

PRELIMINARY OFFICIAL STATEMENT DATED OCTOBER 18, 2024

New Issue – BOOK-ENTRY ONLY

Ratings: See “RATINGS” herein

In the opinion of Bond Counsel, assuming continuing compliance with the provisions of the Internal Revenue Code of 1986, as amended (the “Code”) applicable to the Bonds and subject to certain provisions of the Code which are described herein, under laws, regulations, rulings and judicial decisions existing on the date of the original delivery of the Bonds, interest on the Bonds is excluded from gross income of the owners thereof for federal income tax purposes under Section 103 of the Code. In the further opinion of Bond Counsel, interest on the bonds is not treated as a preference item in calculating the alternative minimum tax imposed by the Code, however, interest on the Bonds is included in the “adjusted financial statement income” of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code. Under the laws of the State of New Jersey, as enacted and construed on the date of the original delivery of the Bonds, interest on the Bonds and gain from the sale thereof are not included in gross income under the New Jersey Gross Income Tax Act. See “TAX MATTERS” herein.

COUNTY OF OCEAN, NEW JERSEY

\$50,620,000* GENERAL IMPROVEMENT BONDS, SERIES 2024

\$2,220,000* COLLEGE CAPITAL IMPROVEMENT BONDS, SERIES 2024

INTRODUCTION

This Preliminary Official Statement which includes the cover page and the appendices has been prepared by the County of Ocean (the “County”) in the State of New Jersey (the “State”) and provides certain information regarding the financial and economic condition of the County in connection with the sale of \$50,620,000* General Improvement Bonds, Series 2024 (the “General Improvement Bonds”) and \$2,220,000* College Capital Improvement Bonds, Series 2024 (the “Chapter 12 Bonds” and together with the General Improvement Bonds “the Bonds”).

DESCRIPTION OF BONDS

The Bonds are dated the date of delivery and will mature as set forth on the cover page. The Bonds shall be issued in the form of one bond certificate for the aggregate principal amount of the Bonds of each series maturing in each year. When issued, the Bonds will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, (“DTC”), which will act as securities depository (the “Securities Depository”). The certificates will be on deposit with DTC. DTC will be responsible for maintaining a book-entry system for recording the interest of its participants or the transfers of the interest among its participants. The participants will be responsible for maintaining records regarding the beneficial ownership interests in the Bonds on behalf of the individual purchasers. Individual purchases may be made in the principal amount of \$1,000 or more through book entries made on the book and records of DTC and its participants. Individual purchasers of the Bonds will not receive certificates representing their beneficial ownership interests in the Bonds, but each book-entry Bond owner will receive a credit balance on the books of its nominee, and this credit balance will be confirmed by an initial transaction statement stating the details of the Bonds purchased. (See “BOOK-ENTRY-ONLY TRANSFER SYSTEM FOR THE BONDS” herein).

Interest on the Bonds will be payable on May 1, 2025 and semiannually thereafter on the 1st day of May and November in each year until maturity. Principal and interest on the Bonds will be paid to the Securities Depository by the County. Interest on the Bonds will be credited to the participants of DTC as listed on the records of DTC as of each preceding April 15 and October 15 (the “Record Dates”) for the payment of interest on the Bonds.

Optional Redemption Provision

General Improvement Bonds

The General Improvement Bonds maturing prior to November 1, 2035 are not subject to redemption prior to maturity. The General Improvement Bonds maturing on or after November 1, 2035 are subject to redemption at the option of the County prior to maturity and upon notice as hereinafter provided, at any time on or after November 1, 2034, in whole or in part, from such maturities as the County shall determine and by lot within a single maturity, at the respective redemption price of 100% of the principal amount to be redeemed together with unpaid interest accrued to the redemption date.

Chapter 12 Bonds

The Chapter 12 Bonds are not subject to optional redemption prior to maturity.

*Preliminary, subject to change

Notice of Redemption

Notice of redemption shall be given by mailing at least once not less than thirty (30) days nor more than sixty (60) days prior to the redemption date, to the registered owner of any bond all or a portion of which is to be redeemed, at his last address, if any, appearing upon the registry books kept by or on behalf of the County, but such mailing shall not be a condition precedent to such redemption and failure so to mail any such notice shall not affect the validity or any proceedings for the redemption of bonds. For so long as the book-entry system remains in effect and the Bonds are registered in the name of DTC or its nominee, the County will not be responsible for mailing of notices of redemption to anyone other than to DTC. (See “BOOK-ENTRY-ONLY TRANSFER SYSTEM FOR THE BONDS” herein.)

PURPOSE OF THE BONDS

The County plans to apply the proceeds derived from the sale of the Bonds to finance various capital projects consisting of, among others, facility improvements, construction and reconstruction, all as authorized by the Bond Ordinances (collectively, the “Bond Ordinances”) described below. The County estimates that the average period of usefulness of these projects exceeds the life of the Bonds. The various projects financed by the Bonds are set forth in the table following this paragraph.

Ordinance Number	Date Adopted	Purpose	Amount of Bonds Authorized	Period of Usefulness	Bonds to be Issued
2023-24	8/2/23	Permitting and construction of the Courthouse Annex in Toms River Township	85,000,000	40	27,500,000

Totals			\$110,344,166		\$52,840,000

*Preliminary, subject to change as set forth in the Notice of Sale

SECURITY FOR THE BONDS

In the opinion of Bond Counsel, the full faith and credit of the County is irrevocably pledged for the payment of the principal of the Bonds and the interest thereon. The Bonds and the interest thereon will be valid and binding obligations of the County and, unless paid from other sources, are payable from ad valorem taxes levied upon all the taxable real property within the County without limitation as to rate or amount. The enforceability of rights or remedies with respect to the Bonds may be limited by bankruptcy, insolvency or other laws affecting creditors’ rights or remedies now existing or hereafter enacted.

The Chapter 12 Bonds are further entitled to the benefits of Chapter 12 of the Laws of New Jersey of 1971, as amended and supplemented (N.J.S.A. 18A:64A-22.1 et seq.) (the “County College Bond Act”), which provides that the principal of and interest on the Chapter 12 Bonds will, subject to appropriation, be paid by the State of New Jersey (the “State”). The amounts paid by the State pursuant to the County College Bond Act are paid directly to the paying agent for the Chapter 12 Bonds and must be used for the payment of the principal of and interest on the Chapter 12 Bonds. The County has appointed TD Bank, National Association, Mount Laurel, New Jersey, as the paying agent for the Chapter 12 Bonds. The Chapter 12 Bonds are not debts or liabilities of the State. In the event that State appropriations for the payment of the principal of and interest on the Chapter 12 Bonds are not made, the County will be responsible for appropriating amounts to pay such principal and interest.

POTENTIAL IMPACTS RESULTING FROM EPIDEMICS OR PANDEMICS

Pandemics, epidemics and other public health emergencies (such as COVID-19), may adversely impact the County and its revenues, expenses and financial condition. The County cannot predict the duration and extent of such pandemics, epidemics and other health emergencies, or quantify the magnitude of their ultimate impact on the State and regional economy, or on the revenues and expenses of the County. Pandemics, epidemics and other health emergencies may be ongoing, and their dynamic nature may lead to many uncertainties, including (i) the geographic spread as they evolve; (ii) the severity as they mutate; (iii) the duration of the outbreak; (iv) actions that may be taken by governmental authorities to contain or mitigate future outbreaks; (v) the development of medical therapeutics or vaccinations; (vi) travel restrictions; (vii) the impact of the outbreak on the local, State or global economy; (viii) whether and to what extent the State Governor may order additional public health measures; and (ix) the impact of the outbreak and actions taken in response to the outbreak on County revenues, expenses and financial condition. Prospective investors should assume that restrictions and limitations related to COVID-19 and any future variants or pandemics may be instituted by the State or federal government.

[Balance of Page Left Intentionally Blank]

AUTHORIZATION

The Bonds have been authorized and are to be issued pursuant to the laws of the State of New Jersey, including the Local Bond Law, constituting Chapter 2 of Title 40A of the New Jersey Statutes (the “Local Bond Law”), N.J.S.A. 18A:64A-19 and the County College Bond Act. The Bonds are authorized by the Bond Ordinances and by a resolution adopted by the Board of Commissioners of the County on October 16, 2024. The Bond Ordinances included in the sale of the General Improvement Bonds and Chapter 12 Bonds were published in full after their adoption along with the statement that the twenty-day period of limitation within which a suit, action or proceeding questioning the validity of the authorizing ordinances can be commenced began to elapse from the date of the first publication of such ordinances. The Local Bond Law provides that after issuance all obligations shall be conclusively presumed to be fully authorized and issued by all laws of the State and any person shall be stopped from questioning the sale, execution or delivery of the Bonds by the County.

BOOK-ENTRY-ONLY TRANSFER SYSTEM FOR THE BONDS

The following description of the procedures and record keeping with respect to beneficial ownership interests in the Bonds, payment of principal and interest, and other payments on the Bonds to DTC Participants or Beneficial Owners defined below, confirmation and transfer of beneficial ownership interests in the Bonds and other related transactions by and between DTC, DTC Participants and Beneficial Owners, is based on certain information furnished by DTC to the County. Accordingly, the County does not make any representations concerning these matters.

DTC will act as securities depository for the Bonds. The Bonds will be issued as fully-registered bonds registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount of such series and maturity and will be deposited with DTC.

DTC, the world’s largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC’s participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). DTC has a Standard and Poor’s rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Bonds on DTC’s records. The ownership interest of each actual purchaser of each Bond (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Bonds, except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Bond documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to the Bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to an issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

So long as the Bonds of a series are held by DTC under a book-entry system, payments of principal, premium, if any, and interest on the Bonds of such series will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the Authority or the Trustee, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with Bonds held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Authority or the Trustee, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments of principal, premium, if any, and interest on the Bonds to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Authority or the Trustee, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds of such series at any time by giving reasonable notice to the Authority or its agent. Under such circumstances, in the event that a successor depository is not obtained, Bond certificates are required to be printed and delivered.

The County may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, bond certificates will be prepared and delivered to DTC.

UNLESS OTHERWISE NOTED, THE INFORMATION CONTAINED IN THE PRECEDING PARAGRAPHS OF THIS SUBSECTION "BOOK-ENTRY-ONLY SYSTEM" HAS BEEN OBTAINED FROM SOURCES THE COUNTY BELIEVES TO BE RELIABLE, BUT THE COUNTY TAKES NO RESPONSIBILITY FOR THE ACCURACY THEREOF. THE COUNTY MAKES NO REPRESENTATIONS AS TO THE COMPLETENESS OR THE ACCURACY OF SUCH INFORMATION, NOR AS TO THE ABSENCE OF ADVERSE CHANGES IN SUCH INFORMATION SUBSEQUENT TO THE DATE HEREOF. THE COUNTY WILL NOT HAVE ANY RESPONSIBILITY OR OBLIGATION TO DTC PARTICIPANTS OR TO ANY BENEFICIAL OWNER WITH RESPECT TO (I) THE ACCURACY OF ANY RECORDS MAINTAINED BY ANY DTC PARTICIPANT; (II) ANY NOTICE (INCLUDING ANY NOTICE OF REDEMPTION) THAT IS PERMITTED OR REQUIRED TO BE GIVEN TO BOND OWNERS; (III) THE PAYMENT BY DTC OR ANY DTC PARTICIPANT OF ANY AMOUNT WITH RESPECT TO THE PRINCIPAL, PREMIUM (IF ANY) OR INTEREST DUE ON THE BONDS; (IV) THE

SELECTION BY DTC OR DTC PARTICIPANTS OF ANY PERSON TO RECEIVE A PAYMENT IN THE EVENT OF A PARTIAL REDEMPTION OF THE BONDS; OR (V) ANY CONSENT GIVEN OR OTHER ACTION TAKEN BY CEDE & CO., AS NOMINEE OF DTC, AND THE REGISTERED OWNER OF THE BONDS. THE RULES APPLICABLE TO DTC ARE ON FILE WITH THE SECURITIES AND EXCHANGE COMMISSION AND THE PROCEDURES OF DTC TO BE FOLLOWED IN DEALING WITH DTC PARTICIPANTS ARE ON FILE WITH DTC.

