PRELIMINARY OFFICIAL STATEMENT DATED JUNE 24, 2025

IN THE OPINION OF BOND COUNSEL, UNDER EXISTING LAW, INTEREST ON THE BONDS (I) IS EXCLUDABLE FROM GROSS INCOME FOR FEDERAL INCOME TAX PURPOSES UNDER SECTION 103 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED, AND (II) IS NOT AN ITEM OF TAX PREFERENCE FOR PURPOSES OF THE ALTERNATIVE MINIMUM TAX ON INDIVIDUALS. SEE "TAX MATTERS" HEREIN, INCLUDING INFORMATION REGARDING POTENTIAL ALTERNATIVE MINIMUM TAX CONSEQUENCES FOR CORPORATIONS.

The Bonds will NOT be designated "qualified tax-exempt obligations" for financial institutions.

NEW ISSUE—BOOK-ENTRY-ONLY

CUSIP No. 34682X

\$15,300,000

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 184 (A political subdivision of the State of Texas, located in Fort Bend County, Texas)

UNLIMITED TAX ROAD BONDS

SERIES 2025

Dated: August 1, 2025

Interest on the \$15,300,000 Unlimited Tax Road Bonds, Series 2025 (the "Bonds") will accrue from August 1, 2025, and will be payable on April 1 and October 1 of each year, commencing April 1, 2026. The definitive Bonds will be initially registered and delivered only to Cede & Co., the nominee of The Depository Trust Company ("DTC"), pursuant to the Book-Entry-Only System described herein. Beneficial ownership of the Bonds may be acquired in denominations of \$5,000 or integral multiples thereof. **No physical delivery of the Bonds will be made to the owners thereof.** Principal of, premium, if any, and interest on the Bonds will be payable by the Paying Agent/Registrar to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds. See "BOOK-ENTRY-ONLY SYSTEM" herein. The initial Paying Agent/Registrar is The Bank of New York Mellon Trust Company, N.A., Houston, Texas. See "THE BONDS – Paying Agent/Registrar."

MATURITIES, AMOUNTS, INTEREST RATES AND PRICES Principal Interest **Principal** Interest Amount **Maturity** Rate Yield(a) Amount **Maturity** Rate Yield(a) \$340,000 \$615,000 2027 2039(b) % % % % \$355,000 2028 % % \$650,000 2040(b) % % \$375,000 2029 % % \$680.000 2041(b) % % \$395,000 2030 % % \$715,000 2042(b) % % \$415,000 2031(b) % % \$750,000 2043(b) % % \$435,000 2032(b) % \$790,000 % % % 2044(b) \$455,000 2033(b) % % \$830,000 2045(b) % % \$480,000 2034(b) % % \$875,000 2046(b) % % % \$505,000 2035(b) % % \$920,000 2047(b) % % % \$965,000 % \$530,000 2036(b) % 2048(b) \$555,000 2037(b) % % \$1,015,000 2049(b) % % \$585,000 % \$1,070,000 % % 2038(b) % 2050(b)

(a) The initial reoffering yields are established by and are the sole responsibility of the Underwriter (hereinafter defined) and may be subsequently changed.

The Bonds maturing on or after April 1, 2031, are subject to redemption in whole or from time to time in part, at the option of the District (hereinafter defined), on April 1, 2030, or on any date thereafter, at a price equal to the par value thereof plus accrued interest from the most recent interest payment date to the date fixed for redemption. In the event the Bonds are to be redeemed in part, the maturities and principal amounts to be redeemed shall be selected by the District. If fewer than all of the Bonds within any one maturity are redeemed, the Bonds to be redeemed shall be selected, on behalf of the District, by the Paying Agent/Registrar, in its capacity as Registrar, by lot or other customary method, in integral multiples of \$5,000 in any one maturity. See "THE BONDS – Optional Redemption."

The proceeds of the Bonds will be used by Fort Bend County Municipal Utility District No. 184 (the "District") to: (1) reimburse the Developers (hereinafter defined) for a portion of the construction costs associated with road facilities serving the District and associated land acquisition, engineering, and testing costs; (2) fund Developer interest related to the advancement of funds for certain construction costs; (3) fund six (6) months of capitalized interest on the Bonds; and (4) pay administrative costs and issuance expenses associated with the sale and delivery of the Bonds. See "USE OF BOND PROCEEDS."

The Bonds, when issued, will constitute valid and binding obligations of the District and will be payable from the proceeds of a continuing direct annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property within the District. See "THE BONDS – Source of and Security for Payment." The Bonds are obligations solely of the District and are not obligations of the State of Texas, Fort Bend County, the City of Rosenberg, or any entity other than the District. Neither the faith and credit nor the taxing power of the State of Texas, Fort Bend County, or the City of Rosenberg is pledged to the payment of the principal of, or interest on, the Bonds. **The Bonds are subject to certain investment considerations described under the caption "RISK FACTORS."**

The Bonds are offered when, as, and if issued by the District, subject to approval by the Attorney General of Texas and the approval of certain legal matters by Allen Boone Humphries Robinson LLP, Houston, Texas, Bond Counsel. The District will be advised on certain legal matters concerning disclosure by Norton Rose Fulbright US LLP, Houston, Texas, Disclosure Counsel. Delivery of the Bonds is expected through the facilities of DTC on or about August 21, 2025.

Bids Due: Tuesday, July 22, 2025 at 9:00 A.M. Houston Time

USE OF INFORMATION IN OFFICIAL STATEMENT

For purposes of compliance with Rule 15c2-12 of the United States Securities and Exchange Commission, as amended ("Rule 15c2-12"), this Preliminary Official Statement constitutes an "official statement" of the District with respect to the Bonds that has been deemed "final" by the District as of its date except for the omission of no more than the information permitted by Rule 15c2-12.

No dealer, broker, salesman, or other person has been authorized to give any information or to make any representations other than those contained in this Official Statement and, if given or made, such other information or representations must not be relied upon as having been authorized by the District.

This Official Statement is not to be used in connection with an offer to sell or the solicitation of an offer to buy in any state in which such offer or solicitation is not authorized or in which the person making such offer or solicitation is not registered or qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

Any information and expressions of opinion herein contained are subject to change and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof.

All of the summaries of the statutes, resolutions, contracts, audited financial statements, engineering, and other related reports set forth in this Official Statement are made subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions, and reference is made to such documents, copies of which are available from Allen Boone Humphries Robinson LLP, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027, upon payment of duplication costs.

This Official Statement contains, in part, estimates, assumptions, and matters of opinion which are not intended as statements of fact, and no representation is made as to the correctness of such estimates, assumptions, or matters of opinion, or as to the likelihood that they will be realized. Any information and expressions of opinion herein contained are subject to change without notice and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the District or other matters described herein since the date hereof. However, the District has agreed to keep this Official Statement current by amendment or sticker to reflect material changes in the affairs of the District and, to the extent that information actually comes to its attention, the other matters described in this Official Statement until delivery of the Bonds to the Underwriter (hereinafter defined). See "OFFICIAL STATEMENT – Updating of Official Statement."

References to website addresses presented herein are for informational purposes only and may be in the form of a hyperlink solely for the reader's convenience. Unless specified otherwise, such websites and the information or links contained therein are not incorporated into, and are not part of this Official Statement for any purpose.

SALE AND DISTRIBUTION OF THE BONDS

Award of the Bonds

After requesting competitive bids for the Bonds, the District has accepted the bid producing the lowest net interest cost to the District, which was tendered by ______ (the "Underwriter"), to purchase the Bonds bearing the rates shown on the cover page of this Official Statement at a price of _____% of par plus accrued interest to the date of delivery, which resulted in a net effective interest rate of _____%, as calculated pursuant to Chapter 1204 of the Texas Government Code, as amended.

The Underwriter may offer and sell the Bonds to certain dealers (including dealers depositing Bonds into unit investment trusts) and others at prices lower than the public offering price stated on the cover page hereof. The initial offering price may be changed from time to time by the Underwriter.

The Underwriter has reviewed the information in this Official Statement in accordance with, and as part of, its responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Underwriter does not guarantee the accuracy or completeness of such information.

Prices and Marketability

The delivery of the Bonds is conditioned upon the receipt by the District of a certificate executed and delivered by the Underwriter on or before the date of delivery of the Bonds stating the prices at which a substantial number of the Bonds of each maturity have been sold to the public. For this purpose, the term "public" shall not include any person who is a bond house, broker, or similar person acting in the capacity of underwriter or wholesaler. Otherwise, the District has no understanding with the Underwriter regarding the reoffering yields or prices of the Bonds and has no control over trading of the Bonds after their initial sale by the District. Information concerning reoffering yields or prices is the responsibility of the Underwriter.

THE PRICES AND OTHER TERMS RESPECTING THE OFFERING AND SALE OF THE BONDS MAY BE CHANGED FROM TIME TO TIME BY THE UNDERWRITER AFTER THE BONDS ARE RELEASED FOR SALE, AND THE BONDS MAY BE OFFERED AND SOLD AT PRICES OTHER THAN THE INITIAL OFFERING PRICES, INCLUDING SALES TO DEALERS WHO MAY SELL THE BONDS INTO INVESTMENT ACCOUNTS. IN CONNECTION WITH THE OFFERING OF THE BONDS, THE UNDERWRITER MAY OVER-ALLOT OR EFFECT TRANSACTIONS THAT STABILIZE OR MAINTAIN THE MARKET PRICES OF THE BONDS AT LEVELS ABOVE THOSE THAT MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

The District has no control over the trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked price of the Bonds may be greater than the difference between the bids and asked prices of bonds of comparable maturity and quality issued by more traditional municipal entities as bonds of such entities are more generally bought, sold or traded in the secondary market.

Securities Laws

No registration statement relating to the Bonds has been filed with the Securities and Exchange Commission ("SEC") under the Securities Act of 1933, as amended, in reliance upon the exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein nor have the Bonds been registered or qualified under the securities laws of any other jurisdiction. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions in such other jurisdiction.

CONTINUING DISCLOSURE OF INFORMATION - SEC RULE 15c2-12

In the Bond Resolution, the District has the following agreement for the benefit of the holders and beneficial owners of the Bonds. The District is required to observe the agreement for so long as it remains obligated to advance funds to pay the Bonds. Under the agreement, the District will be obligated to provide certain updated financial information and operating data annually, and timely notice of specified material events, to the Municipal Securities Rulemaking Board ("MSRB"). The MSRB has established the Electronic Municipal Market Access ("EMMA") system.

Annual Reports

The information to be updated with respect to the District includes the quantitative financial information and operating data of the District of the general type included in "DISTRICT DEBT" (except for the subheading "Estimated Overlapping Debt"), "DISTRICT TAX DATA," and "APPENDIX A" (Auditor's Report and Financial Statements of the District) of this Official Statement. The District will update and provide this information within six months after the end of each of its fiscal years ending in or after 2026. The District will provide certain updated information and operating data to the MSRB or any successor to its functions as a repository through its EMMA system.

The District may provide updated information in full text or may incorporate by reference certain other publicly available documents, as permitted by SEC Rule 15c2-12 (the "Rule"). The updated information will include audited financial statements if it commissions an audit and the audit is completed by the required time. If the audit of such financial statements is not complete within such period, the District shall provide unaudited financial statements for the applicable fiscal year to the MSRB via EMMA within such six-month period, and audited financial statements when the audit report on such statements becomes available. Any such financial statements will be prepared in accordance with the accounting principles described in the Bond Resolution or such other accounting principles as the District may be required to employ from time to time pursuant to state law or regulation.

The District's current fiscal year end is February 28. Accordingly, it must provide updated information by August 31 in each year unless the District changes its fiscal year. If the District changes its fiscal year, it will notify the MSRB via EMMA of the change.

Event Notices

The District will provide timely notices of certain events to the MSRB, but in no event will such notices be provided to the MSRB in excess of ten business days after the occurrence of an event. The District will provide notice of any of the following events with respect to the Bonds: (1) principal and interest payment delinquencies; (2) non-payment related defaults, if material; (3) unscheduled draws on debt service reserves reflecting financial difficulties; (4) unscheduled draws on credit enhancements reflecting financial difficulties; (5) substitution of credit or liquidity providers, or their failure to perform; (6) adverse tax opinions, the issuance by the Internal Revenue Service of proposed or final determinations of taxability, Notices of Proposed Issue (IRS Form 5701-TEB), or other material notices or determinations with respect to the tax status of the Bonds or other material events affecting the tax status of the Bonds; (7) modifications to rights of beneficial owners of the Bonds, if material; (8) bond calls, if material, and tender offers; (9) defeasances; (10) release, substitution, or sale of property securing repayment of the Bonds, if material; (11) rating changes; (12) bankruptcy, insolvency, receivership, or similar event of the District or other obligated person; (13) consummation of a merger, consolidation, or acquisition involving the District or other obligated person or the sale of all or substantially all of the assets of the District or other obligated person, other than in the ordinary course of business, the entry into a definitive agreement to undertake such an action or the termination of a definitive agreement relating to any such actions, other than pursuant to its terms, if material; (14) appointment of a successor or additional trustee or the change of name of a trustee, if material; (15) incurrence of a financial obligation of the District or other obligated person, if material, or agreement to covenants, events of default, remedies, priority rights, or other similar terms of a financial obligation of the District or other obligated person, any of which affect Beneficial Owners of the Bonds, if material; and (16) default, event of acceleration, termination event, modification of terms, or other similar events under the terms of a financial obligation of the District or other obligated person, any of which reflect financial difficulties. The terms "obligated person" and "financial obligation" when used in this paragraph shall have the meanings ascribed to them under the Rule. The term "material" when used in this paragraph shall have the meaning ascribed to it under federal securities laws. Neither the Bonds nor the Bond Resolution makes any provisions for debt service reserves or liquidity enhancement. In addition, the District will provide timely notice of any failure by the District to provide financial information, operating data, or financial statements in accordance with its agreement described above under "Annual Reports."

Availability of Information

The District has agreed to provide the foregoing updated information only to the MSRB via EMMA. Investors will be able to access, without charge from the MSRB, continuing disclosure information filed with the MSRB at www.emma.msrb.org.

Limitations and Amendments

The District has agreed to update information and to provide notices of material events only as described above. The District has not agreed to provide other information that may be relevant or material to a complete presentation of its financial results of operations, condition, or prospects or agreed to update any information that is provided, except as described above. The District makes no representation or warranty concerning such information or concerning its usefulness to a decision to invest in or sell Bonds at any future date. The District disclaims any contractual or tort liability for damages resulting in whole or in part from any breach of its continuing disclosure agreement or from any statement made pursuant to its agreement although holders and beneficial owners of Bonds may seek a writ of mandamus to compel the District to comply with its agreement.

The District may amend its continuing disclosure agreement to adapt to changed circumstances that arise from a change in legal requirements, a change in law, or a change in the identity, nature, status, or operations of the District, if but only if, the agreement, as amended, would have permitted an underwriter to purchase or sell Bonds in the offering described herein in compliance with the Rule taking into account any amendments and interpretations of the Rule to the date of such amendment, as well as changed circumstances, and either the holders of a majority in aggregate principal amount of the outstanding Bonds consent or any person unaffiliated with the District (such as nationally recognized bond counsel) determines that the amendment will not materially impair the interests of the beneficial owners of the Bonds. The District may also amend or repeal the agreement if the SEC amends or repeals the applicable provisions of such rule or a court of final jurisdiction determines that such provisions are invalid but, in either case, only to the extent that its right to do so would not prevent the Underwriter from lawfully purchasing the Bonds in the offering described herein. If the District so amends the agreement, it has agreed to include with any financial information or operating data next provided in accordance with its agreement described above under "Annual Reports" an explanation, in narrative form, of the reasons for the amendment and of the impact of any change in the type of financial information and operating data so provided.

Compliance with Prior Undertakings

During the past five years, the District has complied in all material respects with its prior continuing disclosure agreements made in accordance with the Rule.

MUNICIPAL BOND RATING

In connection with the sale of the Bonds the District has made application to Moody's Investors Service, Inc. ("Moody's") which has assigned a rating of "Baa2" on the Bonds based upon the District's underlying credit without bond insurance. An explanation of the significance of such rating may be obtained from Moody's. The rating reflects only the view of Moody's and the District makes no representation as to the appropriateness of such rating. The District can make no assurance that the Moody's rating will continue for any period of time or that such rating will not be revised downward or withdrawn entirely by Moody's if in the judgment of Moody's circumstances so warrant. Any such downward revision or withdrawal of the rating may have an adverse effect on the market price of the Bonds.

BOND INSURANCE

The District has applied to Assured Guaranty Inc. ("AG") and Build America Mutual Assurance Company ("BAM") for qualification of the Bonds for bond insurance. The Underwriter (as defined herein) may bid for the Bonds with or without bond insurance. If the Underwriter bids for the Bonds with bond insurance, the cost of the bond insurance premium must be paid for by the Underwriter. The District will pay for the cost of the Moody's rating. The Underwriter must pay for the cost of any rating other than the Moody's rating. If the Underwriter purchases the Bonds with bond insurance and subsequent to the sale date and prior to the closing date, the bond insurer's credit rating is downgraded the Underwriter is still obligated to accept delivery of the Bonds. Information relative to the cost of the insurance premium will be available from the bond insurance companies on the day of the sale.

OFFICIAL STATEMENT SUMMARY

The following material is a summary of certain information contained herein and is qualified in its entirety by the detailed information appearing elsewhere in this Official Statement. The reader should refer particularly to sections that are indicated for more complete information.

THE BONDS

Description:	The \$15,300,000 Unlimited Tax Road Bonds, Series 2025 (the "Bonds"), are dated August 1, 2025. The Bonds represent the eighth series of bonds to be issued by Fort Bend County Municipal Utility District No. 184 (the "District"). The Bonds mature on April 1 in the years as shown in the table on the cover page of this Official Statement. The Bonds are issued pursuant to Article III, Section 52 of the Texas Constitution and the general laws of the State of Texas, relating to the issuance of bonds by political subdivisions, including but not limited to Chapter 8446, Texas Special District Local Laws Code and Chapters 49 and 54, Texas Water Code, as amended, a resolution authorizing the issuance of the Bonds (the "Bond Resolution") to be adopted by the Board of Directors of the District, an election held within the District, and a resolution adopted by the City of Rosenberg, Texas (the "City") approving the sale of the Bonds. See "THE BONDS."
Source of Payment:	The Bonds are payable from a continuing direct annual ad valorem tax levied against all taxable property within the District which, under Texas law, is not limited as to rate or amount. The Bonds are obligations of the District and are not obligations of the State of Texas, Fort Bend County, the City of Rosenberg, or any other political subdivision or agency. See "THE BONDS – Source of and Security for Payment."
	The Bonds maturing on or after April 1, 2031, are subject to early redemption, in whole or from time to time in part, on April 1, 2030, or on any date thereafter at the option of the District at a price of par plus accrued interest from the most recent interest payment date to the date of redemption. See "THE BONDS – Optional Redemption."
Book-Entry-Only System:	The definitive Bonds will be initially registered and delivered only to Cede & Co., the nominee of DTC, pursuant to the Book-Entry-Only System described herein. Beneficial ownership of the Bonds may be acquired in denominations of \$5,000 or integral multiples thereof. No physical delivery of the Bonds will be made to the beneficial owners thereof. Principal of, and interest on, the Bonds will be payable by the Paying Agent/Registrar to Cede & Co., which will make distribution of the amounts so paid to the participating members of DTC for subsequent payment to the beneficial owners of the Bonds. See "BOOK-ENTRY-ONLY SYSTEM."
Use of Proceeds:	Proceeds from the sale of the Bonds will be used to: (1) reimburse the Developers (hereinafter defined) for a portion of the construction costs associated with road facilities serving the District and associated land acquisition, engineering, and testing costs; (2) fund Developer interest related to the advancement of funds for certain construction costs; (3) fund six (6) months of capitalized interest on the Bonds; and (4) pay administrative costs and issuance expenses associated with the sale and delivery of the Bonds. See "USE OF BOND PROCEEDS."
Legal Opinion:	Allen Boone Humphries Robinson LLP, Bond Counsel, Houston, Texas. See "LEGAL MATTERS" and "TAX MATTERS."
Paying Agent/Registrar:	The Bank of New York Mellon Trust Company, N.A., Houston, Texas. See "THE BONDS - Paying Agent/Registrar."
Payment Record:	The District has previously issued five (5) series of unlimited tax bonds and two (2) series of unlimited tax road bonds, of which \$45,295,000 principal amount was outstanding as of June 1, 2025 (the "Outstanding Bonds"). The District has never defaulted in the payment of principal of or interest on the Outstanding Bonds. See "DISTRICT DEBT."
NOT Qualified Tax Exempt Obligations:	The Bonds will NOT be designated "qualified tax-exempt obligations" for financial institutions.
Municipal Bond Rating:	In connection with the sale of the Bonds the District has made application to Moody's which has assigned a rating of "Baa2" on the Bonds based upon the District's underlying credit without bond insurance. An explanation of the significance of such rating may be obtained from Moody's. The rating reflects only the view of Moody's and the District makes no representation as to the appropriateness of such rating. See "MUNICIPAL BOND RATING."
Bond Insurance:	The District has applied to Assured Guaranty Inc. ("AG") and Build America Mutual Assurance Company ("BAM") for qualification of the Bonds for bond insurance. The Underwriter may bid for the Bonds with or without bond insurance. If the Underwriter bids for the Bonds with bond insurance, the cost of the bond insurance premium must be paid for by the Underwriter. Information relative to the cost of the insurance premium will be available from the bond insurance companies on the day of the sale. See "BOND INSURANCE."

