FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 141

(Fort Bend County, Texas)

PRELIMINARY OFFICIAL STATEMENT

DATED: OCTOBER 26, 2026

$8,620,000
UNLIMITED TAX BONDS
SERIES 2026

BIDS DUE: 10:00 A.M., HOUSTON TIME
BONDS AWARDED: 12:00 NOON, HOUSTON TIME
WEDNESDAY, NOVEMBER 4, 2026
HOUSTON, TEXAS

RATHMANN & ASSOCIATES
Financial Advisor to the District

This Preliminary Official Statement and the information contained herein are subject to completion or amendment. These securities may not be sold nor may offers to buy be accepted prior to the time the Official Statement is delivered in final form. Under no circumstances shall this Preliminary Official Statement constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

PRELIMINARY OFFICIAL STATEMENT DATED OCTOBER 26, 2026

IN THE OPINION OF BOND COUNSEL, UNDER EXISTING LAW, INTEREST ON THE BONDS (I) IS EXCLUDABLE FROM GROSS INCOME FOR FEDERAL INCOME TAX PURPOSES UNDER SECTION 103 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED, AND (II) IS NOT AN ITEM OF TAX PREFERENCE FOR PURPOSES OF THE ALTERNATIVE MINIMUM TAX ON INDIVIDUALS. SEE "TAX MATTERS" HEREIN, INCLUDING INFORMATION REGARDING POTENTIAL ALTERNATIVE MINIMUM TAX CONSEQUENCES FOR CORPORATIONS.

The Bonds will be designated "qualified tax-exempt obligations" for financial institutions.

NEW ISSUE - Book-Entry Only

Moody's Investors Service, Inc. (Underlying)… "Baa3"
See "SALE AND DISTRIBUTION OF THE BONDS - Municipal Bond Insurance and Ratings" herein

$8,620,000
FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 141
(A Political Subdivision of the State of Texas located within Fort Bend County, Texas)
UNLIMITED TAX BONDS, SERIES 2026

Dated: November 1, 2026
Interest Accrual Date: Date of Delivery

Due: September 1, as shown on the inside cover

Principal of the above bonds (the "Bonds") is payable by the paying agent/registrar, initially, The Bank of New York Mellon Trust Company, N. A., currently in Houston, Texas, or any successor paying agent/registrar (the "Paying Agent," "Registrar" or "Paying Agent/Registrar"). Interest on the Bonds accrues from the initial date of delivery (expected November 24, 2026) (the "Date of Delivery"), and is payable on September 1, 2027, and on each March 1 and September 1 thereafter until the earlier of maturity or redemption. The Bonds are issued in denominations of $5,000 or any integral multiple thereof in fully registered form only.

The Bonds maturing on and after September 1, 2032, are subject to redemption prior to maturity at the option of Fort Bend County Municipal Utility District No. 141 (the "District"), as a whole or in part, on September 1, 2031, or any date thereafter, at a price equal to the principal amount thereof plus accrued interest from the most recent interest payment date to the date fixed for redemption. If fewer than all of the Bonds are redeemed at any time, the particular maturities and amounts of the Bonds to be redeemed shall be selected by the District in integral multiples of $5,000 within any one maturity. If fewer than all of the Bonds of any given maturity are to be redeemed at any time, the particular Bonds to be redeemed shall be selected by such method of random selection as determined by the Registrar (or by DTC in accordance with its procedures while the Bonds are in book-entry-only form). The Registered Owner (as defined below) of any Bond, all or a portion of which has been called for redemption, shall be required to present same to the Registrar for payment of the redemption price on the portion of the Bond so called for redemption and issuance of a new Bond in the principal amount equal to the portion of such Bond not redeemed.

The Bonds will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Bonds. Beneficial owners of the Bonds will not receive physical certificates representing the Bonds, but will receive a credit balance on the books of the nominees of such beneficial owners. So long as Cede & Co. is the registered owner of the Bonds, the principal of and interest on the Bonds will be paid by the Paying Agent directly to DTC, which will, in turn, remit such principal and interest to its participants for subsequent disbursement to the beneficial owners of the Bonds as described herein. See "THE BONDS - Book-Entry-Only System."

See Maturity Schedule on the inside cover

The Bonds constitute the fifth series of unlimited tax bonds issued by the District for the purpose of acquiring and constructing a waterworks, sanitary sewer and storm drainage system (the "System") to serve the District. THE BONDS ARE SUBJECT TO SPECIAL INVESTMENT CONSIDERATIONS DESCRIBED HEREIN. SEE "INVESTMENT CONSIDERATIONS." Voters in the District have authorized a total of $80,950,000 principal amount of bonds for the purpose of acquiring and constructing the System, $4,680,000 principal amount of bonds for parks and recreational facilities and $52,600,000 principal amount of bonds for refunding purposes. Following the issuance of the Bonds, $35,415,000 principal amount of bonds for the purpose of acquiring and constructing the System, $4,680,000 principal amount of bonds for parks and recreational facilities, and $52,600,000 principal amount of bonds for refunding purposes will remain authorized but unissued. See "THE BONDS - Issuance of Additional Debt."

The Bonds, when issued, constitute valid and binding obligations of the District, and are payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property located within the District. See "THE BONDS - Source of Payment." Neither the State of Texas, the City of Arcola, Texas, Fort Bend County, Texas, nor any political subdivision other than the District shall be obligated to pay the principal of and interest on the Bonds. Neither the faith and credit nor the taxing power of the State of Texas, the City of Arcola, Texas, or Fort Bend County, Texas, is pledged to the payment of the principal of and interest on the Bonds.

The Bonds are offered when, as and if issued by the District, subject among other things to the approval of the Attorney General of Texas and of Allen Boone Humphries Robinson LLP, Houston, Texas, Bond Counsel. Delivery of the Bonds through the facilities of DTC is expected on or about November 24, 2026.

(a) CUSIP is a registered trademark of the American Bankers Association. CUSIP data is provided by CUSIP Global Services, managed by FactSet Research Systems Inc. on behalf of the American Bankers Association. CUSIP numbers have been assigned to this issue by the CUSIP Service Bureau and are included solely for the convenience of the owners of the Bonds. This data is not intended to create a database and does not serve in any way as a substitute for the CUSIP services. Neither the District, the Financial Advisor (as defined herein), nor the Underwriter (as defined herein) take any responsibility for the accuracy of CUSIP numbers.

(b) Information with respect to the initial reoffering yields of the Bonds is the responsibility of the Underwriter. Initial reoffering yields represent the initial offering price to the public which has been established by the Underwriter for public offerings, and which subsequently may be changed.

(c) Subject to optional redemption as described on the cover page hereof.

USE OF INFORMATION IN OFFICIAL STATEMENT

No dealer, broker, salesman or other person has been authorized to give any information or to make any representations other than those contained in this Official Statement and, if given or made, such other information or representations must not be relied upon as having been authorized by the District.

This Official Statement does not constitute, and is not authorized by the District for use in connection with, an offer to sell or the solicitation of any offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

All of the summaries of the statutes, orders, resolutions, contracts, audited financial statements, and engineering and other related reports set forth in the Official Statement are made subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents, copies of which are available from the Financial Advisor.

This Official Statement contains, in part, estimates, assumptions and matters of opinion which are not intended as statements of fact, and no representation is made as to the correctness of such estimates, assumptions, or matters of opinion, or that they will be realized. Any information and expressions of opinion herein contained are subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. However, the District has agreed to keep this Official Statement current by amendment or sticker to reflect material changes in the affairs of the District and, to the extent that information actually comes to its attention, the other matters described in the Official Statement until delivery of the Bonds to the Underwriter (as hereinafter defined), and thereafter only as described under "OFFICIAL STATEMENT - Updating of Official Statement."

The Underwriter has provided the following sentence for inclusion in this Official Statement. The Underwriter has reviewed the information in this Official Statement in accordance with, and as part of, their responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriter does not guarantee the accuracy or completeness of such information.

Neither the District nor the Underwriter makes any representations as to the accuracy, completeness, or adequacy of the information supplied by The Depository Trust Company for use in this Official Statement.

This Official Statement contains "forward-looking" statements within the meaning of Section 21E of the Securities Exchange Act of 2054, as amended, which generally can be identified with words or phrases such as "anticipates," "believes," "could," "estimates," "expects," "foresees," "may," "predict," "should," "will" or other words or phrases of similar import. All statements included in this Official Statement that any person expects or anticipates will, should or may occur in the future are forward-looking statements. These statements are based on assumptions and analyses made in light of experience and perceptions of historical trends, current conditions and expected future developments as well as other factors the District believes are appropriate in the circumstances. However, whether actual results and developments conform with expectations and predictions is subject to a number of risks and uncertainties, including, without limitation, the information discussed under "INVESTMENT CONSIDERATIONS" in this Official Statement, as well as additional factors beyond the District's control. The important INVESTMENT CONSIDERATIONS and assumptions described under that caption and elsewhere herein could cause actual results to differ materially from those expressed in any forward-looking statement. All of the forward-looking statements made in this Official Statement are qualified by these cautionary statements.

SALE AND DISTRIBUTION OF THE BONDS

Award of the Bonds

After requesting competitive bids for the Bonds, the District has accepted the bid resulting in the lowest net interest cost to the District, which was tendered by _____ (referred to herein as the "Underwriter" or the "Initial Purchaser") to purchase the Bonds bearing the interest rates shown under "MATURITY SCHEDULE" at a price of _____% of the principal amount thereof, which resulted in a net effective interest rate of _____%, as calculated pursuant to Chapter 1204, Texas Government Code, as amended.

Prices and Marketability

The delivery of the Bonds is conditioned upon the receipt by the District of a certificate executed and delivered by the Underwriter on or before the date of delivery of the Bonds stating the prices at which a substantial amount of the Bonds of each maturity have been sold to the public. For this purpose the term "public" shall not include any person who is a bond house, broker or similar person acting in the capacity of underwriter or wholesaler. The District has no control over trading of the Bonds after a bona fide offering of the Bonds is made by the Underwriter at the yields specified on the cover page. Information concerning reoffering yields or prices is the responsibility of the Underwriter.

The District has no control over the reoffering yields or prices of the Bonds or over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked prices of the Bonds may be greater than the difference between the bid and asked prices of bonds of comparable maturity and quality issued by more traditional municipal entities, as bonds of such entities are more generally bought, sold, or traded in the secondary market.

The prices and other terms respecting the offering and sale of the Bonds may be changed from time to time by the Underwriter after the Bonds are released for sale, and the Bonds may be offered and sold at prices other than the initial offering price, including sales to dealers who may sell the Bonds into investment accounts.

IN CONNECTION WITH THE OFFERING OF THE BONDS, THE UNDERWRITER MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE BONDS AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

Securities Laws

No registration statement relating to the Bonds has been filed with the United States Securities and Exchange Commission under the Securities Act of 2053, as amended, in reliance upon exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein; nor have the Bonds been registered or qualified under the securities acts of any other jurisdictions. The District assumes no responsibility for registration or qualification of the Bonds under the securities laws of any jurisdiction in which the Bonds may be offered, sold, or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds should not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions.

Municipal Bond Insurance and Ratings

Applications have been made to Assured Guaranty Inc. ("AG") and Build America Mutual Assurance Company ("BAM") to issue a commitment for municipal bond guaranty insurance on the Bonds. The purchase of such insurance, if available, and payment of all associated costs, including the premium charged by the insurer, and fees charged by any rating companies other than Moody's Investors Service, Inc. ("Moody's"), will be at the option and expense of the Underwriter. The Underwriter understands, by submission of its bid, that the Underwriter is solely responsible for the selection of any insurer and for all negotiations with (i) the insurer as to the premium to be paid, and (ii) the insurer and any and all rating companies as to selection of such rating companies, the ratings to be assigned the Bonds as a consequence of the issuance of the municipal bond insurance policy, and the payment of fees in connection with such ratings except the Moody's rating fees as described below. Moody's has assigned an underlying rating of "Baa3" to the Bonds. If the Underwriter chooses to purchase municipal bond insurance on the Bonds, separate rating(s), including a rating by Moody's, may at the election of the Underwriter be assigned the Bonds based upon the understanding that upon delivery of the Bonds an insurance policy insuring the timely payment of the principal of and interest on the Bonds will be issued by the insurer. The District will pay the cost of both the underlying rating of Moody's and the Moody's rating associated with the insurance policy issued relating to the Bonds, if the latter is elected to be used by the Underwriter. As is stated in this Preliminary Official Statement under the caption "NO MATERIAL ADVERSE CHANGE," if the Underwriter elects to purchase municipal bond guaranty insurance on the Bonds, the rating of the insurer's creditworthiness by any rating agency does not and will not in any manner affect the District's financial condition, and thus any change to such rating, including a downgrade thereof, at any time, does not and will not constitute a change, material or otherwise, in the District's financial condition, and therefore cannot be a basis for termination by the Underwriter of its obligations to take up and pay for the Bonds.

BOND INSURANCE RISK FACTORS

As is stated above under the caption "Municipal Bond Insurance and Ratings," applications have been made to insurers to issue a commitment for municipal bond guaranty insurance on the Bonds. If the Underwriters purchase such municipal bond guaranty insurance on the Bonds as set forth under such caption, in the event of default of the payment of principal of or interest on the Bonds when all or some become due, any owner of the Bonds shall have a claim under the municipal bond guaranty insurance policy (the "Policy") for such payments.

In the event that an insurer is unable to make payment of principal and interest on the Bonds as such payments become due under the Policy, the Bonds are payable solely from the moneys received pursuant to the applicable bond documents. In the event that an insurer becomes obligated to make payments with respect to the Bonds, no assurance is given that such event would not adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds.

The long-term ratings on the Bonds are dependent in part on the financial strength of any such insurer and its claims paying ability. An insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of an insurer and the ratings on bonds insured by any such insurer, including the Bonds, would not be subject to downgrade. Such event could adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds.

The obligations of an insurer are contractual obligations and in an event of default by any such insurer, the remedies available may be limited by applicable bankruptcy law or state law related to insolvency of insurance companies.

Neither the District, nor, to the knowledge of the District, the Underwriter, has made independent investigation into the claims paying ability of any potential insurer of the Bonds and no assurance or representation regarding the financial strength or projected financial strength of any potential insurer is made by either the District or the Underwriters. Therefore, when making an investment decision, potential investors should carefully consider the ability of the District to pay the principal of and interest on the Bonds and the claims paying ability of any potential insurer, particularly over the life of the investment. See "Municipal Bond Insurance and Ratings" above for further information regarding the District's application for municipal bond guaranty insurance on the Bonds.

OFFICIAL STATEMENT SUMMARY

The following summary of certain information contained herein is qualified in its entirety by the detailed information and financial statements appearing elsewhere in this Official Statement. The reader should refer particularly to sections that are indicated for more complete information.

THE BONDS

The Issuer	Fort Bend County Municipal Utility District No. 141 (the "District") is a political subdivision of the State of Texas located within Fort Bend County, Texas. See "THE DISTRICT - General."
Description	$8,620,000 Unlimited Tax Bonds, Series 2026, are dated November 1, 2024, and mature on September 1 in the years and principal amounts shown on the inside cover page of this Official Statement. Interest on the Bonds accrues from the Date of Delivery (as defined herein), and is payable on September 1, 2027, and on each March 1 and September 1 thereafter until maturity or prior redemption. The Bonds are issued in fully registered form and will be issued in denominations of $5,000 of principal amount or integral multiples thereof. The Bonds scheduled to mature on and after September 1, 2032, are subject to redemption, in whole or in part, prior to their scheduled maturities, on September 1, 2031, or on any date thereafter at the option of the District. Upon redemption, the Bonds will be payable at a price equal to the principal amount of the Bonds, or portions thereof, so called for redemption, plus accrued interest to the date of redemption. See "THE BONDS."
Book-Entry-Only System	The definitive Bonds will be initially registered and delivered only to Cede & Co., the nominee of DTC, pursuant to the Book-Entry-Only System described herein. Beneficial ownership of the Bonds may be acquired in denominations of $5,000 or integral multiples thereof. No physical delivery of the Bonds will be made to the beneficial owners thereof. Principal of and interest on the Bonds will be payable by the Paying Agent/Registrar to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds (see "THE BONDS - Book-Entry-Only System").
Source of Payment	Principal of and interest on the Bonds are payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied upon all taxable property within the District. See "THE BONDS - Source of Payment," "TAX DATA - Tax Rate Calculations," and "INVESTMENT CONSIDERATIONS - Maximum Impact on District Tax Rates."
Use of Proceeds	Proceeds of the sale of the Bonds will be used by the District to (i) finance the District's costs of acquisition or construction of water, wastewater, and drainage facilities serving Glendale Lakes, Sections 11 and 15; Glendale Lakes, Section 14, 15, and Future Acreage clearing and grubbing; and Glendale Lakes, Sections 11, 14, 15, and Future Acreage detention, including land acquisition; (ii) pay engineering costs associated with the design and construction of such facilities and for Glendale Lakes Sections 12 and 13; (iii) pay interest on advances made by the Developer(s) on behalf of the District; and (iv) pay for administrative and issuance costs, legal fees, financial advisor's fees, fees to the Texas Commission on Environmental Quality (the "TCEQ" or the "Commission") and the Attorney General of Texas, engineering fees, and certain financing costs related to the

issuance of the Bonds. See "THE BONDS - Use and Distribution of Bond Proceeds."

Payment Record ..... The Bonds constitute the fifth series of unlimited tax bonds issued by the District to finance water supply and distribution, wastewater collection and treatment, and storm drainage/detention facilities (collectively, the "System"). The District has previously issued its Unlimited Tax Bonds, Series 2019 (the "Series 2019 Bonds"), Unlimited Tax Bonds, Series 2022 (the "Series 2022 Bonds"), Unlimited Tax Bonds, Series 2023 (the "Series 2023 Bonds") and Unlimited Tax Bonds, Series 2024 (the "Series 2024 Bonds") for the purpose of acquiring and constructing the System to serve the District. Collective reference is made in this Official Statement to the District's prior issued bonded indebtedness as the "Prior Bonds." The District has timely paid all principal of and interest on the Prior Bonds when due. Before the issuance of the Bonds, the aggregate principal amount of the Prior Bonds that had not been previously retired by the District was $35,960,000 (collectively, the "Outstanding Bonds"), and after issuance of the Bonds, the aggregate principal amount of the District's bonded indebtedness, including the Bonds, will be $44,580,000.

Authorized But Unissued Bonds ..... $35,415,000 for waterworks, wastewater, and drainage facilities (after issuance of the Bonds), $4,680,000 for parks and recreational facilities, and $52,600,000 for refunding purposes. See "THE BONDS - Issuance of Additional Debt." In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future.

Municipal Bond Insurance and Ratings..... Applications have been made to Assured Guaranty Inc. ("AG") and Build America Mutual Assurance Company ("BAM"), to issue a commitment for municipal bond guaranty insurance on the Bonds. The purchase of such insurance, if available, and payment of all associated costs, including the premium charged by the insurer, and fees charged by any rating companies other than Moody's Investors Service ("Moody's"), will be at the option and expense of the Underwriter. The Underwriter understands, by submission of its bid, that the Underwriter is solely responsible for the selection of any insurer and for all negotiations with (i) the insurer as to the premium to be paid, and (ii) the insurer and any and all rating companies as to selection of such rating companies, the ratings to be assigned the Bonds as a consequence of the issuance of the municipal bond insurance policy, and the payment of fees in connection with such ratings except the Moody's rating fees as described below. Moody's has assigned an underlying rating of "Baa3" to the Bonds. If the Underwriter chooses to purchase municipal bond insurance on the Bonds, separate rating(s), including a rating by Moody's, may at the election of the Underwriter be assigned the Bonds based upon the understanding that upon delivery of the Bonds an insurance policy insuring the timely payment of the principal of and interest on the Bonds will be issued by the insurer. The District will pay the cost of both the underlying rating of Moody's and the Moody's rating associated with the insurance policy issued relating to the Bonds, if the latter is elected to be used by the Underwriter. As is stated in this Preliminary Official Statement under the caption "NO MATERIAL ADVERSE CHANGE," if the

Underwriter elects to purchase municipal bond guaranty insurance on the Bonds, the rating of the insurer's creditworthiness by any rating agency does not and will not in any manner affect the District's financial condition, and thus any change to such rating, including a downgrade thereof, at any time, does not and will not constitute a change, material or otherwise, in the District's financial condition, and therefore cannot be a basis for termination by the Underwriter of its obligations to take up and pay for the Bonds. See "SALE AND DISTRIBUTION OF THE BONDS - Municipal Bond Insurance and Ratings."

Bond Counsel ..... Allen Boone Humphries Robinson LLP, Houston, Texas, Bond Counsel. See "LEGAL MATTERS" and "TAX MATTERS."

Disclosure Counsel..... McCall, Parkhurst & Horton L.L.P., Houston, Texas.

Qualified Tax-Exempt Obligations ..... The Bonds will be designated as "qualified tax-exempt obligations" for financial institutions. See "TAX MATTERS - Qualified Tax-Exempt Obligations."

THE DISTRICT

Description ..... The District is a political subdivision of the State of Texas, created by Order of the TCEQ on December 12, 2003. At creation, the District contained approximately 133.00 total acres of land. There have been five annexations: August 17, 2009 (approximately 65 total acres of land), December 16, 2019 (approximately 80.45 total acres of land), October 19, 2020 (approximately 90.31 total acres of land), April 19, 2021 (approximately 96.53 total acres of land), and November 20, 2023 (approximately 98 total acres of land), resulting in the District's current total acreage of approximately 563.29 total acres of land. The District is currently considering annexation of a 26.61-acre tract into its boundaries. The District has received consent for the annexation from the City or Arcola and anticipates adopting an Order Adding Land for the 26.61-acre tract in December of 2026. The District may annex additional land into its boundaries, provided consent from the City of Arcola is obtained and the District adopts an Order Adding Land. The District is located entirely within Fort Bend County, and entirely within the extraterritorial jurisdiction of the City of Arcola, Texas (the "City"). The District is bounded on the west by FM 521 and on the north by South Pine Street. The District lies within the Fort Bend Independent School District. See "THE DISTRICT - General" and - "Description," and "APPENDIX A - LOCATION MAP."

Authority ..... The rights, powers, privileges, authority and functions of the District are established by Article XVI, Section 59 of the Constitution of the State of Texas and the general laws of the State of Texas pertaining to municipal utility districts, particularly Chapters 49 and 54 of the Texas Water Code, as amended. See "THE DISTRICT - General."

Development and Home Construction ..... As of September 1, 2026, the District contained 1,179 homes, including 17 homes under construction. See "BUILDERS." According to the District's Engineer, underground water distribution, wastewater collection, and storm sewer facilities, detention facilities and street paving have been completed to serve 1,377 single family residential lots located in Glendale Lakes, Sections 1 through 16 (approximately 303.216 total acres) in the District as is delineated in the chart that appears under the caption "DEVELOPMENT AND HOME

CONSTRUCTION." A water supply plant and a wastewater treatment plant have been constructed to provide service to the District.

Saratoga Homes of Texas Houston LLC ("Saratoga Homes") has completed construction of 449 single-family homes in Glendale Lakes, Sections 1, 2, 3, 5, 6 and 9, and is currently constructing homes in Glendale Lakes, Section 11. KB Home ("KB Home") has completed construction of 249 single-family homes in Glendale Lakes, Sections 10, 12 and 14, and is currently constructing homes in Glendale Lakes, Sections 15 and 16. See "DEVELOPERS" and "BUILDERS."

