the annual required contribution was calculated by the normal cost combined with the amortization of the unfunded liability, using a 5 percent discount rate. The reporting requirements under GASB 74 allow for a separately defined method of funding basis (transitioned to the funding policy on a percentage of payroll basis) and a change in the discount rate methodology, resulting in a discount rate used to amortize the long-term liabilities (7.25 percent).

The following table lists the Statutory Contributions and percentage of the Statutory Contributions contributed for Fiscal Years 2021 through 2025 (the most recent available).

TABLE A-5
New Mexico Retiree Health Care Authority
Annual Required Contributions

Fiscal Year	Annual Required Contributions	Percentage Contributed	Actual Amounts Contributed
2021	$178,635,582	99.50%	$177,813,458
2022	187,238,171	101.08	189,266,136
2023	198,639,257	107.44	213,128,349
2024	127,360,721	100.00	127,360,721
2025	135,613,388	100.00	135,613,388

[1] The information provided in this table has been updated to better align with the requirements for cost-sharing plans with statutorily required contribution rates.

Severance Tax Permanent Fund and the Land Grant Permanent Fund

The Severance Tax Permanent Fund ("STPF") was established in the State Treasury in 1973 to receive the residual revenues from the Severance Tax Bonding Fund and serve as an endowment for the State. In 1976, the electorate approved a constitutional amendment giving the STPF constitutional status. In 1982, the electorate approved a second constitutional amendment that removed the discretionary power of the Legislature to appropriate funds from the corpus of the STPF, thereby creating a permanent endowment fund. Distributions from investments of the STPF, however, may be appropriated by the Legislature in the same manner as other general revenues are appropriated. Severance tax receipts have historically been the primary source of funding for the STPF. The State Investment Council ("SIC") invests the corpus and non-appropriated income of the STPF. The market value of the STPF as of June 30, 2025,

was approximately $11.10 billion, a market value increase of more than $1.36 billion or 13.9 percent from the prior Fiscal Year closing value. Investment performance for the one-year period ending June 30, 2025, was 9.30 percent net of fees, and 0.36 percent above the fund's interim policy index. Year over year growth of the STPF was due to historically high inflows, which exceeded Fiscal Year 2024 distributions of $289.6 million. Funds on deposit in the STPF are not pledged to and may not be used to pay any bonds. As noted above, during the 2016 special legislative session, Senate Bill 8 allowed the one-time transfer of excess severance tax revenue to the General Fund rather than the STPF. This transfer, known as the super sweep, totaled $28,279,400. As noted above, Senate Bill 26 (Chapter 22, Laws 2023) will add additional sources of funding to the STPF by directing new windfall revenue from the Oil and Gas Emergency School Tax and from Federal Mineral Leasing payments to the fund beginning in Fiscal Year 2025. This additional investment in the STPF will yield greater distributions from the permanent fund's earnings back to the general fund in the future.

The Land Grant Permanent Fund ("LGPF") is designed solely to benefit the public educational system of the State and other specified institutions. The origins of the LGPF are found in the federal Fergusson Act of 1898, which granted two sections of land in every township for the benefit of the public schools in the territories of New Mexico. Also under this Act, specific acreage was granted to individual education, medical and penal institutions in the territory. The initial grant totaled in excess of 5.5 million acres. In 1910, the Enabling Act granted additional lands to various beneficiaries in New Mexico, including the public schools, which received the largest share. This brought the total lands placed in trust for the common school system and other beneficiaries to over 13 million acres. Over the years, some land has been sold (and the proceeds used to increase the corpus of the LGPF), so the current total is 9.0 million surface acres and 13.4 million subsurface acres.

Pursuant to NMSA 1978, Section 19-1-1 (1912), the State Land Office is charged with the custody and disposition of the land granted to the State. The Commissioner of Public Lands sells or leases these properties in accordance with the provisions of the appropriate statutes. The SIC invests the corpus and income of the LGPF. As of June 30, 2025, the market value of the LGPF was approximately $35.59 billion, an asset increase of approximately $4.19 billion, or 13.3 percent over the prior Fiscal Year. Investment performance for the year ended June 30, 2025, was 10.41 percent, net of fees, and 0.44 percent above the LGPF's policy index. Growth of the LGPF during Fiscal Year 2025, like STPF, was driven by high inflows exceeding the Fiscal Year 2024 fund distributions of $1.34 billion. The corpus of the LGPF is constitutionally protected from appropriation and LGPF assets are not pledged to and may not be used to pay debt. The LGPF is also protected by the Federal Enabling Act of 1910.

In 2021, the New Mexico Legislature passed House Joint Resolution 1 ("HJR1"), a proposed constitutional amendment to increase distributions from the LGPF to provide additional funding for public education. The increased distributions would specifically go toward funding State early childhood education and care programs, as well as increasing primary K–12 funding annually. Voters approved the measure in the November 2022 election and subsequently the United States Congress ratified the change, resulting in an additional distribution from the LGPF in Fiscal Year 2024 which exceeded $240.3 million. The additional 1.25 percent distribution, which is split 60 percent for early childhood education and 40 percent for K-12 school funding, draws only from the Permanent School Fund—the largest component of the LGPF.

In November 1996, the State electorate approved a constitutional amendment regarding distributions from both of the State's permanent funds. Distributions are now calculated on a total return basis rather than an income distribution method. In addition, distributions to beneficiaries are now based on a formula under which a statutorily specified percentage of the previous average five-year market value of the fund is distributed.

In September 2003, the State electorate approved a constitutional amendment increasing the rate of annual distribution from the LGPF from the previous 4.7 percent, to a new base distribution of 5.0 percent of the LGPF's five-year average market value, beginning in Fiscal Year 2005. Certain additional distributions were made to implement and maintain educational reforms as provided by law. An additional 0.8 percent was distributed in Fiscal Years 2005 through 2012, and an additional 0.5 percent was distributed in Fiscal Years 2013 through 2016. In Fiscal Year 2017 distributions returned to the base rate of 5.0 percent and remained at the constitutionally established rate of 5.0 percent until the passage of the constitutional amendment in 2021, which was approved and enacted for Fiscal Year 2024 and all future years, increasing the distributions for education from the School Permanent Fund. All other LGPF beneficiaries continue to receive 5.0 percent of the LGPF's 5-year average value.

Financial Processes and Procedures

State Auditing and Accounting Systems. The financial affairs of every agency in the State are examined and audited annually by the State Auditor, personnel of the State Auditor's office designated by the State Auditor, or by the independent auditors approved by the State Auditor, as required by Section 12-6-3 NMSA 1978. The audits are conducted in accordance with generally accepted governmental auditing standards. The audit reports include financial statements that are presented in accordance with generally accepted governmental accounting principles. For Fiscal Year 2025, 99 percent of the reports, covering nearly 100 percent of the transactional value, received an unmodified opinion.

The State's comprehensive cash reconciliation model, which compares aggregated agency claims on the State General Fund Investment Pool to the associated resources held by the State Treasurer's Office, is a well-established process and has been audited multiple times by independent auditors during the audits of the General Fund, the DFA and the comprehensive State Annual Financial Report. The reviews have deemed the process to be sound and the DFA fully compliant with the requirements of the monthly process. As of June 30, 2025, resources held in the pool were equivalent to the corresponding business unit claims on those resources as certified by the State Controller on August 12, 2025.

State Budgetary and Appropriation Process. All State agencies are required by Section 6-3-19 NMSA 1978 to submit completed budget forms to the DFA Budget Division by September 1 of each year. Guidelines and forms are provided to State agencies in advance of the September 1 deadline. Budget hearings to examine the merits of budget requests are scheduled through the fall and are usually completed by mid-December. The DFA Budget Division presents comprehensive budget recommendations to the Governor, as required by NMSA (1978-1999) Section 6-3-15(B).

The Governor is required by Section 6-3-21 NMSA 1978 to submit a budget for the upcoming Fiscal Year to the Legislature in early January. The Governor's budget includes the executive recommendations for public education; higher education; State agencies; and historical information on prior expenditures, revenues and revenue projections, among other information. The State budget is contained in a General Appropriation Act, which also may contain proposals for supplemental and deficiency appropriations for the current Fiscal Year.

Upon passage by the Legislature, the Governor may sign the General Appropriation Act, veto it, veto line items or veto parts of it. After the Governor has signed the General Appropriation Act, the DFA Budget Division approves the agency budgets and monitors the expenditure of the funds beginning on July 1, the first day of the Fiscal Year.

State Treasurer's Office Investment Responsibilities. Pursuant to Sections 6-10-10(I) through 6-10-10(O) NMSA 1978, the State Treasurer, with the advice and consent of the State Board of Finance, may invest money not immediately needed for government operations. These investment responsibilities are conducted in accordance with the State Treasurer's Investment Policy (the "Investment Policy"), adopted by the State Treasurer and approved in whole by the State Board of Finance on December 17, 2019 and as portions are supplemented from time to time. The Investment Policy states that in keeping with the office's fiduciary responsibility, all investment decisions made by the State Treasurer will adhere to the following three fundamental principles: safety, liquidity and return. The Investment Policy applies to all financial assets of the State invested by the Treasurer in the exercise of the Treasurer's statutory authority or invested as directed by other agencies that have specific investment authority and for which the Treasurer acts as the investing authority. The State Treasurer is the investing authority for the State's General Fund Investment Pool, the Local Government Investment Pools, Bond Proceeds Investment Pools, the Severance Tax Bonding Fund and bond debt service funds.

In accordance with the Investment Policy, the State Treasurer's Investment Council (the "Investment Council") is appointed by the State Treasurer and the Board. The Investment Council is an advisory council that reviews investment reporting and any other matters of the State Treasurer's choosing. The Investment Council shall consist of five (5) voting members: the State Treasurer or designee; a member of the Treasurer's staff upon appointment by the Treasurer or designee; the director of the State Board of Finance or designee; and two members who are participants in the private investment community or have expert knowledge or professional experience in the subject of public finance or public money investing, of which one member will be appointed by the State Treasurer and approved by the State Board of Finance and one member will be appointed by the State Board of Finance and approved by the State Treasurer. The member of the Treasurer's staff shall be selected in a manner consistent with maintaining a separation of responsibilities between the State Treasurer's Office investment managers and the members of the Investment Council.

In addition to the Investment Council oversight and recommendations, the State Treasurer contracts with an independent investment advisor to provide guidance and advice on investments, market conditions and benchmarks. The investment advisor provides quarterly performance reports on all of the State Treasurer's portfolios and information relating to the economic outlook and market trends.

Cybersecurity Risk Management

The State's operations are increasingly dependent on information technologies and services, which are exposed to cybersecurity risks and cyber incidents or attacks. Despite the State's efforts and processes to prevent data incursions, its electronic devices, as well as its servers, computer systems, and those of third parties used in the State's operations are vulnerable to cybersecurity risks, including, but not limited to, cyberattacks such as viruses and worms, phishing attacks, denial-of-service attacks, physical or electronic break-ins, employee theft or misuse, and similar disruptions from unauthorized tampering with State servers and computer systems or those of third parties used in the State's operations, which could lead to interruptions, delays, loss of critical data, unauthorized access to user data, and loss of stakeholder confidence. The State may also be impacted by the information technologies and services of other entities serving the State. Any cyberattack that attempts to obtain the State's data and assets, disrupt its service, or otherwise access its systems, or those of third parties, if successful, could adversely affect the State's business and operations, operating results, and financial condition.

In light of these risks, and in an effort to proactively mitigate any potential cybersecurity threats, the State has previously engaged a third-party service provider to perform an annual cybersecurity assessment. The threat of data incursions is always fluid, and as such, the State anticipates the continued monitoring of its security posture as a regular practice by way of remediating known issues and

implementing alerting procedures to proactively resolve new issues that may arise. Additionally, the State has procured an appropriate level of cyber-insurance.

Climate Change

Hazards relating to climate change include sea level rise, flooding, heat wave, drought, wildfire and severe storm and wind, all of which may have adverse effects on economic activity and property values in the State. Any such events, if unmitigated, may also have major impacts upon the infrastructure and facilities of the State and industrial and commercial activities in the State.

In recent years, portions of the State have experienced wildfires that have burned thousands of acres and destroyed hundreds of homes and structures. It is not possible for the State to make any representation regarding the extent to which future wildfires could cause reduced economic activity within the State or the extent to which future wildfires may impact industrial and commercial activities in the State.

Economic and Demographic Characteristics

As of 2024, New Mexico is the 35th largest state by population and the fifth largest in land area. The population of the State as of the time of the 2020 United States Census was 2,106,319. From 2014 to 2020, the State's population grew 0.77 percent, while the national population grew 3.49 percent. The estimated population for 2025, as of March 2026 is 2,130,256.

There are four Metropolitan Statistical Areas ("MSAs") in the State. The Albuquerque MSA is comprised of Bernalillo, Sandoval, Torrance and Valencia Counties; the Las Cruces MSA is comprised of Doña Ana County; the Santa Fe MSA is comprised of Santa Fe County; and the Farmington MSA is comprised of San Juan County. The following table sets forth information on population growth in New Mexico and nationally.

TABLE A-6
Population New Mexico and the United States
2016-2025

Year [1, 3]	Population [2]		Annual Percentage Change	
	New Mexico	United States	New Mexico	United States
2016	2,091,630	322,941,311	--	--
2017	2,091,784	324,985,539	0.0%	0.6%
2018	2,092,741	326,687,501	0.0	0.5
2019	2,096,829	328,239,523	0.2	0.5
2020	2,118,606	331,577,720	1.0	1.0
2021	2,117,300	332,100,166	(0.1)	0.2
2022	2,112,859	333,996,304	(0.2)	0.6
2023	2,119,349	336,755,052	0.3	0.8
2024	2,126,774	340,003,797	0.4	1.0
2025	2,125,498	341,784,857	(0.1)	0.5

[1] All estimates are subject to change.
[2] As of July 1, population figures are stated as intercensal estimates.
[3] Population estimates for 2020 through 2025 are from April 1, 2020 through July 1, 2025, as provided by the US Census Bureau, released in March 2026. These population estimates are based on the 2020 Modified Age and Race Census "(MARC") file and account for updates from various reviews and revisions. The estimates are calculated by adding births, subtracting deaths, and including net migration to the April 1, 2020 base. All geographic boundaries used are as of January 1, 2025. For detailed methodology, refer to the Census Bureau's website.

Major industries in the State of New Mexico include oil and natural gas production, tourism and retail, healthcare, government, mining, and increasingly, renewable energy and aerospace. Major federally funded scientific research facilities such as Los Alamos National Laboratory, Sandia National Laboratories in Albuquerque, and the White Sands Missile Range are significant contributors to the State's economy. Additionally, technology, film and television production, and agriculture are important components of New Mexico's industry landscape.

According to the United States Bureau of Economic Analysis, the employment information previously provided in this Annual Financial Information Filing (and contained herein for historical purposes in Table 20) was discontinued on September 27, 2024 and is no longer available. For the most recent state employment sector information, please see the information contained in Table A-7 as provided by the New Mexico Department of Workforce Solutions.

Cabinet Secretary Wayne Propst
Deputy Cabinet Secretary Renee Ward
Acting State Controller Mark Melhoff

Governor Michelle Lujan Grisham

To the Governor, the New Mexico Legislature, and the Citizens of New Mexico:

In accordance with Chapter 6-5-4.1 of the New Mexico Statutes Annotated 1978 (NMSA 1978), the Financial Control Division of the Department of Finance and Administration (DFA) respectfully transmits the State of New Mexico's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2025.

The ACFR presents the financial position and operating results of the state, compliant with generally accepted accounting principles (GAAP) applicable to state and local governments, as established by the Governmental Accounting Standards Board (GASB). The purpose of this report is to provide complete and reliable information as a basis for management decisions, assessing adherence to and compliance with legal requirements and evaluating stewardship of the state's assets. The basic financial statements and required supplemental information includes a required narrative introduction, referred to as Management's Discussion and Analysis (MD&A). This transmittal letter compliments the MD&A, which is located immediately following the independent auditors' report, and should be read in conjunction with this letter.

CliftonLarsonAllen LLP (CLA), an independent accounting firm, has audited the basic financial statements contained within this report. Their audit was conducted in accordance with the generally accepted government auditing standards and the auditor's report precedes the basic financial statements. The goal of an independent audit is to provide reasonable assurance that the State of New Mexico's basic financial statements for the fiscal year ended June 30, 2025, are free of material misstatement. Independent audit procedures include examining, on a test basis, supporting amounts and disclosures, assessing the accounting principles used, reviewing of any significant estimates made by management, and evaluating the overall basic financial statement presentation. An audit also includes consideration of internal controls over financial reporting as a basis for designing audit procedures that are appropriate under the circumstances, but not for expressing an opinion on the effectiveness of the state's internal controls over financial reporting. Accordingly, the independent auditor expressed no opinion on internal controls over financial reporting.

Under state statute (12.6.3 NMSA 1978), each state agency that is reported together in this ACFR must be audited separately each year. To avoid duplication of effort, the ACFR utilizes the Group Audit Standards. The standards provide requirements and guidance for audits of group financial statements, particularly those in which part of the work is performed by auditors other than the auditor who expresses the opinion on the financial statements of the group.

ECONOMIC CONDITIONS AND OUTLOOK

New Mexico utilizes a consensus revenue estimating group (CREG) composed of legislative and executive branch economists to forecast General Fund revenue for the state. The Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations.

The CREG bases its state general revenue forecast on forecasts of the U.S. economy from Moody's Analytics and IHS Market in combination with forecasts of New Mexico's economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs also include data and information

Docusign Envelope ID: 6FBA74B6-7451-4FB3-BF7D-FF09C473C295

provided by state agencies, and other national data sources such as the Energy Information Administration, Bureau of Labor Statistics, Bureau of Economic Analysis, and the U.S. Census Bureau. Historical information on New Mexico's value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system. Product price forecasts are derived from national economic forecasting services and other sources.

New Mexico's revenues are highly sensitive to boom-and-bust cycles in the energy industry; therefore, the CREG conducts a stress test on state revenues during the process. The establishment and use of stress-testing hedges against an economic downturn or an unforeseen downswing in the energy sector. Stress testing allows for targeting appropriate levels of general fund reserves while safeguarding the state's budget at the same time.

New Mexico's economy showed slow positive growth in fiscal year 2025, with the real gross domestic product expanding by 1.5 percent on a year-over-year basis. The wages and salaries in the state increased by 5.9 percent and the total personal income grew by 4.7 percent. In the same period, employment in New Mexico increased by 1.97 percent, which means the state added approximately 17,500 jobs. During fiscal year 2025, the Construction, Education and Health Services, State Government, Professional & Business Services, Financial Activities and the Mining sectors created 8,100 jobs, 7,000 jobs, 2,300 jobs, 1,900 jobs, 1,800 jobs, and 700 jobs respectively.

LONG-TERM FINANCING

New Mexico's Constitution and laws authorize the state to issue general obligation bonds, severance tax bonds and revenue bonds to finance or refinance the cost of state capital projects. General obligation bonds are secured by the full faith and credit of the state and are repaid from a dedicated statewide property tax. Article 9, Section 8 of the New Mexico Constitution limits general obligation indebtedness to no more than one percent of the assessed valuation of all the property subject to taxation in the state. Severance Tax Bonds are used to finance statewide capital projects that have been authorized by the Legislature and approved by the Governor. Severance and Supplemental Severance Tax Bonds are repaid from revenues deposited into the Severance Tax Bonding Fund, which primarily includes taxes on mineral production in the state. The state continues to maintain a strong creditworthiness rating from Moody's Investors Services and Standard and Poor's Corporation which recently increased the state’s outlook from stable to positive based on actions taken by the Executive and Legislature.

ACKNOWLEDGMENTS

This report could not have been prepared without the cooperation of state agencies, the Legislature, and the Judiciary. Executive management of the Department of Finance and Administration would also like to express our gratitude to the dedicated professionals in the State Financial Reporting and Accountability Bureau, whose work made possible the preparation of this report. The coordinated and collaborative effort has produced a report that will provide a means for government, the financial community, decision makers, and concerned citizens to better understand and evaluate the state's financial condition.

Sincerely,

Signed by:
6EB4D958A89A432...

Wayne Propst
Cabinet Secretary

INDEPENDENT AUDITORS' REPORT

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Mr. Wayne Propst, Secretary of the New Mexico Department of Finance and Administration,
Mr. Mark Melhoff, Acting State Controller of the New Mexico Department of Finance and Administration, and
Mr. Joseph M. Maestas, PE, CFE New Mexico State Auditor

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the State of New Mexico's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of New Mexico, as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of certain components, which these percentages of assets and revenues of the various opinion units as of June 30, 2025 audited by other auditors is represented in the following table. Those statements were audited by other auditors whose report has been furnished to us, and our opinions, insofar as it relates to the amounts included for certain components, is based solely on the reports of the other auditors.

Percentage Audited by Other Auditors

Government-Wide	**Total Assets**	**Total Revenues**
Governmental activities	84%	55%
Business-type activities	95%	99%
Aggregate discretely presented component units	60%	66%
Fund Statements		
Major governmental fund - General Fund	75%	52%
Major governmental fund - Severance Tax Permanent Fund	100%	100%

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

Major governmental fund - Land Grant Permanent Fund	100%	100%
Major enterprise fund - Educational Institutions Fund	100%	100%
Aggregate remaining fund information	75%	59%

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the State of New Mexico and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

Change in Accounting Principle

As discussed in Notes 1 and 9 to the financial statements, the State adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 101, Compensated Absences, as of July 1, 2024. Accordingly, the beginning net position for the governmental activities has been restated to reflect this change in accounting principle. Our opinions are not modified with respect to this matter.

Restatement

As discussed in Note 9 to the financial statements, opening net position to the government-wide, business-type activities, general fund, capital projects fund, internal service funds, and component units were restated due to various reasons. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the State of New Mexico's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of State of New Mexico's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about State of New Mexico's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Budgetary Comparison Schedule – General Fund and Notes to Budgetary Reporting, Schedules of Changes in Net Pension Liability, Schedule of Changes in Net OPEB Liability; Schedules of Net Pension Liability, Schedules of Net OPEB Liability, Schedules of Employer Contributions - Pension, Schedules of Employer Contributions – OPEB, Schedules of Investment Returns - Pension, Schedule of Investment Returns – OPEB, Schedule of Actuarial Methods and Assumptions – All Retirement Systems, Schedule of Actuarial Methods and Assumptions

– New Mexico Retiree Health Care Authority, Schedule of the State of New Mexico's Proportionate Share of the Net Pension Liability, Schedule of the State of New Mexico's Proportionate Share of the Net OPEB Liability, and Schedule of the State's Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of New Mexico's basic financial statements. The combining statements and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS by us and other auditors. In our opinion, the combining statements and individual fund financial statements and schedules is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections and exit conference but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 6, 2026, on our consideration of the State of New Mexico's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements

and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of New Mexico's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering State of New Mexico's internal control over financial reporting and compliance.

INTRODUCTION

The following Management's Discussion and Analysis (MD&A) is required supplementary information to the State of New Mexico's financial statements. It describes and analyzes the financial performance and position of the state, and also provides an overview of the State's activities for the fiscal year ended June 30, 2025. Please read it in conjunction with the transmittal letter in the Introductory Section of this report and with the State's financial statements that follow this section. The subsequent information is highly summarized, and in order to gain a comprehensive understanding of the State's financial condition it should be reviewed in its entirety. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

Government-wide

Net Position of the Primary Government

- The primary government (governmental activities and business-type activities) ended fiscal year 2025 with a net position of $82.3 billion, an increase of $11.8 billion, or 16.6 percent, from the previous year.
- The net position is comprised of $10.8 billion in net investment in capital assets, $75.6 billion in restricted, and a deficit $4.1 billion in unrestricted, excluding component units.
- As a result of operating activities, the primary government's total net position increased by $11.8 billion, or 16.6 percent, in fiscal year 2025 when compared to the previous year's ending net position. The net position of governmental activities increased $11 billion, or 16.2 percent, from previous year's ending net position.
- Program revenues for the primary government increased by $332.8 million or 1.5 percent on a year to year basis. Taxes and other general revenues increased by 11.8 percent from the previous year. Expenses of $31.9 billion, increased by $2.1 billion, with the majority of the increase being in Highway and Transportation and Public Safety.
- The net position of the business-type activities increased by $802.2 million, excluding the restatement, or 26.1 percent, from the previous year's ending net position. The business-type activities from the prior fiscal year saw an increase in total revenue of $279.4 million and a decrease in expenses by $664.1 million. Program revenue from the prior fiscal year saw a decrease of $27.8 million, while transfers showed an increase of $108.7 million.

Long-term Debt

- The State's long-term bonded debt decreased a net of $522.6 million for both governmental and business-type activities, combined, due to principal payments made. Additionally, no new bonds were issued relating to both governmental and business-type activities. See Note 8 for more detailed information on long-term liabilities. More detailed information regarding the government-wide, fund level, and long-term debt activities can be found in the capital asset and debt administration section of this management's discussion and analysis (MD&A).

Fund Level

Governmental Funds

- As of June 30, 2025, the State reported an ending fund balance of $77 billion, an increase of $10.9 billion, or 16.5 percent, from fiscal year 2024.
- Year to year there was an increase in revenue of $2.6 billion, primarily the result of an increase in income taxes and investment income. Year to year, expenditures decreased by $163.9 million.
- The unassigned fund balance as of the end of fiscal year 2025 was $962.7 million.

Proprietary Funds

- As of June 30, 2025, the State reported an ending net position of $3.9 billion, an increase of $802.2 million, excluding the restatement, or 26.1 percent, from fiscal year 2024.

OVERVIEW OF THE FINANCIAL STATEMENTS

The focus of this annual report is on reporting for the state as a whole and on the major individual funds. The report presents a more comprehensive view of the state's financial activities. The Financial Section of this Annual Financial Report presents the State's financial position and activities in four parts:

- Management's Discussion and Analysis (this part)
- Basic Financial Statements
- Government-wide Financial Statements
- Fund Financial Statements
- Notes to the Financial Statements
- Required Supplementary Information other than MD&A
- Other Supplementary Information presenting combining statements and schedules

This report also includes statistical data.

Reporting on the State as a Whole

Government-wide Statements

The government-wide financial statements are designed to present an overall picture of the financial position of the state. These statements consist of the statement of net position and the statement of activities, which are prepared using the economic resources measurement focus and the accrual basis of accounting. This means that all revenues earned and expenses incurred during the year are included, regardless of when cash is received or disbursed, producing a view of financial position similar to that presented by most private sector companies.

The statement of net position combines and consolidates the government's current financial resources with capital assets and long-term obligations. This statement includes all of the government's assets, deferred outflows, liabilities, and deferred inflows. Net position represents one measure of the state's financial health. Other indicators of the state's financial health include the condition of its facilities, roads and highways (infrastructure) and economic trends affecting the state's future tax revenues.

The statement of activities focuses on both the gross and net cost of various activities (governmental, business-type and component units). These costs are paid by the state's tax revenues, charges for services and other revenues. This statement summarizes the cost of providing (or the subsidy provided by) specific government services and includes all current year revenues and expenses.

The government-wide statement of net position and the statement of activities divide the state's activities into the following three types:

Governmental Activities
The state's basic services are reported here, including general government, education, transportation, health and human services, public safety and corrections, judicial, natural resources and recreation, legislative, and regulatory services. Taxes, fees and federal grants finance most of these activities.

Business-type Activities
Activities for which the state charges a fee to customers to pay most or all of the costs of certain services it provides are reported as business-type activities. The state's institutions of higher education are included as business-type activities, as well as unemployment insurance, public schools insurance, medical centers, magazine publication, state fair, state infrastructure bank, environment department, corrections industries, and industries for the blind.

Component Units
Component units are legally separate organizations for which the state is either financially accountable or the nature and significance of their relationship with the state is such that exclusion would cause the state's financial statements to be misleading or incomplete. The state has approximately eighty-three (83) discretely presented component units. Financial information for these entities is presented separately in the supplemental statements and in the notes. The State also has ten blended component units, all of which are component units of higher education institutions. The financial information for "blended" component units is included with the information of the parent unit. Standards for blending component units are issued by the Government Accounting Standards Board.

Reporting on the State's Most Significant Funds
Fund Financial Statements
Fund financial statements provide additional detail about the state's financial position and activities. Some information presented in the fund financial statements differs from the government-wide financial statements due to the perspective and basis of accounting used. Funds are presented in the fund-level statements based on criteria set by the Governmental Accounting Standards Board (GASB). A fund is a separate accounting entity with a self-balancing set of accounts. The state uses funds to keep track of sources of funding and spending related to specific activities. Some funds are required by law to exist, while others are established internally to maintain control over a particular activity.

All of the State's funds are divided into the following categories, each of which uses a different accounting approach:

Governmental Funds
A majority of the state's activity is reported in the governmental funds. Reporting of these funds focuses on the flow of money into and out of the funds and amounts remaining at fiscal year-end for future spending. Governmental funds are accounted for using the modified accrual basis of accounting, which measures cash and other assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the state's general governmental operations and the basic services it provides. This information helps determine the level of resources available for the state's programs. The reconciliations following the fund financial statements explain the differences between the governmental activities column reported on the government-wide statement of net position and the government-wide statement of activities, and the governmental funds reported on the fund

financial statements. The general fund, debt service fund, capital projects fund, severance tax fund and land grant fund are reported as major governmental funds.

Proprietary Funds
When the state charges customers for services it provides, these activities are generally reported in proprietary funds. Services provided to outside (non-governmental) customers are reported in enterprise funds, a type of proprietary funds, and are accounted for using the economic resources measurement focus and the accrual basis of accounting. These are the same business-type activities reported in the government-wide financial statements, but are reported here to provide information at the fund level. Activities whose customers are primarily other state agencies (e.g., motor pool) are accounted for in internal service funds. The internal service fund activities are consolidated with the governmental activities in the government-wide statements because those services predominantly benefit governmental rather than business-type activities.

Fiduciary Funds
Fiduciary funds account for assets held in a trustee or agency capacity for others. All state fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. The activities are reported separately from other financial activities because the state cannot use the assets to finance its operations. The state's fiduciary responsibilities include ensuring that the assets reported in these funds are used for their intended purpose. Fiduciary funds are accounted for using the economic resources measurement focus and the accrual basis accounting.

Reconciliation between Government-wide and Fund Statements
The financial statements include schedules that reconcile and explain the differences between the amounts reported for governmental activities on the government-wide statements (accrual accounting, long-term focus) with amounts reported on the governmental fund statements (modified accrual accounting, short-term focus).

The following are some of the major differences between the two statements:

- Capital assets and long-term debt are included on the government-wide statements, but are not reported on the governmental fund statements.
- Capital outlay spending results in capital assets on the government-wide statements, but are reported as expenditures on the governmental fund statements.
- Bond proceeds result in liabilities on the government-wide statements, but are other financing sources on the governmental fund statements.
- Certain tax revenues that are earned but not yet available are reported as revenue on the government-wide statements, but are deferred inflow of resources on the governmental fund statements.
- Pension related items including Net Pension Liability, Net Pension Asset, and the Deferred Inflows and Outflows of resources related to pensions are included in the government-wide statements and not in the governmental fund statements.
- OPEB related items including Net OPEB Liability and the Deferred Inflows and Outflows of resources related to OPEB are included in the government-wide statements and not in the governmental fund statements

Notes to the Financial Statements
The notes provide additional schedules and information that are essential to a complete understanding of the financial statements. The notes apply to both the government-wide financial statements and the fund financial statements.

Required Supplementary Information (RSI)
Following the Basic Financial Statements are budgetary comparison schedules for major funds with legally adopted budgets. In addition, the RSI includes schedules on the funded status and employer contributions for the State's Defined Benefit Pension Plans and Other Postemployment Benefits Plan. RSI further supports the information in the basic financial statements.

Other Supplementary Information
Supplementary Information includes combining statements for the State's nonmajor proprietary and fiduciary funds. This section also includes schedules which compare budgeted expenditures to actual results at the legal level of control, which is generally the program level of the General Appropriation Acts.

ADJUSTMENTS TO BEGINNING NET POSITION AND FUND BALANCES

While adjustments were made to the opening balances of a number of entities that are part of the primary government, none individually or collectively were significant to merit discussion.

FINANCIAL ANALYSIS OF THE STATE AS A WHOLE

Net Position

- Total Assets and Deferred Outflows of the State as of June 30, 2025, were $103.1 billion, an increase of $11.6 billion or 12.6 percent from prior fiscal year. The majority of the increase is due to increased short- and long-term investments and an increase in other current assets.
- For governmental activities, total assets and deferred outflows were $94.1 billion, an increase of $11 billion, or 13.2 percent.
- For business-type activities, total assets and deferred outflows were $9 billion, increase of $582.7 million or 6.9 percent.
- Total Liabilities and Deferred Inflows as of June 30, 2025, were $20.9 billion, a decrease of $171.7 million or 0.8 percent from prior fiscal year.
- Total liabilities and deferred inflows for governmental activities were $15.7 billion, an increase of $21.4 million, or 0.14 percent.
- For business-type activities, total liabilities and deferred inflows were $5.1 billion, a decrease of $193 million or 3.6 percent.
- The State's total net position of $82.3 billion was $11.8 billion or 16.6 percent higher in fiscal year 2025 compared to the prior year. Of the State's net position, $10 billion was recorded as net investment in capital assets, while $65.4 billion was restricted by state statute or other legal requirements and was not available to finance day-to-day operations of the state. Unrestricted net position was a $4.9 billion deficit. Most of this is attributable to the net pension liability and net OPEB liability. The reporting of these long-term liabilities is mandated by the Governmental Accounting Standards Board.