COUNTY OF OCEAN

General Information

Ocean County, the second largest county (in geographic area) in the State of New Jersey with 634 square miles, is located in the east central area of the State along the Atlantic Ocean. The County has 45 miles of oceanfront and more than 150 miles of bay fronts and estuaries. Toms River, the County seat, is centrally located in the County 60 miles from New York City and 50 miles from Philadelphia. Toms River is also 50 miles from Atlantic City. The County is easily accessible from these metropolitan areas via the Garden State Parkway and major state roadways. By means of progressive land use planning and responsible capital improvement programming, the area has maintained residential, commercial and industrial growth while preserving the integrity of the existing Ocean County "quality of life" and the open space environment.

Governmental Structure

The County is governed by a five-member Board of Commissioners (the "Board") who are elected for terms of three years and who may succeed themselves. The structure of the Board represents the County-at-large. The Board operates under a form of government whereby each Commissioner is responsible for a major department of County government. Professional department heads in County government are appointed by the Board and are responsible to the chairman and the committee charged with a specific operation. The County's Employment practices are governed by the New Jersey Civil Service Act and the Board abides by the regulations of the New Jersey Civil Service Commission.

County employees are enrolled in one of three State of New Jersey retirement systems. Contributions are made to the systems by both employer and employees. The pension rate for the Public Employees Retirement System remained at 7.50 percent. County employees are also enrolled in the Social Security system and covered by the New Jersey State Health Benefits Plan, prescription drug plans, dental, vision care plans, workers' compensation, disability insurance and an optional deferred compensation plan. Each year, with the assistance of a professional labor negotiator, the Board decides average salary increases for County employees. There is a total of 21 bargaining units within the County, and as of May 31, 2024 there are 3 bargaining units in negotiations for agreements that expired on March 31, 2024.

Population

Dynamic, orderly population growth trends continue to characterize the County's economy. While the County has traditionally been noted as a resort, tourist, and vacation area with dozens of famous resort communities along its coast and on its offshore barrier beach islands following the coastline, the County has changed dramatically in the past seventy years.

Ocean County led the State with dramatic population growth from 1950 to 2000. While the growth rate continues to slow down, the County still had the second highest growth rate in 2010 and 2020, at 12.8% and 10.5% respectively. According to Census 2020, Ocean County's population reached 637,229, making it the sixth most populous County in the State. The North Jersey Transportation Planning Authority's (NJTPA) adopted municipal forecasts (2021) estimate that Ocean County's population is projected to increase to 727,653 in 2050.

From Census 2020 to 2024, Ocean County had the highest population increase and growth rate in the state, increasing at 3.4% to a population estimate of 659,197, adding 21,952 more residents. The growth was driven by population

increases in Lakewood and Toms River Townships of 4,713 and 3,659 respectively, while the smaller municipality of Plumsted Township had the highest growth rate during that period of 10.2%.

The rapid population growth has transformed the economic base of the County from primarily seasonal to a diversified year-round economy. A continually expanding workforce, coupled with readily developable and relatively inexpensive land, abundant water supplies and a modern and expanding regional sewer network offer unusual opportunities for the development of clean decentralized industry, corporate headquarters and commercial and residential growth.

Land Area

Ocean County encompasses approximately 634 square miles of total land area. Most of the historic development in the County occurred along the coast and bay corridor, particularly in the northern part of the County. The most rapid period of development occurred between 1960 and 1990 and was due in large part to the direct transportation access provided by the Garden State Parkway. In recent years, significant growth has expanded to the southern and northwestern areas of the County.

From 1994 through 2007, the development of retirement communities represented a significant portion of the inland development, which has since decreased. Much of the western region is preserved within the Pinelands National Reserve. This area remains largely undeveloped, rural in character, and protects the Kirkwood-Cohansey aquifer. In addition, sensitive environmental lands are preserved through the County's Natural Lands Trust Fund Program.

Economy

The County continues to diversify its economic base, since its transformation to a year-round economy. However, the ocean and bay-front areas still provide a significant recreation industry in the County. The traditional three-month summer season has expanded to six months beginning in May and ending in October, with many special events held throughout the year. Overall, the County's economy is expanding in the health care, retail, service, and construction sectors.

The County continues to attract businesses seeking to take advantage of the County's strategic regional location and to service a growing population within the County. The center of the County is approximately sixty miles south of New York City and 50 miles east of Philadelphia. The Garden State Parkway and Interstate 195 are limited access highways, which have several interchanges located in the County. In addition, Ocean County Airport is a County owned and maintained facility located just outside of Toms River. The airport is a full-service general aviation facility accommodating planes and small business jets.

The expansion of the County's economic base is exemplified by the highly successful Lakewood Industrial Park, which is the second largest municipal industrial park in New Jersey. The park has three separate campuses, which provide about 10 million square feet of industrial and warehousing space adjacent to major highways. One campus also has access to rail freight service. There are currently over 400 companies, including subsidiaries, at the Lakewood Park, employing over 15,000 people, including seasonal help. In addition to Lakewood, eight other municipalities in the County have industrial parks in varying stages of planning, development and expansion.

Employment

The 2023 Annual Average Labor Force Estimate for the County was 302,654. The Annual Average Ocean County residents employed in 2023 was 289,839; resulting in an unemployment rate of 4.2%. This represents a slight increase from the 2022 unemployment rate of 3.9%, but is a notable improvement compared to the 6.3% rate in 2021. Ocean County's strong growth and residential construction sector continue to be a driving force in the economy. Labor and employment estimates are as reported by the New Jersey Department of Labor (August 30, 2024).

Development Approvals

In 2023, the Ocean County Planning Board approved 288 site plan and subdivision applications. This includes 3,100,805 square feet of new commercial development, mostly in Jackson Township. A total of 1,483 new residential lots were created in 2023. According to the NJ Department of Labor, a total of 4,006 residential building permits were issued in 2023 in Ocean County, ranking second of all counties in the State.

Transportation

A network of state highway routes links the County with other parts of New Jersey and the eastern seaboard. U.S. Route 9 and the Garden State Parkway provide ready access for north-south travel and extend north to the New York metropolitan area and south past Atlantic City to Cape May. State Highway 70 crosses the County at its widest point and provides access to Philadelphia and points west. Interstate 195, in the northern part of the County, provides highway service from the Trenton area to the shore. Within the County there are 127 miles of State highways, 621 miles of County roads and 1,320 miles of municipal roads.

Ocean County has been providing county transportation service since 1977. Ocean Ride is the county-wide transportation system and serves as the paratransit provider operated by the Ocean County Department of Transportation Services. The County transportation system is funded through a variety of state and federal grants as well as County funds. As of May 2024, the system fleet totals 76 wheelchair accessible vehicles, which includes transit buses, mini-buses, mini-vans and SUVs.

Ocean Ride provides a system of eight fixed bus routes and three Shoppers Loop Specials. This system offers discounted rates for seniors, persons with disabilities, and college students, providing feeder service to existing transit routes. The routes link the most populated areas of the County with local shopping, governmental, healthcare and transit facilities. During 2023, Ocean Ride service provided 198,659 passenger trips system wide. In addition, Ocean Ride provides a county-wide Reserve-A-Ride program which offers door-to-door transportation service mainly intended to serve areas of the county not served by the fixed bus route system, based on advance reservation requests from eligible riders.

There are three types of Reserve-A-Ride services:

Reserve-A-Ride (Advance Reservation) – service available to those who need travel to pre-scheduled appointments for non-emergency medical service such as doctor appointments and treatments. Up to four weeks advance notice is allowed. A modest fare has been implemented and discounted for those with a Medicare PAAD card.

Stand-By Trip – service available to those with last minute travel needs based on system availability. Typical trips utilizing this service are flexible and do not require a specific appointment or time schedule such as shopping. A modest fare is charged and discounted for those with a Medicare PAAD card.

Standing Order – service available to those requiring three or more trips per week to the same Medical Facility such as Chemotherapy, Radiation and Physical Therapy. Reservations may be made up to four weeks in advance. A modest fare is charged and discounted for those with a Medicare PAAD card.

Specialized transit service is also available for Ocean County veterans needing transportation to major, out-of-county VA hospitals. Ocean Ride has also continued its efforts to provide bus service for low-income residents through the New Jersey Jobs Access Reverse Commute (NJ JARC) program. The OC 10 Toms River Connection fixed bus route service is one of the top three successful JARC funded projects currently in operation in the State of New Jersey. The Ocean County Transportation Advisory Committee for Senior Citizens and Persons with Disabilities was created to review and recommend appropriate strategies and policies to address the growing demand for specialized transportation service. You may visit their website at www.co.ocean.nj.us/oc/Transportation for more information.

Educational Facilities

Ocean County's various public and private school institutions, which include pre-kindergarten to 12th grade schools, specialized academic and vocational schools, and higher education institutions, continually strive to provide the best education possible and fulfill the growing needs of the County's population. There are 113 public elementary, middle and high schools in the County. Higher institutions include Ocean County College, Kean University, Stockton University and Georgian Court University.

In 2023, the County public school population was 65,947. There is a vocational technical school that offers both vocational training and comprehensive high school programs at seven different campuses throughout the County. The

Marine Academy of Technology and Environmental Science (MATES) of the Ocean County Vocational-Technical School offers a full-time high school program with concentration in math and science, specializing in marine and environmental science studies. The Grunin Performing Arts Academy (GPAA) and the Academy of Law and Public Safety (ALPS) are two other full-time high school career academies offered by the Ocean County Vocational Technical School.

Ocean County College (OCC) in Toms River Township offers two-year degree programs and a variety of adult education courses. The County College is funded by the Board of Commissioners and the State of New Jersey. The County College has created an opportunity for high school students in the County to receive college credit while still in high school. The program is flexible to meet the needs of students, allowing them to complete a two-year associate's degree before graduating high school. There were approximately 2,500 high school students enrolled in the Early College Program.

Ocean County College also has an on-campus agreement with Kean University. This allows Ocean County College students to complete their four-year degree, as well as a master's program, from Kean without leaving the Toms River campus. Additionally, Ocean County College has a dual admission and transfer partnership with Stockton University (located in nearby Atlantic County) that will help students make a smooth transition from the two-year college to Stockton's bachelor's degree programs.

The County maintains the largest public library system in the State, headquartered in Toms River, with 21 branches. The library system has been expanding and improving the libraries within the constituent municipalities. Users with a library card may access eBooks and online resources; access to resources is further expanded by reciprocal borrowing agreements with the Burlington County Library and the Monmouth County Library systems. The Library also provides many educational, arts and community programs throughout the year for all ages.

Health Care Facilities

The County provides a wide variety of public services including various clinics, senior health counseling, health education, an environmental health department, a visiting homemaker's service, a public health nursing service, as well as funding for three alcohol rehabilitation centers and two mental health centers.

The County is serviced by hospitals in a number of municipalities, including the Community Medical Center (Toms River) and Monmouth Medical Center South (Lakewood), which are part of RWJ Barnabas Health, Ocean Medical Center (Brick) and Southern Ocean Medical Center (Stafford), and Shore Rehabilitation Hospital (Brick), which are part of Hackensack Meridian Health; and Encompass Health Rehabilitation Hospital (Toms River). These hospitals

provide about 1,674 beds to residents in different regions of the County. The RWJ Barnabas Health Care System includes another nine New Jersey hospitals and is the State's largest health care system, providing the best of academic medicine and research to create healthier communities. In addition, the United States Veterans Administration operates the James J. Howard Veterans Outpatient Clinic in Brick Township, which provides primary care and specialty health services to veterans and their families. A new 68,000-square-foot outpatient clinic for veterans is being built in Toms River and is expected to be completed by early summer 2024.