The Fort Bend Independent School District owns a total of approximately 77.24 acres located within the District on which it has constructed the Heritage Rose Elementary School. All of such land and improvements owned by the Fort Bend Independent School District is exempt from taxation by the District.

Approximately 76.003 total acres of undeveloped land located within the District that are available for future development are owned by Hannover Estates, Ltd. Approximately 8.331 total acres of undeveloped land in the District are owned by Hannover Estates, Ltd. and JNC Development, Inc. ("JNC"). Approximately 98 total acres of undeveloped land in the District are owned by Sunlake Limited, Headway Estates, Ltd. and Hannover Estates, Ltd. Such approximately 98 acres are planned for future single-family residential, commercial, detention and water plant site uses. Approximately 23.62 total acres of undeveloped land in the District are owned by KB Home. None of the aforementioned parties have reported any definitive development plan to the District covering any of such land, and thus the District cannot represent when, or whether, the development thereof might be undertaken.

The balance of the land located in the District is contained within easements, rights of way, detention ponds, or is otherwise not available for future development. See "DEVELOPERS," "FUTURE DEVELOPMENT," "TAX DATA - Principal 2026 Taxpayers" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments."

In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt," "FUTURE DEVELOPMENT" and "INVESTMENT CONSIDERATIONS - Future Debt."

Developers..... The developers of the District are Skymark Development Company, Inc. ("Skymark"), JNC Development, Inc. ("JNC"), Glendale Forest, LLC ("Glendale Forest"), Hannover Estates, Ltd. ("Hannover"), Meritage Homes of Texas, LLC ("Meritage Homes"), and KB Home Lone Star, Inc. ("KB Home") collectively, the "Developers."

Skymark has constructed a water supply plant and expansion thereto, a wastewater treatment plant and one expansion thereto, and detention facilities to serve the District. Skymark has also constructed underground water distribution, wastewater collection and storm sewer facilities and street paving to serve (i) the Heritage Rose Elementary School, and (ii) Glendale Lakes, Section 4 (6 single-family residential lots, approximately 1.199 acres), Glendale Lakes, Section 6 (41 single-family residential lots, approximately 7.561 acres), and Glendale Lakes, Section 7 (153 single-family residential lots, approximately 28.280 acres) within the District. Saratoga Homes of Texas Houston, LLC ("Saratoga Homes") has completed construction of 449 homes in Glendale Lakes, Sections 1, 2, 3, 5, 6, and 9, and is constructing homes in Glendale Lakes, Section 11 as is described below. Skymark is reserving Glendale Lakes, Section 4 (4 lots) and Glendale Lakes, Section 6 (15 lots) for future home builder model home lots. KB Home has completed construction of 249 single-family homes in Glendale Lakes, Sections 10, 12 and 14, and is currently constructing homes in Glendale Lakes, Sections 15 and 16. See "DEVELOPMENT AND HOME CONSTRUCTION."

Skymark has sold one Glendale Lakes, Section 6 lot to JNC for the purpose of constructing a model home. JNC conveyed this lot in Glendale Lakes, Section 6 to Saratoga Homes, which is an affiliate of JNC, on which it has constructed the model home as is described below. Hannover, an entity related to Skymark, owns approximately 76.003 acres of currently undeveloped land located within the District that are available for future development. Such approximately 98 acres are planned for future single-family residential, commercial, detention and water plant site uses. Sunlake Limited, Headway Estates, Ltd., and Hannover Estates, Ltd., entities related to Skymark, own approximately 98 acres of currently undeveloped land located within the District that are available for future development. The District cannot represent whether, or when, the development of such currently undeveloped acres might occur. See "DEVELOPMENT AND HOME CONSTRUCTION."

Skymark sold approximately 57.9 acres of undeveloped land located within the District to JNC. JNC has completed the development of 217 single family residential lots (on approximately 39.962 acres) that have been developed as Glendale Lakes, Sections 1, 2 and 5. Saratoga Homes has completed construction of 449 homes in Glendale Lakes, Sections 1, 2, 3, 5, 6, and 9 and is constructing homes in Glendale Lakes, Section 11. In October 2018, JNC conveyed approximately 17.934 acres of undeveloped land located in the District to a related entity, Glendale Forest. Glendale Forest developed the approximately 17.934 acres of land into Glendale Lakes, Section 3 (94 single-family residential lots), of which, Glendale Forest sold 48 lots to JNC/Saratoga Homes and 46 lots to Colina Homes, on which 94 homes have been constructed. JNC conveyed approximately 60.000 acres of undeveloped land located in the District to a related entity, Glendale Acres, LLC. Glendale Acres, LLC developed approximately 60.000 acres of land into Glendale Lakes, Section 11 (205 single-family residential lots), which lots were sold to Saratoga Homes for home construction. See "DEVELOPMENT AND HOME CONSTRUCTION." In May 2019, JNC purchased one lot in Glendale Lakes, Section 6 from Skymark for the purpose of constructing a model home. JNC conveyed this lot in Glendale Lakes, Section 6 to Saratoga Homes to construct the model home. JNC, along with

	Hannover, owns approximately 8.331 total acres of undeveloped land within the District. However, the District cannot represent whether, or when, the development of such currently undeveloped acres might occur or be completed. None of the other aforementioned parties has reported any definitive development plan to the District covering any of such land, and thus the District cannot represent when, or whether, the development thereof might be undertaken. See "FUTURE DEVELOPMENT," "TAX DATA - Principal 2026 Taxpayers" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments."
Builders	Saratoga Homes is currently constructing homes in Glendale Lakes, Section 11 which range in size from approximately 1,600 to 2,500 square feet of living area and in sales price from approximately $259,000 to $429,000. Saratoga may change the types, sizes and sales prices of the homes which it chooses to construct within the District entirely within its discretion, or may suspend home construction activity entirely. KB Home is constructing homes in Glendale Lakes, Sections 15 and 16 which range in size from approximately 1,242 to 2,509 square feet of living area and in sales price from approximately $227,995 to $296,995. KB Home may change the types, sizes and sales prices of the homes which it chooses to construct within the District entirely within its discretion, or may suspend home construction activity entirely. Reference is made in this Official Statement to Saratoga Homes and KB Home together as the "Builders."

INVESTMENT CONSIDERATIONS

THE BONDS ARE SUBJECT TO SPECIAL INVESTMENT CONSIDERATIONS AS SET FORTH IN THIS OFFICIAL STATEMENT. PROSPECTIVE PURCHASERS SHOULD CAREFULLY EXAMINE THE ENTIRE OFFICIAL STATEMENT BEFORE MAKING THEIR INVESTMENT DECISIONS, ESPECIALLY THE PORTION OF THE OFFICIAL STATEMENT ENTITLED "INVESTMENT CONSIDERATIONS."

Tax Rate per $100 of Assessed Valuation Required to Pay Maximum Annual Debt Service Requirements on the Bonds and the Outstanding Bonds (2041) at 95% Tax Collections Based Upon 2026 Assessed Valuation		$ 0.82	

Number of Single Family Residences as of September 1, 2026 (including 17 homes under construction)	1,179

(a) As of January 1, 2026, and comprises the District's 2026 tax roll. All property located in the District is valued on the tax rolls by the Fort Bend Central Appraisal District (the "Appraisal District") at 100% of assessed valuation as of January 1 of each year. The District's tax roll is certified by the Fort Bend County Appraisal Review Board (the "Appraisal Review Board"). Such sum includes 95% of an uncertified component of $992,781, which is included in the amount of $353,749,557. The District's ultimate 2026 Assessed Valuation will not be determined until such uncertified values are certified by the Appraisal Review Board, and thus may vary from such sum of $353,749,557. See "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments" and "TAXING PROCEDURES."

(b) See "DISTRICT DEBT." In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt," "INVESTMENT CONSIDERATIONS - Future Debt" and "FUTURE DEVELOPMENT."

(c) Neither Texas law nor the Bond Resolution requires the District to maintain any particular sum in the Debt Service Fund. Such fund balance gives effect to the payment by the District of the entirety of its debt service requirements on the Outstanding Bonds that were due in 2026. The initial payment on the Bonds, consisting of an interest payment thereon, is due September 1, 2027.

(d) The District has levied a total tax rate of $1.02 per $100 of Assessed Valuation for 2026, consisting of debt service and maintenance tax components of $0.74 and $0.28 per $100 of Assessed Valuation, respectively. As is enumerated in this Official Statement under the caption "TAX DATA - Estimated Overlapping Taxes," the aggregate of the 2026 tax levies of all overlapping taxing units which levy taxes upon property located in the District, plus the District's 2026 tax rate, is $2.5339 per $100 of Assessed Valuation. Such aggregate levy is higher than the aggregate tax levies of many municipal utility districts in the Houston metropolitan area, including the area of the District, but is within the range of the aggregate levies of many municipal utility districts in the Houston metropolitan area and the area of the District which are in stages of development comparable with the District. See "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments" and "TAXING PROCEDURES."

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 141
UNLIMITED TAX BONDS
SERIES 2026

INTRODUCTION

This Official Statement provides certain information with respect to the issuance by Fort Bend County Municipal Utility District No. 141 (the "District") of its $8,620,000 Unlimited Tax Bonds, Series 2026 (the "Bonds").

Included in this Official Statement are descriptions of the Bonds, the plan of financing, and certain information about the District and its finances. All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each such document. Copies of such documents may be obtained from the District upon request and payment of duplication costs. Certain capitalized terms used in this Official Statement have the same meanings assigned to such terms in the Bond Resolution, except as otherwise indicated herein.

THE BONDS

General

The following is a description of some of the terms and conditions of the Bonds, which description is qualified in its entirety by reference to the resolution (the "Bond Resolution") of the Board of Directors of the District (the "Board") authorizing the issuance of the Bonds. A copy of the Bond Resolution may be obtained from the District upon written request made to Allen Boone Humphries Robinson LLP, Phoenix Tower, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027, upon payment of duplication costs.

The Bonds are dated November 1, 2026. Interest accrues from the date of initial delivery (the "Date of Delivery"), at the rates shown on the inside cover page hereof, and is payable on September 1, 2027, and on each March 1 and September 1 thereafter until the earlier of stated maturity or redemption. The Bonds are fully registered bonds maturing on September 1 in each of the years and in the amounts shown under "MATURITY SCHEDULE" on the inside cover page of this Official Statement. Principal of the Bonds will be payable by the paying agent/registrar, initially, The Bank of New York Mellon Trust Company, N.A., in Houston, Texas, or any successor paying agent/registrar (the "Paying Agent," "Registrar" or "Paying Agent/Registrar").

The Bonds will be registered in the name of Cede & Co., as nominee for The Depository Trust Company, New York, New York ("DTC"), which will act as securities depository for the Bonds. Beneficial Owners (as defined herein) of the Bonds will not receive physical certificates representing the Bonds, but will receive a credit balance on the books of the nominees of such Beneficial Owners. So long as Cede & Co. is the registered owner of the Bonds, the principal of and interest on the Bonds will be paid by the Paying Agent directly to DTC, which will, in turn, remit such principal and interest to its participants for subsequent disbursement to the Beneficial Owners of the Bonds as described below under "Book-Entry-Only System."

Use of Certain Terms in Other Sections of this Official Statement

In reading this Official Statement it should be understood that while the Bonds are in the Book-Entry-Only System, references in other sections of this Official Statement to registered owners should be read to include the person for which the Participant acquires an interest in the Bonds, but (i) all rights of ownership must be exercised through DTC and the Book-Entry-Only System, and, (ii) except as described above, notices that are to be given to registered owners under the Bond Resolution will be given only to DTC.

Book-Entry-Only System

This section describes how ownership of the Bonds is to be transferred and how the principal of and interest on the Bonds are to be paid to and credited by The Depository Trust Company, New York, New York, ("DTC") while the Bonds are registered in its nominee name. The information in this section concerning DTC and the Book-Entry-Only System has been

provided by DTC for use in disclosure documents such as this Official Statement. The District and the Financial Advisor believe the source of such information to be reliable, but neither of the District or the Financial Advisor takes any responsibility for the accuracy or completeness thereof.

The District cannot and does not give any assurance that (1) DTC will distribute payments of debt service on the Bonds, or redemption or other notices, to DTC Participants, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the Bonds), or redemption or other notices, to the Beneficial Owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this Official Statement. The current rules applicable to DTC are on file with the Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC.

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Bonds. The Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 2054. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a S&P Global rating of "AA+." The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Bond ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect

to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If less than all of the Bonds within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent/Registrar, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the District or the Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, Bond certificates will be printed and delivered to DTC.

Assignments, Transfers and Exchanges

In the event DTC's book-entry-only system is discontinued, the Bonds may be transferred, registered and assigned only on the registration books of the Registrar, and such registration and transfer shall be without expense or service charge to the Registered Owner, except for any tax or other governmental charges required to be paid with respect to such registration and transfer. A Bond may be assigned by the execution of an assignment form on the Bonds or by other instrument of transfer and assignment acceptable to the Registrar. At any time after the date of delivery of the Bonds to the Initial Purchaser, any Bond may be transferred or exchanged upon its presentment and surrender at the office of the Registrar, duly endorsed for transfer or accompanied by an assignment duly executed by the Registered Owner. To the extent possible, new Bonds issued in an exchange or transfer of Bonds will be delivered to the Registered Owner or assignee of the owner in not more than three business days after the receipt of the request in proper form to transfer or exchange the Bonds. New Bonds registered and delivered in an exchange or transfer shall be in denominations of $5,000 or any integral multiple thereof for any one maturity and for a like aggregate principal amount as the Bond or Bonds surrendered for exchange or transfer. Neither the District nor the Registrar is required (1) to transfer or exchange any Bond during a period beginning at the opening of business on a Record Date and ending at the close of business on the next succeeding interest payment date, or (2) to transfer or exchange any Bond selected for redemption in whole or in part within thirty (30) calendar days of the redemption date. The District has agreed to replace mutilated, destroyed, lost or stolen Bonds upon surrender of the mutilated Bonds, on receipt of satisfactory evidence of such destruction, loss or theft and receipt by the District and the Registrar of security or indemnity to keep them harmless. The District will require payment of taxes, governmental charges and other expenses in connection with any such replacement.

Record Date

The record date for payment of the interest on any regularly scheduled interest payment date is defined as the 15th day of the month (whether or not a business day) preceding such interest payment date.

Redemption Provisions

Bonds maturing on September 1, 2032, and thereafter shall be subject to redemption and payment at the option of the District, in whole or from time to time in part, on September 1, 2031, or on any date thereafter, at a price equal to the principal amount thereof plus accrued interest to the date fixed for redemption. Notice of the exercise of the reserved right of redemption will be given at least thirty (30) days prior to the redemption date by sending such notice by first class mail to the Registered Owner of each Bond to be redeemed in whole or in part at the address shown on the bond register. If fewer than all of the Bonds are redeemed at any time, the particular maturity or maturities and amounts to be redeemed shall be selected by the District. If fewer than all of the Bonds within a maturity are to be redeemed, the Registrar shall designate by method of random selection the Bonds within such maturity to be redeemed (or by DTC in accordance with its procedures while the Bonds are in book-entry-only form). The Registered Owner of any Bond, all or a portion of which has been called for redemption, shall be required to present same to the Registrar for payment of the redemption price on the portion of the Bonds so called for redemption and issuance of a new Bond in the principal amount equal to the portion of such Bond not redeemed.

Replacement of Registrar

Provision is made in the Bond Resolution for replacement of the Registrar. If the Registrar is replaced by the District, the new paying agent/registrar shall act in the same capacity as the previous Registrar. In order to act as Registrar for the Bonds, any paying agent/registrar selected by the District shall be a national or state banking institution, organized and doing business under the laws of the United States of America or of any State, authorized under such laws to exercise trust powers, and subject to supervision or examination by federal or state authority.

Payment Record

The Bonds constitute the fifth series of unlimited tax bonds issued by the District to finance water supply and distribution, wastewater collection and treatment, and storm drainage/detention facilities (collectively, the "System"). The District has previously issued its Unlimited Tax Bonds, Series 2019 (the "Series 2019 Bonds"), Unlimited Tax Bonds, Series 2022 (the "Series 2022 Bonds"), Unlimited Tax Bonds, Series 2023 (the "Series 2023 Bonds") and Unlimited Tax Bonds, Series 2024 (the "Series 2024 Bonds") for the purpose of acquiring and constructing the System to serve the District. Collective reference is made in this Official Statement to the District's prior issued bonded indebtedness as the "Prior Bonds." The District has timely paid all principal of and interest on the Prior Bonds when due. Before the issuance of the Bonds, the aggregate principal amount of the Prior Bonds that had not been previously retired by the District was $35,960,000 (collectively, the "Outstanding Bonds"), and after issuance of the Bonds, the aggregate principal amount of the District's bonded indebtedness, including the Bonds, will be $44,580,000.

Authority for Issuance

At an election held within the District on November 2, 2004, voters of the District authorized a total of $80,950,000 in bonds for the purpose of acquiring or constructing water, sanitary sewer and drainage facilities (the "System"). The Bonds constitute the fifth issuance of bonds from such authorization. The Bonds are issued pursuant to the Bond Resolution, an election held within the District, Chapters 49 and 54 of the Texas Water Code, as amended, and Article XVI, Section 59 of the Texas Constitution. Issuance of the Bonds has been further authorized by an order of the Texas Commission on Environmental Quality (the "TCEQ" or "Commission").

Before the Bonds can be issued, the Attorney General of Texas must pass upon the legality of certain related matters. The Attorney General of Texas does not guarantee or pass upon the safety of the Bonds as an investment or upon the adequacy of the information contained in this Official Statement.

Source of Payment

The Bonds are payable from the proceeds of an annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property located within the District. In the Bond Resolution, the District covenants to levy a sufficient tax to pay principal of and interest on the Bonds, with full allowance being made for delinquencies, costs of collection, and Paying Agent/Registrar fees. Such proceeds, after deduction for collection costs, will be placed in the District's Debt

Service Fund and used solely to pay principal of and interest on the Bonds, and on additional bonds payable from taxes which may hereafter be issued, and Paying Agent/Registrar fees.

The Bonds are obligations of the District and are not the obligations of the State of Texas, Fort Bend County, the City of Arcola, or any entity other than the District.

Issuance of Additional Debt

The District may issue additional bonds with the approval of the TCEQ (other than refunding bonds), necessary to provide improvements and facilities consistent with the purposes for which the District was created. The District's voters have authorized the issuance of $80,950,000 unlimited tax bonds for construction of the System, and could authorize additional amounts. Following the issuance of the Bonds, $35,415,000 unlimited tax bonds will remain authorized but unissued for construction of the System. The District's voters also have authorized $4,680,000 in unlimited tax bonds for parks and recreational facilities, all of which remain unissued, and could authorize additional amounts. The District's voters have authorized $52,600,000 in unlimited tax bonds for refunding purposes, all of which remains unissued, and could authorize additional amounts. The Bond Resolution imposes no limitation on the amount of additional parity bonds which may be issued by the District (if authorized by the District's voters and approved by the Board and the TCEQ.) In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "Use and Distribution of Bond Proceeds" below and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "INVESTMENT CONSIDERATIONS - Future Debt" and "FUTURE DEVELOPMENT."

Based on present engineering cost estimates and on development plans supplied by the Developers (hereinafter defined), in the opinion of the District's consulting engineer, Blackline Engineering, LLC (the "Engineer"), the $35,415,000 authorized but unissued bonds after issuance of the Bonds for water, sewer and drainage facilities will be adequate to finance the extension of water, wastewater and storm drainage/detention facilities and services to serve all of the remaining undeveloped portions of the District. See "DEVELOPMENT OF THE DISTRICT," FUTURE DEVELOPMENT," and "THE SYSTEM."

The District is authorized by statute to develop parks and recreational facilities, including the issuance of bonds payable from taxes for such purpose. Before the District could issue park bonds payable from taxes, the following actions would be required: (a) approval of the park plan and bonds by the TCEQ; and (b) approval of the bonds by the Attorney General of Texas. If the District does issue park bonds, the outstanding principal amount of such bonds may not exceed an amount equal to one percent of the value of the taxable property in the District, unless the District meets certain financial feasibility requirements under the TCEQ rules, in which case the outstanding principal amount of such bonds issued by the District may exceed an amount equal to one percent but not more than three percent of the value of the taxable property in the District. On November 2, 2004, the District authorized $4,680,000 in bonds for parks and recreational facilities, all of which currently remain unissued.

The District also is authorized by statute to engage in fire-fighting activities, including the issuing of bonds payable from taxes for such purposes. Before the District could issue such bonds, the following actions would be required: (a) authorization of a fire plan and bonds for such purpose by the qualified voters in the District; (b) approval of the fire plan and bonds by the TCEQ; and (c) approval of bonds by the Attorney General of Texas. The Board has not considered calling an election at this time for such purposes. If additional debt obligations are issued in the future by the District, such issuance may increase gross debt/property ratios and might adversely affect the investment security of the Bonds. See "INVESTMENT CONSIDERATIONS - Future Debt."

Financing Road Facilities

Pursuant to Chapter 54 of the Texas Water Code, a municipal utility district may petition the TCEQ for the power to issue bonds supported by property taxes to finance roads under the authority of Article III, Section 52 of the Texas Constitution. Before the District could issue such bonds, the District would be required to: (i) obtain consent from the City of Arcola; (ii) receive a grant of such power from the TCEQ; (iii) receive authorization from the District's voters to issue such bonds; and (iv) receive approval of the bonds by the Attorney General of Texas. The District has considered filing an application to the TCEQ for road powers, but first will request the City of Arcola's consent to construct roads and have the authority

to issue road bonds. The District has not submitted such a request to the City of Arcola at this time. Issuance of bonds for roads could dilute the investment security for the Bonds.

No Arbitrage

The District certifies that based upon all facts and estimates now known or reasonably expected to be in existence on the date the Bonds are delivered and paid for, the District reasonably expects that the proceeds of the Bonds will not be used in a manner that would cause the Bonds, or any portion of the Bonds, to be "arbitrage bonds" under the Internal Revenue Code of 1986, as amended (the "Code"), and the regulations prescribed thereunder. Furthermore, all officers, employees and agents of the District have been authorized and directed to provide certifications of facts and estimates that are material to the reasonable expectations of the District as of the date the Bonds are delivered and paid for. In particular, all or any officers of the District are authorized to certify to the facts and circumstances and reasonable expectations of the District on the date the Bonds are delivered and paid for regarding the amount and use of the proceeds of the Bonds. Moreover, the District covenants that it shall make such use of the proceeds of the Bonds, regulate investment of proceeds of the Bonds and take such other and further actions and follow such procedures, including, without limitation, calculating the yield on the Bonds, as may be required so that the Bonds shall not become "arbitrage bonds" under the Code and the regulations prescribed from time to time thereunder.

Annexation and Consolidation

Under existing Texas law, since the District lies wholly within the extraterritorial jurisdiction of the City of Arcola, Texas, (the "City") the District must conform to the City's consent ordinance. Generally, the District may be annexed by the City without the District's consent, and the City cannot annex territory within the District unless it annexes the entire District. However, the City may not annex the District unless (i) such annexation has been approved by a majority of those voting in an election held for that purpose within the area to be annexed, and (ii) if the registered voters in the area to be annexed do not own more than 50 percent of the land in the area, a petition has been signed by more than 50 percent of the landowners consenting to the annexation.