Changes in Net Position

The State's change in net position as of June 30, 2025 was $11.8 billion, which was $697.3 million more than the 2024 change in net position of $11.1 billion.

The State earned program revenues of $22.5 billion, collected tax revenue of $13.5 billion, and had a gain in general revenues related to investment revenues (expenses) of $6.7 billion. Total revenues for 2025 were $43.7 billion, an increase of $2.8 billion, or 6.7 percent from fiscal year 2024. The expenses of the State were $31.9 billion, an increase of $2.0 billion or 6.9 percent, from fiscal year 2024. Further analysis of the results of changes in the State's financial condition follows the analysis of the State's funds. Net program expenses exceeded net program revenue by $9.4 billion, whereas in fiscal year 2023 this amount was $7.7 billion.

The following schedule and charts summarize the State's total revenues, expenses, and changes in net position for fiscal year 2025:

Governmental Activities

Governmental activities program revenue was $18.6 billion, consisting of operating grants and contributions of $11.3 billion, capital grants and contributions of $605 million, and $6.7 billion in service charges. Program revenues increased $361.6 million from the prior fiscal year, the result of an increase of $256.5 million in charges for services, an $82.5 million increase in operating grants and contributions, and an increase of $21.7 million in capital grants and contributions. Governmental activities expenses increased by $2.1 billion year to year bringing the total to $26.5 billion. All governmental activities except for general control and culture, recreation, and natural resources activities in the government-wide statement of activities had expenses which exceeded program revenues. The health and human services function, and education function account for three quarters of governmental activities expenses and net cost.

The following table shows to what extent the State's governmental activities relied on taxes and other general revenues to cover all of their costs. For fiscal year 2025, state taxes and other general revenues covered 70.1 percent of expenses. The remaining 29.9 percent of the total expenses was covered by charges for services and grants and contributions.

Business-type Activities

Business-type activities generated program revenues of $3.9 billion, including charges for services of $3.3 billion, operating grants and contributions of $476.2 million, and $153.6 million in capital grants and contributions. Total program revenues were $27.8 million less than prior year, mostly attributable to the education institutions. The total expenses for business-type activities were $5.5 billion, an increase of $0.5 billion from the prior year. The largest changes occurred in the unemployment insurance function, where expenses increased by $110.6 million versus the prior year, and in the educational institutions function where expenses increased by $475.9 million. Changes in net position were $801.9 million versus $1.8 billion in the previous year, a decrease of $276 million.

FINANCIAL ANALYSIS OF THE STATE'S GOVERNMENTAL FUNDS

Fund Balances

At June 30, 2025, the State's governmental funds reported combined ending fund balances of $77 billion. The State reported $75.4 billion, or 97.9 percent, as restricted, including $36.5 billion related to the Land Grant Fund, and $11.7 billion associated with the Severance Tax Fund, all established by state laws. Note 1.G.14 contains more details about the fund balance classifications at June 30, 2025. The committed, assigned, nonspendable, and unassigned classifications of fund balance totaled $1.6 billion or 2.1 percent.

Governmental Funds

General Fund

General Fund balance at June 30, 2025 totaled $21.8 billion. Net change in General Fund balance, was an increase of $3.6 billion. The General Fund ended the fiscal year 2025 with an unassigned fund balance of $1 billion.

Budgetary Highlights – General Fund

The initial fiscal year 2025 budget was adopted by the Legislature during the 2024 Regular Session. The General Fund original budgeted revenues for fiscal year 2025 were slightly less than the fiscal year 2024 final budget basis revenues. After budget amendments, the actual expenditures in the General Fund were $3 million below the final budgeted amounts. Refer to the budgetary comparison schedule for the General Fund in the Other Required Supplementary Information section of the Annual Comprehensive Financial Report.

Severance Tax Fund

Fund balance at June 30, 2025, totaled $11.7 billion, an increase of $2 billion, or 20.5 percent, related to an increase in transfers in from other funds.

Land Grant Fund

Fund balance at June 30, 2025 is totaled $36.4 billion, there's an increase of $4.3 billion, or 13.5 percent, related to an increase in interfund transfers.

FINANCIAL ANALYSIS OF THE STATE'S PROPRIETARY FUNDS

Exclusive of Internal Service Funds, the State's proprietary funds reported Net Position of $3.9 billion, an increase of $775.7 million from the prior year net position.

Educational Institutions

Net Position at June 30, 2025, totaled $2.809 billion. Current period activity increased the Net Position of the State's educational institutions by $817.9 million, or 40.6 percent. For the fiscal year 2025, the State transferred $1.6 billion to the State's educational institutions, an increase of $108.7 million, or 7.3 percent from fiscal year 2024.

DISCRETE COMPONENT UNITS

Discretely-presented component units are operations for which the State has financial accountability or the nature and significance of their relationship with the State is such that exclusion would cause the State's financial statements to be misleading or incomplete. For the most part, these entities operate similar to private-sector businesses and the business-type activities described above. All of the State's discrete component units are presented in the financial statements.

The State's discretely presented major component units are:

- New Mexico Finance Authority
- New Mexico Mortgage Finance Authority
- New Mexico Lottery Authority
- University of New Mexico Foundation, Inc.
- New Mexico State University Foundation, Inc.

Complete financial statements of the individual component units can be obtained from their respective administrative offices. Addresses and other additional information about the State's component units are presented in the notes to the financial statements.

CAPITAL ASSETS AND LONG-TERM DEBT ADMINISTRATION

Capital Asset Activity

As of June 30, 2025, the State's net investment in capital assets, for governmental activities totaled $8.2 billion and $2.6 billion for its business-type activities. The state's capital assets include land, buildings, improvements, machinery and equipment, mineral rights, roads, highways and bridges, right to use assets (leased assets), and subscription-based information technology arrangements. The change in the State's investment in capital assets for the current fiscal year was a modest increase of 8.2 percent in total, including a 7.4 percent increase for governmental activities, and an increase of 10.5 percent for business-type activities.

The State has elected to use the depreciation method to account for infrastructure assets (roads and bridges). Under this method, the State allocates the cost of infrastructure assets over their estimated useful lives as depreciation expense. Expenditures to refurbish infrastructure are capitalized and cost depreciated. Under the allowable methodology, termed the modified approach, infrastructure is capitalized and all expenditures except those adding to capacity are expensed. The state did not elect to use the modified approach for infrastructure assets. Costly analyses are also required.

Refer to Note 6 of the financial statements for additional information on capital assets.

Long-term Debt Activity

The State Constitution and Law authorizes the State to issue general obligation bonds, severance tax bonds, and revenue bonds to finance or refinance the cost of State capital outlay projects authorized by law. General obligation bonds are secured by the full faith and credit of the State and payable from legally restricted revenues. During the past year, the State continued to maintain a quality bond rating from Moody's Investors Services (Moody's) and Standard & Poor's Corporation (S&P) on all State bonds.

The State had the following bond ratings at June 30, 2025:

State of New Mexico
Bond Ratings at June 30, 2025

Bonds	Moody's	Standard & Poor's
General Obligation Bonds	Aa2/Positive	AA/Stable
Severance Tax Bonds	Aa3/Positive	AA-/Stable
Supplemental Severance Tax Bonds	A1/Positive	A+/Stable
State Transportation Revenue Bonds Senior Lien	Aa1/Stable	AA+/Stable
State Transportation Revenue Bonds Subordinate Lien	Aa2/Stable	AA/Stable

State of New Mexico did not issue Revenue bond, Tax bond or General Obligation bond during this fiscal year.

Refer to Note 8 to the financial statements for additional information on the State's long-term debt and other liabilities.

ECONOMIC CONDITIONS AND OUTLOOK

Economic Factors Affecting New Mexico's Fiscal Year 2025 Budget

New Mexico utilizes a consensus revenue estimating group (CREG) composed of legislative and executive branch economists to forecast General Fund revenue for the state. The Executive and Legislature work with the same revenue forecast in preparing their respective General Fund operating budget recommendations. The CREG bases its State General revenue forecast on forecasts of the U.S. economy from Moody's Analytics and S&P in combination with forecasts of New Mexico's economy prepared by the University of New Mexico's Bureau of Business and Economic Research. Economic inputs also include data and information provided by state agencies, and other national data sources such as the Energy Information Administration, Bureau of Labor Statistics, Bureau of Economic Analysis, and the U.S. Census Bureau. Historical information on New Mexico's value and volume of crude oil and natural gas produced in the state is derived from the state's GenTax Database reporting system. Product price forecasts are derived from national economic forecasting services and other sources. Additionally, New Mexico's state revenues are highly sensitive to boom-and-bust cycles in the energy industry; therefore, the CREG conducts a stress test on state revenues during the process. The establishment and use of stress-testing hedges against an economic downturn or an unforeseen downswing in the energy sector. Stress-testing allows for targeting appropriate levels of general fund reserves while safeguarding the state's budget at the same time.

Trends in the U.S. Economy

The national economy, as measured by real gross domestic product (GDP), grew by 2.3 percent in fiscal year 2025, demonstrating continued economic resilience. In fiscal years 2023 and 2024, growth was constrained by elevated inflation and recessionary concerns. Moderate expansion in FY25 reflects the lingering effects of Federal Reserve interest rate increases implemented to curb persistent inflation by cooling economic activity and the labor market without triggering a recession.

Inflation continued to moderate during FY25, declining from a peak of 8.4 percent in FY23 to 2.6 percent by the end of the fiscal year. However, in the latter half of FY25 (January 2025 to June 2025), the transition to a new federal administration and shifts in trade and immigration policies introduced additional uncertainty into the macroeconomic outlook. Emerging trade tensions and tighter immigration restrictions have begun to weigh on labor force growth and overall economic momentum. Notably, inflation has trended upward in the second half of 2025. According to the Bureau of Labor Statistics, the September 2025 inflation rate for all items reached 3.0 percent, while the rate for all items excluding food and energy was also 3.0 percent.

In fiscal year 2025, total US employment increased by 1.52 million, representing 1% year-over-year growth from fiscal year 2024. Average hourly wages in the U.S. increased by 3.7%, which was higher than the 2.6% inflation rate.

In fiscal year 2026, the US economy is anticipated to experience sluggish but positive economic growth. Real GDP growth remains below its long-term trend through calendar year 2026, averaging around 2 percent in fiscal year 2026 and 1.9 percent in fiscal year 2027, as high tariffs, slower immigration, and weak job creation weigh on output. According to Moody's Analytics, the Federal Reserve will continue a gradual easing cycle, cutting the federal funds rate from 3.75 percent to roughly 2.75 percent by calendar year 2027 to support an economy facing higher prices from trade frictions and fading fiscal stimulus. The Federal Reserve has reduced interest rates by .25 percentage points in September, October, and December 2025. Moody's Analytics also expects inflation to edge higher through 2026 due to tariff-driven cost pressures before gradually converging toward the 2 percent target in 2027.

New Mexico Economy

New Mexico's economy showed slow positive growth in fiscal year 2025, with the real gross domestic product expanding by 1.5 percent on a year-over-year basis. The wages and salaries in the state increased by 5.9 percent and the total personal income grew by 4.7 percent. In the same period, employment in New Mexico increased by 1.97 percent, which means the state added approximately 17,500 jobs. During fiscal year 2025, the Construction, Education and Health Services, State Government, Professional & Business Services, Financial Activities and the Mining sectors created 8,100 jobs, 7,000 jobs, 2,300 jobs, 1,900 jobs, 1,800 jobs, and 700 jobs respectively.

Oil prices were lower in fiscal year 2025 compared to fiscal year 2024. However, this has been offset by continued record levels of oil production in fiscal year 2025. Oil production in fiscal year 2025 reached 775 million barrels. The record levels of oil production are expected to moderate as the Permian Basin matures. Natural gas prices remained lower in fiscal year 2025. Average New Mexico prices in fiscal year 2025 for crude oil and natural gas were $69.18 per barrel and $3.25 per mcf, respectively.

General Fund Revenue and Reserve Outlook

According to the December 2025 consensus revenue estimate, fiscal year 2025 recurring revenues increased by 4.2 percent compared to fiscal year 2024, reaching a total of $13.596 billion. This growth is primarily driven by increases in general sales and interest earnings, which rose by 6.1 percent and 10.4 percent, respectively. While underlying personal income tax revenues continue to expand, recent legislative adjustments resulted in a slight year-over-year decline of 2.9 percent.

For fiscal year 2025, ending reserves total $3.18 billion, representing 31.1 percent of recurring appropriations, compared with 33 percent, or $3.16 billion, in the prior year. While reserve balances increased modestly in dollar terms, higher recurring appropriations reduced the reserve ratio.

For Fiscal Year 2026, recurring revenues are projected to decline slightly by 1.6 percent compared with Fiscal Year 2025, while non–oil and natural gas–related revenues are expected to grow modestly by 0.9 percent. On a year-over-year basis, gross receipts tax revenue is estimated to increase by 3.6 percent, while total income tax revenue is projected to decline by 17 percent. This decline does not reflect underlying economic weakness; instead, base income tax revenues are growing moderately. The projected decrease is primarily attributable to recent state legislative changes and the impacts of federal legislation (H.R. 1), particularly on corporate income tax collections.

Grand total revenue is projected to grow at a modest but steady pace 0.9 percent in FY26, 1.2 percent in FY27, and 3.9 percent in FY28, supported in FY26 by significant nonrecurring revenue from the State Land Office that offsets the decline in recurring revenue.

The December 2025 consensus estimate also projects State Land Office (SLO) revenue for FY26 at $511.9 million, which is $362.6 million above the expected annual baseline revenue of $149.3 million. This above-trend revenue is considered one-time in nature and is largely attributable to recent SLO actions that released previously restricted state lands and generated pent-up demand for valuable leases. As such, the excess is classified as nonrecurring revenue. This temporary increase also helps offset projected declines in corporate and personal income tax revenues for FY26.

The modest decline in recurring revenue reflects broader national economic headwinds identified by forecasters such as Moody's Analytics, including slower GDP growth, softening labor market conditions, and tariff-related inflationary pressures that are expected to constrain consumer and business activity. Nevertheless, the December 2025 consensus forecast projects overall state revenues to remain positive, underscoring New Mexico's relative economic resilience amid a subdued national outlook.

Oil and natural gas-related revenues, including severance taxes and federal mineral leasing receipts, are expected to remain relatively flat. This is largely due to Senate Bill 26 (2023), which caps general fund growth from the oil and gas emergency school tax and federal mineral leasing revenues at FY23 levels. Under the statute, revenues above the cap are redirected to the Severance Tax Permanent Fund, supporting long-term investment rather than short-term general fund growth.

Finally, total interest earnings, including distributions from the Land Grant Permanent Fund and the Severance Tax Permanent Fund, are projected to increase by 7 percent, or approximately $145 million, in FY26. Interest earnings are expected to continue growing and represent an increasingly significant source of general fund revenue. FY26 ending reserves are projected at $3.37 billion, or 31.2 percent of recurring appropriations (pending 2026 legislative actions).

See accompanying Notes to Financial Statements.

General Fund

This fund is the principal operating fund of the State. It accounts for financial resources of the general government except those required to be accounted for in another fund.

Severance Tax Fund

This fund accounts for the annual portion of severance taxes generated from the production of minerals and other natural resources and distributes the monies to the State General Fund.

Land Grant Fund

This fund accounts for all of the resources of the Land Grant Fund.

Nonmajor Governmental Funds

Combining financial statements for the individual nonmajor governmental funds are presented in the Financial Section - Required and Supplemental Information.

STATE OF NEW MEXICO
RECONCILIATION OF THE BALANCE SHEET
GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION
JUNE 30, 2025
(IN THOUSANDS)

Total Fund Balances - Governmental Funds		$ 76,996,614
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds:		
Land and Other Nondepreciable Assets (Less $29,936 ISF)	$ 2,340,348	
Buildings, Equipment, Infrastructure, and Other Depreciable Assets (Not Including $272,572 in Internal Service Fund Balances)	13,867,789	
Accumulated Depreciation (Less $193,029 ISF)	(7,049,609)	9,158,528
In the fund statements, assets (receivables) not available to provide current resources are offset with deferred inflows of resources. The reduction of the liability and recognition of revenue increases net position in the statement of net position.		435,997
The deferred charge on bond refunding issues is not recognized in the governmental funds, but is recognized in the government-wide statements.		9,793
The net pension asset for the pension fund which has a positive net position is reported in the statement of net position, but not in the funds statements.		32,300
The pension and OPEB-related deferred outflows of resources are not recognized in the government-wide statements, and neither are the deferred inflows of resources.	902,069	
(Less $10,960 and $4,569 for ISF)	(370,798)	531,271
Internal service funds (ISF) are used by management to charge for certain activities, such as insurance, information technology, fleet operations, printing, and telecommunications. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		(264,688)
Accrued interest payable is not recognized in the governmental funds statements.		(29,317)
Long-term liabilities, are not due and payable in the current period and, therefore, are not reported in the fund financial statements:		
Net Pension Liability (Less ISF $54,767)	(4,573,194)	
Net OPEB Liability (Less ISF $5,370)	(419,502)	
Bonds Payable, Including Bond Premiums Net of Amortization	(2,570,626)	
Lease and SBITA Liabilities Not Recognized in Governmental Funds (Less ISF $12,554)	(542,682)	
Compensated Absences, Notes Payable, Contingent Liabilities, and Other Liabilities (Less $2,929 ISF)	(331,829)	(8,437,833)
Total Net Position - Governmental Activities		$ 78,432,665

See accompanying Notes to Financial Statements.

STATE OF NEW MEXICO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
YEAR ENDED JUNE 30, 2025
(IN THOUSANDS)

Net Change in Fund Balances - Total Governmental Funds		$ 10,870,624
The change in Net Position reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital Outlay	$ 1,016,156	
Depreciation/Amortization Expense (Less ISF $28,496)	(537,095)	
Excess of Capital Outlay Over Depreciation Expense		479,061
Net change in deferred inflows of resources, adjustments from prior year (reported) as deferred inflows of resources in the balance sheet - governmental funds and reported as revenue in the statement of activities.)		(66,020)
Capital gain (loss) is not recognized in the fund financial statements, but is in the government-wide.		
Net Value of Assets Disposed of During the Year		(14,534)
Net transfer of capital assets to other funds from governmental funds.		(5,181)
Internal service funds are used by management to charge for certain activities, such as fleet operations, risk management, printing and records, communications services, and information processing. The net revenue (expense) of the internal service funds is reported with governmental activities.		(101)
Bond proceeds, notes, and leases provide current financial resources to governmental activities by issuing debt, which increases long-term liabilities in the statement of net position. Repayments of the bond, notes, and lease principal are expenditures in the governmental funds, but reduce liabilities in the statement of net position:		
Payment of Bond Principal	358,820	
Principal Payment from Refunding	123,455	
Bond Proceeds, Net	(601,182)	(118,907)
Governmental funds report the effect of bond premium and discount items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences.		64,481

See accompanying Notes to Financial Statements.

STATE OF NEW MEXICO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES (CONTINUED)
YEAR ENDED JUNE 30, 2025
(IN THOUSANDS)

Net Change in Fund Balances - Total Governmental Funds (Continued):

The deferred loss (less deferred gain) on refunding bond issues is capitalized and the amortization is reported in the statement of activities.	$ (6,109) -	$ (6,109)
Pension expense and OPEB expense of governmental funds is recognized in the statement of activities but not in the fund statements.		(169,817)
Debt Service payments for lease and SBITA assets		65,994
Lease and SBITA proceeds - issuance of long-term debt (e.g., lease liabilities) provides current financial resources to governmental funds, but has no effect on net position.		(73,890)
The statement of activities is presented on the accrual basis, while the fund statements are presented on the "available resources" basis. This adjustment combines the net change of the following balances:		
Accrued Interest on Bonds Payable	4,175	
Compensated Absences Expense (Less ISF $90)	(13,593)	
Change in prepaid/inventory balances	-	
Pollution Remediation Obligation	(7,348)	
Change in Indian Water Rights Liability	5,500	
Change in other liabilities	(12,493)	
Other	24,408	649
Change in Net Position of Governmental Activities		$ 11,026,250

See accompanying Notes to Financial Statements.

Educational Institutions Fund

This fund accounts for the resources used to operate the seven institutions of higher education and three other schools, which were created by the *Constitution of the State of New Mexico*. These institutions are the University Of New Mexico, New Mexico State University, New Mexico Highlands University, New Mexico Institute of Mining and Technology, Western New Mexico University, Eastern New Mexico University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Visually Handicapped, and the New Mexico School for the Deaf.

Nonmajor Enterprise Funds

Combining financial statements for the individual nonmajor enterprise funds are presented in the Financial Section - Required and Supplemental Information.

Internal Service Fund

Combining financial statements for the internal service funds are presented in the Financial Section - Required and Supplemental Information.

Pension and Other Employee Benefits Trust Funds

These funds account for the resources accumulated and held for the payment of retirement and other benefits under plans operated by the Public Employees Retirement Association, the Educational Retirement Board, and the Retiree Health Care Authority. Combining financial statements for the individual pension trust funds are presented in the Financial Section - Required and Supplemental Information.

External Investment Trust Funds

These funds account for assets held by the State in a trustee capacity. The funds are held in custody for external participants in the New Mexico State Treasurer's Investment Trust Funds and the State Investment Council External Investment Trust Funds. Combining financial statements for the individual external trust funds are presented in the Financial Section - Required and Supplemental Information.

Private Purpose Trust Funds

These funds account for resources held under trust arrangements and which benefit individuals, organizations, and other governmental units. These funds include the Scholarship Fund, the Education Trust Fund, the Water Trust Fund, and the Bartlett Trust Fund. Combining financial statements for the individual private purpose trust funds are presented in the Financial Section - Required and Supplemental Information.

Custodial Funds

These funds are used to report resources held by various State agencies in a purely custodial capacity for external parties.

New Mexico Finance Authority

The New Mexico Finance Authority coordinates the planning and financing of state and local public projects, provides for long-term planning and assessment of state and local capital needs, and improves cooperation among the executive and legislative branches of state government and local governments in financing public projects.

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority assists in the financing of housing for persons of low and moderate income in the State.

New Mexico Lottery Authority

The Lottery Authority was created and organized for establishing and conducting the lottery to provide revenues for the public purposes designated in the Lottery Act, which benefits the educational institutions created by the State Constitution.

University of New Mexico Foundation

The foundation is a nonprofit corporation organized to solicit, receive, hold, invest, and transfer funds for the benefit of the University of New Mexico.

New Mexico State University Foundation

The foundation is a nonprofit corporation organized to solicit, receive, hold, invest, and transfer funds for the benefit of the New Mexico State University.

Nonmajor Component Units

There were sixteen nonmajor component units at June 30, 2025. Their financial information is presented in total. They are as follows: UNM Alumni Association; UNM Lobo Club; New Mexico Tech Foundation; New Mexico Highlands University (NMHU) Foundation; Western New Mexico University Foundation; Eastern New Mexico University (ENMU) Foundation; ENMU Roswell Foundation; ENMU Ruidoso Foundation; Northern New Mexico College Foundation; New Mexico Military Institute Foundation; New Mexico School for the Visually Impaired Foundation; Cumbres & Toltec Scenic Railroad Commission; New Mexico Renewable Transmission Authority; the New Mexico Small Business Investment Corporation, New Mexico State-chartered Charter Schools, and New Mexico Hospital Equipment Loan Council.

See accompanying Notes to Financial Statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of the State of New Mexico (the State) and its component units have been prepared in conformity with generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The State's significant accounting policies are described below. All dollar amounts are expressed in thousands, except when stated.

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Primary government activities are distinguished between *governmental* and *business-type activities*. Governmental activities are generally financed through taxes, intergovernmental revenues, and other nonexchange revenues. The governmental activities column incorporates data from the internal service funds as well as the governmental funds. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

B. Reporting Entity

For financial reporting purposes, the State's financial reporting entity includes the primary government (i.e., legislative agencies, departments and agencies, commissions, the Governor and Cabinet, boards of the Executive Branch, various offices relating to the Judicial Branch, and the 10 educational institutions created by the Constitution of the *State of New Mexico*, Article XII, Section 11). The annual financial report does not include the financial statements of the community colleges or public schools.

The GASB has set forth criteria to be considered in determining financial accountability as defined in GASB Statement No. 14, *The Financial Reporting Entity* (as amended). These criteria include appointing a voting majority of an organization's governing body and 1) the ability of the State to impose its will on that organization or 2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the State. Where a State does not appoint a voting majority of an organization's governing body, GASB standards require inclusion in the reporting entity if an organization is fiscally dependent on the State, its resources are held for the direct benefit of the State or can be accessed by the State, or the relationship is such that it would be misleading to exclude it.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (Continued)

Blended Component Units

The following blended component units are considered to be blended component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority. Except for the University of New Mexico Retiree Welfare Benefit Trust, a fiduciary fund of the University of New Mexico, separately issued financial statements for each of these blended component units can be obtained from the New Mexico State Auditor's Office.

UNM Rainforest Innovations

UNM Rainforest Innovations (formerly known as STC.UNM is a nonprofit corporation formed under the auspices of the 1989 New Mexico University Research Park Act and the New Mexico Nonprofit Corporation Act. The business of the corporation is to manage the commercialization of technologies developed by the University's faculty and manage the real estate development of the Science & Technology Park at the University of New Mexico on the South Campus. UNM Rainforest Innovations, 101 Broadway Blvd. NE, Suite 1100, Albuquerque, NM 87102.

Lobo Development Corporation

Lobo Development Corporation (LDC) was established in October 2007, under the State of New Mexico's University Research Park and Economic Development Act. LDC was established to benefit UNM's Regents in the management and development of University-Owned real estate. The activities of LDC include the acquisition, development, disposition, and rental of University real estate. Lobo Development Corporation, 801 University Blvd. SE, Suite 207, Albuquerque, NM 87106.

Lobo Energy, Inc.

Lobo Energy, Inc. (LEI) was formed by the UNM Regents in July 1998, under the University Research Park Act to be a separate 501(c)(3) corporation wholly owned by UNM. Its responsibilities include the procurement of natural gas and electricity, operations and maintenance of all production facilities, and energy measurement and management systems. Lobo Energy, Inc., 800 Bradbury Dr. SE, Suite 216, Albuquerque, NM 87106.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (Continued)

Blended Component Units (Continued)

University of New Mexico Medical Group (UNMMG)

The UNM Medical Group, Inc., was organized in 2007. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). UNMMG is a nonprofit corporation that was organized under the Act. UNMMG's purpose is to promote, advance, and support the clinical, scientific, educational, research, and charitable purposes of the School of Medicine and the University of New Mexico Health Sciences Center. UNMMG is responsible for the delivery of patient clinical services, practice oversight, and management of the professional medical practice of UNM. University of New Mexico Medical Group, 800 Bradbury Drive SE, Suite 116, Albuquerque, NM 87106.

UNM - Sandoval Regional Medical Center (SRMC)

In 2009, the UNM Regents approved formation of the Medical Center. The Laws of 1989, Chapter 264, as amended created University Research Park and Economic Development Act (the Act). SRMC is a nonprofit corporation that was organized under the Act. The creation of SRMC resulted from collaborations between the University of New Mexico Medical Group and University of New Mexico Hospital and hold representation on the SRMC board of directors. SRMC's purpose is to serve as a community based academic healthcare facility. The administrative offices are located at 3001 Broadmoor Blvd. NE, Rio Rancho, NM 87144.

Arrowhead Center, Inc.

Arrowhead Center, Inc. was organized pursuant to the provisions of the State of New Mexico University Research Park Act of 1989. It provides a financial benefit to New Mexico State University (NMSU) and was established to foster economic development within the State through the development of research parks and University real property as well as to protect, license, and market intellectual property developed by faculty, staff, and students of NMSU, as well as members of the community. Arrowhead Center, Inc., MSC 700, P.O. Box 30001, Las Cruces, NM 88003.

New Mexico Institute of Mining & Technology Employee Benefit Trust

This trust is a single-employer benefit plan organized as a legally formed trust that is tax exempt under section 501(c)(9) of the Internal Revenue Code (IRC). The trust was established to provide a funding vehicle to which participants and the Institute contribute to prefund, in part, the cost of other postemployment benefits for eligible retirees of the Institute.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (Continued)

Blended Component Units (Continued)

New Mexico Institute of Mining & Technology Research Park Corporation

This is a New Mexico nonprofit corporation organized to assist the Institute by making available funds to pursue technology research and other programs carried out by the Institute. The Institute is the sole member of the Corporation and appoints the Board of the Corporation.

New Mexico Highlands University Highlands Stable Isotopes Corporation

Highlands Stable Isotopes Corporation was granted all of the powers available to it pursuant to paragraph 21-28-6 NMSA 1978 of the University – Research Park and Economic Development Act. The new corporation was filed under the New Mexico Nonprofit Corporation Act and was granted Section 501(c)(3) of the IRC of 1986 statutes in September of 2018. The purpose of the corporation is to conduct research and research commercialization in accordance with the needs of the University.

Discretely Presented Component Units

In the government-wide financial statements, discrete presentation entails reporting component unit financial data in a column separate from the financial data of the State. These component units are entities that are legally separate from the State, but are financially accountable to the State. Complete financial statements are available at the address given.

New Mexico Finance Authority (NMFA)

The Laws of 1992, Chapter 61, as amended, created the NMFA. The purpose of the New Mexico Authority Act is to create a governmental instrumentality to coordinate the planning and financing of state and local public projects, to provide for long-term planning and assessment of state and local capital needs, and to improve cooperation among the executive and legislative branches of state government and local governments in financing public projects. The NMFA is considered a component unit of the State as the Governor appoints a majority of its Board. The NMFA is composed of 11 members, at which a majority of those members serve at the pleasure of the Governor. New Mexico Finance Authority, 207 Shelby Street, Santa Fe, NM 87501.

New Mexico Mortgage Finance Authority (NMMFA)

The Laws of 1975, Chapter 303, as amended, created the NMMFA. The purpose of the NMMFA act is to create a separate public body apart from the State to facilitate programs to assist in the financing of housing for persons of low- and moderate-income within the State. The NMMFA is considered a component unit of the State because the Governor appoints a majority of its Board. The NMMFA is composed of seven members, at which a majority of those members serve at the pleasure of the Governor. NMMFA fiscal year-end is September 30. This year-end differs for all other state entities, which have a June 30 fiscal year-end. New Mexico Mortgage Finance Authority, 7425 Jefferson Street NE, Albuquerque, NM 87109.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

New Mexico Lottery Authority (Lottery Authority)

The Laws of 1995, Chapter 155, as amended, created the Lottery Authority Act. The purpose of the Lottery Authority Act is to create a separate public body apart from the State, to conduct the New Mexico state lottery, and provide revenues for public purposes designated by the Act. The State's higher education institutions receive financial benefit. The Lottery Authority is considered a component unit of the State because the Governor appoints members of its Board. The Board is composed of seven members, at which those members serve at the pleasure of the Governor. New Mexico Lottery Authority, 4511 Osuna Rd NE, Albuquerque, NM 87109.

The following two component units are considered to be component units of the State Institutions of Higher Education, and are thus component units of the State. Each is financially accountable to the respective institution, and the Board of Regents (governing board) of each institution controls the finances and has appointment power over the unit's governing authority.

University of New Mexico Foundation, Inc. (UNM Foundation)

UNM Foundation is a nonprofit corporation, organized in 1979 to solicit, receive, distribute, invest, and manage funds for the benefit of the University of New Mexico. The majority of the Foundation's investments are managed by the University. The University of New Mexico Foundation, Inc., Two Woodward Center, 700 Lomas NE, Bldg. 2-203, Albuquerque, NM 87102.

New Mexico State University Foundation, Inc. (NMSU Foundation)

NMS Foundation is a nonprofit corporation formed for the purpose of acquiring and managing charitable gifts, including endowed funds, to be used for the sole benefit of New Mexico State University. The Foundation reports on the FASB basis of accounting. New Mexico State University Foundation, Inc., P.O. Box 3590, Las Cruces, NM 88003-3590.

Nonmajor Component Units

The State's nonmajor component units have been determined to be financially accountable to the State. Nonmajor component units are: University of New Mexico Alumni Association, University of New Mexico Lobo Club, New Mexico Tech Foundation, New Mexico Highlands University Foundation, Inc., Western New Mexico University Foundation, Inc., Eastern New Mexico University Foundation, Eastern New Mexico University Roswell Foundation, Eastern New Mexico University Ruidoso Foundation, Northern New Mexico College Foundation, New Mexico Military Institute (NMMI) Foundation, Inc., New Mexico School for the Blind and Visually Impaired Foundation, Cumbres & Toltec Scenic Railroad Commission, New Mexico Renewable Transmission Authority, New Mexico Small Business Investment Corporation, New Mexico State-chartered Charter Schools, and New Mexico Hospital Equipment Loan Council.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Presentation - Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the State's Enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the State has five major discretely presented component units and 16 nonmajor component units. Component units are shown in total in the government-wide financial statements with a combining statement to show the details. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation – Fund Financial Statements

Fund Financial Statements

The fund financial statements provide information about the State's funds, including its fiduciary funds. Separate statements are presented for each fund category – governmental, proprietary, and fiduciary. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining enterprise funds are aggregated and reported as nonmajor funds. The internal service fund is reported in a separate column on the proprietary funds financial statements. The accounts of the State are organized based on funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues, and expenditures.

The State reports the following governmental funds:

Major Funds

General Fund

This fund accounts for the financial resources of the State, except those required to be accounted for in another fund. This is the State's primary operating fund.