Risk Factors:	The Bonds are subject to certain investment considerations as set forth in this Official Statement. Prospective purchasers should carefully examine this Official Statement with respect to the investment security of the Bonds, particularly the sections captioned "RISK FACTORS" and "LEGAL MATTERS."					
THE DISTRICT						
Description:	The District is a municipal utility district created by an Act of the 83 rd Texas Legislature, effective on September 1, 2013, codified as Chapter 8446, Texas Special District Local Laws Code ("Chapter 8446"). The District was created pursuant to the authority of Article XVI, Section 59, of the Texas Constitution and operates pursuant to Chapter 8446 and Chapters 49 and 54, Texas Water Code, as amended. See "THE DISTRICT – Authority."					
	The District, as it was originally created, encompassed approximately 507 acres. Since its creation, the District has excluded two tracts of land totaling approximately six (6) acres. The District presently encompasses approximately 501 acres. The District is located within the extraterritorial jurisdiction of the City and within the boundaries of Lamar Consolidated Independent School District. The District is located approximately 27 miles southwest of the central business district of the City of Houston, Texas. The District is located by Dry Creek. The District is bounded by Berdett Road to the east. Berdett Road serves as the primary access point in the District for the District's residents. See "THE DISTRICT – Description and Location."					
Summary of Land Uses: Development of	As of June 1, 2025, the District included approximately 400 acres developed and improved for single-family residential purposes (including a 15-acre site developed and improved with an elementary school facility owned and operated by Lamar Consolidated Independent School District), approximately 37 acres currently under development, approximately five (5) acres developed and improved with a recreation center serving the District's residents, no acreage available for future development, and approximately 59 undevelopable acres, which include street rights-of-way, detention ponds, drainage easements, pipeline easements, water supply and wastewater treatment plant sites, and open spaces. See "THE DISTRICT – Land Uses and Status of Land Development."					
the District:	The District is being developed for predominantly single-family residential purposes in the subdivisions known as Stonecreek Estates and Walnut Creek at Stonecreek Estates. As of June 1, 2025, homebuilding in the District included 1,047 completed homes (approximately 1,011 of which were owner-occupied), 48 homes under construction, and 71 vacant developed lots located in Stonecreek Estates, Sections $1 - 14$ and Walnut Creek at Stonecreek Estates, Sections $1 - 14$ and Walnut Creek at Stonecreek Estates, Sections $1 - 2$. Additionally, approximately 144 single-family residential lots are currently under construction in Stonecreek Estates, Sections 15 and 16; such lots are anticipated to be available for homebuilding during the third quarter of 2025. See "THE DISTRICT – Status of Residential Development" and "– Land Uses and Status of Land Development."					
The Developers:	The original developer of the District is Dry Creek (Houston) ASLI VII, LLC ("Dry Creek ASLI"), a Delaware limited liability company that was established solely for the purpose of developing the approximately 501 acres of land located within the District. The General Partner of Dry Creek ASLI is Avanti Management Corporation, a Florida corporation, an entity established by Avanti Property Group ("Avanti"). Avanti is a real estate investment firm dedicated exclusively to land investment, development, and finance. Since 1992, Avanti has committed over \$1.4 billion to residential, commercial, and industrial land development projects in approximately 25 markets across the United States.					
	Dry Creek ASLI has entered into a management agreement with Dry Creek Lot Partners, LLC, a Texas limited liability company ("Dry Creek Lot Partners") that is comprised of individuals that are employed by Ersa Grae Corporation, a local Houston development company. Ersa Grae Corporation has been involved in developing land in residential, retail, and office markets in the Houston area and nationally since 1977.					
	Dry Creek ASLI has developed approximately 254 acres known as Stonecreek Estates, Sections $1 - 8$, and 11 and Walnut Creek at Stonecreek Estates, Sections $1 - 2$, which collectively contain 792 single-family residential lots. Dry Creek ASLI owns approximately two (2) acres of additional land holdings within the District, which it expects to be developed for commercial purposes based on current land plans.					
	On August 16, 2021, Dry Creek ASLI sold approximately 36 acres of its land holdings in the District to CW- Stone Creek, LLC, a Texas limited liability company, and land banker for Ashton Houston Residential, LLC, a Texas limited liability company ("Ashton Woods"). Ashton Woods has developed approximately 21 acres known as Stonecreek Estates, Section 9 (75 single-family residential lots) and approximately 15 acres known as Stonecreek Estates, Section 10 (53 single-family residential lots).					
	On October 7, 2021, Dry Creek ASLI sold approximately 103 acres of its land holdings in the District to Perry Homes, LLC, a Texas limited liability company ("Perry Homes"). Such approximate 103 acres were subsequently purchased by PHHOU – SC 103, LLC, which is a Perry Homes Special Purpose Entity (SPE). According to Perry Homes, and based on current land plans, the development of such 103 acres is planned for approximately 400 single-family residential lots platted as Stonecreek Estates, Sections 12 – 16. Perry					

Homes has developed approximately 25 acres known as Stonecreek Estates, Section 12 (87 single-family residential lots), approximately 23 acres known as Stonecreek Estates, Section 13 (78 single-family residential lots), and approximately 19 acres known as Stonecreek Estates, Section 14 (81 single-family residential lots). Additionally, Perry Homes has commenced the development of approximately 21 acres known as Stonecreek Estates, Section 16 (49 single-family residential lots).

Dry Creek ASLI, Ashton Woods, and Perry Homes are collectively referred to herein as the "Developers." See "THE DEVELOPERS."

- Homebuilders:The prior and current homebuilders that have built or are actively marketing and building homes in the
Stonecreek Estates and Walnut Creek at Stonecreek Estates subdivisions include Meritage Homes,
KHovnanian Homes, Westin Homes, David Weekley Homes, Perry Homes, Lennar Homes, Ashton Woods
Homes, and Toll Brothers Homes. Homes in the District are being constructed on 50-foot, 60-foot, 65-foot,
70-foot, and 75-foot lots and are being marketed in various price points ranging from \$350,000 to \$850,000.
See "THE DISTRICT Status of Residential Development" and "THE DEVELOPERS Homebuilders."
- The District currently receives its water from the City pursuant to the terms of a Water Supply and Wastewater Service Agreement (the "Water Supply Agreement"). The City initially committed to provide the District with capacity to serve 500 equivalent single-family connections ("ESFCs") and agreed to provide the District with an additional 1,200 ESFCs upon a 24-months' notice by the District to the City. On June 22, 2021, the District provided notice to the City regarding its intent to use the additional 1,200 ESFCs of capacity reserved in the City's water supply system and such additional capacity is now in place, which, according to the District's engineer, will be sufficient to serve the District at ultimate buildout given current land plans. The Water Supply Agreement became effective August 26, 2014, and was amended on August 1, 2023, has a term of 25 years, and automatically renews for one-year terms consecutively thereafter.

The District has entered into 60-month leases that may be extended on a month-to-month basis upon written notice from the District for two (2) interim wastewater treatment plants, respectively, that have a combined capacity of 200,000 gallons per day ("gpd"); such plants are currently rated by the Texas Commission on Environmental Quality (the "TCEQ") to serve approximately 666 ESFCs. Additionally, the District has commenced a wastewater treatment plant re-rating evaluation and the construction of a 150,000 gpd wastewater treatment plant expansion to bring the District's total wastewater capacity to 350,000 gpd. After such expansion, assuming TCEQ approval of the District's request for re-rating, the District's wastewater treatment facilities will be capable of serving 1,750 ESFCs based on TCEQ criteria, which, according to the Engineer, will be adequate to serve the District's ultimate capacity requirements at buildout based on current projected or anticipated land uses. The District does not anticipate any additional phases of expansion to the wastewater treatment plant.

The District is located in the Dry Creek watershed and all of the land in the District naturally drains toward Dry Creek. The storm sewer collection system constructed in the Stonecreek Estates and Walnut Creek at Stonecreek Estates subdivisions are an underground storm system, which outfall directly into Dry Creek, which bisects the District.

According to the District's engineer, the Flood Hazard Boundary Map [published by the Federal Emergency Management Agency (FEMA)], currently in effect, and which covers land located in the District, indicates that approximately 25 acres of land located in the District is located within the 100-year floodplain as determined by FIRM map 48157C0265L. All of such 25 acres located within the 100-year floodplain is contained in the banks of Dry Creek; none of the developed and improved land and none of the undeveloped land that is planned for future development is located within the 100-year floodplain. See "DESCRIPTION OF THE DISTRICT'S SYSTEM."

OFFICIAL STATEMENT

relating to

\$15,300,000

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 184 (A political subdivision of the State of Texas located within Fort Bend County, Texas)

UNLIMITED TAX ROAD BONDS SERIES 2025

INTRODUCTION

This Official Statement provides certain information in connection with the issuance of the \$15,300,000 Fort Bend County Municipal Utility District No. 184 Unlimited Tax Road Bonds, Series 2025 (the "Bonds").

The Bonds are issued pursuant to Article III, Section 52 of the Texas Constitution and the general laws of the State of Texas, relating to the issuance of bonds by political subdivisions, including but not limited to Chapter 8446, Texas Special District Local Laws Code and Chapters 49 and 54, Texas Water Code, as amended, pursuant to a resolution (the "Bond Resolution") adopted by the Board of Directors of Fort Bend County Municipal Utility District No. 184 (the "District"), an election held within the District, and a resolution adopted by the City of Rosenberg, Texas (the "City") approving the sale of the Bonds.

This Official Statement includes descriptions of the Bonds, the Bond Resolution, certain information about the District and its financial condition, and the developers in the District. All descriptions of documents contained herein are only summaries and are qualified in their entirety by reference to each such document. Copies of such documents may be obtained from Bond Counsel upon payment of duplication costs thereof.

RISK FACTORS

General

The Bonds are obligations of the District and are not obligations of the State of Texas, Fort Bend County, the City of Rosenberg, or any other political subdivision. The Bonds are payable from a continuing direct annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property within the District. See "THE BONDS – Source of and Security for Payment." The investment quality of the Bonds depends on the ability of the District to collect all taxes levied against the taxable property within the District and, in the event of foreclosure of the District's tax lien, on the marketability of the property and the ability of the District to sell the property at a price sufficient to pay taxes levied by the District and by other overlapping taxing authorities. The District cannot and does not make any representations that over the life of the Bonds the taxable property within the District will accumulate or maintain taxable values sufficient to generate property taxes to pay debt service at current levels.

Marketability

The District has no understanding (other than the initial reoffering yields) with the Underwriter (defined herein) regarding the reoffering yields or prices of the Bonds and has no control over trading of the Bonds in the secondary market. Moreover, there is no assurance that a secondary market will be made in the Bonds. If there is a secondary market, the difference between the bid and asked price of the Bonds may be greater than the spread between the bid and asked price of more traditional issuers as such bonds are generally bought, sold, or traded in the secondary market.

Tax Collections

The District's ability to make debt service payments may be adversely affected by its inability to collect ad valorem taxes. Under Texas law, the levy of ad valorem taxes by the District constitutes a lien in favor of the District on a parity with the liens of all other state and local taxing authorities on the property against which taxes are levied, and such lien may be enforced by foreclosure. The District's ability to collect ad valorem taxes through such foreclosure may be impaired by (a) cumbersome, time-consuming and expensive collection procedures. (b) a bankruptcy court's stay of tax collection procedures against a taxpayer. (c) market conditions limiting the proceeds from a foreclosure sale of taxable property or (d) the taxpayer's right to redeem the property within six (6) months for commercial property and two (2) years for residential and all other property after the purchaser's deed issued at the foreclosure sale is filed in the county records. While the District has a lien on taxable property within the District for taxes levied against such property, such lien can be foreclosed only in a judicial proceeding. Attorney's fees and other costs of collecting any such taxpayer's delinquencies could substantially reduce the net proceeds to the District from a tax foreclosure sale. Finally, any bankruptcy court with jurisdiction over bankruptcy proceedings initiated by or against a taxpayer within the District pursuant to the Federal Bankruptcy Code could stay any attempt by the District to collect delinquent ad valorem taxes against such taxpayer. In addition to the automatic stay against collection of delinquent taxes afforded a taxpayer during the pendency of a bankruptcy, a bankruptcy could affect payment of taxes in two (2) other ways: first, a debtor's confirmation plan may allow a debtor to make installment payments on delinquent taxes for up to six (6) years; and, second, a debtor may challenge, and a bankruptcy court may reduce, the amount of any taxes assessed against the debtor, including taxes that have already been paid. See "TAXING PROCEDURES – District's Rights in the Event of Tax Delinquencies."

Registered Owners' Remedies

If the District defaults in the payment of principal of, interest on, or redemption price on the Bonds when due, or if it fails to make payments into any fund or funds created in the Bond Resolution, or defaults in the observation or performance of any other covenants, conditions, or obligations set forth in the Bond Resolution, the Registered Owners have the right of a writ of mandamus issued by a court of competent jurisdiction requiring the District and its officials to observe and perform the covenants, obligations, or conditions prescribed in the Bond Resolution. Except for mandamus, the Bond Resolution does not specifically provide for remedies to protect and enforce the interests of the Registered Owners. There is no acceleration of maturity of the Bonds in the event of default and, consequently, the remedy of mandamus may have to be relied upon from year to year. Further, there is no trust indenture or trustee, and all legal actions to enforce such remedies would have to be undertaken at the initiative of, and be financed by, the Registered Owners. Statutory language authorizing local governments such as the District to sue and be sued does not waive the local government's sovereign immunity from suits for money damages. Even if such sovereign immunity were waived and a judgment against the District for money damages were obtained, the judgment could not be enforced by direct levy and execution against the District's property. Further, the Registered Owners cannot themselves foreclose on property within the District or sell property within the District to enforce the tax lien on taxable property to pay the principal of and interest on the Bonds. The enforceability of the rights and remedies of the Registered Owners may further be limited by a State of Texas statute reasonably required to attain an important public purpose or by laws relating to bankruptcy, reorganization, or other similar laws of general application affecting the rights of creditors of political subdivisions, such as the District.

Bankruptcy Limitation to Registered Owners' Rights

The enforceability of the rights and remedies of the Registered Owners may be limited by laws relating to bankruptcy, reorganization, or other similar laws of general application affecting the rights of creditors of political subdivisions such as the District. Specifically, the District may voluntarily file a petition for protection from creditors under the federal bankruptcy laws. During the pendency of the bankruptcy proceedings, the remedy of mandamus would not be available to the Registered Owners unless authorized by a federal bankruptcy judge.

Subject to the requirements of Texas law, the District may voluntarily proceed under Chapter 9 of the Federal Bankruptcy Code, 11 U.S.C. Section 901-946, if the District: (a) is generally authorized to file for federal bankruptcy protection by the State law; (b) is insolvent or unable to meet its debts as they mature; (c) desires to effect a plan to adjust such debts; and (d) has either obtained the agreement of, or negotiated in good faith with, its creditors or is unable to negotiate with its creditors because negotiation is impracticable. Under Texas law, the District must obtain the approval of the TCEQ prior to filing bankruptcy. Such law requires that the TCEQ investigate the financial condition of the District and authorize the District to proceed only if the District has fully exercised its rights and powers under Texas law and remains unable to meet its debts and other obligations as they mature.

Notwithstanding noncompliance by a district with Texas law requirements, a district could file a voluntary bankruptcy petition under Chapter 9, thereby invoking the protection of the automatic stay until the bankruptcy court, after a hearing, dismisses the petition. A federal bankruptcy court is a court of equity and federal bankruptcy judges have considerable discretion in the conduct of bankruptcy proceedings and in making the decision of whether to grant the petitioning district relief from its creditors. While such a decision might be appealable, the concomitant delay and loss of remedies to the Registered Owners could potentially and adversely impair the value of the Registered Owners' claim.

If a petitioning district were allowed to proceed voluntarily under Chapter 9 of the Federal Bankruptcy Code, it could file a plan for an adjustment of its debts. If such a plan were confirmed by the bankruptcy court, it could, among other things, affect Registered Owners by reducing or eliminating the amount of indebtedness, deferring or rearranging the debt service schedule, reducing or eliminating the interest rate, modifying or abrogating collateral or security arrangements, substituting (in whole or in part) other securities, and otherwise compromising and modifying the rights and remedies of the Registered Owners' claims against the District.

A district cannot be placed into bankruptcy involuntarily.

Approval of the Bonds

As required by law, the Attorney General of Texas must approve the legality of the Bonds prior to their delivery. The Attorney General of Texas does not pass upon or guarantee the safety of the Bonds as an investment or the adequacy or accuracy of the information contained in this Official Statement.

Economic Factors

The Houston area economy is particularly tied to the energy industry, and continuing fluctuations in oil and natural gas prices could adversely affect the demand for housing and the assessed values of properties located in the District. An oversupply of homes, along with a decreased demand in new housing because of general economic conditions or relatively high interest rates, may have an adverse impact on sale prices for homes and, consequently, may materially adversely affect property values or, in some instances, cause builders to abandon homebuilding plans altogether.

The continued growth of taxable values in the District is directly related to the housing and building industry. The housing and building industry has historically been a cyclical industry, affected by both short-term and long-term interest rates, availability of mortgage and development funds, labor conditions, and general economic conditions. A return to relatively high mortgage interest rates similar to those experienced in the past may adversely affect the availability and desirability of mortgage financing for new homes, hence reducing demand by homebuilders for lots within the District.

Interest rates and the availability of mortgage and development funds have a direct impact on construction activity, particularly the short-term interest rates at which developers and builders are able to obtain financing for land development or homebuilding costs. Interest rate levels may affect the Developers' or builders' ability to complete development or building plans. Long-term interest rates affect home purchasers' ability to qualify for and afford the total financing costs of a new home. The continuation of long-term interest rates at higher levels may negatively affect home sales and the rate of growth of taxable values in the District.