If the District is annexed, the City will assume the District's assets and obligations (including the Bonds) and dissolve the District. Annexation of territory by the City is a policy making matter within the discretion of the Mayor and City Council of the City, and therefore, the District makes no representation that the City will ever annex the District and assume its debt. Moreover, no representation is made concerning the ability of the City to make debt service payments should annexation occur.

The District may annex additional land into its boundaries, provided consent from the City of Arcola is obtained and the District adopts an Order Adding Land.

The District has the legal authority to consolidate with other districts and, in connection therewith, to provide for the consolidation of the District's assets (such as cash and its waterworks and sanitary sewer system) and liabilities (such as the Bonds) with the assets and liabilities of the district or district with which it is consolidating. Although no consolidation is presently contemplated by the District, no representation is made concerning the likelihood of consolidation in the future.

Strategic Partnership

The District has entered into a strategic partnership agreement ("SPA") with the City that provides for the annexation into the City of an approximately 8 acre tract of land within the District for limited purposes for the imposition of the City's Sales and Use Tax. The SPA sets forth certain conditions related to the issuance of bonds by the District for the purpose of purchasing and constructing, or purchasing, or constructing under contract with the City, or otherwise acquiring waterworks systems, sanitary sewer systems, storm sewer systems, and drainage facilities, or parts of such systems or facilities, and to make any and all necessary purchases, construction, improvements, extensions, additions, and major repairs thereto, and to purchase or acquire all necessary land, right of way, easements, sites, equipment, buildings, plants, structures, and facilities therefor. The SPA states that no land will be added or annexed into the District until the City has given its written consent. The SPA entered into with the City expires forty years from its effective date on December 15, 2004. The SPA does not specify procedures for full purpose annexation of all or a portion of the District by the City.

Registered Owners' Remedies

Pursuant to Texas law, the Bond Resolution provides that, in the event the District defaults in the payment of the principal of or interest on any of the Bonds when due, fails to make payments required by the Bond Resolution into the Debt Service Fund, or defaults in the observance or performance of any of the other covenants, conditions or obligations set forth in the Bond Resolution, any Registered Owner shall be entitled to seek a writ of mandamus from a court of competent jurisdiction compelling and requiring the District to make such payments or to observe and perform such covenants, obligations or conditions. Such right is in addition to other rights the Registered Owners may be provided by the laws of the State of Texas.

Except for the remedy of mandamus, the Bond Resolution does not specifically provide for remedies to a Registered Owner in the event of a District default, nor does it provide for the appointment of a trustee to protect and enforce the interests of the Registered Owners. In addition, any legal action taken to seek any such remedies may be limited by the doctrine of sovereign immunity. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Even if the Registered Owners could obtain a judgment against the District, such judgment cannot be enforced by direct levy and execution against the District's property. Further, the Registered Owners cannot themselves foreclose on the property of the District or sell property within the District in order to pay the principal of or interest on the Bonds. The enforceability of the rights and remedies of the Registered Owners may be further limited by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. For example, a Chapter 9 bankruptcy proceeding by the District could delay or eliminate payment of principal or interest to the Registered Owners. See "Bankruptcy Limitation to Registered Owners' Rights" below and "INVESTMENT CONSIDERATIONS - Registered Owners' Remedies and Bankruptcy."

Bankruptcy Limitation to Registered Owners' Rights

The enforceability of the rights and remedies of the Registered Owners may be limited by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. Subject to the requirements of Texas law, the District may voluntarily proceed under Chapter 9 of the Federal Bankruptcy Code, 11 U.S.C. 901-946, if the District: (1) is generally authorized to file for federal bankruptcy protection by State law; (2) is insolvent or unable to meet its debts as they mature; (3) desires to effect a plan to adjust such debts; and (4) has either obtained the agreement of or negotiated in good faith with its creditors or is unable to negotiate with its creditors because negotiation is impracticable. Under Texas law, a municipal utility district such as the District must obtain the approval of the TCEQ prior to filing for bankruptcy. The TCEQ must investigate the financial condition of the District and will authorize the District to proceed only if the TCEQ determines that the District has fully exercised its rights and powers under Texas law and remains unable to meet its debts and other obligations as they mature.

If the District decides in the future to proceed voluntarily under the Federal Bankruptcy Code, the District would develop and file a plan for the adjustment of its debts and the Bankruptcy Court would confirm the District's plan if: (1) the plan complies with the applicable provisions of the Federal Bankruptcy Code; (2) all payments to be made in connection with the plan are fully disclosed and reasonable; (3) the District is not prohibited by law from taking any action necessary to carry out the plan; (4) administrative expenses are paid in full; and (5) the plan is in the best interests of creditors and is feasible. If such a plan were confirmed by the bankruptcy court, it could, among other things, affect a Registered Owner by reducing or eliminating the amount of indebtedness, deferring or rearranging the debt service schedule, reducing or eliminating the interest rate, modifying or abrogating collateral or security arrangements, substituting (in whole or in part) other securities, and otherwise compromising and modifying the rights and remedies of such Registered Owner's claim against the District.

The District may not be placed into bankruptcy involuntarily.

Legal Investment and Eligibility to Secure Public Funds in Texas

The following is quoted from Section 49.186 of the Texas Water Code, and is applicable to the District:

"(a) All bonds, notes, and other obligations issued by a district shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries, and trustees, and for all interest and sinking funds and other public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic.

(b) A district's bonds, notes, and other obligations are eligible and lawful security for all deposits of public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of the bonds, notes, and other obligations when accompanied by any unmatured interest coupons attached to them."

The Public Funds Collateral Act (Chapter 2257, Texas Government Code) also provides that bonds of the District (including the Bonds) are eligible as collateral for public funds.

No representation is made that the Bonds will be suitable for or acceptable to financial or public entities for investment or collateral purposes. No representation is made concerning other laws, rules, regulations or investment criteria which apply to or which might be utilized by any of such persons or entities to limit the acceptability or suitability of the Bonds for any of the foregoing purposes. Prospective purchasers are urged to carefully evaluate the investment quality of the Bonds as to the suitability or acceptability of the Bonds for investment or collateral purposes.

Defeasance

The Bond Resolution provides that the District may discharge its obligations to the Registered Owners of any or all of the Bonds to pay principal, interest and redemption price thereon in any manner permitted by law. Under current Texas law, such discharge may be accomplished either (i) by depositing with the Comptroller of Public Accounts of the State of Texas a sum of money equal to the principal of, premium, if any, and all interest to accrue on the Bonds to maturity or redemption or (ii) by depositing with any place of payment (paying agent) of the Bonds or other obligations of the District payable from revenues or from ad valorem taxes or both, or with a commercial bank or trust company designated in the proceedings authorizing such discharge, amounts sufficient to provide for the payment and/or redemption of the Bonds; provided that such deposits may be invested and reinvested only in (a) direct non-callable obligations of the United States of America, including obligations that are unconditionally guaranteed by the United States of America, (b) non-callable obligations of an agency or instrumentality of the United States, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent, and (c) non-callable obligations of a state or an agency or a county, municipality, or other political subdivision of a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent. The foregoing obligations may be in book entry form and shall mature and/or bear interest payable at such times and in such amounts as will be sufficient to provide for the scheduled payment and/or redemption of the Bonds. If any of such Bonds are to be redeemed prior to their respective dates of maturity, provision must have been made for giving notice of redemption as provided in the Bond Resolution.

Upon such deposit as described above, such Bonds shall no longer be regarded as outstanding or unpaid and thereafter the District will have no further responsibility with respect to amounts available to such paying agent (or other financial institution permitted by applicable law) for the payment of such defeased bonds, including any insufficiency therein caused by the failure of such paying agent (or other financial institution permitted by applicable law) to receive payment when due on the defeasance securities. After firm banking and financial arrangements for the discharge and final payment or redemption of the Bonds have been made as described above, all rights of the District to initiate proceedings to call the Bonds for redemption or take any other action amending the terms of the Bonds are extinguished; provided, however, that the right to call the Bonds for redemption is not extinguished if the District: (i) in the proceedings providing for the firm banking and financial arrangements, expressly reserves the right to call the Bonds for redemption; (ii) gives notice of the

reservation of that right to the owners of the Bonds immediately following the making of the firm banking and financial arrangements; and (iii) directs that notice of the reservation be included in any redemption notices that it authorizes.

There is no assurance that the current law will not be changed in the future in a manner which would permit investments other than those described above to be made with amounts deposited to defease the Bonds. Because the Bond Resolution does not contractually limit such investments, Registered Owners may be deemed to have consented to defeasance with such other investments, notwithstanding the fact that such investments may not be of the same investment quality of those currently permitted under Texas law.

Use and Distribution of Bond Proceeds

Proceeds of the sale of the Bonds will be used by the District to (i) finance the District's costs of acquisition or construction of water, wastewater, and drainage facilities serving Glendale Lakes, Sections 11 and 15; Glendale Lakes, Section 14, 15, and Future Acreage clearing and grubbing; and Glendale Lakes, Sections 11, 14, 15, and Future Acreage detention, including land acquisition; (ii) pay engineering costs associated with the design and construction of such facilities and for Glendale Lakes Sections 12 and 13; (iii) pay interest on advances made by the Developer(s) on behalf of the District; and (iv) pay for administrative and issuance costs, legal fees, financial advisor's fees, fees to the Texas Commission on Environmental Quality (the "TCEQ" or the "Commission") and the Attorney General of Texas, engineering fees, and certain financing costs related to the issuance of the Bonds.

			District's Share
I.	**Construction Costs**		
	A.	Developer Contribution Items	
		1. Glendale Lakes, Sections 14, 15 and Future Acreage Clearing and Grubbing	$372,060
		2. Glendale Lakes, Section 11 Water, Sewer, and Drainage	3,521,714
		3. Glendale Lakes, Section 15 Water, Sewer, and Drainage	503,433
		4. Glendale Lakes, Section 11 Detention	1,151,104
		5. Glendale Lakes, Sections 14, 15 and Future Acreage Detention	1,069,256
		6. Engineering (Items 1 – 5)	771,506
		7. Engineering for Glendale Lakes, Section 12 Water, Sewer, and Drainage	199,090
		6. Engineering for Glendale Lakes, Section 13 Water, Sewer, and Drainage	163,694
		Total Developer Contribution Items	$7,751,857
	B.	District Items	
		1. Land Acquisition for Glendale Lakes, Section 11 Detention	$1,180,295
		Total District Items	$1,180,295
		Less Surplus Funds	(2,421,423)
		TOTAL CONSTRUCTION COSTS	$6,510,729

II. Non-Construction Costs

A.	Legal Fees	$212,400
B.	Fiscal Advisor Fees	172,400
C.	Developer Interest [(a)]	1,331,394
D.	Bond Discount	258,600
E.	Bond Issuance Expenses	34,307
F.	Bond Application Report Costs	70,000
G.	Attorney General's Fee	8,620
H.	TCEQ Fee	21,550
I.	Contingency [(b)]	0
	TOTAL NON-CONSTRUCTION COSTS	$2,109,271
	TOTAL BOND ISSUE REQUIREMENT	**$8,620,000**

(a) Represents interest owed to the Developer(s) on advances made on the District's behalf. The actual amount of interest owed will be calculated at the lesser of (i) the net effective interest rate borne by the Bonds or (ii) the interest rate at which the Developer(s) borrowed funds.

(b) The TCEQ directed that any surplus funds resulting from the sale of bonds at a lower interest rate than proposed shall be shown as a contingency line item. The use of these funds is subject to the TCEQ rules.

In the instance that approved estimated amounts exceed actual costs, the difference comprises a surplus which may be expended for uses approved by the TCEQ. In the instance that actual costs exceed previously approved estimated amounts and contingencies, additional TCEQ approval and the issuance of additional bonds may be required. The Engineer has advised the District that the proceeds of the sale of the Bonds should be sufficient to reimburse the District and the Developers for the costs of the above-described facilities. However, the District cannot and does not guarantee the sufficiency of such funds for such purposes.

THE DISTRICT

General

The District is a political subdivision of the State of Texas, created by Order of the TCEQ on December 12, 2003. The District operates pursuant to Article XVI, Section 59 of the Constitution of the State of Texas and the general laws of the State of Texas pertaining to municipal utility districts, particularly Chapters 49 and 54 of the Texas Water Code, as amended.

The District is empowered, among other things, to finance, purchase, construct, operate and maintain all works, improvements, facilities and plants necessary for the supply and distribution of water; the collection, transportation and treatment of wastewater; the control and diversion of storm water and the provision of parks and recreational facilities. The District may issue bonds and other forms of indebtedness to purchase or construct all of such facilities. The District is also empowered to construct, acquire, improve, maintain, or operate roads and improvements in aid thereof, after consent from the City of Arcola and approval of road powers by the TCEQ. The District would not be authorized to issue road bonds without authorization by the voters of the District and approval of the Attorney General. The District may also provide solid waste disposal and collection services. The District is also empowered to establish, operate and maintain fire-fighting facilities, independently or with one or more conservation and reclamation districts, after approval by the TCEQ and the voters of the District.

The TCEQ exercises continuing supervisory jurisdiction over the District. In order to obtain the consent of the City of Arcola (the "City") for creation of the District, within whose extraterritorial jurisdiction the District lies, the District has agreed to observe certain City requirements. These requirements, among others, require approval by the City of District construction plans.

Description

At creation, the District contained approximately 133.00 total acres of land. There have been five annexations: August 17, 2009 (approximately 65 total acres of land), December 16, 2019 (approximately 80.45 total acres of land), October 19, 2020 (approximately 90.31 total acres of land), April 19, 2021 (approximately 96.53 total acres of land), and November 20, 2023 (approximately 98 total acres of land), resulting in the District's current total acreage of approximately 563.29 total acres of land. The District is currently considering annexation of a 26.61-acre tract into its boundaries. The District has received consent for the annexation from the City or Arcola and anticipates adopting an Order Adding Land for the 26.61-acre tract in December of 2026. The District may annex additional land into its boundaries, provided consent from the City of Arcola is obtained and the District adopts an Order Adding Land. The District is located entirely within Fort Bend County, and entirely within the extraterritorial jurisdiction of the City of Arcola, Texas (the "City"). The District is bounded on the west by FM 521 and on the north by South Pine Street. The District lies within the Fort Bend Independent School District. See "APPENDIX A - LOCATION MAP."

Management of the District

The District is governed by the Board of Directors, consisting of five directors. The Board of Directors has control over and management supervision of all affairs of the District. All of the Directors own property in the District. Directors serve four-year staggered terms, and elections are held within the District in May in even numbered years. The current members and officers of the Board, along with their respective terms of office, are listed below.

Name	Position	Term Expires in May
Barbara T. Dexter	President	2028
Carol Junell	Vice President	2028
Joan Haley	Assistant Vice President	2030
Nancy Dyer	Secretary	2028
Rebecca Kidd	Assistant Secretary	2030

The District does not have a general manager or any other employee, but has contracted for services, as follows.

Tax Assessor/Collector - The District has engaged Assessments of the Southwest, Inc., Friendswood, Texas, as the District's Tax Assessor/Collector. The Tax Assessor/Collector applies the District's tax levy to tax rolls prepared by the Fort Bend Central Appraisal District and bills and collects such levy.

Consulting Engineers - The District has engaged the firm of Blackline Engineering, LLC, Houston, Texas, as consulting engineer to the District.

Bookkeeper - The District has engaged Myrtle Cruz, Inc. as the District's Bookkeeper.

District Operator - Municipal Operations & Consulting, Inc. is the general operator of the District's System.

Auditor - As required by the Texas Water Code, the District retains an independent auditor to audit the District's financial statements annually, which annual audits are filed with the TCEQ. The District's auditor for the 2026 fiscal year is McCall Gibson Swedlund Barfoot Ellis PLLC, Certified Public Accountants, Houston, Texas. A copy of the District's audit for the fiscal year ended June 30, 2025, is included as "APPENDIX B" to this Official Statement.

Bond Counsel and General Counsel - Allen Boone Humphries Robinson LLP, Houston, Texas ("Bond Counsel") serves as Bond Counsel to the District. The fee to be paid Bond Counsel for services rendered in connection with the issuance of the Bonds is contingent upon the sale and delivery of the Bonds. In addition, Allen Boone Humphries Robinson LLP serves as general counsel to the District on matters other than the issuance of bonds.

Disclosure Counsel - McCall, Parkhurst & Horton L.L.P., Houston, Texas, serves as Disclosure Counsel to the District. The fee to be paid Disclosure Counsel for services rendered in connection with the issuance of the Bonds is contingent on the issuance, sale and delivery of the Bonds.

Financial Advisor - The District has engaged Rathmann & Associates, L.P., as financial advisor (the "Financial Advisor") to the District. The fees paid the Financial Advisor for services rendered in connection with the issuance of the Bonds are based on a percentage of the Bonds actually issued and sold. Therefore, the payment of such fees is contingent upon the sale and delivery of the Bonds. Rathmann & Associates, L.P. is an independent municipal advisor registered with the United States Securities and Exchange Commission (the "SEC") and the Municipal Securities Rulemaking Board (the "MSRB"). Rathmann & Associates, L.P.'s SEC registration number is 867-00217 and its MSRB registration number is K0161. Rathmann & Associates, L.P.'s SEC registration Forms MA and MA-1's, which constitute Rathmann & Associates, L.P.'s registration filings, may be accessed through http://www.sec.gov/edgar/searchedgar/company search.html.

DEVELOPMENT AND HOME CONSTRUCTION

As of September 1, 2026, the District contained 1,179 homes, including 17 homes under construction. See "BUILDERS." According to the District's Engineer, underground water distribution, wastewater collection, and storm sewer facilities, detention facilities and street paving have been completed to serve 1,377 single family residential lots located in Glendale Lakes, Sections 1 through 16 (approximately 303.216 total acres) in the District as is delineated in the chart that appears under the caption "DEVELOPMENT AND HOME CONSTRUCTION." A water supply plant and a wastewater treatment plant have been constructed to provide service to the District.

Saratoga Homes of Texas Houston LLC ("Saratoga Homes") has completed construction of 449 single-family homes in Glendale Lakes, Sections 1, 2, 3, 5, 6 and 9, and is currently constructing homes in Glendale Lakes, Section 11. KB Home ("KB Home") has completed construction of 249 single-family homes in Glendale Lakes, Sections 10, 12 and 14, and is currently constructing homes in Glendale Lakes, Sections 15 and 16. See "DEVELOPERS" and "BUILDERS."

The Fort Bend Independent School District owns a total of approximately 77.24 acres located within the District on which it has constructed the Heritage Rose Elementary School. All of such land and improvements owned by the Fort Bend Independent School District is exempt from taxation by the District.

Approximately 76.003 total acres of undeveloped land located within the District that are available for future development are owned by Hannover Estates, Ltd. Approximately 8.331 total acres of undeveloped land in the District are owned by Hannover Estates, Ltd. and JNC Development, Inc. ("JNC"). Approximately 98 total acres of undeveloped land in the District are owned by Sunlake Limited, Headway Estates, Ltd. and Hannover Estates, Ltd. Such approximately 98 acres are planned for future single-family residential, commercial, detention and water plant site uses. Approximately 23.62 total acres of undeveloped land in the District are owned by KB Home. None of the aforementioned parties have reported any definitive development plan to the District covering any of such land, and thus the District cannot represent when, or whether, the development thereof might be undertaken.

The balance of the land located in the District is contained within easements, rights of way, detention ponds, or is otherwise not available for future development. See "DEVELOPERS," "FUTURE DEVELOPMENT," "TAX DATA - Principal 2026 Taxpayers" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments."

In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt," "FUTURE DEVELOPMENT" and "INVESTMENT CONSIDERATIONS - Future Debt."

As of September 1, 2026, the status of lot development and home construction in the District was as follows:

	LOTS				HOMES					
					Under Construction		Completed			
Subdivision	Developed	Acres	Under Development	Acres	Sold*	Unsold	Sold*	Unsold	Models	Totals
Glendale Lakes										
Section 1	85	16.001			0	0	85	0	0	85
Section 2	60	11.142			0	0	60	0	0	60

Totals	1,377	303.216			17	0	1,131	28	3	1,179

* Includes homes sold and contracted for sale. Homes under contract for sale are, in some instances, subject to conditions of appraisal, loan application, approval and inspection. See "BUILDERS."

DEVELOPERS

General

In general, the activities of a developer in a municipal utility district such as the District include purchasing the land within the District, designing the subdivision, designing the utilities and streets to be emplaced in the subdivision, designing any community facilities to be built, defining a marketing program and building schedule, securing necessary governmental approvals and permits for development, arranging for the construction of roads and the installation of utilities (including, in some cases, water, sewer, and drainage facilities pursuant to the rules of the TCEQ, as well as gas, telephone, and electric service) and selling improved lots and commercial reserves to builders, developers, or other third parties. In most instances, the developer will be required to pay up to thirty percent (30%) of the cost of emplacing certain of the water, wastewater and drainage facilities in the municipal utility district pursuant to the rules of the TCEQ. The District requested an exemption from such developer participation requirement with respect to certain facilities that were financed with portions of the proceeds of the sale of the Prior Bonds, and that are being financed with portions of the proceeds of the sale of the Bonds, on the basis of one of the criteria under TCEQ rules for such exemption. The TCEQ granted the request for such exemption in its Orders authorizing the District to issue the Prior Bonds and the Bonds. The relative success or failure of a developer to perform such activities in development of the property within a municipal utility district may have a profound effect on the security of the unlimited tax bonds issued by a district. A developer is generally under no obligation to a district to develop the property which it owns in a district. Furthermore, there is no restriction on the developer's right to sell any or all of the land which the developer owns within a district. See "FUTURE DEVELOPMENT" below.

Description of the Developers

The developers of the District are Skymark Development Company, Inc. ("Skymark"), JNC Development, Inc. ("JNC"), Glendale Forest, LLC ("Glendale Forest"), Hannover Estates, Ltd. ("Hannover"), Meritage Homes of Texas, LLC ("Meritage Homes"), and KB Home Lone Star, Inc. ("KB Home") collectively, the "Developers."

Skymark has constructed a water supply plant and expansion thereto, a wastewater treatment plant and one expansion thereto, and detention facilities to serve the District. Skymark has also constructed underground water distribution, wastewater collection and storm sewer facilities and street paving to serve (i) the Heritage Rose Elementary School, and (ii) Glendale Lakes, Section 4 (6 single-family residential lots, approximately 1.199 acres), Glendale Lakes, Section 6 (41 single-family residential lots, approximately 7.561 acres), and Glendale Lakes, Section 7 (153 single-family residential lots, approximately 28.280 acres) within the District. Saratoga Homes of Texas Houston, LLC ("Saratoga Homes") has completed construction of 449 homes in Glendale Lakes, Sections 1, 2, 3, 5, 6, and 9, and is constructing homes in Glendale Lakes, Section 11 as is described below. Skymark is reserving Glendale Lakes, Section 4 (4 lots) and Glendale Lakes, Section 6 (15 lots) for future home builder model home lots. KB Home has completed construction of 249 single-family homes in Glendale Lakes, Sections 10, 12 and 14, and is currently constructing homes in Glendale Lakes, Sections 15 and 16. See "DEVELOPMENT AND HOME CONSTRUCTION."

Skymark has sold one Glendale Lakes, Section 6 lot to JNC for the purpose of constructing a model home. JNC conveyed this lot in Glendale Lakes, Section 6 to Saratoga Homes, which is an affiliate of JNC, on which it has constructed the model home as is described below. Hannover, an entity related to Skymark, owns approximately 76.003 acres of currently undeveloped land located within the District that are available for future development. Such approximately 98 acres are planned for future single-family residential, commercial, detention and water plant site uses. Sunlake Limited, Headway Estates, Ltd., and Hannover Estates, Ltd., entities related to Skymark, own approximately 98 acres of currently undeveloped land located within the District that are available for future development. The District cannot represent whether, or when, the development of such currently undeveloped acres might occur. See "DEVELOPMENT AND HOME CONSTRUCTION."