Severance Tax Fund

The Severance Tax Fund accounts for the proceeds of severance taxes, which are levied by the State on certain natural resources extracted from State lands. Severance tax revenues are first applied to pay the required debt service on Severance Tax Bonds issued by the State. Remaining severance tax revenues are then transferred to the Severance Tax Fund, administered by the State Investment Council. Distributions from this fund are stipulated by the State Constitution. This is a special revenue fund that includes the excess of amounts not applied to severance tax bond debt service in the debt service fund.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Presentation – Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Major Funds (Continued):

Land Grant Fund

The Land Grant Fund receives royalties and income from trust lands distributed to various entities assigned by the Ferguson Act of 1898. This is a special revenue fund.

Nonmajor Funds

The State's nonmajor governmental funds include the following: Debt Service Fund, Capital Project Fund, and Children's Trust Permanent Fund.

The State reports the following enterprise funds:

Major Fund

Educational Institutions Fund

The Educational Institutions Fund accounts for the activities of the State's 10 educational institutions created by the Constitution of the State of New Mexico in Article XII, Section 11: University of New Mexico, New Mexico State University, Eastern New Mexico University, New Mexico Institute of Mining and Technology, Western New Mexico University, New Mexico Highlands University, Northern New Mexico College, New Mexico Military Institute, New Mexico School for the Blind and Visually Impaired, and New Mexico School for the Deaf.

Nonmajor Funds

The State's nonmajor enterprise funds include the following: Unemployment Insurance Fund, Public Schools Insurance Authority, Miners' Colfax Medical Center, New Mexico Magazine, State Fair, Environment Department Clean Water, Corrections Industries, Industries for the Blind, State Infrastructure Bank, Department of Cultural Affairs Museums Program, and Education Trust Board.

The State reports the following internal service fund:

Internal Service Fund

The State reports the internal service fund type in the proprietary funds statements. The activities accounted for in the internal service fund include fleet operations, risk management, printing and records, communications services, and information processing. In the government-wide financial statements, the Internal Service Fund is included with governmental activities.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Basis of Presentation – Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Additionally, the State reports the following fiduciary fund types:

Pension and Other Employee Benefits Trust Funds

These funds are used to report resources that are required to be held in trust for the members and beneficiaries of pension plans and other employee benefit plans. These funds account for the activities of the Public Employees Retirement Association (PERA), Educational Retirement Board (ERB), the Retiree Health Care Authority (RHCA), the Deferred Compensation Plan, and the UNM Retiree Welfare Benefit Trust.

External Investment Funds

These funds account for assets held by the government in a trustee capacity. These funds are used to account for cash, securities, and other investments held in custody for external participants in the New Mexico State Treasurer's Local Government Investment Pool and the State Investment Council's Investment Pools.

Private-Purpose Trust Funds

These funds are used to report trust arrangements under which principal and income benefit individuals, private organizations, or other governments. These funds include the Scholarship Fund, Higher Education Savings Plan, Bartlett Trust, and Office of State Insurance Trust.

Custodial Funds

These funds are used to report resources held by the State in a purely custodial capacity for external parties.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources.* The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Measurement Focus and Basis of Accounting (Continued)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The State generally considers revenues available if they are collected within 60 days of the end of the current fiscal period. All other revenues are recognized when they are received if they are not susceptible to accrual. Expenditures are generally recorded when a liability is incurred, as under accrual accounting; however, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources.

The fiduciary fund financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting. Fiduciary funds are used to account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments.

Proprietary funds financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting, similar to the government-wide financial statements described previously. Proprietary funds include both enterprise and internal service fund types. Enterprise funds report the activities for which fees are charged to external users for goods and services. Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are student tuition and fees, net of scholarship discounts and allowances, patient services, sales and services, interest on loans, and most federal, state, and local contracts and grants. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The component units' financial statements are reported using the *economic resources measurement focus* and the accrual basis of accounting. The information is presented in order to be consistent with the government-wide statements, and is less detailed than the presentation in each component units separately issued financial statements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Budgetary Information

1. Budgetary Basis of Accounting

The budget is adopted on the modified accrual basis of accounting, per statute, in accordance with procedures prescribed by the Financial Control Division (FCD), Department of Finance and Administration. Per these procedures, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, permission must be obtained from FCD to pay the obligation out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated. The General Fund presented herein includes the general funds of all state agencies. The largest of these general funds are the component appropriation accounts. These appropriation accounts are part of the Department of Finance and Administration. The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as nonappropriated (not budgeted) by the Legislature are the Severance Tax Permanent Fund, the Land Grant Permanent Fund, and the following Enterprise Funds: the Educational Institutions, State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds. The legal level of budgetary control is at the appropriation level.

2. Budget to GAAP Reconciliation

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis, differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Budgetary Information (Continued)

3. Multiple Year Appropriation – Capital Projects Budgets and Special Appropriation Budgets

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These nonoperating budgets primarily serve as a management control tool, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided. Special appropriations budgets for one year are included in the Budgetary Comparison Schedule.

4. Excess of Expenses/Expenditures Over Budget

For the fiscal year ended June 30, 2025, there were none of the State agency's P-code reporting expenses/expenditures exceeding budget authority.

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand, cash on deposit with banks, investment in the State General Fund Investment Pool, Local Government Investment Pool, and cash invested in short-term securities. Cash equivalents include investments in short-term, highly liquid securities having an initial maturity of three months or less. Cash balances not held by the New Mexico State Treasurer (State Treasurer) and controlled by various State officials are generally deposited in interest-bearing accounts or other legally stipulated investments.

2. Investments

Investments are under the control of the State Treasurer, the State Investment Council, and other administrative bodies as determined by law. In certain instances, investments are restricted by law or other legal instruments. Investments are valued at fair value. The fair value of investments is based on published prices and quotations from major investment brokers at current exchange rates as available. For investments where no readily ascertainable fair value exists, management in consultation with their investment advisors, have determined the fair values for the individual investments based on anticipated maturity dates and current interest rates commensurate with the investment's degree of risk. The change in fair value is recognized as a component of investment income in the current year.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance (Continued)

2. Investments (Continued)

The Education Trust Board calculates the net asset value of its units as of the close of The New York Stock Exchange (the Exchange), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. The net asset values of the investments are determined as of the close of the Exchange on each day the Exchange is open for trading. Short-term money market-type debt securities with remaining maturities of 60 days or less are valued at amortized cost (which approximates market value).

3. Investment Pools

State Treasurer - The State is required by statute to deposit any money received with the State Treasurer. Balances maintained at the end of the day are pooled and invested by the State Treasurer in overnight repurchase agreements. All repurchase agreements are collateralized by U.S. Treasury Securities held by the State Treasurer's custodian bank. These pooled balances are collectively called the State General Fund Investment Pool (SGFIP), which also includes the deposits in the Tax-Exempt Bonds Proceeds Investment Pool and Taxable Bond Proceeds Investment Pool. The State General Fund is the State of New Mexico's main operating account. All State revenues are credited to the General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature. The Bond Proceeds Pools consist of pooled assets received through the issuance of taxable and tax-exempt bonds. Because these pooled funds are invested in short-term, highly liquid investments, the individual fund investments in the SGFIP are reported as a cash equivalent.

All interest revenue is allocated to the General Fund unless state statute or trust agreements require allocations of interest to other funds. Interest is allocated based on the average daily balance and average monthly interest rates.

In addition to the SGFIP pooled cash account, the State Treasurer maintains the Local Government Investment Pool (LGIP). The LGIP also includes the deposits in the Reserve Contingency Fund. Cities, counties, other nonstate agencies, and state agencies invest monies with the State Treasurer in the LGIP. Because these pooled funds are subject to redemption limitations, the individual fund investments in the LGIP are reported as investments.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

3. Investment Pools (Continued)

The LGIP, an external investment pool, is not registered with the Security and Exchange Commission (SEC) as an investment company. The investments are recorded at fair value based on quoted market price; however, individual participant balances remain at their carrying cost. The LGIP does not have unit shares. Per Chapter 6-10-10.1F, New Mexico Statutes Annotated (NMSA) 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in the amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. At June 30, 2025, the LGIP carrying cost approximated the fair value. Participation in the LGIP is voluntary. The external portion of LGIP is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the New Mexico State Treasurer's audited financial statements can be obtained by writing the New Mexico State Treasurer, P.O. Box 5135, Santa Fe, NM 87505 or online at https://www.osa.nm.gov/.

Public Employees Retirement Association - The Public Employees Retirement Association created a short-term investment pool (the Pool) to maximize the benefits of the investment diversification and investment earnings. The Judicial, Magistrate, Volunteer Firefighters, and Public Employees Retirement Systems (the Systems) participate in the Pool. The fair value of the investments in the Pool is the same as the value of the pool shares. All investments in the Pool are either SEC registered or are exempt from SEC registration under exemption 3(a)(3) or 4(2) of SEC regulations. Each System's equity percentage in the Pool is based on that System's investment in the pool and will only increase or decrease by additional deposits or withdrawals.

State Investment Council - The State Investment Council (the Council) is responsible for the investment activities of certain state trust funds. The Council's investments are reported in the following categories: governmental activities, business-type activities, private-purpose trust funds, and external investment trust funds. Each of the fund types are participants in the Council's pools. Each pool is composed of units of participation of unlimited quantity. Each unit of participation represents an equal beneficial interest in the respective pool and no unit has priority over any other. Each purchase or sale of units requires written authorization as defined in the joint powers agreements executed between the Council and each participant. All units are purchased by cash payment. Each unit of participation is recorded in book entry form by the Council.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

3. Investment Pools (Continued)

The external portion of the Council's investment pools is reported as a separate investment trust fund. The internal portion, consisting of funds belonging to the State and its component units, has been included in the various funds and component units.

A copy of the Council's report can be obtained by writing the New Mexico State Investment Council, 41 Plaza la Prensa, Santa Fe, NM 87507.

4. Inventories

The governmental funds, except for the Department of Transportation are mandated to use the purchase method of accounting for inventories. Under the purchase method, inventories are recorded as expenditures when purchased. For the consumption method, costs are recorded as expenditures when consumed rather than when purchased.

Inventories of the proprietary funds are valued by using either the average cost, retail inventory, or first-in-first-out (FIFO) methods.

5. Receivables and Loan Receivables

Receivables, net of allowance, in the governmental activities, business-type activities, and fiduciary activities consist mainly of amounts due from the federal government, local governments, customers, patients and applicable insurance companies, taxpayers, students, and others.

Various reimbursement procedures are used for federal awards received by the State. Consequently, timing differences between expenditures and program reimbursements can exist at any time during the fiscal year. Receivable balances at fiscal year-end represent an excess of modified accrual basis expenditures over cash reimbursements received to date. Determining the amount of expenditures reimbursable by the federal government, in some cases, requires management to estimate allowable costs to be charged to the federal government. As a result of this and other issues, management provides an allowance for potential contractual allowances for federal revenue. Any changes in these estimates are recorded in the period that the estimate is changed. Loans are stated at their principal amount. Interest on loans is accrued based on the daily principal balance outstanding, except when a loan has been past due for 90 days. Certain loans are to governmental entities and secured by certain pledged revenues. The loans are being repaid in accordance with their loan agreements.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

6. Capital Assets

Capital assets, which include automobiles, buildings and improvements, furniture and fixtures, software, library books, infrastructure (e.g., roads, bridges, sidewalks, and similar items), machinery and equipment, and portable buildings are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The State defines capital assets as costing at least $5,000 or more when acquired and having an estimated useful life greater than one year. The significant threshold related to aggregate capital asset acquisition for the State is $200,000. If a similar grouping of capital asset acquisition exceeds this amount in total, at the time of purchase, the acquisition will be capitalized.

Capital assets purchased by governmental funds are recorded as expenditures in the governmental fund financial statements. Interest expense for capital asset construction related to governmental activities is not capitalized Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

In accordance with the practices followed by many museums and libraries, museums and library collections are not reported as assets in the accompanying financial statements. Purchases of the items are reported as expenditures. Certain library books, however, are capitalized.

There is no depreciation recorded for land, mineral rights, art, and construction in progress. Buildings, equipment, infrastructure, and other depreciable assets are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure	10 to 40 Years
Land Improvements	15 to 30 Years
Leasehold Improvements	15 Years
Furniture and Fixtures	5 to 7 Years
Machinery and Equipment	5 to 20 Years
Data Processing Equipment	3 to 8 Years
Vehicles and Aircraft	3 to 15 Years
Buildings and Improvements	5 to 75 Years

As provided by GASB standards, the State elected to use the depreciation method to account for infrastructure assets (roads and bridges). This method requires the State to allocate the cost of infrastructure assets over their estimated useful lives as depreciation expense.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

6. Capital Assets (Continued)

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Right-to-use lease assets are initially measured at the present value of payments expected to be made during the lease term, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

SBITA assets are initially measured as the sum of the present value of payments expected to be made during the subscription term, payments associated with the SBITA contract made to the SBITA vendor at the commencement of the subscription term, when applicable, and capitalizable implementation costs, less any SBITA vendor incentives received form the SBITA vendor at the commencement of the SBITA term. SBITA assets are amortized in a systematic and rational manner over the shorter of the subscription term or the useful life of the underlying IT assets.

7. Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

8. Accrued Liabilities

Accrued liabilities include accrued current payroll and fringe benefits payable at year-end. These benefits consist of the employee and employer portions of taxes, insurance, retirement, and other compensation-related withholdings.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

9. Compensated Absences

Qualified employees' vacation leave is accrued at a graduated schedule of 80 to 160 hours per year, depending upon the length of service and employees' hire date. Employees are paid for the accumulated annual leave upon retirement or other termination up to 240 hours. A maximum of 30 days of annual leave (240 hours) may be carried forward into the beginning of the calendar year, with any excess forfeited. Qualified employees sick leave accrued at the rate of four hours per bi-weekly pay period. There is no limit to the amount of sick leave, which an employee may accumulate. Employees are paid for accumulated sick leave annually, or upon retirement or other termination, but only for accumulated sick leave in excess of 600 hours. Annually, employees may be paid 50% of the excess over 600 hours, up to a maximum of 120 hours. Upon retirement or other termination, employees are paid 50% of the excess over 600 hours, up to maximum of 400 hours.

The liability for compensated absences reported in the government-wide and proprietary fund statements consists of leave that has not been used that is attributable to services already rendered, accumulates and is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The liability also includes salary-related payments for these amounts.

10. Unearned Revenue

In the government-wide statements, governmental activities/funds, proprietary fund statements, and fiduciary fund statements, unearned revenue is recorded when cash or other assets are received prior to being earned. GASB Statement 65 requires resources received from another government under voluntary or government-mandated nonexchange transactions before time restrictions are met, but after all other eligibility requirements are met, should be classified as deferred inflows of resources.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

11. Bonds Payable

Bond premiums and discounts and deferred amounts on refunding are deferred and amortized over the life of the bonds using the bonds outstanding method or straight-line method, which approximates the effective interest method. Bonds payable are reported at face amount, with the applicable bond premium or discount and deferred amount on refunding reported separately. In accordance with GASB Statement 65, bond issuance costs are expensed. In the governmental fund financial statements, total bond premium or discount is recognized when the bonds are first issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

12. Insurance Losses and Loss Adjustment Expense

Public Schools Insurance Authority – The New Mexico Public Schools Insurance Authority (PSIA) insurance losses and related adjustment expenses are charged to operations as incurred. The reserves for losses and loss adjustment expenses are determined based upon case-basis evaluations and actuarial projections, and include a provision for claims incurred but not reported. The actuarial projections of ultimate losses on reported claims and the estimate of claims incurred but not reported are based on a composite of PSIA's experience and benefits, property, casualty, and workers' compensation insurance industry data, which supplements PSIA's historical experience and includes the effects of inflation and other factors. Losses are reported net of estimated amounts recoverable from excess insurance, salvage and subrogation, and the deductible portion of claims. Adjustments to the probable ultimate liability for losses and loss adjustment expenses are made continually, based on subsequent developments and experience, and are included in operations as made.

Retiree Health Care Authority - The amount shown for the Retiree Health Care Authority as reserve for losses and loss adjustment expenses is an actuarially calculated estimate of the ultimate costs of settling all incurred but not reported claims as of the fiscal year-end, while the amount shown on the accompanying fiduciary statement of changes in fiduciary net position as losses and loss adjustment expenses represents the change in this estimate during the fiscal year. These reserves represent, in management's opinion, the best estimate of the ultimate cost of settling all reported and unreported claims. There exists a range of variability around the best estimate of the ultimate cost of settling all unpaid claims. Accordingly, the amount reflected in the accompanying financial statements may not ultimately be the actual cost of settling all unpaid claims and the difference may be significant.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

13. Interfund Transactions

Government-Wide Financial Statements

Interfund Activity

In general, eliminations have been made to minimize the double counting of internal activity, including internal service fund type activity. However, interfund services, provided and used between different functional categories, have not been eliminated in order to avoid distorting the direct costs and program revenues of the applicable functions. Operating transfers between governmental and business-type activities are reported at the net amount.

Interfund Balances

Interfund receivables and payables have been eliminated from the government-wide statement of net position, except for the residual amounts due between governmental and business-type activities.

Interfund Activity

Interfund transactions for goods sold or services rendered for a price approximating the external exchange value and employee benefit contributions are accounted for as revenues and expenditures/expenses in the funds involved.

Transfers are used to report flows of cash (or other assets) between funds without equivalent flows of assets in return or a requirement for repayment. The State's transfers are based on legislative appropriations or other legal authority.

14. Net Position and Fund Balance

- **Net investment in capital assets.** Consists of capital assets, including restricted capital assets, net of accumulated depreciation and amortization, and reduced by the outstanding balances of bonds, mortgages, notes, lease liabilities, subscription-based information technology arrangements, or other debt attributable to the acquisition, construction, or improvement of such assets. Significant unspent related debt proceeds are not included in the calculation of net investment in capital assets. The unspent portion of the debt is included in restricted for capital projects. The State issues General Obligation bonds and Severance Tax bonds to finance projects for the State and local governments. The Legislature appropriates the bond proceeds from each bond issue to projects throughout the State. Only bonds issued for projects appropriated to State agencies and recognized as a State asset are included in this calculation.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

14. Net Position and Fund Balance (Continued)

- **Restricted net position.** The State reports net position as restricted when constraints placed on net position are a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the government to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

  Amounts designated as either expendable or nonexpendable. Expendable restricted net position includes those funds that may be expended either for a stated purpose or for a general purpose subject to externally imposed stipulations. Nonexpendable restricted net position includes those funds that are required to be retained in perpetuity. Restricted net position includes the State's permanent endowment funds subject to externally imposed restrictions governing their use.

- **Unrestricted net position.** Amounts consist of net position that does not meet the definition of net investment in capital assets or restricted net position.

When both restricted and unrestricted net position are available for use, it is the State's policy to use restricted resources first and then unrestricted resources, as they are needed.

In the governmental fund financial statements, fund balances are classified as nonspendable, restricted, committed, assigned, or unassigned.

- **Nonspendable fund balance.** Amounts that are not in spendable form (such as inventory, prepaid items, or long-term receivables) or are legally or contractually required to remain intact.

- **Restricted fund balance.** Represents those portions of fund balance where constraints placed on the resources are either externally imposed by outside parties or internally imposed by law through constitutional provision or enabling legislation.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (Continued)

14. Net Position and Fund Balance (Continued)

- **Committed fund balance.** Represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Legislature, such as an appropriation or legislation. The State Legislature is the highest level of decision-making authority that can, by passage of legislation, commit fund balance that is not already restricted. Once adopted, the limitation remains in place until similar action takes place, usually in the form of a new budget bill or other legislation.

- **Assigned fund balance.** Amounts constrained by the Legislature's intent to be used for specific purposes by directive of the Legislative Finance Committee of the Legislature or in some cases by legislation. Legislative directives dictate that all fund balances remaining at the end of the fiscal year shall be reverted back to the State General Fund unless the fund is stipulated as nonreverting by the Legislature or by laws or regulations imposed by grantors. If the fund is nonreverting, the agency governing board or department head has the authority to assign a fund balance for a specific use.

- **Unassigned fund balance.** Amounts that are available for any purpose. Positive unassigned amounts are only reported in the General Fund.

The State has not adopted a formal flow assumption policy and, therefore, uses the GASB recommendations; that is, it is the State's policy to use restricted fund balance before using components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is used first, followed by assigned fund balance, and lastly, unassigned fund balance.

H. Revenues and Expenditures/Expenses

In the government-wide statement of activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function for governmental activities (e.g., general control, education, health and human services, etc.).

Additionally, revenues are classified between program and general revenues. Program revenues include 1) charges to customers or applicants for goods or services, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Revenues and Expenditures/Expenses (Continued)

In the government-wide financial statements, revenues are reported by source and are further classified as either "general purpose" or "restricted." General purpose revenues are available to fund any activity accounted for in the fund. Restricted revenues are, either by State law or by outside restriction (e.g., federal grants), available only for specific purposes. Unused restricted revenues at year-end are recorded as restrictions of fund balance. When both general purpose and restricted funds are available for use, it is the State's policy to use restricted resources first.
In the governmental fund financial statements, expenditures are reported by character: Current, Capital Outlay, or Debt Service. Current expenditures are sub-classified by function and are for items such as salaries, grants, supplies, and services.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub-classified by object (e.g., depreciation, benefits, claims and premiums, and game expense). Operating revenues consist of sales of goods or services, interfund services provided/used, grant revenues for specific activities that are considered operating activities of the grantor, receipts from other agencies for reimbursement of operating transactions, and other miscellaneous revenue that should be classified as operating. For certain loan and investment programs, revenue that would normally be classified as nonoperating should be classified as operating. An example of this would include interest income on loans. All other revenues that do not meet the above criteria should be classified as nonoperating.

Grants

Federal grants and assistance awards made based on entitlement periods are recorded as revenues when entitlement occurs. All federal reimbursement-type grants are recorded as revenues when the related allowable expenditures are incurred, and all applicable eligibility requirements are met.

Investment Income

Net investment income (loss) includes net appreciation (depreciation) in the fair value of investments, interest income, dividend income, securities lending income, rental income, and investment expenses (which includes investment management and custodial fees, securities lending expense, and all other significant investment related costs). Negative investment income is reported where the decrease in fair value of investments due to market conditions exceeded the other components of investment income.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Revenues and Expenditures/Expenses (Continued)

Endowments

Net appreciation on the Educational Institutions' investments of donor-restricted endowments are available for authorization for expenditure by the governing boards of the universities with endowments, which are reported in net position as restricted for purposes for which the endowments were established. Donor restricted endowment disbursements of the net appreciation of investments are permitted in accordance with the Uniform Prudent Management of Institutional Funds Act, Chapters 46-9A-1 to 46-9A-10, NMSA 1978, except where a donor has specified otherwise. The universities use the total-return policy for authorizing and spending investment income. The universities review the investment earnings designed to support distributions from the pool and to protect the purchasing power of the endowment principal.

Retirement and Employee Benefit Costs

Most state employees participate in a defined benefit pension plan administered by the New Mexico Public Employees' Retirement Association and the New Mexico Educational Employees' Retirement Board. Contributions collected for the pension plans and the retirement benefits paid are accounted for in the Pension and Other Employee Benefits Trust Funds. All costs for pension, health, and federal social security contributions are reported as expenditures in the appropriate function in governmental fund types or as expenses in applicable proprietary fund types. Pension and other benefits costs are recognized in the fiscal year in which the underlying payroll costs are incurred.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

J. New Accounting Standards

For the fiscal year ended June 30, 2025, the State implemented the following new accounting standards issued by the GASB:

GASB Statement No. 101, *Compensated Absences*

The statement provides updates for accounting and reporting for compensated absences. The adoption of this standard resulted in a prior period adjustment due to the recognition of the estimated liability for accumulated sick leave. Schedule of changes can be found in Note 9.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. New Accounting Standards (Continued)

GASB Statement No. 102, *Certain Risk Disclosure*

The statement serves to provide users of government financial statements with essential information about risks related to an entity's vulnerabilities due to the variety of risks they face. The State has determined concentrations do not arise to the level of disclosure.

K. Future Accounting Standards

The following pronouncements of the GASB are due to be implemented by the State in the year indicated. For all of these new standards, the State has not determined the effect on the financial statements that implementation of the standards will entail.

GASB Statement No. 103 (Financial Reporting Model Improvements) The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing an entity's accountability. The State is in the process of evaluating the impact of the standards for the adoption into the financial statements for the year ending June 30, 2026.

GASB Statement No. 104 (Disclosure of Certain Capital Assets) The objective of this Statement is to provide users of an entity's financial statements with essential information about certain types of capital assets. The State is in the process of evaluating the impact of the standards for the adoption into the financial statements for the year ending June 30, 2026.

GASB Statement No. 105 (Subsequent Events) The objective of this statement is to improve financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of users. The State is in the process of evaluating the impact of this statement for implementation into the fiscal year beginning after June 15, 2026.

L. State Auditor Rule Disclosure

The Office of the State Auditor Rule requires that audit reports contain a schedule of Joint Powers Agreements (JPA) and Memoranda of Understanding (MOU) that are significant to the State as a whole. There are none that meet this criterion.

Disclosure of these schedules may be found in the stand-alone audit reports which have been issued by the individual State agencies. These are available from the Office of the State Auditor at https://www.osa.nm.gov/.

NOTE 2 CASH PRIMARY GOVERNMENT

New Mexico State Treasurer

All monies, except with specific authority, must be deposited with the State Treasurer. These operating funds are commingled in the State Investment Pool, managed by the Treasurer. Every State agency reports its operating cash as "Investment in State General Fund Investment Pool", and this pool is reported in Note 3, "Investments". The issues concerning the reconciliation of the State General Fund Investment Pool and the resolution are reported in Note 16, "State General Fund Investment Pool."

Cash on deposit represents the demand deposit account with the fiscal agent bank. Current year transactions reflect all banking activity for the fiscal year as well as the activity of investments purchased and disposed of during the fiscal year. The State Treasurer invests all public monies, with the exception of the New Mexico Lottery and the university funds. The university funds are entirely under the control of the universities. These funds are held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance (BOF). The State Treasurer invests excess cash balances on behalf of certain earmarked funds of state agencies identified by State statute and local governments. Interest earnings are distributed based on average outstanding cash balances for local governments and the state agencies where interest is allowed to be earned. All other interest earnings are transferred to the State General Fund Appropriations Account.

All State agencies, unless otherwise exempted, must have specific approval from the State Treasurer in order to maintain separate bank accounts. These accounts are mainly used for custodial fund purposes, when the funds are being held by the agency in a fiduciary capacity and the funds do not belong to the State.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The State Treasurer's Office collateral manager reviews and tracks all state funds held in state depository institutions. Deposits and collateral are reviewed almost daily, and a statutorily required risk assessment is performed quarterly. Balances are collateralized in compliance with NMAC 2.60.4.

NOTE 2 CASH PRIMARY GOVERNMENT (CONTINUED)

New Mexico State Treasurer (Continued)

Custodial Credit Risk (Continued)

The State Treasurer invests all public monies held in excess of the minimum compensating balance maintained with the fiscal agent bank in accordance with an investment policy approved by the State Board of Finance. The Treasurer deposits public monies with New Mexico financial institutions in denominations which generally are in excess of the $250 thousand in federal deposit insurance. Accordingly, the State Treasurer requires that depository financial institutions provide additional collateral for such investments. The collateral generally is in the form of marketable debt securities and is required in amounts ranging from 50% to 102% of the par value of the investment, dependent on the institution's operating results and capital. Collateral for the fiscal agent account is required in amounts equal to 50% of the average investment balance.

As of June 30, 2025, collateral pledged to public money deposits was as follows:

Office of the State Treasurer
Statutory Compliance
(Expressed in Thousands)

	Balance at June 30, 2025
Cash in Bank *	$ 1,785,004
Less: FDIC Insurance Coverage	5,724
Total Uninsured Public Funds	1,779,280
Collateral Requirement (50% - 102% of Uninsured Public Funds	$ 908,679
Collateral Pledged:	
U.S. Government Securities	578,209
Surety Bond	1,449,627
Collateral Pledged	2,027,836
Over (Under) Collateralized	$ 1,119,157

* Fiscal agent bank is required to collateralize the monthly average balance.

NOTE 2 CASH PRIMARY GOVERNMENT (CONTINUED)

New Mexico State Treasurer (Continued)

Custodial Credit Risk (Continued)

While the balances of the Office of State Treasurer are fully collateralized per state statute, GASB Statement No. 40 requires that the State disclose balances which are not fully insured. As of June 30, 2025, the funds held by the State Treasurer in the fiscal agency account were exposed to custodial credit risk as follows:

Office of the State Treasurer
Custodial Credit Risk
(Expressed in Thousands)

	Fiscal Agent Account
Cash in Banks	$ 93,092
Less: Deposit of Institutions Which are Fully Insured and Collateralized	-
Deposits of Institutions Not Fully Collateralized	93,092
Less: FDIC Insurance Coverage	-
Uninsured Deposits	93,092
Collateral Pledged:	
Surety Bond	121,746
Securities	80,000
Total Collateral Pledged	201,746
Subject to Custodial Credit Risk	$ (108,655)

In the table above, FDIC insurance coverage and collateral pledged relate only to those institutions whose deposits are not fully insured and/or collateralized.

The cash deposits which relate to investments of the State Investment Council, the Public Employees Retirement Association, the Educational Retirement Board, the Retiree Health Care Authority, and the Education Trust Board are monitored by their individual Boards in conjunction with contracted professional investment firms. The respective Boards of these agencies have instituted policies and procedures to safeguard the public assets under their control.

NOTE 3 INVESTMENTS

The following schedule lists the total investments reported in the financial statements (expressed in thousands).

	Balance at June 30, 2025
Primary Government:	
Current:	
Investment in State General Fund Investment Pool	$ 15,693,355
Investment in Local Government Investment Pool	132,793
Investments	57,256,172
Noncurrent:	
Investments	995,158
Fiduciary Funds:	
Investment in State General Fund Investment Pool	472,411
Investment in Local Government Investment Pool	15,659
Investments	45,629,115
Component Units:	
Investments	2,378,674
Securitized Loans included in Loans Receivable	2,069,967
Investment in Local Government Investment Pool	54,397
Total Investments	$ 124,697,701
Reconciliation to Investments Presented	
Total Presented Above	$ 124,697,701
Less: Cash and Cash Equivalents Held in Brokerage Accounts Included in Investment Pools	(305,488)
Total Separately Held Investments	$ 124,392,213

There are six different agencies or groups which report investments for the State, each of them with separate authority and different objectives. They are a) the Office of the State Treasurer; b) the State Investment Council; c) the Public Employee and Educational Employee Retirement Plans; d) the State universities and colleges; e) Education Trust Board; and f) State agencies with separately held investments. In addition, the component units also report separately held investments.

Those agencies whose investments are held by either the State Investment Council (SIC) or the State Treasurer's Local Government Investment pool (LGIP) are presented in either the SIC or LGIP disclosures, in order to prevent duplication.

NOTE 3 INVESTMENTS (CONTINUED)

A. State Treasurer

The State Treasurer operates four separate investment pools. They are as follows:

General Fund Investment Pool

The General Fund is the State of New Mexico's main operating account. All State revenues are credited to the State General Fund. Income taxes, sales taxes, rents and royalties, and other recurring revenues are deposited into the fund. The fund also comprises numerous State agency accounts whose assets, by statute, must be held at the State Treasury. Expenditures are disbursed only in accordance with appropriations authorized by the State Legislature.

Consolidated Investment Pool (Tax-Exempt Bond Proceeds Investment Pool #1)

The Tax-Exempt Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of tax- exempt State of New Mexico general obligation, severance tax, and supplemental severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to the true interest cost of all State of New Mexico debt outstanding and in accordance with the Investment Policy of the Office of the State Treasurer.

Consolidated Investment Pool (Taxable Bond Proceeds Investment Pool #2)

The Taxable Bond Proceeds Investment Pool is comprised of pooled assets received through the issuance of State of New Mexico severance tax bonds. The fund's objective is to preserve capital, provide liquidity, and generate returns relative to a benchmark and in accordance with the State Treasurer's Investment Policy.

Local Government Investment Pool (LGIP; Short-Term Investment Pool)

Cities, counties, and other state agencies invest monies in the State Treasurer external investment pool (LGIP). The LGIP investments are presented at fair value based on the valuation date in the financial statements. The individual participant balances remain at their amortized cost. As of June 30, 2025, LGIP amortized cost approximated fair value, with the difference deemed immaterial.

NOTE 3 INVESTMENTS (CONTINUED)

A. State Treasurer (Continued)

Local Government Investment Pool (LGIP; Short-Term Investment Pool) (Continued)

The LGIP is not SEC registered. Chapter 6-10-10.1, NMSA 1978, empowers the State Treasurer, with the advice and consent of the State Board of Finance, to invest money held in the short-term investment fund in securities that are issued by the United States government or by its departments or agencies, and are either direct obligations of the United States or are backed by the full faith and credit of the United States government, or are agencies sponsored by the United States government. The LGIP investments are monitored by the same investment committee and adhere to the same policies and procedures that apply to all other state investments. The pool does not have unit shares. Per Section 6-10-10.1F, NMSA 1978, at the end of each month all interest earned is distributed by the State Treasurer to the contributing entities in amounts directly proportionate to the respective amounts deposited in the fund and the length of time the amounts were invested. Participation in the LGIP is voluntary. As of June 30, 2025, the WAM(R) of the LGIP was 30 days, and the WAM(F) was 39 days. The fund was rated AAAm by Standard & Poor's as of June 30, 2025.

Investment Guidelines and Limitations

The Investment Policy is a comprehensive guide governing the investment functions of the New Mexico State Treasurer with respect to all financial assets of the State of New Mexico invested by the State Treasurer in the exercise of their authority and for which the State Treasurer acts as the investing authority. These assets include, as examples only, the State General Fund, the LGIP, bond proceeds, bond debt service funds, and those pension and permanent funds and other special funds with respect to which the State Treasurer is the investing authority.