Community Medical Center is a fully accredited acute care hospital and maintains national accreditation in multiple specialty areas. Highly sophisticated services, not typically found in a community hospital, include advanced cancer, cardiac, emergency, maternity and neurology care, as well as cutting edge surgical care. Patients have access to advanced technology and state-of-the-art imaging technology. In addition, the cancer center features one of the most sophisticated linear accelerators used for radiation therapy, a CyberKnife for treating inoperable tumors and holistic therapies to care for the whole person. As one of the area's most trusted providers of maternal and children's services, the facility offers a Level II special care nursery with 24/7 onsite neonatologists for newborns, a dedicated pediatric unit, and a pediatrician in the emergency department. The emergency department at CMC is one the largest providers of emergency care in New Jersey. Community Medical Center provides a broad array of health and wellness programs designed to help people achieve and maintain healthy lifestyles and optimal health.

Environmental Quality

Significant portions of the County's undeveloped land are environmentally sensitive, including the beach dunes, the coastal wetlands and the Pinelands. The dune systems of the barrier islands protect the beaches and mainland from storms and erosion. The wetland areas along the coast serve as a primary manufacturer, storehouse and distributor of nutrients to the marine food chain, are a natural habitat for waterfowl and other wildlife, and act as a buffer against flood and wave damage to inland areas. The Pinelands, in addition to being an important ecosystem of rare and unique flora and fauna, provides one of the largest reservoirs of potable ground water in the State. Approximately 60 percent of Ocean County is permanently preserved through federal, state, county and local programs. This not only protects the County's environmental resources, but also ensures that the quality of life will be maintained for our residents and visitors.

There are numerous programs that protect the overall environmental quality of the County. The County has undertaken an extensive Water Quality Management Program to address its present and future wastewater needs. Among established regulatory programs are the Wetlands Act, which restricts development in wetlands, the Coastal Area Facilities Review Act, commonly referred to as CAFRA, which regulates and evaluates impacts to the coastal environment, and the Pinelands Protection Act, which mandates the development of a comprehensive management plan requiring County conformance.

The State Planning Act required the creation of a *State Development and Redevelopment Plan* designed to achieve the highest degree of compatibility between municipal, county and state plans. The plan is a document intended to guide growth and development in the right places throughout the State. It encourages coordination of development and public investments with towns and strives to minimize duplication efforts.

The Office of Planning Advocacy, under the NJ Business Action Center within the Department of State, coordinates statewide planning to protect the environment and guide future growth into compact mixed-used development and redevelopment. The Office of Planning Advocacy continues the process of Plan Endorsement, an official recognition that a regional, county, or local plan is consistent with the State Plan. Currently, eight (8) Ocean County municipalities have received Plan Endorsement and another nine (9) municipalities are currently petitioning for Plan Endorsement. Ocean County continues to work closely with the state and its municipalities to ensure consistency with State plans and maximize efficiencies in government operations.

In 1998, Ocean County established a Natural Lands Trust Fund Program to acquire and maintain natural areas in the County. The benefits of the program include protecting critical environmental resources, maintaining the rural character of the County and buffering areas not compatible with development. To date, 346 properties totaling over 29,941.26 acres have been acquired. The program also has a farmland preservation component, which seeks to protect

and enhance active agriculture in the County. These preservation efforts have protected 58 farms with over 3,579.70 acres, primarily in the northwest part of the County.

In 2019, the County completed the purchase of a nearly 8,000 acre tract known as the Forked River Mountains. This area shelters the headwaters of the Forked River and its tributaries, forming high quality habitat for threatened and endangered plant & wildlife species. This area also offers some of the nicest views in the County, spanning tens of thousands of acres of pitch pine with sights of Lakehurst Naval Station hangers in the distance.

In 2020, Ocean County updated its “Open Space, Parks and Recreation Plan” as an amendment to its *Ocean County Master Plan*. This update incorporates a 2019 referendum to the open space tax and established policies for utilizing the tax for recreation and historic preservation purposes. The County of Ocean continues to work with various organizations for the protection of environmental resources, including the US Environmental Protection Agency (USEPA), NJ Department of Environmental Protection (NJDEP), Barnegat Bay Partnership (BBP), Ocean County Soil Conservation District (OCSCD), and Jacques Cousteau National Estuarine Research Reserve (JC NERR), among others.

Ocean County is a participating member of the BBP and provides representation on its various committees to work with its partners to protect and enhance the quality of the National Barnegat Bay – Little Egg Harbor Estuary and its watershed, which is almost entirely within Ocean County. The BBP’s most recent planning document, the *2021 Barnegat Bay Comprehensive Conservation Management Plan (CCMP)* is a long-term plan for protecting and restoring clean water and healthy living resources in the bay and its watershed. It establishes four main priority areas for action: water quality, water supply, living resources and land use; and specifies goals and action items to achieve those objectives. Ocean County continues to support and take the lead on several action items including open space acquisition stormwater basin retrofits and pump out boats.

The County has been an active participant in the federal Clean Vessel Act Program since its introduction in New Jersey in 1993. The program provides funding for the installation of vessel sewage pump out facilities at marinas and boat basins. Currently 50 of the 145 pump out stations installed in New Jersey under the program are located in Ocean County. In addition, the CVA provides supplemental funding for operation and maintenance for the marina facilities and the pump out boats. Ocean County funds the operation of six full-time mobile pump out boats in Barnegat Bay, in partnership with the Ocean County Utilities Authority, the NJDEP, and the CVA. Through the 2023 boating season, about 2.6 million gallons of concentrated sewage have been removed from the holding tanks and portable toilets of 120,000 recreational boats that could otherwise have been discharged directly into the Barnegat Bay and the Little Egg Harbor Bay. This service is provided free of charge to boaters.

Solid Waste Management

Ocean County’s solid waste management strategy includes a very successful and aggressive mandatory recycling program, which began in October 1988. The *Ocean County District Solid Waste Management Plan* provides for the operation of two County Recycling Centers by the Department of Solid Waste Management: the Northern Recycling Center (NRC) in Lakewood Township and the Southern Recycling Center (SRC) in Stafford Township. The NRC contains the County’s Materials Processing Facilities (MPF’s), housing state-of-the-art equipment that enables the County to process nearly 500 tons of single stream recyclables (plastics, metals, paper, and glass) per day. The SRC serves as a transfer station, where the towns in southern Ocean County deliver recyclables to be transferred up to the NRC for processing. Both centers are designed to accommodate County population growth into the future and include fully operational scale houses, recyclables drop-off areas, and vegetative waste services.

In recent years, Ocean County and its facility operator, Atlantic Coast Recycling, have collaborated on over \$9 million in capital improvements to the NRC’s processing equipment. Upgrades to the MPF’s were needed to adapt to evolving global recycling markets which created stricter standards for recycling commodities and increased costs for recycling operators. Some notable improvements included a new glass removal and cleanup system, additional optical sorters, an upgraded fiber (paper) baler, new infeed conveyors, a new ballistic separator (sorts 2D material from 3D material), and new “non-wrapping” screens (which prevent contaminants from wrapping around sorting equipment. These improvements have reduced operating costs, improved efficiency, increased employee safety, and produced higher

quality commodities. These upgrades, and additional planned improvements, demonstrate Ocean County's commitment to maintaining an adaptive MPF and advanced recycling program now and into the future.

Ocean County's Recycling Centers continue to provide services to residents, offering designated drop-off areas for standard recyclables, as well as fully staffed "special waste" buildings that accept additional items (electronics, paint, motor oil, light bulbs, batteries, etc.) during their regular business hours. The Paint Management Program is available at both County centers and eight additional municipal collection sites; residents may bring latex, oil-based, and/or marine paint to these locations for proper disposal. The County also operates a Regional Leaf and Vegetative Waste Composting Program, providing residents, municipalities, and landscapers composting services at both the NRC and SRC, where leaves and brush are processed into compost and mulch. As part of this cooperative program, County-owned composting equipment travels to additional municipal compost sites to process their composting materials. The benefits of this program are passed on to the community, as residents and landscapers are encouraged to bring yard waste to recycling centers or pick up compost and mulch for personal use. These services are offered free of charge to residents.

To further recycling and responsible waste disposal efforts, the Department of Solid Waste Management coordinates free Household Hazardous Waste and Residential Document Shredding programs. Household Hazardous Waste events are held throughout Ocean County each spring and fall to allow residents to safely and properly dispose of hazardous items not accepted at County recycling centers such as gasoline, stains, pesticides, cleaning products, and fire extinguishers. Residential Document Shredding events provide residents the opportunity to recycle sensitive documents safely and securely, at various locations throughout Ocean County and at no cost to residents.

Introduced in 1995, Ocean County's Recycling Reserve Sharing Program distributes profits from recycling operations with its participating municipalities. Revenue share is based upon profits received from recyclable commodities sales and is calculated twice annually, with towns paid a "per ton" rate based upon tonnages delivered to the recycling centers. Since this program's inception, the County has paid its municipalities nearly \$18 million for their recycling efforts, despite recent years in which the recycling industry as a whole struggled to generate revenue. Encouragingly, improved global markets and the County's commitment to maintaining its facilities have Ocean County poised to maximize recycling profits moving forward.

Unlike many other New Jersey counties, Ocean County has no outstanding debt issues relating to solid waste disposal facilities. As such, the deregulation of waste flow that occurred in New Jersey in 1997 has not had any impact upon the finances of the County.

Ocean County is committed to educating residents about recycling and composting. The County maintains an Ocean County Recycling Education Center and a Backyard Composting Demonstration Site, both located at the NRC. The Education Center is used in conjunction with tours of the NRC and hosts environmental education events, such as the County's Master Composter Training Program. The Backyard Composting Demonstration Site helps increase public awareness on the benefits of home composting and offers "how to" compost classes for County residents each spring and fall, taught by Ocean County Master Composter volunteers. Each of these outreach initiatives aim to educate Ocean County residents on the importance and benefits of recycling and composting, with an overall goal of diverting as much material from the typical waste stream (i.e. from the landfill) as possible. Efforts to do so can have tremendous environmental, as well as economical benefits.

Recreational Facilities

The County, known for its coastline, also contains many inland recreational facilities and natural areas. There are numerous State parks and forests totaling 33,878 acres. The State of New Jersey also manages 69,658 acres in Fish, Game and Wildlife Management Areas and 4,734 acres within the New Jersey Natural Lands Trust. The Federal government protects over 24,575 acres within the Barnegat Division of the Edwin B. Forsythe National Wildlife Refuge. The refuge is located in portions of Barnegat, Eagleswood, Long Beach, Ocean, and Stafford Townships in southern Ocean County and in the Reedy Creek section of Brick Township to the north.

The County and its municipalities maintain a number of parks for the enjoyment of area residents. The Ocean County Parks System consists of a network of 30 facilities including twenty-two parks, two golf courses, four conservation

areas, and two historic sites, totaling more than 4000 acres. The parks range in size from 3 acres to over 900 acres and offer both active and passive recreation. Active recreation opportunities include soccer, baseball/softball, basketball, disc golf, off-leash dog parks, as well as fishing and crabbing. Passive recreation opportunities include, hiking, biking, bird watching, nature photography and cross-country skiing.

Ocean County is in the process of designing and obtaining permits for a regional park in Manchester Township. This will be the 31st facility and will fulfill the goal of having a county park within a reasonable distance for every resident in Ocean County. The Department of Parks and Recreation has acquired the properties that will make up the new County Park, from both private landowners as well as from Manchester Township. This new park will be a combination of active and passive recreation with amenities for everyone and will adjoin land already preserved by the County Natural Lands Trust, along the Ridgeway Branch of the Toms River.

Ocean County now offers four staffed nature centers which are open to the public year-round, at Cloverdale Farm County Park (Barnegat), Cattus Island County Park (Toms River), Jakes Branch County Park (Beachwood), and Wells Mills County Park (Ocean). The Cedar Bridge Tavern County Historic Site (Barnegat), acquired in 2012, is believed to be the location of one of the last skirmishes of the American Revolution. The historic site was rehabilitated and features an exhibition on local history and includes a living museum of life in early America.