Skymark sold approximately 57.9 acres of undeveloped land located within the District to JNC. JNC has completed the development of 217 single family residential lots (on approximately 39.962 acres) that have been developed as Glendale Lakes, Sections 1, 2 and 5. Saratoga Homes has completed construction of 449 homes in Glendale Lakes, Sections 1, 2, 3, 5, 6, and 9 and is constructing homes in Glendale Lakes, Section 11. In October 2018, JNC conveyed approximately 17.934 acres of undeveloped land located in the District to a related entity, Glendale Forest. Glendale Forest developed the approximately 17.934 acres of land into Glendale Lakes, Section 3 (94 single-family residential lots), of which, Glendale Forest sold 48 lots to JNC/Saratoga Homes and 46 lots to Colina Homes, on which 94 homes have been constructed. JNC conveyed approximately 60.000 acres of undeveloped land located in the District to a related entity, Glendale Acres, LLC. Glendale Acres, LLC developed approximately 60.000 acres of land into Glendale Lakes, Section 11 (205 single-family residential lots), which lots were sold to Saratoga Homes for home construction. See "DEVELOPMENT AND HOME CONSTRUCTION." In May 2019, JNC purchased one lot in Glendale Lakes, Section 6 from Skymark for the purpose of constructing a model home. JNC conveyed this lot in Glendale Lakes, Section 6 to Saratoga Homes to construct the model home. JNC, along with Hannover, owns approximately 8.331 total acres of undeveloped land within the District. However, the District cannot represent whether, or when, the development of such currently undeveloped acres might occur or be completed. None of the other aforementioned parties has reported any definitive development plan to the District covering any of such land, and thus the District cannot represent when, or whether, the development thereof might be undertaken. See "FUTURE DEVELOPMENT," "TAX DATA - Principal 2026 Taxpayers" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments."

BUILDERS

Saratoga Homes is currently constructing homes in Glendale Lakes, Section 11 which range in size from approximately 1,600 to 2,500 square feet of living area and in sales price from approximately $259,000 to $429,000. Saratoga may change the types, sizes and sales prices of the homes which it chooses to construct within the District entirely within its discretion, or may suspend home construction activity entirely.

KB Home is constructing homes in Glendale Lakes, Sections 15 and 16 which range in size from approximately 1,242 to 2,509 square feet of living area and in sales price from approximately $227,995 to $296,995. KB Home may change the types, sizes and sales prices of the homes which it chooses to construct within the District entirely within its discretion, or may suspend home construction activity entirely.

Reference is made in this Official Statement to Saratoga Homes and KB Home together as the "Builders."

FUTURE DEVELOPMENT

As is described above under the caption "DEVELOPMENT AND HOME CONSTRUCTION," approximately 303.216 acres of the total of approximately 563.29 acres of land located within the District have been developed into 1,377 single-family residential lots, the development of which is complete, and approximately 39.815 acres are being developed into 148 future single-family residential lots. Approximately 76.003 total acres of undeveloped land located within the District that are available for future development are owned by Hannover Estates, Ltd., approximately 8.331 total acres of undeveloped land that were annexed into the District are owned by Hannover Estates, Ltd. and JNC Development Inc. ("JNC"), approximately 98 total acres of undeveloped land that were annexed into the District are owned by Sunlake Limited, Headway Estates, Ltd. and Hannover Estates, Ltd., and approximately 23.62 total acres of undeveloped land located within the District that are available for future development are owned by KB Home None of the aforementioned parties have reported any definitive development plan to the District covering any of such land, and thus the District cannot represent when, or whether, the development thereof might be undertaken. If any undeveloped portion of the District is eventually developed, additions to the water, wastewater and drainage systems required to service such undeveloped acreage may be financed by future issues of the District's bonds. The District's Engineer currently estimates that the $35,415,000 authorized bonds which are currently unissued are adequate to finance the construction of such facilities to provide service to all of the undeveloped portions of the District as described in this Official Statement under the caption "THE SYSTEM." See "INVESTMENT CONSIDERATIONS - Future Debt." In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "INVESTMENT CONSIDERATIONS - Future Debt."

The District may annex additional land into its boundaries, provided consent from the City of Arcola is obtained and the District adopts an Order Adding Land.

DISTRICT DEBT

Debt Service Requirement Schedule

The following schedule sets forth the debt service requirements for the Outstanding Bonds plus the estimated principal and interest requirements of the Bonds.

Year Ending December 31	Current Total Debt Service	Plus: The Bonds		New Total Debt Service
		Principal	Interest*	
2026	$2,192,569			$2,192,569
2027	2,184,946		$395,083	2,580,030
2028	2,180,469	$85,000	474,100	2,739,569
2029	2,179,119	90,000	469,425	2,738,544
2030	2,181,963	95,000	464,475	2,741,438
2031	2,182,313	100,000	459,250	2,741,563
2032	2,181,025	105,000	453,750	2,739,775
2033	2,182,131	110,000	447,975	2,740,106
2034	2,186,706	110,000	441,925	2,738,631
2035	2,188,606	115,000	435,875	2,739,481
2036	2,193,719	115,000	429,550	2,738,269
2037	2,196,869	125,000	423,225	2,745,094
2038	2,200,288	125,000	416,350	2,741,638
2039	2,206,900	125,000	409,475	2,741,375
2040	2,212,181	130,000	402,600	2,744,781
2041	2,214,825	135,000	395,450	2,745,275
2042	2,220,438	135,000	388,025	2,743,463
2043	2,223,756	140,000	380,600	2,744,356
2044	2,229,706	140,000	372,900	2,742,606
2045	2,237,425	140,000	365,200	2,742,625
2046	2,237,431	150,000	357,500	2,744,931
2047	2,244,294	150,000	349,250	2,743,544
2048	2,247,469	155,000	341,000	2,743,469
2049	2,257,688	155,000	332,475	2,745,163
2050	2,259,444	160,000	323,950	2,743,394
2051	2,264,650	165,000	315,150	2,744,800
2052	2,273,263	165,000	306,075	2,744,338
2053	2,277,538	170,000	297,000	2,744,538
2054	2,293,500	165,000	287,650	2,746,150
2055		2,465,000	278,575	2,743,575
2056		2,600,000	143,000	2,743,000
	$64,331,231	$8,620,000	$11,356,858	$84,308,090

Average Annual Requirements: (2027-2056) $2,737,184
Maximum Annual Requirement: (2041) $2,745,275

* Interest is estimated at 5.5% per annum for purposes of illustration.

Bonded Indebtedness

2026 Assessed Valuation (As of January 1, 2026) See "TAX DATA" and "TAXING PROCEDURES"		$ 353,749,557	(a)
Direct Debt:			
Outstanding Bonds		$ 35,960,000	
The Bonds		8,620,000	
Total		$ 44,580,000	(b)
Estimated Overlapping Debt		$ 16,918,754	
Total Direct and Estimated Overlapping Debt		$ 61,498,754	(b)
Direct Debt Ratio : as a percentage of 2026 Assessed Valuation		12.60 %	
Direct and Estimated Overlapping Debt Ratio : as a percentage of 2026 Assessed Valuation		17.38 %	
Debt Service Fund Balance as of September 21, 2026		$ 2,507,865	(c)
General Fund Balance as of September 21, 2026		$ 2,145,936	
2026 Tax Rate per $100 of Assessed Valuation			
Debt Service Tax	$0.74		
Maintenance Tax	0.28		
Total		$ 1.02	(d)

(a) As of January 1, 2026, and comprises the District's 2026 tax roll. All property located in the District is valued on the tax rolls by the Fort Bend Central Appraisal District (the "Appraisal District") at 100% of assessed valuation as of January 1 of each year. The District's tax roll is certified by the Fort Bend County Appraisal Review Board (the "Appraisal Review Board"). Such sum includes 95% of an uncertified component of $992,781, which is included in the amount of $353,749,557. The District's ultimate 2026 Assessed Valuation will not be determined until such uncertified values are certified by the Appraisal Review Board, and thus may vary from such sum of $353,749,557. See "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments" and "TAXING PROCEDURES."

(b) In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt," "INVESTMENT CONSIDERATIONS - Future Debt" and "FUTURE DEVELOPMENT."

(c) Neither Texas law nor the Bond Resolution requires the District to maintain any particular sum in the Debt Service Fund. Such fund balance gives effect to the payment by the District of the entirety of its debt service requirements on the Outstanding Bonds that were due in 2026. The initial payment on the Bonds, consisting of an interest payment thereon, is due September 1, 2027.

(d) The District has levied a total tax rate of $1.02 per $100 of Assessed Valuation for 2026, consisting of debt service and maintenance tax components of $0.74 and $0.28 per $100 of Assessed Valuation, respectively. As is enumerated in this Official Statement under the caption "TAX DATA - Estimated Overlapping Taxes," the aggregate of the 2026 tax levies of all overlapping taxing units which levy taxes upon property located in the District, plus the District's 2026 tax rate, is $2.5339 per $100 of Assessed Valuation. Such aggregate levy is higher than the aggregate tax levies of many municipal utility districts in the Houston metropolitan area, including the area of the District, but is within the range of the aggregate levies of many municipal utility districts in the Houston metropolitan area and the area of the District which are in stages of development comparable with the District. See "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments" and "TAXING PROCEDURES."

Estimated Direct and Overlapping Debt Statement

Other governmental entities whose boundaries overlap the District have outstanding bonds payable from ad valorem taxes. The following statement of direct and estimated overlapping ad valorem tax debt was developed from information contained in "Texas Municipal Reports," published by the Municipal Advisory Council of Texas, or other available information. Except for the amount relating to the District, the District has not independently verified the accuracy or completeness of such information, and no person is entitled to rely upon such information as being accurate or complete. Furthermore, certain of the entities listed below may have issued additional bonds since the dates stated in this table, and such entities may have programs requiring the issuance of substantial amounts of additional bonds, the amount of which cannot presently be determined. Political subdivisions overlapping the District are authorized by Texas law to levy and collect ad valorem taxes for operation, maintenance and/or general revenue purposes in addition to taxes for payment of their debt, and some are presently levying and collecting such taxes.

Taxing Jurisdiction	Debt as of August 1, 2026	Estimated Overlapping Percent	Estimated Overlapping Amount
Fort Bend County [(i)]	$1,152,335,706	0.26492%	$3,052,733
Fort Bend County Drainage District	20,585,000	0.26681%	54,923
Fort Bend Independent School District	2,073,125,000	0.66620%	13,811,098
Total Estimated Overlapping Debt			$16,918,754
Total Direct Debt (the Bonds and the Outstanding Bonds)			44,580,000
Total Direct and Estimated Overlapping Debt			$61,498,754

[(i)] The Fort Bend County Toll Road Authority bonds are considered to be self-supporting, and are not included in this schedule.

Debt Ratios

	% of 2026 Assessed Valuation
Direct Debt	12.60%
Direct and Estimated Overlapping Debt	17.38%

TAX DATA

Debt Service Tax

All taxable property within the District is subject to the assessment, levy and collection by the District of an annual ad valorem tax without legal limitation as to rate or amount, sufficient to pay principal of and interest on the Outstanding Bonds, the Bonds, and any future tax-supported bonds that may be issued by the District from time to time. The Board of Directors of the District has in its Bond Resolution covenanted to assess and levy, for each year that all or any part of the Bonds remain outstanding and unpaid, a tax ample and sufficient to produce funds to pay the principal of and interest on the Bonds when due (see "THE BONDS" and "INVESTMENT CONSIDERATIONS"). The actual rate of such tax is determined annually as a function of the District's tax base, its debt service requirements, and available funds. The District has levied a debt service tax of $0.74 per $100 of Assessed Valuation for 2026.

Maintenance Tax

The Board of Directors of the District has the statutory authority to levy and collect an annual ad valorem tax for maintenance of the District's improvements, if such maintenance tax is authorized by a vote of the District's electorate. On November 2, 2004, the District voters authorized the levy of such a maintenance tax in an amount not to exceed $1.50 per $100 of Assessed Valuation. Such tax is levied in addition to taxes which the District is authorized to levy for paying principal of and interest on the Bonds and any parity bonds which may be issued in the future. The District levied a maintenance tax of $0.28 per $100 of Assessed Valuation for 2026.

Tax Rate Limitation

Debt Service:	Unlimited (no legal limit as to rate or amount)
Maintenance:	$1.50 per $100 Assessed Valuation

Historical Values and Tax Collection History

The following statement of tax collections sets forth in condensed form the historical Assessed Valuation and tax collections of the District. Such summary has been prepared for inclusion herein based upon information obtained from District records. Reference is made to such records, including the District's annual audited financial statements, for more complete information.

Tax Year	Assessed Valuation	Tax Rate[a]	Total Levy	% Collections Current & Prior Years[b]	Year Ended 09/30
2015	$1,307,130	$1.15[c]	$15,032	100.00%	2016
2016	1,325,582	1.35[c]	17,895	100.00	2017
2017	2,719,010	1.35[c]	36,707	100.00	2018
2018	12,459,206	1.35[c]	168,199	100.00	2019
2019	25,378,990	1.35[c]	342,616	100.00	2020
2020	43,793,331	1.35	591,210	100.00	2021
2021	86,384,436	1.35	1,166,190	99.92	2022
2022	147,115,649	1.27	1,868,369	100.00	2023
2023	243,735,011	1.05	2,559,218	99.95	2024
2024	289,357,374	1.01	2,922,509	99.81	2025
2025	311,036,058	1.01	3,172,568	98.84(d)	2026
2026	353,749,557(e)	1.02(f)	3,608,245(f)	(f)	2027

(a) Per $100 of Assessed Valuation.

(b) Such percentages reflect cumulative total collections for each year from the time each respective annual tax was levied through August 31, 2026.

(c) Maintenance tax only.

(d) As of August 31, 2026. In process of collection.

(e) Such sum includes 95% of an uncertified component of $992,781, which is included in the amount of $353,749,557. The District's ultimate 2026 Assessed Valuation will not be determined until such uncertified values are certified by the Appraisal Review Board, and thus may vary from such sum of $353,749,557.

(f) The District has levied a total tax rate of $1.02 per $100 of Assessed Valuation for 2026, consisting of debt service and maintenance tax components of $0.74 and $0.28 per $100 of Assessed Valuation, respectively.

Tax Rate Distribution

	2026	2025	2024	2023	2022
Debt Service	$0.74	$0.71	$0.69	$0.65	$0.64
Maintenance & Operations	0.28	0.31	0.32	0.40	0.63
Total	$1.02	$1.02	$1.01	$1.05	$1.27

Analysis of Tax Base

The following table illustrates the composition of property located within the District during the past five years.

Type of Property	2026 Assessed Valuation	%	2025 Assessed Valuation	%	2024 Assessed Valuation	%
Land	$89,336,230	25.25%	$81,972,207	26.35%	$45,147,203	15.60%
Improvements	323,059,940	91.32%	272,888,135	87.74%	290,767,755	100.49%
Personal Property	2,002,755	0.57%	2,731,180	0.88%	1,689,801	0.58%
Uncertified	943,142	0.27%	0	0.00%	0	0.00%
Exemptions	-61,592,510	-17.41%	-46,555,464	-14.97%	-48,247,385	-16.67%
TOTAL	$353,749,557*	100.00%	$311,036,058	100.00%	$289,357,374	100.00%

Type of Property	2023 Assessed Valuation	%	2022 Assessed Valuation	%
Land	$29,198,722	11.98%	$25,207,085	17.13%
Improvements	258,028,517	105.86%	154,456,099	104.99%
Personal Property	1,434,136	0.59%	791,470	0.54%
Exemptions	-44,926,364	-18.43%	-33,339,005	-22.66%
TOTAL	$243,735,011	100.00%	$147,115,649	100.00%

* Such sum includes 95% of an uncertified component of $992,781, which is included in the amount of $353,749,557. The District's ultimate 2026 Assessed Valuation will not be determined until such uncertified values are certified by the Appraisal Review Board, and thus may vary from such sum of $353,749,557.

Principal 2026 Taxpayers

Based upon information supplied by the District's Tax Assessor/Collector, the following table lists principal District taxpayers, type of property owned by such taxpayers, and the assessed valuation of such property as of January 1, 2026. The information reflects the composition of property ownership reflected on the District's 2026 tax roll. See "DEVELOPERS."

Taxpayer	Type of Property	Assessed Valuation 2026 Tax Roll	% of 2026 Tax Roll
Saratoga Homes of Texas Houston LLC*	Land & Improvements	$7,806,217	2.21%
KB Home Lone Star Inc.*	Land & Improvements	4,286,049	1.21%
Glendale Acres LLC	Land & Improvements	2,330,240	0.66%
Hannover Estates Ltd.*	Reserves & Land	1,859,441	0.53%
Centerpoint Energy Electric	Utilities Personal Property	1,768,009	0.50%
Homeowner	Land & Improvements	$655,211	0.19%
SLM Global LLC	Land & Improvements	$648,846	0.18%
Homeowner	Land & Improvements	$626,653	0.18%
Homeowner	Land & Improvements	$581,897	0.16%
Bismuth Propco Series LLC	Land & Improvements	$551,400	0.16%
		$21,113,963	5.97%

* See "DEVELOPERS" and "BUILDERS."

Tax Exemption

Certain property in the District may be exempt from taxation. See "TAXING PROCEDURES." The District has adopted an exemption of $10,000 of the appraised value of residence homesteads of individuals who are disabled or are sixty-five years of age or older. The Fort Bend Independent School District owns a total of approximately 77.24 acres located within the District on which it has constructed the Heritage Rose Elementary School. All of such land and improvements owned by the Fort Bend Independent School District is exempt from taxation by the District.

Additional Penalties

The District has contracted with a delinquent tax attorney to collect certain delinquent taxes. In connection with that contract, the District can establish an additional penalty of twenty percent (20%) of the tax to defray the costs of collection. This 20% penalty applies to taxes that either: (1) become delinquent on or after February 1 of a year, but not later than May 1 of that year, and that remain delinquent on April 1 (for personal property) and July 1 (for real property) of the year in which they become delinquent or (2) become delinquent on or after June 1, pursuant to the Texas Tax Code.

Tax Rate Calculations

The tax rate calculations set forth below are presented to indicate the tax rates per $100 of Assessed Valuation which would be required to meet certain debt service requirements if no growth in the District occurs beyond the 2026 Assessed Valuation. The calculations also assume collection of 95% of taxes levied, no use of District funds on hand, and the sale of no additional bonds by the District.

Average Annual Debt Service Requirements (2027-2056)	$2,737,184
Tax Rate of $0.82 on the 2026 Assessed Valuation ($353,749,557) produces	$2,755,709

Maximum Annual Debt Service Requirement (2041)..... $2,745,275

Tax Rate of $0.82 on the 2026 Assessed Valuation ($353,749,557) produces $2,755,709

The District has levied a debt service tax in the amount of $0.74 per $100 of Assessed Valuation for 2026, plus a maintenance tax of $0.28 per $100 of Assessed Valuation. As the above table indicates, the 2026 debt service tax rate will not be sufficient to pay the average annual and the maximum annual debt service requirement on the Bonds and the Outstanding Bonds given taxable values in the District at the level of the 2026 Assessed Valuation, assuming the District will have a tax collection rate of 95%, no use of District funds on hand other than tax collections for such purpose, and the issuance of no additional bonds by the District other than the Bonds and the Prior Bonds. See "TAXING PROCEDURES" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments." However, as is illustrated above under the caption "Historical Values and Tax Collection History," the District had collected an average of 99.97% of its 2015 through 2024 tax levies as of August 31, 2026, and its 2025 tax levy was 98.84% collected as of such date. Moreover, the District's Debt Service Fund balance was $2,507,865 as of September 21, 2026. Although neither Texas law nor the Bond Resolution requires that any specific amount be retained in the Debt Service Fund at any time, the District has in the past applied earnings from the investment of monies held in the Debt Service Fund to meet the debt service requirements of the Prior Bonds (see "APPENDIX B - ANNUAL FINANCIAL REPORT"). Therefore, given these factors and the development of single-family lots that are currently under development by the Developers within the District and the anticipated construction by the Builders of homes on single-family residential lots that have been developed within the District (see "DEVELOPERS" and "BUILDERS"), the District anticipates that it will be able to meet the debt service requirements on the Bonds and the Outstanding Bonds without increasing the tax rate for debt service above the debt service rate which the District levied for 2026. However, the District can make no representation that the taxable property values in the District will increase in the future or will maintain a value sufficient to support the aforementioned tax rate or to justify continued payment of taxes by property owners. See "TAXING PROCEDURES" and "INVESTMENT CONSIDERATIONS - Factors Affecting Taxable Values and Tax Payments." In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "Use and Distribution of Bond Proceeds" below and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "INVESTMENT CONSIDERATIONS - Future Debt" and "FUTURE DEVELOPMENT."

Estimated Overlapping Taxes

Property located within the District is subject to taxation by several taxing authorities in addition to the District. Set forth below is a compilation of all 2026 taxes levied upon property located within the District, plus the District's 2026 tax rate. Under Texas law, ad valorem taxes levied by each taxing authority other than the District entitled to levy taxes against property located within the District create a lien which is on a parity with the tax lien of the District. In addition to the ad valorem taxes required to make the debt service payments on bonded indebtedness of the District and of such other jurisdictions (see "DISTRICT DEBT - Estimated Direct and Overlapping Debt Statement"), certain taxing jurisdictions are authorized by Texas law to assess, levy and collect ad valorem taxes for operation, maintenance, administrative and/or general revenue purposes.

Taxing Jurisdiction	2026 Tax Rate Per $100 of A.V.
The District [(i)]	$1.0200
Fort Bend County	0.4070
Fort Bend County Drainage District	0.0100
Fort Bend Independent School District	0.9969
Fort Bend County Emergency Service District No. 7	0.1000
Total Tax Rate	$2.5339

[(i)] The District has levied a total tax rate of $1.02 per $100 of Assessed Valuation for 2026, consisting of debt service and maintenance tax components of $0.74 and $0.28 per $100 of Assessed Valuation, respectively.

TAXING PROCEDURES

Authority to Levy Taxes

The Board is authorized to levy an annual ad valorem tax, without legal limitation as to rate or amount, on all taxable property within the District in an amount sufficient to pay the principal of and interest on the Bonds, the Outstanding Bonds, and any additional bonds payable from taxes which the District may hereafter issue (see "INVESTMENT CONSIDERATIONS - Future Debt") and to pay the expenses of assessing and collecting such taxes. The District agrees in the Bond Resolution to levy such a tax from year to year as described more fully above under "THE BONDS - Source of Payment." Under Texas law, the Board may also levy and collect annual ad valorem taxes for the operation and maintenance of the District and the System and for the payment of certain contractual obligations. See "TAX DATA - Maintenance Tax" and - "Tax Rate Distribution."