The investment policy and the public finance investment decisions of the State Treasurer must serve and satisfy several fiduciary, fiscal, and financial obligations. In making these decisions and in resolving any conflict or competing considerations that may arise from time to time among these obligations, the State Treasurer will observe the following priority:

- Preservation of Principal – to ensure the performance of basic governmental functions, the first priority must be accorded to the preservation and protection of the principal of the funds to be invested;
- Maintenance of Liquidity – the second level of priority must be accorded to maintaining sufficient liquidity to satisfy the reasonable anticipated, continuing operational requirements of State Government; and
- Maximum Return – the third priority must be accorded to maximizing investment return, through budgetary and economic cycles, consistent with the higher priority accorded to the security and liquidity of principal.

NOTE 3 INVESTMENTS (CONTINUED)

B. State Investment Council

The State of New Mexico Investment Council (the Council) is responsible for the investment activities of certain State trust funds. The Council is composed of 11-members, and currently manages the Land Grant, Severance Tax, and Tobacco Settlement Permanent Funds, the Water Trust Fund, and various investment pools for the benefit of state agencies and other political entities within the State of New Mexico.

In accordance with Chapter 6-8, NMSA 1978, the Council is authorized to invest in domestic and international stocks, debt obligations of the U.S. government, its agencies, or instrumentalities, debt obligations of any U.S. or foreign corporation, partnerships, or trusts with an investment-grade rating from a national rating service, real estate investments, national private equity investments, repurchase agreements secured by U.S. obligations or other securities backed by the U.S., and hedge funds.

C. Pension Benefits Funds

The two pension benefits agencies are the Public Employees Retirement Association of New Mexico (PERA) and the Educational Retirement Board (ERB). PERA operates four separate cost-sharing, multiemployer public employee retirement systems, and ERB operates one such system for the benefit of state employees and educational employees, respectively, in the State. More information on each of these agencies can be found elsewhere in these Notes. Each is governed by a separate Board, and each has specific investment policies and guidelines to which they must adhere.

D. State Universities and Colleges

As mentioned in Note 1. B, the 10 educational institutions created by the *Constitution of the State of New Mexico* are included in the State reporting entity. Eight of these institutions maintain separate investment portfolios, as permitted by statute, with some of the investments held and managed by State agencies and some managed by the institutions themselves. Each has investment policies and guidelines which are similar.

E. Education Trust Board

The Education Trust Board (ETB) is responsible for the management of the two higher education savings plans: Scholar's Edge, and The Education Plan (the Plans). The Plans are savings vehicles for higher education expenses under Section 529 of the IRC. The funds are managed by a private company under contract agreement.

NOTE 3 INVESTMENTS (CONTINUED)

F. Individual State Agencies

Those agencies with investments in either the State Investment Council Investment Pools or the State Treasurer's Local Government Investment Pool report these investments on their balance sheet. Certain agencies are permitted to invest funds in other ways, such as certificates of deposit. These investments are permitted by statute, depending on the main purpose of the agency.

1. Fair Value Measurement

The State categorizes fair value measurements within the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurement and Application*. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

Level 1 – inputs are quoted prices (unadjusted) for identical assets in active markets, accessible at the measurement date. Level 1 inputs include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.

Level 2 – inputs are inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly. Level 2 inputs include quoted prices for similar assets in active markets and quoted prices for identical or similar assets in markets that are not active.

Level 3 – inputs are unobservable inputs for an asset.

Investments that do not have a readily determinable fair value are recorded using net asset value (NAV). NAV is generally provided by the investment managers but the State considers the reasonableness of the NAV, based on market information, to arrive at the fair value estimates for each investment.

2. Custodial Credit Risk

Custodial credit risk is the risk that the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party if the counterparty fails. Investment securities are exposed to risk if the securities are uninsured, are not registered in the name of the State (or State agency), and are held by either the counterparty or the counterparty's trust department or agent but not in he State's (or State Agency's) name.

NOTE 3 INVESTMENTS (CONTINUED)

F. Individual State Agencies (Continued)

2. Custodial Credit Risk (Continued)

The State Treasurer's investment policy for safekeeping and custody states that all investment securities purchased by the State, held as collateral on repurchase agreements or held as collateral on securities lending arrangements, shall be held in third-party safekeeping at a fiduciary qualified to act in this capacity. All securities held for the State account will be held free and clear of any lien and all transactions will be conducted in compliance with Chapter 6-10-10(O), NMSA 1978, which requires contemporaneous transfer and same day settlement. On a monthly basis, the custodian will provide reports, which list all transactions that occurred during the month, and all securities held for the State at month-end, including the book and market value of holdings. The fiscal agent and representatives of the custodian responsible for, or in any manner involved with, the safekeeping and custody process of the State, shall be bonded in such a fashion as to protect from losses from malfeasance and misfeasance. All investment and collateral securities were held by the State Treasurer or its Custodian in the name of the State Treasurer.

Public Employees Retirement Association (PERA's) securities are held by a third-party custodian, independent of any counterparty. The Custodian holds assets directly, through its agents, its sub-custodians, or designated clearing systems, and is responsible for delivery, receipt, pricing, valuation, and record-keeping services for all securities. PERA reports securities valued at $9.1 billion as held in the name of the investment fund by the fund's custodian bank, and $9.2 billion held under custody arrangements contracted by fund managers.

Education Retirement Board (ERB's) securities are held by a financial institution as a third-party custodian, independent of any counterparty, and are held in the name of ERB. All investments of the State Investment Council (SIC) are held in the name of SIC. All investments of the Retiree Health Care Authority (RHC) are held by SIC. All investments of the Education Trust Board (ETB) are held in the name of that Board.

3. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. U.S. obligations or investments guaranteed by the U.S. Government are excluded from this requirement. The quality rating of PERA's investment policy restricts investments to specific investment ratings issued by nationally recognized statistical rating organizations.

NOTE 3 INVESTMENTS (CONTINUED)

F. Individual State Agencies (Continued)

3. Credit Risk (Continued)

ERB requires that noncash, interest-paying securities in the high-yield bond portfolios may not exceed 5% of the market value of the portfolio and that investments in cash may represent no more than 5% of each individual fund. Credit risk is managed through diversification and by operating within defined parameters versus a benchmark index.

ETB invests directly in Underlying Investments. The registered Underlying Investments' prospectuses provide greater detail about the investment strategies and practices of the Underlying Investments, in compliance with federal regulations and specifically, the Form N-IA of the Investment Company Act of 1940. Form N-IA discloses information and policies about the Underlying Fund and its investment objectives, as well as information on the company structure and operations. In addition, the Program Disclosure Statement and the Participation Agreement provide greater detail about the credit risk, if any, by certain nonregistered underlying Investments.

F. Individual State Agencies (Continued)

4. Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may arise in the event of default by a single issuer. It is the policy of the State to diversify its investments portfolios. Assets shall be diversified to reduce the risk of loss resulting from an over-concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. At June 30, 2025, there were no holdings with a single issuer comprising 5% or more of total net investments. It should be noted that investments issued or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

5. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the investments. Investment managers attempt to match investments with anticipated cash requirements so as to lessen this risk.

PERA's interest rate risk is controlled by the duration guidelines provided in the Investment Guidelines for each fixed income manager. Duration is loosely defined as the dollar weighted average time to recover all of principal and fixed- income investment. PERA's fixed-income managers are typically limited to duration of plus or minus one year or 20% of the duration of the applicable portfolio benchmark. ERB does not have a policy for interest rate risk management. However, interest rate risk is managed through duration by operating within defined risk parameters versus a benchmark index.

7. Securities Lending

The State Public Employee Retirement Association (PERA) participates in a securities lending program as authorized by State statute and its Board policies. Both the State Investment Council and the Educational Retirement Board have terminated their lending programs.

The types of securities lent are U.S. treasury notes and bonds, U.S. and international equity securities, and corporate bonds and notes. Under this program, securities are transferred to an independent broker-dealer or other lending agent in exchange for collateral in the form of cash, government securities, and/or irrevocable bank letters of credit, with a simultaneous agreement to return the collateral for the same securities in the future. The collateral must equal at least 102% of the market value of the securities.

Per Board policy, PERA may invest the cash collateral in eligible securities or other investments as defined in the governing securities lending agreement. The duration of investments so made does not generally match the maturities of securities loaned. Securities received as collateral may not be pledged or sold without borrower default.

Total securities on loan at June 30, 2025, had a carrying amount and fair value of $949.4 million. Under the agreement, the lending agent is required to indemnify the entity if the borrower fails to return the securities, if collateral is inadequate to replace the securities lent, or if the counterparty fails to pay the entity for income distributions by the securities' issuers while the securities are on loan. There were no such losses during the year ended June 30, 2025, due to borrower default.

The fair value of investments made with cash collateral is reported as an asset; the fair value of collateral received is recorded as a liability as PERA must return the cash collateral to the borrower upon the expiration of the loan. The securities lending obligations were $731.3 million at June 30, 2025. Total cash and noncash collateral was $731.4 million, 100% of the fair value of the securities on loan.

As of June 30, 2025, there had been no losses resulting from borrower defaults and PERA had no credit risk exposure to borrowers because the amounts PERA owed to borrowers did not exceed the amounts the borrowers owed to PERA. Net earnings from the securities lending program totaled $3.0 million for the fiscal year.

NOTE 3 INVESTMENTS (CONTINUED)

F. Individual State Agencies (Continued)

8. Derivatives

Derivatives are generally defined as contracts whose value depends on, or derives from, the value of an underlying asset, reference rate, or index. The State's retirement funds' investment policies allow certain portfolio managers to trade in certain derivatives for hedging purposes.

The notional or contractual amounts of derivatives indicate the extent of the State's involvement in the various types and uses of derivative financial instruments and do not measure the State's exposure to credit or market risks, and they do not necessarily represent amounts exchanged by the parties. The amounts exchanged are determined by reference to the notional amounts and other terms of the derivatives.

The fair value balances and notional amounts of derivative instruments outstanding for PERA and ERB at June 30, 2025, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the financial statements are as follows:

Types of Derivative Instruments:

Risk

There are certain risks inherent in investments in derivatives. Counterparties to financial instruments expose the State to credit risk in the event of nonperformance. The fund managers that are authorized to invest in derivatives are given specific parameters as to the types of derivatives invested in and ratings of the counterparties, they are allowed to enter into contracts with to ensure transactions are entered into with only high-quality institutions. The State is exposed to market risk; the risk that changes in market conditions may make an investment less valuable. Exposure to market risk is managed within risk limits set by management through buying and selling of specific instruments or by entering into offsetting positions. Foreign currency risk for investments is the risk that changes in exchange rates will adversely affect the investments. Managers of these assets are given discretion to hedge this risk.

Futures Contracts

The State's retirement funds enter into futures contracts in the normal course of its investing activities, including equity futures, fixed income futures, and commodities futures. They are utilized in order to manage market risk associated with equity and fixed income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net position available for benefits. The credit risk associated with these contracts is minimal as they are traded on organized exchanges.

NOTE 3 INVESTMENTS (CONTINUED)

F. Individual State Agencies (Continued)

8. Derivatives (Continued)

Types of Derivatives Instruments (Continued)

Options

An option is a contract in which the writer of the option grants the buyer of the option the right to purchase from (call option), or sell to (put option) the writer a designated instrument at a specified price within a specified period. Both written and purchased options were used by the State during the fiscal year. When the State purchases or writes an option, an amount equal to the premium paid or received by the State is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. Gain or loss is recognized when the option contract expires or is closed. As of June 30, 2025, there were no open written or purchased options.

Swap Contracts

Swap contracts are executed on a number of different bases. The two types employed by the State during the fiscal year were interest rate swap contracts and credit default swap contracts. An interest rate swap contract is an agreement between two parties to exchange periodic interest payments. One party agrees to make payments to the other based on a fixed rate of interest in exchange for payments based on a variable rate. The State employs interest rate swap contracts to adjust fixed income portfolio durations. A credit default swap contract is similar to an insurance policy; with the credit risk of an individual issuer or a basket of issuers (the reference asset) the insured factor. Under such a contract, two parties enter into an agreement whereby the first party pays the second party a fixed periodic payment for the specified life of the contract (analogous to an insurance premium). The other party makes no payment unless a credit event related to the reference asset occurs. If such an event takes place, the second party is obligated to make a payment to the first party. The size of the payment is linked to the decline in the reference asset's market value following determination of the occurrence of a credit event.

8. Derivatives (Continued)

Types of Derivatives Instruments (Continued)

Hedge Funds

The use of other derivatives is allowed under the Hedge Fund Investment Policy. These investments are under the management of the Hedge Fund managers who are employed in the "Hedge Fund", "Emerging Market Debt," and "Opportunistic Credit" classifications.

Asset-Backed Securities

The State invests in various forms of asset-backed securities, which fit the previous definition of derivative securities. These securities are held for investment purposes. The credit risk, interest rate risk, and foreign currency risk for these instruments are summarized in the following (expressed in thousands):

Derivative Type	Balance at June 30, 2025
Asset-Backed Securities	$ 295,340
Nonagency Mortgage-Backed Securities	25,317
Foreign Asset-Backed Securities	41,691

NOTE 4 RECEIVABLES (CONTINUED)

Accounts receivable balances are an aggregation of amounts due from the federal government, customers, and others. Receivables from customers include charges for services to local governments, fees and fines issued by the courts and corrections, employer contributions for unemployment benefits, amounts from investment brokers, interest earnings, general and selective income taxes, and receivables because of overpayments to individuals receiving state assistance.

Leases Receivable

The following are schedules of the future minimum payments for leases receivable as of June 30, 2025 (expressed in thousands):

	Governmental Activities		
Year Ending June 30,	Principal	Interest	Total
2026	$ 5,373	$ 5,855	$ 11,228
2027	6,027	5,697	11,724

NOTE 4 RECEIVABLES (CONTINUED)

Discrete Component Units

The following is an analysis of the allowance for loan losses as of June 30, 2025, for the two largest discretely presented component units (expressed in thousands):

NMFA & NMMFA - Loan Loss Allowance

	NM Finance Authority	NM Mortgage Fin. Auth
Beginning Balance	$ 46,372	$ 16,054
Provision for Loan Losses	27,506	2,682
Loans Written Off, Net of Recoveries	(2,093)	(1,327)
Ending Balance	$ 71,785	$ 17,409

NM Finance Authority Loans have repayment terms ranging from 1 to 30 years. The stated interest rates are between 0% - 6%. NMMFA mortgage loans have repayment terms ranging from 10 to 40 years. The stated interest rates for these programs are as follows:

NMMFA - Loan Repayment Terms

Rental Housing Programs	1.98% to 7.02%
Other Mortgage Loans	0.00% to 8.41%
Second Mortgage Down Payment Assistance Loans	0.00% to 8.00%

MBSs have stated interest rates ranging from 2.175% and 7.49%.

NOTE 5 INTERFUND AND INTERAGENCY RECEIVABLES, PAYABLES, AND TRANSFERS

Interfund receivables and payables balances result from the time lags between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur; 2) transactions are recorded in the accounting system; and 3) payments between funds are made.

Transfers between funds occur when one fund collects revenue and transfers the assets to another fund for expenditure or when one fund provides working capital for another fund. All transfers must be legally authorized by the Legislature through statute or an Appropriation Act. Transfers during the year were made to finance the operations of the individual departments as authorized by the Legislature and to revert (transfers out) any unspent or unencumbered balance of the authorized appropriations. Transfers between the primary government and the fiduciary funds and component units are reclassified as expenditures in the government-wide financial statements.

The composition of interfund balances as of June 30, 2025, is as follows (expressed in thousands):

	Due From	Due To	Transfers In	Transfers Out
Governmental Activities:				
General	$ 339,443	$ 1,468,613	$ 2,029,721	$ 5,713,187
Debt Service	336,386	229	226,546	2,254,105
Capital Projects	8,903	65,008	2,306,331	262,991
Severance Tax Permanent	586,623	-	1,348,513	347,975

*Beginning balances for component units were restated due to changes in the charter school reporting entity for changes in where certain schools are included as a state charter school.

NOTE 7 DEFERRED OUTFLOWS OF RESOURCES

A. Deferred Charge on Refunding

The State issued multiple series of refunding bonds in prior years to advance-refund certain older issues. Thus, the bonds which were advance-refunded are considered defeased in substance. The excess of the reacquisition price (funds required to refund the old debt) over the net carrying amount of the old debt resulted in a loss, reported as a deferred outflow of resources. For fiscal year ending June 30, 2025, the deferred outflow of resources for governmental activities and business-type activities were as follows (expressed in thousands):

Deferred Charge on Refunding

	Governmental	Business-Type
Beginning Balance	$ 15,903	$ 7,591
Additions	140	-
Deletions	(6,249)	(754)
Ending Balance	$ 9,794	$ 6,837

B. Interest Rate Swaps

In the course of bond refunding transactions, the State has entered into transactions termed interest rate swaps, which are classified as hedges. This has resulted in items classified as a deferred outflow of resources. For more information on these interest rate swaps, see Note 8 J.

NOTE 8 LONG-TERM LIABILITIES

Changes in long-term liabilities for the year ended June 30, 2025, are presented in the following table (expressed in thousands). As referenced below, certain long-term liabilities are discussed in other Notes to the Financial Statements.

	Beginning Balance*	Additions	Deletions	Ending Balance	Amounts Due Within One Year	Long-Term Debt

*Compensated absences were restated due to GASB 101 Implementation. The change in the compensated absence liability is presented as a net change in accordance with GASB 101.

**Beginning balances for component units were restated due to changes in the charter school reporting entity for changes in where certain schools are included as a state charter school.

A. General Obligation Bonds

The State issues general obligation bonds to provide funds for the acquisition, construction, and renovation of major capital facilities for local governments as authorized by the Legislature of the State of New Mexico. General obligation bonds are direct obligations and pledge the full faith and credit of the State. These bonds generally are issued as 10-year serial bonds with equal amounts of principal maturing each year. Funding for the payment of the debt service of the general obligation bonds is provided through the collection of property taxes levied by the local governments receiving the funding for capital spending.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

B. Severance Tax Bonds

Severance tax bonds are used to fund the capital needs of state agencies, local governments, and public and higher education as authorized by the Legislature of the State of New Mexico. In addition, severance tax bonds have been issued to refund severance tax bonds. Funding for the payment of the debt service of the severance tax bonds is provided through the collection of severance taxes levied on the mining and production of various natural resources, such as minerals, oil, and gas. The severance tax bonds are secured by the levied taxes. This is a permanent commitment of a portion of total severance tax revenues. As authorized by State statute, severance tax revenues are transferred to the Severance Tax Bonding Fund and first pay the required debt service on severance tax bonds and supplemental severance tax bonds issued by the State, with the remainder being transferred to the Severance Tax Permanent Fund. For the year ended June 30, 2025, total severance tax revenues transferred to the Severance Tax Bonding Fund were $216.6 million. The total principal and interest payments were $166.3 million and $50.3 million, respectively.

On June 26, 2025, the State issued Severance Tax Bonds Series 2025A in the amount of $235.1 million, with a premium of $17.4 million, and carrying an interest rate of 5.00 percent. The proceeds will be used to finance capital improvements approved by the State Legislature.

Severance tax bonds payable outstanding at year-end are as follows:

Total Severance Tax Bond Premium Payable					$ 81,324	$ 22,579

Annual debt service requirements to maturity for Severance Tax Bonds are as follows:

Severance Tax Bonds
Debt Service Requirements to Maturity
(Expressed in Thousands)

Fiscal Year Ending June 30,	Principal	Interest	Total
2026	$155,820	$48,383	$204,203
2027	153,545	46,363	199,908
2028	145,225	38,894	184,119
2029	137,175	31,834	169,009
2030	128,000	25,205	153,205
2031 - 2035	410,950	42,862	453,812
Total	$ 1,159,855	$ 234,270	$ 1,394,125

C. Short-Term Debt

Per Section 7-27-8 NMSA, the Office of State Treasurer is required to transfer any money left in the Severance Tax Bond Fund every June 30 and December 31 to the Severance Tax Permanent Fund. The State Board of Finance issues short-term Severance Tax Notes, which are of one to three days duration, in order to more fully utilize the excess cash until such time as it is transferred. During the fiscal year 2025, short-term notes were sold and redeemed as follows (expressed in thousands):

	Beginning Balance	Issued	Redeemed	Ending Balance
Sponge Bonds	$ -	$ 1,315,065	$ (1,315,065)	$ -

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

D. Revenue Bonds

The State also issues bonds where the government pledges certain revenue for the payment of debt service. These revenues are generally a particular agency's share of the governmental gross receipts tax. For those sold for the State Department of Transportation, these also include gasoline excise taxes, motor vehicle registration fees, and other fees required by law to be paid into the State Road Fund. For those issued for higher education institutions, these revenues include tuition fees, distributions from the State Permanent Fund, and other miscellaneous revenue sources.

Revenue bonds payable are as follows:

E. Pledged Revenue

The following listing provides more details on the types of revenue pledged for the various revenue bonds outstanding.

Governmental Activities

Agency:	***State of New Mexico - Severance Tax Bonds***
Purpose of Bonds:	Construction and acquisition of capital projects statewide
Total Amount of Bonds Issued:	$ 1.8 billion
Type of Revenues Pledged:	Severance tax revenues collected from oil, gas, and mineral extraction activities.
Term of Commitment:	Through June 30, 2032
Total Debt Service Remaining:	$ 1.4 billion
Revenue Stream for Current Year:	$ 2.1 billion
Debt Service for Current Year:	$ 166.3 million

Agency:	***Department of Transportation***
Purpose of Bonds:	Construct and improve State highway and transportation system.
Total Amount of Bonds Issued:	$ 1.0 billion
Type of Revenues Pledged:	Gasoline excise taxes, motor vehicle registration and other fees deposited into State Road Fund, plus Federal Highway Fund revenues
Term of Commitment:	Through June 30, 2031
Total Debt Service Remaining:	$ 578.2 million
Revenue Stream for Current Year:	$ 1.1 billion
Debt Service for Current Year:	$ 85.9 million

Agency:	***Spaceport Authority***
Purpose of Bonds	Construction of the Spaceport America launch facility.
Total Amount of Debt Issued:	$35.4 million
Type of Revenues Pledged:	Authority's share of governmental gross receipts tax revenue
Total Debt Service Remaining:	$ 18.4 million
Term of Commitment:	Through June 30, 2029
Revenue Stream for Current Year:	$ 12.1 million
Debt Service for Current Year:	$ 4.6 million

Agency:	***Bernalillo County Metropolitan Court***
Purpose of Bonds	Court parking structure
Total Amount of Debt Issued:	
Type of Revenues Pledged:	Court facilities fees collected.
Total Debt Service Remaining:	
Term of Commitment:	Through June 30, 2025
Revenue Stream for Current Year:	
Debt Service for Current Year:	

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

E. Pledged Revenue (Continued)

Governmental Activities (Continued)

Agency:	***General Services Department***
Purpose of Bonds	State facilities acquisition and development.
Total Amount of Debt Issued:	$ 147.4 million
Type of Revenues Pledged:	Government gross receipts tax, cigarette tax.
Total Debt Service Remaining:	$ 158.7 million
Term of Commitment:	Through June 30, 2039
Revenue Stream for Current Year:	$ 8.2 million
Debt Service for Current Year:	$ 7.9 million

Business-Type Activities

Agency:	***Miners' Colfax Medical Center***
Purpose of Bonds:	Improvement and expansion of medical facilities
Total Amount of Bonds Issued:	
Type of Revenues Pledged:	Center's share of distributions from the State Land Grant and the Charitable, Penal, and Reform Permanent Funds
Total Debt Service Remaining:	
Term of Commitment:	
Revenue Stream for Current Year:	
Debt Service for Current Year:	

Agency:	***Educational Institutions (UNM, NMSU, ENMU, WNMU, NMMI, NMHU, NM Tech)***
Purpose of Bonds:	Construction and improvement of various capital facilities
Total Amount of Bonds Issued:	$ 1.1 billion
Type of Revenues Pledged:	Substantially all unrestricted revenues, including Permanent Fund distributions, student fees, and income from revenue-producing facilities, but excluding state appropriations and income from clinical operations.
Total Debt Service Remaining:	$ 1.3 billion
Term of Commitment:	Through June 30, 2053
Revenue Stream for Current Year:	$ 758.7 million
Debt Service for Current Year:	$ 59 million

F. Leases Payable

The State implemented GASB Statement No. 87, *Leases,* as of July 1, 2021. This statement requires that governmental entities record leases payable with terms of more than one year at the present value of the future payments. In addition, an intangible asset conveying a right-to-use the stated building or equipment must also be recorded. Similar requirements exist for lessors of buildings or equipment.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

F. Leases Payable (Continued)

Right-to-Use Assets

The State has recorded intangible right-to-use assets as a result of implementing GASB 87. The leased assets are initially measured at the amount equal to the initial measurement of the related lease liability, unless other costs are involved. Leased assets are amortized on a straight-line basis over the shorter of the useful life of the underlying asset or the lease term.

These right-to-use assets are located in the Capital Assets section of this report.

Lease Liability

The lease agreements have been recorded at the present value of the future lease payments as of the date of their inception or, for leases existing prior to the implementation date, at the remaining terms of the agreement, using the facts and circumstances available at July 1, 2021. If a discount rate is not stated in the agreement, the lessee's incremental borrowing rate should be used. For leases beginning during fiscal year 2025, the State has adopted the rate of 3.70% for lease terms greater than one year and less than five years, 3.87% for lease terms greater than five years and less than 10 years, 4.81% for lease terms greater than 10 years.

The lease liabilities are amortized using the effective-interest method, as prescribed by GASB 87.

The present value of the future minimum lease obligations under these agreements are as follows:

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

H. Conduit Debt Component Unit

Accounting standards define conduit debt obligations as certain limited obligation revenue bonds, certificates of participation, or similar debt instruments issued by a state or local government entity for the express purpose of providing capital financing for a specific third party that is not part of the issuer's financial reporting entity. Although the conduit debt obligations bear the name of the issuer, the entity has no obligation for such debt beyond the resources provided by a lease or loan with the third party on whose behalf they are issued.

The New Mexico Hospital Equipment Loan Council, a discretely presented component unit, has issued revenue bonds, lease purchase agreements, and master financing agreements to provide financing for the acquisition and construction of equipment and facilities. These bonds, lease purchase agreements, and master financing agreements are secured by the property financed and are payable solely from payments received on the underlying loans. Neither the Council nor any political subdivision of the State is obligated in any manner for repayment of either the bonds or the lease purchase or master financing agreements. Accordingly, the bonds and the obligations under the lease purchase and master financing agreements are not reported as liabilities in the accompanying financial statements.

At June 30, 2025, conduit debt obligations outstanding are as follows:

New Mexico Hospital Equipment Loan Council
Conduit Debt

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

I. Other Liabilities

Compensated Absences

Compensated absences of governmental activities are liquidated in the General Fund. Claims liabilities of governmental activities of the Internal Services agencies are liquidated in the Internal Service Fund. Compensated absences of business-type activities are liquidated in the respective fund of obligation.

Pollution Remediation Obligation

The State is responsible for environmental management to reasonably protect human health and the environment in accordance with the Environmental Improvement Act, Chapter 74-1-1, NMSA 1978 (Act). GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations,* provides guidance in estimating and reporting the potential costs of pollution remediation.

The following details the nature of the identified sites:

Leaking Petroleum Storage Tanks (LPST)

The State oversees cleanups of LPST sites and reimburses eligible parties from the PST corrective action fund, which has paid for the vast majority of LPST cleanups. However, for Priority 1 State Lead sites, in which there is an imminent danger to the public health or environment, the State has obligated itself to begin remediation clean-up activities as a result of an unwilling or unable property owner in the amount of $1.2 million as of June 30, 2025.

Superfund

The Superfund Oversight Section of the State assists the United States Environmental Protection Agency (EPA) in characterization of inactive hazardous waste sites; identifies sites which warrant remedial or removal action under Superfund (CERCLA); and oversees remedial activities and provides management assistance to EPA at Superfund sites listed on the National Priorities List (NPL). There are currently 15 listed Superfund sites in New Mexico which are in various stages of investigation and remediation. One of the 15 listed Superfund sites was placed on the NPL in April 2016. The site is currently in the remedial investigation phase in which no financial obligation exists. The Department estimates it will take at least two or three years before a Record of Decision is issued by the EPA. As of June 30, 2025, this site is excluded from the estimated pollution remediation liability which for Superfund sites totals $64.5 million.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

I. Other Liabilities (Continued)

Superfund (Continued)

The total pollution remediation liability for both the LPST and Superfund sites are as follows:

	Beginning Balance	Additions	Deletions	Ending Balance
Amount Due Within One Year	$ 1,746	$ 2,047	$ (1,833)	$ 1,960
Amount Due in More than One Year	56,590	8,518	(1,384)	63,724
Total Pollution Remediation Liabilities	$ 58,336	$ 10,565	$ (3,217)	$ 65,684

Indian Water Rights Liability

New Mexico currently has three Indian water rights settlements pending implementation: the Navajo Nation Settlement in the San Juan River adjudication, the Settlement Agreement with the Pueblos of Nambe, Pojoaque, Tesuque, and San Ildefonso in the Aamodt adjudication, and the Taos Pueblo Settlement in the Rio Pueblo de Taos/Rio Hondo adjudication. For each of these three settlements, a settlement agreement was executed in 2005 or 2006 by the tribe or Pueblos and the State of New Mexico. The Aamodt and Taos Pueblo settlement agreements also were executed by other water right owning parties. Subsequent to the passage of federal legislation authorizing each of the settlements in 2009 and 2010, the Secretary of the U.S. Department of Interior signed all three settlement agreements on behalf of the United States. Copies of the three fully executed settlement agreements and related documents can be found at: www.ose.state.nm.us/legal_ose_proposed_settlements.html.

Each of the agreements involves a contribution from the State of New Mexico in the form of construction of infrastructure. The value of infrastructure and mutual benefits projects contemplated in the three settlements are estimated at more than $155.5 million as of June 30, 2025. The State will not own the infrastructure once completed; the infrastructure and projects will be owned by tribal and local governments.

A portion of the State's share includes $10 million in nonmandatory expenditures for ditch rehabilitation under the Navajo Settlement.

The State has recognized the estimated liability of $18.2 million in the financial statements as of June 30, 2025.

A summary of the funds appropriated towards the settlements follows (expressed in thousands):

Indian Water Rights Settlement	Total Cost Share	Appropriated Funds	Unappropriated Balances
Aamodt	$ 104,500	$ 104,589	$ (89)
Taos	20,050	20,161	(111)
Navajo	30,949	32,225	(1,276)
Total	$ 155,499	$ 156,975	$ (1,476)

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

I. Other Liabilities (Continued)

Indian Water Rights Liability (Continued)

A summary of the funds disbursed, and the remaining liability follows (expressed in thousands):

Indian Water Rights Settlement	Disbursed To Date	Balance, June 30, 2025
Aamodt	$ 91,700	$ 12,800
Taos	14,596	5,453
Navajo	30,949	-
Total	$ 137,245	$ 18,253

Due to the fact that the timing of the payments is subject to obtaining appropriations, the amount due for these settlements and any related cost indexing is based on best estimates.

J. University of New Mexico

Standby Purchase Agreements

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees are based on a percentage of the outstanding bond balance, payable semiannually. Liquidity fees for the years ended June 30, 2025 and **2024** were $87 and $26, in thousands, respectively. An agreement with US Bank was entered into on December 31, 2014 for a three-year term expiring December 29, 2017. The University negotiated two additional three-year terms with US Bank that ends on October 30, 2023. On September 15, 2023 the Standby Agreement with US Bank was extended through June 1, 2026 for Series 2001 and 2002B bonds, and through September 15, 2026 for Series 2002C bonds.