The Houston metropolitan area has, in the past, experienced increased unemployment, business failures, and slow absorption of office space. These factors, if they recur, could affect the demand for new residential home construction and commercial development and hence the growth of property values in the District. An oversupply of homes, along with a decreased demand in new housing because of general economic conditions or relatively high interest rates, may have an adverse impact on sale prices for homes and, consequently, may materially adversely affect property values or, in some instances, cause builders to abandon home building plans altogether.

The housing industry in the Houston area is competitive and the District can give no assurance that current homebuilding programs will be completed. The competitive position of the Developers in the sale of their developed lots or, respectively, that of present and prospective builders in the construction of single-family residential houses, is affected by most of the factors discussed herein. Such a competitive position is directly related to tax revenues to be received by the District and the growth and maintenance of taxable values in the District.

Alternative sites are available for the construction of single-family residential improvements and commercial development within the market area in which the District is located. Such sites could pose competition to the continued home-building development and commercial development on comparable sites within the District.

Potential Effects of Oil Price Fluctuation on the Houston Area

The recent fluctuation in oil prices in the U.S. and globally, which at times has led to the lowest such prices in three decades, may lead to adverse conditions in the oil and gas industry, including but not limited to reduced revenues, declines in capital and operating expenditures, business failures, and layoffs of workers. The economy of the Houston area has, in the past, been particularly affected by adverse conditions in the oil and gas industry, and such conditions and their spillover effects into other industries could result in declines in the demand for residential and commercial property in the Houston area and could reduce or negatively affect property values or homebuilding activity within the District. As previously stated, the Bonds are secured by an unlimited ad valorem tax, and a reduction in property values may require an increase in the ad valorem tax rate required to pay the Bonds as well as the District's share of operations and maintenance expenses payable from ad valorem taxes.

Dependence on the Energy Industry

The economy of the Houston metropolitan area, which has sometimes been referred to as the energy capital of the world, is, in part, dependent upon the oil and gas and petrochemical industries. During the height of the COVID-19 pandemic in 2020, worldwide consumption of energy decreased dramatically and led to the lowest oil prices in three decades. This led to layoffs of workers, business failures and reduced capital and operating expenditures by energy companies. While there has been some rebound, Houston area jobs in the energy industry have not fully recovered. In 2021, the United States rejoined the 2015 Paris Climate Accords, under which many countries have agreed to move away from fossil fuels to alleviate climate change. Although major energy companies expect that fossil fuels will be vital to the global economy for many years to come, they have recognized the need to direct more investment toward various clean energy projects. The pace and success of these efforts could significantly affect the Houston economy in the future.

Landowners/Developer Under No Obligation to the District

Neither the Developers nor any other landowner within the District have any commitments or obligations to proceed at any particular rate or according to any specified plan with the development of land or the construction of homes in the District. Currently, there is no restriction on any landowner's right (including the Developers) to sell its land. Failure to construct taxable improvements on developed lots would restrict the rate of growth of taxable value in the District. The District is also dependent upon certain principal taxpayers for the timely payment of ad valorem taxes, and the District cannot predict what effect future financial conditions may have on the ability of such principal taxpayers to pay property taxes. See "DISTRICT TAX DATA – Principal Taxpayers."

Competition

The demand for and construction of taxable improvements in the District could be affected by competition from other developments near the District. Many of the other developments are generally accessible by the same commuter routes and served by the same employment centers and school districts causing the developments to compete with one another for the same pool of buyers at similar price points and amenity levels.

The competitive position of the Developers in the sale of land and the sale or leasing of residences is affected by most of the factors discussed in this section. Such a competitive position is directly related to the growth and maintenance of taxable values in the District and tax revenues to be received by the District. The District can give no assurance that building and marketing programs in the District by the Developers will be implemented or, if implemented, will be successful.

Dependence on Principal Taxpayers

Based upon the 2024 certified tax rolls, the ten (10) largest taxpayers, which includes the Developers and the homebuilders, are responsible for approximately 8.58% of the District's 2024 taxes. The ability of the principal taxpayers to make full and timely payments of taxes levied against its property by the District and similar taxing authorities will directly affect the District's ability to meet its debt service obligations. If, for any reason, the principal taxpayers do not pay taxes due or do not pay in a timely manner, the District may need to use other funds available for debt service purposes to the extent available. The District has no understanding with any of the principal taxpayers regarding their future level of operations in the District. The District has not covenanted in the Bond Resolution, nor is it required by Texas law, to maintain any particular balance in its Debt Service Fund, Road Debt Service Fund, or any other funds. Therefore, failure by the principal taxpayers to pay their taxes on a timely basis in amounts in excess of the District's available funds could have a material adverse effect upon the District's ability to pay debt service on the Bonds on a current basis. See "THE DEVELOPERS" and "DISTRICT TAX DATA – Principal Taxpayers."

Dependence on Future Development and Potential Impact on District Tax Rates

The District's 2024 tax rate of \$1.46 per \$100 of assessed valuation is slightly higher than the tax rate that is common among many other similar utility districts providing water, sanitary sewer, and storm drainage services in Fort Bend County. An increase in the District's tax rate substantially above such a level could have an adverse impact on future development in the District and on the District's ability to collect such tax.

Assuming no further residential building development within the District other than that which has been constructed, the value of such land and improvements currently located and under construction within the District could be a major determinant of the ability of the District to collect, and the willingness of property owners to pay, ad valorem taxes levied by the District. After issuance of the Bonds, the Maximum Annual Debt Service Requirement will be \$4,324,127 (2040). The District's May 1, 2025 Estimated Taxable Value is \$480,151,934. Assuming no increase or decrease from the May 1, 2025 Estimated Taxable Value and no use of other District funds, a combined debt service tax rate and road debt service tax rate of \$0.95 per \$100 of assessed valuation at 95% collection rate would be necessary to pay the Maximum Annual Debt Service Requirement. The District's 2024 Certified Taxable Value is \$358,857,085. Assuming no increase or decrease from the 2024 Certified Taxable Value and no use of other District funds, a combined debt service tax rate of \$1.27 per \$100 of assessed valuation at 95% collection rate would be necessary to pay the Maximum Annual Debt Service tax rate of \$1.27 per \$100 of assessed valuation at 95% collection rate would be necessary to pay the Maximum Annual Debt Service tax rate of \$1.27 per \$100 of assessed valuation at 95% collection rate would be necessary to pay the Maximum Annual Debt Service tax rate of \$1.27 per \$100 of assessed valuation at 95% collection rate would be necessary to pay the Maximum Annual Debt Service Requirement. See "DISTRICT TAX DATA – Tax Adequacy of Tax Revenue."

Operating Funds

The District set a 2024 maintenance tax rate in the amount of \$0.65 per \$100 assessed valuation. The revenue produced from the maintenance tax must be sufficient to offset the share of the District's operating expenses that are not covered by revenues derived from water and wastewater activities and other revenue sources. Maintenance of a positive General Fund balance will depend upon continued development and increased amounts of maintenance tax revenue. If its General Fund balance is depleted, then the District may be required to levy a maintenance tax at a rate sufficient to fund its operating expenses as previously described. Such a tax, when added to the District's debt service tax, may result in a total District tax which could adversely affect continued development of the District, as well as the willingness of taxpayers to pay taxes on their property. The District expects that it will be able to maintain a total tax rate of \$1.46 per \$100 of assessed valuation or less subsequent to the sale of the Bonds. See "DESCRIPTION OF THE DISTRICT'S SYSTEM – General Fund Operating History" and "DISTRICT TAX DATA – Tax Rate and Collections."

Future Debt

The District's voters have authorized the issuance of unlimited tax bonds for various purposes as reflected in the table below:

<u>Amount</u>	<u>Purpose</u>
\$284,000,000	For certain water, sanitary sewer, and storm water facilities and for refunding
\$61,000,000	For certain road facilities and for refunding
\$33,000,000	For certain parks and recreation facilities and for refunding

After the issuance of the Bonds, the District will have \$243,145,000 of unlimited tax water, sanitary sewer, and storm water facilities bonds (and for refunding such bonds previously issued), \$39,025,000 of unlimited tax road facilities bonds (and for refunding such bonds previously issued), and \$33,000,000 of unlimited tax parks and recreation bonds (and for refunding such bonds previously issued) that will remain authorized but unissued.

The District has the right to issue additional bonds as may hereafter be approved by both the Board and the voters of the District. Such additional bonds would be issued on a parity with the Bonds. Any future new money bonds (except for new money road bonds) to be issued by the District must also be approved by the TCEQ.

The District is also authorized by statute to engage in fire-fighting activities, including the issuance of bonds payable from taxes for such purpose. Before the District could issue bonds payable from taxes for said purpose, the following actions would be required: (a) authorization of a detailed master plan and bonds for such purpose by the qualified voters in the District; (b) amendment of the existing City of Rosenberg ordinance specifying the purposes for which the District may issue bonds; (c) approval of the master plan and issuance of bonds by the TCEQ; and (d) approval of bonds by the Attorney General of Texas. The Board is not considering issuing any fire-fighting unlimited tax bonds at this time. The District has no information concerning any determination by the City of Rosenberg to modify its consent ordinance. Issuance of bonds for fire-fighting activities could dilute the investment security for the Bonds.

Financing Road Facilities

The District is authorized to develop road facilities, including the issuing of bonds payable from taxes for such purpose. Before the District could issue road bonds payable from taxes, approval of the bonds by the Attorney General of Texas would be required. The outstanding principal amount of such bonds may not exceed an amount equal to twenty-five percent of the value of taxable real property in the District and the District must comply with the combined no-growth tax rate test as required by the Attorney General of Texas. The District conducted a bond election that authorized \$61,000,000 of road bonds at an election held on May 9, 2015. The District has \$39,025,000 of unlimited tax road facilities bonds that remain authorized but unissued after the issuance of the Bonds.

Financing Parks and Recreational Facilities

The District is authorized by statute to develop parks and recreational facilities, including the issuing of bonds payable from taxes for such purpose. Before the District could issue park bonds payable from taxes, the following actions would be required: (a) approval of the park project and bonds by the TCEQ; and (b) approval of the bonds by the Attorney General of Texas. If the District does issue park bonds, the outstanding principal amount of such bonds may not exceed an amount equal to one percent of the value of the taxable property in the District, unless the District meets certain financial feasibility requirements under the TCEQ rules, in which case the outstanding principal amount of such bonds issued by the District may exceed an amount equal to one percent but not greater than three percent of the value of the taxable property in the District. The District has prepared a park plan and conducted a bond election on May 9, 2015, that authorized \$33,000,000 of park bonds, all of which remain authorized but unissued.

Current law may be changed in a manner to increase the amount of bonds that may be issued as related to a percentage of the value of taxable property or to allow a higher or lower maintenance tax rate for such purposes. The levy of taxes for such purposes may dilute the security for the Bonds.

Continuing Compliance with Certain Covenants

Failure of the District to comply with certain covenants contained in the Bond Resolution on a continuing basis prior to the maturity of the Bonds could result in interest on the Bonds becoming taxable retroactively to the date of original issuance. See "TAX MATTERS."

Environmental Regulations

Wastewater treatment, water supply, storm sewer facilities and construction activities within the District are subject to complex environmental laws and regulations at the federal, state and local levels that may require or prohibit certain activities that affect the environment, such as:

- Requiring permits for construction and operation of water wells, wastewater treatment and other facilities;
- Restricting the manner in which wastes are treated and released into the air, water and soils;
- Restricting or regulating the use of wetlands or other properties; or
- Requiring remedial action to prevent or mitigate pollution.

Sanctions against a municipal utility district or other type of special purpose district for failure to comply with environmental laws and regulations may include a variety of civil and criminal enforcement measures, including assessment of monetary penalties, imposition of remedial requirements and issuance of injunctions to ensure future compliance. Environmental laws and compliance with environmental laws and regulations can increase the cost of planning, designing, constructing and operating water production and wastewater treatment facilities. Environmental laws can also inhibit growth and development within the District. Further, changes in regulations occur frequently, and any changes that result in more stringent and costly requirements could materially impact the District.

Air Quality Issues. Air quality control measures required by the United States Environmental Protection Agency (the "EPA") and the Texas Commission on Environmental Quality (the "TCEQ") may impact new industrial, commercial and residential development in the Houston area. Under the Clean Air Act ("CAA") Amendments of 1990, the eight-county Houston-Galveston-Brazoria area ("HGB Area")—Harris, Galveston, Brazoria, Chambers, Fort Bend, Waller, Montgomery and Liberty Counties—has been designated a nonattainment area under two separate federal ozone standards: the eight-hour ozone standard of 75 ppb promulgated by the EPA in 2008 (the "2008 Ozone Standard"), and the EPA's most-recent promulgation of an even lower, 70 ppb eight-hour ozone standard in 2015 (the "2015 Ozone Standard"). While the State of Texas has been able to demonstrate steady progress and improvements in air quality in the HGB Area, the HGB Area remains subject to CAA nonattainment requirements.

The HGB Area is currently designated as a "severe" nonattainment area under the 2008 Ozone Standard, with an attainment deadline of July 20, 2027. If the EPA ultimately determines that the HGB Area has failed to meet the attainment deadline based on the relevant data, the area is subject to reclassification to a nonattainment classification that provides for more stringent controls on emissions from the industrial sector. In addition, the EPA may impose a moratorium on the awarding of federal highway construction grants and other federal grants for certain public works construction projects if it finds that an area fails to demonstrate progress in reducing ozone levels.

The HGB Area is currently designated as a "serious" nonattainment area under the 2015 Ozone Standard, with an attainment deadline of August 3, 2027. For purposes of the 2015 Ozone Standard, the HGB Area consists of only six counties: Brazoria, Chambers, Fort Bend, Galveston, Harris, and Montgomery Counties.

In order to demonstrate progress toward attainment of the EPA's ozone standards, the TCEQ has established a state implementation plan ("SIP") for the HGB Area setting emission control requirements, some of which regulate the inspection and use of automobiles. These types of measures could impact how people travel, what distances people are willing to travel, where people choose to live and work, and what jobs are available in the HGB Area. These SIP requirements can negatively impact business due to the additional permitting/regulatory constraints that accompany this designation and because of the community stigma associated with a nonattainment designation. It is possible that additional controls will be necessary to allow the HGB Area to reach attainment with the ozone standards by the EPA's attainment deadlines. These additional controls could have a negative impact on the HGB Area's economic growth and development.

Water Supply & Discharge Issues. Water supply and discharge regulations that municipal utility districts, including the District, may be required to comply with involve: (1) groundwater well permitting and surface water appropriation; (2) public water supply systems; (3) wastewater discharges from treatment facilities; (4) storm water discharges; and (5) wetlands dredge and fill activities. Each of these is addressed below:

Certain governmental entities regulate groundwater usage in the HGB Area. A municipal utility district or other type of special purpose district that (i) is located within the boundaries of such an entity that regulates groundwater usage, and (ii) relies on local groundwater as a source of water supply, may be subject to requirements and restrictions on the drilling of water wells and/or the production of groundwater that could affect both the engineering and economic feasibility of district water supply projects.

Pursuant to the federal Safe Drinking Water Act ("SDWA") and the EPA's National Primary Drinking Water Regulations ("NPDWRs"), which are implemented by the TCEQ's Water Supply Division, a municipal utility district's provision of water for human consumption is subject to extensive regulation as a public water system. Municipal utility districts must generally provide treated water that meets the primary and secondary drinking water quality standards adopted by the TCEQ, the applicable disinfectant residual and inactivation standards, and the other regulatory action levels established under the agency's rules. The EPA has established NPDWRs for more than ninety (90) contaminants and has identified and listed other contaminants which may require national drinking water regulation in the future. Further, the EPA has established a NPDWR for six (6) Per- and Polyfluoroalkyl Substances ("PFAS"), which requires public water systems to perform certain monitoring and remediation measures. Public water systems may be subject to additional PFAS regulation in the future, which could increase the cost of constructing, operating, and maintaining water production and distribution facilities.

Texas Pollutant Discharge Elimination System ("TPDES") permits set limits on the type and quantity of discharge, in accordance with state and federal laws and regulations. The TCEQ reissued the TPDES Construction General Permit (TXR150000) ("CGP"), with an effective date of March 5, 2023, which is a general permit authorizing the discharge of stormwater runoff associated with small and large construction sites and certain non-stormwater discharges into surface water in the state. The CGP has a 5-year permit term, and is then subject to renewal. Moreover, the Clean Water Act ("CWA") and Texas Water Code require municipal wastewater treatment plants to meet secondary treatment effluent limitations and more stringent water quality-based limitations and requirements to comply with the Texas water quality standards. Any water quality-based limitations and requirements with which a municipal utility district must comply may have an impact on the municipal utility district's ability to obtain and maintain compliance with TPDES permits.

The TCEQ issued the General Permit for Phase II (Small) Municipal Separate Storm Sewer Systems (the "MS4 Permit") on August 15, 2024. The MS4 Permit authorizes the discharge of stormwater to surface water in the state from small municipal separate storm sewer systems. While the District is currently not subject to the MS4 Permit, if the District's inclusion were required at a future date, the District could incur substantial costs to develop, implement, and maintain the necessary plans as well as to install or implement best management practices to minimize or eliminate unauthorized pollutants that may otherwise be found in stormwater runoff in order to comply with the MS4 Permit.

Operations of utility districts, including the District, are also potentially subject to requirements and restrictions under the CWA regarding the use and alteration of wetland areas that are within the "waters of the United States." The District must obtain a permit from the United States Army Corps of Engineers ("USACE") if operations of the District require that wetlands be filled, dredged, or otherwise altered.

In 2023, the Supreme Court of the United States issued its decision in *Sackett v. EPA*, which clarified the definition of "waters of the United States" and significantly restricted the reach of federal jurisdiction under the CWA. Under the Sackett decision, "waters of the United States" includes only geographical features that are described in ordinary parlance as "streams, oceans, rivers, and lakes" and to adjacent wetlands that are indistinguishable from such bodies of water due to a continuous surface connection. Subsequently, the EPA and USACE issued a final rule amending the definition of "waters of the United States" under the CWA to conform with the Supreme Court's decision.

While the Sackett decision and subsequent regulatory action removed a great deal of uncertainty regarding the ultimate scope of "waters of the United States" and the extent of EPA and USACE jurisdiction, operations of municipal utility districts, including the District, could potentially be subject to additional restrictions and requirements, including additional permitting requirements, in the future.

2025 Legislative Session

The 89th Regular Legislative Session convened on January 14, 2025, and concluded on June 2, 2025. The Governor has called a special session and may call additional special sessions that may include legislation affecting property taxes. The District can make no representation regarding any actions the Texas Legislature may take or the effect of any such actions.

Changes in Tax Legislation

Certain tax legislation, whether currently proposed or proposed in the future, may directly or indirectly reduce or eliminate the benefit of the exclusion of interest on the Bonds from gross income for federal income tax purposes. Any proposed legislation, whether or not enacted, may also affect the value and liquidity of the Bonds. Prospective purchasers of the Bonds should consult with their own tax advisors with respect to any proposed, pending, or future legislation.

Increase in Cost of Building Materials and Labor Shortages

As a result of low supply and high demand, shipping constraints, and the ongoing trade war (including tariffs and retaliatory tariffs), there have been substantial increases in the cost of lumber and other materials, causing developers, homebuilders, and general contractors to experience budget overruns. Further, the federal administration's impositions and threatened impositions of tariffs and the imposition or threatened impositions of retaliatory tariffs against the United States will impact the ability of developers, homebuilders, and general contractors to estimate costs, which could have a direct effect on the District's ability to finance water, sanitary, and detention facilities. Furthermore, the federal administration's immigration policies may impact the Texas' workforce.