Property Tax Code and County-wide Appraisal District

Title I of the Texas Tax Code (the "Property Tax Code"), specifies the taxing procedures of all political subdivisions of the State of Texas, including the District. Provisions of the Property Tax Code are complex and are not fully summarized here. The Property Tax Code requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State an appraisal district with the responsibility for recording and appraising property for all taxing units within a county and an appraisal review board with responsibility for reviewing and equalizing values established by the appraisal district. The Fort Bend County Appraisal District (the "Appraisal District") has the responsibility of appraising property for all taxing units within Fort Bend County, including the District. Such appraisal values will be subject to review and change by the Fort Bend County Appraisal Review Board (the "Appraisal Review Board"). The appraisal roll, as approved by the Appraisal Review Board, will be used by the District in establishing its tax rolls and tax rate.

Property Subject to Taxation by the District

Except for certain exemptions provided by Texas law, all real property, tangible personal property held or used for the production of income, and mobile homes, are subject to taxation by the District. Principal categories of exempt property include, but are not limited to, property owned by the State of Texas or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; certain household goods, family supplies, and personal effects; certain goods, wares, and merchandise in transit; farm products owned by the producer; certain property of charitable organizations, youth development associations, religious organizations, and qualified schools; designated historical sites; most individually owned automobiles; and intangible personal property. In addition, the District may by its own action exempt residential homesteads of persons 65 years or older and of certain disabled persons, and travel trailers, to the extent deemed advisable by the Board. The District may be required to offer such an exemption if a majority of voters approve it at an election. The District would be required to call such an election upon petition by 20% of the number of qualified voters who voted in the preceding election. The District is authorized by statute to disregard exemptions for the disabled and elderly if granting the exemption would impair the District's obligation to pay tax-supported debt incurred prior to adoption of the exemption by the District. Furthermore, the District must grant exemptions to disabled veterans, or certain surviving dependents of disabled veterans if requested, but only to the maximum extent of $5,000 to $12,000 of assessed valuation depending upon the disability rating of the veteran, if such rating is less than 100%. A veteran who receives a disability rating of 100% is entitled to the exemption for the full amount of the residential homestead. Additionally, subject to certain conditions, the surviving spouse of a disabled veteran is entitled to an exemption for the full value of the veteran's residence homestead to which the disabled veterans' exemption applied including the surviving spouse of a disabled veteran who would have qualified for such exemption if it had been in effect on the date the disabled veteran died. A partially disabled veteran or certain surviving spouses of partially disabled veterans are entitled to an exemption from taxation of a percentage of the appraised value of their residence homesteads in an amount equal to the partially disabled veteran's disability rating if the residence homestead was donated by a charitable organization. Also, the surviving spouse of a member of the armed forces who was killed in action is, subject to certain conditions, entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse. The surviving spouse of a first responder who was killed or fatally injured in the line of duty is, subject to certain conditions, also entitled to an exemption of the total appraised value of the surviving spouse's residence

homestead, and, subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse.

Residential Homestead Exemptions: The Property Tax Code authorizes the governing body of each political subdivision in the State of Texas to exempt up to 20% of the appraised value of residential homesteads from ad valorem taxation. Where ad valorem taxes have previously been pledged for the payment of debt, the assessor and collector of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged if the cessation of the levy would impair the obligations of the contract by which the debt was created. The adoption of a homestead exemption may be considered each year, but must be adopted before July 1. The District has never adopted an order granting a general residential homestead exemption. See "TAX DATA - Exemptions."

Freeport Goods Exemption: A "Freeport Exemption" applies to goods, wares, and merchandise other than oil, gas, and petroleum products (defined as liquid and gaseous materials immediately derived from refining petroleum or natural gas), and to aircraft or repair parts used by a certified air carrier acquired in or imported into Texas that are destined to be forwarded outside of Texas and that are detained in Texas for assembling, storing, manufacturing, processing, or fabricating for fewer than 175 days. Although certain taxing units may take official action to tax such property in transit and negate such exemption, the District does not have such an option. A "Goods-in-Transit" Exemption is applicable to the same categories of tangible personal property that are covered by the Freeport Exemption, if, for tax year 2011 and prior applicable years, such property is acquired in or imported into Texas for assembling, storing, manufacturing, processing, or fabricating purposes and is subsequently forwarded to another location inside or outside of Texas not later than 175 days after acquisition or importation, and the location where said property is detained during that period is not directly or indirectly owned or under the control of the property owner. For tax year 2012 and subsequent years, such Goods-in-Transit Exemption includes tangible personal property acquired in or imported into Texas for storage purposes only if such property is stored under a contract of bailment by a public warehouse operator at one or more public warehouse facilities in Texas that are not in any way owned or controlled by the owner of such property for the account of the person who acquired or imported such property. A property owner who receives the Goods-in-Transit Exemption is not eligible to receive the Freeport Exemption for the same property. Local taxing units such as the District may, by official action and after public hearing, tax goods-in-transit personal property. A taxing unit must exercise its option to tax goods-in-transit property before January 1 of the first tax year in which it proposes to tax the property at the time and in the manner prescribed by applicable law. The District has taken official action to allow taxation of all such goods-in-transit personal property for all prior and subsequent years.

Tax Abatement

Fort Bend County or the City of Arcola may designate all or part of the area within the District as a reinvestment zone. Thereafter, the City of Arcola (if it were to annex the area), Fort Bend County, and the District, at the option and discretion of each entity, may enter into tax abatement agreements with owners of property within the zone. Prior to entering into a tax abatement agreement, each entity must adopt guidelines and criteria for establishing tax abatement, which each entity will follow in granting tax abatement to owners of property. The tax abatement agreements may exempt from ad valorem taxation by each of the applicable taxing jurisdictions, including the District, for a period of up to ten (10) years, all or any part of any increase in the assessed valuation of property covered by the agreement over its assessed valuation in the year in which the agreement is executed, on the condition that the property owner make specified improvements or repairs to the property in conformity with the terms of the tax abatement. Each taxing jurisdiction has discretion to determine terms for its tax abatement agreements without regard to the terms approved by the other taxing jurisdictions.

Valuation of Property for Taxation

Generally, property in the District must be appraised by the Appraisal District at market value as of January 1 of each year. Once an appraisal roll is prepared and finally approved by the Appraisal Review Board, it is used by the District in establishing its tax rolls and tax rate. Assessments under the Property Tax Code are to be based on one hundred percent (100%) of market value, as such is defined in the Property Tax Code. In determining market value, either the replacement cost or the income or the market data method of valuation may be used, whichever is appropriate. Nevertheless, certain land may be appraised at less than market value under the Property Tax Code. Increases in the appraised value of residence homesteads are limited by the Texas Constitution to 10 percent annually regardless of the market value of the property.

The Property Tax Code permits land designated for agricultural use, open space or timberland to be appraised at its value based on the land's capacity to produce agricultural or timber products rather than at its market value. The Property Tax Code permits under certain circumstances that residential real property inventory held by a person in the trade or business be valued at the price all of such property would bring if sold as a unit to a purchaser who would continue the business. Provisions of the Property Tax Code are complex and are not fully summarized here. Landowners wishing to avail themselves of the agricultural use, open space or timberland designation or residential real property inventory designation must apply for the designation and the appraiser is required by the Property Tax Code to act on each claimant's right to the designation individually. A claimant may waive the special valuation as to taxation by some political subdivisions while claiming it for another. If a claimant receives the agricultural use designation and later loses it by changing the use of the property or selling it to an unqualified owner, the District can collect taxes based on the new use, including taxes for the previous three (3) years for agricultural use, open space land, and timberland.

The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraisal values. The plan must provide for appraisal of all real property in the Appraisal District at least once every three years. It is not known what frequency of reappraisals will be utilized by the Appraisal District or whether reappraisals will be conducted on a zone or county-wide basis. The District, however, at its expense, has the right to obtain from the Appraisal District a current estimate of appraised values within the District or an estimate of any new property or improvements within the District. While such current estimate of appraised values may serve to indicate the rate and extent of growth of taxable values within the District, it cannot be used for establishing a tax rate within the District until such time as the Appraisal District chooses to formally include such values on its appraisal roll.

The Property Tax Code provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% physically damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as the District, adopting its tax rate for the tax year. A taxing unit, such as the District, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

District and Taxpayer Remedies

Under certain circumstances, taxpayers and taxing units (such as the District) may appeal the orders of the Appraisal Review Board by filing a timely petition for review in State district court. In such event, the value of the property in question will be determined by the court, or by a jury, if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to compel compliance with the Property Tax Code.

The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property values, appraisals that are higher than renditions and appraisals of property not previously on an appraisal roll.

Levy and Collection of Taxes

The District is responsible for the levy and collection of its taxes unless it elects to transfer such functions to another governmental entity. The rate of taxation is set by the Board of Directors, after the legally required notice has been given to owners of property within the District, based upon: (a) the valuation of property within the District as of the preceding January 1, and (b) the amount required to be raised for debt service, maintenance purposes, and authorized contractual obligations. Taxes are due October 1, or when billed, whichever comes later, and become delinquent if not paid before February 1 of the year following the year in which imposed. A delinquent tax incurs a penalty of six percent (6%) of the amount of the tax for the first calendar month it is delinquent, plus one percent (1%) for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. If the tax is not paid by July 1 of the year in which it becomes delinquent, the tax incurs a total penalty of twelve percent (12%) regardless of the number of months the tax has been delinquent and incurs an additional penalty for collection costs of an amount established by the District and a delinquent tax attorney. A delinquent tax on personal property incurs an additional penalty, in an amount

established by the District and a delinquent tax attorney, 60 days after the date the taxes become delinquent. The delinquent tax accrues interest at a rate of one percent (1%) for each month or portion of a month it remains unpaid. The Property Tax Code makes provisions for the split payment of taxes, discounts for early payment and the postponement of the delinquency date of taxes under certain circumstances which, at the option of the District, which may be rejected by taxing units. The District's tax collector is required to enter into an installment payment agreement with any person who is delinquent on the payment of tax on a residence homestead for payment of tax, penalties and interest, if the person requests an installment agreement and has not entered into an installment agreement with the collector in the preceding 24 months. The installment agreement must provide for payments to be made in monthly installments and must extend for a period of at least 12 months and no more than 36 months. Additionally, the owner of a residential homestead property who is (i) sixty-five (65) years of age or older, (ii) disabled, or (iii) a disabled veteran, is entitled by law to pay current taxes on a residential homestead in installments without penalty or to defer the payment of taxes during the time of ownership. In the instance of tax deferral, a tax lien remains on the property and interest continue to accrue during the period of deferral.

Rollback of Operation and Maintenance Tax Rate

Chapter 49 of the Texas Water Code, as amended, classifies districts differently based on the current operation and maintenance tax rate or on the percentage of build-out that the District has completed. Districts that have adopted an operation and maintenance tax rate for the current year that is 2.5 cents or less per $100 of taxable value are classified as "Special Taxing Units." Districts that have financed, completed, and issued bonds to pay for all improvements and facilities necessary to serve at least 95% of the projected build-out of the district are classified as "Developed Districts." Districts that do not meet either of the classifications previously discussed can be classified herein as "Developing Districts." The impact each classification has on the ability of a district to increase its maintenance and operations tax rate is described for each classification below. Debt service and contract tax rates cannot be reduced by a rollback election held within any of the districts described below.

Special Taxing Units

Special Taxing Units that adopt a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, may be required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Special Taxing Unit is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

Developed Districts

Developed Districts that adopt a total tax rate that would impose more than 1.035 times the amount of the total tax imposed by the district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions for the preceding tax year, plus any unused increment rates, as calculated and described in Section 26.013 of the Tax Code, may be required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Developed District is the current year's debt service and contract tax rate plus 1.035 times the previous year's operation and maintenance tax rate plus any unused increment rates. In addition, if any part of a Developed District lies within an area declared for disaster by the Governor of Texas or President of the United States, alternative procedures and rate limitations may apply for a temporary period. If a district qualifies as both a Special Taxing Unit and a Developed District, the district will be subject to the operation and maintenance tax threshold applicable to Special Taxing Units.

Developing Districts

Districts that do not meet the classification of a Special Taxing Unit or a Developed District can be classified as Developing Districts. The qualified voters of these districts, upon the Developing District's adoption of a total tax rate that would impose more than 1.08 times the amount of the total tax rate imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, are authorized to petition for an election to reduce the operation and maintenance tax rate. If an election is called and passes, the total tax rate for Developing Districts is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

A determination as to a district's status as a Special Taxing Unit, Developed District or Developing District will be made by the Board of Directors on an annual basis. The District cannot give any assurances as to what its classification will be at any point in time or whether the District's future tax rates will result in a total tax rate that will reclassify the District into a new classification and new election calculation. For the 2026 tax rate year, a determination has been made by the District's Board of Directors that the District is a Developing District.

Additional Penalties

The District has contracted with a delinquent tax attorney to collect certain delinquent taxes. In connection with that contract, the District can establish an additional penalty of twenty percent (20%) of the tax to defray the costs of collection. This 20% penalty applies to taxes that either: (1) become delinquent on or after February 1 of a year, but not later than May 1 of that year, and that remain delinquent on April 1 (for personal property) and July 1 (for real property) of the year in which they become delinquent or (2) become delinquent on or after June 1, pursuant to the Texas Tax Code.

District's Rights in the Event of Tax Delinquencies

Taxes levied by the District are a personal obligation of the owner of the property as of January 1 of the year for which the tax is imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed for the year on the property. The lien exists in favor of each local taxing unit, including the District, having the power to tax the property. The District's tax lien is on a parity with the tax liens of other such taxing units (see "TAX DATA - Estimated Overlapping Taxes"). A tax lien on real property takes priority over the claims of most creditors and other holders of liens on the property encumbered by the tax lien, whether or not the debt or lien existed before the attachment of the tax lien; however, whether a lien of the United States is on a parity with or takes priority over a tax lien of the District is determined by applicable federal law. Personal property, under certain circumstances, is subject to seizure and sale for the payment of delinquent taxes, penalty and interest.

At any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the District must join other taxing units that have claims for delinquent taxes against all or part of the same property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, by taxpayer redemption rights (a taxpayer may redeem property within six (6) months for commercial property and two (2) years for residential and all other types of property after the purchaser's deed issued at the foreclosure sale is filed in the county records) or by bankruptcy proceedings which restrict the collection of taxpayer debts. The District's ability to foreclose its tax lien or collect penalties or interest on delinquent taxes may be limited on property owned by a financial institution which is under receivership by the Federal Deposit Insurance Corporation pursuant to the Federal Deposit Insurance Act, 12 U.S.C. 1825, as amended. See "INVESTMENT CONSIDERATIONS - Tax Collection Limitations."

Tax Payment Installments After Disaster

Certain qualified taxpayers, including owners of residential homesteads, located within a designated disaster area or emergency area and whose property has been damaged as a direct result of the disaster or emergency, are entitled to enter into a tax payment installment agreement with a taxing jurisdiction such as the District if the tax payer pays at least one-fourth of the tax bill imposed on the property by the delinquency date. The remaining taxes may be paid without penalty or interest in three equal installments within six months of the delinquency date.

Additionally, the Property Tax Code authorizes a taxing jurisdiction such as the District, solely at the jurisdictions discretion, to adopt a similar installment payment option for taxes imposed on property that is located within a designated disaster area or emergency area and is owned or leased by certain qualified business entities, regardless of whether the property has been damaged as a direct result of the disaster or emergency.

THE SYSTEM

Regulation

According to the Engineer, the District's water distribution, wastewater collection, and storm drainage facilities (collectively, the "System") have been designed in accordance with accepted engineering practices and the requirements of various agencies having regulatory or supervisory jurisdiction over the construction and operation of such facilities. The construction and operation of the System must be accomplished in accordance with the standards and specifications of such entities and are subject to inspection by each such entity. The TCEQ exercises continuing supervisory authority over the District. Construction of drainage facilities is subject to the regulatory authority of the Fort Bend Drainage District, and, in some instances, the TCEQ and the U.S. Army Corps of Engineers. Fort Bend County and the City also exercise regulatory jurisdiction over the District's System. The total number of equivalent single-family connections ("ESFCs") estimated at this time for the District upon the full development of its approximately 563.29 acres is 1,655 with a total estimated population of 4,138 people. The following descriptions are based upon information supplied by the District's Engineer.

Description

Proceeds of the sale of the Prior Bonds were used to finance the District's cost of the acquisition and construction of Glendale Lakes Lift Station, Glendale Lakes Groundwater Supply Plant No. 2, Interim Wastewater Treatment Plant, Wastewater Treatment Plant installation costs and lease payments, land acquisition costs, components of its System which serve Glendale Lakes, Sections 1 through 3 and 5 through 10, 12 and 13, and other components of the System. The District is financing its portion of the cost of the acquisition or construction of water, wastewater, and drainage facilities serving Glendale Lakes, Sections 11 and 15; Glendale Lakes, Section 14, 15, and Future Acreage clearing and grubbing; and Glendale Lakes, Sections 11, 14, 15, and Future Acreage detention, including land acquisition, with portions of the proceeds of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds"). In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds, the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt," "INVESTMENT CONSIDERATIONS - Future Debt" and "FUTURE DEVELOPMENT."

Water Supply

The District owns and operates the water plant facilities. The water plant includes two water wells totaling 1,092 gallons per minute ("g.p.m."), 31,000 gallon pressure tank, 276,035 gallon ground storage tank, and 2,125 g.p.m. of booster pump capacity. According to the District's Engineer, the aforementioned water supply and treatment facilities will contain adequate capacity to provide service to 1,380 equivalent single-family residential connections, including all 1,239 existing single-family residential connections.

The District has a water supply interconnect with Fort Bend County Freshwater Supply District No. 1 and the City of Arcola which is normally closed.

Subsidence and Conversion to Surface Water Supply

The District is within the boundaries of the Fort Bend Subsidence District (the "Subsidence District") which regulates groundwater withdrawal. The Subsidence District has adopted regulations requiring reduction of groundwater withdrawals through conversion to alternate source water (e.g., surface water) in certain areas within the Subsidence District's jurisdiction, including the area within the District. In 2005, the Texas legislature created the North Fort Bend Water Authority ("Authority") to, among other things, reduce groundwater usage in, and to provide surface water to, the northern portion of Fort Bend County. The Authority has entered into a Water Supply Contract with the City of Houston, Texas ("Houston") to obtain treated surface water from Houston. The Authority has developed a groundwater reduction plan ("GRP") and obtained Subsidence District approval of its GRP. The Authority's GRP sets forth the Authority's plan to comply with Subsidence District regulations, construct surface water facilities, and convert users participation from groundwater to alternate source water (e.g., surface water). The District has entered into a Groundwater Reduction Plan Agreement with the Authority, whereby the District will participate in the Authority's GRP, and the District's groundwater well(s) are included within the Authority's GRP. The District has also entered into a partial assignment with Fort Bend County Fresh Water Supply District No. 1 of its Groundwater Reduction Plan Participation Agreement with the Authority.

The District's authority to pump groundwater is subject to an annual permit issued by the Subsidence District to the Authority, which permit includes all groundwater wells that are included in the Authority's GRP. The Authority, among other powers, has the power to: (i) issue debt supported by the revenues pledged for the payment of its obligations; (ii) establish fees (including fees to be paid by the District for groundwater pumped by the District or for surface water received by the District from the Authority), user fees, rates, charges and special assessments as necessary to accomplish its purposes; and (iii) mandate water users, including the District, to convert from groundwater to surface water. The Authority is delivering surface water to Water Plant No. 1 and Water Plant No. 2 and it is anticipated that the Authority will provide the District with enough water for the average daily demand. The District will utilize its existing water wells as necessary to meet peak demands that exceed the amount of water supplied by the Authority. The Authority currently charges the District, and other major groundwater users, a fee per 1,000 gallons of groundwater pumped and a fee per 1,000 gallons of surface water received. Said fees may be increased by the Authority at any time. As of October 1, 2026, the Authority currently has $1,176,595,000 of revenue bonds outstanding and anticipates issuing substantial amounts of additional revenue bonds in the future to finance the Authority's project costs.

Under the Subsidence District regulations and the GRP, the Authority is required: (i) through the year 2026, to limit groundwater withdrawals to no more than 70% of the total annual water demand of the water users within the Authority's GRP; and (ii) beginning in the year 2027, to limit groundwater withdrawals to no more than 40% of the total annual water demand of the water users within the Authority's GRP. If the Authority fails to comply with the above Subsidence District regulations or its GRP, the Authority is subject to a disincentive fee penalty per 1,000 gallons ("Disincentive Fees") imposed by the Subsidence District for any groundwater withdrawn in excess of the total water demand in the Authority's GRP. In the event of such Authority failure to comply, the Subsidence District may also seek to collect Disincentive Fees from the District. If the District failed to comply with surface water conversion requirements mandated by the Authority, the Authority would likely impose monetary or other penalties against the District. If the District's Groundwater Reduction Plan Participation Agreement and related assignment expire, the District will need to comply with the Subsidence District's requirements independently or face Disincentive Fees.

The District cannot predict the amount or level of fees and charges, which may be due the Authority in the future, but anticipates the need to pass such fees through to its customers: (i) through higher water rates and/or (ii) with portions of maintenance tax proceeds, if any. In addition, conversion to surface water could necessitate improvements to the System which could require the issuance of additional bonds by the District. No representation is made that the Authority: (i) will build the necessary facilities to meet the requirements of the Subsidence District for conversion to surface water, (ii) will comply with the Subsidence District's surface water conversion requirements, or (iii) will comply with its GRP.

Wastewater Treatment

Wastewater treatment for the District is provided by a leased wastewater treatment plant with a capacity of 350,000 gallons per day ("g.p.d."). According to the District's Engineer, the aforementioned wastewater treatment facility contains capacity to provide service to 1,750 equivalent single-family connections upon completion of the expansion.

Storm Drainage

Storm Water drainage for the District generally drains through reinforced concrete storm sewer systems, open ditches, and detention basins that outfall into Chocolate Bayou.

100-Year Flood Plain

"Flood Insurance Rate Map" or "FIRM" means an official map of a community on which the Federal Emergency Management Agency (FEMA) has delineated the appropriate areas of flood hazards. The 1% chance of probable inundation, also known as the 100-year flood plain, is depicted on these maps. The "100-year flood plain" (or 1% chance of probable inundation) as shown on the FIRM is the estimated geographical area that would be flooded by a rain storm of such intensity to statistically have a one percent chance of occurring in any given year. Generally speaking, homes must be built above the 100-year flood plain in order to meet local regulatory requirements and to be eligible for federal flood insurance. An engineering or regulatory determination that an area is above the 100-year flood plain is not an assurance that homes built in such area will not be flooded, and a number of neighborhoods in the greater Houston area that are above the 100-year flood plain have flooded multiple times in the last several years. See "INVESTMENT CONSIDERATIONS - Extreme Weather Events."

According to the District's Engineer, the developable land located within the District is shown on the FIRM for Fort Bend County, Texas, No. 48039C0105 effective June 5, 1989. According to these maps, approximately 14.6 acres of the proposed developable land is shown to be located within the effective floodplain. When this portion of the District is developed, it will be removed from the floodplain by placement of fill above the flood plain elevation, and a Letter of Map Revision - Fill (LOMR-F) will be submitted to FEMA at that time.

The National Weather Service has completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation Frequency Atlas of the United States ("Atlas 14"). Floodplain boundaries within the District may be redrawn based on the Atlas 14 study based on a higher statistical rainfall amount, resulting in the application of more stringent floodplain regulations applying to a larger area and potentially leaving less developable property within the District. The application of such regulations could additionally result in higher insurance rates, increased development fees, and stricter building codes for any property located within the expanded boundaries of the floodplain. See "INVESTMENT CONSIDERATIONS - Extreme Weather Events."