A schedule including maturities and fees is as follows (expressed in thousands):

	US Bank			
Liquidity Expiration	Series 2001	Series 2002B	Series 2002C	Grand Total
6/1/2026	$ 3,450	$ 3,665	$ -	$ 7,115
9/15/2026	$ -	$ -	$ 14,345	$ 14,345
	$ 3,450	$ 3,665	$ 14,345	$ 21,460

Liquidity Fees	2001	2002B	2002C	Total
FY25	$ 7	$ 15	$ 65	$ 87

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

J. University of New Mexico (Continued)

Interest Rate Swap Agreements

On June 30, 2025, UNM had the following derivative instruments outstanding (expressed in thousands):

Item/ Counter-Party	Type	Objective	Effective Date	Maturity Date	Terms	Current Fair Value	Current Notional Amount
Hedging Derivatives:							
A - JP Morgan	'Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2001 System Improvement Revenue Bonds (Underlying Swap)	10/30/2002	6/1/2026	Receive SIFMA USD - Pay 4.2% Fixed	$ (12)	$ 863
B - JP Morgan	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2002C Refunding Revenue Bonds (Underlying Swap)	10/30/2002	6/1/2030	Receive SIFMA USD - Pay 3.9% Fixed	(524)	14,345
C - JP Morgan	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2002B Refunding Revenue Bonds (Underlying Swap)	1/14/2003	6/1/2026	Receive SIFMA USD - Pay 3.8% Fixed	(43)	3,665
D - RBC Royal Bank	Pay-Fixed/Receive Variable Interest Rate Swap	Hedge against rising SIFMA rates related to the 2001 System Improvement Revenue Bonds (Underlying Swap)	10/30/2002	6/1/2026	Receive SIFMA USD - Pay 4.2% Fixed	(13)	863
Investment Derivatives:							
E - JP Morgan	Pay-Variable/Receive Variable Interest Rate Swap	Hedge against falling SIFMA rates related to the 2001 System Improvement Revenue Bonds (Swap Overlays)	8/15/2006	6/1/2026	Receive 63.6% of 5-Year USD Swap Rate + 0.3% - Pay SIFMA	14	1,725
F - JP Morgan	Pay-Variable/Receive Variable Interest Rate Swap	Hedge against falling SIFMA rates related to the 2002C Refunding Revenue Bonds (Swap Overlays)	8/15/2006	6/1/2030	Receive 63.6% of 5-Year USD Swap Rate + 0.3% - Pay SIFMA	104	14,345

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

J. University of New Mexico (Continued)

Risks

Credit Risk

Each of UNM's derivative instruments is held with the same counterparty except for Derivative Instrument D. Deterioration of credit ratings could indicate a potential inability of the counterparty to make the required periodic payments. The credit ratings for each of the counterparties are as follows:

	Moody's		S & P		Fitch	
Entity	L/T Rating	S/T Rating	L/T Rating	S/T Rating	L/T Rating	S/T Rating
JP Morgan	A1	P-1	A+	A-1	AA-	F1+
RBC Royal Bank	A1	P-1	AA-	A-1+	AA	F1+

Interest Rate Risk

UNM is exposed to interest rate risk on its receive-variable, pay-fixed underlying interest rate swaps. As the Securities Industry and Financial Markets Association (SIFMA) swap index decreases, the University's net payment on the underlying swaps increases. Alternatively, on its pay-variable (SIFMA), receive-variable (LIBOR) overlay interest rate swaps, as LIBOR and the SIFMA swap index increases, the University's net payment on the overlay swaps increases.

Basis Risk

The variable-rate debt hedged by UNM's derivative instruments are variable-rate demand obligation (VRDO) bonds that are remarketed every seven days. The University is exposed to basis risk on its pay-variable (SIFMA), receive-variable (USD Swap Rate) overlay interest rate swaps, because the variable-rate payments received by the University on these derivative instruments are based on a rate USD Swap Rate other than the index (SIFMA) the University pays on the VRDO bonds. At June 30, 2025, the interest rate on the University's variable-rate hedged debt (SIFMA) is 3.88%, while the 63.55% of five-year USD Swap Rate 4.34% + 0.31% is 3.07%.

Termination Risk

UNM or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. In addition, UNM is exposed to termination risk on Derivative Instruments B and C because the contract provides the counterparty with a knockout option to terminate the contract if the 180-day SIFMA is equal to or greater than 7%. The 180-day SIFMA is defined as the weighted average rate taken off the USD floating SIFMA Index Rates published within the previous 180-day period. If at the time of termination, a derivative instrument were in a liability position, UNM would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

J. University of New Mexico (Continued)

Risks (Continued)

Rollover Risk

UNM is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the debt. When these derivative instruments terminate, or in the case of a termination option, if the counterparty exercises its option, UNM will be re-exposed to the risks being hedged by the derivative instrument. Derivative Instruments B and C expose UNM to rollover risk because the counterparty has the option to terminate the contract by exercising a knockout option.

Foreign Currency Risk

UNM has no exposure to foreign currency risk from its derivative instruments.

Commitments

All of UNM's derivative instruments include provisions that require UNM to post collateral in the event its credit rating falls below certain levels. UNM has entered into a two-way Credit Support Annex (CSA) with the swap counterparties, which is based on each party's long-term unsecured unsubordinated debt rating. The following matrix dictates the potential collateral postings if the swaps mark-to-market values are above the mandated thresholds (expressed in thousands):

Rating	Swap M-T-M Threshold for Party's A & B		
AA/Aa2 and >	USD	$	25,000
AA-/Aa3	USD		20,000
A+/A1	USD		15,000
A/A2	USD		10,000
A-/A3	USD		5,000
BBB+/Baa1 and <	USD		-

The collateral to be posted is to be in the form of U.S. Treasury Securities in the amount of the fair value of derivative instruments in liability positions net of the effect of applicable netting arrangements. If UNM or the counterparty does not post collateral, the derivative instrument may be terminated. UNM's credit rating is AA-/Aa3 at June 30, 2025; therefore, no collateral has been posted.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

J. University of New Mexico (Continued)

Derivative Instrument Payments and Hedged Debt

As of June 30, 2025, aggregate debt service requirements of UNM's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are presented below. These amounts assume that current interest rates on variable-rate bonds and current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary. The hedging derivative instruments column reflects only net receipts/payments on derivative instruments that qualify for hedge accounting.

Debt Service Requirements
On Associated Hedging Derivative Instruments
(Expressed in Thousands)

Fiscal Year Ending June 30,	Principal	Interest	Hedging Derivative Instruments, Net	Total
2026	$9,900	$582	$243	$ 10,725
2027	2,900	275	180	3,355
2028	3,030	241	100	3,371
2029	3,160	161	60	3,381
2030	2,470	77	21	2,568
2031 - 2035	-	-	-	-
Total	$ 21,460	$ 1,336	$ 604	$ 23,400

Fiscal Year Changes in Swap Valuations

UNM has entered into interest rate swaps as shown in the prior schedule. The swaps were put in place starting in fiscal years 2002 and 2003. The University has recorded the swaps at their estimated fair values as of June 30, 2025. Swaps A through D are deemed cash flow hedges and, therefore, in addition to recording the liability at fair value, the University has recorded an offsetting deferred outflow of resources. Annually, the changes to the fair values are recorded as an increase or decrease to the liability and the offset to the deferred outflow of resources. The fair value change in fiscal year 2025 for the hedge instruments was a $81 thousand increase to the liability and an equal offsetting decrease to the deferred outflow of resources. Swaps E and F are not cash flow hedges, but rather are considered investment swaps, and changes in their fair value are recorded as investment gain (loss). The fair value change for swaps E and F as of June 30, 2025, was recorded to unrealized loss in the amount of $271 thousand.

NOTE 8 LONG-TERM LIABILITIES (CONTINUED)

K. Notes Payable

The State has issued notes payable for various purposes, mainly equipment acquisition. Details of notes payable for the fiscal year ended June 30, 2025, follow:

Note Payable
Debt Service Requirements to Maturity
(Expressed in Thousands)

Fiscal Year Ending June 30,	Principal	Interest	Total
2026	$ 2,279	$ 252	$ 2,531

2028	2,218	92	2,310
2029	381	8	389
Total	$ 6,965	$ 527	$ 7,492

NMSU issued a tax-exempt Subordinate Lien Improvement Revenue Note, Series 2014 on April 21, 2014 in a direct purchase with BOKF, NA dba Bank of Albuquerque. The original principal amount of the note was $15.9 million, and the interest rate is 3.07%. The note is payable solely from, and secured by, a pledge of, and a nonexclusive subordinate lien on the following revenues: student tuition and fees; sales and service revenue; other operating revenue; investment income; and building fees. The note matures April 1, 2029.

On February 1, 2023, a note payable was formed in the amount of $3.3M between the NMHU and NMHUF to purchase a building and its land that the NMHUF had been leasing to the NMHU. The note carries a 6% interest rate with monthly payments of $55.5K and matures on January 1, 2029.

NOTE 9 NET POSITION AND FUND EQUITY

A. Governmental Fund Balances

Fund balances of governmental funds are classified as:

- *Nonspendable* – amounts that cannot be spent because they are not in a spendable form (not expected to be converted to cash) or are legally required to be intact. Examples include inventories and permanent fund principal.
- *Restricted* – amounts where legally enforceable constraints are imposed by an external party such as a grantor, by the State Legislature, or by the constitution at the same time the revenue is created.
- *Committed* – amounts where constraints are imposed by formal action of the government's highest level of decision-making authority, the State Legislature or the Governor, which cannot be used for any other purpose unless the constraint is changed by similar action. These constraints are imposed separately from the creation of the revenue.
- *Assigned* – amounts where constraints are imposed on the use of resources through the intent made by any level of decision-making authority in the government if the governing body has expressly delegated that authority to the official or to a committee.
- *Unassigned* – the residual amount after all classifications have been considered. The General Fund is the only fund that reports a positive unassigned fund balance.

NOTE 9 NET POSITION AND FUND EQUITY (CONTINUED)

A. Governmental Fund Balances (Continued)

A summary of the nature and purpose of governmental fund balances, by fund type, at June 30, 2025, follows (expressed in thousands):

NOTE 9 NET POSITION AND FUND EQUITY (CONTINUED)

B. Deficit Net Position/ Fund Equity

Governmental Activities

There were no deficit overall fund balances to report for the fiscal year ended June 30, 2025.

C. Change in Accounting Principle

Effective July 1, 2024, the State implemented GASB Statement No. 101, Compensated Absences. This statement updated the recognition and measurement guidance for compensated absences and associated salary-related payments and amended certain previously required disclosures. As a result of the implementation of this standard, the compensated absences liability as of July 1, 2024 was understated by $84.2 M in the governmental activities including $1.2M related to Internal Service Funds, $26.1M in the business type activities, $1.1 M related to fiduciary activities and $6.8M related to component unit activities.

D. Correction of an Error in Previously Issued Financial Statements

Governmental Funds

During the fiscal year ended June 30, 2025, the State determined that errors in accounting for certain transactions had been made in prior fiscal year in relation to overstating deferred inflows of resources and receipts held in suspense for the general fund, and changes in reporting entity or classification for several funds resulted in the restatement of beginning fund balance.

E. Adjustments

The general fund reflected a change in inventory of $3M during the fiscal year.

NOTE 9 NET POSITION AND FUND EQUITY (CONTINUED)

NOTE 10 RISK MANAGEMENT

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through its Internal Service Fund (ISF). Coverage is provided for the following:

- Workers' Compensation
- Civil Rights and Foreign Jurisdiction
- Aircraft
- Money and Securities
- Health and Life
- General Liability
- Automobile
- Property
- Employee Fidelity Bond
- Short-Term and Long-Term Disability

The State of New Mexico manages its risks internally and sets aside assets for claim settlement through Enterprise Funds within the Risk Management Division (RMD) of the General Services Department. The RMD services all claims for risk of loss to which the State is exposed, including general liability, property and casualty, workers' compensation, employee health and accident, and unemployment compensation. The Department has coverage for general liability and civil rights claims through the Public Liability Fund administered by the State of New Mexico's Risk Management Division. The dollar amount "limits" of the insurance coverage are the damages caps set forth in the Tort Claims Act, NMSA Section 41-4-19, which may be amended from time to time by the legislature. All funds, agencies, and authorities of the State participate in Risk Management. Risk Management allocates the cost of providing claims servicing and claims payment by charging a "premium" to each fund, agency or public authority based on claims history and exposure of each participant. The charge considers recent trends in actual claims experience of the State as a whole and makes provision for catastrophic losses.

ISF fund liabilities are reported when it is probable that a loss has occurred, and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Because actual claims liabilities depend on such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liabilities are reevaluated annually to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Total insurance claims payable at June 30, 2025, were $464 million. The amounts of the liabilities are determined by independent actuarial consultants to the ISF. The total liability is shown in the accompanying financial statements at the present value of the payments, computed at 2% annual rate, between June 30, 2025 and the date the claims are ultimately expected to be paid.

NOTE 10 RISK MANAGEMENT (CONTINUED)

Insurance claims payable presented are actuarial computed estimates of the costs of administering, defending, and settling claims for events that had occurred as of the year-end. Since these estimates are based on historical information and various statistical measures, actual amounts paid may vary significantly from the amount estimated by the fund actuaries and reported herein. The basis of estimating the liabilities for unpaid claims is found in the independent actuarial report.

The following shows the reconciliation of changes in the unpaid claims in the ISF, which are stated at present value (expressed in thousands):

	Beginning Balance	Incurred (Net of Actuarial Provision)	Payments	Ending Balance	Current Amount Due
State Unemployment	$ 3,832	$ 5,270	$ (5,171)	$ 3,931	$ 3,832
Local Public Body	823	1,062	(1,040)	845	824
Public Property Reserve	7,607	10,011	(10,623)	6,995	6,401
Public Liability	358,552	102,031	(61,282)	399,301	162,458
Surety Bond	4	(1)	-	3	2
Workers' Compensation	57,454	10,162	(14,606)	53,010	13,381
Group Insurance Premium	49,737	2,701	-	52,438	49,737
Total	$ 478,009	$ 131,236	$ (92,722)	$ 516,523	$ 236,635

It is possible that other claims against ISF may exist but have not been asserted.

NOTE 11 PENSION PLANS

A. Plan Descriptions

The State maintains five public employees' retirement systems (Systems): four separate systems are administered by the New Mexico Public Employees' Retirement Association (PERA) and one system is administered by the New Mexico Educational Employees' Retirement Board (ERB).

NOTE 11 PENSION PLANS (CONTINUED)

A. Plan Descriptions (Continued)

PERA is the administrator of the Public Employees Retirement System (PERS), the Judicial Retirement System (JRS), the Magistrate Retirement System (MRS), and the Volunteer Firefighter Retirement System (VFRS). ERB is the administrator of the Educational Employees Retirement System (EERS). Collectively, the Systems offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators. The laws governing the administration of the Systems are set forth in Chapter 10, NMSA 1978, and applicable Replacement Pamphlets.

PERA is directed by the Public Employees Retirement Board (Board), which consists of 12 members. Ten of the Board members are elected by PERA active and retired members under state and municipal coverage plans. Two Board members, the Secretary of State and the State Treasurer, are ex-officio members.

PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to PERA, 33 Plaza la Prensa, Santa Fe, NM 87507.

ERB is directed by the Educational Retirement Board, composed of seven members. Board members include:

- Secretary of Public Education, who is appointed by the Governor;
- State Treasurer;
- One member elected by the membership of the NM Association of Educational Retirees;
- One member elected by the membership of the National Education Association of New Mexico;
- One member elected by the membership of the American Association of University Professors;
- Two members appointed by the Governor

The ERB issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to ERB, PO Box 26129, Santa Fe, New Mexico 87502.

NOTE 11 PENSION PLANS (CONTINUED)

* Note: PERA Retirement Fund includes the Legislative Fund

B. Funding and Benefit Policies

Public Employees Retirement System (PERS)

This plan is a cost-sharing, multiemployer defined benefit pension plan with six divisions of members: State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10-11-3, NMSA 1978.) Except as provided for in the Volunteer Firefighter Retirement Act (Chapters 10-11A-1 to 10-11A-7, NMSA 1978), the Judicial retirement Act (Chapters 10-12B-1 to 10-12B- 19, NMSA 1978), the Magistrate Retirement Act (Chapters 10-12C-1 to 10-12C-18, NMSA 1978), the Educational Retirement Act (Chapter 22-11, NMSA 1978), and the provisions of Chapters 29-4-1 through 29-4-11, NMSA 1978, governing the State Police Pension Fund, each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Public Employees Retirement System (PERS) (Continued)

Senate Bill 72:

- Increases employer and employee contributions each year by .5% for State General Plan employees for fiscal year 2021, 2022, 2023 and 2024, excludes State Police and Adult Correctional Officer Plan 1 and active members with wages under $25,000.
- For three fiscal years replaced the current compounding annual 2% COLA with a 2% non-compounding additional payment (13th check) and beginning July 1, 2023, changing to a profit sharing COLA tied to investment performance and PERA's total funded ratio.

Effective July 1, 2019, House Bill 501 increased employer contributions by 0.0025% for funds under the Public Employees Retirement Act.

Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for Tier I members (as defined later in these notes). Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of normal retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member's final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and nonduty death and disability and for postretirement survivors' annuities are also available. A blended pension benefit is equal to the sum of the pension attributable to the service credit the member has accrued under each coverage plan with different pension factors, for service credit earned after July 1, 2013.

Cost-of-living adjustment (COLA)

- Eligible retired members will receive a 4% COLA.
- Graduated COLA eligibility period for those who retire:
  - Before June 30, 2014: no change to current two full-calendar years after retirements to receive a COLA;
  - Between July 1, 2014 and June 30, 2015: two full-calendar year eligibility period to receive a COLA;
  - Between July 1, 2015 and June 30, 2016: four full-calendar year eligibility period to receive a COLA; and
  - After July 1, 2016: seven full-calendar year eligibility period to receive a COLA
- No change in one-year COLA eligibility for disability retirees or retirees age 65 or older.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Public Employees Retirement System (PERS) (Continued)

For Tier II, the retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (applicable to those hired after July 1, 2013 – Tier II), general members are eligible to retire at any age if the member has at least five years of service credit and the sum of the member's age and service credits equals at least 85, or at 65 with five or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service credit. Under Tier II, police and firefighters in Plans 3, 4, and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers, and municipal juvenile detention officers will remain in 25-year retirement plans; however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with five or more years of service credit. Generally, under Tier II, pension factors were reduced by 0.5%. The computation of final average salary increased as the average salary for 60 consecutive months.

Contribution rates for members vary depending on the plan under PERS. Employee contribution rates range from 4.78% to 18.15% of annual salary, and employer rates range from 7.0% to 26.12%. Generally, Tier I regular state members contribute 7.42% to 8.92%, while employers contribute 17.24%.

CHANGES FOR RETIREES

Cost-of-living adjustment (COLA)

- Reduces the COLA from 3% to 2% except for:
- 2.5% COLA for members retired with 25 or more years of PERA service credit (not reciprocity) and disability retired members, whose annual pensions are less than $20,000.

CHANGES FOR RE-EMPLOYED RETIREES

Cost-of-living adjustment (COLA)

- Suspends the COLA for grandfathered return-to-work retirees during reemployment with PERA-affiliated employers or retirees employed by entities covered by the Education Retirement Act.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

State Legislative Fund

This plan is a defined benefit pension plan which is accounted for in PERS. Eligibility for membership in the State Legislative Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, Section 43 and 43.5, NMSA 1978). State Legislators and lieutenant governors must elect to be a member no later than 180 days after first taking office to be covered under this plan. Member contributions are $500 for each year of service credit prior to the 2012 legislative session and $600 for each year beginning with the 2012 legislative session. Legislative service credit is earned each calendar year during which the member fulfills the obligations of the position of the legislator for more than six months of the calendar year, including the legislative session. Legislators are not required to make a member contribution until after the legislative session has ended and after PERA verifies services credit. PERA invoices legislative members to cover member contributions for each legislative session after the session ends, which is normally July or August. State funding for the State Legislative Fund is defined in Sections 10-11-43 and 10-11-43.5, NMSA 1978. The State is required to contribute sufficient amounts to finance the membership of members under State Legislator Coverage Plan 2 on an actuarial reserve basis. The total actuarially determined amount for the State Legislative Fund for the fiscal year ended June 30, 2018 was $-0-. Regarding the source of funding, Section 7 -1-6.43 of the Tax Administration Act states “A distribution pursuant to Section 7-1-6.1 NMSA 1978 shall be made to the legislative retirement fund in an amount equal to two hundred thousand dollars ($200,000) a month or, if larger, one-twelfth of the amount necessary to pay out the retirement benefits due under state legislator member coverage plan 2 and Paragraph (2) of Subsection C of Section 10-11-42 NMSA 1978 for the calendar year.” During the State of New Mexico (53rd Legislature) in 2017, House Bill 2 was passed that reduced the State’s distribution to the legislative retirement fund from $75,000 a month to $-0- a month.

Age and service requirements for retirement are age 65 or older with five or more years of service credit or any age with 10 or more years of service credit. Legislative members who meet retirement eligibility requirements receive annual pensions equal in any calendar year to 11% of the per diem rate in effect on the first day of the calendar year that the member retires multiplied by 60 and further multiplied by credited service. The per diem rate starting January 1, 2018 is $165.

Effective 2019 the annual contribution amount under Legislative Retirement Plan 2 the amount increases to $1,000 per Senate Bill 307.

Cost-of-living adjustment (COLA) is made to eligible retirees and beneficiaries. Retirees of the Legislative fund receive a COLA yearly after retirement of two full-calendar years (January 1 through December 31) subject to certain conditions. The 2% COLA will be effective July 1 of the following year after the two full-calendar years and will be compounded for each fiscal year thereafter. The COLA for disabled retired members making less than $20,000 and members that make less than $20,000 and have 25 years of service credit will be 2.5%.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Judicial Retirement Fund

This plan is a single employer defined benefit pension plan. Eligibility for membership in the Judicial Retirement Fund is set forth in Chapter 10-12B-4, NMSA 1978. Every judge or justice becomes a member in the Judicial Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Judicial Retirement plan.

For individuals that became a member prior to July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 60 to anyone having served at least 15 years. The annual pension amount for those members covered prior to July 1, 2005, is determined as 75% of the salary received during the last year in office prior to retirement multiplied by the number of years of service, not to exceed 10 years divided by 10. For individuals that become a member after July 1, 2005, benefits are available at age 64 or older to anyone having served a minimum of five years and at age 55 to anyone having served at least 16 years.

For those individuals who became members subsequent to July 1, 2005, the annual pension amount is determined as 75% of salary received during the last year in office prior to retirement multiplied by 5% of the number of years in service, not exceeding 15 years, plus five years or one-twelfth of the salary received during the last year in office prior to retirement multiplied by the product of 3.75% times the sum of the number of years of service; provided that a pension calculated shall not exceed 75% of one-twelfth of the salary received during the last year in office.

The retirement age and service credit requirements for normal retirement for judicial members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 33 Substitute in the 2014 Legislative Session. Under the new requirements, judicial members are eligible to retire at age 65 with eight or more years of service or at age 60 with 15 or more years of service credit.

Effective July 1, 2014, judicial membership is mandatory, all judicial pension factors were reduced, employee and employer contributions increased 3% and the computation of final average salary increased as the average of salary for the 60 consecutive months. In addition, cost-of-living increases were suspended for two consecutive fiscal years and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded. Suspends the COLA for judges and magistrates if the Funds' funded ratios fall below 100%. COLA suspensions shall only be implemented for two consecutive fiscal years.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Judicial Retirement Fund (Continued)

Early retirement provisions apply to members retiring between ages 50 and 60. The plan also provides for survivors' allowances and disability benefits. Members contribute at a rate of 10.5% of their salaries and the member's court contributes at a rate of 15% of the member's salary. Additionally, the district court contributes $38 for each civil case docket fee paid in the district court, $25 from each civil docket fee paid in metropolitan court, and $10 (not in thousands) for each jury fee paid in metropolitan court. Contribution rates are established by State statute. Various other changes took place under House Bill 33 which amended the Judicial Retirement Act. Senate Bill 122, which is effective from 2021 until fiscal year 2026 the Judicial Retirement Fund will receive $100,000 each month from the Oil and Gas Proceeds and pass-through entity withholding tax.

Magistrate Retirement Fund

This plan is a single employer defined benefit pension plan. Eligibility for membership in the Magistrate Retirement Fund is set forth in Chapter 10-12C-4, NMSA 1978. All assets accumulated for the payment of benefits may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of the Magistrate Retirement plan. Every magistrate becomes a member in the Magistrate Retirement Fund upon election or appointment to office, unless an application for exemption has been appropriately filed or unless specifically excluded. Benefits are available at age 64 or older to any member having served as a magistrate for a minimum of five years. Retirement is available at age 60 to any magistrate or former magistrate having served at least 15 years or at any age with 24 or more years of service credit. The annual pension amount is determined by multiplying 75.0% of the salary received during the last year in office prior to retirement by 5.0% of the number of years of service, not exceeding 15 years, plus five years.

The retirement age and service credit requirements for normal retirement for magistrate members who first take the bench on or after July 1, 2014 increased with the passage of House Bill 216 Substitute in the 2014 Legislative Session. Under the new requirements, magistrates are eligible to retire at age 65 with eight or more years of service, at age 60 with 15 or more years of service credit or at any age with 24 years of service credit.

Effective July 1, 2014, membership is mandatory, all magistrate pension factors were reduced, employee contributions increased 3%, and the computation of final average salary increased as the average of salary for the 60 consecutive months prior to retirement. Employer contributions increased by 4% effective July 1, 2015. In addition, cost-of-living increases were suspended for two consecutive fiscal years, and future cost-of-living adjustments are reduced to 2% every third year until the Fund is projected to be 100% funded.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Magistrate Retirement Fund (Continued)

Member contributions are based on 10.5% of salaries and the State, through the administrative office of the courts, contributes at a rate of 11% of the member's salary. Beginning July 1, 2015, the employer contributions increased to 15% of the member's salary. Additionally, the magistrate or metropolitan courts contribute $25 for each civil case docket fee paid and $10 for each civil jury fee paid in magistrate court. Contribution rates are established by State statute. Certain other changes took place under House Bill 216 and amended the Magistrate Retirement Act. Senate Bill 122, which is effective from 2021 until fiscal year 2026 the Magistrate Retirement Fund will receive $100,000 each month from the Oil and Gas Proceeds and pass-through entity withholding tax.

Volunteer Firefighters Retirement Fund

This plan is a single employer defined benefit pension plan with a special funding situation. Eligibility for membership in the Volunteer Firefighters Retirement Fund is set forth in Chapter 10-11A-2, NMSA 1978. Any volunteer non-salaried firefighter who is listed as an active member on the rolls of a fire department and who meets certain age and service credit requirements set forth in the statute is eligible for membership in the Volunteer Firefighters Retirement Fund. Benefits are available at age 55 or older to any member having served as a volunteer firefighter for a minimum of 10 years. Benefits are $125 per month, as of July 1, 2013, with at least 10 but less than 25 years of service or $250 per month with 25 or more years of service. Benefits for postretirement surviving spouse annuities are also available. Members of the Volunteer Firefighters Retirement Fund do not make individual contributions to the plan. State statutes require that the State Treasurer transfer $750,000 during the fiscal year from the Fire Protection Fund to the Volunteer Firefighters Retirement Fund.

Educational Employees' Retirement System (EERS)

The New Mexico Educational Retirement Board (ERB) was created by the Educational Retirement Act, Chapters 22-11-1 to 22-11-52, NMSA 1978, as amended, to administer and have the responsibility for operating the Educational Employees' Retirement Plan. ERB is an agency of the State. The plan administered by ERB is considered part of the State financial reporting entity and is a pension trust fund of the state.

This plan is a cost-sharing, multiemployer pension plan established by statute and administered by ERB to provide retirement, disability, and death benefits for all certified teachers and other employees of the State's elementary, secondary, and higher educational institutions, junior colleges, and technical-vocational institutions. Employees who are employed more than 25% of a full-time equivalency are required to be members of the Plan, unless specifically excluded.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Educational Employees' Retirement System (EERS) (Continued)

Plan members whose annual salary is $24,000 or less are required by statute to contribute 7.9% of their gross salary. For plan members whose annual salary is over $24,000, they are required to contribute 10.7% of their gross salary to the plan in fiscal year 2021 and thereafter. Employers are required to contribute 18.15% of gross covered salaries in fiscal year 2024 and thereafter. The statutory contribution requirements can be changed by the State Legislature.

For members employed before July 1, 2010, a member is eligible to retire when one of the following events occurs:

- The member's age and earned service credit add up to the sum of 75 or more,
- The member is at least 65 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 25 years or more.

Chapter 288, Laws of 2009 changed the eligibility requirements for new members first employed on, or after, July 1, 2010 and before July 1, 2013. The eligibility for a member who either becomes a new member on or after July 1, 2010 and before July 1, 2013, or at any time prior to July 1, 2010 refunded all member contributions and then becomes re-employed after July 1, 2010 is as follows:

- The member's age and earned service credit add up to the sum of 80 or more,
- The member is at least 67 years of age and has five or more years of earned service credit, or
- The member has service credit totaling 30 years or more.

Section 2-11-23.2, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2013, or who were employed before July 1, 2013 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2013. These members must meet one of the following requirements:

- The member's minimum age is 55 and has earned 30 or more years of service credit. Those who retire earlier than age 55, but with 30 years of earned service credit will have a reduction in benefits to the actuarial equivalent of retiring at age 55.
- The member's minimum age and earned service credit add up to the sum of 80 or more. Those who retire under the age of 65, and who have fewer than 30 years of earned service credit will receive reduced retirement benefits.
- The member's age is 67 and has earned five or more years of service credit.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Educational Employees' Retirement System (EERS) (Continued)

Section 2-11-23.3, NMSA 1978 added eligibility requirements for new members who were first employed on or after July 1, 2019, or who were employed before July 1, 2019 but terminated employment and subsequently withdrew all contributions, and returned to work for an ERB employer on or after July 1, 2019. These members must meet one of the following requirements:

- The member is any age and has 30 years of earned service credit.
- The member is at least 67 years of age and has five or more years of earned service credit.
- The sum of members' age and years of earned service credit equals at least 80.

Forms of Payment - The benefit is paid as a monthly life annuity with a guarantee that, if the payments made do not exceed the member's accumulated contributions plus accumulated interest, determined as of the date of retirement, the balance will be paid in a lump-sum to the member's surviving beneficiary.

Benefit Options - There are three benefit options available:

Option A – Straight Life Benefit. The single life annuity option has no reductions to the monthly benefit, and there is no continuing benefit due to a beneficiary or estate, except the balance, if any, of member contributions plus interest less benefits paid prior to the member's death.

Option B – Joint 100% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 100% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the same benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life Benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

Option C – Joint 50% Survivor Benefit. The single life annuity monthly benefit is reduced to provide for a 50% survivor's benefit. The reduced benefit is payable during the life of the member, with the provision that, upon death, the reduced 50% benefit is paid to the beneficiary for his or her lifetime. If the beneficiary predeceases the member, the member's monthly benefit is increased to the amount the member would have received under Option A Straight Life Benefit. The member's increased monthly benefit commences in the month following the beneficiary's death.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Educational Employees' Retirement System (EERS) (Continued)

Cost-of-Living Adjustment (COLA) – All retired members and beneficiaries receiving benefits receive an automatic adjustment in their benefit on July 1 following the later of 1) the year a member retires, or 2) the year a member reaches age 65 (Tier 1 and Tier 2) or age 67 (Tier 3 and Tier 4):

- Tier 1 membership is comprised of employees who became members prior to July 1, 2010
- Tier 2 membership is comprised of employees who became members after July 1, 2010, but prior to July 1, 2013
- Tier 3 membership is comprised of employees who became members on or after July 1, 2013, but prior to July 1, 2019
- Tier 4 membership is comprised of employees who became members on or after July 1, 2019

As of July 1, 2013, for current and future retirees the COLA is immediately reduced until the Plan is 100% funded. The COLA reduction is based on the median retirement benefit of all retirees excluding disability retirements. Retirees with benefits at or below the median and with 25 or more years of service credit will have a 10% COLA reduction; their average COLA will be 1.5%. Once the funding is greater than 90%, the COLA reductions will decrease. The retirees with benefits at or below the median and with 25 or more years of service credit will have a 5% COLA reduction; their average COLA will be 1.7%.

Members on disability retirement are entitled to a COLA commencing on July 1 of the third full year following disability retirement. A member on regular retirement who can prove retirement because of a disability may qualify for a COLA beginning July 1 in the third full year of retirement.

Disability Benefit

Eligibility - A member is eligible for a disability benefit provided (a) he or she has credit for at least 10 years of service, and (b) the disability is approved by the Board.

Monthly Benefit - The monthly benefit is equal to 2% of FAS times years of service, but not less than the smaller of (a) one-third of FAS or (b) 2% of FAS times years of service projected to age 60.

Form of Payment - The disability benefit commences immediately upon the member's retirement. Disability benefits are payable as a monthly life annuity, with a guarantee that, if the payments made do not exceed the member's accumulated contributions, determined as of the date of retirement, the balance will be paid in a lump-sum to the member's surviving beneficiary. If the disabled member survives to age 60, the regular optional forms of payment are then applied.

NOTE 11 PENSION PLANS (CONTINUED)

B. Funding and Benefit Policies (Continued)

Educational Employees' Retirement System (EERS) (Continued)

Disability Benefit (Continued)

Refund of Contributions - Members may withdraw their contributions only when they terminate covered employment in the State and certification of termination has been provided by their former employers. Interest paid to members when they withdraw their contributions following termination of employment is at a rate set by the Board. Interest is not earned on contributions credited to accounts prior to July 1, 1971, or contributions held for less than one year.

Alternative Retirement Plan - Effective October 1991, the New Mexico legislature established an Alternative Retirement Plan (ARP) through the enactment of ERA Sections 22-11-47 through 52 NMSA 1978 to provide eligible employees an election to establish an alternative retirement investment plan. In contrast to the defined benefit plan administered by NMERB, the ARP is a defined contribution plan. NMERB is the trustee of the ARP which is administered by two third party contractors for NMERB. The administrators approved to offer ARP plans to eligible participants are Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA- CREF), and Fidelity Investments.

These administrators have the authority to perform record keeping, enrollment education services, and other administrative duties for the ARP. The administrators are delegated any and all powers as may be necessary or advisable to discharge their duties under the ARP and have certain discretionary authority to decide matters under the ARP. As the ARP trustee NMERB is responsible for selecting investment options that provide a prudent rate of return, and to ensure that all investments, amounts, property, and rights under the executed Plan-Trust are held for the exclusive benefit of Plan participants and their beneficiaries, as defined in the Plan Document.

PERA Asset Allocations

The long-term expected rate of return on pension plan investments was determined using a statistical analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and most recent best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Public Employees Retirement Association
All Systems

Asset Class	Target Allocation	Long-Term Expected Rate of Return
Global Equity	46.00 %	3.50 %
Core Fixed Income	13.00	2.20
Credit	17.00	3.30
Absolute Return	6.00	2.40
Real Assets	18.00	4.50
Total	100.00 %	

ERB Asset Allocations

ERB's investment allocation policy is periodically reviewed and amended by the Board of Trustees, as needed. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan. The following schedule shows the current asset allocations as well as the policy adopted on December 2022:

NOTE 11 PENSION PLANS (CONTINUED)

Rate of Return

Disclosure of the annual money-weighted return is a requirement of GASB 67. It incorporates both the size and timing of cash flows to determine an internal rate of return and expresses investment performance adjusted for the changing amounts actually invested. The requirements of the calculation are listed below.