Another old historic site, the Cox House (Barnegat), acquired in 2019, has stood prominently as the iconic manor located at the center of historic Barnegat Village. Once home to two barrier-breaking women, Mary Etta Cox (1867-1949) and Mary Ann Cox (1901-1983), the house is currently in the first phase of renovation, which covers all exterior parts of the building.

The Ocean County Departments of Parks & Recreation, Planning, and Engineering are in the process of transforming the abandoned Barnegat Branch of the Central Railroad of New Jersey into a “rails-to-trails” project known as the Barnegat Branch Trail. Once completed, the Barnegat Branch Trail will link seven municipalities between Barnegat and Toms River with a 15.6 mile trail which will provide residents and visitors a unique recreational experience. Interpretive signs, which highlight local plants and animals, environmental features, and the history of each town will be located at various points along the trail. As of May 2024, 12.7 miles of the trail have been completed.

Community Development Activities

Since 1984, the County has been involved with the federal Community Development Block Grant Program (CDBG), which funds projects in 29 municipalities. With the implementation of the HOME Program in 1992 the County funds projects in all 33 municipalities, including the entitlement communities of Brick, Toms River, Lakewood and Jackson Townships. The County has been awarded approximately \$1.8 million in CDBG grant funds and approximately \$1.49 million in HOME grant funds for the program year 2023. Acting on the recommendations of the CDBG Committee, the Board of Commissioners allocates CDBG funding for projects submitted by the 29 participating municipalities (applications are submitted on an every-other-year schedule), public services and non-profit organizations. Brick, Jackson, Lakewood and Toms River Townships are separate entitlements and will receive approximately \$2.31 million in FY 2023 CDBG funding directly from HUD.

Major project activities considered for funding include housing rehabilitation; removal of architectural barriers; improvements to public facilities; parks and recreational facilities; public services; handicapped services; senior and community facilities; drainage improvements; water and sewer improvements; and sidewalks and street improvements. In addition, acting on the recommendations of the County Housing Advisory Committee (CHAC), the Board of Commissioners allocates HOME funding for four countywide programs; Housing Rehabilitation, Rental Assistance, First Time Homebuyer and Community Housing Development Organizations (CHDOs).

Under the CDBG and HOME Housing Rehabilitation Programs, income-eligible homeowners may receive up to \$50,000 in home repairs to bring their dwellings up to State and local code. The cost of the repairs is in the form of an interest-free prorated 10-year mortgage lien on the property. Approximately twenty low and moderate-income households were rehabilitated under these programs during FY 2023.

The County's First-Time Home Buyer Program, through a cooperative effort with local non-profit organizations and area financial institutions, is designed to assist eligible low and moderate-income County residents in the purchase of a home. The program provides reduced bank fees and closing costs, as well as down payment/closing cost assistance to pre-approved homebuyers. In September 2021, the deferred loan amount was increased from \$10,000 to \$15,000 in response to housing market trends and lender feedback. The assistance is in the form of a deferred loan in the amount of \$15,000, and is secured by a second mortgage, which is forgiven and canceled after a period of six years. Since 1992, about \$5.4 million dollars have been provided to over 585 households to assist in the purchase of their first home. The program also provides educational and mortgage counseling to eligible homebuyers.

The County has also developed partnerships with seven qualified local non-profit organizations to construct affordable rental housing under the HOME CHDO Program. This activity has resulted in a significant increase of the affordable rental housing stock for low and moderate-income residents. Since the program's inception, approximately \$9.3 million has been invested in this program, resulting in 159 total units of affordable rental housing, including 56 single family homes, in many towns across the County.

Additionally, under the HOME Program, the County operates a Tenant-Based Rental Assistance Program (TBRA), which is operated by the Ocean County Board of Social Services. This program provides a two-year rental subsidy to low and moderate-income residents with the goal of assisting those served in becoming self-sufficient. During FY 2023, approximately 20 families were provided with rental subsidies under this program. Since the inception of the Tenant Based Rental Assistance program, approximately 985 families have been provided rental subsidies.

In 2020, the County received CDBG-CV (CARES Act) funds directly from HUD in the amount of \$2,918,956 to prevent, prepare for and respond to COVID-19 to benefit low and moderate income households affected by the pandemic. This funding has been fully allocated to several non-profits as well as a rental assistance program. The County continues to work with the non-profits and programs to effectively administer these funds.

PROVISIONS FOR THE PROTECTION OF GENERAL OBLIGATION DEBT

Local Bond Law (N.J.S.A. 40A:2-1 et seq.)

The Local Bond Law governs the issuance of bonds and notes by local units to finance certain capital improvements. Among its provisions are requirements that bonds must mature within the statutory period of usefulness of the projects which are being bonded, that bonds be retired in serial installments and that a 5% cash down payment be generally provided.

Debt Limits

The net debt of the County is limited by the Local Bond Law to an amount equal to 2% of its equalized valuation basis. The equalized valuation basis of the County is set by statute as the average value of all taxable real property within its boundaries as annually determined by the State Board of Taxation for each of the three most recent years. Certain categories of debt are permitted by statute to be deducted for purposes of computing the statutory debt limit.

Exceptions to Debt Limits - Extensions of Credit

The debt limit of the County may be exceeded to the extent of two-thirds of the amount of obligations for which an appropriation for payment was made in the annual budget for the current fiscal year and in certain other circumstances and otherwise only with the approval of the Local Finance Board (the "LFB") in the Division of Local Government Services in the New Jersey Department of Community Affairs (the "Division"). If all or any part of a proposed debt authorization would exceed its debt limit, the County must apply to the LFB for an extension of credit. In considering the request, the LFB focuses its review on the effect of the proposed authorization on outstanding obligations of the County, operating expenses of the County and the potential ability of the County to meet the proposed obligations. If the LFB determines, pursuant to statute and regulation, that a proposed debt authorization would materially impair the ability of the County to meet its obligations or to provide essential services, approval is denied.

The County is within its statutory debt limit at 0.43%.

Short-term Financing

The County is authorized to issue various types of short-term debt obligations, including bond anticipation notes, tax anticipation notes and emergency notes.

The County, in anticipation of the issuance of bonds, may in accordance with the Local Bond Law issue bond anticipation notes. Such notes may be issued for a period not exceeding one year and may be renewed for periods not exceeding one year for up to ten years from the date of original issuance of the notes, but such notes cannot, however, be renewed beyond the third anniversary date of the original issue unless a reduction in principal amount equal to the first legally payable installment of the bonds for which the notes were issued is made on or before the third and each succeeding anniversary date from funds other than proceeds of obligations. Bond anticipation notes may be extended and be paid not later than the first day of the fifth month following the close of the tenth fiscal year following the date of the original notes.

Debt Statements

The County must report all new authorizations of debt or changes in previously authorized debt to the Division. The Supplemental Debt Statement, as this report is known, must be submitted to the Division before final passage of any debt authorization. Before January 31 of each year the County must file an Annual Debt Statement with the Division. This report is made under oath and states the authorized, issued and unissued debt of the County as of the previous December 31. Through the Annual and Supplemental Debt Statements, the Division monitors all local borrowings. Even though the County's authorizations are within its debt limits, the Division is able to enforce state regulations as to the amounts and purposes of local borrowings.

OCEAN COUNTY UTILITIES AUTHORITY

The Ocean County Utilities Authority (the "Authority"), formerly known as The Ocean County Sewerage Authority, has developed a comprehensive sewerage collection and treatment plant system (the "System"). The Authority's System was essentially completed in 1979 at an estimated cost of \$502 million and is in operation.

The Authority has also issued bonds through the New Jersey Wastewater Treatment Trust, now known as the New Jersey Infrastructure Bank (the "I-Bank") program ("Program"). Under the Program the Authority issued the bonds to the I-Bank and the State of New Jersey evidencing the loans from the I-Bank and the State, the proceeds of which were used to finance improvements and replacements to the Authority's Water Pollution Control Facilities. It is the Authority's policy to utilize these loans to the greatest extent possible. For eligible projects, a portion of the cost is funded by an interest-free "Fund" loan and the remaining balance of the cost by an "I-Bank" loan, which bears market-rate interest. Interest is credited to the Authority's account on funds temporarily held by the I-Bank.

A deficiency advance contract between the Authority and the County has been executed and provisions of the contract obligate the County to provide for the payment of the principal and interest which may become due on any outstanding project bonds or permanent bonds of the Authority, including the bonds referred to above. Although the County's obligation pursuant to the provisions of the deficiency advance contract is a direct and general obligation, the Authority anticipates that its operating costs and the principal, interest and reserve requirements on its obligations will be paid from the revenues derived from service charges to the communities and municipal utility authorities and private utility companies using the Authority's System. The provisions of the deficiency advance contract have never been utilized. As of July 1, 2024, the Authority has \$88,822,072 of principal outstanding that is subject to the deficiency contract.

OTHER AUTHORITY AND FIRE DISTRICT DEBT

There are municipally created utilities authorities operating within the County, which are developing or have developed sewerage facilities for the benefit of local government units within the County. The authorities with temporary or permanent debt outstanding (which debt in some cases is additionally secured by the ad valorem taxing power of an underlying township) are Beachwood Sewerage Authority, Berkeley Township Municipal Utilities Authority and Berkeley Township Sewerage Authority, Brick Township Municipal Utilities Authority, Toms River Municipal Utilities Authority, Lacey Municipal Utilities Authority, Lakewood Municipal Utilities Authority, Little Egg Harbor Municipal Utilities Authority, Ocean Township, Manchester Township, South Toms River Sewerage Authority, Stafford Township and Tuckerton Water Utility.

Fire districts constituting special taxing districts have been created in several municipalities in the County. These fire districts have statutory authority to issue, and some of these districts have issued general obligation bonds after voter approval and review by the Local Finance Board in the State of New Jersey Department of Community Affairs, Division of Local Government Services.

TAX COLLECTION PROCESS

County taxes are collected by the municipalities and paid to the County Treasurer. The municipal levy includes all County, library, health, school, fire district, and municipal taxes. Each municipality is required by law to pay to the County Treasurer 100% of its share of the County Purpose Tax on the fifteenth day of February, May, August and November of each year. The County receives its share of the taxes collected first from the taxes collected by each municipality.

The County has received 100% of its tax levy during the levy year for each of the last five years.

COUNTY BUDGET AND SUMMARY OF REVENUES AND APPROPRIATIONS

Local Budget Law (N.J.S.A. 40A:4-1 et seq.)

The foundation of the county local finance system is the annual cash basis budget. Every county must adopt an operating budget in the form required by the Division. Items of revenue and appropriation are regulated by law and must be certified by the Director of the Division of Local Government Services (the "Director") prior to final adoption of the budget. The budget law requires each county to prepare its budget on a cash basis appropriating sufficient funds to meet all debt service and operating requirements including provision for mandatory payments.

The Director, who reviews and certifies the adequacy of such appropriations, is assisted in this duty by the Bureau of Financial Regulation and Assistance.

The budget law permits counties to raise revenue through taxation for county purposes. The county is restricted in the amount of increase it may raise through taxation from year to year. Counties receive 100% of their tax levies, which are collected and paid to them by municipalities.

Anticipated non-tax revenues are limited to the amount realized in the previous year unless the Director authorizes a higher figure based on assured sources.

Tax anticipation notes are limited in amount by law and must be paid off in full within six months of the succeeding fiscal year.

The Director has no authority over individual operating appropriations, unless a specific amount is required by law, but the review functions focusing on anticipated revenues serve to protect the solvency of all counties. By law and regulation, local budgets, as adopted, must be in balance on a "cash basis".

County Budget “CAPs” (N.J.S.A. 40A:4-45.1 et seq.)