Bond Insurance Risk Factors

The District has applied for a bond insurance policy to guarantee the scheduled payment of principal and interest on the Bonds. If the Policy is issued, investors should be aware of the following risk factors:

In the event of default of the payment of principal or interest with respect to the Bonds when all or some becomes due, any owner of the Bonds shall have a claim under the applicable bond insurance policy (the "Policy") for such payments. However, in the event of any acceleration of the due date of such principal by reason of mandatory or optional redemption or acceleration resulting from default or otherwise, other than any advancement of maturity pursuant to a mandatory sinking fund payment, the payments are to be made in such amounts and at such times as such payments would have been due had there not been any such acceleration. The Policy does not insure against redemption premium, if any. The payment of principal and interest in connection with mandatory or optional prepayment of the Bonds by an issuer which is recovered by the issuer from the bond owner as a voidable preference under applicable bankruptcy law is covered by the insurance policy, however, such payments will be made by the policy insurer (the "Bond Insurer") at such time and in such amounts as would have been due absent such prepayment by the District unless the Bond Insurer chooses to pay such amounts at an earlier date.

Default of payment of principal and interest does not obligate acceleration of the obligations of the Bond Insurer without appropriate consent. The Bond Insurer may direct and must consent to any remedies and the Bond Insurer's consent may be required in connection with amendments to any applicable bond documents.

In the event the Bond Insurer is unable to make payment of principal and interest as such payments become due under the Policy, the Bonds are payable solely from the moneys received pursuant to the applicable bond documents. In the event the Bond Insurer becomes obligated to make payments with respect to the Bonds, no assurance is given that such event will not adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds.

The long-term ratings on the Bonds are dependent in part on the financial strength of the Bond Insurer and its claim paying ability. The Bond Insurer's financial strength and claims paying ability are predicated upon a number of factors which could change over time. No assurance is given that the long-term ratings of the Bond Insurer and of the ratings on the Bonds insured by the Bond Insurer will not be subject to downgrade and such event could adversely affect the market price of the Bonds or the marketability (liquidity) for the Bonds. See description of "BOND INSURANCE" herein.

The obligations of the Bond Insurer are contractual obligations and in an event of default by the Bond Insurer, the remedies available may be limited by applicable bankruptcy law or state law related to insolvency of insurance companies.

Neither the District nor the Underwriters have made independent investigation into the claims paying ability of the Bond Insurer and no assurance or representation regarding the financial strength or projected financial strength of the Bond Insurer is given. Thus, when making an investment decision, potential investors should carefully consider the ability of the District to pay principal and interest on the Bonds and the claims paying ability of the Bond Insurer, particularly over the life of the investment. See "BOND INSURANCE" herein for further information provided by the Bond Insurer and the Policy, which includes further instructions for obtaining current financial information concerning the Bond Insurer.

Severe Weather

The District is located approximately 70 miles from the Texas Gulf Coast. Land located in this area is susceptible to high winds, heavy rain and flooding caused by hurricanes, tropical storms, and other tropical disturbances. If a hurricane (or any other natural disaster) significantly damaged all or part of the improvements within the District, the assessed value of property within the District could

be substantially reduced, with a corresponding decrease in tax revenues or necessity to increase the District's tax rate. Further, there can be no assurance that a casualty loss to taxable property within the District will be covered by insurance (or that property owners will even carry flood insurance), that any insurance company will fulfill its obligation to provide insurance proceeds, or that insurance proceeds will be used to rebuild or repair any damaged improvements within the District. Even if insurance proceeds are available and improvements are rebuilt, there could be a lengthy period in which assessed values within the District would be adversely affected.

The greater Houston area has experienced four storms exceeding a 0.2% probability of occurrence (i.e., "500-year flood" events) since 2015. If the District were to sustain damage to its facilities as a result of such a storm (or any other severe weather event) requiring substantial repair or replacement, or if substantial damage to taxable property within the District were to occur as a result of a severe weather event, the investment security of the Bonds could be adversely affected.

Winter Storm Uri

From February 12-19, 2021, the State of Texas experienced a severe winter storm ("Winter Storm Uri") which included prolonged freezing temperatures, heavy snow, and freezing rains statewide. Winter Storm Uri led to power outages and potable and non-potable water shortages in many areas of the State, including the District. The federal government issued a Major Disaster Declaration for the State of Texas and has included federal funding for emergency protective measures. The District did not sustain material damage to its infrastructure during Winter Storm Uri. The District cannot predict the impact of future winter weather events.

Hurricane Beryl

The District sustained high levels of wind and rainfall as a result of Hurricane Beryl's landfall along the Texas gulf coast on July 8, 2024. According to the District Operator, there were no interruptions of water and sewer service and no material damage to the District's facilities as a result of Hurricane Beryl. Based on information available to the District, there were no reports that any homes or improvements within the District experienced flooding or other structural damage as a result of Hurricane Beryl.

Specific Flood Type Risks

The District may be subject to the following flood risks:

<u>Ponding (or Pluvial) Flooding</u> – Ponding, or pluvial, flooding occurs when heavy rainfall creates a flood event independent of an overflowing water body, typically in relatively flat areas. Intense rainfall can exceed the drainage capacity of a drainage system, which may result in water within the drainage system becoming trapped and diverted onto streets and nearby property until it is able to reach a natural outlet. Ponding can also occur in a flood pool upstream or behind a dam, levee or reservoir.

<u>Riverine (or Fluvial) Flooding</u> – Riverine, or fluvial, flooding occurs when water levels rise over the top of river, bayou or channel banks due to excessive rain from tropical systems making landfall and/or persistent thunderstorms over the same area for extended periods of time. The damage from a riverine flood can be widespread. The overflow can affect smaller rivers and streams downstream, or may sheet-flow over land. Flash flooding is a type of riverine flood that is characterized by an intense, high velocity torrent of water that occurs in an existing river channel with little to no notice. Flash flooding can also occur even if no rain has fallen, for instance, after a levee, dam or reservoir has failed or experienced an uncontrolled release, or after a sudden release of water by a debris or ice jam. In addition, planned or unplanned controlled releases from a dam, levee or reservoir also may result in flooding in areas adjacent to rivers, bayous or drainage systems downstream.

Temporary Tax Exemption for Property Damaged by Disaster

The Property Tax Code (hereinafter defined) provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% physically damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as the District, adopting its tax rate for the tax year. A taxing unit, such as the District, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

Tax Payment Installments After Disaster

Certain qualified taxpayers, including owners of residential homesteads, located within a designated disaster area or emergency area and whose property has been damaged as a direct result of the disaster or emergency, are entitled to enter into a tax payment installment agreement with a taxing jurisdiction, such as the District, if the taxpayer pays at least one-fourth of the tax bill imposed on the property by the delinquency date. The remaining taxes may be paid without penalty or interest in three equal installments within six months of the delinquency date.

Additionally, the Property Tax Code authorizes a taxing jurisdiction such as the District, solely at the jurisdiction's discretion to adopt a similar installment payment option for taxes imposed on personal property that is located within a designated disaster area or

emergency area and is owned or leased by certain qualified business entities, regardless of whether the property has been damaged as a direct result of the disaster or emergency.

<u>Atlas 14</u>

The National Weather Service recently completed a rainfall study known as NOAA Atlas 14, Volume 11 Precipitation-Frequency Atlas of the United States ("Atlas 14"). Floodplain boundaries within the Service Area may be redrawn based on the Atlas 14 study based on a higher statistical rainfall amount, resulting in the application of more stringent floodplain regulations applying to a larger area and potentially leaving less developable property within the Service Area. The application of such regulations could additionally result in higher insurance rates, increased development fees, and stricter building codes for any property located within the expanded boundaries of the floodplain.

Cybersecurity

The District's consultants use digital technologies to collect taxes, hold funds and process disbursements. These systems necessarily hold sensitive protected information that is valued on the black market. As a result, the electronic systems and networks of organizations like the District's consultants are considered targets for cyber-attacks and other potential breaches of their systems. To the extent the District is determined to be the party responsible for various electronic systems or suffers a loss of funds due to a security breach, there could be a material adverse effect on the District's finances. Insurance to protect against such breaches is limited.

USE OF BOND PROCEEDS

Proceeds of the Bonds will be used by the District to: (1) reimburse the Developers (hereinafter defined) for a portion of the construction costs associated with road facilities serving the District and associated land acquisition, engineering, and testing costs; (2) fund Developer interest related to the advancement of funds for certain construction costs; (3) fund six (6) months of capitalized interest on the Bonds; and (4) pay administrative costs and issuance expenses associated with the sale and delivery of the Bonds.

Quiddity Engineering, LLC (the "Engineer") has advised the District that the proceeds listed below should be sufficient for the acquisition of such facilities. The District's present estimate of the use of proceeds of the Bonds is as follows:

CONSTRUCTION COSTS	Total Amount	
Developer Contribution Items		
Stonecreek Estates, Section 7	\$313,873	
Stonecreek Estates, Section 9	\$1,289,006	
Stonecreek Estates, Section 10	\$746,340	
Stonecreek Estates, Section 11	\$210,914	
Stonecreek Estates, Section 12	\$1,260,474	
Stonecreek Estates, Section 13	\$1,128,122	
Pavement Repairs in Stonecreek Estates Section 13	\$368,995	
Stonecreek Estates, Section 14	\$223,389	
Walnut Creek, Section 1	\$914,752	
A. Meyers Phase 1	\$1,484,523	
Engineering & Testing	\$1,146,929	
Land Costs	\$3,578,918	
Total Developer Contribution Items	\$12,666,234	
TOTAL CONSTRUCTION COSTS	\$12,666,234	(a)
NON-CONSTRUCTION COSTS		
Legal Fees	\$346,000	
Fiscal Agent Fees	\$254,500	
Interest Costs:		
Developer Interest	\$1,097,351	
Capitalized Interest (6 months at 5.0%)	\$382,500	
Bond Discount	\$30Z,300	
	\$459,000	
Bond Issuance Expenses	. ,	
Bond Issuance Expenses Bond Issue Preparation Costs	\$459,000	
1	\$459,000 \$54,915	
Bond Issue Preparation Costs	\$459,000 \$54,915 \$30,000	(b)
Bond Issue Preparation Costs Attorney General's Fee	\$459,000 \$54,915 \$30,000 \$9,500	(b)

(a) The TCEQ has not established rules regarding district reimbursement of road costs to developers. The District has engaged its independent auditor to perform certain agreed upon procedures on the Developer's documentation of the payments of eligible road improvement costs.

(b) The District will designate any surplus Bond proceeds resulting from the sale of the Bonds at a lower interest rate than the estimated rate as a contingency line item in the Final Official Statement.

THE DISTRICT

Authority

The District is a municipal utility district created by an Act of the 83rd Texas Legislature, effective on September 1, 2013, codified as Chapter 8446, Texas Special District Local Laws Code ("Chapter 8446"). The District was created pursuant to the authority of Article XVI, Section 59 of the Texas Constitution and operates pursuant to Chapter 8446 and Chapters 49 and 54, Texas Water Code, as amended. The rights, powers, privileges, authority, and functions of the District are established by the general laws of the State of Texas pertaining to municipal utility districts, including particularly Chapter 8446 and Chapters 49 and 54, Texas Water Code, as amended. The District is subject to the continuing supervision of the TCEQ. The District is empowered to purchase, construct, operate, and maintain all works, improvements, facilities, and plants necessary for the supply of water; the collection, transportation, and treatment of wastewater; and the control and diversion of storm water. Additionally, the District was created with certain road powers.

Under certain limited circumstances, the District is authorized to construct, develop, and maintain park and recreational facilities, and to construct roads. In addition, the District is authorized to establish, operate, and maintain a fire department, independently or with one or more other conservation and reclamation districts, and to provide such facilities and services to the customers of the District.

The TCEQ exercises continuing supervisory jurisdiction over the District. In order to obtain the consent of the City, within whose extraterritorial jurisdiction the District lies, to the District's creation, the District has agreed to observe certain City requirements. These

requirements require City approval of, and limit the purposes for which the District may sell, bonds for the acquisition and improvement of waterworks, wastewater, and drainage facilities, road facilities, and park and recreational facilities; limit the net effective interest rate on such bonds and other terms of such bonds; and require the City's approval of certain of the District's construction plans and specifications.

Description and Location

The District, as it was originally created, encompassed approximately 507 acres. Since its creation, the District has excluded two tracts of land totaling approximately six (6) acres. The District presently encompasses approximately 501 acres. The District is located within the extraterritorial jurisdiction of the City and within the boundaries of Lamar Consolidated Independent School District. The District is located approximately 27 miles southwest of the central business district of the City of Houston, Texas. The District is located south of A. Myers Road and is bisected by Dry Creek. The District is bounded by Berdett Road to the east. Berdett Road serves as the primary access point in the District for the District's residents.

According to the District's Engineer, the Flood Hazard Boundary Map [published by the Federal Emergency Management Agency (FEMA)], currently in effect, and which covers land located in the District, indicates that approximately 25 acres of land located in the District is located within the 100-year floodplain as determined by FIRM map 48157C0265L. All of such 25 acres located within the 100-year floodplain is contained in the banks of Dry Creek; none of the developed and improved land and none of the undeveloped land that is planned for future development is located within the 100-year floodplain. See "DESCRIPTION OF THE DISTRICT'S SYSTEM – Description of the System and Regulation."

Land Uses and Status of Land Development

A summary of the approximate land use in the District as of June 1, 2025, appears in the following table:

Type of Land Use	Approximate Acres	
Developed and Improved Acres	400	(a)
Acres Under Development	37	(b)
Recreation Center	5	(c)
Additional Developable Acreage	0	
Undevelopable Land	<u>59</u>	(d)
Total Approximate Acres	501	

- (a) Represents the land located in Stonecreek Estates, Sections 1 14, Walnut Creek at Stonecreek Estates, Sections 1 2, and Lamar Consolidated Independent School District Carter Elementary School (approximately 15 acres). Such acreage excludes the 5-acre recreation center site.
- (b) Represents the land located in Stonecreek Estates, Section 15 (approximately 21 acres) and Stonecreek Estates, Section 16 (approximately 16 acres). Stonecreek Estates, Sections 15 and 16 are currently under construction and expected to contain 95 single-family residential lots and 49 single-family residential lots, respectively. The lots in Stonecreek Estates, Sections 15 and 16 are anticipated to be available for homebuilding during the third quarter of 2025.
- (c) The recreation center consists of a swimming pool, splash pad, playground, dining and grilling pavilion, and other amenities available to the District's residents.
- (d) Includes street rights-of-way, detention ponds, drainage easements, pipeline easements, water supply and wastewater treatment plant sites, and open spaces in the District.

Status of Residential Development

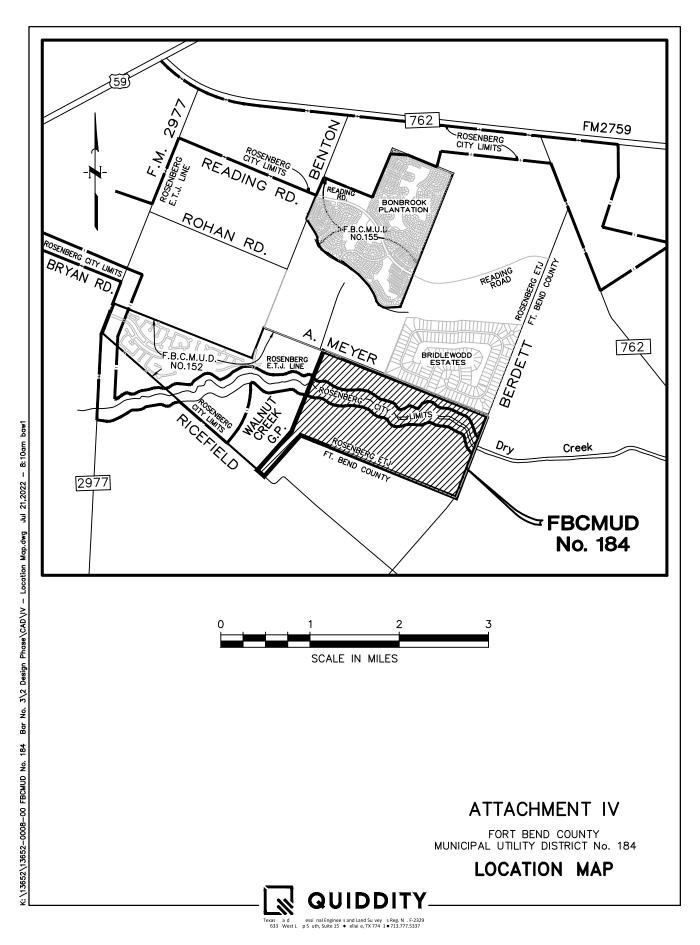

The District is being developed for predominantly single-family residential purposes in the subdivisions known as Stonecreek Estates and Walnut Creek at Stonecreek Estates. The approximate status of development in the District as of June 1, 2025, is summarized in the table below.

	Homes			
Subdivision/Section	Total <u>Lots</u>	Complete	Under Construction	Vacant <u>Lots</u>
Stonecreek Estates, Section 1 (a)	185	185	0	0
Stonecreek Estates, Section 2 (a)	35	35	0	0
Stonecreek Estates, Section 3 (b)	72	72	0	0
Stonecreek Estates, Section 4 (c)	37	37	0	0
Stonecreek Estates, Section 5 (d)	38	38	0	0
Stonecreek Estates, Section 6 (e)	49	49	0	0
Stonecreek Estates, Section 7 (e)	27	27	0	0
Stonecreek Estates, Section 8 (e)	93	93	0	0
Stonecreek Estates, Section 9 (f)	75	70	4	1
Stonecreek Estates, Section 10 (f)	53	48	5	0
Stonecreek Estates, Section 11 (g)	71	71	0	0
Stonecreek Estates, Section 12 (h)	87	55	20	12
Stonecreek Estates, Section 13 (h)	78	43	1	34
Stonecreek Estates, Section 14 (h)	81	39	18	24
Walnut Creek at Stonecreek Estates, Section 1 (i)	92	92	0	0
Walnut Creek at Stonecreek Estates, Section 2 (i)	93	<u>93</u>	0	0
TOTALS	1,166	1,047 (j)	48	71