- The rate is computed net of investment expenses, but not net of administrative expenses.
- External cash flows used as inputs should be determined on at least a monthly basis.
- Cash flows should be determined on an accrual basis of accounting.
- Cash-flow weighting should be representative of the Plan's actual external cash flow timing.

For the year ended June 30, 2025, the annual money-weighted rate of return on the PERA pension plan investments net of investment expense was 9.49%. For the ERB pension plan, it was 9.88%.

D. Employer Reporting – Public Employees Retirement Association of New Mexico (PERA)

State – Funded Divisions of PERA

For the fiscal year ended June 30, 2025, the State Funded Divisions of PERA were composed of State General, State Police, and Legislative. The measurement date used by the State was June 30, 2024.

1. Contributions

As stated earlier in this note, the contribution requirements of the plan members and the State are established in the state statute. Statutorily required contributions from the State to the State funded divisions of the pension plan were $321 million for the fiscal year ended June 30, 2025.

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The State-Funded Divisions of PERA reported net pension liabilities as follows (expressed in thousands):

Division	Net Pension Liability
State General	$ (4,820,825)
State Police	291,669
Legislative	(3,492)
Total	$ (4,532,648)

NOTE 11 PENSION PLANS (CONTINUED)

D. Employer Reporting – Public Employees Retirement Association of New Mexico (PERA) (Continued)

State – Funded Divisions of PERA (Continued)

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The net pension liability is further segregated in the following amounts in governmental and business-types (expressed in thousands):

Governmental Activities (Including Internal Service Funds)	$ 4,446,057
Business-Type Activities (Including Nonmajor Enterprise Funds and Two Educational Institutions)	86,091
Total	$ 4,532,148

At June 30, 2025, the State's total proportion of the PERA State Funded Divisions net pension liability was 50.64%. Total contributions for State Funded Divisions were $274.6 million, $46.6 million, and $-0- for the three divisions respectively. Pension expense (income) was $536.3 million, $36.1 million, and $10.5 million respectively.

Single-Employer Funds

The State contributes 100% of the contributions to three single-employer funds in the PERA System. They are the Judicial, Magistrate, and Volunteer Firefighters Retirement Funds. The measurement date used by the State was June 30, 2025 (expressed in thousands).

	Judicial	Volunteer Firefighters	Magistrate
Net Pension Liability (Asset)	$ 120,623	$ (32,300)	$ 40,810

1. Contributions

Contributions from the State to the PERA Judicial, Magistrate Retirement, and Volunteer Firefighter funds were $4.35 million, $1.2 million, and $.75 million, respectively, for the year ended June 30, 2025.

NOTE 11 PENSION PLANS (CONTINUED)

D. Employer Reporting – Public Employees Retirement Association of New Mexico (PERA) (Continued)

Single-Employer Funds (Continued)

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The State reported liabilities of $121 million and $41 million for the net pension liabilities of the Judicial and Magistrate Retirement Funds, respectively, which were 100% of the proportionate share. For the year ended June 30, 2025, the State recognized $26 million as pension expense for the Judicial Retirement Funds. Also, for the year ended June 30, 2025, the State recognized $2 million as pension expense for the Magistrate Retirement Fund, respectively.

The Volunteer Firefighters Retirement Fund reported a plan net asset of $32.3 million. Therefore, in accordance with accounting guidance, the positive net position is reported as a net pension asset in the financial statements. Pension income was $1.6 million.

At June 30, 2025, these plans reported deferred outflow of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

	Governmental		Business-Type	
PERA - State-Funded and Single-Employer Funds (Judicial and Magistrates Funds)	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experiences	$ 200,269	$ (40,180)	$ 3,484	$ (748)
Changes of Assumptions	121,991	(17)	1,984	-
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	132,484	-	2,274	-
State Contributions Subsequent to Measurement Date	321,274	-	5,496	-
Total	$ 776,018	$ (40,197)	$ 13,238	$ (748)

The amounts of $321.2 million for governmental activities and $5.5 million for business-type activities, reported as deferred outflows of resources related to pensions resulting from the State's contributions subsequent to the measurement date June 30, 2024, will be recognized as a reduction of the respective net pension liability in the following fiscal year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

Governmental		Business-Type	
Year Ending June 30,	Amount	Year Ending June 30,	Amount
2026	$ 52,428	2026	$ 885
2027	315,391	2027	5,321
2028	59,973	2028	1,012
2029	(13,244)	2029	(224)
2030	-	2030	-
Thereafter	-	Thereafter	-

Single-Employer Funds (Continued)

2. Pension Liabilities, Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The deferred outflows and inflows of resources are presented separately for the Volunteer Firefighter's Fund because this fund reports a positive net position (expressed in thousands).

	Governmental	
Volunteer Firefighter's Fund	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experiences	$ -	$ (8,762)
Changes of Assumptions	534	(788)
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	1,370	-
State Contributions Subsequent to Measurement Date	750	-
Total	$ 2,654	$ (9,550)

The amount of $750 thousand, reported as deferred outflows of resources related to pensions resulting from the State's contributions subsequent to the measurement date June 30, 2024, will be recognized as a reduction of the respective net pension liability in the following fiscal year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

Year Ending June 30,	Amount
2026	$ (2,788)
2027	(151)
2028	(1,909)
2029	(1,867)
2030	(764)
Thereafter	(167)

E. Employer Reporting – Educational Retirement Board (ERB)

1. Contributions

As stated earlier in this note, the contribution requirements of ERB plan members and the State are established in state statute. Contributions for the fiscal year ended June 30, 2025, from the State to the ERB were $1.9 million for governmental activities and $213 million from the 12 educational institutions reported as business-type activities.

NOTE 11 PENSION PLANS (CONTINUED)

E. Employer Reporting – Educational Retirement Board (ERB) (Continued)

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The total ERB pension liability, net pension liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2023. Therefore, the employer's portion was established as of the measurement date June 30, 2024. On June 30, 2025, the State reported a liability of $20 million for its proportionate share of the net pension liability covering state employees in governmental activities, and $2.3 billion for the collective proportionate share of the 12 educational institutions reported as business-type activities. At June 30, 2024, the proportion was .2323% for governmental activities and 25.6251% for business-type activities. The State's proportion of the net pension liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2024. The contribution amounts were defined by Section 22-11-21, NMSA 1978.

For the year ended June 30, 2025, the State recognized pension income of $2.5 million in governmental activities and $162 million in business-type activities. At June 30, 2025, the State reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (expressed in thousands):

	Governmental		Business-Type	
ERB Fund	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experiences	$ 1,629	$ (44)	$ 184,872	$ (5,026)
Changes of Assumptions	-	(523)	-	(59,416)
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	-	(605)	-	(68,676)
Changes in Proportion and Differences Between State Contributions and Proportionate Share of Contributions	-	(1,770)	17,923	(41,382)
State Contributions Subsequent to Measurement Date	1,914	-	213,132	-
Total	$ 3,543	$ (2,942)	$ 415,927	$ (174,500)

Contributions made subsequent to the measurement date will reduce the net pension liability for the next fiscal year.

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (expressed in thousands):

Governmental		Business-Type	
Year Ending June 30,	Amount	Year Ending June 30,	Amount
2026	$ (1,563)	2026	$ (58,471)

F. Discount Rates and Sensitivity Analysis

Discount Rate for the PERA, Volunteer Firefighter, Magistrate and Judicial Funds

Previously, a select and ultimate rate of return assumption had been adopted for funding purposes, but new economic assumptions were adopted for the June 30, 2024 valuations including the change to a 7.25% static rate. The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumed that future contributions will be made in accordance with statutory rates. On this basis, the pension plan's fiduciary net position together with the expected future contributions are sufficient to provide all projected future benefit payments of current plan members as determined in accordance with GASB Statement No. 67. Therefore, the 7.25% assumed long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table provides the sensitivity of the State's proportionate share of the net pension liability to changes in the discount rate. In particular, the tables present the State's net pension liability as if it were calculated using a discount rate 1-percentage-point lower or 1-percentage-point higher than the single discount rate.

NOTE 11 PENSION PLANS (CONTINUED)

F. Discount Rates and Sensitivity Analysis (Continued)

Changes in the Discount Rate
(Expressed in Thousands)

Net Pension Liability	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
State-Funded Divisions	$ 6,023,245	$ 4,532,648	$ 3,299,288
Single-Employer Funds:			
	(4.54%)	(5.54%)	(6.54%)
Judicial	$ 147,080	$ 120,623	$ 98,350
	(6.25%)	(7.25%)	(8.25%)
Volunteer Firefighters	$ (26,420)	$ (32,300)	$ (37,216)
	(4.84%)	(5.84%)	(6.84%)
Magistrate	$ 49,089	$ 40,810	$ 33,925

ERB

A single discount rate of 7.00% was used to measure the Total Pension Liability as of June 30, 2025. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were sufficient to finance all projected future benefit payments of current plan members. As a result, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels. Additionally, contributions received through Alternative Retirement Plan and the Return-to-Work Program are included in the projection of cash flows. These contributions are assumed to remain a level percentage of NMERB payroll, where the percentage of payroll is based on the most recent five-year contribution history.

NOTE 11 PENSION PLANS (CONTINUED)

F. Discount Rates and Sensitivity Analysis (Continued)

Sensitivity of the State's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

A. Plan Description

In addition to pension benefits as described in Note 11, the State provides other postemployment benefits (OPEB). The following is in accordance with the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

A. Plan Description (Continued)

The New Mexico Retiree Health Care Authority (RHCA) was formed February 13, 1990 under the New Mexico Retiree Health Care Act (the Act), Chapters 10-7C-1 to 10-7C-19, NMSA 1978, to administer the retiree health care fund which was created to provide comprehensive group health insurance coverage for individuals (and their spouses, dependents, and surviving spouses) who have retired or will retire from public service in New Mexico. The Retiree Health Care Act established a cost-sharing, multiemployer defined benefit postemployment health care plan (the Plan) that provides comprehensive core group health insurance for persons who have retired from certain public service in New Mexico. The Retiree Health Care Act created a governing board composed of 11 members (a 12th member was added through an amendment). RHCA issues a separate, publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to RHCA, 6300 Jefferson Street NE, Suite 150, Albuquerque, NM 87109.

The legislation establishing RHCA specifically did not intend to create formal trust relationships among the participating employees, retirees, employers, and RHCA administering the Act. However, the substantive plan created by the Act contains all requisite elements to be considered as the equivalent of a trust arrangement. These elements include irrevocable contributions to the Plan, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the Plan, and plan assets are legally protected from creditors of employers or the Plan administrator. Additionally, there is no provision for a participating government entity to withdraw membership, and all risks and costs including benefit costs are shared and are not attributed individually to employers, and a single contribution rate applies to employers. RHCA received a legal opinion that the manner of legal organization of RHCA is substantially equivalent to a trust. As such, RHCA was required to apply GASB Statement No. 74, *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans,* which was implemented by the State effective for fiscal year ending June 30, 2018. The net position of the RHCA is reported as restricted per GASB Statement No. 46 and Chapter 10-7-C-14, NMSA 1978.

Eligible employers are institutions of higher education, school districts, or other entities participating in the public school insurance authority, and state agencies, state courts, magistrate courts, municipalities, or counties, which are affiliated under or covered by the Educational Retirement Act, the Magistrate Retirement Act, or the Public Employees Retirement Act.

ERB	53,590
Total	98,861
Total Number of Participating Employers	305

B. Single Employer Postemployment Plans

Plan Description for UNM

1. Plan Description

The University of New Mexico Retiree Welfare Benefit Trust (VEBA Trust) administers the University of New Mexico Retiree Welfare Benefit Plan (VEBA Plan) – a single-employer defined benefit plan that is used to provide postemployment benefits other than pensions (OPEB) for all eligible employees of the University. The University is the fiduciary of the VEBA Trust, and the VEBA Trust's financial statements and required supplementary information are included in the University's financial report.

Management of the VEBA Plan is vested in the VEBA Trust's VEBA Committee, which consists of nine members:

- UNM Controller or Designee
- UNM Vice President of Human Resources or Designee
- Two Faculty Appointees (appointed by the UNM President)
- Two Staff Appointees (appointed by the UNM President)
- Member of the Debt Investment Advisory Committee (ex-officio, appointed by the UNM President)
- Two UNM Presidential Appointees

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

B. Single Employer Postemployment Plans (Continued)

Plan Description for UNM (Continued)

2. Plan Membership

In order for a retiree of the University to be eligible for OPEB other than basic life insurance, the employee must have been hired prior to July 1, 2015 and contribute to the VEBA Trust for at least five continuous years immediately prior to retirement. If hired prior to July 1, 2013 and retiring prior to July 1, 2018, employees must continually contribute to the VEBA Trust. Employees were automatically enrolled into the VEBA Trust upon its establishment unless they requested to opt out. Opportunities to opt out will occur annually during the benefits open enrollment period. Employees hired on or after July 1, 2015 are not eligible for OPEB other than basic life insurance. Contributions to the VEBA Trust are not required for the basic life insurance benefit since these benefits are not funded through the VEBA Trust.

At the valuation date of January 1, 2023 the VEBA Plan membership consisted of the following:

- Inactive plan members or beneficiaries currently receiving benefit payments 3,658, active plan members 7,417, and total plan members 11,075.

- Total active plan members include 4,333 members hired on or after July 1, 2015 who are not eligible to receive postretirement health benefits but may be eligible to receive postretirement life insurance benefits.

Plan Description for New Mexico State University

1. Plan Description

New Mexico State University is a single employer that offers employees and their eligible dependents retiree benefits. This is an unfunded OPEB plan operating on a pay-as-you-go basis. The authority to establish and amend the benefit provisions rests with the Board of Regents. Retirees, who have had 10 consecutive years of health insurance coverage with the University at the time of retirement, are offered the opportunity to participate in a fully insured PPO medical plan, including prescription drugs. Medicare retirees (for retirees 65 years of age and over) are offered the opportunity to participate in a Medicare carve-out medical plan, including prescription drugs. Eligible retired employees may select a Life Insurance benefit up to $10,000. All premiums for life insurance are paid by the retiree. The University currently pays 60% of the monthly medical and prescription premium for retirees and their eligible dependents until the retiree reaches age 70, at which time the University reduces their contribution to 30%. As of June 30, 2024, 1,298 retirees met the eligibility requirements for health insurance. Employees hired after June 30, 2016 are not offered this benefit.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

B. Single Employer Postemployment Plans (Continued)

Plan Description for New Mexico State University (Continued)

2. Plan Participation Percentage

The participation percentage is the assumed rate of future eligible retirees who elect to continue health coverage at retirement. It is assumed that 85% of all pre-Medicare employees and their dependents who are eligible for early retirement will participate in the retiree medical plan. It is also assumed that 80% of those enrolled in the pre-Medicare plans will continue on the plan once Medicare eligible. Lastly, it is assumed that 88% of all pre-Medicare employees who are eligible for the retiree life insurance benefit will participate, and 91% of those enrolled will continue on the plan once Medicare eligible. This assumes that a one-time irrevocable election to participate is made at retirement. Employees covered by benefit terms - At June 30, 2024, the following employees were covered by the benefit terms: Current retirees receiving benefits – 1,709 and current active members – 1,383.

Plan Description for NM Institute of Mining and Technology

1. Plan Description

The Board of Regents authorized the creation of the New Mexico Tech Employee Benefit Trust (Trust or Plan), a contributory benefit plan, to operate, control, and maintain a program to provide certain health and life insurance benefits to the employees of the Institute and their families. Retired employees may participate in the Plan. The Plan is considered a postemployment benefit plan as defined by GASB 74, *Financial Reporting for Postemployment Benefit Other than Pension Plans* which was implemented for June 30, 2020. The Trust is recorded as a fiduciary fund in the accompanying financial statements and as a blended component unit. The Board of Regents serves as trustee and has delegated the day-to-day operations of the Trust to the executive staff of the Institute. The Trustees and Institutes management have designated a third-party administrator to process the claims submitted by covered participants.

Effective January 1, 2019, the Institute is no longer using the Trust, a contributory benefit plan, to operate, control, and maintain a program to provide the health insurance benefits to the employees of the Institute and their families. The Board of Regents made a resolution approving an agreement for participating with New Mexico Public School Insurance Authority (NMPSIA), for employee health benefits for its employees, retirees, and their families. The Trust will continue to operate, control, and maintain the life insurance and flexible benefits to the employees of the Institute and their families. The Trust issues standalone audited financial statements that can be obtained by request or via the Office of the State Auditor's website at https://www.osa.nm.gov/.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

C. Funding and Benefit Policies

Eligible retirees are: 1) retirees who make contributions to the fund for at least five years prior to retirement and whose eligible employer during that period of time made contributions as a participant in the Plan on the person's behalf, unless that person retires before the employer's effective date, in which event the time period required for employee and employer contributions shall become the period of time between the employer's effective date and the date of retirement; 2) retirees defined by the Act who retired prior to July 1, 1990; 3) former legislators who served at least two years; and 4) former governing authority members who served at least four years. Employees of RHCA are allowed to participate in the Plan.

The New Mexico Retiree Health Care Act (Chapter 10-7C-13, NMSA 1978) authorizes the RHCA Board to establish the monthly premium contributions that retirees are required to pay for healthcare benefits. Each participating retiree pays a monthly premium according to a service-based subsidy rate schedule for the medical plus basic life plan plus an additional participation fee of $5 (not in thousands) if the eligible participant retired prior to the employer's RHCA effective date or is a former legislator or former governing authority member. Former legislators and governing authority members are required to pay 100% of the insurance premium to cover their claims and the administrative expenses of the plan. The monthly premium rate schedule can be obtained from NMRHCA or viewed on their website at www.nmrhca.state.nm.us.

Contribution

The New Mexico Retiree Health Care Act (Chapter 10-7C-15, NMSA 1978) is the statutory authority that establishes the required contributions of participating employers and their employees. The contributions are set by legislation and are not based on an actuarial calculation. The Legislature periodically reviews the contribution rates pursuant to Chapter 10-7C-15, NMSA 1978.

For the fiscal year ended June 30, 2025, for regular state employees, the statute required each participating employer to contribute 2% of each participating employee's annual salary; each participating employee was required to contribute 1% of their salary.

For employees who were members of an enhanced retirement plan (state police, adult correctional officers, firefighters, and judges) during the fiscal year ended June 30, 2025, the statute required each participating employer to contribute 2.5% of each participating employee's annual salary, and each participating employee was required to contribute 1.25% of their salary.

Current retirees are required to make monthly contributions for individual basic medical coverage. Retiree premium contribution increases are no longer limited by the Act, which the RHCA health care trend's will be the basis for any rate increases for the New Mexico basic plan of benefits. The Board may designate other plans as "optional coverages." Optional and/or voluntary coverages are not subject to the 9% cap, which expired in fiscal year 2008 per Chapter 10-7C-13, NMSA 1978.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

C. Funding and Benefit Policies (Continued)

Contribution (Continued)

Contributions from participating employers and participating employees become the property of the Retiree Health Care Fund and are not refundable under any circumstances, including termination of employment or termination of the participating employer's operations or participation in the Plan. The employer, employee and retiree contributions are required to be remitted to NMRHCA on a monthly basis.

D. Funding and Benefit Policies for Single Employer Plans

UNM

1. Benefits Provided

The VEBA Plan provides health, dental, and life insurance coverage to eligible retirees and their covered dependents. Eligible retirees of the University receive healthcare coverage through a self-insured medical plan, including prescription drugs, available through UNM Health, Presbyterian Health Plan, BCBS of New Mexico, and Express Scripts. Eligible Medicare retirees (for retirees 65 years of age and over) receive healthcare coverage through one of seven fully insured medical/prescription plans: Humana PPO, Aetna PPO ESA, Blue Cross Blue Shield HMO I (Enhanced), Blue Cross Blue Shield HMO II (Standard), Presbyterian HMO-POS, Presbyterian HMO-POS, and UHC AARP supplemental. Eligible retirees are also offered one of two dental insurance benefit options: Premier High Option and PPO Low Option. Basic life insurance benefits are available to retirees of the University without the requirement to opt in to the VEBA Trust. The authority to establish and amend the benefit provisions rests with the Board of Regents.

2. Contributions

The contribution requirements of VEBA Plan members and the University are established and may be amended by the Board of Regents. Retiree contributions for medical and dental insurance are required for both retiree and dependent coverage. Retirees are required to pay the full premiums less a subsidy provided by the University. Retirees 65 years of age and over are required to contribute a percentage of the premiums based on their number of VEBA service credit years. Retirees under the age of 65 are required to contribute a percentage of the premiums based on their number of VEBA service credit years and their preretirement annual salary. Benefits-eligible employees, who do not opt-out of the VEBA Trust, contribute 0.75% of their salary to the VEBA Trust in order to ensure that the health benefits continue into retirement. The University matches the 0.75% contribution made by the employee.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

D. Funding and Benefit Policies for Single Employer Plans (Continued)

NMSU

1. Funding Policy

The University does not use a trust fund to administer the financing and payment of benefits. The retired employees that elect to participate in postemployment benefits are required to make contributions in the form of monthly premiums based on current rates established under the medical and life plans. The University funds the plan on a pay-as-you-go basis. The pay-as-you-go expense is the net expected cost of providing retiree benefits, and includes all expected claims and related expenses and is offset by retiree contributions. The pay-as- you-go expenses for fiscal year 2025 were $3.9 million, net of retiree contributions.

NMIMT

1. Benefits Provided

Retirees are offered $10,000 of retiree basic life insurance. In addition, the Trust is used to pay premiums for life insurance coverage on eligible participants and to administer the Flexible Benefits Plan (the Flex Plan). The Flex Plan, which is fully funded by employees, provides reimbursement of certain employee health and dependent care expenses. The Trust also holds Employee Assistance Plan (EAP) and Commuter Benefits Holding funds.

2. Contributions

The Trust is funded by contributions from both the Institute and employees of the Institute. Flex Plan contributions consist of employee-only contributions and are based on amounts elected by the employees up to specified limits, and are withheld from employee pay. All other contributions, including employee and employer contributions, are based on amounts determined by the Trust Committee as necessary to cover the expenses of the Trust. Contributions are funded on a monthly basis.

E. Funded Status

Investments and Fair Value Measurements

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of June 30, 2025.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

E. Funded Status (Continued)

Investments and Fair Value Measurements (Continued)

The RHCA invested in a number of investment pools offered by New Mexico State Investment Council (NMSIC). Each pool consists of units of participation of unlimited quantity. The pools are held in NMSIC's name. No unit in the pool has priority or preference over any other unit and represents an equal beneficial interest in the pool. The valuation of the RHCA's units in the investment pool is provided by the NMSIC on a monthly basis and represents the fair market value as of that date. Therefore, RHCA has determined that all the investments are measured at Net Asset Value as a practical expedient (NAV practical expedient).

The table below summarizes the investments valued at NAV practical expedient and other pertinent liquidity information:

Investments Measured at NAV Practical Expedient	Fair Value June 30, 2025	Redemption Frequency	Redemption Notice Period
U.S. Large Cap Index Pool	$ 272,898	4 Times Per Year	3 Months
Non U.S. Emerging Markets Index Pool	149,340	Daily	5 Business Days
Non U.S. Developed Markets Index Pool	255,220	4 Times Per Year	3 Months
Private Equity Pool	237,787	4 Times Per Year	3 Months
Private Debt Market Pool	263,968	Daily	5 Business Days
Real Estate Pool	149,045	4 Times Per Year	3 Months
U.S. Small/Mid Cap Active Pool	34,792	Daily	5 Business Days
Real Return Pool	91,990	Daily	3 Months
Core Bond Pool	365,830	Daily	5 Business Days
Total	$ 1,820,870		

There are requirements for frequency and timing of actuarial valuations, as well as actuarial methods and assumptions that are acceptable for financial reporting. The Authority obtains actuarial valuations at least biannually and a single actuarial valuation covers all plan members.

RHCA Asset Allocations

RHCA's investment allocation policy is periodically reviewed and amended by the Board of Trustees, as needed. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension plan.

Further detail of the individual Investment Pools and their management can be obtained from a publicly available financial report that includes financial statements and required supplementary information for the postemployment healthcare plan at RHCA website https://www.nmrhca.state.nm.us.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

E. Funded Status (Continued)

RHCA Asset Allocations (Continued)

The actuarial methods and assumptions for the Plan at June 30, 2025, were as follows:

Valuation Date	June 30, 2025
Actuarial Cost Method	Entry age normal, level of percent of pay, calculated on individual employee basis
Asset Valuation Method	Market value of assets
Actuarial Assumptions:	
Inflation	2.30% for ERB: 2.50% for PERA
Projected payroll increases	3.25% to 11.50% based on years of service, including inflation
Investment rate of return	7.25%, net of OPEB plan investment expense and margin for adverse deviation including inflation
Discount rate	7.25%
Health Care Cost Trend Rate	8.25% graded down to 4.50% over 15 years for Non-Medicare medical plan costs and 8.50% graded down to 4.50% over 15 years for Medicare medical plan costs

Schedule of Annual Money-Weighted Rate of Return

Year Ended June 30,	Annual Money-Weighted Rate of Return
2025	10.58 %

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which the expected future real rates of return (net of investment fees and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumptions. The following schedule summarizes the current investment allocation policy as of June 30, 2025:

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

E. Funded Status (Continued)

Actuarial Assumptions (Continued)

Asset Class	Target Allocations
U.S. Core Fixed Income	20 %
U.S. Equity - Large Cap	14
Non U.S. - Emerging Markets	10
Non U.S. - Developed Equities	14
Private Equity	10
Private Debt Market	15
Real Estate	10
Real Return	5
U.S. Equity - Small/Mid Cap	2
Total	100 %

Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The best estimates for the long-term expected rate of return is summarized as follows:

Asset Class	Long-Term Rate of Return
U.S. Core Fixed Income	1.9 %
U.S. Equity - Large Cap	5.9
Non U.S. - Emerging Markets	7.4
Non U.S. - Developed Equities	6.2
Private Equity	9.7
Credit and Structured Finance	6.1
Real Estate	3.5
Absolute Return	4.0
U.S. Equity - Small/Mid Cap	6.7

F. Net OPEB Liability

Net OPEB Liability

The net OPEB liability and the plan's actuarial valuation were calculated by the Authority's independent actuary as of June 30, 2025. The plan's valuation and measurement of the total OPEB liability and related net OPEB liability were performed in accordance with GASB 74 requirements at the request of the Authority.

The discount rate used to measure the total OPEB liability is 7.25% as of June 30, 2025. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made at rates proportional to the actuary determined contribution rates.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

F. Net OPEB Liability (Continued)

Net OPEB Liability (Continued)

For this purpose, employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs for future plan members are not included. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members through the fiscal year ending June 30, 2070. Thus, the 7.5% assumed investment return on Plan assets, which includes the assumed inflation rate of 2.50%, was used to calculate the net OPEB liability.

The following presents the net OPEB liability, calculated using the discount rate of 7.25%, as well as what the Fund's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (expressed in thousands):

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net OPEB Liability	$ 1,996,155	$ 1,556,677	$ 1,190,600

The following presents the net OPEB liability calculated using the current healthcare cost trend rates as well as what Fund's net OPEB liability would be if it were calculated using a trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate (expressed in thousands):

	1% Decrease	Current Trend	1% Increase
Net OPEB Liability	$ 1,157,265	$ 1,556,677	$ 2,045,917

The total OPEB liability, net OPEB liability, and certain sensitivity information presented are based on an actuarial valuation performed as of June 30, 2024. The total OPEB liability was rolled forward from the valuation date to the plan year ending June 30, 2025. The component of net OPEB liability as of June 30, 2025, is as follows:

	June 30, 2025
Total OPEB Liability	$ 3,422,409
Plan Fiduciary Net Position	(1,865,732)
Net OPEB Liability	$ 1,556,677
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	54.52%

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

G. Employer Reporting Net OPEB Liability – RHCA

Contributions

As stated earlier in this note, the contribution requirements of RHCA plan members and the State are established in state statute. Statutorily required contributions for the fiscal year ended June 30, 2025, from the State to the RHCA were $33.8 million for governmental activities and $.4 million for business-type activities.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The total RHCA OPEB liability, net OPEB liability, and sensitivity information were based on an annual actuarial valuation performed as of June 30, 2024. Therefore, the employer's portion was established as of the measurement date June 30, 2024. At June 30, 2025, the State reported a liability of $425 million for its proportionate share of the net OPEB liability covering state employees in governmental activities, and $51.2 million for its proportionate share of the net OPEB liability covering state employees business-type activities. At June 30, 2024, the proportion was 23.81% for governmental activities and 2.58% for business-type activities. The State's proportion of the net OPEB liability is based on the employer contributing entity's percentage of total employer contributions for the fiscal year ended June 30, 2024.

For the year ended June 30, 2025, the State recognized a reduction to OPEB expense of $87.6 million in governmental activities and an increase to OPEB expense of $12.2 million in business-type activities.

At June 30, 2025, the State reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (expressed in thousands):

	Governmental		Business-Type	
RHCA	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experiences	$ 4,554	$ (44,380)	$ 54	$ (529)
Changes of Assumptions	79,504	(269,427)	948	(3,213)
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	3,798	-	45	-
Changes in Proportion and Differences Between State Contributions and Proportionate Share of Contributions	9,192	(8,871)	110	(105)
State Contributions Subsequent to Measurement Date	33,768	-	403	-
Total	$ 130,816	$ (322,678)	$ 1,560	$ (3,847)

Contributions made subsequent to the measurement date will reduce the net OPEB liability for the next fiscal year.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

H. Single Employer Plans

1. UNM

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The University's net OPEB liability was measured as of July 1, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of July 1, 2024, but adjusted for a change in the discount rate. The components of the net OPEB liability of the University at June 30, 2025 was as follows (expressed in thousands):

	June 30, 2025
Total OPEB Liability	$ 205,796
Plan Fiduciary Net Position	(87,224)
University's Net OPEB Liability	$ 118,572
Plan Fiduciary Net Pension as a Percentage of the Total OPEB Liability	42.38%

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

H. Single Employer Plans (Continued)

1. UNM (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of January 1, 2023, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary Increases	2.0%
Investment Rate of Return	6.0%, net of OPEB plan investment expense, including inflation
Health Care Cost Trend Rates	Pre-Medicare: 7.8% initially, reduced by decrements to a rate of 4.5% after nine years Post-Medicare: 8.25% initially, reduced by decrements to a rate of 4.5% after nine years Dental: 4.0%

Mortality rates were based on the PUB-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

Discount Rate

The discount rate was determined by blending the University's long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index. GASB 75 requires the use of an interest rate based on the 20-Year Municipal Bond Index for payments expected to be made outside of the VEBA trust assets. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was used for the determination of this rate. The interest rate is the index rate that is reported on the last Friday prior to the measurement date. A blended discount rate was calculated based on separating the projected future payments between those paid from the VEBA Trust and those paid from general assets. The VEBA Trust assets were projected using the expected employer and employee payroll contributions and the expected long-term rate of return. Payments from the VEBA Trust were assumed to begin when the projected asset amount is fully funded, and all future projected benefit payments will be paid from the VEBA Trust. The VEBA Trust is expected to be fully funded in the year 2036. The blended discount rates used for the fiscal year ending June 30, 2025 was 5.78%.

2. NMSU (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

	Total OPEB Liability
Total OPEB Liability - Beginning of Year (July 1, 2023)	$ 139,662
Changes for the Year:	
Service Cost	3,851
Interest Cost	5,527
Differences Between Expected and Actual Experience	-
Changes in Assumptions or Other Inputs	-20070
Benefit Payments	(5,773)
Net Changes	(16,465)
Net OPEB Liability - End of Year (June 30,2024)	$ 123,197

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The Entry Age Normal Actuarial Cost Method was used based on level percentage of projected salary. The OPEB liability is based on an actuarial valuation performed as of June 30, 2025, conducted in accordance with generally accepted actuarial principles.

The actuarial methods and assumptions used to determine the total OPEB liability included in the measurement are as follows:

Valuation Date	June 30, 2024
Measurement Date	June 30, 2025
Discount Rate	5.20% per annum (EOY) Source: Bond Buyer 20-Bond GO Index
Salary Increase Rate	2.5% per annum
Medicare Eligibility	All current and future retirees are assumed to be eligible for Medicare at age 65

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

H. Single Employer Plans (Continued)

2. NMSU (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Actuarial Methods and Assumptions (Continued)

Healthcare Cost Trend Rate	The actuarial valuation assumes an annual health care cost trend on a select and ultimate basis. Medical and prescription benefits on a select basis at 7.75% for retirees 65 years of age and under and 6.75% for retirees over 65 years of age and on an ultimate basis at 4.00%. The select trend rates are reduced 0.30% each year until reaching the ultimate trend.
Per Capita Health Claim Cost	Expected pre-Medicare retiree claim costs were developed by applying age adjustments to the current fully insured premiums. The annual age 60 claim costs retirees and their spouses is $9,456. The age 70 costs for retirees is $3,336.
Mortality Rate	PUB-2010 mortality table with generational scale MP-2021.

Discount Rate

A single discount rate of 5.20% was used to measure the total OPEB liability as of June 30, 2025.