The annual budgets of counties must conform to the provisions of the “Local Government CAP Law” as amended from time to time. These provisions limit the increase in the County tax levy to the lesser of 2.5% or the cost of living adjustment, defined as the Implicit Price Deflator for State and Local Government Purchases of Goods and Services, computed by the U.S. Department of Commerce. Certain CAP exemptions allow for modification to the ceiling for such items as: expenditures necessary to comply with court orders or certain federal or state mandates, added revenue generated by new construction, contracts or agreements between local governments and authorities, debt service, capital expenditures, programs funded in cooperation with federal and state agencies, and certain funding to the County College.

On July 13, 2010 the Governor approved legislation which, in addition to the “Local Government CAP Law” described above, amends the property tax levy cap that was initially enacted in 2007. This law puts a limitation of 2% on the property tax levy set in the annual budget. The law allows for exclusions for capital expenditures, debt service, increases in pension contributions and accrued liability for pension contributions in excess of 2%, and increases in health care costs in excess 2%. This limitation may be exceeded by approval of an affirmative vote in excess of 50% of the people voting at a special referendum for such purposes.

Any legislation or constitutional amendments which alter the existing system of real property taxation in New Jersey may adversely affect the security and/or market value of bonds, notes and other obligations of counties and municipalities (such as the County).

Miscellaneous Revenues

Miscellaneous revenues generally consist of operating surplus from prior years, State and federal aid, interest on investments, permit fees, motor vehicle fines, real estate transfer fees, and the reimbursement costs of patients and prisoners in county and State institutions.

“No miscellaneous revenues from any source shall be included as an anticipated revenue in the budget in an amount in excess of the amount actually realized in cash from the same source during the next preceding fiscal year, unless the director shall determine upon application by the governing body that the facts clearly warrant the expectation that such excess amount will actually be realized in cash during the fiscal year and shall certify such determination, in writing, to the local unit.” N.J.S.A. 40A: 4-26.

“No budget or amendment thereof shall be adopted unless the director shall have previously certified his approval thereof.” N.J.S.A. 40A:4-10.

The exception to this is the inclusion of categorical grants-in-aid contracts for their face amount with an offsetting appropriation. The fiscal years for such grants rarely coincide with the County's calendar fiscal year.

Deferral of Current Expenses

Emergency appropriations made after the adoption of the budget and determination of the tax rate may be authorized by the Board of Commissioners. However, with minor exceptions, such appropriations must be included in full in the following year's budget. When such appropriations amend the adopted operating budget, consent of the Director must be obtained. (N.J.S.A. 40A:4-46 et seq.).

MUNICIPAL BANKRUPTCY

The undertakings of the County should be considered with reference to Chapter IX of the Bankruptcy Act, 11 U.S.C. Section 901, et seq., as amended by Public Law 95-598, approved November 6, 1978, and as further amended on November 3, 1988, by an Act to Amend the Bankruptcy Law to Provide for Special Revenue Bonds, and for Other Purposes, and on October 22, 1994, by the Bankruptcy Reform Act of 1994, and by other bankruptcy laws affecting creditors' rights and municipalities in general. Chapter IX permits a state or any political subdivision, public agency, or instrumentality that is insolvent or unable to meet its debts to file a petition in a bankruptcy court for the ultimate

purpose of effecting a plan to adjust its debts. Chapter IX directs such a petitioner to file with the Bankruptcy Court a list of the petitioner's creditors; provides that a petition filed under this chapter shall operate as a stay of the commencement or continuation of any judicial or other proceeding against the petitioner, with the exception that such petition does not operate as a stay of application of pledged special revenues to the payment of indebtedness secured by such revenues; grants priority to administrative and operational expenses and to debts owed for services or material, up to \$4,000 per individual or corporation, actually provided within ninety (90) days of the filing of the petition; directs a petitioner to file a plan for the adjustment of its debts; provides that any securities issued under a reorganization plan will be exempt from the securities laws and, therefore, exempt from registration requirements; permits the petitioner, during bankruptcy proceedings, to continue to pay pre-petition debt without prior court approval; and provides that the plan must be accepted by a class of creditors, in writing, by or on behalf of creditors holding at least two-thirds in amount and more than one-half in number of the allowed claims of such class held by creditors. A plan shall not be approved by the Bankruptcy Court unless it is in the best interests of creditors and is feasible.

Reference should also be made to N.J.S.A. 52:27-40 thru 52:27-45.11, which provides that any county, municipality, or other political subdivision of the State has the power to file a petition with any Bankruptcy Court, provided the approval of the municipal finance commission has been obtained, and such petition has been authorized by ordinance of the governing body of the political subdivision. The powers of the municipal finance commission have been vested in the Local Finance Board. The Bankruptcy Act specifically provides that Chapter IX does not limit or impair the power of a state to control, by legislation or otherwise, the procedures that a municipality must follow in order to take advantage of the provisions of the Bankruptcy Act. However, the Bankruptcy Act does provide that a municipality must obtain any regulatory or electoral approval necessary under constitutional, statutory, or charter provisions, for actions taken under the reorganization plan.

STATEMENT OF LITIGATION COUNTY COUNSEL

The County of Ocean, its officers and employees are defendants in various lawsuits. The County Counsel has reviewed the status of the pending lawsuits. With regard to the pending litigation, it is the opinion of the County Counsel that the pending litigation shall not be finally determined so as to result individually, or in the aggregate, in a final judgment against the County which would substantially and materially affect the financial status of the County.

DOCUMENTS ACCOMPANYING DELIVERY OF THE BONDS

Absence of Litigation

Upon the delivery of the Bonds, the County shall furnish a certificate of the County Counsel, dated the date of delivery of the Bonds, to the effect that there is no litigation of any nature pending or threatened to restrain or enjoin the issuance, sale, execution or delivery of the Bonds, or in any way contesting or affecting the validity of the Bonds or any of the proceedings taken with respect to the issuance and sale thereof or the application of moneys to the payment of the Bonds. In addition, such certificate shall state that there is no litigation of any nature now pending or threatened by or against the County wherein an adverse judgment or ruling could have a material adverse impact on the financial condition of the County or adversely affect the power of the County to levy, collect and enforce the collection of taxes or other revenues for the payment of the Bonds, which has not been disclosed in this Official Statement.

Legal Matters

The legality of the Bonds will be subject to the final approving opinions of Dilworth Paxson LLP, of Freehold, New Jersey ("Bond Counsel"), the forms of which are set forth in Appendix C hereto. Such opinions will be to the effect that the Bonds are valid and legally binding obligations of the County and, unless paid from other sources, the County is authorized and required by law to levy ad valorem taxes upon all taxable real property within the County for the payment of the Bonds and the interest thereon without limitation as to rate or amount.

Certificates of County Officials

The original purchasers of the Bonds shall receive a certificate signed by the County officials (a) certifying that this Preliminary Official Statement, as of the date of this Preliminary Official Statement, does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made herein, in the light of the circumstances under which they were made, not misleading; and (b) certifying that there has been no material adverse change in the condition, financial or otherwise, of the County from that set forth in or contemplated by this Preliminary Official Statement to the date of delivery of the Bonds. In addition, the original purchaser of the Bonds shall also receive certificates in form satisfactory to Dilworth Paxson LLP, Freehold, New Jersey, (“Bond Counsel”) evidencing the proper execution and delivery of the Bonds and receipt of payment therefore, and a certificate dated as of the date of the delivery of the Bonds, and signed by the officers who signed the Bonds, stating that no litigation is then pending or, to the knowledge of such officers, threatened to restrain or enjoin the issuance or delivery of the Bonds or the levy or collection of taxes to pay the Bonds or the interest thereon, or questioning the validity of the statutes or the proceedings under which the Bonds are issued, and that neither the corporate existence or boundaries of the County, nor the title of any of the said officers to their respective offices, is being contested.

TAX MATTERS

Federal Income Taxes

The Internal Revenue Code of 1986, as amended (the “Code”) imposes certain requirements that must be met at and subsequent to the issuance and delivery of the Bonds for interest thereon to be and remain excluded from gross income of the owners thereof for federal income tax purposes. Noncompliance with such requirements could cause the interest on the Bonds to be included in gross income for federal income tax purposes retroactive to the date of issuance of the Bonds. The County and the College have covenanted to comply with the provisions of the Code applicable to the applicable Bonds, and have covenanted not to take any action or permit any action that would cause the interest on the applicable Bonds to be included in gross income under Section 103 of the Code or cause interest on the Bonds to be treated as an item of tax preference for purposes of the alternative minimum tax imposed by the Code. Bond Counsel will not independently verify the accuracy of those certifications and representations.

Assuming the County and the College observe their respective covenants with respect to compliance with the Code, Bond Counsel is of the opinion that, under laws, regulations, rulings and judicial decisions existing on the date of the original delivery of the Bonds, interest on the Bonds is excluded from gross income of the owners thereof for federal income tax purposes under Section 103 of the Code. Bond Counsel is further of the opinion that interest on the Bonds is not treated as a preference item in calculating the alternative minimum tax imposed by the Code, however, interest on the Bonds is included in the “adjusted financial statement income” of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code. See “Certain Federal Tax Considerations” below.

State Taxes

In the opinion of Bond Counsel, under the laws of the State of New Jersey, as enacted and construed on the date of original delivery of the Bonds, interest on the Bonds and gain from the sale thereof are not included in gross income under the New Jersey Gross Income Tax Act.

Original Issue Premium

The initial public offering price of certain Bonds may be greater than the stated redemption price thereof at maturity (each a “Premium Bond”). The difference between the initial public offering price for any such Premium Bond and the stated redemption price at maturity is “original issue premium.” For federal income tax purposes original issue premium is amortizable periodically over the term of a Premium Bond through reductions in the holder’s tax basis for the Premium Bond for determining gain or loss from sale or redemption prior to maturity. Amortizable premium is accounted for as reducing the tax-exempt interest on the Premium Bond rather than creating a deductible expense or loss. Purchasers of the Bonds should consult their tax advisors for an explanation of the accrual rules for original issue premium and any other federal, state or local tax consequences of the purchase of any Premium Bonds.

Original Issue Discount

The initial public offering price of certain Bonds may be less than the stated redemption price thereof at maturity (each a “Discount Bond”). The difference between the initial public offering price for any such Discount Bond and the stated redemption price at maturity is “original issue discount.” For federal income tax purposes, original issue discount on a Discount Bond accrues to the original holder of the Discount Bond over the period of its maturity based on the constant yield method compounded annually as interest with the same tax exemption and alternative minimum tax status (if applicable) as regular interest. The accrual of original issue discount increases the holder’s tax basis in the Discount Bond for determining taxable gain or loss on the maturity, redemption, prior sale or other disposition of a Discount Bond. Purchasers of the Bonds should consult their tax advisors for an explanation of the accrual rules for original issue discount and any other federal, state or local tax consequences of the purchase of Bonds with original issue discount.

Certain Federal Tax Considerations

Ownership of the Bonds may result in collateral federal tax consequences to certain taxpayers, including, without limitation, financial institutions, S corporations with excess net passive income, property and casualty companies, individual recipients of social security or railroad retirement benefits, individuals otherwise eligible for the earned income tax credit, foreign corporations that may be subject to the foreign branch profits tax, and taxpayers who may be deemed to have incurred indebtedness to purchase or carry the Bonds. Bond Counsel will express no opinion with respect to these or any other collateral tax consequences of the ownership of the Bonds. The nature and extent of the tax benefit to a taxpayer of ownership of the Bonds will generally depend upon the particular nature of such taxpayer or such taxpayer’s own particular circumstances, including other items of income or deduction. Accordingly, prospective purchasers of the Bonds should consult their own tax advisors with respect to these and other collateral federal tax consequences resulting from ownership of the Bonds.

Bond Counsel is not rendering any opinion on any federal tax matters other than those described under the caption “TAX MATTERS.” Prospective investors, particularly those who may be subject to special rules described above, are advised to consult their own tax advisors regarding the federal tax consequences of owning and disposing of the Bonds, as well as any tax consequences arising under the laws of any state or other taxing jurisdiction.