INVESTMENT CONSIDERATIONS

General

The Bonds, which are obligations solely of the District and not of the State of Texas, Fort Bend County, Texas, the City of Arcola, Texas, or any political subdivision or agency other than the District, are secured by the proceeds an annual ad valorem tax, without legal limit as to rate or amount, levied upon all taxable property within the District. The ultimate security for payment of the principal of and interest on the Bonds depends upon the District's ability to collect from the property owners within the District taxes levied against all taxable property located within the District, or, in the event taxes are not collected and foreclosure proceedings are instituted by the District, upon the value of the taxable property with respect to taxes levied by the District and by other taxing authorities. The District makes no representation that over the life of the Bonds the taxable property within the District will maintain a value sufficient to justify continued payment of taxes by property owners or that there will be a market for any property if the District forecloses on property to enforce its tax lien. The potential increase in taxable valuation of District property is directly related to the economics of the residential housing industry, not only due to general economic conditions, but also due to the particular factors discussed below. Further, the collection of delinquent taxes owed the District, and the enforcement by a Registered Owner of the District's obligation to collect sufficient taxes may be costly and lengthy processes. See "Tax Collection Limitations" and "Registered Owners' Remedies and Bankruptcy" below and "THE BONDS - Source of Payment" and - "Registered Owners' Remedies."

Factors Affecting Taxable Values and Tax Payments

Economic Factors: The rate of development of the District is directly related to the vitality of the residential housing industry. New residential housing construction can be significantly affected by factors such as interest rates, construction costs, credit availability, energy availability and cost, and consumer demand. Decreased levels of home construction activity would restrict the growth of property values in the District. Fluctuations in the price of oil could adversely affect job stability, wages and salaries, thereby negatively affecting the demand for housing and the values of existing homes (see "Potential Effects of Oil Price Volatility on the Houston Area" below). Recent changes in federal tax law limiting deductions for ad valorem taxes may adversely affect the demand for housing and the prices thereof. Were the District to experience a significant number of residential foreclosures, the value of all homes within the District could be adversely affected. Although the development to the date hereof is as described in this Official Statement under the captions "DEVELOPMENT AND HOME CONSTRUCTION," "DEVELOPERS" and "BUILDERS," the District cannot predict the pace or magnitude of any future development or home construction in the District other than that which has occurred to date.

National Economy: The housing and building industry has historically been a cyclical industry, affected by both short-term and long-term interest rates, availability of mortgage and development funds, employment levels and general economic conditions. Although the development to the date hereof is as described in this Official Statement under the captions "DEVELOPMENT AND HOME CONSTRUCTION," "DEVELOPERS" and "BUILDERS," the District cannot predict the pace or magnitude of any future development or home construction in the District other than that which has occurred to date. The District cannot predict what impact, if any, a downturn in the local housing markets or a downturn

in the national housing and financial markets may have on the Houston market generally and the District specifically, or the maintenance of assessed values in the District. See "TAXING PROCEDURES."

Credit Markets and Liquidity in the Financial Markets: Interest rates and the availability of mortgage and development funding have a direct impact on development and homebuilding activity, particularly short-term interest rates at which developers are able to obtain financing for development costs and at which homebuilders are able to finance the construction of new homes for sale. Interest rate levels may affect the ability of a developer with undeveloped property to undertake and complete development activities within the District and of homebuilders to initiate the construction of new homes for sale. Because of the numerous and changing factors affecting the availability of funds, particularly liquidity in the national credit markets, the District is unable to assess the future availability of such funds for continued development and/or home construction within the District. In addition, since the District is located approximately 26 miles southwest of the central downtown business district of the City of Houston, the success of development within the District and growth of District taxable property values are, to a great extent, a function of the Houston metropolitan and regional economies and national credit and financial markets. A downturn in the economic conditions of Houston and further decline in real estate and financial markets in the United States could adversely affect development and homebuilding plans in the District and restrain the growth of the District's property tax base.

Developer/Builder/Landowner Obligation to the District: The ability of a developer (defined in this Official Statement under the caption "DEVELOPERS") or any other principal taxpayer within the District (see "TAX DATA - Principal 2026 Taxpayers") to make full and timely payments of taxes levied against its property by the District and similar taxing authorities will directly affect the District's ability to meet its debt service obligations. There is no commitment by or legal requirement of the Developers, or any other landowner to the District to proceed at any particular rate or according to any specified plan with the development of land in the District, or of the Builders or any other home building company to proceed at any particular pace with the construction of homes in the District, and there is no restriction on any landowner's right to sell its land. Therefore, the District can make no representation about the probability of future development, if any, or the rate of home construction activity in the District. See "FUTURE DEVELOPMENT."

Maximum Impact on District Tax Rates

The value of the land and improvements currently located within the District will be a major determinant of the ability of the District to collect, and the willingness of District property owners to pay, ad valorem taxes levied by the District. After issuance of the Bonds, the Maximum Annual Debt Service Requirement on the Bonds and the Outstanding Bonds will be $2,745,275 (2041) and the Average Annual Debt Service Requirements on the Bonds and the Outstanding Bonds will be $2,737,184 (2027 through 2056, inclusive). The District's 2026 Assessed Valuation of property located within the District is $353,749,557. Assuming no increase to nor decrease from the 2026 Assessed Valuation and the issuance of no additional bonds by the District, a tax rate $0.82 per $100 of Assessed Valuation at a 95% tax collection rate would be necessary to pay the Maximum Annual Debt Service Requirement and the Average Annual Debt Service Requirements. See "TAX DATA - Tax Rate Calculations."

The District has levied a debt service tax in the amount of $0.74 per $100 of Assessed Valuation for 2026, plus a maintenance tax of $0.28 per $100 of Assessed Valuation. As the above calculations indicate, the 2026 debt service tax rate will not be sufficient to pay the average annual and the maximum annual debt service requirement on the Bonds and the Outstanding Bonds given taxable values in the District at the level of the 2026 Assessed Valuation, assuming the District will have a tax collection rate of 95%, no use of District funds on hand other than tax collections for such purpose, and the issuance of no additional bonds by the District other than the Bonds and the Prior Bonds. See "TAXING PROCEDURES." However, as is illustrated in this Official Statement under the caption "TAX DATA - Historical Values and Tax Collection History," the District had collected an average of 99.97% of its 2015 through 2024 tax levies as of August 31, 2026, and its 2025 tax levy was 98.84% collected as of such date. Moreover, the District's Debt Service Fund balance was $2,507,865 as of September 21, 2026. Although neither Texas law nor the Bond Resolution requires that any specific amount be retained in the Debt Service Fund at any time, the District has in the past applied earnings from the investment of monies held in the Debt Service Fund to meet the debt service requirements of the Prior Bonds (see "APPENDIX B - ANNUAL FINANCIAL REPORT"). Therefore, given these factors and the development of single-family lots that are currently under development by the Developers within the District and the anticipated construction by the Builders of homes on single-family residential lots that have been developed within the District (see "DEVELOPERS" and "BUILDERS"), the District anticipates that it will be able to meet the debt service requirements on the Bonds and the Outstanding Bonds without increasing the tax rate for debt service above the debt service rate which the District has levied for 2026 - $0.74 per $100 of Assessed Valuation. However, the District can make no representation that the taxable

property values in the District will increase in the future or will maintain a value sufficient to support the aforementioned tax rate or to justify continued payment of taxes by property owners. See "Factors Affecting Taxable Values and Tax Payments" above and "TAXING PROCEDURES." In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "Future Debt" below and "FUTURE DEVELOPMENT."

As is enumerated in this Official Statement under the caption "TAX DATA - Estimated Overlapping Taxes," the aggregate of the 2026 tax levies of all overlapping taxing units which levy taxes upon property located in the District, plus the District's 2026 rate, is $2.5339 per $100 of Assessed Valuation. Such aggregate levy is higher than the aggregate tax levies of many municipal utility districts in the Houston metropolitan area, including the area of the District, but is within the range of the aggregate levies of many municipal utility districts in the Houston metropolitan area and the area of the District which are in stages of development comparable with the District. To the extent that such composite tax rates are not competitive with competing developments, the growth of property tax values in the District and the investment quality or security of the Bonds could be adversely affected.

Increases in the District's tax rate to substantially higher levels than the total rate of $1.02 per $100 of Assessed Valuation that the District levied for 2026 may have an adverse impact upon future development of the District, the construction of homes within the District, and the ability of the District to collect, and the willingness of owners of property located within the District to pay, ad valorem taxes levied by the District. In addition, the collection by the District of delinquent taxes owed to it and the enforcement by a Registered Owner of the District's obligations to collect sufficient taxes may be a costly and lengthy process. See "THE BONDS - Registered Owners' Remedies," "TAX DATA - Estimated Overlapping Taxes" and "TAXING PROCEDURES."

Tax Collection Limitations

The District's ability to make debt service payments may be adversely affected by its inability to collect ad valorem taxes. Under Texas law, the levy of ad valorem taxes by the District constitutes a lien in favor of the District on a parity with the liens of all other taxing authorities on the property against which taxes are levied, and such lien may be enforced by judicial foreclosure. The District's ability to collect ad valorem taxes through such foreclosure may be impaired by (a) cumbersome, time consuming and expensive collection procedures, (b) a bankruptcy court's stay of tax collection procedures against a taxpayer, (c) market conditions affecting the marketability of taxable property within the District and limitation of the proceeds from a foreclosure sale of such property, (d) adverse effects on the proceeds of a foreclosure sale resulting from a taxpayer's limited right to redeem its foreclosed property as set forth below, or (e) insufficient foreclosure bids to satisfy the tax liens of all local taxing authorities which have parity liens on the property. While the District has a lien on taxable property within the District for taxes levied against such property, such lien can be foreclosed only in a judicial proceeding. Moreover, the value of the property to be sold for delinquent taxes and thereby the potential sales proceeds available to pay debt service on the Bonds, may be limited by among other factors, the existence of other tax liens on the property, by the current aggregate tax rate being levied against the property, or by the taxpayers' right to redeem residential or agricultural use property within two (2) years of foreclosure and all other property within six (6) months of foreclosure. See "TAXING PROCEDURES."

Registered Owners' Remedies and Bankruptcy

In the event of default in the payment of principal of or interest on the Bonds, the Registered Owners have a right to seek a writ of mandamus requiring the District to levy adequate taxes each year to make such payments. Except for mandamus, the Bond Resolution does not provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Statutory language authorizing local governments such as the District to sue and be sued does not waive the local government's sovereign immunity from suits for money damages, so that in the absence of other waivers of such immunity by the Texas legislature, a default by the District in its covenants in the Bond Resolution may not be reduced to a judgement for money damages. Even if Registered Owners could obtain a judgment against the District, such a judgment could not be enforced by a direct levy and execution against the District's property. Further, the Registered Owners cannot themselves foreclose on property within the District or sell property within the District in order to pay the principal of and interest on the Bonds. Since there is no trust indenture or trustee, the Registered Owners would have to initiate and finance the legal process to enforce their remedies.

The enforceability of the rights and remedies of the Registered Owners may be further limited by laws relating to bankruptcy, reorganization or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. In this regard, should the District file a petition for protection from creditors under federal bankruptcy laws, a suit seeking the remedy of mandamus would be automatically stayed and could not be pursued unless authorized by a federal bankruptcy judge. See "THE BONDS - Registered Owners' Remedies" and - "Bankruptcy Limitations to Registered Owners' Rights."

The District may not be placed into bankruptcy involuntarily.

Marketability

The District has no understanding (other than the initial reoffering yields) with the Underwriter regarding the reoffering yields or prices of the Bonds and has no control over the trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made for the Bonds. If there is a secondary market, the difference between the bid and asked price of the Bonds may be greater than the bid and asked spread of other bonds generally bought, sold, or traded in the secondary market. See "SALE AND DISTRIBUTION OF THE BONDS."

Future Debt

The District reserves in the Bond Resolution the right to issue the remaining $35,415,000 in unlimited tax bonds authorized but unissued for the purpose of acquiring or constructing waterworks, wastewater and drainage facilities, the $4,680,000 for parks and recreational facilities, the $52,600,000 for refunding purposes, and such additional bonds as may hereafter be approved by the voters of the District. All of the remaining bonds described above which have heretofore been authorized by the voters of the District may be issued by the District from time to time as needed. The issuance of such $35,415,000 in bonds for waterworks, wastewater and drainage facilities and $4,860,000 for parks and recreational facilities is subject to TCEQ approval. In addition to the components of the System that the District has financed with the proceeds of the sale of the Prior Bonds, and is financing with portions of the proceeds of the sale of the Bonds (see "THE BONDS - Use and Distribution of Bond Proceeds" and "THE SYSTEM"), the District expects to finance the acquisition or construction of additional components of the System with portions of the proceeds of the sale of bonds, if any, in the future. See "THE BONDS - Issuance of Additional Debt" and "FUTURE DEVELOPMENT."

As is stated above, the District is authorized by statute to develop parks and recreational facilities, including the issuance of bonds payable from taxes for such purpose. Before the District could issue park bonds payable from taxes, the following actions would be required: (a) approval of the park plan and bonds by the TCEQ; and (b) approval of the bonds by the Attorney General of Texas. If the District does issue park bonds, the outstanding principal amount of such bonds may not exceed an amount equal to one percent of the value of the taxable property in the District, unless, effective June 14, 2021, the District meets certain financial feasibility requirements under the TCEQ rules, in which case the outstanding principal amount of such bonds issued by the District may exceed an amount equal to one percent but not more than three percent of the value of the taxable property in the District. On November 2, 2004, the District authorized $4,680,000 in bonds for parks and recreational facilities, all of which currently remain unissued.

Pursuant to Chapter 54 of the Texas Water Code, a municipal utility district may petition the TCEQ for the power to issue bonds supported by property taxes to finance roads under the authority of Article III, Section 52 of the Texas Constitution. Before the District could issue such bonds, the District would be required to receive: (i) obtain consent from the City of Arcola; (ii) receive a grant of such power from the TCEQ; (iii) receive authorization from the District's voters to issue such bonds; and (iv) receive approval of the bonds by the Attorney General of Texas. The District has considered filing an application to the TCEQ for "road powers," but first will request the City of Arcola's consent to construct roads and have the authority to issue road bonds. The District has not submitted such a request to the City of Arcola at this time. Issuance of bonds for roads could dilute the investment security for the Bonds.

The District's Engineer currently estimates that the aforementioned $35,415,000 authorized bonds which will remain unissued will be adequate to finance the construction of all waterworks, wastewater, and drainage facilities to provide service to all of the currently undeveloped portions of the District. See "Maximum Impact on District Tax Rates" above, "THE BONDS," "DEVELOPMENT AND HOME CONSTRUCTION," "FUTURE DEVELOPMENT," and "THE

SYSTEM." If additional bonds are issued in the future and property values have not increased proportionately, such issuance might increase gross debt/property valuation ratios and thereby adversely affect the investment quality or security of the Bonds. See "THE BONDS - Issuance of Additional Debt."

Competitive Nature of Houston Residential Housing Market

The housing industry in the Houston metropolitan area is very competitive, and the District can give no assurance that the building programs which are planned by the Builders or any future home builder(s) will be continued or completed. The respective competitive positions of the Developers and the Builders and any other developer(s) or home builder(s) which might attempt future development or home building projects in the District in the sale of developed lots or in the construction and sale of single family residential units are affected by most of the factors discussed in this section, and such competitive positions are directly related to tax revenues received by the District and the growth and maintenance of taxable values in the District.

Approval of the Bonds

The Attorney General of Texas must approve the legality of the Bonds prior to their delivery. The Attorney General of Texas does not pass upon or guarantee the security of the Bonds as an investment, or the adequacy or accuracy of the information contained in this Official Statement.

Continuing Compliance with Certain Covenants

The Bond Resolution contains covenants by the District intended to preserve the exclusion from gross income of interest on the Bonds for federal income tax purposes. Failure of the District to comply with such covenants on a continuous basis prior to maturity of the Bonds could result in interest on the Bonds becoming taxable retroactively to the date of original issuance. See "TAX MATTERS."

Environmental Regulations

Wastewater treatment, water supply, storm sewer facilities and construction activities within the District are subject to complex environmental laws and regulations at the federal, state and local levels that may require or prohibit certain activities that affect the environment, such as:

- Requiring permits for construction and operation of water wells, wastewater treatment and other facilities;
- Restricting the manner in which wastes are treated and released into the air, water and soils;
- Restricting or regulating the use of wetlands or other properties; or
- Requiring remedial action to prevent or mitigate pollution.

Sanctions against a municipal utility district or other type of special purpose district for failure to comply with environmental laws and regulations may include a variety of civil and criminal enforcement measures, including assessment of monetary penalties, imposition of remedial requirements and issuance of injunctions to ensure future compliance. Environmental laws and compliance with environmental laws and regulations can increase the cost of planning, designing, constructing and operating water production and wastewater treatment facilities. Environmental laws can also inhibit growth and development within the District. Further, changes in regulations occur frequently, and any changes that result in more stringent and costly requirements could materially impact the District.

Air Quality Issues. Air quality control measures required by the United States Environmental Protection Agency (the "EPA") and the Texas Commission on Environmental Quality (the "TCEQ") may impact new industrial, commercial and residential development in the Houston area. Under the Clean Air Act ("CAA") Amendments of 1990, the eight-county Houston-Galveston-Brazoria area ("HGB Area")—Harris, Galveston, Brazoria, Chambers, Fort Bend, Waller, Montgomery and Liberty Counties—has been designated a nonattainment area under two separate federal ozone standards: the eight-hour ozone standard of 75 ppb promulgated by the EPA in 2008 (the "2008 Ozone Standard"), and the EPA's most-recent promulgation of an even lower, 70 ppb eight-hour ozone standard in 2015 (the "2015 Ozone Standard"). While the State of Texas has been able to demonstrate steady progress and improvements in air quality in the HGB Area, the HGB Area remains subject to CAA nonattainment requirements.

The HGB Area is currently designated as a "severe" nonattainment area under the 2008 Ozone Standard, with an attainment deadline of July 20, 2027. If the EPA ultimately determines that the HGB Area has failed to meet the attainment deadline based on the relevant data, the area is subject to reclassification to a nonattainment classification that provides for more stringent controls on emissions from the industrial sector. In addition, the EPA may impose a moratorium on the awarding of federal highway construction grants and other federal grants for certain public works construction projects if it finds that an area fails to demonstrate progress in reducing ozone levels.

The HGB Area is currently designated as a "serious" nonattainment area under the 2015 Ozone Standard, with an attainment deadline of August 3, 2027. For purposes of the 2015 Ozone Standard, the HGB Area consists of only six counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, and Montgomery Counties.

In order to demonstrate progress toward attainment of the EPA's ozone standards, the TCEQ has established a state implementation plan ("SIP") for the HGB Area setting emission control requirements, some of which regulate the inspection and use of automobiles. These types of measures could impact how people travel, what distances people are willing to travel, where people choose to live and work, and what jobs are available in the HGB Area. These SIP requirements can negatively impact business due to the additional permitting/regulatory constraints that accompany this designation and because of the community stigma associated with a nonattainment designation. It is possible that additional controls will be necessary to allow the HGB Area to reach attainment with the ozone standards by the EPA's attainment deadlines. These additional controls could have a negative impact on the HGB Area's economic growth and development.

Water Supply & Discharge Issues. Water supply and discharge regulations that municipal utility districts, including the District, may be required to comply with involve: (1) groundwater well permitting and surface water appropriation; (2) public water supply systems; (3) wastewater discharges from treatment facilities; (4) storm water discharges; and (5) wetlands dredge and fill activities. Each of these is addressed below:

Certain governmental entities regulate groundwater usage in the HGB Area. A municipal utility district or other type of special purpose district that (i) is located within the boundaries of such an entity that regulates groundwater usage, and (ii) relies on local groundwater as a source of water supply, may be subject to requirements and restrictions on the drilling of water wells and/or the production of groundwater that could affect both the engineering and economic feasibility of district water supply projects.

Pursuant to the federal Safe Drinking Water Act ("SDWA") and the EPA's National Primary Drinking Water Regulations ("NPDWRs"), which are implemented by the TCEQ's Water Supply Division, a municipal utility district's provision of water for human consumption is subject to extensive regulation as a public water system. Municipal utility districts must generally provide treated water that meets the primary and secondary drinking water quality standards adopted by the TCEQ, the applicable disinfectant residual and inactivation standards, and the other regulatory action levels established under the agency's rules. The EPA has established NPDWRs for more than ninety (90) contaminants and has identified and listed other contaminants which may require national drinking water regulation in the future. Further, the EPA has established a NPDWR for six (6) Per- and Polyflouroalkyl Substances ("PFAS"), which requires public water systems to perform certain monitoring and remediation measures. Public water systems may be subject to additional PFAS regulation in the future, which could increase the cost of constructing, operating, and maintaining water production and distribution facilities.

Texas Pollutant Discharge Elimination System ("TPDES") permits set limits on the type and quantity of discharge, in accordance with state and federal laws and regulations. The TCEQ reissued the TPDES Construction General Permit (TXR150000) ("CGP"), with an effective date of March 5, 2023, which is a general permit authorizing the discharge of stormwater runoff associated with small and large construction sites and certain non-stormwater discharges into surface water in the state. The CGP has a 5-year permit term, and is then subject to renewal. Moreover, the Clean Water Act ("CWA") and Texas Water Code require municipal wastewater treatment plants to meet secondary treatment effluent limitations and more stringent water quality-based limitations and requirements to comply with the Texas water quality standards. Any water quality-based limitations and requirements with which a municipal utility district must comply may have an impact on the municipal utility district's ability to obtain and maintain compliance with TPDES permits.

The District is subject to the TCEQ's General Permit for Phase II (Small) Municipal Separate Storm Sewer Systems (the "MS4 Permit"), which was issued by the TCEQ on August 15, 2024. The MS4 Permit authorizes the discharge of stormwater to surface water in the state from small municipal separate storm sewer systems. The has applied for coverage under the MS4 Permit and received coverage under the MS4 Permit from the TCEQ. In order to maintain compliance with the MS4 Permit, the District continues to develop, implement, and maintain the required plans, as well as to install or implement best management practices to minimize or eliminate unauthorized pollutants that may otherwise be found in stormwater runoff. Costs associated with these compliance activities could be substantial in the future.

Operations of utility districts, including the District, are also potentially subject to requirements and restrictions under the CWA regarding the use and alteration of wetland areas that are within the "waters of the United States." The District must obtain a permit from the United States Army Corps of Engineers ("USACE") if operations of the District require that wetlands be filled, dredged, or otherwise altered.

In 2023, the Supreme Court of the United States issued its decision in *Sackett v. EPA*, which clarified the definition of "waters of the United States" and significantly restricted the reach of federal jurisdiction under the CWA. Under the *Sackett* decision, "waters of the United States" includes only geographical features that are described in ordinary parlance as "streams, oceans, rivers, and lakes" and to adjacent wetlands that are indistinguishable from such bodies of water due to a continuous surface connection. Subsequently, the EPA and USACE issued a final rule amending the definition of "waters of the United States" under the CWA to conform with the Supreme Court's decision.

While the *Sackett* decision and subsequent regulatory action removed a great deal of uncertainty regarding the ultimate scope of "waters of the United States" and the extent of EPA and USACE jurisdiction, operations of municipal utility districts, including the District, could potentially be subject to additional restrictions and requirements, including additional permitting requirements, in the future.

Extreme Weather Events

The greater Houston area, including the District, is subject to occasional severe weather events, including tropical storms and hurricanes. If the District were to sustain damage to its facilities requiring substantial repair or replacement, or if substantial damage were to occur to taxable property within the District as a result of such a weather event, the investment security of the Bonds could be adversely affected.