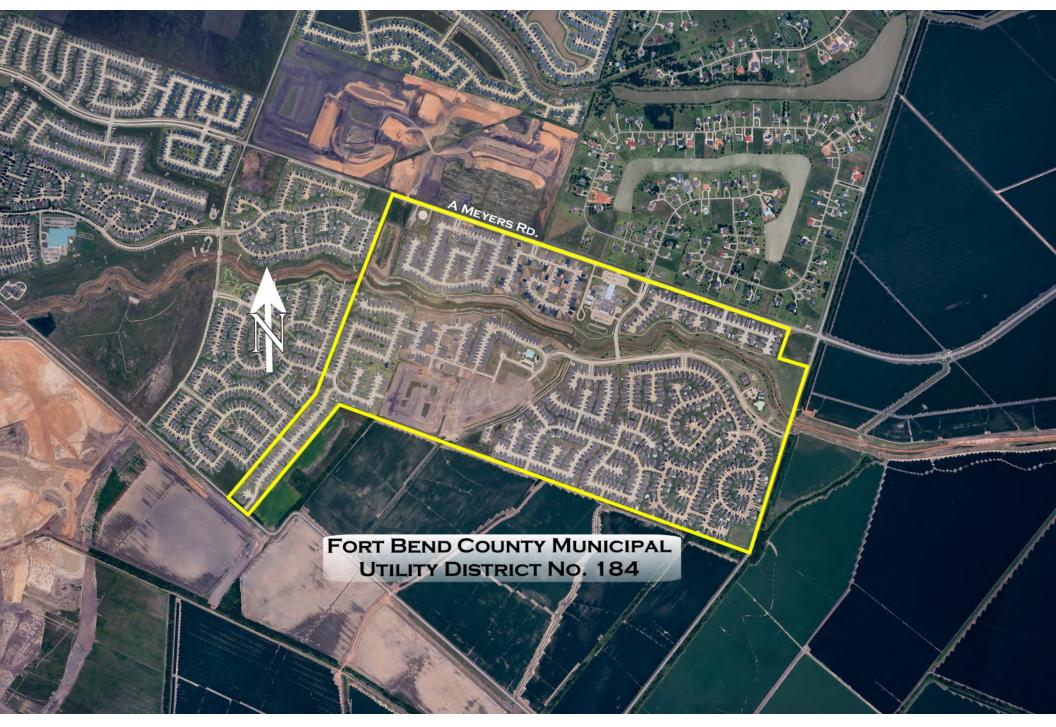

- (a) The lots in Stonecreek Estates, Sections 1 2 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Sections 1 2 were constructed by Meritage Homes and KHovnanian Homes on 60-foot and 65-foot lots that were marketed and sold in the \$240,000 \$310,000 price range and by Westin Homes on 75-foot lots that were marketed and sold in the \$320,000 \$400,000 price range.
- (b) The lots in Stonecreek Estates, Section 3 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Section 3 were constructed by Meritage Homes and Perry Homes on 60-foot lots that were marketed and sold in the \$270,000 \$320,000 price range.
- (c) The lots in Stonecreek Estates, Section 4 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Section 4 were constructed by Westin Homes on 70-foot lots that were marketed and sold in the \$400,000 \$500,000 price range.
- (d) The lots in Stonecreek Estates, Section 5 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Section 5 were constructed by Perry Homes and David Weekley Homes on 60-foot lots that were marketed and sold in the \$380,000 \$450,000 price range.
- (e) The lots in Stonecreek Estates, Sections 6 8 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Sections 6 8 were constructed by Perry Homes, David Weekley Homes, and Westin Homes on 60-foot and 70-foot lots that were marketed and sold in the \$400,000 \$600,000 price range.
- (f) The lots in Stonecreek Estates, Sections 9 10 were developed by Ashton Woods. Homes in Stonecreek Estates, Sections 9 10 are being constructed by Ashton Woods on 60-foot lots and are currently being marketed and sold in the \$415,000 \$550,000 price range.
- (g) The lots in Stonecreek Estates, Section 11 were developed by Dry Creek ASLI. Homes in Stonecreek Estates, Section 11 were constructed by Perry Homes and David Weekley Homes on 60-foot lots that were marketed and sold in the \$400,000 \$500,000 price range.
- (h) The lots in Stonecreek Estates, Sections 12 14 were developed by Perry Homes. Homes in Stonecreek Estates, Sections 12 14 are being constructed by Perry Homes, as well as Toll Brothers Homes in Section 12, on 50-foot and 60-foot lots and are currently being marketed and sold in the \$450,000 \$850,000 price range.
- (i) The lots in Walnut Creek at Stonecreek Estates, Sections 1 2 were developed by Dry Creek ASLI. Homes in Walnut Creek at Stonecreek Estates, Sections 1 2 were constructed by Lennar Homes on 60-foot lots that were marketed and sold in the \$350,000 \$485,000 price range.
- (j) According to the District's records as of June 1, 2025, approximately 1,011 homes were owner-occupied.

School Facilities in the District

Lamar Consolidated Independent School District owns and operates a certain elementary school facility within the boundaries of the District known as Carter Elementary School. Such facilities owned by Lamar Consolidated Independent School District are exempt from taxation by the District.

AERIAL PHOTOGRAPH

THE DEVELOPERS

Role of a Developer

In general, the activities of developers in a municipal utility district such as the District include purchasing the land within a district, designing the streets in the subdivision, designing any community facilities to be built, defining a marketing program and building schedule, securing necessary governmental approvals and permits for development, arranging for the construction of roads and the installation of utilities, and selling improved lots and commercial reserves to builders, other developers, or other third parties. In most instances, a developer will be required to pay up to 30% of the cost of financing certain water, wastewater, and drainage facilities in the utility district exclusive of water and sewage treatment plants unless a waiver from this requirement is requested and obtained from the TCEQ by the District, pursuant to the rules of the TCEQ. In addition, a developer is ordinarily the major taxpayer within a utility district during the property development phase and the developer's inability to pay the taxes assessed on its property within a district would have a materially adverse effect on the revenues of the district. The relative success or failure of a developer to perform development activities within a utility district through a specific bond issue, a developer is generally under no obligation to a district to undertake development activities with respect to other property that it owns within a district. Furthermore, there is no restriction on a developer's right to sell any or all of the land that the developer owns within a district.

Descriptions of the Developers

The original developer of the District is Dry Creek (Houston) ASLI VII, LLC ("Dry Creek ASLI") a Delaware limited liability company that was established solely for the purpose of developing the approximately 501 acres of land located within the District. The General Partner of Dry Creek ASLI is Avanti Management Corporation, a Florida corporation, an entity established by Avanti Property Group ("Avanti"). Avanti is a real estate investment firm dedicated exclusively to land investment, development, and finance. Since 1992, Avanti has committed over \$1.4 billion to residential, commercial, and industrial land development projects in approximately 25 markets across the United States.

Dry Creek ASLI has entered into a management agreement (the "Management Agreement") with Dry Creek Lot Partners, LLC, a Texas limited liability company ("Dry Creek Lot Partners") that is comprised of individuals that are employed by Ersa Grae Corporation, a local Houston development company. Since 1977, Ersa Grae Corporation has been involved in developing land in residential, retail, and office markets, including Houston and Dallas, Texas, Nashville, Tennessee, Sarasota and Naples, Florida and Los Angeles, California. Ersa Grae Corporation has been responsible for all or a significant portion of the land development activities in approximately 12 different projects during the past eight years.

Pursuant to the terms of the Management Agreement, Dry Creek Lot Partners manages the day-to-day development activities of the development including land planning, lot development, lot sale negotiations/closings with homebuilders, and coordination of development activities with the District. The Management Agreement provides for Dry Creek Lot Partners to receive reimbursement for direct expenses, a monthly management fee, and provides for certain additional compensation based on the profitability of the project.

Dry Creek ASLI has developed approximately 254 acres known as Stonecreek Estates, Sections 1 - 8, and 11 and Walnut Creek at Stonecreek Estates, Sections 1 - 2, which collectively contain 792 single-family residential lots. Dry Creek ASLI owns approximately two (2) acres of additional land holdings within the District, which it expects to be developed for commercial purposes based on current land plans.

On August 16, 2021, Dry Creek ASLI sold approximately 36 acres of its land holdings in the District to CW-Stone Creek, LLC, a Texas limited liability company, and land banker for Ashton Houston Residential, LLC, a Texas limited liability company ("Ashton Woods"). Ashton Woods has developed approximately 21 acres known as Stonecreek Estates, Section 9 (75 single-family residential lots) and approximately 15 acres known as Stonecreek Estates, Section 10 (53 single-family residential lots).

On October 7, 2021, Dry Creek ASLI sold approximately 103 acres of its land holdings in the District to Perry Homes, LLC, a Texas limited liability company ("Perry Homes"). Such approximate 103 acres were subsequently purchased by PHHOU – SC 103, LLC, which is a Perry Homes Special Purpose Entity (SPE). According to Perry Homes, and based on current land plans, the development of such 103 acres is planned for approximately 400 single-family residential lots platted as Stonecreek Estates, Sections 12 – 16. Perry Homes has developed approximately 25 acres known as Stonecreek Estates, Section 12 (87 single-family residential lots), approximately 23 acres known as Stonecreek Estates, Section 13 (78 single-family residential lots), and approximately 19 acres known as Stonecreek Estates, Section 14 (81 single-family residential lots). Additionally, Perry Homes has commenced the development of approximately 21 acres known as Stonecreek Estates, Section 15 (95 single-family residential lots) and 16 acres known as Stonecreek Estates, Section 16 (49 single-family residential lots). According to Perry Homes, the lots in Stonecreek Estates, Sections 15 and 16 are anticipated to be available for homebuilding during the third quarter of 2025.

Dry Creek ASLI, Ashton Woods, and Perry Homes are collectively referred to herein as the "Developers."

As stated elsewhere in this Official Statement, the Developers have no commitments or obligations to proceed at any particular rate or according to any specified plan with the development of land or the construction of homes in the District. Future development and homebuilding depend, in part, upon short-term and long-term interest rates, availability of mortgage and development funds, labor conditions, and general economic conditions. Neither the District nor the Developers represent that the development of the Developers'

respective land holdings will ever be undertaken nor that any taxable improvements will ever be constructed thereon. See "RISK FACTORS – Economic Factors" and "– Landowners/Developer Under No Obligation to the District."

Homebuilders

The prior and current homebuilders that have built or are actively marketing and building homes in the Stonecreek Estates and Walnut Creek at Stonecreek Estates subdivisions include Meritage Homes, KHovnanian Homes, Westin Homes, David Weekley Homes, Perry Homes, Lennar Homes, Ashton Woods Homes, and Toll Brothers Homes. Homes in the District are being constructed on 50-foot, 60-foot, 65-foot, 70-foot, and 75-foot lots and are being marketed in various price points ranging from \$350,000 to \$850,000. See "THE DISTRICT – Status of Residential Development."

DESCRIPTION OF THE DISTRICT'S SYSTEM

Description of the System and Regulation

All facilities have been designed in conformance with accepted engineering practices and the requirements of certain governmental agencies having regulatory or supervisory jurisdiction over the construction and operation of such facilities, including, as applicable, among others, the TCEQ, Fort Bend County, Fort Bend Subsidence District, and the City.

Operation of the System is subject to regulation by, among others, the EPA and the TCEQ. In many cases, regulations promulgated by these agencies have become effective only recently and are subject to further development and revision. According to the Engineer, the Flood Hazard Boundary Map currently in effect, published by the Federal Emergency Management Agency (FEMA), which covers land located in the District, indicates that approximately 25 acres of the land in the District are located within the 100-year floodplain as determined by FIRM map number 48157C0265L. All of such 25 acres located within the 100-year floodplain is contained in the banks of Dry Creek; none of the developed and improved land and none of the undeveloped land that is planned for future development is located within the 100-year floodplain.

Water Plant, Wastewater Treatment Plant, and Drainage System

-Water Supply-

The District currently receives its water from the City pursuant to the terms of a Water Supply and Wastewater Service Agreement (the "Water Supply Agreement"). The City initially committed to provide the District with capacity to serve 500 equivalent single-family connections ("ESFCs") and agreed to provide the District with an additional 1,200 ESFCs upon a 24-months' notice by the District to the City. On June 22, 2021, the District provided notice to the City regarding its intent to use the additional 1,200 ESFCs of capacity reserved in the City's water supply system and such additional capacity is now in place, which, according to the Engineer, will be sufficient to serve the District at ultimate buildout given current land plans.

The Water Supply Agreement provides for the payment of water impact fees to the City (currently in the amount of \$1,567.50 per ESFC) with such impact fee due prior to the approval of a platted lot. The City's impact fee amount is subject to change. Additionally, the City bills the District monthly (as a wholesale customer) for water used, and the District in turn bills residents for water used.

The Water Supply Agreement became effective August 26, 2014, and was amended on August 1, 2023, has a term of 25 years, and automatically renews for one-year terms consecutively thereafter

-Interim Wastewater Treatment Plant-

The District has entered into 60-month leases that may be extended on a month-to-month basis upon written notice from the District for two (2) interim wastewater treatment plants, respectively, that have a combined capacity of 200,000 gallons per day ("gpd"); such plants are currently rated by the TCEQ to serve approximately 666 ESFCs. Additionally, the District has commenced a wastewater treatment plant re-rating evaluation and the construction of a 150,000 gpd wastewater treatment plant expansion to bring the District's total wastewater capacity to 350,000 gpd. After such expansion, assuming TCEQ approval of the District's request for re-rating, the District's wastewater treatment facilities will be capable of serving 1,750 ESFCs based on TCEQ criteria, which, according to the Engineer, will be adequate to serve the District's ultimate capacity requirements at buildout based on current projected or anticipated land uses. The District does not anticipate any additional phases of expansion to the wastewater treatment plant.

The Water Supply and Wastewater Services Agreement noted above, also provides that the City may elect to provide wastewater services to the District at some point in time in the future, and that the agreement will be modified at that time to establish the terms and conditions for such wastewater service.

-Drainage System-

The District is located in the Dry Creek watershed and all of the land in the District naturally drains toward Dry Creek. The storm sewer collection system constructed in the Stonecreek Estates and Walnut Creek at Stonecreek Estates subdivisions are an underground storm system, which outfall directly into Dry Creek, which bisects the District.

As noted elsewhere, according to the District's Engineer, the Flood Hazard Boundary Map (published by FEMA), currently in effect, and which covers land located in the District, indicates that approximately 25 acres of land located in the District is located within

the 100-year floodplain as determined by FIRM map 48157C0265L. All of such 25 acres located within the 100-year floodplain is contained in the banks of Dry Creek; none of the developed and improved land and none of the undeveloped land that is planned for future development is located within the 100-year floodplain.

General Fund Operating History

The Bonds are payable from the levy of an ad valorem tax, without legal limitation as to rate or amount, upon all taxable property in the District. The information included in the table below relating to the District's operations is provided for information purposes only.

	Fiscal Year Ended February 28 (a)

(a) Data is taken from the District's audited financial statements. See "APPENDIX A." The data for fiscal year 2024 represents information as of February 29.

(b) As of June 24, 2025, the District's General Fund had an unaudited cash and investment balance of approximately \$3,720,877. For the fiscal year ending February 28, 2026, the District's General Fund is currently budgeting revenues of \$3,721,000 and expenditures of \$2,935,750. See "RISK FACTORS – Operating Funds."

MANAGEMENT OF THE DISTRICT

The District is governed by a board of directors (the "Board"), which has control over and management supervision of all affairs of the District. Three of the directors resides in the District; each of the other directors owns a parcel of land in the District subject to a note and deed of trust. A directors' election is held within the District in May in even-numbered years. Directors are elected to serve four-year staggered terms. The current members and officers of the Board, along with their titles on the Board, are listed below.

<u>Name</u>	<u>Title</u>	Expires May
Robert Cullison	President	2028
Terri Pope	Vice President	2028
Cody McCutcheon	Secretary	2026
James Hallmark	Assistant Secretary	2026
Kathie Gibson	Assistant Vice President	2026

The District does not employ a general manager or any other full-time employees. The District has contracted for bookkeeping, tax assessing and collecting services, engineering, legal, financial advisory, and annual auditing of its financial statements as follows:

<u>Tax Assessor/Collector</u> – The District's Tax Assessor/Collector is Assessments of the Southwest, Inc., who is employed under an annual contract to perform the District's tax collection functions.

Bookkeeper - The District has contracted with Myrtle Cruz, Inc., for bookkeeping services.

<u>Auditor</u> – The financial statements of the District as of February 28, 2025, and for the year then ended, included in this offering document, have been audited by McGrath & Co., PLLC, Certified Public Accountants, independent auditors, as stated in their report appearing herein. See "APPENDIX A" for a copy of the District's February 28, 2025, audited financial statements.

Utility System Operator - The System's operator is Municipal District Services, LLC.

Engineer – The consulting engineer for the District is Quiddity Engineering, LLC (the "Engineer").

<u>Financial Advisor</u> – The GMS Group, L.L.C., serves as Financial Advisor to the District, and is paid an hourly fee for certain work performed for the District and a contingent fee to be computed on each separate issuance of the bonds, if and when such bonds are delivered.

<u>Legal Counsel</u> – Allen Boone Humphries Robinson LLP serves as Bond Counsel to the District and as general counsel for the District on matters other than the issuance of bonds. Payment for General Counsel services is based upon hourly fee charges. Payment of fees for Bond Counsel services are contingent upon sale and delivery of the Bonds.

<u>Disclosure Counsel</u> – Norton Rose Fulbright US LLP, Houston, Texas, has been engaged by the District to serve as Disclosure Counsel on certain matters related to the sale and delivery of the Bonds, but such advice should not be relied upon by the purchasers as a due diligence undertaking on their behalf. Fees of the Disclosure Counsel will be paid from proceeds of the Bonds and are contingent upon the sale and delivery of such Bonds.

DISTRICT INVESTMENT POLICY

The District has adopted an Investment Policy as required by the Public Funds Investment Act, Chapter 2256, Texas Government Code, as amended. The District's goal is to preserve principal and maintain liquidity while securing a competitive yield in its portfolio. Funds of the District are invested in short-term U.S. Treasuries, certificates of deposit insured by the Federal Deposit Insurance Corporation ("FDIC") or secured by collateral, evidenced by perfected safekeeping receipts held by a third-party bank, and public funds investment pools rated in the highest rating category by a nationally recognized rating service. The District does not currently own, nor does it anticipate the inclusion of long-term securities or derivative products in the District portfolio.

(a) Reflects data supplied by the Appraisal District. The Estimated Taxable Value as of May 1, 2025, was prepared by the Appraisal District and provided to the District. Such values are not binding on the Appraisal District and are provided for informational purposes only. The District is authorized by law to only levy taxes against certified values. See "DISTRICT TAX DATA" and "TAXING PROCEDURES."

(b) Reflects the January 1, 2024 Certified Taxable Value according to data supplied to the District by the Appraisal District. See "DISTRICT TAX DATA" and "TAXING PROCEDURES."

(c) See "DISTRICT DEBT – Estimated Overlapping Debt."

(d) Unaudited figure per the District's records. See "DESCRIPTION OF THE DISTRICT'S SYSTEM – General Fund Operating History."

(e) Neither Texas law nor the District's Bond Resolution requires that the District maintain any particular balance in the Road Debt Service Fund or the Debt Service Fund. The cash and investment balances in the Debt Service Fund are not available to make debt service payments on the Bonds. Likewise, the cash and investment balances in the Road Debt Service Fund will not be available to make debt service payments on the District's bonds sold for water, sewer, and drainage purposes. See "DISTRICT TAX DATA – Tax Adequacy of Tax Revenue" and "THE BONDS – Funds."

(f) The cash and investment balance in the Road Debt Service Fund includes an estimate of six (6) months of capitalized interest to be funded with the proceeds of the Bonds to be deposited into such fund on the date of delivery of the Bonds. See "USE OF BOND PROCEEDS."

Estimated Overlapping Debt

Other governmental entities whose boundaries overlap the District have outstanding bonds payable from ad valorem taxes. The following statement of direct and estimated overlapping ad valorem tax debt was developed from information contained in the "Texas Municipal Reports," published by the Municipal Advisory Council of Texas and from information obtained directly from certain jurisdictions. Except for the amounts relating to the District, the District has not independently verified the accuracy or completeness of such information, and no person is entitled to rely upon such information as being accurate or complete. Furthermore, certain of the entities listed below may have issued additional bonds, the amount of which has not been reported. Political subdivisions overlapping the District are authorized by Texas law to levy and collect ad valorem taxes for operation, maintenance, and/or general revenue purposes in addition to taxes for payment of their debt, and some are presently levying and collecting such taxes.

	Overlapping Debt

DISTRICT TAX DATA

Tax Rate and Collections

The following table sets forth the historical tax information collection experience of the District for the years 2020 through 2024 tax year. Such table has also been prepared based upon information from District records. Reference is made to such records for further and complete information.

Tax Year	Taxable Valuation (a)	Tax Rate (b)	Tax Levy	Cumulative Tax Collections (c)	Tax Year Ended September 30
2024	\$358,857,085	\$1.46	\$5,239,313	96.99%	2025
2023	\$244,004,774	\$1.50	\$3,660,072	99.65%	2024
2022	\$144,222,724	\$1.50	\$2,163,341	100.00%	2023
2021	\$95,244,576	\$1.50	\$1,428,669	100.00%	2022
2020	\$73,219,348	\$1.50	\$1,098,290	100.00%	2021

(a) See "Analysis of Tax Base" herein.