Backup Withholding

Commencing with interest paid in 2006, interest paid on tax-exempt obligations such as the Bonds is subject to information reporting to the Internal Revenue Service (the “IRS”) in a manner similar to interest paid on taxable obligations. In addition, interest on the Bonds may be subject to backup withholding if such interest is paid to a registered owner that (a) fails to provide certain identifying information (such as the registered owner’s taxpayer identification number) in the manner required by the IRS, or (b) has been identified by the IRS as being subject to backup withholding.

Changes in Law and Post-Issuance Events

Legislative or administrative actions and court decisions, at either the federal or state level, could have an adverse impact on the potential benefits of the exclusion from gross income of the interest on the Bonds for federal or state income tax purposes, and thus on the value or marketability of the Bonds. This impact could result from changes to federal or state income tax rates, changes in the structure of federal or state income taxes (including replacement with another type of tax), repeal of the exclusion of interest on the Bonds from gross income of the owners thereof for federal or state income tax purposes, or otherwise. It is not possible to predict whether any legislative or administrative actions or court decisions having an adverse impact on the federal or state income tax treatment of holders of the Bonds may occur. Prospective purchasers of the Bonds should consult their own tax advisors regarding such matters.

Bond Counsel has not undertaken to advise in the future whether any events after the date of issuance and delivery of the Bonds may affect the tax status of interest on the Bonds. Bond Counsel expresses no opinion as to any federal, state or local tax law consequences with respect to the Bonds, or the interest thereon, if any action is taken with respect to the Bonds or the proceeds thereof upon the advice or approval of counsel other than Bond Counsel.

**ALL POTENTIAL PURCHASERS OF THE BONDS SHOULD CONSULT WITH THEIR TAX ADVISORS
IN ORDER TO UNDERSTAND THE IMPLICATIONS OF THE CODE.**

CONTINUING DISCLOSURE

The County has agreed to comply with the terms of the Securities and Exchange Commission (the “SEC”) Rule 15c2-12, as amended (the “Rule”), as it relates to the Bonds. The County will agree in separate Certificates, substantially in the forms set forth in APPENDIX D hereto, to provide certain annual financial information to the Municipal Securities Rulemaking Board (the “MSRB”), and to provide, in a timely manner, to the MSRB, notice of occurrence of certain enumerated events with respect to the Bonds, if such event is applicable and material. The specific nature of the annual financial information and the information to be contained in the notice of material events is specified in “APPENDIX D – Forms of Continuing Disclosure Certificates”.

The Issuer has engaged Digital Assurance Certification, L.L.C. (“DAC”) as its Disclosure Dissemination Agent for the purpose of ensuring ongoing compliance with its continuing disclosure filing requirements. DAC provides its clients with automated filing of rating events, templates consolidating all outstanding filing requirements that accompany reminder notices of annual and other mandatory filings, review of compliance filings by professional accountants, as well as a time and date stamp record of each filing along with the unique ID from EMMA accompanying the copy of the actual document filed. DAC also offers its clients a series of training webinars each year qualified for 12+ NJBOA certified CPE credits, as well as model secondary market compliance policies and procedures.

RATINGS

Moody’s Investors Service Inc. has assigned the Bonds a rating of Aaa. Fitch Ratings has assigned the Bonds a rating of AAA. Any explanation of the significance of such ratings may only be obtained from the rating agencies. The County furnished to the rating agencies certain information and material respecting the Bonds. There is no assurance that such ratings will remain for any given period of time or that they may not be lowered or withdrawn entirely by the rating agencies if in their judgment circumstances so warrant. Any such downward change in or withdrawal of such ratings may have an adverse effect of the market price of the bonds. A security’s rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

INDEPENDENT AUDITOR'S REPORT

The Honorable Director and Members
of the Board of Chosen Commissioners
County of Ocean
Toms River, New Jersey 08753

Opinions

We have audited the accompanying financial statements of the various funds and account group of the County of Ocean, which comprise the statements of assets, liabilities, reserves and fund balance – regulatory basis as of December 31, 2023 and 2022, and the related statements of operations and changes in fund balance – regulatory basis for the years then ended and the statement of revenues – regulatory basis and statement of expenditures – regulatory basis for the year ended December 31, 2023, and the related notes to the financial statements.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, reserves and fund balance – regulatory basis of the County of Ocean, as of December 31, 2023 and 2022, and the results of its operations and changes in fund balance – regulatory basis for the years then ended and the statements of revenues – regulatory basis, statements of expenditures – regulatory basis for the year ended December 31, 2023, in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the County of Ocean, as of December 31, 2023 and 2022, or the results of its operations and changes in fund balance for the years then ended.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County of Ocean and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the County of Ocean, on the basis of the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control(s) relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County of Ocean's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County of Ocean's ability to continue as a going concern for a reasonable period of time.

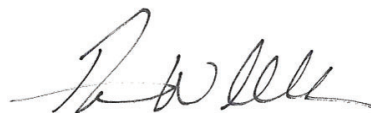

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2024, on our consideration of the County of Ocean's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County of Ocean's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Ocean's internal control over financial reporting and compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Honorable Director and Members
of the Board of Chosen Commissioners
County of Ocean
Toms River, New Jersey 08753

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements - regulatory basis of the County of Ocean, as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 20, 2024. Our report indicated that the County's financial statements were not prepared in accordance with accounting principles generally accepted in the United States of America but rather prepared in accordance with the regulatory basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Report On Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report On Compliance and Other Matters

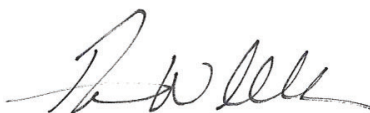

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully Submitted,

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2023

Note 1. Summary of Significant Accounting Policies

Reporting Entity

The County of Ocean was incorporated in 1850. It was then comprised of the townships of Brick, Toms River, Jackson, Plumsted, Stafford, and Union (Barnegat), which, in the aggregate, had previously been the portion of Monmouth County lying south of the Manasquan River. In 1891, Little Egg Harbor merged into the new political subdivision. Over time, this vast geographic area was carved into the 33 municipalities.

The 1850 census pegged Ocean County's population at 10,043 residents. One hundred years later it had reached 56,622. Today, as a result of unprecedented growth in the past three decades, more than 560,000 people call Ocean County home. Ocean County is the second largest county in the state containing 638 square miles of pine barrens and barrier islands and a 45-mile coastline along the Atlantic Ocean.

Toms River was selected as the "seat" of the new County government. On May 8, 1850, the first Board of Chosen Commissioners, consisting of two representatives from each of the six original townships, selected insignia to represent the public officials of the time. The sloop, schooner, and steamboat are still the official seals of the Commissioners, County Clerk, and Surrogate, respectively. The choice of these symbols reflects the rich maritime tradition of the area.

The County government operates under a five member Board of Chosen Commissioners, elected at-large by the voters of the County.

Component Units

The financial statements of the component unit of the County of Ocean are not presented in accordance with Governmental Accounting Standards Board Statement No. 14, as amended by GASB Statements 39, 61, 80, 90, and 94. If the provisions of these GASB statements had been complied with, the financial statements of the following component unit would have been either blended or discretely presented with the financial statements of the County, the primary government:

- Ocean County Board of Health
- Ocean County Board of Social Services
- Ocean County College
- Ocean County Library Commission
- Ocean County Mosquito Commission
- Ocean County Pollution Control Financing Authority
- Ocean County Utilities Authority
- Ocean County Vocational-Technical School

Basis of Accounting, Measurement Focus and Basis of Presentation

The financial statements of the County of Ocean contain all funds and account groups in accordance with the "Requirements of Audit" as promulgated by the State of New Jersey, Department of Community Affairs, Division of Local Government Services. The principles and practices established by the Requirements of Audit are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds.

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

Note 1. Summary of Significant Accounting Policies (continued)

Generally, the financial statements are presented using the flow of current financial resources measurement focus and modified accrual basis of accounting with minor exceptions as mandated by these "Requirements". In addition, the prescribed accounting principles previously referred to differ in certain respects from accounting principles generally accepted in the United States of America applicable to local government units. The more significant differences are explained in this Note.

In accordance with the "Requirements", the County of Ocean accounts for its financial transactions through the use of separate funds which are described as follows:

Current Fund - is used to account for all revenues and expenditures applicable to the general operations of County departments.

Grant Fund - is used to account for resources and expenditures of Federal, State and Local Grant Funds.

Trust Funds - are used to account for assets held by the County in a trustee capacity or as an agent for individuals and other governmental agencies. Funds held by the County which have restrictions placed on the use of such funds are recorded in the Trust Fund.

General Capital Fund - is used to account for financial resources to be used for the acquisition of general capital facilities. The major resources are derived from the sale of serial bonds and bond anticipation notes.

General Fixed Assets Account Group – is used to account for fixed assets used in general government operations.

Budgets and Budgetary Accounting - The County must adopt an annual budget for its Current Fund and Open Space Trust in accordance with *N.J.S.A.40A:4* et seq. *N.J.S.A.40A:4-5* requires the governing body to introduce and approve the annual county budget no later than February 10 of each year. At introduction, the governing body shall fix the time and place for a public hearing on the budget and must advertise the time and place at least ten days prior to the hearing in a newspaper published and circulating in the County. The public hearing must not be held less than twenty-eight days after the date the budget was introduced. After the hearing has been held, the governing body may, by majority vote, adopt the budget or may amend the budget in accordance with *N.J.S.A.40A-9*. Amendments to adopted budgets, if any, are detailed in the statements of revenues and expenditures.

An extension of the statutory dates for introduction, approval, and adoption of the county budget may be granted by the Director of the Division of Local Government Services, with the permission of the Local Finance Board. Budgets are adopted on the same basis of accounting utilized for the preparation of the County's financial statements.

Cash, Cash Equivalents and Investments - Cash and cash equivalents include petty cash, change funds, and cash on deposit with public depositories. All certificates of deposit are recorded as cash regardless of the date of maturity. Under GAAP, investments are reported at fair value but under regulatory basis of accounting, investments are stated at cost. Therefore, unrealized gains or losses on investments have not been recorded.

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

Note 1. Summary of Significant Accounting Policies (continued)

New Jersey county and municipal units are required by *N.J.S.A. 40A:5-14* to deposit public funds in a bank or trust company having its place of business in the State of New Jersey and organized under the laws of the United States or of the State of New Jersey or in the New Jersey Cash Management Fund. *N.J.S.A. 40A:5-15.1* provides a list of investments which may be purchased by New Jersey county and municipal units. In addition, other State statutes permit investments in obligations issued by local authorities and other state agencies.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Governmental Unit Deposit Protection Act ("GUDPA"), a multiple financial institutional collateral pool, which was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of governmental units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the amount of their deposits to the governmental units.

The cash management plan adopted by the County of Ocean requires it to deposit funds in public depositories protected from loss under the provisions of the Act.

Interfunds - Interfund receivables and payables that arise from transactions between funds are recorded by all funds affected by such transactions in the period in which the transaction is executed. Interfund receivables in the current fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - the costs of inventories of supplies for all funds are recorded as expenditures at the time the individual items are purchased. GAAP requires that the cost of inventories be reflected on the balance sheet until utilized and expended. A general supplies inventory is reported in the current fund and is maintained through a central supply warehouse. Departments are charged for the cost of supplies used, as they are withdrawn from the warehouse. The inventory is valued at cost. Golf course pro shop inventories are reported in the current fund and maintained through the golf course pro shops. Inventory purchases are charged to budget appropriations. The balance sheet at December 31, 2023 reflects inventory on hand, verified by physical count, and stated at cost.

General Fixed Assets – Property and equipment purchased by the Current and General Capital Fund are recorded as expenditures at the time of purchase and are not capitalized. All interest costs are recorded as expenditures when paid.

Accounting for governmental fixed assets, as required by N.J.A.C. 5:30-5.6, differs in certain respects from accounting principles generally accepted in the United States of America. In accordance with the regulations, all local units, including municipalities, must maintain a general fixed assets reporting system that establishes and maintains a physical inventory of nonexpendable, tangible property as defined and limited by the U.S. Office of Management and Budget's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Part 200, §200.12), except that the useful life of such property is at least five years.