The greater Houston area, including the District, has experienced multiple storms exceeding a 0.2% probability (i.e., "500 year flood" events) since 2015, including Hurricane Harvey, which made landfall along the Texas Gulf Coast on August 26, 2017, and brought historic levels of rainfall during the successive four days. However, according to the District's Operator and Engineer, the District's System did not sustain any material damage and there was no interruption of water and sewer service as a result of Hurricane Harvey. Further, according to the District's Engineer, after investigation, although the District experienced street flooding, there was no apparent material wind or water damage to homes within the District as a result of Hurricane Harvey.

If a future weather event significantly damaged all or part of the improvements within the District, the assessed value of property within the District could be substantially reduced, which could result in a decrease in tax revenues and/or necessitate an increase in the District's tax rate. Further, there can be no assurance that a casualty loss to taxable property within the District will be covered by insurance (or that property owners will even carry flood or other casualty insurance), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild or repair any damaged improvements within the District. Even if insurance proceeds are available and improvements are rebuilt, there could be a lengthy period in which assessed values within the District could be adversely affected.

Ponding, or pluvial, flooding occurs when heavy rainfall creates a flood event independent of an overflowing water body, typically in relatively flat areas. Intense rainfall can exceed the drainage capacity of a drainage system, which may result in water within the drainage system becoming trapped and diverted onto streets and nearby property until it is able to reach a natural outlet. Ponding can also occur in a flood pool upstream or behind a dam, levee or reservoir.

Potential Effects of Oil Price Volatility on the Houston Area

The economy of the Houston area has, in the past, been particularly affected by adverse conditions in the oil and gas industry, and such conditions and their spillover effects into other industries could result in declines in the demand for residential and commercial property in the Houston area and could reduce or negatively affect property values or homebuilding activity within the District. The District cannot predict the impact that negative conditions in the oil industry could have on property values in the District.

LEGAL MATTERS

Legal Opinions

Delivery of the Bonds will be accompanied by the approving legal opinion of the Attorney General of Texas to the effect that the Bonds are valid and legally binding obligations of the District under the Constitution and laws of the State of Texas, payable from the proceeds of an annual ad valorem tax levied, without legal limitation as to rate or amount, upon all taxable property within the District, and, based upon their examination of a transcript of certified proceedings relating to the issuance and sale of the Bonds, the approving legal opinion of Bond Counsel to a like effect and to the effect that, under existing law, interest on the Bonds (i) is excludable from gross income for federal income tax purposes under section 103 of the Code (as defined herein), and (ii) is not an item of tax preference for purposes of the alternative minimum tax on individuals.

Bond Counsel has reviewed the information appearing in this Official Statement under "THE BONDS," (except for the information under the subheadings "Book-Entry-Only System" and "Use and Distribution of Bond Proceeds"), "THE DISTRICT - Utility Agreement," - "Management of the District - Bond Counsel and General Counsel," "TAXING PROCEDURES," "LEGAL MATTERS - Legal Opinions", "TAX MATTERS" and "CONTINUING DISCLOSURE OF INFORMATION" solely to determine whether such information, insofar as it relates to matters of law, is true and correct and whether such information fairly summarizes matters of law and the provisions of the documents referred to therein. Bond Counsel has not, however, independently verified any of the factual information contained in this Official Statement nor has either conducted an investigation of the affairs of the District for the purpose of passing upon the accuracy or completeness of this Official Statement. No person is entitled to rely upon Bond Counsel's limited participation as an assumption of responsibility for or an expression of opinion of any kind with regard to the accuracy or completeness of any information contained herein, other than the matters discussed immediately above.

Allen Boone Humphries Robinson LLP also serves as general counsel to the District on matters other than the issuance of bonds. The legal fees paid to Bond Counsel for services rendered in connection with the issuance of the Bonds are based on a percentage of the bonds actually issued, sold, and delivered and, therefore, such fees are contingent upon the sale and delivery of the Bonds.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

No-Litigation Certificate

The District will furnish the Underwriter a certificate, executed by \members of the Board, and dated as of the date of delivery of the Bonds, that, to their knowledge, no litigation is pending or threatened affecting the validity of the Bonds, or the levy and/or collection of taxes for the payment thereof, or the organization or boundaries of the District, or the title of the officers thereof to their respective offices.

No Material Adverse Change

The obligations of the Underwriters to take up and pay for the Bonds, and of the District to deliver the Bonds, are subject to the condition that, up to the time of delivery of and receipt of payment for the Bonds, there shall have been no material adverse change in the financial condition of the District subsequent to the date of sale from that set forth in the Preliminary Official

Statement, as it may have been finalized, supplemented or amended through the date of sale. The rating of the Insurer's creditworthiness by any rating agency does not and will not in any manner affect the District's financial condition, and thus any change to such rating, including a downgrade thereof, at any time, does not and will not constitute a change, material or otherwise, in the District's financial condition, and therefore cannot be a basis for termination by the Underwriter of its obligations to take up and pay for the Bonds.

TAX MATTERS

The following discussion of certain federal income tax considerations is for general information only and is not tax advice. Each prospective purchaser of the Bonds should consult its own tax advisor as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

Tax Exemption

In the opinion of Allen Boone Humphries Robinson LLP, Bond Counsel, under existing law, interest on the Bonds (i) is excludable from gross income for federal income tax purposes under section 103 of the Internal Revenue Code of 1986, as amended (the "Code"), and (ii) is not an item of tax preference for purposes of the alternative minimum tax on individuals.

The Code imposes a number of requirements that must be satisfied for interest on state or local obligations, such as the Bonds, to be excludable from gross income for federal income tax purposes. These requirements include limitations on the use of bond proceeds and the source of repayment of bonds, limitations on the investment of bond proceeds prior to expenditure, a requirement that excess arbitrage earned on the investment of bond proceeds be paid periodically to the United States and a requirement that the issuer file an information report with the Internal Revenue Service (the "Service"). The District has covenanted in the Bond Resolution that it will comply with these requirements.

Bond Counsel's opinion will assume continuing compliance with the covenants of the Bond Resolution pertaining to those sections of the Code that affect the excludability of interest on the Bonds from gross income for federal income tax purposes and, in addition, will rely on representations by the District and other parties involved with the issuance of the Bonds with respect to matters solely within the knowledge of the District and such parties, which Bond Counsel has not independently verified. If the District fails to comply with the covenants in the Bond Resolution or if the foregoing representations are determined to be inaccurate or incomplete, interest on the Bonds could become includable in gross income from the date of delivery of the Bonds, regardless of the date on which the event causing such inclusion occurs.

Bond Counsel will express no opinion as to the amount or timing of interest on the Bonds or, except as stated above, any federal, state or local tax consequences resulting from the receipt or accrual of interest on, or acquisition, ownership or disposition of, the Bonds. Certain actions may be taken or omitted subject to the terms and conditions set forth in the Bond Resolution upon the advice or with the approving opinion of Bond Counsel. Bond Counsel will express no opinion with respect to Bond Counsel's ability to render an opinion that such actions, if taken or omitted, will not adversely affect the excludability of interest of the Bonds from gross income for federal income tax purposes.

Bond Counsel's opinions are based on existing law, which is subject to change. Such opinions are further based on Bond Counsel's knowledge of facts as of the date thereof. Bond Counsel assumes no duty to update or supplement its opinions to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention or to reflect any changes in any law that may thereafter occur or become effective. Moreover, Bond Counsel's opinions are not a guarantee of result and are not binding on the Service; rather, such opinions represent Bond Counsel's legal judgment based upon its review of existing law and in reliance upon the representations and covenants referenced above that it deems relevant to such opinions. The Service has an ongoing audit program to determine compliance with rules that relate to whether interest on state or local obligations is includable in gross income for federal income tax purposes. No assurance can be given as to whether the Service will commence an audit of the Bonds. If an audit is commenced, in accordance with its current published procedures the Service is likely to treat the District as the taxpayer, and the Owners of the Bonds may not have a right to participate in such audit. Public awareness of any future audit of the Bonds could adversely affect the value and liquidity of the Bonds, regardless of the ultimate outcome of the audit.

Qualified Tax-Exempt Obligations

The Code requires a pro rata reduction in the interest expense deduction of a financial institution to reflect such financial institution's investment in tax-exempt obligations acquired after August 7, 1986. An exception to the foregoing provision is provided in the Code for "qualified tax-exempt obligations," which include tax-exempt obligations, such as the Bonds, (a) designated by the issuer as "qualified tax-exempt obligations" and (b) issued by or on behalf of a political subdivision for which the aggregate amount of tax-exempt obligations (not including private activity bonds other than qualified 501(c)(3) bonds) to be issued during the calendar year is not expected to exceed $10,000,000.

The District will designate the Bonds "qualified tax-exempt obligations" and has represented that the aggregate amount of tax-exempt bonds (including the Bonds) issued by the District and entities aggregated with the District under the Code during calendar year 2026 is not expected to exceed $10,000,000 and that the District and entities aggregated with the District under the Code have not designated more than $10,000,000 in "qualified tax-exempt obligations" (including the Bonds) during calendar year 2026.

Notwithstanding these exceptions, financial institutions acquiring the Bonds will be subject to a 20 percent disallowance of allocable interest expense.

Additional Federal Income Tax Considerations

Collateral Tax Consequences: Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences, including but not limited to those noted below. Therefore, prospective purchasers of the Bonds should consult their own tax advisors as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

An “applicable corporation” (as defined in section 59(k) of the Code) may be subject to a 15 percent alternative minimum tax imposed under section 55 of the Code on its “adjusted financial statement income” (as defined in section 56A of the Code) for such taxable year. Because interest on tax-exempt obligations, such as the Bonds, is included in a corporation’s “adjusted financial statement income,” ownership of the Bonds could subject certain corporations to alternative minimum tax consequences.

Ownership of tax-exempt obligations also may result in collateral federal income tax consequences to financial institutions, life insurance and property and casualty insurance companies, certain S corporations with Subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, low and middle income taxpayers otherwise qualifying for the health insurance premium assistance credit and individuals otherwise qualifying for the earned income tax credit. In addition, certain foreign corporations doing business in the United States may be subject to the “branch profits tax” on their effectively connected earnings and profits, including tax-exempt interest such as interest on the Bonds.

Prospective purchasers of the Bonds should also be aware that, under the Code, taxpayers are required to report on their returns the amount of tax-exempt interest, such as interest on the Bonds, received or accrued during the year.

Tax Accounting Treatment of Original Issue Premium: If the issue price of any maturity of the Bonds exceeds the stated redemption price payable at maturity of such Bonds, such Bonds (the “Premium Bonds”) are considered for federal income tax purposes to have “bond premium” equal to the amount of such excess. The basis of a Premium Bond in the hands of an initial owner is reduced by the amount of such excess that is amortized during the period such initial owner holds such Premium Bond in determining gain or loss for federal income tax purposes. This reduction in basis will increase the amount of any gain or decrease the amount of any loss recognized for federal income tax purposes on the sale or other taxable disposition of a Premium Bond by the initial owner. No corresponding deduction is allowed for federal income tax purposes for the reduction in basis resulting from amortizable bond premium. The amount of bond premium on a Premium Bond that is amortizable each year (or shorter period in the event of a sale or disposition of a Premium Bond) is determined using the yield to maturity on the Premium Bond based on the initial offering price of such Premium Bond.

The federal income tax consequences of the purchase, ownership and redemption, sale or other disposition of Premium Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of Premium Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of amortized bond premium upon the redemption, sale or other disposition of a Premium Bond and with respect to the federal, state, local, and foreign tax consequences of the purchase, ownership, and sale, redemption or other disposition of such Premium Bonds.

Tax Accounting Treatment of Original Issue Discount: If the issue price of any maturity of the Bonds is less than the stated redemption price payable at maturity of such Bonds (the "OID Bonds"), the difference between (i) the amount payable at the maturity of each OID Bond, and (ii) the initial offering price to the public of such OID Bond constitutes original issue discount with respect to such OID Bond in the hands of any owner who has purchased such OID Bond in the initial public offering of the Bonds. Generally, such initial owner is entitled to exclude from gross income (as defined in section 61 of the Code) an amount of income with respect to such OID Bond equal to that portion of the amount of such original issue discount allocable to the period that such OID Bond continues to be owned by such owner. Because original issue discount is treated as interest for federal income tax purposes, the discussions regarding interest on the Bonds under the captions "TAX MATTERS – Tax Exemption" and "TAX MATTERS – Additional Federal Income Tax Considerations – Collateral Tax Consequences" and "—Tax Legislative Changes" generally apply and should be considered in connection with the discussion in this portion of the Official Statement.

In the event of the redemption, sale or other taxable disposition of such OID Bond prior to stated maturity, however, the amount realized by such owner in excess of the basis of such OID Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such OID Bond was held by such initial owner) is includable in gross income.

The foregoing discussion assumes that (i) the Underwriter has purchased the Bonds for contemporaneous sale to the public and (ii) all of the OID Bonds have been initially offered, and a substantial amount of each maturity thereof has been sold, to the general public in arm's-length transactions for a price (and with no other consideration being included) not more than the initial offering prices thereof stated on the inside cover page of this Official Statement. Neither the District nor Bond Counsel has made any investigation or offers any assurance that the OID Bonds will be offered and sold in accordance with such assumptions.

Under existing law, the original issue discount on each OID Bond accrues daily to the stated maturity thereof (in amounts calculated as described below for each six-month period ending on the date before the semiannual anniversary dates of the date of the Bonds and ratably within each such six-month period) and the accrued amount is added to an initial owner's basis for such OID Bond for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (i) the sum of the issue price and the amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (ii) the amounts payable as current interest during such accrual period on such Bond.

The federal income tax consequences of the purchase, ownership, and redemption, sale or other disposition of OID Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of OID Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of interest accrued upon redemption, sale or other disposition of such OID Bonds and with respect to the federal, state, local and foreign tax consequences of the purchase, ownership, redemption, sale or other disposition of such OID Bonds.

Tax Legislative Changes: Current law may change so as to directly or indirectly reduce or eliminate the benefit of the excludability of interest on the Bonds from gross income for federal income tax purposes. Any proposed legislation, whether or not enacted, could also affect the value and liquidity of the Bonds. Prospective purchasers of the Bonds should consult with their own tax advisors with respect to any recently enacted, proposed, pending or future legislation.

OFFICIAL STATEMENT

General

The information contained in this Official Statement has been obtained primarily from the District's records, the Engineer, the Developers, the Tax Assessor/Collector and other sources believed to be reliable; however, no representation is made by the District as to the accuracy or completeness of the information contained herein, except as described below under "Certification as to Official Statement." The summaries of the statutes, resolutions and engineering and other related reports set forth herein are included subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions and reference is made to such documents for further information.

The District's financial statements for the fiscal year ended June 30, 2025, were audited by McCall Gibson Swedlund Barfoot Ellis PLLC and have been included herein as "APPENDIX B."

Experts

The information contained in the Official Statement relating to engineering and to the description of the System, and, in particular, that engineering information included in the sections entitled "THE BONDS - Use and Distribution of Bond Proceeds," "THE DISTRICT" and "THE SYSTEM" has been provided by R. G. Miller Engineers, Inc. and has been included herein in reliance upon the authority of said firm as experts in the field of civil engineering.

The information contained in the Official Statement relating to assessed valuations of property generally and, in particular, that information concerning collection rates and valuations contained in the sections captioned "TAX DATA" and "DISTRICT DEBT" was provided by Assessments of the Southwest, Inc. and the Appraisal District. Such information has been included herein in reliance upon the authority of Assessments of the Southwest, Inc. as an expert in the field of tax collection and the Appraisal District's authority as an expert in the field of tax assessing.

Certification as to Official Statement

The District, acting by and through its Board of Directors in its official capacity and in reliance upon the experts listed above, hereby certifies, as of the date hereof, that to the best of its knowledge and belief, the information, statements and descriptions pertaining to the District and its affairs herein contain no untrue statements of a material fact and do not omit to state any material fact necessary to make the statements herein, in light of the circumstances under which they were made, not misleading. The information, descriptions and statements concerning entities other than the District, including particularly other governmental entities, have been obtained from sources believed to be reliable, but the District has made no independent investigation or verification of such matters and makes no representation as to the accuracy or completeness thereof.

Updating of Official Statement

If, subsequent to the date of the Official Statement, to and including the date the Underwriter is no longer required to provide an Official Statement to customers who request same pursuant to Rule 15c2-12 of the United States Securities and Exchange Commission (the "SEC"), the District learns, or is notified by the Underwriter, of any adverse event which causes the Official Statement to be materially misleading, and unless the Underwriter elects to terminate its obligation to purchase the Bonds, the District will promptly prepare and supply to the Underwriter an appropriate amendment or supplement to the Official Statement satisfactory to the Underwriter; provided, however, that the obligation of the District to so amend or supplement the Official Statement will terminate upon the earlier of (i) 90 days after the "end of the underwriting period" as defined in SEC Rule 15c2-12 or (ii) the date the Official Statement is filed with the MSRB (hereinafter defined), but in no case less than 25 days after the "end of the underwriting period."

Official Statement "Deemed Final"

For purposes of compliance with Rule 15c2-12 of the SEC, this document, as the same may be supplemented or corrected by the District from time to time, may be treated as an "official statement" with respect to the Bonds described herein "deemed final" by the District as of the date hereof (or of any such supplement or correction) except for the omission of certain information referred to in the succeeding paragraph.

The Official Statement, when further supplemented by adding information specifying the interest rates and certain other information relating to the Bonds, shall constitute a "final official statement" of the District with respect to the Bonds, as that term is defined in Rule 15c2-12.

CONTINUING DISCLOSURE OF INFORMATION

In the Bond Resolution, the District has the following agreement for the benefit of the holders and beneficial owners of the Bonds. The District is required to observe the agreement for so long as it remains obligated to advance funds to pay the Bonds. Under the agreement, the District will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified events, to the Municipal Securities Rulemaking Board ("MSRB") through the MSRB's Electronic Municipal Market Access ("EMMA") system.

Annual Reports

The District will provide certain updated financial information and operating data to the MSRB annually. The information to be updated includes all quantitative financial information and operating data with respect to the District of the general type included in this Official Statement under the headings "DISTRICT DEBT" and "TAX DATA" and in "APPENDIX B" (the Audit). The District will update and provide this information within six months after the end of each fiscal year ending in or after 2026.

The District may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by SEC Rule 15c2-12. The updated information will include audited financial statements, if the District's audit is completed by the required time. If audited financial statements are not available by the required time, the District will provide unaudited financial statements within the required time, and audited financial statements when the audit report becomes available. Any such financial statements will be prepared in accordance with the accounting principles described in the Bond Resolution or such other accounting principles as the District may be required to employ from time to time pursuant to state law or regulation.

The District's current fiscal year end is June 30. Accordingly, it must provide updated information by December 31 in each year, unless the District changes its fiscal year. If the District changes its fiscal year, it will notify the MSRB of the change.

Event Notices

The District will provide timely notices of certain events to the MSRB, but in no event will such notices be provided to the MSRB in excess of ten business days after the occurrence of an event. The District will provide notice of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determination of taxability, Notices of Proposed Issue (IRS Form 5701-TEB) or other material notices or determinations with respect to the tax status of the Bonds, or other material events affecting the tax status of the Bonds; (7) modifications to rights of beneficial owners of the Bonds, if material; (8) bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership or similar event of the District or other obligated person; (13) consummation of a merger, consolidation, or acquisition involving the District or other obligated person or the sale of all or substantially all of the assets of the District or other obligated person other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than

pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material; (15) incurrence of a financial obligation of the District or other obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District or other obligated person, any of which affect beneficial owners of the Bonds, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the District or other obligated person, any of which reflect financial difficulties. The terms "obligated person" and "financial obligation" when used in this paragraph shall have the meanings ascribed to them under the Rule. The term "material" when used in this paragraph shall have the meaning ascribed to it under federal securities laws. Neither the Bonds nor the Bond Resolution makes any provision for debt service reserves or liquidity enhancement. In addition, the District will provide timely notice of any failure by the District to provide financial information, operating data, or financial statements in accordance with its agreement described above under "Annual Reports."

Availability of Information

The District has agreed to provide the foregoing information only to the MSRB. Investors will be able to access, without charge from the MSRB, continuing disclosure information filed with the MSRB at www.emma.msrb.org.

Limitations and Amendments

The District has agreed to update information and to provide notices of certain specified events only as described above. The District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Bonds at any future date. The District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement, although holders or beneficial owners of Bonds may seek a writ of mandamus to compel the District to comply with its agreement.

The District may amend its continuing disclosure agreement from time to time to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or type of operations of the District, if but only if the agreement, as amended, would have permitted an underwriter to purchase or sell Bonds in the offering made hereby in compliance with SEC Rule 15c2-12, taking into account any amendments or interpretations of SEC Rule 15c2-12 to the date of such amendment, as well as such changed circumstances, and either the holders of a majority in aggregate principal amount of the outstanding Bonds consent to the amendment or any person unaffiliated with the District (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the holders and beneficial owners of the Bonds. The District may amend or repeal the agreement in the Bond Resolution if the SEC amends or repeals the applicable provisions of SEC Rule 15c2-12 or a court of final jurisdiction determines that such provisions are invalid or unenforceable, but only to the extent that its right to do so would not prevent the Underwriter from lawfully purchasing the Bonds in the initial offering. If the District so amends the agreement, it has agreed to include with any financial information or operating data next provided in accordance with its agreement described above under "Annual Reports" an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of financial information and operating data so provided.

Compliance With Prior Undertakings

During the last five years, the District has complied in all material respects with its prior continuing disclosure agreements made by it in accordance with SEC Rule 15c2-12.

This Official Statement was approved by the Board of Directors of Fort Bend County Municipal Utility District No. 141 as of the date shown on the first page hereof.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Fort Bend County Municipal
Utility District No. 141
Fort Bend County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Municipal Utility District No. 141 (the "District") as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2025, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual - General Fund be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide an assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 141
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2025

Management's discussion and analysis of Fort Bend County Municipal Utility District No. 141's (the "District") financial performance provides an overview of the District's financial activities for year ended June 30, 2025. Please read it in conjunction with the District's financial statements.

USING THIS FINANCIAL REPORT

This financial report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes required and other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide financial statements provide both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective like that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The Statement of Net Position includes all the District's assets, liabilities and, if applicable, deferred inflows and outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The Statement of the Activities reports how the District's net position changed during the year ended June 30, 2025. All revenues and expenses are included regardless of when cash is received or paid.

FUND FINANCIAL STATEMENTS

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, other costs and general expenditures. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes. The Capital Projects Fund accounts for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

FUND FINANCIAL STATEMENTS (Continued)

Governmental funds are reported in each of the financial statements. The focus in the fund financial statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

NOTES TO FINANCIAL STATEMENTS

The accompanying notes to financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI") and other supplementary information. A budgetary comparison schedule is included as RSI for the General Fund.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, liabilities exceeded assets by $6,652,610 as of June 30, 2025. A portion of the District's net position reflects its net investment in capital assets (land, buildings and equipment as well as water, wastewater and drainage facilities, less any debt used to acquire those assets that is still outstanding).