(b) See "Tax Rate Distribution" herein.

(c) Represents cumulative collections as of May 31, 2025.

Maintenance Tax

The Board has the statutory authority to levy and collect an annual ad valorem tax for maintenance and operation of the District and its facilities. Such tax is in addition to taxes that the District is authorized to levy for paying principal of and interest on the Bonds, and any tax bonds that may be issued in the future. The District's voters authorized a maintenance tax of up to \$1.50 per \$100.00 of assessed valuation at an election held on May 9, 2015. The District's voters authorized a road maintenance tax of up to \$0.25 per \$100.00 of assessed valuation at an election held on May 9, 2015. See "Tax Rate Distribution" herein.

Tax Rate Distribution

The following table sets forth the tax rate distribution of the District for the years 2020 through 2024.

	<u>2024</u>	<u>2023</u>	<u>2022</u>	<u>2021</u>	<u>2020</u>
Debt Service	\$0.70	\$0.67	\$0.43	\$0.25	\$0.45
Road Debt Service	\$0.11	\$0.14	\$0.24	\$0.35	\$0.25
Maintenance/Operations	<u>\$0.65</u>	<u>\$0.69</u>	<u>\$0.83</u>	<u>\$0.90</u>	<u>\$0.80</u>
Total (a)	\$1.46	\$1.50	\$1.50	\$1.50	\$1.50

Additional Penalties

The District has contracted with a delinquent tax attorney to collect certain delinquent taxes. In connection with that contract, the District can establish an additional penalty of twenty percent (20%) of the tax to defray the costs of collection. This 20% penalty applies to taxes that either: (1) become delinquent on or after February 1 of a year, but not later than May 1 of that year, and that remain

delinquent on April 1 (for personal property) and July 1 (for real property) of the year in which they become delinquent or (2) become delinquent on or after June 1, pursuant to the Texas Tax Code.

Principal Taxpayers

The list of principal taxpayers for 2024 and the other information provided by this table were provided by the Appraisal District to the District's Tax Assessor/Collector based on certified tax rolls net of any exemptions from taxation. This table does not reflect any corrections pursuant to subsequent action of the Appraisal District.

Analysis of Tax Base

Based on information provided to the District by the Appraisal District and its Tax Assessor/Collector, the following represents the composition of property comprising the gross tax roll valuations and the deferments for 2020 through 2024.

Tax Roll Year	Land	Improvements	Personal Property	Gross Valuations	Exemptions (a)	Taxable Valuations
2024	\$91,179,055	\$319,645,272	\$555,751	\$411,380,078	\$52,522,993	\$358,857,085
2023	\$52,699,429	\$249,644,942	\$217,462	\$302,561,833	\$58,557,059	\$244,004,774
2022	\$38,512,629	\$151,889,474	\$471,020	\$190,873,123	\$46,650,399	\$144,222,724
2021	\$29,637,905	\$90,457,482	\$548,410	\$120,643,797	\$25,399,221	\$95,244,576
2020	\$24,775,645	\$73,074,651	\$21,560	\$97,871,856	\$24,652,508	\$73,219,348

(a) The exemption amounts for 2020 through and including the 2024 tax years are primarily attributable to the Lamar Consolidated Independent School District facilities located within the boundaries of the District, which are exempt from taxation. See "THE DISTRICT – School Facilities in the District" and "TAXING PROCEDURES – Property Subject to Taxation by the District."

(b) Reflects the January 1, 2024 Certified Taxable Value according to data supplied to the District by the Appraisal District. See "TAXING PROCEDURES."

Estimated Overlapping Taxes

The following table sets forth all 2024 taxes levied by overlapping taxing jurisdictions. No recognition is given to local assessments for civic association dues, fire department contributions, solid waste disposal charges, or any other levy by entities other than political subdivisions.

Taxing Jurisdictions	2024 Tax Rate
Fort Bend County	\$0.412000
Fort Bend County Drainage District	\$0.010000
Lamar Consolidated Independent School District	\$1.146900
Overlapping Taxes	\$1.568900
The District	\$1.460000
Total Direct & Overlapping Taxes	\$3.028900

Tax Adequacy of Tax Revenue

The calculations shown below are solely for the purpose of illustration, reflect no net revenues of the System, no transfers of surplus funds from the District's Operating Fund to the Debt Service Fund or Road Debt Service Fund, and no increase or decrease in assessed valuation over the May 1, 2025 Estimated Taxable Value and the 2024 Certified Taxable Value. The calculations utilize a tax rate adequate to service the District's total debt service requirements after issuance of the Bonds.

Maximum Annual Debt Service Requirement (2040)	\$4,324,127 (a)
Requires a \$0.95 debt service tax rate on the May 1, 2025 Estimated Taxable Value of \$480,151,934 at 95% collections	\$4,333,371 (a)
Requires a \$1.27 debt service tax rate on the 2024 Certified Taxable Value of \$358,857,085 at 95% collections	\$4,329,611 (a)

(a) Preliminary, subject to change. A certain portion of the maximum annual debt service requirement will be paid for with the District's debt service tax rate (for water, sewer, and drainage purposes) and a certain portion will be paid for with the District's road debt service tax rate.

TAXING PROCEDURES

Authority to Levy Taxes

The Board is authorized to levy an annual ad valorem tax, without legal limitation as to rate or amount, on all taxable property within the District in an amount sufficient to pay the principal and interest on the Bonds and any additional bonds payable from taxes that the District may hereafter issue and to pay the expenses of assessing and collecting such taxes. See "RISK FACTORS – Future Debt." The District agrees in the Bond Resolution to levy such a tax from year to year as described more fully in this Official Statement under the caption "THE BONDS – Source of and Security for Payment." Under Texas law, the Board may also levy and collect an annual ad valorem tax for the operation and maintenance of the District and its water and wastewater system and for the payment of certain contractual obligations if authorized by the voters in the District. See "DISTRICT TAX DATA – Maintenance Tax."

Tax Code and County-Wide Appraisal District

Title 1 of the Texas Tax Code (the "Property Tax Code") specifies the taxing procedures of all political subdivisions of the State of Texas, including the District. Provisions of the Property Tax Code are complex and are not fully summarized here. The Property Tax Code requires, among other matters, county-wide appraisal and equalization of taxable property values and establishes in each county of the State of Texas an appraisal district with the responsibility for recording and appraising property for all taxing units in a county and an appraisal review board with responsibility for reviewing and equalizing the values established by the Appraisal District. The Appraisal District has the responsibility for appraising property for all taxing units within their respective county. Such appraisal values are subject to review and change by the Fort Bend Central Appraisal Review Board (the "Appraisal Review Board"). The Texas Comptroller of Public Accounts may provide for the administration and enforcement of uniform standards and procedures for appraisal of property.

Property Subject to Taxation by the District

Except for certain exemptions provided by Texas law, all real property, tangible personal property held or used for the production of income, mobile homes, and certain categories of intangible personal property with a tax situs in the District are subject to taxation by the District. Principal categories of exempt property include, but are not limited to, property owned by the State of Texas or its political subdivisions if the property is used for public purposes; property exempt from ad valorem taxation by federal law; certain household goods, family supplies, and personal effects; certain goods, wares, and merchandise in transit; farm products owned by the producer; certain property of charitable organizations, youth development associations, religious organizations, and qualified schools; designated historical sites; and most individually owned automobiles. In addition, the District may by its own action exempt residential homesteads of persons 65 years or older and of certain disabled persons, and travel trailers, to the extent deemed advisable by the Board. The District may be required to offer such an exemption if a majority of voters approve it at an election. The District would be required to call such an election upon petition by 20% of the number of qualified voters who voted in the preceding election. The District is authorized by statute to disregard exemptions for the disabled and elderly if granting the exemption would impair the District's obligation to pay tax-supported debt incurred prior to adoption of the exemption by the District. Furthermore, the District must grant exemptions to disabled veterans, or certain surviving dependents of disabled veterans if requested, but only to the maximum extent of \$5,000 to \$12,000 of assessed valuation depending upon the disability rating of the veteran, if such rating is less than 100%. A veteran who receives a disability rating of 100% is entitled to the exemption for the full amount of the residential homestead. Additionally, subject to certain conditions, the surviving spouse of a disabled veteran is entitled to an exemption for the full value of the veteran's residence homestead to which the disabled veterans' exemption applied including the surviving spouse of a disabled veteran who would have qualified for such exemption if it had been in effect on the date the disabled veteran died. A partially disabled veteran or certain surviving spouses of partially disabled veterans are entitled to an exemption from taxation of a percentage of the appraised value of their residence homesteads in an amount equal to the partially disabled veteran's disability rating if the residence homestead was donated by a charitable organization. Also, the surviving spouse of a member of the armed forces who was killed in action is, subject to certain conditions, entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse. The surviving spouse of a first responder who was killed or fatally injured in the line of duty is, subject to certain conditions, also entitled to an exemption of the total appraised value of the surviving spouse's residence homestead, and, subject to certain conditions, an exemption up to the same amount may be transferred to a subsequent residence homestead of the surviving spouse.

Residential Homestead Exemptions. The Property Tax Code authorizes the governing body of each political subdivision in the State of Texas to exempt up to 20% of the appraised value of residential homesteads from ad valorem taxation. Where ad valorem taxes have previously been pledged for the payment of debt, the assessor and collector of a political subdivision may continue to levy and collect taxes against the exempt value of the homesteads until the debt is discharged if the cessation of the levy would impair the obligations of the contract by which the debt was created. The adoption of a homestead exemption may be considered each year, but must be adopted before July 1. The District has never adopted an order granting a general residential homestead exemption.

Freeport Goods and Goods-in-Transit Exemptions. A "Freeport Exemption" applies to goods, wares, and merchandise other than oil, gas, and petroleum products (defined as liquid and gaseous materials immediately derived from refining petroleum or natural gas), and to aircraft or repair parts used by a certified air carrier acquired in or imported into Texas that are destined to be forwarded outside of Texas and that are detained in Texas for assembling, storing, manufacturing, processing, or fabricating for fewer than 175 days. Although certain taxing units may take official action to tax such property in transit and negate such exemption, the District does not have such an option. A "Goods-in-Transit" Exemption is applicable to the same categories of tangible personal property that are covered by the Freeport Exemption, if, for tax year 2011 and prior applicable years, such property is acquired in or imported into Texas for assembling, storing, manufacturing, processing, or fabricating purposes and is subsequently forwarded to another location inside or outside of Texas not later than 175 days after acquisition or importation, and the location where said property is detained during that period is not directly or indirectly owned or under the control of the property owner. For tax year 2012 and subsequent years, such Goods-in-Transit Exemption includes tangible personal property acquired in or imported into Texas for storage purposes only if such property is stored under a contract of bailment by a public warehouse operator at one or more public warehouse facilities in Texas that are not in any way owned or controlled by the owner of such property for the account of the person who acquired or imported such property. A property owner who receives the Goods-in-Transit Exemption is not eligible to receive the Freeport Exemption for the same property. Local taxing units such as the District may, by official action and after public hearing, tax goods-intransit personal property. A taxing unit must exercise its option to tax goods-in-transit property before January 1 of the first tax year in which it proposes to tax the property at the time and in the manner prescribed by applicable law. The District has taken official action to allow taxation of all such goods-in-transit personal property for all prior and subsequent years.

Tax Abatement

Fort Bend County or the City may designate all or part of the area within the District as a reinvestment zone. Thereafter, either the City, Fort Bend County, or the District, at the option and discretion of each entity, may enter into tax abatement agreements with owners of property within the zone. Prior to entering into a tax abatement agreement, each entity must adopt guidelines and criteria for establishing tax abatement, which each entity will follow in granting tax abatement to owners of property. The tax abatement agreements may exempt property from ad valorem taxation by each of the applicable taxing jurisdictions, including the District, for a period of up to 10 years, all or any part of any increase in the assessed valuation of property owner make specified improvements or repairs to the property in conformity with the terms of the tax abatement. Each taxing jurisdiction, including the District, has discretion to determine terms for its tax abatement agreements without regard to the terms approved by the other taxing jurisdictions.

Valuation of Property for Taxation

Generally, property in the District must be appraised by the Appraisal District at market value as of January 1 of each year. Once an appraisal roll is prepared and finally approved by the Appraisal Review Board, it is used by the District in establishing its tax rolls and tax rate. Assessments under the Property Tax Code are to be based on 100% of market value, as such is defined in the Property Tax Code. A residence homestead is required to be appraised solely on the basis of its value as a residence homestead regardless of whether residential use is considered to be the highest and best use of the property.

The Property Tax Code permits land designated for agricultural use, open space, or timberland to be appraised at its value based on the land's capacity to produce agricultural or timber products rather than at its market value. The Property Tax Code permits, under certain circumstances, that residential real property inventory held by a person in the trade or business are valued at the price all such property would bring if sold as a unit to a purchaser who would continue the business. Landowners wishing to avail themselves of the agricultural use, open space, or timberland designation or residential real property inventory designation must apply for the designation, and the chief appraiser is required by the Property Tax Code to act on each claimant's right to the designation individually. A claimant may waive the special valuation as to taxation by some political subdivisions while claiming it for another. If a claimant receives the agricultural use designation and later loses it by changing the use of the property or selling it to an unqualified owner, the District can collect taxes based on the new use, including taxes for the previous three years for agricultural use, open space land, and timberland. Developers in the District have waived their rights to agricultural use, open space, or timber land exemptions.

The Property Tax Code requires the Appraisal District to implement a plan for periodic reappraisal of property to update appraisal values. The plan must provide for appraisal of all real property in the Appraisal District at least once every three years. It is not known what frequency of reappraisal will be utilized by the Appraisal District or whether reappraisals will be conducted on a zoneor county-wide basis. The District, however, at its expense, has the right to obtain from the Appraisal District a current estimate of appraised values within the District or an estimate of any new property or improvements within the District. While such current estimate of appraised values may serve to indicate the rate and extent of growth of taxable values within the District, it cannot be used for establishing a tax rate within the District until such time as the Appraisal District chooses to formally include such values on its appraisal roll. The Property Tax Code provides for a temporary exemption from ad valorem taxation of a portion of the appraised value of certain property that is at least 15% physically damaged by a disaster and located within an area declared to be a disaster area by the governor of the State of Texas. This temporary exemption is automatic if the disaster is declared prior to a taxing unit, such as the District, adopting its tax rate for the tax year. A taxing unit, such as the District, may authorize the exemption at its discretion if the disaster is declared after the taxing unit has adopted its tax rate for the tax year. The amount of the exemption is based on the percentage of damage and is prorated based on the date of the disaster. Upon receipt of an application submitted within the eligible timeframe by a person who qualifies for a temporary exemption under the Property Tax Code, the Appraisal District is required to complete a damage assessment and assign a damage assessment rating to determine the amount of the exemption. The temporary exemption amounts established in the Property Tax Code range from 15% for property less than 30% damaged to 100% for property that is a total loss. Any such temporary exemption granted for disaster-damaged property expires on January 1 of the first year in which the property is reappraised.

District and Taxpayer Remedies

Under certain circumstances, taxpayers and taxing units (such as the District) may appeal orders of the Appraisal Review Board by filing a timely petition for review in state district court. In such event, the value of the property in question will be determined by the court or by a jury if requested by any party. Additionally, taxing units may bring suit against the Appraisal District to compel compliance with the Property Tax Code.

The Property Tax Code sets forth notice and hearing procedures for certain tax rate increases by the District and provides for taxpayer referenda that could result in the repeal of certain tax increases. The Property Tax Code also establishes a procedure for notice to property owners of reappraisals reflecting increased property values, appraisals that are higher than renditions, and appraisals of property not previously on an appraisal roll.

Levy and Collection of Taxes

The District is responsible for the levy and collection of its taxes unless it elects to transfer such functions to another governmental entity. The rate of taxation is set by the Board of Directors, after the legally required notice has been given to owners of property within the District, based upon: a) the valuation of property within the District as of the preceding January 1, and b) the amount required to be raised for debt service, maintenance purposes, and authorized contractual obligations. Taxes are due October 1. or when billed, whichever comes later, and become delinguent if not paid before February 1 of the year following the year in which imposed. A delinquent tax incurs a penalty of 6% of the amount of the tax for the first calendar month it is delinquent, plus 1% for each additional month or portion of a month the tax remains unpaid prior to July 1 of the year in which it becomes delinquent. If the tax is not paid by July 1 of the year in which it becomes delinquent, the tax incurs a total penalty of 12% regardless of the number of months the tax has been delinguent and incurs an additional penalty for collection costs of an amount established by the District and a delinguent tax attorney. A delinquent tax on personal property incurs an additional penalty, in an amount established by the District and a delinquent tax attorney, 60 days after the date the taxes become delinquent. The delinquent tax accrues interest at a rate of 1% for each month or portion of a month it remains unpaid. The Property Tax Code makes provisions for the split payment of taxes, discounts for early payment and the postponement of the delinquency date of taxes under certain circumstances which, at the option of the District, may be rejected by taxing units. The District's tax collector is required to enter into an installment payment agreement with any person who is delinquent on the payment of tax on a residence homestead for payment of tax, penalties and interest, if the person requests an installment agreement and has not entered into an installment agreement with the collector in the preceding 24 months. The installment agreement must provide for payments to be made in monthly installments and must extend for a period of at least 12 months and no more than 36 months. Additionally, the owner of a residential homestead property who is (i) 65 years of age or older, (ii) disabled, or (iii) a disabled veteran, is entitled by law to pay current taxes on a residential homestead in installments without penalty or to defer the payment of taxes during the time of ownership. In the instance of tax deferral, a tax lien remains on the property and interest continue to accrue during the period of deferral.

Rollback of Operation and Maintenance Tax Rate

Chapter 49 of the Texas Water Code, as amended, classifies districts differently based on the current operation and maintenance tax rate or on the percentage of build-out that the District has completed. Districts that have adopted an operation and maintenance tax rate for the current year that is 2.5 cents or less per \$100 of taxable value are classified as "Special Taxing Units." Districts that have financed, completed, and issued bonds to pay for all improvements and facilities necessary to serve at least 95% of the projected build-out of the district are classified as "Developed Districts." Districts that do not meet either of the classifications previously discussed can be classified herein as "Developing Districts." The impact each classification has on the ability of a district to increase its maintenance and operations tax rate is described for each classification below. Debt service and contract tax rates cannot be reduced by a rollback election held within any of the districts described below.

Special Taxing Units. Special Taxing Units that adopt a total tax rate that would impose more than 1.08 times the amount of the total tax imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Special Taxing Unit is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

Developed Districts. Developed Districts that adopt a total tax rate that would impose more than 1.035 times the amount of the total tax imposed by the district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions for the preceding tax year, plus any unused increment rates, as

calculated and described in Section 26.013 of the Tax Code, are required to hold an election within the district to determine whether to approve the adopted total tax rate. If the adopted total tax rate is not approved at the election, the total tax rate for a Developed District is the current year's debt service and contract tax rate plus 1.035 times the previous year's operation and maintenance tax rate plus any unused increment rates. In addition, if any part of a Developed District lies within an area declared for disaster by the Governor of Texas or President of the United States, alternative procedures and rate limitations may apply for a temporary period. If a district qualifies as both a Special Taxing Unit and a Developed District, the district will be subject to the operation and maintenance tax threshold applicable to Special Taxing Units.

Developing Districts. Districts that do not meet the classification of a Special Taxing Unit or a Developed District can be classified as Developing Districts. The qualified voters of these districts, upon the Developing District's adoption of a total tax rate that would impose more than 1.08 times the amount of the total tax rate imposed by such district in the preceding tax year on a residence homestead appraised at the average appraised value of a residence homestead, subject to certain homestead exemptions, are authorized to petition for an election to reduce the operation and maintenance tax rate. If an election is called and passes, the total tax rate for Developing Districts is the current year's debt service and contract tax rate plus 1.08 times the previous year's operation and maintenance tax rate.