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

Note 1. Summary of Significant Accounting Policies (continued)

The County has adopted a capitalization threshold of \$5,000.00, the maximum amount allowed by the Circular. Generally, assets are valued at historical cost; however, assets acquired prior to December 31, 1985 are valued at actual historical cost or estimated historical cost. No depreciation of general fixed assets is recorded. Donated general fixed assets are recorded at acquisition value as of the date of the transaction. Interest costs relative to the acquisition of general fixed assets are recorded as expenditures when paid. Public domain ("infrastructure") general fixed assets consisting of certain improvements such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

Expenditures for construction in progress are recorded in the capital funds until such time as the construction is completed and put into operation. The County is required to maintain a subsidiary ledger detailing fixed assets records to control additions, retirements, and transfers of fixed assets. In addition, a statement of general fixed asset group of accounts, reflecting the activity for the year, must be included in the County's basic financial statements.

Right to Use Leased Assets – The right to use leased assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, plus ancillary charges necessary to place the lease into service. The assets leased by the County consist of office space. The right to use leased assets is not recorded on the various statements of assets, liabilities, reserves and net position in accordance with the regulatory basis of accounting.

Deferred Charges - The recognition of certain expenditures is deferred to future periods. These expenditures, or deferred charges, are generally over-expenditures of legally adopted budget appropriations or emergency appropriations made in accordance with N.J.S.A. 40A:4-46 et seq. Deferred charges are subsequently raised as items of appropriation in budgets of succeeding years.

Deferred Charges Unfunded and Funded - Upon authorization of capital projects, the County establishes deferred charges for the cost of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized cost of capital projects. According to New Jersey Statute 40A:2-4, the County may levy taxes on all taxable property within its jurisdiction to repay its debt. The County raises the debt requirements for its debt in its current budget as funds are raised; the deferred charges are reduced.

Fund Balance - Fund balances included in the current fund represent amounts available for anticipation as revenue in future years' budgets, with certain restrictions.

Revenues - Revenues are recorded as received in cash except for statutory reimbursements and grant funds, which are due from other governmental units. State and federal grants for operating purposes are realized as revenues when anticipated in the County budget. Other amounts that are due to the County which are susceptible to accrual are recorded as receivables with offsetting reserves and recorded as revenue when received.

County Taxes – Every municipality is responsible for levying, collecting, and remitting county taxes for the County of Ocean. Operations for every municipality are charged for the amount due the County for the year, based upon the ratables required to be certified to the County Board of Taxation by January 10 of the current year.

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

Note 1. Summary of Significant Accounting Policies (continued)

In addition, operations for every municipality are charged for the County share of Added and Omitted Taxes certified to the County Board of Taxation by October 10 of the current year and due to be paid to the County by February 15 of the following year.

Appropriations for principal payments on outstanding general capital and utility bonds and notes are provided on the cash basis; interest on general capital indebtedness is on the cash basis; whereas interest on utility indebtedness is on the accrual basis.

Expenditures - Expenditures are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when paid; however, for charges to amounts appropriated for "other expenses", an amount is encumbered through the issuance of a numerically controlled purchase order or when a contract is executed in accordance with *N.J.A.C.5:30-5.2*. When encumbered charges are paid, the amount encumbered is simultaneously liquidated in its original amount. Encumbrances are offset by an account entitled reserve for encumbrances. The reserve is classified as a cash liability under New Jersey municipal accounting. At December 31, this reserve represents the portion of appropriation reserves that has been encumbered and is subject to the same statutory provisions as appropriation reserves.

Appropriation Reserves - Appropriation reserves covering unexpended appropriation balances are automatically created at year-end and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves and reserve for encumbrances at current year end are available until December 31st of the succeeding year to meet specific claims, commitments or contracts incurred during the preceding year. Any unspent balances at this time are lapsed appropriation reserves and recorded as income.

Encumbrances - Contractual orders at December 31 are reported as expenditures through the establishment of a reserve for encumbrances. Encumbrances do not constitute expenditures under GAAP.

Long-Term Debt - Long-term debt, relative to the acquisition of capital assets, is recorded as a liability in the general capital funds. Where an improvement is a "local Improvement", i.e. assessable upon completion, long-term debt associated with that portion of the cost of the improvement to be funded by assessments is transferred to the trust fund upon the confirmation of the assessments or when the improvement is fully and permanently funded.

Compensated Absences – Compensated absences for vacation, sick leave and other compensated absences are recorded and provided for in trust fund reserve account in the year in which they are paid, on a pay-as-you-go basis. The annual budget provides funding for the trust fund reserve.

Recent Accounting Pronouncements – The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. GASB adopts accounting statements to be used by governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America (GAAP). The municipalities in the State of New Jersey do not prepare their financial statements in accordance with GAAP and thus do not comply with all of the GASB pronouncements.

Note 2. Deposits and Investments

The County is governed by the deposit and investment limitations of New Jersey state law.

Deposits

Custodial Credit Risk Related to Deposits - Custodial credit risk is the risk that, in the event of a bank failure, the County's deposits may not be returned. Although the County does not have a formal policy regarding custodial credit risk, NJSA 17:9-41 et seq. requires that the governmental units shall deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA is a supplemental insurance program set forth by the New Jersey Legislature to protect the deposits of local governmental agencies. The program is administered by the Commissioner of the New Jersey Department of Banking and Insurance. Under the Act, the first \$250,000 of governmental deposits in each insured depository is protected by FDIC. Public funds owned by the County in excess of FDIC insured amounts are protected by GUDPA. However, GUDPA does not protect intermingled trust funds such as salary withholdings, bail funds or funds that may pass to the County relative to the happening of a future condition. Such funds are shown as Uninsured and Uncollateralized in the schedule below.

Note 4. Disaggregated Receivable and Payable Balances

There are no significant components of receivable and payable balances reported in the financial statements.

Note 5. Mortgage Receivable

The County is the recipient of Home Investment Partnerships Program funds (the “HOME Program”) pursuant to the provisions of the National Affordable Housing Act of 1990 (the “Act”). In accordance with the Act, and in keeping with federal regulations implementing it as adopted by the U.S. Department of Housing and Urban Development (“HUD”), the County entered into an agreement on June 28, 1994 with Cox Co Urban Renewal Associates, L.P. (the “Subrecipient”), a limited partnership, to provide \$556,000.00 in HOME Program funds financing for an affordable housing project owned by the Subrecipient, and located in Toms River Township, Ocean County, New Jersey.

The mortgage note, supporting the disbursement of the funds stipulated in the agreement, is dated June 28, 1994, in the sum of \$556,000.00, and bears interest at the rate of 7.52% to be compounded annually. All sums under the note, principal and interest are due June 28, 2044. In the event that the housing assisted with the HOME Program funds does not meet the affordability requirements of HUD regulations, the principal of the note must be repaid together with a prorated share of interest due based upon the date of repayment.

At December 31, 2023, principal and interest outstanding on the mortgage note amounted to \$4,727,101.04.

Note 6. Interfund Receivables, Payables & Transfers

The following interfund balances were recorded in the various statements of assets liabilities, reserves and fund balances at December 31, 2023:

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

Note 6. Interfund Receivables, Payables & Transfers (continued)

The interfund receivables and payables above predominately resulted from payment made by certain funds on behalf of other funds. All interfund balances are expected to be repaid within one year

A summary of interfund transfers during the year ended December 31, 2023 is as follows:

Fund	Transfers In	Transfers Out
Current Fund	\$ 1,967,440.95	\$ 2,141,612.79
State and Federal Grant Fund	626,548.68	627,531.62
Trust Fund	1,298,848.45	1,230,512.35
General Capital Fund	<u>216,215.66</u>	<u>109,396.98</u>
	<u>\$ 4,109,053.74</u>	<u>\$ 4,109,053.74</u>

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them (i.e. interest earning), (2) provide cash flow to other funds to temporary finance expenditures that are on a reimbursable basis (i.e. grants), (3) when no bank account exists for a fund, and (4) utilizing surplus or fund balance from one fund as budgeted revenue in another.

Note 7. General Fixed Assets

In 1988 the County entered into a contract with a company to count, record and maintain an inventory of its fixed assets. Apart from periodic physical inventories of fixed assets, which were performed by the company at the County's direction, the company relied on the County to provide information concerning additions, deletions, and transfers of assets in order to maintain an accurate fixed asset ledger. The company completed the last physical inventory on March 6, 1995. Items in the fixed assets inventory are valued at historical cost or estimated historical cost if actual historical cost is not available. Assets with values of \$1,000.00 or less were not included in the fixed asset group. As discussed in Note 1, effective in 2002 the County now maintains the inventory records for fixed assets. Effective January 1, 2009, the threshold used to account for Fixed Assets was increased from the amount of \$1,000.00 to the amount of \$5,000.00 as set forth in the Local Finance Notices issued by the Division. Therefore, only assets with a value of \$5,000.00 or more will be accounted for by the Department of Finance.

The following is a summary of changes in the General Fixed Assets Account Group for the year ended December 31, 2023:

	Balance December 31, 2022	Additions	Deletions	Balance December 31, 2023

Plan Description - The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to Division's Annual Comprehensive Financial Report (ACFR) which can be found at <http://www.state.nj.us/treasury/pensions/annual-reports.shtml>.

The vesting and benefit provisions are set by *N.J.S.A. 43:15A*. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>

2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of 1/55th of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 or more years of service credit before age 62 and tier 5 with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation - The schedules of employer and nonemployer allocations and the schedules of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PERS or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PERS or the participating employers. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PERS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Note 10. Pension Obligations (continued)

A. Public Employees' Retirement System (PERS) (continued)

Contributions - The contribution policy for PERS is set by *N.J.S.A. 43:15A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For the fiscal year 2022, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. For the year ended December 31, 2022, the County's contractually required contribution to PERS plan was \$15,687,618.00.

Components of Net Pension Liability - At December 31, 2022, the County's proportionate share of the PERS net pension liability was \$187,738,886.00. The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. The County's proportion of the net pension liability was based on the County's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2022. The County's proportion measured as of June 30, 2022, was 1.2440143219% which was an increase of 0.0603900407% from its proportion measured as of June 30, 2021.

This expense/(credit) is not recognized by the County because of the regulatory basis of accounting as described in Note 1, but as previously mentioned the County contributed \$15,687,618.00 to the plan in 2022.

Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2022 are summarized in the following table:

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the County's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

Special Funding Situation – Under N.J.S.A. 43:15A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State, are Chapter 366, P.L. 2001 and Chapter 133, P.L. 2001.

The amount contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability to report in the financial statements of the local participating employers related to this legislation.

At December 31, 2022 the State's proportionate share of the net pension liability attributed to the County for the PERS special funding situation is \$8,545,405.00.

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1 % for each year if creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Basis of Presentation - The schedule of employer and nonemployer allocations and the schedule of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PFRS, its participating employers or the State as a nonemployer contributing entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PFRS, the participating employers, or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PFRS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Contributions - The contribution policy for PFRS is set by *N.J.S.A. 43:16A* and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. For fiscal year 2022, the State contributed an amount more than the actuarially determined amount. The Local employers' contribution amounts are based on an actuarially determined rate which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PFRS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law.

This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. For the year ended December 31, 2022, the County's contractually required contributions to PFRS plan was \$13,086,703.00.

Net Pension Liability and Pension Expense - At December 31, 2022 the County's proportionate share of the PFRS net pension liability was \$115,177,948.00. The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2021, to the measurement date of June 30, 2022. The County's proportion of the net pension liability was based on the County's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2022. The County's proportion measured as of June 30, 2022, was 1.0062411700%, which was an increase of 0.0231791523% from its proportion measured as of June 30, 2021.

This expense/(credit) is not recognized by the County because of the regulatory basis of accounting as described in Note 1, but as previously mentioned the County contributed \$13,086,703.00 to the plan in 2022.