Health Care Trend Sensitivity Analysis

The following schedules measure the Net OPEB Liability if the health care cost trend rate used was 1-percentage-point higher than the assumed health care cost trend rate and 1-percentage-point lower than the assumed health care cost trend rate for June 30, 2025 (expressed in thousands).

	1% Decrease	Current Trend	1% Increase
New Mexico State University's Net OPEB Liability	$ 108,447	$ 123,197	$ 141,383

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

H. Single Employer Plans (Continued)

2. NMSU (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Discount Rate Sensitivity Analysis

The following tables show the sensitivity of the OPEB liability to changes in the discount rate as of fiscal year end 2025. In particular, the table presents the University's OPEB liability under the current single rate assumption, as if it were calculated using a discount rate 1-percentage-point lower, (4.20%) or 1-percentage-point higher, (6.20%) than the single discount rate for June 30, 2025 (expressed in thousands).

	1% Decrease (6.20%)	Current Discount Rate (5.20%)	1% Increase (4.20%)
New Mexico State University's Net OPEB Liability	$ 109,105	$ 123,197	$ 140,394

For the year ended June 30, 2025, the University recognized an OPEB expense of $6.6 million. At June 30, 2025, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (expressed in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	$ -	$ (3,537)
Changes of Assumptions	4,236	(16,673)
Total	$ 4,236	$ (20,210)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

Year Ending June 30,	Amount
2026	$ (8,178)
2027	(5,434)
2028	(2,361)
2029	-
Total	$ (15,971)

3. NMIMT

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Institute's net OPEB liability was measured as of July 1, 2024, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of January 1, 2025.

The components of the Institute's net OPEB liability at June 30 2025, were as follows (expressed in thousands):

	June 30, 2025
Total OPEB Liability	$ 53,712
Plan Fiduciary Net Position	(4,901)
The Institute's Net OPEB Liability	$ 48,811
Plan Fiduciary Net Position as a Percentage of Total OPEB Liability	9%

Actuarial Methods and Assumption

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

The total OPEB liability was determined by an actuarial valuation as of June 30, 2025, using the following actuarial assumptions, applied to all prior periods included in the measurement, unless otherwise specified:

Salary Increases	3.0%
Investment Rate of Return	5.25%
Healthcare Cost Trend Rates	Medical Pre-Medicare: 7.5% initially, reduced by decrements to a rate of 4.5% after 10 years. Medical Post-Medicare: 6.25% initially, reduced by decrements to a rate of 4.5% after 10 years consistent for next seven years. Pharmacy: 12% initially, reduced by decrement to a rate of 4.5% after 10 years Dental and Vision: 3.0%

Mortality rate were based on the PUB-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

NOTE 12 POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS (CONTINUED)

H. Single Employer Plans (Continued)

3. NMIMT (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 3.94%, which is a blended rate of the Institute's long-term rate of return on assets and the interest rate reported under the 20-Year Municipal Bond Index. A blended discount rate was calculated based on separating the projected future payments between those paid from the Trust and those paid from general assets. The Trust assets were projected using the expected long-term rate of return. Payments from the Trust were assumed to begin when the projected assets value is fully funded, and all future projected benefit payments will be paid from the Trust.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Institute's net OPEB liability at June 30, 2025, which was measured using the discount rate of 3.94% percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.94%) or 1-percentage-point higher (4.94%) than the current rate (expressed in thousands):

	1% Decrease (2.94%)	Current Discount Rate (3.94%)	1% Increase (4.94%)
Net OPEB Liability	$ 56,833	$ 48,810	$ 39,336

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the Institute's net OPEB liability at June 30, 2025, which was measured using the current healthcare cost trend rate of (Pre-Medicare: 7.00% decreasing to 4.50%, Post-Medicare: 6.50% decreasing to 4.50%, Pharmacy: 8.50% decreasing to 4.50%, and Dental and Vision: 3%), as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current rate (expressed in thousands):

	1% Decrease	Current Discount	1% Increase
Net OPEB Liability	$ 38,702	$ 48,810	$ 57,898

H. Single Employer Plans (Continued)

3. NMIMT (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

For the year ended June 30, 2025, the Institute recognized OPEB expenses of $3.8 million. At June 30, 2025, the Institute reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (expressed in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Actual and Expected Experience	$ 6,500	$ (6,714)
Net Difference Between Projected and Actual Earnings on OPEB Plan Investment	119	-
Changes of Assumptions	8,268	(12,848)
Institute Contribution Subsequent to the Measurement Date	854	-
Total	$ 15,741	$ (19,562)

The $854 thousand reported as deferred outflows of resources related to OPEB resulting from Institute contributions subsequent to the measurement date of July 1, 2022 will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (expressed in thousands):

Year Ending June 30,	Amounts
2026	$ (447)
2027	(40)
2028	289
2029	34
2030	(1,636)
Thereafter	(2,875)
Total	$ (4,675)

NOTE 13 DEFERRED COMPENSATION PLAN

The State of New Mexico offers state, local government, and school district employees a deferred compensation plan (Deferred Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," in accordance with IRC Section 457. The Deferred Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available until termination, retirement, death, or unforeseeable emergency.

PERA is the trustee of the Deferred Plan; however, the Deferred Plan uses a third-party administrator, acting under contract with PERA. All costs of administration and funding are borne by the Deferred Plan participants. The Administrator has authority to control and manage the operation of the Deferred Plan. The Administrator is delegated any and all powers as may be necessary or advisable to discharge its duties under the Deferred Plan, and has certain discretionary authority to decide all matters under the Deferred Plan. As Deferred Plan trustee, PERA's primary responsibility is to select investment options that are safe and provide a reasonable rate of return and to ensure that all investments, amounts, property, and rights under the executed Deferred Plan-Trust are held for the exclusive benefit of Deferred Plan participants and their beneficiaries, as defined in the Deferred Plan. The assets of the Deferred Plan are not assets of the State, but are held in trust for the exclusive benefit of Deferred Plan participants and their beneficiaries. The State has no liability for losses under the Deferred Plan but does have the duty of due care that would be required of a fiduciary agent.

The Deferred Plan issues a publicly available stand-alone financial report which can be obtained by writing to the Public Employees Retirement Association of New Mexico, 33 Plaza la Prensa, Santa Fe, NM 87507. This report is also available online at: http://www.nmpera.org/deferred-compensation.

NOTE 14 ARBITRAGE ON TAX-EXEMPT BONDS

Arbitrage is the excess interest earned by a state or local government on proceeds from the sale of its bonds over interest paid to bondholders. The Tax Reform Act of 1986 TRA required rebate of such arbitrage to the U.S. Treasury Department on governmental bonds issued after August 31, 1986, and on private activity bonds issued after December 31, 1984, when the proceeds were held for six months or longer. These rebates must be calculated annually and paid at the end of every fifth year until the bonds are retired.

The Revenue Reconciliation Act of 1989 amended the six-month rule. For bonds issued after December 19, 1989, the rebate requirement does not apply if, both, all of the gross proceeds of the issue, other than the reserve fund, are spent within the six-month period following the date of issue, and the rebate requirement is satisfied for the reserve fund after the six-month period. The term gross proceeds for purposes of the rule includes both the sale proceeds received from the bond's purchaser on the issue date and investment earnings on such proceeds during the six-month period. Gross proceeds deposited in a reserve fund or bona fide debt service fund, however, are not subject to the expenditure requirement.

The Office of the State Treasurer compiles this information, and files all required reports in compliance with regulations issued by the IRS.

NOTE 16 STATE GENERAL FUND INVESTMENT POOL

The Financial Control Division (FCD), within the Department of Finance and Administration (DFA), in collaboration with the New Mexico State Treasurer's Office (STO), implemented a comprehensive reconciliation model that compared aggregated agency claims on the State General Fund Investment Pool (SGFIP) to the associated resources held by STO. There have been many reviews of the process, and each review has deemed it to be adequate and in compliance with established procedures. For fiscal year 2025, the following assertions are provided:

1. Resources held in the pool are equivalent to the corresponding business unit claims on those resources.
2. All claims, as recorded in SHARE, shall be honored at face value.

For cash management and investment purposes, funds of various state agencies are deposited in the SGFIP, which is managed by STO. The SGFIP is reported as a fiduciary fund in the financial statements of STO. Claims on the SGFIP are reported as assets by the various agencies investing in the SGFIP. By statute, the DFA is responsible for reconciling the SGFIP balances.

NOTE 17 TAX ABATEMENTS

In fiscal year 2017, the State adopted GASB Statement No. *77 entitled, Tax Abatement Disclosures.* Statement No. 77 requires the governments that enter into tax abatement agreements to disclose the following information about the agreements:

- Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.
- The gross dollar amount of taxes abated during the period.
- Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

Governments should also recognize those disclosures by major tax abatement programs and may disclose information for individual tax abatement agreements within those programs.

Tax abatement agreements of other governments should be organized by the government that entered into the tax abatement agreement and the specific tax being abated. Governments may disclose information for individual tax abatement agreements of other governments within the specific tax being abated. For those tax abatement agreements, a reporting government should disclose:

- The names of the governments that entered into the agreements.
- The specific taxes being abated.
- The gross dollar amount of taxes abated during the period.

NOTE 17 TAX ABATEMENTS (CONTINUED)

The State has provided the following disclosure of tax abatements affecting the State of New Mexico. Tax receipts processed by the Department of Taxation and Revenue are recognized as revenue in various departments of the State. Abatements affecting local governments are disclosed in the financial statements of each local governmental entity, and can be obtained from the accounting department of each local government.

As allowed by state statute, the various local governments in the State participate in various Industrial Revenue Bond Programs/Industrial Development Projects (IRBs/IDPs) which result in reduced revenues for all participating governments. Various local governments have identified the State of New Mexico as a governmental entity which has been impacted by reduced revenues. The specific amount of loss revenues of the State as a result of these various programs has not been determined; however, it is deemed to be insignificant to the State of New Mexico as a whole.

NOTE 18 COMMITMENTS

A. Construction Commitments

The State has active construction projects as of June 30, 2025. The projects include highway construction, university infrastructure, and facilities construction and renovation. At year-end, the State's commitments for construction were $652.5 million for governmental activities and $304.2 million for business-type activities.

B. Loan Commitments

New Mexico Environment Department

The New Mexico Environment Department had loan commitments at June 30, 2025 of the following:

- Wastewater Loan Construction Fund – the agency has executed binding commitments to disburse $55.2 million for future loans.

- Rural Infrastructure Loan Fund – the agency has executed binding commitments to disburse $10.6 million for future loans.

New Mexico Energy, Mineral, and Natural Resources Department

The Department had contractual commitments related to various capital projects on June 30, 2025, related to projects in progress. On June 30, 2025, the Department spent $3,700,086 on these projects and had remaining contractual commitments of $2,119,530. These projects are funded through the Capital Projects GGRT Funds, State Parks Funds, Severance Tax Bond Funds, and General Fund Special Appropriation Funds.

Carlsbad Brine Well construction has been completed, and monitoring of the project will continue through fiscal year 2026.

NOTE 18 COMMITMENTS (CONTINUED)

C. Capital Commitments

State of New Mexico Investment Council

The State of New Mexico Investment Council has commitments for capital contributions to various private equity partnerships and real estate/real asset investments. As of June 30, 2025, unfunded commitments to private equity partnerships were approximately $4.19 billion, unfunded commitments to real estate and real asset investments were approximately $5.65 billion, and unfunded commitment to the Private Debt Pool was $4.09 billion. Due to the nature of these investments, the Office cannot predict when these capital contributions will be called. Subsequent to June 30, 2025, the Office approved an additional $4.62 billion of commitments to private equity, real estate, and real asset partnerships.

NOTE 19 CONTINGENCIES

A. Contingent Liabilities

New Mexico Mortgage Finance Authority

The New Mexico Mortgage Finance Authority (the Authority) entered into a risk-sharing agreement with the U.S. Department of Housing and Urban Development (HUD) under Section 542(c) of the Housing and Community Development Act of 1992, whereby HUD and the Authority provide credit enhancements for third party multifamily housing project loans. HUD has assumed 90% of the risk and the Authority guarantees the remaining 10% risk of loss in the event of a default on specific loans.

As of September 30, 2025 and 2024, the Authority is committed to assume a risk of approximately $3,470,000 and $4,110,000 for the 32 and 34 loans closed, respectively.

These loans are considered in the Authority's assessment for the allowance for mortgage loan losses. As of September 30, 2025, of the 32 loans closed, four of the loans are not included in the Authority's financial statements because they are 100% participation with Fannie Mae. Of the $3,470,000 risk assumed as of September 30, 2025, the Authority's assumed risk approximated $138,000 for these off-balance sheet loans. The end dates for the guarantees range from 2027-2058. In situations where the Authority is called upon to honor its guarantee, the Authority will take possession of and sell the loan collateral. HUD and the Authority will make up any shortfall resulting from the sale of the collateral on a 90%/10% pro rata basis.

NOTE 19 CONTINGENCIES (CONTINUED)

A. Contingent Liabilities (Continued)

New Mexico Mortgage Finance Authority (Continued)

The Authority entered into a risk-sharing agreement with the U.S. Department of Agriculture under Section 538 Rural Rental Housing Guaranteed Loan Program. The Rural Housing Service (RHS), Department of Agriculture (USDA) provides credit enhancements to encourage private and public lenders to make new loans for affordable rental properties that meet program standards. The USDA has assumed 90% of the risk in the one loan closed and funded by the Authority as of September 30, 2024. As of September 30, 2025 and 2024, the Authority is committed to assume a risk of approximately $95,000 and $98,000 for the one loan closed, respectively.

B. Other Matters

Federal Funds

In fiscal year 2025, the State received federal financial assistance for specific purposes. The expenditure of this assistance is subject to audit. Audits may result in expenditures that are disallowed or findings of noncompliance under the terms and conditions of the federal financial assistance. To the extent there are any disallowances or findings of noncompliance relevant to federal financial assistance, the State does not believe such determinations will have a material effect on its financial position.

Additionally, federal executive branch policy changes have the potential to impact federal financial assistance to the State. While the specific impacts of these changes are currently unknown, the State will continue to monitor them and take appropriate steps necessary to address any future financial concerns they may cause.

NOTE 20 SUBSEQUENT EVENTS

A. Bond Issues

81400 – New Mexico Mortgage Finance Authority

On October 31, 2025, a Special Appropriation Grant Agreement was executed between Department of Finance and Administration (DFA) and the Authority for Grant Number 25-ZJ5049. The grant is $2 million for the North Central Economic Development District for housing projects for senior citizens living in manufactured housing.

On November 20, 2025, the Authority issued convertible option bonds in the amount of $192.9 million (2025 Series G). The Single Family Mortgage Program Class I Bonds will be issued under the 2005 General Indenture. Proceeds will preserve tax-exempt bond authority for future new money bond issuances. The bonds have mandatory tender dates by or before December 1, 2026.

38500- New Mexico Finance Authority

On October 15, 2025, New Mexico Finance Authority (NMFA) issues PPRF 2025C bond in the amount of 216.18million.

NOTE 20 SUBSEQUENT EVENTS (CONTINUED)

A. Bond Issues (Continued)

34103 – Board of Finance/Department of Finance and Administration
On December 23, 2025, General Fund liquidity account purchased two notes in the total of 237,842,351, series STB 2025S-C 24,246,585 and series SSTB 2025S-D 213,595,766, respectively.

NMSA 1978 Section 7-27-8 requires that on each December 31 and each June 30 the State Treasurer shall transfer to the Severance Tax Permanent Fund all money in the Severance Tax Bonding Fund except the amount necessary to meet all principal and interest payments on outstanding senior and supplemental severance tax bonds payable from the Severance Tax Bonding Fund on the next two ensuing semiannual payment dates. The amount necessary to meet such principal and interest payments on bonds on January 1, 2026 and July 1, 2026 that should be retained in the Severance Tax Bonding Fund in accordance with NMSA 1978 Section 7-27-8 is $203,910,013.89.

On January 28, 2026, State of New Mexico Capital Projects General Obligation Bonds, series 2026 was issued in the amount of 63,825,000.

B. Other Events

92400 – New Mexico Public Education Department
On August 8, 2025, Mission Achievement and Success Charter School and Mission Achievement and Success Education Foundation, Inc. entered into a lease purchase agreement of $16.2 million. The agreement requires payments of $92 thousand over 30 years and carries an interest rate of 5.5% per annum.

On November 4, 2025, the New Mexico Academy of the Media Arts entered into a 10-year $1.2 million lease purchase agreement with a private party. The agreement required an initial downpayment of $50 thousand and monthly payments between $5,230 - $13,666.

35000 – General Service Department
Effective July 1, 2024, the Group Insurance Premium Stabilization fund (SHARE fund 75200) and Insurance Carrier Fund (SHARE fund 56100) have been administratively reassigned to the New Mexico Health Care Authority (SHARE Business Unit 63000) in accordance with 2024 Senate Bill 14. The Group Insurance Premium Stabilization fund was in a deficit net position at July 1, 2025 and was appropriated amounts to clear the deficit prior to transferring the remaining assets and liabilities to the New Mexico Health Care Authority.

NOTE 20 SUBSEQUENT EVENTS (CONTINUED)

B. Other Events (Continued)

63000 – Health Care Authority

Effective July 1, 2024, the New Mexico Human Services Department will be renamed the New Mexico Health Care Authority, following the integration of several departments from various state agencies. This restructuring is based on legislation passed by the State Legislature in 2023 and 2024 and includes the transfer of the State Employee Benefits team, the Developmental Disabilities Supports Division, the Division of Health Improvement, and the Health Care Affordability Fund. The reorganization aims to enhance the delivery of comprehensive, cost-effective, and accessible health care services while addressing key challenges such as improving health care access in rural areas, strengthening the behavioral health system, and supporting individuals and families facing poverty and food insecurity. By consolidating services under one entity, the agency seeks to streamline operations, optimize health care purchasing, and create a unified approach to health care policy and regulation. The financial impact of these changes will be assessed in the coming fiscal year and reflected in the agency's financial statements as necessary.

68000- Office of Family Representation and Advocacy

The Office of Family Representation and Advocacy (OFRA) was created by the New Mexico Legislature in 2022 under NMSA 1978, §32A-27-1 et seq. It is an Executive Branch agency led by an Executive Director and overseen by a 13-member Commission, which includes youth and parent representatives. The Commission is responsible for appointing the Executive Director, setting policies, and approving the budget. OFRA is funded through state general funds and federal Title IV-E funds, with the ability to accept gifts and grants.

OFRA provides legal representation in cases under the New Mexico Children’s Code, including abuse and neglect, families in need of court-ordered services, and extended foster care. It also offers consultations for parents considering voluntary child placement. OFRA’s practice model emphasizes manageable caseloads, appropriate compensation, and access to interdisciplinary support, improving outcomes such as fewer placement disruptions, quicker permanency, and reduced maltreatment upon reunification.

BUDGET PROCESS

The State Legislature makes annual appropriations, which lapse at fiscal year-end. Legal compliance is monitored through the establishment of a budget (Modified Accrual Budgetary Basis) and a financial control system, which permits a budget to actual expenditures comparison. Expenditures may not legally exceed appropriations for each budget at the program appropriation unit level. Program appropriation unit is identified in the State's accounting records and in the budgetary schedules as P-Codes, such as "P523 Child Support Enforcement." Budgeted program appropriation unit amounts may be amended upon approval from the Budget Division of the State of New Mexico Department of Finance and Administration within the limitations as specified in the General Appropriations Act. The budget amounts shown in the financial statements represent the final authorized amounts. Administrative line-item expenditures (personnel, contractual, and other) may legally exceed amounts budgeted; however, the total budget category expenditures may not legally exceed the approved budget for the program appropriation. Chapter 6-3, NMSA 1978, sets forth the process used to develop the budget for the State of New Mexico. The process is as follows:

1. No later than September 1, the appropriation request is submitted to the Legislative Finance Committee (LFC), and the Budget Division of the Department of Finance and Administration (DFA), for the fiscal year commencing the following July 1. The appropriation request includes proposed expenditures and the means of financing them.

2. Budget hearings are scheduled before the New Mexico House Appropriations and Senate Finance Committees. The final outcomes of those hearings are incorporated in the State's General Appropriations Act (the Act).

3. The Act is signed into law by the Governor of the State of New Mexico within the legally prescribed time limit, at which time the approved budget becomes a legally binding document.

4. Not later than May 1, an annual operating budget is submitted to DFA by appropriation unit and object code based upon the appropriation authorized by the Legislature. DFA reviews and approves the operating budget, which becomes effective on July 1.

5. Formal budgetary integration is employed as a management control device during the fiscal year for the General and Special Revenue Funds.

BUDGETARY BASIS OF ACCOUNTING

The budget is adopted on the modified accrual basis of accounting, per statute; however, accounts payable which are not recorded in a timely manner (before the statutory fiscal year-end deadline) will not be paid from the current year appropriation, and they are thus not recorded as a budgetary expenditure. Instead, they must be paid out of the next year's budget. This budgetary basis is not consistent with generally accepted accounting principles (GAAP). Balances remaining at the end of the fiscal year from appropriations made from the State General Fund shall revert to the appropriate fund, unless otherwise indicated in the appropriations act or otherwise provided by law. Encumbrances do not carry over to the next year for operating budgets.

MULTIPLE YEAR APPROPRIATION – CAPITAL PROJECTS BUDGETS AND SPECIAL APPROPRIATION BUDGETS

Budgets for multiple year monies are not made on an annual basis, but are adopted on a project length basis. Budgets for the Capital Projects Fund may be established for periods from two to five years depending on the nature of the project or appropriation. These nonoperating budgets primarily serve as a management control purpose, and because related appropriations are continuing in nature, no comparison between budgeted and actual amounts for funds budgeted on this basis is provided.

BUDGET TO GAAP RECONCILIATION

The budgetary comparison schedules of the various funds present comparisons of the original estimated budget and legally adopted budget with actual data on a budgetary basis. Both the budget and actual amounts represent single year activity based on the budget reference assigned to the particular transaction. Since accounting principles applied for the purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with GAAP, a budget to GAAP reconciliation is presented following the budgetary comparison schedules.

In the accompanying budgetary schedules, budget and actual expenditures are reported only for appropriated activities for the operating budgets. Expenditures are classified in the financial control system based on whether the appropriation is from the operating or multiple year budgets (special or capital). Expenditures funded by the operating budget appropriations are reported as current expenditures classified by the function of the agency receiving the appropriation.

However, in the governmental operating statements, all governmental funds are included, and expenditures are classified according to what was actually purchased. Capital outlays are fixed asset acquisitions such as land, buildings, and equipment. Debt service expenditures are principal and interest payments. Current expenditures are all other governmental fund expenditures classified based on the function of the agency making the expenditures. Additionally, certain governmental activities are excluded from the budgetary schedules because they are not appropriated.

Because of perspective differences between this budgetary comparison and the general fund statement of revenues, expenditures, and changes in fund balance, this schedule is presented as required supplementary information (RSI.)

The State's component appropriation accounts do not adopt an annual appropriated budget; however, the expenditures of the component appropriations by law must equal the individual amounts appropriated in the various appropriation acts. Other activities designated as nonappropriated (not budgeted) by the Legislature are the Severance Tax Fund, the Land Grant Fund, and the following Enterprise Funds: State Fair Commission, Environment Department, State Infrastructure Bank, and Unemployment Insurance Funds.

EXCESS OF EXPENSES/EXPENDITURES OVER BUDGET

For the fiscal year ended June 30, 2024, there were none of the State agency's P-codes reporting expenses/expenditures exceeding budget authority.

Notes to the Schedule:

Benefit Changes: None

Differences Between Expected and Actual Experience : There is no change in the Total OPEB Liability form June 30, 2021 to June 30, 2022 due to differences in expected and actual experience. The $26,283,900 decrease in liability from June 30, 2022 to June 30, 2023 is due to changes in the census, claims, and premiums experience.

Changes in Assumptions : The $3,057,100 decrease in the liability from June 30, 2021 to June 30, 2022 is due to the increase in the assumed discount rate from 6.80% to 6.90% as of the respective measurement dates. The $36,580,100 increase in the liability from June 30, 2022 to June 30, 2023 is due to the decrease in the assumed discount rate from 6.90% to 5.85% as of the respective measurement dates, as well as updates to the trend and mortality assumptions.

* Note: This schedule is intended to show information for 10 years. Additional years' information will be displayed as it becomes available.

OTHER SUPPLEMENTARY INFORMATION

Debt Service Fund

Debt Service Fund accounts are used to account for the accumulation of resources for and the payment of principal and interest on general long-term obligations and other contractual obligations.

Capital Projects Fund

The Capital Projects Fund accounts for funds appropriated by the State Legislature for capital outlay, including severance tax and general obligation bond proceeds and State General Appropriation capital outlay funds.

Children's Trust Fund

The Children's Trust Fund is a permanent fund used to account for funds received through general fund appropriations and other fees for service. The funds are invested, and the investment proceeds can be utilized by other funds for programs for children as described in the Children's Trust Fund Act, NMSA 1978 chapter 24, article 19.

Enterprise Funds

Enterprise funds report the activities for which fees are charged to external users for goods and services. Enterprise Funds are presented beginning on page 263.

Internal Service Funds

Internal service funds account for goods and services provided primarily to other agencies or funds of the State, rather than to the general public. Internal Service Funds are presented beginning on page 274.

Unemployment Insurance Fund

The Unemployment Insurance Fund accounts for funds used for unemployment compensation. This fund does not account for other than unemployment compensation (i.e., workers' compensation, employment security labor market statistics, administration of the employment compensation program, etc.) Although this fund does not mathematically qualify to be a major fund, the State has chosen to present it as such due to its prior significance.

Industries for the Blind

The New Mexico Commission for the Blind's mission is to encourage and enable the State's blind citizens to achieve vocational, economic, and social equality. This proprietary fund is used to provide career training and other assistance for New Mexico's blind citizens and entails the operations of the Albuquerque Training Center.

Corrections Industries Revolving Fund

This fund is used to account for certain activities of the Corrections Industries Division of the Department of Corrections. These activities include the manufacture of furniture and textiles, production of agricultural crops, and data entry services.

Environment Department

This fund is used to account for revolving loans for wastewater and drinking water facilities.

New Mexico Magazine

New Mexico Magazine is a program of the Department of Tourism. The fund accounts for the publishing and distribution of the monthly New Mexico Magazine.

New Mexico Public Schools Insurance Authority (NMPSIA)

NMPSIA is a self-insurance pool that provides various benefits and risk coverage to participating public schools, school board members, and public school employees, plus retired board members and employees. Coverage provided includes property, casualty, workers' compensation, health, life, and disability.

State Infrastructure Bank

The State Infrastructure Bank is a proprietary fund administered by the Department of Transportation. The fund is used to account for loans made for road projects.

Miners' Colfax Medical Center

Miners' Colfax Medical Center is a State owned medical facility in Raton, New Mexico. The current organization is a result of a merger between the Miners' Hospital and Northern Colfax County Hospital. Miners' Colfax operates a 25-bed acute care hospital; a 37-bed extended care facility, and various outpatient clinics in Raton, New Mexico. Miners' Colfax has programs that serve both miners and nonminers.

State Fair Commission

This fund administers the operations of the annual New Mexico State Fair and the use of the Fairgrounds facilities during the year

Department of Cultural Affairs

This fund administers the enterprise operations of the Department of Cultural Affairs.

Education Trust Board

The Education Trust Board of New Mexico operates as a self-sustaining entity which is administratively connected to the NM Department of Higher Education. This fund administers New Mexico's Section 529 College Savings Plans under rules promulgated by the Board. The financial statements of the two savings plans are presented as a private purpose fiduciary trust fund.

Fleet Operations

This fund accounts for the operations of the Transportation Motor Pool and the State Aircraft Pool, which provide ground and air transportation services to all state agencies on a fee basis.

Risk Management

This fund provides insurance coverage for all state agencies. Areas covered include public liability, workers compensation, group health and life, unemployment compensation, surety bond, and property insurance. Agencies are charged a premium based on several factors, including history and number of employees.

Printing and Records

This fund accounts for the provision of printing services of all kinds to state agencies according to an approved fee schedule. The fund also includes services for the retention and storage of public records for all state agencies, which pay an assessment based on size and usage.

Communications Services

This fund provides voice and data telecommunications services to all state agencies, which are assessed an annual fee based on size and prior usage.

Information Processing

This fund provides automated data processing services for all state agencies, which are assessed an annual fee based on size and prior usage.

Public Employees Retirement Association - (PERA)

PERA is a qualified, defined benefit, government retirement plan established by the State of New Mexico to provide pension benefits for all State, County, and Municipal employees, police, firefighters, judges, magistrates, and legislators. PERA is comprised of four separate systems which offer an array of retirement benefit plans to state, county, and municipal employees, police, firefighters, judges, magistrates, and legislators.

Educational Employees' Retirement System (EERS)

EERS is a qualified, defined benefit, governmental retirement plan established and administered by the State of New Mexico to provide pension benefits for all state certified employees, teachers, and other employees of the State educational institutions, junior colleges, and technical vocational institutes.

New Mexico Retiree Health Care Authority (RHCA)

RHCA is a cost-sharing, multiemployer defined benefit postemployment healthcare plan that provides comprehensive core group health insurance for persons who have retired from public service with entities in the State of New Mexico.

Deferred Compensation Plan (IRC 457)

The State of New Mexico offers its employees a deferred compensation plan (the Plan) under Chapters 10-7A-1 to 10-7A-12, NMSA 1978, the "Deferred Compensation Act," is in accordance with IRC Section 457. The Plan permits employees to defer a portion of their income until future years. Deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The Public Employee's Retiree Association is the trustee of the Plan; however, the Plan is administered by a third-party administrator acting under contract with PERA.

University of New Mexico Retiree Welfare Benefit Trust

The University of New Mexico Retiree Welfare Benefit Trust (VEBA Trust) is a voluntary employees' beneficiary association (VEBA) trust that is tax-exempt under Section 501(c)(9) of the IRC and is presented as a fiduciary fund in the University's financial statements. The VEBA Trust was established to provide a funding vehicle to which participants and the University contribute to prefund, in part, the cost of other postemployment benefits (OPEB) for eligible retirees of the University.

State Investment Council

The State Investment Council (the Council) is responsible for the investment activities of certain State of New Mexico Trust Funds. Pursuant to New Mexico law, the Council created the following investment pools: Large Capitalization Active, Large Capitalization Index, Core Bonds, Structured Credit, Mid\Small Capitalization, Non-U.S. Equity Securities, Non-U.S. Emerging Markets, and Absolute Bonds. The investment pools provide long-term investment opportunities for state agencies and designated institutions that have funds available for a long-term investment program that will extend for more than one year. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by State entities are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

State Treasurer

The Office of the State Treasurer holds and invests monies for other state agencies and local governments through the Local Government Investment Pool. Only the portion of the fund that is not owned by the State is presented as an External Trust Fund. Other portions of the fund that are owned by the State are presented in both the Governmental Funds and Proprietary Funds as assets of those respective entities.

Scholarship Fund

This grouping includes scholarship trust funds administered by the Higher Education Department and the Public Education Department.

Higher Education Savings Fund

The 529 Higher Education Savings Plan is a variable return college savings program that enables individuals to save and invest in order to fund future higher education expenses of a child or beneficiary. The program is designed to be a qualified tuition program under Section 529 of the IRC of 1986, as amended, and is maintained by the Education Trust Board.

Bartlett Trust Fund

The Cultural Affairs Department is the administrator of a trust fund which was privately endowed for the benefit of the Museum of International Folk Art.

Office of Superintendent of Insurance

This fund is comprised of two funds:

a) Patient's Compensation Fund – This is a medical malpractice insurance risk – assuming fund mandated by the Medical Malpractice Act.
b) Trust Fund for Policyholders and Creditors of insurance companies which have entered into receivership.

STATISTICAL SECTION

STATISTICAL SECTION INFORMATION

The Statistical Section provides additional historical context and detail to aid in using the information in the financial statements, notes to the financial statements and required supplementary information for the primary government of the State of New Mexico in understanding and assessing the State's overall financial health.

Financial Trends Information

These schedules present trend information to help the reader understand how the State's financial performance and fiscal health have changed over time.

Schedule A-1	Net Position by Component	299
Schedule A-2	Changes in Net Position	301
Schedule A-3	Fund Balances, Governmental Funds	307
Schedule A-4	Changes in Fund Balances, Governmental Funds	309

Revenue Capacity Information

These schedules contain information to help the reader understand the State's capacity to raise revenues and the sources of those revenues.

Schedule B-1	Schedule of Revenues, State General Fund	311
Schedule B-2	Revenue Base	315
Schedule B-3	Revenue Payers by Industry – Taxable Sales, Services, and Use Tax Purchases	317
Schedule B-4	Revenue Payers – Personal Income Tax	318
Schedule B-5	Personal Income Tax Rates	319

Debt Capacity Information

These schedules present information to help the reader understand and assess the State's levels of outstanding debt and the State's ability to issue additional debt in the future.

Schedule C-1	Ratios of Outstanding Debt by Type	320
Schedule C-2	Long-Term Liabilities	322
Schedule C-3	Legal Debt Margin	324
Schedule C-4	Statutory Debt Limit – Severance Tax Bonds	326
Schedule C-5	Pledged Revenue Bond Coverage	328

Demographics and Economic Information

These schedules contain demographic and economic indicators to help the reader to understand the environment within which the State's financial activities take place.

Schedule D-1	Demographic and Economic Indicators	331
Schedule D-2	Principal Employers	332
Schedule D-3	Composition of Labor Force	333
Schedule D-4	Public Higher Education Enrollment	335

Operating Information

These schedules offer operating data to help the reader understand how the information in the State's financial report relates to the services it provides and the activities it performs.