The following is a summary of the Statement of Net Position as of June 30, 2025. The following is a comparative analysis of government-wide changes in net position:

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

	Summary of Changes in the Statement of Net Position		
	2025	2024	Change Positive (Negative)
Current and Other Assets	$ 8,681,251	$ 6,540,370	$ 2,140,881
Capital Assets and Right-of-Use Assets	35,655,076	28,425,615	7,229,461
Total Assets	$ 44,336,327	$ 34,965,985	$ 9,370,342
Due to Developer	$ 12,283,184	$ 18,293,634	$ 6,010,450
Long-Term Liabilities	37,515,288	19,607,003	(17,908,285)
Other Liabilities	1,190,465	613,844	(576,621)
Total Liabilities	$ 50,988,937	$ 38,514,481	$ (12,474,456)
Net Position:			
Net Investment in Capital Assets	$ (11,399,577)	$ (7,024,617)	$ (4,374,960)
Restricted	2,997,792	2,176,076	821,716
Unrestricted	1,749,175	1,300,045	449,130
Total Net Position	$ (6,652,610)	$ (3,548,496)	$ (3,104,114)

The following table provides a summary of the District's operations for the years ended June 30, 2025 and June 30, 2024.

	Summary of Changes in the Statement of Activities		
	2025	2024	Change Positive (Negative)
Revenues:			
Property Taxes	$ 2,886,982	$ 2,580,615	$ 306,367
Charges for Services	1,746,718	1,326,034	420,684
Other Revenues	348,642	305,682	42,960
Total Revenues	$ 4,982,342	$ 4,212,331	$ 770,011
Expenses for Services	8,086,456	5,731,373	(2,355,083)
Change in Net Position	$ (3,104,114)	$ (1,519,042)	$ (1,585,072)
Net Position, Beginning of Year	(3,548,496)	(2,029,454)	(1,519,042)
Net Position, End of Year	$ (6,652,610)	$ (3,548,496)	$ (3,104,114)

FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUND

The District's combined fund balances as of June 30, 2025 is $8,412,151, an increase of $2,102,133 from the prior year.

The District's General Fund fund balance increased by $455,798, primarily due to service and property tax revenues exceeding operating expenditures.

The Debt Service Fund fund balance increased by $1,241,028, primarily due to the structure of the District's outstanding debt service.

The Capital Project Fund fund balance increased by $405,307, primarily due to the sale of Series 2024 bonds, of which proceeds were still on hand at year end.

GENERAL FUND BUDGETARY HIGHLIGHTS

The Board of Directors did not amend the budget during the current fiscal year. Actual revenues were $661,980 more than budgeted revenues, actual expenditures were $606,782 more than budgeted expenditures, which resulted in a positive variance of $55,198. For more information, refer to the budgetary comparison analysis.

CAPITAL ASSETS

Capital assets as of June 30, 2025, total $34,324,906 (net of accumulated depreciation) and include land, buildings and equipment as well as the water, wastewater and drainage systems.

Capital Assets At Year-End, Net of Accumulated Depreciation

	2025	2024	Change Positive (Negative)
Capital Assets Not Being Depreciated:			
Land and Land Improvements	$ 117,063	$ 117,063	$
Capital Assets, Net of Accumulated Depreciation:			
Water Facilities	5,406,416	4,556,129	850,287
Wastewater Facilities	9,674,267	8,172,233	1,502,034
Drainage Facilities	19,127,160	14,218,538	4,908,622
Total Net Capital Assets	$ 34,324,906	$ 27,063,963	$ 7,260,943

Additional information on the District's capital assets can be found in Note 6 of this report.

RIGHT-OF-USE ASSETS

The District entered into a lease agreement for an interim wastewater treatment plant which is recorded as a right-of-use asset in the government-wide financial statements. See Note 11 for further disclosure.

LONG-TERM DEBT ACTIVITY

As of June 30, 2025, the District's lease payable was $1,128,822. The changes during the fiscal year ended June 30, 2025, are summarized as follows:

Lease Payable, July 1, 2024	$	1,251,979
Less: Lease Principal Paid		123,157
Lease Payable, June 30, 2025	$	1,128,822

As of June 30, 2025, the District had total bond debt payable of $36,735,000. The changes in the debt position of the District during the fiscal year ended June 30, 2025, are summarized as follows:

Bonds Payable, July 1, 2024	$	18,465,000
Add: Bond Sale - Series 2024		18,320,000
Less: Bond Principal Paid		50,000
Bonds Payable, June 30, 2025	$	36,735,000

The District has made no application for a municipal bond rating of the Series 2019 Bonds. The Series 2023 Bonds and Series 2024 Bonds have underlying rating of "Baa3". The Series 2022 Bonds, Series 2023 Bonds, and Series 2024 Bonds carry insured ratings of "AA" by virtue of bond insurance by Assured Guaranty.

CONTACTING THE DISTRICT'S MANAGEMENT

This financial report is designed to provide a general overview of the District's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Fort Bend County Municipal Utility District No. 141, c/o Allen Boone Humphries Robinson LLP, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027.

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 141
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2025

Net Change in Fund Balances - Governmental Funds	$	2,102,133
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report tax revenues when collected. However, in the Statement of Activities, revenues are recorded in the accounting period for which the taxes are levied.		(13,871)
Governmental funds report penalty and interest revenue on property taxes when collected. However, in the Statement of Activities, revenue is recorded when penalties and interest are assessed.		(1,523)
Governmental funds do not account for depreciation and amortization. However, in the government-wide financial statements, capital assets are depreciated and right-of-use assets are amortized, the total expense is recorded in the Statement of Activities.		(875,006)
Governmental funds report capital asset costs as expenditures in the period purchased. However, in the government-wide financial statements, capital assets are increased by new purchases that meet the District's threshold for capitalization, and are owned and maintained by the District. All other capital asset purchases are expensed in the Statement of Activities. The District also recorded inflows and outflows of resources related to the leased asset in the current fiscal year.		14,114,917
Governmental funds report bond discounts and bond premiums as other financing sources/uses in the year paid. However, in the Statement of Net Position, bond discounts and bond premiums are amortized over the life of the bonds and the current year amortized portion is recorded in the Statement of Activities.		126,908
Governmental funds report lease principal payments as expenditures. However, in the government-wide financial statements, lease principal payments are reported as decreases in long-term liabilities.		123,157
Governmental funds report principal payments on long-term debt as expenditures. However, in the government-wide financial statements, principal payments decrease long-term liabilities and the Statement of Activities is not affected.		50,000
Governmental funds report interest payments on long-term debt as expenditures in the year paid. However, in the government-wide financial statements, interest is accrued on the debt through the fiscal year-end.		(410,829)
Governmental funds report bond proceeds as other financing sources. Issued bonds increase long-term liabilities in the Statement of Net Position.		(18,320,000)
Change in Net Position - Governmental Activities	$	(3,104,114)

The accompanying notes to financial statements are an integral part of this report.

NOTE 1. CREATION OF DISTRICT

Fort Bend County Municipal Utility District No. 141 (the "District") was created effective December 12, 2003, by an Order of the Texas Commission on Environmental Quality (the "Commission"). Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate and maintain all facilities, plants and improvements necessary to provide water, wastewater service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, and to construct parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting on May 17, 2004.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statement as component units.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting ("GASB Codification").

The GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenues and expenses of the government-wide Statement of Activities.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial Statement Presentation (Continued)

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide financial statements. The fund financial statements include a Governmental Funds Balance Sheet and a Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances.

Governmental Funds

The District has three governmental funds and considers each to be a major fund.

General Fund – To account for resources not required to be accounted for in another fund, customer service revenues, other costs and general expenditures.

Debt Service Fund – To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Capital Projects Fund – To account for financial resources restricted, committed or assigned for acquisition or construction of facilities and related costs.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectable within the current period or soon enough thereafter to pay current liabilities. The District considers revenues reported in governmental funds to be available if they are collectable within 60 days after year-end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred inflows of resources related to property tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets and Right-of-Use Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as an expenditure in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost of $5,000 or more and an estimated useful life of two years or more. Depreciation is calculated on each class of depreciable property using the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	40
Water System	10-45
Wastewater System	10-45
Drainage System	10-45
All Other Equipment	3-20

In accordance with GASB Statement No. 87, the District has recorded its leased interim wastewater treatment plant as a right-of-use asset (see Note 11). The right-of-use asset is being amortized over 45 years using the straight-line method of amortization.

Budgeting

An annual unappropriated budget is adopted for the General Fund by the District's Board of Directors. The budget is prepared using the same method of accounting as for financial reporting. The original General Fund budget for the current year was not amended. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual – General Fund presents the original budget amounts compared to the actual amounts of revenues and expenditures for the current year.

Pensions

The District has not established a pension plan as the District does not have employees. The Internal Revenue Service has determined that fees of office received by Directors are wages subject to federal income tax withholding for payroll tax purposes only.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets, liabilities, and deferred inflows and outflows of resources associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Governmental Funds Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds are classified using the following hierarchy:

Nonspendable: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

Committed: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

Assigned: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 3. LONG-TERM DEBT

	Series 2019	Series 2022	Series 2023	Series 2024
Amounts Outstanding – June 30, 2025	$ 2,450,000	$ 4,000,000	$ 11,965,000	$ 18,320,000
Interest Rates	2.60 - 3.625%	2.25 - 4.50%	4.375 – 6.875%	4.125 – 6.625%
Maturity Dates – Serially Beginning/Ending	September 1, 2025/2049	September 1, 2025/2050	September 1, 2026/2052	September 1, 2026/2054
Interest Payment Dates	September 1/ March 1	September 1/ March 1	September 1/ March 1	September 1/ March 1
Callable Dates	September 1, 2024*	September 1, 2027*	September 1, 2028*	September 1, 2029*

* Or any date thereafter at a price of par value plus unpaid interest from the most recent interest payment date to the date fixed for redemption. The Series 2019 bonds maturing on September 1, 2029, 2037, 2039, 2041, 2044 and 2049 are scheduled for mandatory redemption beginning on September 1, 2028, 2036, 2038, 2040, 2042 and 2045, respectively. The Series 2022 bonds maturing on September 1, 2029, 2031, 2033, 2036, 2038, 2040, 2042 and 2050 are scheduled for mandatory redemption beginning on September 1, 2028, 2030, 2032, 2034, 2037, 2039, 2041, and 2043, respectively. The Series 2023 bonds maturing on September 1, 2033, 2048, 2050, and 2052 are scheduled for mandatory redemption beginning on September 1, 2030, 2047, 2049, and 2051, respectively. The Series 2024 bonds maturing on September 1, 2035 and September 1, 2045 are scheduled for mandatory redemption beginning on September 1, 2033 and September 1, 2045, respectively.

NOTE 3. LONG-TERM DEBT (Continued)

The following is a summary of transactions regarding bonds payable for the year ended June 30, 2025:

	July 1, 2024	Additions	Retirements	June 30, 2025
Bonds Payable	$ 18,465,000	$ 18,320,000	$ 50,000	$ 36,735,000
Unamortized Discounts	(220,334)	(262,048)	(13,201)	(469,181)
Unamortized Premiums	283,515	135,140	12,958	405,697
Total Long-Term Liabilities	$ 18,528,181	$ 18,193,092	$ 49,757	$ 36,671,516

Amount Due Within One Year	$ 150,000
Amount Due After One Year	36,521,516
Total Bonds Payable	$ 36,671,516

As of June 30, 2025, the debt service requirements on the bonds outstanding were as follows:

Fiscal Year	Principal	Interest	Total
2026	$ 150,000	$ 1,789,227	$ 1,939,227
2027	625,000	1,548,756	2,173,756
2028	655,000	1,510,206	2,165,206
2029	690,000	1,472,293	2,162,293
2030	725,000	1,435,541	2,160,541
2031-2035	4,180,000	6,644,957	10,824,957
2036-2040	5,205,000	5,675,666	10,880,666
2041-2045	6,460,000	4,511,032	10,971,032
2046-2050	8,020,000	3,037,817	11,057,817
2051-2055	10,025,000	1,126,178	11,151,178
	$ 36,735,000	$ 28,751,673	$ 65,486,673

As of June 30, 2025, the District had authorized but unissued bonds in the amount of $44,035,000 for utilities, $52,600,000 for refunding purposes and $4,680,000 for parks and recreation facilities.

During the year ended June 30, 2025, the District did levy an ad valorem debt service tax rate at the rate of $0.69 per $100 assessed valuation, which resulted in a tax levy of $1,996,055 on the adjustable tax valuation of $289,283,343 for the 2024 tax year. The bond resolutions require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

NOTE 3. LONG-TERM DEBT (Continued)

All property values and exempt status, if any, are determined by the appraisal district. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

NOTE 4. SIGNIFICANT BOND RESOLUTION AND LEGAL REQUIREMENTS

The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the Bonds be rebated to the federal government, within the meaning of Section 148(f) of the Internal Revenue Code. The minimum requirement for determination of the rebatable amount is on the five-year anniversary of each issue.

The bond resolution states that the District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data with respect to the District to certain information repositories. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

NOTE 5. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year-end, the carrying amount of the District's deposits was $758,404 and the bank balance was $794,341. The District was not exposed to custodial credit risk at year-end.

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at June 30, 2025, as listed below:

	Cash	Certificate of Deposit	Total
GENERAL FUND	$ 445,001	$	$ 445,001
DEBT SERVICE FUND	81,448	230,000	311,448
CAPITAL PROJECTS FUND	1,955		1,955
TOTAL DEPOSITS	$ 528,404	$ 230,000	$ 758,404

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District's financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District's investments must be made "with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person's own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived." No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. The District has adopted a written investment policy to establish the guidelines by which it may invest. This policy is reviewed annually. The District's investment policy may be more restrictive than the Public Funds Investment Act.

The District invests in the Texas Short Term Asset Reserve Program ("TexSTAR"), an external public funds investment pool that is not SEC-registered. J.P. Morgan Investment Management Inc. provides investment management and Hilltop Securities Inc., provides participant services and marketing under an agreement with the TexSTAR Board of Directors. Custodial, fund accounting and depository services are provided by JPMorgan Chase Bank, N.A. and/or its subsidiary J.P. Morgan Investors Services Co. Investments held by TexSTAR are marked to market daily. The investments are considered to be Level 1 investments because their fair value is measured by quoted prices in active markets. The fair value of the District's position in the pool is the same as the value of the pool shares. There are no limitations or restrictions on withdrawals from TexSTAR.

NOTE 5. DEPOSITS AND INVESTMENTS (Continued)

The District records its investments in certificates of deposit at acquisition cost. As of June 30, 2025, the District had the following investments and maturities:

Fund and Investment Type	Fair Value	Less Than 1
GENERAL FUND		
TexSTAR	$ 1,918,891	$ 1,918,891
DEBT SERVICE FUND		
TexSTAR	3,364,985	3,364,985
Certificate of Deposit	230,000	230,000
CAPITAL PROJECTS FUND		
TexSTAR	2,360,651	2,360,651
TOTAL INVESTMENTS	$ 7,874,527	$ 7,874,527

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2025, the District's investments in TexSTAR were rated "AAAm" by Standard and Poor's. The District also manages credit risk by typically investing in certificates of deposit with balances below FDIC coverage.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers its investments in TexSTAR to have a maturity of less than one year due to the fact the share positions can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District also manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

Restrictions

Cash and cash equivalents of the Debt Service Fund are restricted for payment of debt service and the cost of assessing and collecting taxes. All cash and investments of the Capital Projects Fund are restricted for the purchase of capital assets.

NOTE 6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2025:

	July 1, 2024	Increases	Decreases	June 30, 2025
Capital Assets Not Being Depreciated				
Land and Land Improvements	$ 117,063	$	$	$ 117,063
Construction in Progress		20,790	20,790	
Total Capital Assets Not Being Depreciated	$ 117,063	$ 20,790	$ 20,790	$ 117,063
Capital Assets Subject to Depreciation				
Water Facilities	$ 5,106,686	$ 990,312	$	$ 6,096,998
Wastewater Facilities	9,168,590	1,754,341		10,922,931
Drainage Facilities	15,778,003	5,359,814		21,137,817
Total Capital Assets Subject to Depreciation	$ 30,053,279	$ 8,104,467	$ - 0 -	$ 38,157,746
Accumulated Depreciation				
Water Facilities	$ 550,557	$ 140,025	$	$ 690,582
Wastewater Facilities	996,357	252,307		1,248,664
Drainage Facilities	1,559,465	451,192		2,010,657
Total Accumulated Depreciation	$ 3,106,379	$ 843,524	$ - 0 -	$ 3,949,903
Total Depreciable Capital Assets, Net of Accumulated Depreciation	$ 26,946,900	$ 7,260,943	$ - 0 -	$ 34,207,843
Total Capital Assets, Net of Accumulated Depreciation	$ 27,063,963	$ 7,281,733	$ 20,790	$ 34,324,906

NOTE 7. MAINTENANCE TAX

On November 2, 2004, the voters of the District approved the levy and collection of a maintenance tax of not more than $1.50 per $100 of assessed valuation of taxable property within the District. During the fiscal year ended June 30, 2025, the District levied an ad valorem maintenance tax rate of $0.32 per $100 of assessed valuation, which resulted in a tax levy of $925,707 on the adjusted taxable valuation of $289,283,343 for the 2024 tax year.

NOTE 8. UNREIMBURSED COSTS

In accordance with the terms of development financing agreements, developer(s) within the District have made expenditures on behalf of the District for various projects for which the District has not sold bonds. As of June 30, 2025, the District has recorded $11,515,875 as due to developer(s) for projects that have been completed, and $100,000 as due to developer(s) for a payment to the City of Arcola (the "City") (see Note 10). In addition, $667,309 has been recorded as due to developer(s) for operating advances.

NOTE 8. UNREIMBURSED COSTS (Continued)

Amounts reported by the developer(s) may be estimates. Actual amounts may vary. Any reimbursements for these costs will come from the proceeds of a future bond sales.

The following table summarizes the current year activity related to unreimbursed developer costs for completed projects:

	July 1, 2024	Additions	Reimbursements	June 30, 2025
Due to Developer	$ 18,293,634	$ 8,261,048	$ 14,271,498	$ 12,283,184

NOTE 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters. The District carries commercial insurance for its fidelity bonds and participates in the Texas Municipal League Intergovernmental Risk Pool (TML) to provide property, general liability, automobile liability, pollution liability, directors and officers liability and boiler and machinery coverage. The District, along with other participating entities, contributes annual amounts determined by TML's management. As claims arise, they are submitted and paid by TML. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

NOTE 10. STRATEGIC PARTNERSHIP AGREEMENT

The District has entered into a strategic partnership agreement ("SPA") with the City that provides for the annexation into the City of an approximately 8-acre tract of land within the District for limited purposes for the imposition of the City's Sales and Use Tax. The SPA sets forth certain conditions related to the issuance of bonds by the District for the purpose of purchasing and constructing, or purchasing, or constructing under contract with the City, or otherwise acquiring waterworks systems, sanitary sewer systems, storm sewer systems, and drainage facilities, or parts of such systems or facilities, and to make any and all necessary purchases, construction, improvements, extensions, additions, and major repairs thereto, and to purchase or acquire all necessary land, right-of-way, easements, sites, equipment, buildings, plants, structures, and facilities therefor. The SPA states that no land will be added or annexed into the District until the City has given its written consent. The SPA entered into with the City expires forty years from its effective date on December 15, 2004. The SPA does not specify procedures for full purpose annexation of all or a portion of the District by the City.

NOTE 11. WASTEWATER TREATMENT PLANT LEASE

Executed on September 16, 2022, the District entered into a Lease Agreement with Option to Purchase for the Phase II 0.245 million gallon per day interim sewage treatment plant. Right-of-use assets, current year amortization expense and accumulated amortization is summarized below:

	July 1, 2024	Increases	Decreases	June 30, 2025
Right-of-Use Asset Subject to Amortization				
Wastewater Treatment Plant	$ 1,416,680	$ - 0 -	$ - 0 -	1,416,680
Accumulated Amortization				
Wastewater Treatment Plant	$ 55,028	31,482	$ - 0 -	86,510
Right-of-Use Asset Net of Accumulated Amortization	$ 1,361,652	$ (31,482)	$ - 0 -	$ 1,330,170

The 60-month lease accrues interest at 9% annually with monthly payments of $13,580. The District made twelve lease payments during the current fiscal year which totaled $162,960, of which $123,157 applied to principal and $39,803 applied to interest. The change in lease liability during the current fiscal year are summarized in the following table:

Lease Payable, July 1, 2024	$ 1,251,979
Less: Lease Principal Paid	123,157
Lease Payable, June 30, 2025	$ 1,128,822

Future lease payments, including the purchase option price at the conclusion of the 60-month lease of $766,355, are summarized below:

Fiscal Year	Principal	Interest	Total
2026	135,050	27,910	162,960
2027	148,092	14,868	162,960
2028	845,680	2,155	847,835
	$ 1,128,822	$ 44,933	$ 1,173,755

NOTE 12. NORTH FORT BEND WATER AUTHORITY

The District is not located within the boundaries of the North Fort Bend Water Authority (the "Authority"), but entered into a Groundwater Reduction Plan Participation Agreement with the Authority dated November 28, 2012, under which the District is covered by the Authority's Groundwater Reduction Plan. The Authority was created under Article 16, Section 59 of the Texas Constitution by House Bill 3482 (the "Act"), as passed by the 79th Texas Legislature, in 2005. The Act empowers the Authority for purposes including the acquisition and provision of surface water and groundwater for residential, commercial, industrial, agricultural, and other uses, the reduction of groundwater withdrawals, the conservation, preservation, protection, recharge, and prevention of waste of groundwater, and of groundwater reservoirs or their subdivisions, and the control of subsidence caused by withdrawal of water from those groundwater reservoirs or their subdivisions. The Authority is overseeing that its participants comply with subsidence district pumpage requirements. The District is required by the subsidence district to convert its water supply to surface water over a period of time.

The Authority charges a fee, based on the amount of water pumped from a well, to the owners of wells located within the boundaries of the Authority, unless exempted, and to contract participants like the District. This fee enables the Authority to fulfill its purpose and regulatory functions. The current rate for surface water is $4.90 per 1,000 gallons of water delivered. The current rate is $4.55 per 1,000 gallons of water pumped from each well. During the current fiscal year, the District paid $377,477 to the Authority for pumpage fees.

NOTE 13. EMERGENCY WATER INTERCONNECT AGREEMENT

On January 8, 2018, the District entered into an Emergency Water Interconnect Agreement with Fort Bend County Fresh Water Supply District No. 1 (District No. 1) and the City to establish terms and conditions for the District to provide emergency water service to the City and for District No. 1 to provide emergency water service to the District. The District is responsible for all costs associated with construction of such water interconnect facilities to be connected to the District's system.

The District will pay for water delivered by the terms of this agreement at the option of District No. 1 either (i) in kind, or (ii) at the rate of $1.00 per 1,000 gallons plus any water authority fees imposed by District No. 1. The City will pay for water delivered by the terms of this agreement at the option of the District either (i) in kind, or (ii) at the rate of $1.00 per 1,000 gallons plus any water authority fees imposed by District No. 1. The term of this agreement is 25 years.

NOTE 14. BOND SALE

On November 22, 2024, the District closed on the sale of its Unlimited Tax Bonds, Series 2024 in the amount of $18,320,000. Proceeds from the bonds will be used to finance the acquisition or construction of water, wastewater, and drainage facilities serving Glendale Lakes, Sections 3, 5, 6 through 10, 12, and 13; Glendale Lakes lake amenity, detention/mitigation basin and storm sewer; and Lift Station No. 2; pay engineering costs associated with the design and construction of such facilities; pay interest on advances made by the Developer on behalf of the District. Additional proceeds will be used to pay issuance costs of the bonds.