The District. A determination as to a district's status as a Special Taxing Unit, Developed District, or Developing District is made by the Board of Directors on an annual basis. The Board of Directors designated the District as a Developing District for purposes of setting the 2024 tax rate. The District cannot give any assurances as to what its classification will be at any point in time or whether the District's future tax rates will result in a total tax rate that will reclassify the District into a new classification and new election calculation.

District's Rights in the Event of Tax Delinquencies

Taxes levied by the District are a personal obligation of the owner of the property as of January 1 of the year for which the tax is imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all state and local taxes, penalties, and interest ultimately imposed for the year on the property. The lien exists in favor of the State of Texas and each local taxing unit, including the District, having power to tax the property. The District's tax lien is on a parity with tax liens of other such taxing units (see "DISTRICT TAX DATA – Estimated Overlapping Taxes"). A tax lien on real property takes priority over the claim of most creditors and other holders of liens on the property encumbered by the tax lien whether or not the debt or lien existed before the attachment of the tax lien; however, whether a lien of the United States is on a parity with or takes priority over a tax lien of the District is determined by applicable federal law. Personal property, under certain circumstances, is subject to seizure and sale for the payment of delinquent taxes, penalty, and interest.

At any time after taxes on property become delinquent, the District may file suit to foreclose the lien securing payment of the tax, to enforce personal liability for the tax, or both. In filing a suit to foreclose a tax lien on real property, the District must join other taxing units that have claims for delinquent taxes against all or part of the same property and land designated for agricultural use and six months for all other property. Collection of delinquent taxes may be adversely affected by the amount of taxes owed to other taxing units, by the effects of market conditions on the foreclosure sale price, by taxpayer redemption rights (a taxpayer may redeem property within six months for commercial property, within two years for residence homesteads and land designated for agricultural use, and six months for all other property after the purchaser's deed issued at the foreclosure sale is filed in the county records), or by bankruptcy proceedings that restrict the collection of taxpayer debts. See "RISK FACTORS – Tax Collections."

ANNEXATION, STRATEGIC PARTNERSHIP AGREEMENT, AND CONSOLIDATION

Strategic Partnership Agreement

In 2018, the District entered into a strategic partnership agreement with the City pursuant to Section 43.0751, Texas Local Government Code, whereby any commercial portion of the District will be annexed into the City for limited purposes, while the balance of the District remains in the City's extraterritorial jurisdiction. As a result of that agreement, the City imposes a two percent sales and use tax (but not its property taxes) within the area of limited purpose annexation. In addition, for the 25-year term of the agreement, the City agrees not to annex the District for general purposes, thus delaying any dissolution of the District and the assumption of its assets and liabilities by the City until 90 percent of the developable acreage in the District has been developed with water, sewer, drainage, and paving or 10 years from the date of the agreement, whichever comes first. The City and the District may amend the strategic partnership agreement at any time. Funds to be received by the City under the agreement are not pledged to the payment of the Bonds. If the District is annexed, the City will assume the District's assets and liabilities (including the Bonds) and dissolve the District within 120 days. Annexation of the territory by the City is a policy-making matter within the discretion of the Mayor and City Council of the City, and therefore, the District makes no representation that the City will ever annex and assume its debt, nor does the District make any representation concerning the ability of the City to pay debt service on the District's bonds if annexation were to occur.

Consolidation

The District has the legal authority to consolidate with other districts and, in connection therewith, to provide for the consolidation of its assets (such as cash and the utility system) and liabilities (such as the Bonds) with the assets and liabilities of districts with which it is consolidating. Although no consolidation is presently contemplated by the District, no representation is made concerning the likelihood of consolidation in the future.

THE BONDS

<u>General</u>

The Bond Resolution authorizes the issuance and sale of the Bonds and prescribes terms, conditions, and provisions for the payment of the principal of, and interest, on the Bonds by the District. Set forth below is a summary of certain provisions of the Bond Resolution. Capitalized terms in such summary are used as defined in the Bond Resolution. Such summary is not a complete description of the entire Bond Resolution and is qualified in its entirety by reference to the Bond Resolution, a copy of which is available from the District's Bond Counsel upon request.

The Bonds will be dated and will bear interest from August 1, 2025, at the per annum rates shown on the cover page hereof. The Bonds are fully registered, serial bonds maturing on April 1 in the years and in the principal amounts set forth on the cover page hereof. Interest on the Bonds is payable April 1, 2026, and each October 1 and April 1 thereafter until the earlier of maturity or redemption. The Record Date on the Bonds is the 15th day of the calendar month next preceding the interest payment date.

The Bonds will be issued only in fully registered form in any integral multiple of \$5,000 of the principal amount for any one maturity and will be initially registered and delivered only to Cede & Co., the nominee of The Depository Trust Company ("DTC"), pursuant to the Book-Entry-Only System described herein. No physical delivery of the Bonds will be made to the owners thereof. Principal of, premium, if any, and interest on the Bonds, will be payable by the Paying Agent/Registrar to Cede & Co., which will make distribution of the amounts so paid to the beneficial owners of the Bonds. See "BOOK-ENTRY-ONLY SYSTEM" herein.

In the event that the Book-Entry-Only System is discontinued, interest on the Bonds shall be payable by check on or before each interest payment date, mailed by the Paying Agent/Registrar to the registered owners ("Registered Owners") as shown on the bond register (the "Register") kept by the Paying Agent/Registrar at the close of business on the 15th calendar day of the month immediately preceding each interest payment date to the address of such Registered Owner as shown on the Register, or by such other customary banking arrangements as may be agreed upon by the Paying Agent/Registrar and a Registered Owner at the risk and expense of such Registered Owner.

Optional Redemption

The Bonds maturing on and after April 1, 2031, are subject to redemption prior to scheduled maturity at the option of the District, in whole or from time to time in part, on April 1, 2030, and on any date thereafter, at a redemption price equal to the principal amount thereof plus accrued interest from the most recent interest payment date to the redemption date. In the event the Bonds are to be redeemed in part, the maturities and principal amounts to be redeemed shall be selected by the District. In the event of redemption of fewer than all of the Bonds of a particular maturity, the Paying Agent/Registrar, on behalf of the District, will select the Bonds of such maturity to be redeemed by lot or by such other customary method as the Paying Agent/Registrar deems fair and appropriate or while the Bonds are in Book-Entry-Only form the portions to be redeemed shall be selected by DTC in accordance with its procedures.

Source of and Security for Payment

The Bonds are secured by, and payable from, the levy of a continuing direct annual ad valorem tax, without legal limitation as to rate or amount, levied against all taxable property in the District. In the Bond Resolution, the District covenants to levy a sufficient tax to pay principal of and interest on the Bonds, with full allowance being made for delinquencies, costs of collections, Registrar fees, and Appraisal District fees. The Bonds are obligations of the District and are not the obligations of the State of Texas, Fort Bend County, the City of Rosenberg, or any entity other than the District.

Defeasance

The Bond Resolution provides that the District may discharge its obligations to the Registered Owners of any or all of the Bonds to pay principal, interest, and redemption price thereon in any manner permitted by law. Under current tax law such discharge may be accomplished either: (i) by depositing with the Comptroller of Public Accounts of the State of Texas a sum of money equal to the principal of and all interest to accrue on the Bonds to maturity or redemption, or (ii) by depositing with any place of payment (paying agent) of the Bonds or other obligations of the District payable from revenues or from ad valorem taxes or both, amounts sufficient to provide for the payment and/or redemption of the Bonds; provided that such deposits may be invested and reinvested only in (a) direct noncallable obligations of the United States of America, (b) noncallable obligations of an agency or instrumentality of the United States, including obligations that are unconditionally guaranteed or insured by the agency or instrumentality and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent, and (c) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision or a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recognized investment rating firm not less than AAA or its equivalent, and (c) noncallable obligations of a state or an agency or a county, municipality, or other political subdivision or a state that have been refunded and that, on the date the governing body of the District adopts or approves the proceedings authorizing the issuance of refunding bonds, are rated as to investment quality by a nationally recog

Upon such deposit as described above, such Bonds shall no longer be regarded as outstanding or unpaid. After firm banking and financial arrangements for the discharge and final payment or redemption of the Bonds have been made as described above, all rights of the District to initiate proceedings to call the Bonds for redemption or take any other action amending the terms of the Bonds are extinguished; provided however, that the right to call the Bonds for redemption is not extinguished if the District: (i) in the proceedings providing for the firm banking and financial arrangements, expressly reserves the right to call the Bonds for redemption; (ii) gives notice of the reservation of that right to the owners of the Bonds immediately following the making of the firm banking and financial arrangements; and (iii) directs that notice of the reservation be included in any redemption notices that it authorizes.

There is no assurance that the current law will not be changed in the future in a manner that would permit investments other than those described above to be made with amounts deposited to defease the Bonds.

Funds

In the Bond Resolution, the Road Debt Service Fund is confirmed and the proceeds from all taxes levied, appraised, and collected for and on account of the Bonds authorized by the Bond Resolution, shall be deposited as collected in such fund.

The District also maintains a Debt Service Fund that is not pledged to the Bonds. Funds in the Debt Service Fund are not available to pay principal and interest on bonds issued for road facilities.

Accrued interest on the Bonds and six (6) months of capitalized interest shall be deposited into the Road Debt Service Fund upon receipt. The remaining proceeds of sale of the Bonds shall be deposited into the Road Capital Projects Fund to be used for the purpose of reimbursing the Developers for certain construction and land acquisition costs and for paying the costs of issuance of the Bonds. Any monies remaining in the Road Capital Projects Fund will be used as described in the Bond Resolution or ultimately transferred to the Road Debt Service Fund.

No Arbitrage

The District will certify as of the date the Bonds are delivered and paid for that, based upon all facts and estimates then known or reasonably expected to be in existence on the date the Bonds are delivered and paid for, the District reasonably expects that the proceeds of the Bonds will not be used in a manner that would cause the Bonds, or any portion of the Bonds, to be "arbitrage bonds" under the Internal Revenue Code of 1986, as amended (the "Code"), and the regulations prescribed thereunder. Furthermore, all officers, employees, and agents of the District have been authorized and directed to provide certifications of facts and estimates that are material to the reasonable expectations of the District as of the date the Bonds are delivered and paid for. In particular, all or any officers of the District are authorized to certify to the facts and circumstances and reasonable expectations of the District covenants in the Bond Resolution that it shall make such use of the proceeds of the Bonds, regulate investment of proceeds of the Bonds, and take such other and further actions and follow such procedures, including, without limitation, calculating the yield on the Bonds, as may be required so that the Bonds shall not become "arbitrage bonds" under the Code and the regulations prescribed from time to time thereunder.

Paying Agent/Registrar

Pursuant to the Bond Resolution, the initial paying agent and initial registrar with respect to the Bonds is The Bank of New York Mellon Trust Company, N.A., Houston, Texas. The District will maintain at least one Registrar, where the Bonds may be surrendered for transfer and/or for exchange or replacement for other Bonds, any outstanding bonds, and for the purpose of maintaining the Bond Register on behalf of the District. The Registrar is required at all times to be a duly qualified banking corporation or association organized and doing business under the laws of the United States of America, or of any state thereof, and subject to supervision or examination by federal or state banking authorities.

The District reserves the right and authority to change any paying agent/registrar and, upon any such change, the District covenants and agrees in the Bond Resolution to promptly cause written notice thereof, specifying the name and address of such successor paying agent/registrar, to be sent to each Registered Owner of the Bonds by United States mail, first class, postage prepaid.

Registration and Transfer

In the event the Book-Entry-Only System should be discontinued, the Bonds will be transferable only on the Bond Register kept by the Registrar upon surrender and reissuance. The Bonds are exchangeable for an equal principal amount of Bonds of the same maturity and of any authorized denomination upon surrender of the Bonds to be exchanged at the operations office of the Registrar in Dallas, Texas. See "BOOK-ENTRY-ONLY SYSTEM" herein for a description of the system to be utilized initially in regard to the ownership and transferability of the Bonds. Every Bond presented or surrendered for transfer is required to be duly endorsed, or be accompanied by a written instrument of transfer, in a form satisfactory to the Registrar. Neither the Registrar nor the District is required (1) to transfer or exchange any Bond during the period beginning at the opening of business on a Record Date (defined herein) and ending at the close of business on the next succeeding interest payment date, or (2) to transfer or exchange any Bond selected for redemption in whole or in part within 30 calendar days of the redemption date. No service charge will be made for any transfer or exchange, but the District or the Registrar may require payment of a sum sufficient to cover any tax or governmental charge payable in connection therewith.

Lost, Stolen, or Destroyed Bonds

In the event the Book-Entry-Only System is discontinued, the District has agreed to replace mutilated, destroyed, lost, or stolen Bonds upon surrender of the mutilated Bonds, or receipt of satisfactory evidence of such destruction, loss, or theft and receipt by the District and the Registrar of security or indemnity as may be required by either of them to keep them harmless. The District will require payment of taxes, governmental charges, and expenses in connection with any such replacement.

Legal Investment and Eligibility to Secure Public Funds in Texas

The following is quoted from Section 49.186 of the Texas Water Code, and is applicable to the District:

- "(a) All bonds, notes, and other obligations issued by a district shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, insurance companies of all kinds and types, fiduciaries, and trustees, and for all interest and sinking funds and other public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of authorities, public agencies, and bodies politic.
- (b) A district's bonds, notes, and other obligations are eligible and lawful security for all deposits of public funds of the state, and all agencies, subdivisions, and instrumentalities of the state, including all counties, cities, towns, villages, school districts, and all other kinds and types of authorities, public agencies, and bodies politic, to the extent of the market value of the bonds, notes, and other obligations when accompanied by any un-matured interest coupons attached to them."

The Public Funds Collateral Act (Chapter 2257, Texas Government Code) also provides that bonds of the District (including the Bonds) are eligible as collateral for public funds.

Issuance of Additional Debt

The District's voters have authorized the issuance of unlimited tax bonds for various purposes as reflected in the table below:

<u>Amount</u>	<u>Purpose</u>
\$284,000,000	For certain water, sanitary sewer, and storm water facilities and for refunding
\$61,000,000	For certain road facilities and for refunding
\$33,000,000	For certain parks and recreation facilities and for refunding

After the issuance of the Bonds, the District will have \$243,145,000 of unlimited tax water, sanitary sewer, and storm water facilities bonds (and for refunding such bonds previously issued), \$39,025,000 of unlimited tax road facilities bonds (and for refunding such bonds previously issued), and \$33,000,000 of unlimited tax parks and recreation bonds (and for refunding such bonds previously issued) that will remain authorized but unissued.

The District has the right to issue additional bonds, as may hereafter be approved by both the Board and the voters of the District. Such additional bonds would be issued on a parity with the Bonds. Any future new money bonds (except new money road bonds) to be issued by the District must also be approved by the TCEQ.

Further, the principal amount of park bonds sold by the District is limited to one percent of the District's certified taxable assessed valuation, unless the District meets certain financial feasibility requirements under the TCEQ rules, in which case the outstanding principal amount of such bonds issued by the District may exceed an amount equal to one percent but not greater than three percent of the value of the taxable property in the District.

The District is also authorized by statute to engage in fire-fighting activities, including the issuance of bonds payable from taxes for such purpose. Before the District could issue bonds payable from taxes for said purpose, the following actions would be required: (a) authorization of a detailed master plan and bonds for such purpose by the qualified voters in the District; (b) amendment of the existing City of Rosenberg ordinance specifying the purposes for which the District may issue bonds; (c) approval of the master plan and issuance of bonds by the TCEQ; and (d) approval of bonds by the Attorney General of Texas. The Board is not considering issuing any fire-fighting unlimited tax bonds at this time. The District has no information concerning any determination by the City of Rosenberg to modify its consent ordinance. Issuance of bonds for fire-fighting activities could dilute the investment security for the Bonds.

BOOK-ENTRY-ONLY SYSTEM

This section describes how ownership of the Bonds is to be transferred and how the principal of, premium, if any, Maturity Value, and interest on the Bonds are to be paid to and credited by DTC while the Bonds are registered in its nominee name. The information in this section concerning DTC and the Book-Entry-Only System has been provided by DTC for use in disclosure documents such as this Official Statement. The District, the Financial Advisor, and the Underwriter believe the source of such information to be reliable but take no responsibility for the accuracy or completeness thereof.

The District and the Underwriter cannot and do not give any assurance that (1) DTC will distribute payments of debt service on the Bonds, or redemption or other notices, to DTC Participants, (2) DTC Participants or others will distribute debt service payments paid to DTC or its nominee (as the registered owner of the Bonds), or redemption or other notices, to the Beneficial Owners, or that they will do so on a timely basis, or (3) DTC will serve and act in the manner described in this Official Statement. The current rules applicable to DTC are on file with the United States Securities and Exchange Commission, and the current procedures of DTC to be followed in dealing with DTC Participants are on file with DTC. DTC, New York, New York, will act as securities depository for the Bonds. The Bonds will be issued as fully registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully registered certificate will be issued for each maturity of the Bonds, each in the aggregate principal amount or Maturity Value, as the case may be, of such maturity, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation, and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has a Standard & Poor's rating of AA+. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com.

Purchases of the Bonds under the DTC system must be made by or through Direct Participants, who will receive a credit for the Bonds on DTC's records. The ownership interest of each actual purchaser of each Certificate ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive securities representing their ownership interests in the Bonds except in the event that use of the book-entry system for the Bonds is discontinued.

To facilitate subsequent transfers, all Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners.

The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Bonds, such as redemptions, tenders, defaults, and proposed amendments to the Certificate documents. For example, Beneficial Owners of Bonds may wish to ascertain that the nominee holding the Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.

Redemption notices shall be sent to DTC. If fewer than all of the Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the District as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

All payments on the Bonds will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the District or the Paying Agent/Registrar, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with Bonds held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Paying Agent/Registrar, or the District, subject to any statutory or regulatory requirements as may be in effect from time to time. All payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) are the responsibility of the District or the Paying Agent/Registrar, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the Bonds at any time by giving reasonable notice to the District or the Paying Agent/Registrar. Under such circumstances, in the event that a successor depository is not obtained, securities are required to be printed and delivered.

The District may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, securities will be printed and delivered to DTC.

The information in this section concerning DTC and DTC's book-entry-only system has been obtained from sources that the District believes to be reliable, but none of the District, the Financial Advisor or the Underwriter takes any responsibility for the accuracy thereof. Termination by the District of the DTC Book-Entry-Only System may require consent of DTC Participants under DTC Operational Arrangements.

LEGAL MATTERS

Legal Proceedings

Delivery of the Bonds will be accompanied by the unqualified approving legal opinion of the Attorney General of Texas to the effect that the Bonds are valid and legally binding obligations of the District under the Constitution and laws of the State of Texas payable from the proceeds of an annual ad valorem tax levied by the District, without limit as to rate or amount, upon all taxable property within the District, and, based upon their examination of a transcript of certified proceedings relating to the issuance and sale of the Bonds, the approving legal opinion of Allen Boone Humphries Robinson LLP, Bond Counsel, to a like effect and to the effect that, under existing law, interest on the Bonds is excludable from gross income for federal income tax purposes and interest on the Bonds is not subject to the alternative minimum tax on individuals; however, such interest is taken into account in determining the annual adjusted financial statement income of applicable corporations for the purpose of determining the alternative minimum tax imposed on corporations.