Schedule E-1	Full-Time Equivalent State Employees by Function	337
Schedule E-2	Operating Indicators by Function	339
Schedule E-3	Capital Assets Statistics by Function	344

STATISTICAL SECTION INFORMATION

Other Information

These graphs and schedules offer a historical view of expenditures in constant dollars.

Schedule F-1	Expenditures – Historical and Constant Dollars	346
Schedule F-2	Per Capita Expenditures – Historical and Constant Dollars	347

Sources: Unless otherwise noted, the information in the following schedules is derived from the State of New Mexico Annual Financial Report.

Note: The statements which comprise the Statistical Section have not been audited.

Legal Debt Margin as a Percentage of the Debt Limit	70.9%	71.4%	38.9%	53.4%	28.1%

Note to Schedule:

The Constitution of the State of New Mexico, Article IX, Section 8, limits the State's outstanding general debt to a maximum of one percent of the net taxable value of all property subject to taxation within the State. The legal debt margin is the remaining borrowing authority available and is calculated by subtracting the bonded debt outstanding from the legal debt limit as calculated per Constitutional requirements.

Source: Note information regarding general bonded debt outstanding can be located within the State of New Mexico's annual financial report per fiscal year. Property value data was provided by the Department of Finance and Administration, Local Government Division, Financial and Property Tax Data by County and Municipality. Per capita information is based upon population data located in the Demographics and Economic Statistics schedule.

2016	2,081,015	80,758,305,000	38,807	37.4	84.2	339,613

Notes to Schedule:

Personal Income, Per capita Personal Income and median Age data are as of 2023 data. 23 population data represents estimates based on the 2023 census. 2017 is Restated

Statistics were revised to indicate the percentage of individuals that have attained educational levels instead of the average educational level as was done in prior years.

* Education level and years of schooling has been replaced with Percent High School Graduate or Higher

Note: The State of New Mexico passed the Accountability in Government Act, NMSA 6-3A, in 1999. Efforts have been made in identifying and determining performance measurements since that time. Agencies began tracking and calculating these performance measurements beginning in fiscal year 2004. These operating indicators will continue to be tracked in the future in order to reach a ten year historical comparison.

N/A [1] Measure deleted in FY09 or a latter Fiscal Year and replaced by different criteria.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Mr. Wayne Propst, Secretary of the New Mexico Department of Finance and Administration,
Mr. Mark Melhoff, Acting State Controller of the New Mexico Department of Finance and Administration, and
Mr. Joseph M. Maestas, PE, CFE New Mexico State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of State of New Mexico, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the State of New Mexico's basic financial statements, and have issued our report thereon dated March 6, 2026. Our report includes a reference to other auditors who audited the financial statements of certain components of the State, as described in our report on State of New Mexico's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered State of New Mexico's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of State of New Mexico's internal control. Accordingly, we do not express an opinion on the effectiveness of State of New Mexico's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

CLA (CliftonLarsonAllen LLP) is an independent network member of CLA Global. See CLAglobal.com/disclaimer.

The Honorable Michelle Lujan-Grisham, Governor of the State of New Mexico
Mr. Wayne Propst, Secretary of the New Mexico Department of Finance and Administration,
Mr. Mark Melhoff, Acting State Controller of the New Mexico Department of Finance and Administration, and
MR. JOSEPH M. MAESTAS, PE, CFE NEW MEXICO STATE AUDITOR

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether State of New Mexico's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and responses as item 2025-001.

State of New Mexico's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the State of New Mexico's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. State of New Mexico's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATE OF NEW MEXICO
SCHEDULE OF FINDINGS AND RESPONSES
YEAR ENDED JUNE 30, 2025

Section I – Summary of Auditors' Results

Financial Statements

1. Type of auditors' report issued: Unmodified

2. Internal control over financial reporting:

   - Material weakness(es) identified? _____ yes ____X____ no

   - Significant deficiency(ies) identified? _____ yes ____X____ none reported

3. Noncompliance material to financial statements noted? _____ yes ____X____ no

Section II – Financial Statement Findings

No such findings noted

Section III – Section 12-6-5 NMSA 1978 findings

2025-001 (2022-002) Financial Close and Reporting (Other Matter)

Condition: The State's controls over the preparation and consolidation of the ACFR are not consistently designed or executed to ensure timely internal review and complete reconciliation between accounting records and financial statement presentation, resulting in isolated instances of unsupported variances, incomplete roll forward reconciliation, and inconsistent classification of activity, which individually are not significant but collectively represent a deficiency in internal control over financial reporting.

Management's Progress for Repeat Finding: Management has continued to strengthen internal controls over financial reporting through increased standardization of reconciliation and review processes, refinement of ACFR preparation timelines, and formal updates to statewide accounting guidance. During the year, the Division enhanced written policies and procedures, including updates to MAPs and related accounting guidance, to promote consistent application of classification, rollforward, and reconciliation requirements across all components.

Additionally, management implemented more structured internal review checkpoints, improved documentation standards, and expanded communication with agencies to reinforce expectations regarding account analysis and financial statement presentation. While these enhancements represent meaningful progress toward improving consistency and precision in the ACFR preparation process, management recognizes that continued embedding and execution of these standardized controls is necessary to fully remediate the repeat finding.

The Division remains committed to further strengthening statewide accounting practices, improving training and oversight, and refining internal controls to ensure timely, accurate, and GAAP-compliant financial reporting in accordance with Sections 6-5-2 and 6-5-2.1 NMSA 1978.

Criteria: Section 6-5-2 NMSA 1978 requires the Division to maintain a centralized system of state accounts and establish accounting standards, policies, and procedures for all state agencies. Section 6-5-2.1 NMSA 1978 further requires the Division to conduct statewide accounting and financial reporting and to prepare the State's Annual Comprehensive Financial Report (ACFR) in accordance with generally accepted accounting principles.
To meet these requirements, internal controls over financial reporting must be designed and operating effectively to ensure that financial information is timely reviewed, fully reconciled, and appropriately classified so that amounts reported in the ACFR are accurate, complete, and properly presented in accordance with GAAP.

Cause: The deficiencies resulted from a combination of evolving ACFR preparation processes, compressed financial reporting timelines, and inconsistent execution of established reconciliation and review procedures across components. While the State has implemented enhanced policies, account structures, and review processes, these controls have not yet been consistently embedded or operating with sufficient precision to ensure complete reconciliation and appropriate financial statement classification prior to ACFR finalization.

Section III – Section 12-6-5 NMSA 1978 findings (Continued)

2025-001 (2022-002) Financial Close and Reporting (Other Matter) (Continued)

Effect: As a result, there is an increased risk that misstatements or misclassifications within the ACFR may not be prevented or timely detected by the State's internal controls over financial reporting, requiring correction during the audit process.

Recommendation: We recommend the State continue to strengthen and formalize internal controls over the preparation and consolidation of the ACFR by ensuring reconciliation, classification, and review procedures are consistently designed, documented, and executed across all components. Management should continue evaluating and refining the ACFR preparation timeline, reconciliation processes, and communication of policies and procedures to promote timely internal review and consistent financial statement presentation.

Views of Responsible Officials and Planned Corrective Action: Responsible officials concur with the finding and acknowledge the need to further strengthen and consistently execute internal controls over the preparation and consolidation of the ACFR. Management recognizes that continued refinement of reconciliation procedures, rollforward processes, and financial statement classification controls is necessary to ensure completeness, accuracy, and GAAP-compliant presentation across all reporting components.

The ACFR Bureau Chief, under the direction of the State Controller, will be responsible for implementation of the corrective actions. Management will further standardize and formalize ACFR preparation procedures through updates to MAPs, expanded written desk procedures, and enhanced documentation requirements for reconciliations and supervisory review sign-offs. Structured milestone deadlines will be embedded within the ACFR timeline to promote earlier internal review, timely issue resolution, and consistent statewide execution.

In addition, the Division will incorporate formalized technical review checkpoints focused on GAAP presentation, classification consistency, and full rollforward reconciliation prior to issuance. Specific emphasis will be placed on proactive implementation and training related to new and upcoming GASB pronouncements to ensure accounting and disclosure requirements are fully understood and consistently applied statewide. Targeted training sessions will be provided to ACFR staff and agency financial personnel, along with updated guidance materials reflecting GASB changes and evolving reporting standards.

Management will also expand ongoing monitoring procedures, including documented quality control reviews and periodic post-close evaluations to identify process improvements. These corrective actions are intended to further embed standardized controls, strengthen statewide financial reporting practices, and enhance precision in the ACFR preparation process.

The Division anticipates full implementation of these corrective actions by June 30, 2026.

Re: State of New Mexico Severance Tax Bonds, Series 2026A in the Aggregate Principal Amount of $357,320,000

Ladies and Gentlemen:

This opinion is being rendered in connection with the issuance and sale by the State of New Mexico (the "State") of its Severance Tax Bonds, Series 2026A, in the aggregate principal amount of $357,320,000 (the "Bonds").

This office has been provided with copies of the resolution of the State Board of Finance (the "Board") adopted on May 19, 2026, amended June 16, 2026 and as supplemented by a Final Terms Certificate approved in accordance with the terms of such resolution (the "Bond Resolution"), relating to the issuance and sale of the Bonds. We have examined the State's Severance Tax Act Chapter 66 of New Mexico Laws of 2024, Chapter 159 of New Mexico Laws of 2025, NMSA 1978, Section 7-27-10.1 (2026), NMSA 1978, Section 7-27-12.5 (2016), and NMSA 1978, Section 7-27-49 (2022) (as amended by Chapter 9 of New Mexico Laws of 2023) (the "Act") and such other laws of the State as we have deemed relevant.

It is our opinion, on the date hereof:

The State is validly organized and existing under the Constitution and laws of the State and has all requisite power and authority to conduct its business as presently conducted, to own its properties, and to execute, deliver and perform its obligations under the Bond, the Act, and the Bond Resolution.

To the best of our knowledge, and except as set forth below, there is no pending or threatened action, suit or proceeding at law or in equity before or by any judicial or administrative agency against or affecting the State wherein an unfavorable decision, ruling, or finding would materially and adversely affect: (i) any officers of the State in their respective capacities as such or the existence, organization or power of the State, insofar as these matters relate to these bonds; (ii) the sale, award, issuance and delivery of these bonds; (iii) the effectiveness of the legislation authorizing the issuance of these bonds; (iv) the transactions authorized by the State Board of Finance in its resolutions of May 19, 2026, (the "Bond Resolution") relating to the sale, award, issuance and delivery of these bonds; or (v) the validity or enforceability of the bonds or the Bond Resolution.

We have reviewed the Decision and Order filed on December 29, 2020, in the Eleventh Judicial District Court (McKinley County) in Cause No. D-1113-CV-9800014, *The Zuni Public School Dist., et al., v. The State of New Mexico, et al.* The December 29, 2020 order is a final, appealable judgment. It provides declaratory relief in the form of a finding that the State's Public School Capital Outlay Act, NMSA 1978, Sections 22-21-1 to -12 (1975, as amended through 2020) and Public School Capital Improvements Act, NMSA 1978, Sections 22-25-1 to -11 (1975, as amended through 2020) are unconstitutional; and enjoins the legislature to create and implement a statutory scheme consistent with Article XII, Section 1 of the New Mexico Constitution. Notably, the decision does not expressly or indirectly reference the State's Severance Tax Bonding Act, NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2020). On January 28, 2021, the State Defendants filed a Motion for Post-Judgment Relief, to Amend and Reconsider Final Judgment, for Clarification of Order, and for Stay. On February 11, 2021, the State Defendants filed an Unopposed Expedited Motion for Limited Stay to be effective until a final order was issued. The motion was granted on February 12, 2021, when the Court issued an order expressly staying the Final Decision and Order for the purpose of permitting bonding activity and the release of proceeds to proceed uninterrupted. On June 18, 2021, the Court issued an Order Denying State Defendant's Post Judgment Motions. Subsequently, on June 25, 2021, the Court issued an Order Amending the Limited Stay of the Judgment and ordered that any appeal taken by the State Defendants would operate as an automatic stay of the Court's December 29, 2020 Final Decision and Order as well as the June 18, 2021 Order Denying the State Defendants' Post-Judgment Motions. The State thereafter filed its notice of appeal with the New Mexico Court of Appeals as Cause No. A-1-CA-39902 on July 19, 2021. Briefing was completed on December 19, 2022. On July 19, 2023, Plaintiff Gallup-McKinnley School District No. 1 submitted an opposed motion to Certify the Appeal to the New Mexico Supreme Court. The State timely filed a response in opposition to the Motion, but the Court of Appeals issued an Order of Certification to the New Mexico Supreme Court on August 7, 2023, pursuant to Rule 12-606 NMRA and NMSA 1978, Section 34-5-14(C). In its order, the Court of Appeals stated that the "issues in the appeal raise significant constitutional questions which are of great public import that should be determined by our Supreme Court." The Supreme Court accepted certification on November 28, 2023, as Cause No. S-1-SC-40050.

On December 2, 2024, the New Mexico Supreme Court ruled that the case was moot because of the Legislature's amendments to the capital outlay scheme that funds public school facilities and remanded the case to District Court for further proceedings, if any. On February 17, 2026, the 11th Judicial District Court dismissed the case for "lack of prosecution." On March 17, 2026, Plaintiffs filed a Motion to Reinstate the Case on grounds the legislative correction was insufficient. On April 1, 2026, the State filed a Response to Plaintiffs' Motion to Reinstate.

In addition, we are aware of a recent matter titled M*ario Atencio, et al. v. State of New Mexico et al.*, D-101-CV-2023-01038, filed in the First Judicial District Court (Santa Fe County) on May 10, 2023. The Complaint is titled as "Complaint to Enforce Constitutional Rights for A Healthful and Beautiful Environment and Protection of Natural Resources from Despoilment Due to Oil and Gas Pollution, and to Enforce the Rights of Frontline Communities, Indigenous Peoples and Youth to Life, Liberty, Property, Safety, Happiness, and Equal Protection in the Face of The State's Permitting of Oil and Gas Production and Pollution and For Declaratory and Injunctive Relief." The Complaint raises several constitutional challenges including alleged violations of Article XX, Section 21 of the New Mexico Constitution as well as the Equal Protection Clause and Due Process Clause of Article II, Sections 4 and 18 of the New Mexico Constitution in connection with the State's regulation and oversight of the oil and gas industry. Plaintiffs also allege violations of the New Mexico Civil Rights Act, NMSA 1978, Sections 41-4A-1 to -13 (2021). Notably, however, the Complaint does not raise a challenge to the State's Severance Tax Bonding Act. A motion by the State was partially granted and partially dismissed on June 10, 2024. On June 25, 2024, Defendants filed an Application for Interlocutory Appeal. On August 16, 2024, the New Mexico Court of Appeals granted the interlocutory appeal as Cause A-1-CA-42006 (consolidated with A-1-CA-42003, A-1-CA-42006). On June 3, 2025, the Court of Appeals issued a decision siding with the Defendants. The

Court of Appeals has remanded the case with instructions that the district court is to dismiss Plaintiffs' complaint. The Plaintiffs, however, filed a writ of certiorari to the New Mexico Supreme Court and the Court granted it on November 12, 2025 (Cause S-1-SC-40980) and ordered the parties to submit briefs in this matter. On January 23, 2026, Plaintiffs filed its brief in chief. The Motion to Reinstate has been set for hearing on June 29, 2026.

The Bond Resolution has been duly adopted by the Board in accordance with all applicable laws and has not been repealed or rescinded. The foregoing opinions are limited to matters involving the current federal laws of the United States and the current laws of the State, and we do not express any opinion as to the laws of any other jurisdiction.

This opinion has been furnished to you pursuant to your request and has been rendered to you on the condition that the opinions expressed herein may not be published or otherwise communicated by you to any party without our specific prior written approval in each instance

Sincerely,

Zachary Shandler
Assistant Attorney General

APPENDIX D

FORM OF OPINION OF BOND COUNSEL

State Board of Finance
State of New Mexico

$357,320,000
State of New Mexico
Severance Tax Bonds
Series 2026A

Ladies and Gentlemen:

We have acted as co-bond counsel to the New Mexico State Board of Finance (the "Board") in connection with the issuance and sale of the State of New Mexico Severance Tax Bonds, Series 2026A, in the aggregate principal amount of $357,320,000 (the "Bonds") on May 19, 2026, being a series of bonds in registered form maturing on July 1, 2027 and serially thereafter on July 1 of each year through 2036.

In such capacity, we have examined the transcript of proceedings (the "Transcript") relating to the Bonds and have also examined the provisions of the Constitution and laws of the State of New Mexico (the "State") including the Severance Tax Bonding Act, NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2026), pursuant to which the Bonds are issued, the resolutions authorizing the issuance and sale of the Bonds adopted on May 19, 2026, amended June 16, 2026 and as supplemented by a Final Terms Certificate approved in accordance with the terms of such resolution (collectively, the "Bond Legislation"), and an executed Bond of the first maturity. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them by the Bond Legislation. We have also made such further inquiries and investigations and have examined such law of the United States of America and such further documents and matters as we have considered necessary in rendering this opinion.

Regarding questions of fact material to our opinions, we have relied upon the Board's certified proceedings relating to the Bonds and upon other representations and certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Certain agreements, requirements and procedures contained or referred to in the Bond Legislation and other relevant documents may be changed and certain actions (including, without limitation, the defeasance of Bonds) may be taken or omitted under the circumstances and subject to the terms and conditions set forth in such documents. No opinion is expressed herein as to any Bond or the interest thereon with respect to any such change or action taken or omitted upon the advice or approval of counsel other than ourselves.

The opinions expressed herein are based on an analysis of existing laws, regulations, rulings and court decisions and cover certain matters not directly addressed by such authorities. Such opinions may be affected by actions taken or omitted or events occurring after the date hereof. We have not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur or any other matters come to our attention after the date hereof. This opinion letter is issued as of the date hereof and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur. Our

engagement with respect to the Bonds has concluded with their issuance, and we disclaim any obligation to update this letter.

Furthermore, we have assumed the continued accuracy of the representations and the continuing compliance with the covenants and agreements contained in the Bond Legislation. We call attention to the fact that the rights and obligations of the State and the Board pursuant to the Bonds and the Bond Legislation and their enforceability may be limited by applicable bankruptcy, insolvency, reorganization, arrangement, receivership, fraudulent conveyance, moratorium and other laws relating to or affecting creditors' rights generally, by the application of equitable principles, whether considered at law or in equity, by the exercise of judicial discretion in appropriate cases and by the limitations on legal remedies against the State and the Board. We express no opinion with respect to any indemnification, contribution, penalty, choice of law, choice of forum or waiver provisions contained in the documents described herein. Finally, we undertake no responsibility for the accuracy, adequacy, completeness or fairness of the Official Statement or any other statements made in connection with any offer or sale of the Bonds and express herein no opinion relating thereto. We express no opinion upon any State or federal tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Bonds.

Based on our examination, we are of the opinion that, under the law existing on the date hereof:

1. The Bonds constitute valid and binding special limited obligations of the State in accordance with the terms and provisions thereof.

2. The Bonds are payable solely from, and such payment is secured by a pledge (but not an exclusive pledge) of, the money on deposit in the Severance Tax Bonding Fund, consisting of the net receipts from taxes levied upon certain natural resource products severed and saved from the soil of the State and such other moneys as the State Legislature may, in its sole discretion, from time to time determine to deposit in the Severance Tax Bonding Fund, certain interest earnings on moneys on deposit in the bond accounts and such proceeds of the Bonds as may from time to time be deposited in the Severance Tax Bonding Fund as a result of statutorily required reversions or otherwise, all in accordance with the Act, on a parity with any Senior Obligations outstanding or hereafter issued and superior to any Supplemental Obligations outstanding or hereafter issued. Except as described in this paragraph, we express no opinion regarding the priority of the pledge or lien of the Bonds on the moneys on deposit in the Severance Tax Bonding Fund. The owners of the Bonds have no right to have ad valorem taxes levied by the State for the payment of principal of or interest on the Bonds and the Bonds do not represent or constitute a debt or pledge of, or a charge against, the general credit of the State.

3. The Bond Legislation constitutes a valid and binding obligation of the Board and is enforceable in accordance with its terms.

We are opining only upon those matters set forth herein. This opinion letter is issued as of the date hereof and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur. No attorney-client relationship has existed or exists between us and anyone other than the Board in connection with the issuance of the Bonds by virtue of this opinion letter. This opinion letter is delivered to you solely for your information and benefit in connection with the initial offering and public sale of the Bonds and may not be relied upon by you for any other purpose or relied upon by any other party without the prior written consent of this firm.

Very truly yours,

APPENDIX E

FORM OF OPINION OF TAX COUNSEL

State of New Mexico State Board of Finance
Sante Fe, New Mexico

$357,320,000
STATE OF NEW MEXICO
SEVERANCE TAX BONDS
SERIES 2026A

Ladies and Gentlemen:

We have acted as Special Tax Counsel to the State of New Mexico (the "State") in connection with its issuance of its Severance Tax Bonds, Series 2026A (the "Bonds") under authority of the of NMSA 1978, Sections 7-27-1 to -27 (1961, as amended through 2026) (the "Severance Tax Bonding Act"), the Supplemental Public Securities Act, NMSA 1978, Sections 6-14-8 to -11 (1983, as amended through 2017) (the "Supplemental Act") and pursuant to a resolution of the Board adopted on May 19, 2026, amended June 16, 2026 and as supplemented by a Final Terms Certificate approved in accordance with the terms of such resolution (collectively, the "Bond Resolution").

In such capacity, we have examined the State's certified proceedings, the Federal Tax Certificate of the State, the Agency Tax Certificates, between the State and the boards, commissions, departments, agencies, political subdivisions and other entities of the State being granted a portion of the proceeds of the Bonds (collectively, the "Agencies"), and such other documents and such law of the State of New Mexico and of the United States of America as we have deemed necessary to render this opinion letter. Capitalized terms not otherwise defined herein shall have the same meanings ascribed to such terms in the Bond Resolution.

Regarding questions of fact material to our opinions, we have relied upon the State's certified proceedings, representations of the Agencies and other representations and certifications of public officials and others furnished to us without undertaking to verify the same by independent investigation.

Based upon such examination, it is our opinion as Special Tax Counsel that:

1. Interest on the Bonds is excluded from gross income under federal income tax laws pursuant to Section 103 of the Internal Revenue Code of 1986, as amended to the date hereof (the "Tax Code"), interest on the Bonds is excluded from alternative minimum taxable income as defined in Section 55(b) of the Tax Code; however, to the extent such interest is included in calculating the "adjusted financial statement income" of "applicable corporations" (as defined in Sections 56A and 59(k), respectively, of the Tax Code), such interest is subject to the alternative minimum tax applicable to those corporations under Section 55(b) of the Tax Code. The opinions expressed in this paragraph assume continuous compliance with the covenants and continued accuracy of the representations contained in the State's certified proceedings, the Agencies' certified proceedings and in certain other documents and certain other certifications furnished to us. The State and the Agencies have covenanted to comply with all of these requirements. Failure to comply with certain of these requirements may cause the interest on the Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Bonds.

2. Under laws of the State in effect as of the date hereof, the Bonds and the income from the Bonds are exempt from all taxation by the State or any political subdivision of the State.

The opinions expressed in this opinion letter are subject to the following:

The obligations of the State pursuant to the Bonds, the Severance Tax Bonding Act and the Bond Resolution are subject to the application of equitable principles, to the reasonable exercise in the future by the State and its governmental bodies of the police power inherent in the sovereignty of the State and to the exercise by the United States of America of the powers delegated to it by the Federal Constitution, including without limitation, bankruptcy powers.

In rendering the opinions set forth above, we are relying on the approving opinion of Rodey, Dickason, Sloan, Akin & Robb, P.A. as to the validity and enforceability of the Bonds.

In this opinion letter issued in our capacity as Special Tax Counsel, we are opining only upon those matters set forth herein, and we are not opining upon the adequacy, accuracy or completeness of the Official Statement dated June 11, 2026, relating to the Bonds or any other statements made in connection with any offer or sale of the Bonds or upon any federal or State tax consequences arising from the receipt or accrual of interest on or the ownership or disposition of the Bonds, except those specifically addressed herein.

This opinion letter is issued as of the date hereof and we assume no obligation to revise or supplement this opinion letter to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

Respectfully submitted,

APPENDIX F

FORM OF CONTINUING DISCLOSURE UNDERTAKING

This Continuing Disclosure Undertaking (the "Disclosure Undertaking") is executed and delivered by the State Board of Finance (the "Board") of the State of New Mexico (the "State") on behalf of the State in connection with the issuance by the State of its $357,320,000 State of New Mexico Severance Tax Bonds, Series 2026A (the "Bonds"). The Bonds are being issued pursuant to an Authorizing and Delegating Resolution adopted by the Board on May 19, 2026 and as supplemented by a Final Terms Certificate approved in accordance with the terms of such resolution (collectively, the "Resolution").

BACKGROUND

The Bonds are being issued to finance capital projects approved by the State Legislature and certified by State agencies.

In order to allow the underwriter of the Bonds to comply with Rule 15c2-12 promulgated by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as amended (17 CFR Part 240, § 240.15c2-12, as amended), to the date hereof, the State is required to make certain continuing disclosure undertakings for the benefit of owners (including beneficial owners) of the Bonds.

This Disclosure Undertaking is intended to satisfy the requirements of said Rule 15c2-12, as in effect on the date hereof.

STATE COVENANTS AND AGREEMENTS

Section 1. Definitions.

(a) "Annual Financial Information" means the financial information or operating data with respect to the State, delivered at least annually pursuant to Section 2(a) and 2(b) hereof, of the type set forth in the sections of the final Official Statement identified on Exhibit A hereto. Annual Financial Information includes Audited Financial Statements.

(b) "Audited Financial Statements" means the annual financial statements for the State, prepared in accordance with generally accepted accounting principles, as in effect from time to time, audited by a firm of certified public accountants.

(c) "Event Information" means the information delivered pursuant to Section 2(d) hereof.

(d) "MSRB" means the Municipal Securities Rulemaking Board. The current address of the MSRB is 1300 I Street NW, Suite 1000, Washington, DC, 20005, phone (202) 838-1500, fax (202) 898-1500.

(e) "National Repository" shall mean any Nationally Recognized Municipal Securities Information Repository for purposes of the Rule. Currently, the following is the only National Repository:

Electronic Municipal Market Access ("EMMA")
c/o Municipal Securities Rulemaking Board
1300 I Street NW, Suite 1000
Washington, DC 20005
www.emma.msrb.org
Phone: (202) 838-1500

(f) "Official Statement" means the Official Statement dated June 11, 2026 delivered in connection with the original issue and sale of the Bonds.

(g) "Repository" means (i) EMMA and (ii) any SID.

(h) "Rule" means Rule 15c2-12 promulgated by the SEC under the Securities Exchange Act of 1934, as amended (17 CFR Part 240, § 240.15c2-12), as the same may be amended.

(i) "SEC" means the Securities and Exchange Commission.

(j) "SID" means any State Information Depository operated or designated by the State that receives information from all issuers within the State. As of the date of this Disclosure Undertaking, no SID exists for the State.

Section 2. Provision of Annual Information and Reporting of Event Information.

(a) Commencing with the Fiscal Year ending June 30, 2026 and annually while the Bonds remain outstanding, the State agrees to provide or cause to be provided the Annual Financial Information to each Repository annually.

(b) Such Annual Financial Information shall be provided not later than 210 days after the end of each fiscal year for the State (i.e., each June 30). If the Audited Financial Statements are not available by the time the other Annual Financial Information must be provided, unaudited financial statements shall be provided as part of the Annual Financial Information. If not provided as a part of the Annual Financial Information, the Audited Financial Statements will be provided when available.

(c) The State may provide Annual Financial Information by specific reference to other documents, including information reports and official statements relating to other debt issues of the State, which have been submitted to each Repository; provided, however, that if the document so referenced is a final official statement within the meaning of the Rule, such final official statement must also be available from the MSRB.

(d) At any time the Bonds are outstanding, the State shall provide, in a timely manner, not in excess of ten business days, to the MSRB and any SID notice of any of the following events with respect to the Bonds (provided that any event under clauses (ii), (vii), (viii), (x), (xiv) and (xv) will be provided only if material):

i. Principal and interest payment delinquencies;

ii. Non-payment related defaults;

iii. Unscheduled draws on debt service reserves reflecting financial difficulties;

iv. Unscheduled draws on credit enhancements reflecting financial difficulties;

v. Substitution of credit or liquidity providers, or their failure to perform;

vi. Adverse tax opinions or the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds;

vii. Modifications to rights of Bondholders;

viii. Bond calls, other than mandatory sinking fund redemption;

ix. Defeasances;

x. Release, substitution or sale of any property securing repayment of the securities;

xi. Rating changes;

xii. Bankruptcy, insolvency, receivership or similar event of the State;[*]

xiii. The consummation of a merger, consolidation or acquisition involving the State or the sale of all or substantially all of the assets of the State, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material;

xiv. Appointment of a successor or additional trustee or the change of name of a trustee if material; and

xv. Incurrence of a Financial Obligation (as defined in Footnote 1 below) of the State, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a Financial Obligation of the State, any of which affect security holders, if material

xvi. Default, event of acceleration, termination event, modification of terms, or other similar events under the terms of the financial obligation of the State, any of which reflect financial difficulties.

---

[*] This event is considered to occur when any of the following occur: the appointment of a receiver, fiscal agent or similar officer for the State in a proceeding under the U.S. Bankruptcy Code or in any other proceeding under state or federal law in which a court or governmental authority has assumed jurisdiction over substantially all of the assets or business of the State, or if such jurisdiction has been assumed by leaving the existing governing body and officials or officers in possession but subject to the supervision and orders of a court or governmental authority, or the entry of an order confirming a plan of reorganization, arrangement or liquidation by a court or governmental authority having supervision or jurisdiction over substantially all of the assets or business of the State.

[1] "Financial Obligation" shall mean a (i) debt obligation; (ii) derivative instrument entered into, in connection with, or pledged as security or a source of payment for, an existing or planned debt obligation; or (iii) guarantee of (i) or (ii). The term "Financial Obligation" shall not include municipal securities (as defined in the Securities Exchange Act of 1934) as to which a final official statement (as defined in the Rule) has been provided to the MSRB consistent with the Rule.

(e) At any time the Bonds are outstanding, the State shall provide, in a timely manner, to the MSRB and any SID notice of any failure of the State to timely provide the Annual Financial Information as specified in Sections 2(a) and 2(b) hereof.

Section 3. **Method of Transmission**. Subject to technical and economic feasibility, the State shall employ such methods of electronic or physical information transmission as is requested or recommended by the Repositories or the MSRB unless otherwise required by law.

Section 4. **Enforcement**. The obligations of the State hereunder shall be for the benefit of the owners (including the beneficial owners) of the Bonds. The owner or beneficial owner of any Bonds is authorized to take action to seek specific performance by court order to compel the State to comply with its obligations under this Disclosure Undertaking, which action shall be the exclusive remedy available to it or any other owners or beneficial owners of the Bonds. Any such action shall be brought only in a State court of competent jurisdiction in Santa Fe County, New Mexico. Breach of the obligations of the State hereunder shall not constitute an event of default under the Resolution and none of the rights and remedies provided by the Resolution shall be available to the owners (including the beneficial owners) of the Bonds.

Section 5. **Additional Information**. Nothing in this Disclosure Undertaking shall be deemed to prevent the State from disseminating any other information, using the means of dissemination set forth in this Disclosure Undertaking or any other means of communication, or including any other annual information or notice of occurrence of an event which is not Event Information, in addition to that which is required by this Disclosure Undertaking; provided that the State shall not be required to do so. If the State chooses to include any annual information or notice of occurrence of an event in addition to that which is specifically required by this Disclosure Undertaking, the State shall have no obligation under this Disclosure Undertaking to update such information or include it in any future annual filing or Event Information filing.

Section 6. **Term**. This Disclosure Undertaking shall be in effect from and after the issuance and delivery of the Bonds and shall extend to the earliest of (i) the date all principal and interest on the Bonds shall have been paid or legally defeased pursuant to the terms of the Resolution; (ii) the date that the State shall no longer constitute an "obligated person" with respect to the Bonds within the meaning of the Rule; or (iii) the date on which those portions of the Rule which require this Disclosure Undertaking are determined to be invalid by a court of competent jurisdiction in a non-appealable action, have been repealed retroactively or otherwise do not apply to the Bonds.

Section 7. **Amendments and Waivers**. Notwithstanding any other provision of this Disclosure Undertaking, the State may amend this Disclosure Undertaking from time to time, and any provision of this Disclosure Undertaking may be waived, without the consent of the owners or beneficial owners of the Bonds upon the State's receipt of an opinion of counsel experienced in federal securities laws to the effect that such amendment or waiver will not adversely affect compliance with the Rule. Any Annual Financial Information containing amended operating data or financial information will explain, in narrative form, the reasons for the amendment and the impact of the change in the type of operating data or financial information being provided. If an amendment changes the accounting principles to be followed in preparing financial statements, the Annual Financial Information and Audited Financial Statements for the year in which the change is made will present a comparison between the financial statements or information prepared on the basis of the new accounting principles and those prepared on the basis of the former accounting principles. The State shall provide notice of any such amendment or waiver to each Repository.

Section 8. **Beneficiaries**. This Disclosure Undertaking shall inure solely to the benefit of the State and the owners (including beneficial owners) from time to time of the Bonds, and shall create no rights in any other person or entity.

Section 9. **Governing Law**. This Disclosure Undertaking shall be governed by the laws of the State and applicable federal law, including the Rule.

IN WITNESS WHEREOF, the undersigned has executed this Disclosure Undertaking as of June 25, 2026.