Special Funding Situation – Under N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the state is as follows: Chapter 8, P.L. 2000, Chapter 318, P.L. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.L. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001.

The amounts contributed on behalf of the local participating employers under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68 and the State is treated as a non-employer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability to report in the financial statements of the local participating employers related to this legislation.

Additionally, the State's proportionate share of the PFRS net pension liability attributable to the County is \$20,498,298.00 as of December 31, 2022. The net pension liability was measured as of June 30, 2022. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of July 1, 2021, to the measurement date of June 30, 2022. The State's proportion of the net pension liability associated with the County was based on a projection of the County's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. The State's proportion measured as of June 30, 2022 was 1.0062411700%, which was an increase of 0.0231791523% from its proportion measured as of June 30, 2021, which is the same proportion as the County's. At December 31, 2022, the County's and the State of New Jersey's proportionate share of the PFRS net pension liability were as follows:

Actuarial Assumptions - The total pension asset/(liability) as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

Inflation	
Price	2.75%
Wage	3.25%

Employee mortality rates were based on the PubS-2010 amount-weighted mortality table with a 105.6% adjustment for males and 102.5% adjustment for females. For healthy annuitants, mortality rates were based on the PubS-2010 amount-weighted mortality table with a 96.7% adjustment for males and 96.0% adjustment for females. Disability rates were based on the PubS-2010 amount-weighted mortality table with a 152.0% adjustment for males and 109.3% adjustment for females. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

Long-Term Expected Rate of Return - In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PFRS's target asset allocation as of June 30, 2022 are summarized in the following table:

Discount Rate - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the County's proportionate share of the net pension liability calculated using the discount rate as disclosed above, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

Note 11. Postemployment Benefits Other Than Pensions

As of the date of this report, the New Jersey Division of Pension and Benefits has not provided updated actuarial valuations for pension obligations for the year ended June 30, 2023. The New Jersey Division of Pension and Benefits will post these reports on their website as they are made available. The footnote below includes the most current information made publicly available, which had a reporting date of June 30, 2022.

General Information about the OPEB Plan

The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Annual Comprehensive Financial Report (ACFR), which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period

COUNTY OF OCEAN

NOTES TO THE FINANCIAL STATEMENTS (continued) FOR THE YEAR ENDED DECEMBER 31, 2023

of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Basis of Presentation

The schedule of employer and nonemployer allocations and the schedule of OPEB amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of its participating employers or the State as a nonemployer contributing entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the participating employers or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the Plan to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Allocation Methodology

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB (benefit) expense. The special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB (benefit) expense are based on separately calculated total OPEB liabilities. For the special funding situation and the nonspecial funding situation, the total OPEB liabilities for the year ended June 30, 2022 were \$3,361,552,823.00 and \$12,729,372,321.00, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB (benefit) expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2021 through June 30, 2022. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of OPEB amounts by employer and nonemployer may result in immaterial differences.

Net OPEB Liability

The total OPEB liability as of June 30, 2022 was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate	2.50%
Salary Increases*:	
Public Employees' Retirement System (PERS)	
Initial Fiscal Year Applied	
Rate for all future years	2.75% to 6.55% based on years of service
Police and Firemen's Retirement System (PFRS)	
Rate for all future years	3.25% to 16.25% based on years of service
Mortality:	
PERS	Pub-2010 General classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2021
PFRS	Pub-2010 Safety classification headcount weighted mortality with fully generational mortality improvement projections from the central year using Scale MP-2021

* - Salary Increases are based on years if service within the respective plan.

OPEB Obligation and OPEB (benefit) Expense - The State's proportionate share of the total Other Post-Employment Benefits Obligations, attributable to the County's as of June 30, 2022 was \$402,164,332.00. The County's proportionate share was \$0.

The OPEB Obligation was measured as of June 30, 2022, and the total OPEB Obligation used to calculate the OPEB Obligation was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. The State's proportionate share of the OPEB Obligation associated with the County was based on projection of the State's long-term contributions to the OPEB plan associated with the County relative to the projected contributions by the State associated with all participating Municipalities, actuarially determined. At June 30, 2022, the State proportionate share of the OPEB Obligation attributable to the County was 2.4902439974%, which was an increase of 0.018394% from its proportion measured as of June 30, 2021.

For the fiscal year ended June 30, 2022, the State of New Jersey recognized an OPEB (benefit) expense in the amount of \$10,753,333.00 for the State's proportionate share of the OPEB (benefit) expense attributable to the County. This OPEB (benefit) expense was based on the OPEB plans June 30, 2022 measurement date.

Actuarial assumptions used in the July 1, 2021 valuation were based on the results of the PFRS and PERS experience studies prepared for July 1, 2018 to June 30, 2021.

100% of active members are considered to participate in the Plan upon retirement.

Special Funding Situation

Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the collective net OPEB liability that is associated with the local participating employer.

The participating employer allocations included in the supplemental schedule of employer special funding allocations and the supplemental schedule of special funding amounts by employer for each employer are provided as each employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the OPEB expense allocated to the State of New Jersey under the special funding situation and include their proportionate share of the collective net OPEB liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on eligible plan members subject to the special funding situation. This data takes into account active members from both participating and non-participating employer locations and retired members currently receiving OPEB benefits.

Additionally, the State's proportionate share of the OPEB liability attributable to the County is \$615,653.00 as of December 31, 2022. The OPEB liability was measured as of June 30, 2022. The total OPEB liability used to calculate the OPEB liability was determined using update procedures to roll forward the total OPEB liability from an actuarial valuation as of July 1, 2021, to the measurement date of June 30, 2022. The State's proportion of the OPEB liability associated with the County was based on a projection of the County's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating members, actuarially determined. The State's proportion measured as of June 30, 2022 was 0.0182480067%, which was a decrease of 0.0063689811% from its proportion measured as of June 30, 2021, which is the same proportion as the County's. At December 31, 2022, the County's and the State of New Jersey's proportionate share of the OPEB liability were as follows:

State of New Jersey's	
Proportionate Share of OPEB Liability	
Associated with the County	\$ 615,653.00

At December 31, 2022, the State's proportionate share of the OPEB (benefit) expense, associated with the County, calculated by the plan as of the June 30, 2022 measurement date was \$(100,980.00).

Note 12. Accrued Sick, Vacation and Compensation Time

As discussed in Note 1 and in accordance with accounting principles prescribed by the State of New Jersey, the cash basis of accounting is followed for recording the County's liability related to unused vacation, sick pay and compensation time. The County permits certain employees within limits to accumulate unused vacation, sick pay and compensation time, which may be taken as time off or paid at a later date at an agreed upon rate. In accordance with New Jersey accounting principles, this unused accumulated absences amount is not reported as a liability in the accompanying financial statements. It is estimated that accrued benefits for compensated absences are valued at \$2,583,580.36 at December 31, 2023.

The County has established a Trust Fund in accordance with NJSA 40A:4-39 to set aside funds for future payments of compensated absences. As of December 31, 2023, the County has reserved in the Other Trust Fund \$1,821,152.29 to fund compensated absences in accordance with NJSA 40A:4-39.

Note 13. Deferred Compensation Salary Account

The County offers its employees a Deferred Compensation Plan in accordance with Internal Revenue Code Section 457 which has been approved by the Director of the Division of Local Government Services. The Plan, available to all full time employees at their option, permits employees to defer a portion of their salary to future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency. Amounts deferred under Section 457 plans must be held in trust for the exclusive benefits of participating employees and not be accessible by the County or its creditors. Since the County does not have a fiduciary relationship with the Plan, the balances and activities of the Plan are not reported in the County's financial statements.

The Bonds are subject to optional redemption prior to maturity, as provided in the hereinafter-defined Resolution.

The Bonds will be initially issued in book-entry form only in the form of one certificate for the aggregate principal amount of Bonds maturing in each year, registered in the name of and held by Cede & Co., as nominee of The Depository Trust Company ("DTC"), which will act as securities depository for the Bonds. DTC will be responsible for maintaining the book-entry system for recording the interests of its participants or the transfers of such interests among such

participants. Such participants shall be responsible for maintaining records regarding the beneficial ownership interests in the Bonds on behalf of individual purchasers. Individual purchases may be made in the principal amount of \$1,000 or more through book-entries on the books and records of DTC and its participants.

The Bonds are issued under the provisions of the Local Bond Law, Chapter 169 of the Laws of 1960 of the State of New Jersey, effective January 1, 1962, and the acts amendatory thereof and supplemental thereto (the "Act"), N.J.S.A. 18A:64A-19 (with respect to certain debt of the County included in this issue and issued by the County on behalf of Ocean County College (the "County College")), a resolution adopted by the County on October 16, 2024 (the "Resolution") and the following bond ordinances of the County: Ordinance No. 2023-24 finally adopted August 2, 2023, Ordinance No. 2023-27 finally adopted December 20, 2023, Ordinance No. 2024-20 finally adopted July 2, 2024, and Ordinance No. 2024-29 finally adopted August 7, 2024 (collectively, the "Ordinances"). The Bonds are issued for the purpose of providing funds for the financing of certain capital improvements, as described in the Ordinances (collectively, the "Project"). The Project was authorized by the Ordinances.

In our capacity as Bond Counsel and as a basis for the opinions set forth below, we have examined the proceedings relating to the authorization and issuance of the Bonds, including (a) copies of the Ordinances and the Resolution; (b) such matters of law including, *inter alia*, the Act, N.J.S.A. 18A:64A-19 and the Internal Revenue Code of 1986, as amended (the "Code"); and (c) such other agreements, proceedings, certificates, records, approvals, resolutions and documents as to various matters with respect to the issuance of the Bonds as we have deemed necessary. We have further assumed and relied upon the genuineness, accuracy and completeness of all of the documents and other instruments which we have examined. As to questions of fact material to our opinion, we have relied upon the proceedings and other certifications of public officials executed and furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion that:

1. The County is a body politic and corporate of the State of New Jersey, duly and validly organized and existing under the laws of the State of New Jersey and authorized to undertake the Project, to adopt the Ordinances and the Resolution, and to issue and deliver the Bonds.

2. The Bonds have been duly authorized, issued, executed and sold by the County; the Ordinances and the Resolution have been duly authorized and adopted by the County; and the Bonds, the Ordinances and the Resolution are legal, valid and binding obligations of the County enforceable in accordance with their respective terms.

3. Assuming the County and the County College observe their respective covenants with respect to compliance with the Code, under laws, regulations, rulings and judicial decisions existing on the date of the original delivery of the Bonds, interest on the Bonds is excluded from gross income of the owners thereof for federal income tax purposes under Section 103 of the Code. In addition, interest on the Bonds is not treated as a preference item in calculating the alternative minimum tax imposed by the Code, however, interest on the Bonds is included in the "adjusted financial statement income" of certain corporations that are subject to the alternative minimum tax under Section 55 of the Code.

4. Under the laws of the State of New Jersey as enacted and construed on the date of original delivery of the Bonds, interest on the Bonds and any gain from the sale thereof are not included in gross income under the New Jersey Gross Income Tax Act.

5. The power and obligation of the County to pay the Bonds is unlimited, and the County shall be required to levy *ad valorem* taxes upon all taxable real property within the County for the payment of the principal of and interest on the Bonds without limitation as to rate or amount.

For purposes of this opinion, the enforceability (but not the validity) of the documents mentioned herein may be limited by applicable bankruptcy, insolvency, reorganization, moratorium or other laws now or hereafter enacted by any state or by the federal government affecting the enforcement of creditors' rights generally, and by equitable principles, and the phrase "enforceable in accordance with their respective terms" shall not mean that specific performance would necessarily be available as a remedy in every situation.

Other than as set forth in Paragraphs 3 and 4 hereof, we express no opinion regarding other federal and state tax consequences arising with respect to the Bonds.

We express no opinion herein as to the adequacy or accuracy of any official statement, private placement memorandum or other offering material pertaining to the offering of the Bonds.