Legal Review

In its capacity as Bond Counsel, Allen Boone Humphries Robinson LLP has reviewed the information appearing in this Official Statement under the captions "CONTINUING DISCLOSURE OF INFORMATION – SEC RULE 15c2-12," "THE DISTRICT – Authority," "TAXING PROCEDURES," "ANNEXATION, STRATEGIC PARTNERSHIP AGREEMENT, AND CONSOLIDATION," "THE BONDS," "LEGAL MATTERS – Legal Proceedings" (to the extent such section relates to the opinion of Bond Counsel) and "– Legal Review," "TAX MATTERS," and "REGISTRATION AND QUALIFICATION UNDER SECURITIES LAWS" solely to determine whether such information fairly summarizes the documents and legal matters referred to therein. Bond Counsel has not, however, independently verified any of the other factual information contained in this Official Statement, nor has it conducted an investigation of the affairs of the District for the purpose of passing upon the accuracy or completeness of any of the other information contained herein. No person is entitled to rely upon Bond Counsel's limited participation as an assumption of responsibility for, or an expression of opinion of any kind, with regard to the accuracy or completeness of any information contained herein, other than the matters discussed immediately above.

Allen Boone Humphries Robinson LLP also serves as general counsel to the District on matters other than the issuance of bonds. The legal fees paid to Bond Counsel for services rendered in connection with issuance of the Bonds are based on a percentage of the Bonds actually issued, sold, and delivered and, therefore, such fees are contingent upon the sale and delivery of the Bonds.

The various legal opinions to be delivered concurrently with the delivery of the Bonds express the professional judgment of the attorneys rendering the opinions as to the legal issues explicitly addressed therein. In rendering a legal opinion, the attorney does not become an insurer or guarantor of the expression of professional judgment, of the transaction opined upon, or of the future performance of the parties to the transaction, nor does the rendering of an opinion guarantee the outcome of any legal dispute that may arise out of the transaction.

No-Litigation Certificate

On the date of delivery of the Bonds, the District will execute and deliver a certificate to the effect that there is not pending, and to the knowledge of the District, there is not threatened, any litigation affecting the validity of the Bonds, or the levy and/or collection of taxes for the payment thereof, or the organization or boundaries of the District, or the title of the officers thereof to their respective offices.

No Material Adverse Change

The obligations of the Underwriters to take and pay for the Bonds, and of the District to deliver the Bonds, are subject to the condition that, up to the time of delivery of and receipt of payment for the Bonds, there shall have been no material adverse change in the condition (financial or otherwise) of the District from that set forth or contemplated in the Preliminary Official Statement.

TAX MATTERS

The following discussion of certain federal income tax considerations is for general information only and is not tax advice. Each prospective purchaser of the Bonds should consult its own tax advisor as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

Tax Exemption

In the opinion of Allen Boone Humphries Robinson LLP, Bond Counsel, under existing law, interest on the Bonds (i) is excludable from gross income for federal income tax purposes under section 103 of the Internal Revenue Code of 1986, as amended (the "Code"), and (ii) is not an item of tax preference for purposes of the alternative minimum tax on individuals.

The Code imposes a number of requirements that must be satisfied for interest on state or local obligations, such as the Bonds, to be excludable from gross income for federal income tax purposes. These requirements include limitations on the use of bond proceeds and the source of repayment of bonds, limitations on the investment of bond proceeds prior to expenditure, a requirement that excess arbitrage earned on the investment of bond proceeds be paid periodically to the United States and a requirement that the issuer file an information report with the Internal Revenue Service (the "Service"). The District has covenanted in the Bond Resolution that it will comply with these requirements.

Bond Counsel's opinion will assume continuing compliance with the covenants of the Bond Resolution pertaining to those sections of the Code that affect the excludability of interest on the Bonds from gross income for federal income tax purposes and, in addition, will rely on representations by the District and other parties involved with the issuance of the Bonds with respect to matters solely within the knowledge of the District and such parties, which Bond Counsel has not independently verified. If the District fails to comply with the covenants in the Bond Resolution or if the foregoing representations are determined to be inaccurate or incomplete, interest on the Bonds could become includable in gross income from the date of delivery of the Bonds, regardless of the date on which the event causing such inclusion occurs.

Bond Counsel will express no opinion as to the amount or timing of interest on the Bonds or, except as stated above, any federal, state or local tax consequences resulting from the receipt or accrual of interest on, or acquisition, ownership or disposition of, the Bonds. Certain actions may be taken or omitted subject to the terms and conditions set forth in the Bond Resolution upon the advice or with the approving opinion of Bond Counsel. Bond Counsel will express no opinion with respect to Bond Counsel's ability to render an opinion that such actions, if taken or omitted, will not adversely affect the excludability of interest of the Bonds from gross income for federal income tax purposes.

Bond Counsel's opinions are based on existing law, which is subject to change. Such opinions are further based on Bond Counsel's knowledge of facts as of the date thereof. Bond Counsel assumes no duty to update or supplement its opinions to reflect any facts or circumstances that may thereafter come to Bond Counsel's attention or to reflect any changes in any law that may thereafter occur or become effective. Moreover, Bond Counsel's opinions are not a guarantee of result and are not binding on the Service; rather, such opinions represent Bond Counsel's legal judgment based upon its review of existing law and in reliance upon the representations and covenants referenced above that it deems relevant to such opinions. The Service has an ongoing audit program to determine compliance with rules that relate to whether interest on state or local obligations is includable in gross income for federal income tax purposes. No assurance can be given as to whether the Service is likely to treat the District as the taxpayer, and the Owners of the Bonds may not have a right to participate in such audit. Public awareness of any future audit of the Bonds could adversely affect the value and liquidity of the Bonds, regardless of the ultimate outcome of the audit.

Qualified Tax-Exempt Obligations

The Bonds will not be designated "qualified tax-exempt obligations" for financial institutions.

Additional Federal Income Tax Considerations

<u>Collateral Tax Consequences</u> – Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations may result in collateral federal income tax consequences, including but not limited those noted below. Therefore, prospective purchasers of the Bonds should consult their own tax advisors as to the tax consequences of the acquisition, ownership and disposition of the Bonds.

An "applicable corporation" (as defined in section 59(k) of the Code) may be subject to a 15 percent alternative minimum tax imposed under section 55 of the Code on its "adjusted financial statement income" (as defined in section 56A of the Code) for such taxable year. Because interest on tax-exempt obligations, such as the Bonds, is included in a corporation's "adjusted financial statement income," ownership of the Bonds could subject certain corporations to alternative minimum tax consequences.

Ownership of tax-exempt obligations also may result in collateral federal income tax consequences to financial institutions, life insurance and property and casualty insurance companies, certain S corporations with Subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement benefits, taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry tax-exempt obligations, low and middle income taxpayers otherwise qualifying for the health insurance premium assistance credit and individuals otherwise qualifying for the earned income tax credit. In addition, certain foreign corporations doing business in the United States may be subject to the "branch profits tax" on their effectively connected earnings and profits, including tax-exempt interest such as interest on the Bonds.

Prospective purchasers of the Bonds should also be aware that, under the Code, taxpayers are required to report on their returns the amount of tax-exempt interest, such as interest on the Bonds, received or accrued during the year.

<u>Tax Accounting Treatment of Original Issue Premium</u> – If the issue price of any maturity of the Bonds exceeds the stated redemption price payable at maturity of such Bonds, such Bonds (the "Premium Bonds") are considered for federal income tax purposes to have "bond premium" equal to the amount of such excess. The basis of a Premium Bond in the hands of an initial owner is reduced by the amount of such excess that is amortized during the period such initial owner holds such Premium Bond in determining gain or loss for federal income tax purposes. This reduction in basis will increase the amount of any gain or decrease the amount of any loss recognized for federal income tax purposes on the sale or other taxable disposition of a Premium Bond by the initial owner. No corresponding deduction is allowed for federal income tax purposes for the reduction in basis resulting from amortizable bond premium.

The amount of bond premium on a Premium Bond that is amortizable each year (or shorter period in the event of a sale or disposition of a Premium Bond) is determined using the yield to maturity on the Premium Bond based on the initial offering price of such Premium Bond.

The federal income tax consequences of the purchase, ownership and redemption, sale or other disposition of Premium Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of Premium Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of amortized bond premium upon the redemption, sale or other disposition of a Premium Bond and with respect to the federal, state, local, and foreign tax consequences of the purchase, ownership, and sale, redemption or other disposition of such Premium Bonds.

<u>Tax Accounting Treatment of Original Issue Discount</u> – If the issue price of any maturity the Bonds is less than the stated redemption price payable at maturity of such Bonds (the "OID Bonds"), the difference between (i) the amount payable at the maturity of each OID Bond, and (ii) the initial offering price to the public of such OID Bond constitutes original issue discount with respect to such OID Bond in the hands of any owner who has purchased such OID Bond in the initial public offering of the Bonds. Generally, such initial owner is entitled to exclude from gross income (as defined in section 61 of the Code) an amount of income with respect to such OID Bond equal to that portion of the amount of such original issue discount allocable to the period that such OID Bond continues to be owned by such owner. Because original issue discount is treated as interest for federal income tax purposes, the discussions regarding interest on the Bonds under the captions "TAX MATTERS – Tax Exemption" and "TAX MATTERS – Additional Federal Income Tax Considerations – Collateral Tax Consequences" and "– Tax Legislative Changes" generally apply and should be considered in connection with the discussion in this portion of the Official Statement.

In the event of the redemption, sale or other taxable disposition of such OID Bond prior to stated maturity, however, the amount realized by such owner in excess of the basis of such OID Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such OID Bond was held by such initial owner) is includable in gross income.

The foregoing discussion assumes that (i) the Underwriter has purchased the Bonds for contemporaneous sale to the public and (ii) all of the OID Bonds have been initially offered, and a substantial amount of each maturity thereof has been sold, to the general public in arm's-length transactions for a price (and with no other consideration being included) not more than the initial offering prices thereof stated on the [inside] cover page of this Official Statement. Neither the District nor Bond Counsel has made any investigation or offers any assurance that the OID Bonds will be offered and sold in accordance with such assumptions.

Under existing law, the original issue discount on each OID Bond accrues daily to the stated maturity thereof (in amounts calculated as described below for each six-month period ending on the date before the semiannual anniversary dates of the date of the Bonds and ratably within each such six-month period) and the accrued amount is added to an initial owner's basis for such OID Bond for purposes of determining the amount of gain or loss recognized by such owner upon the redemption, sale or other disposition thereof. The amount to be added to basis for each accrual period is equal to (i) the sum of the issue price and the amount of original issue discount accrued in prior periods multiplied by the yield to stated maturity (determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period) less (ii) the amounts payable as current interest during such accrual period on such Bond.

The federal income tax consequences of the purchase, ownership, and redemption, sale or other disposition of OID Bonds that are not purchased in the initial offering at the initial offering price may be determined according to rules that differ from those described above. All owners of OID Bonds should consult their own tax advisors with respect to the determination for federal, state, and local income tax purposes of interest accrued upon redemption, sale or other disposition of such OID Bonds and with respect to the federal, state, local and foreign tax consequences of the purchase, ownership, redemption, sale or other disposition of such OID Bonds.

<u>Tax Legislative Changes</u> – Current law may change so as to directly or indirectly reduce or eliminate the benefit of the excludability of interest on the Bonds from gross income for federal income tax purposes. Any proposed legislation, whether or not enacted, could also affect the value and liquidity of the Bonds. Prospective purchasers of the Bonds should consult with their own tax advisors with respect to any recently enacted, proposed, pending or future legislation.

REGISTRATION AND QUALIFICATION UNDER SECURITIES LAWS

The offer and sale of the Bonds have not been registered or qualified under the Securities Act of 1933, as amended, in reliance upon the exemptions provided thereunder. The Bonds have not been registered or qualified under the Securities Act of Texas in reliance upon various exemptions contained therein, and the Bonds have not been registered or qualified under the securities laws of any other jurisdiction. The District assumes no responsibility for qualification of the Bonds under the securities laws of any jurisdiction in which the Bonds may be sold, assigned, pledged, hypothecated, or otherwise transferred. This disclaimer of responsibility for registration or qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration provisions.

OFFICIAL STATEMENT

Sources of Information

The information contained in this Official Statement has been obtained primarily from the District's records, the Engineer, the Tax Assessor/Collector, and other sources that are believed to be reliable, but no representation is made as to the accuracy or

completeness of the information derived from such other sources. The summaries of the statutes, orders, resolutions, engineering, and other related reports set forth in the Official Statement are included herein subject to all of the provisions of such documents. These summaries do not purport to be complete statements of such provisions and reference is made to such documents for further information.

Financial Advisor

The GMS Group, L.L.C. is employed as the Financial Advisor to the District to render certain professional services, including advising the District on a plan of financing and preparing the Official Statement, the Official Notice of Sale and the Official Bid Form for the sale of the Bonds. In its capacity as Financial Advisor, The GMS Group, L.L.C. has compiled and edited this Official Statement. The Financial Advisor has reviewed the information in this Official Statement in accordance with, and as a part of, its responsibilities to the District and, as applicable, to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Financial Advisor does not guarantee the accuracy or completeness of such information.

Consultants

In approving this Official Statement, the District has relied upon the following consultants:

<u>Engineer</u> – The information contained in this Official Statement relating to engineering matters generally and to the description of the System and in particular that information included in the sections entitled "DESCRIPTION OF THE DISTRICT'S SYSTEM," "USE OF BOND PROCEEDS," and certain engineering matters included in "THE DISTRICT – Description and Location," and "THE DISTRICT – Land Uses and Status of Land Development" has been provided by Quiddity Engineering, LLC, and has been included in reliance upon the authority of such firm as an expert in the field of civil engineering.

<u>Tax Assessor/Collector</u> – The information contained in this Official Statement relating to the estimated assessed valuation of property and, in particular, such information contained in the section captioned "DISTRICT TAX DATA," has been provided by the Appraisal District and by Assessments of the Southwest, Inc., in reliance upon their authority as experts in the field of tax assessing and appraising.

<u>Auditor</u> – The financial statements of the District as of February 28, 2025, and for the year then ended, included in this offering document, have been audited by McGrath & Co., PLLC, Certified Public Accountants, independent auditors, as stated in their report appearing herein. See "APPENDIX A" for a copy of the District's February 28, 2025, audited financial statements.

Continuing Availability of Financial Information

Pursuant to Texas law, the District has its financial statements prepared in accordance with generally accepted accounting principles and has its financial statements audited by a certified public accountant in accordance with generally accepted auditing standards within 120 days after the close of its fiscal year. The District's audit report is required to be filed with the TCEQ within 135 days after the close of its fiscal year.

The District's financial records and audited financial statements are available for public inspection during regular business hours at the office of the District and copies will be provided on written request, to the extent permitted by law, upon payment of copying charges. Requests for copies should be addressed to the District in care of Allen Boone Humphries Robinson LLP, Phoenix Tower, 3200 Southwest Freeway, Suite 2600, Houston, Texas 77027.

Certification as to Official Statement

The Board of Directors of the District, acting in its official capacity and in reliance upon the consultants listed above and certain certificates of representation to be provided to the Board, hereby certifies, as of the date hereof, that to the best of its knowledge and belief, the information, statements, and descriptions pertaining to the District and its affairs herein contain no untrue statements of a material fact and do not omit to state any material fact necessary to make the statements herein, in the light of the circumstances under which they were made, not misleading. The information, descriptions, and statements concerning entities other than the District, including particularly other governmental entities, have been obtained from sources believed to be reliable, but the District has made no independent investigation of such matters and makes no representation as to the accuracy or completeness thereof.

Updating of Official Statement

The District will keep the Official Statement current by amendment or sticker to reflect material changes in the affairs of the District and, to the extent that information comes to its attention, in the other matters described in the Official Statement, until the delivery of the Bonds. All information with respect to the resale of the Bonds shall be the responsibility of the Underwriter.

MISCELLANEOUS

All estimates, statements, and assumptions in this Official Statement and the Appendices hereto have been made on the basis of the best information available and are believed to be reliable and accurate. Any statement in this Official Statement involving matters of opinion or estimates, whether or not expressly so stated is intended as such and not a representation of fact and no representation is made that any such statement will be realized.

This Official Statement was approved by the Board of Directors of Fort Bend Municipal Utility District No. 184 as of the date shown on the cover page.

Independent Auditor's Report

Board of Directors Fort Bend County Municipal Utility District No. 184 Fort Bend County, Texas

Opinions

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Municipal Utility District No. 184 (the "District"), as of and for the year ended February 28, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fort Bend County Municipal Utility District No. 184, as of February 28, 2025, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 3 to the financial statements, the District implemented GASB Implementation Guide 2021-1, Question 5.1 during the current fiscal year. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Board of Directors Fort Bend County Municipal Utility District No. 184 Fort Bend County, Texas

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Board of Directors Fort Bend County Municipal Utility District No. 184 Fort Bend County, Texas

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

Using this Annual Report

This section of the financial report of Fort Bend County Municipal Utility District No. 184 (the "District") provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended February 28, 2025. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

The *Statement of Activities* reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

Fund Financial Statements

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

Financial Analysis of the District as a Whole

The District's net position at February 28, 2025, was negative \$29,297,932. The District's net position is negative because the District incurs debt to construct public roads which it conveys to Fort Bend County. A comparative summary of the District's overall financial position, as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Current and other assets	\$ 8,948,506	\$ 6,309,425
Capital assets	41,081,883	31,681,466
Total assets	50,030,389	37,990,891
Current liabilities	2,111,937	1,538,577
Long-term liabilities	77,216,384	60,766,749
Total liabilities	79,328,321	62,305,326
Net position		
Net investment in capital assets	(11,151,994)	(8,799,751)
Restricted	3,447,969	2,252,595
Unrestricted	(21,593,907)	(17,767,279)
Total net position	\$ (29,297,932)	\$ (24,314,435)

During the current fiscal year, the District implemented GASB Implementation Guide ("GASBIG") 2021-1, Question 5.1, which requires the capitalization of a group of individual assets that are below the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. In accordance with this standard, the District recognized, as infrastructure capital assets, water meters that were previously expensed in prior fiscal years, net of related accumulated depreciation, as of the beginning of the current fiscal year. Prior year data has not been restated to include values for these

infrastructure assets and, as a result, the presentation of prior year data as it relates to these assets is not consistent with the current year presentation (See Notes 3 and 6).

The total net position of the District decreased during the current fiscal year by \$5,319,995. A comparative summary of the District's *Statement of Activities* for the past two fiscal years is as follows:

	2025	2024
Revenues		
Property taxes, penalties and interest	\$ 5,324,634	\$ 3,721,423
Water and sewer service	1,075,418	731,658
Other	1,049,914	1,022,379
Total revenues	7,449,966	5,475,460
Expenses		
Current service operations	3,006,992	2,434,672
Debt interest and fees	1,478,040	1,080,023
Developer interest	1,019,518	824,418
Debt issuance costs	1,085,332	775,665
Depreciation and amortization	1,422,214	1,064,777
Total expenses	8,012,096	6,179,555
Change in net position before other item	(562,130)	(704,095)
Other item		
Transfers to other governments	(4,757,865)	(7,409,468)
Change in net position	(5,319,995)	(8,113,563)
Net position, beginning of year (2025 restated)	(23,977,937)	(16,200,872)
Net position, end of year	\$ (29,297,932)	\$ (24,314,435)

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current fiscal year and, as a result, has restated its beginning net position for the current fiscal year. Prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Financial Analysis of the District's Funds

The District's combined fund balances, as of February 28, 2025, were \$8,051,435, which consists of \$4,184,496 in the General Fund, \$3,864,122 in the Debt Service Fund and \$2,817 in the Capital Projects Fund.

General Fund

A comparative summary of the General Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

	2025	2024
Total assets	\$ 4,792,173	\$ 3,297,643
Total liabilities	\$ 431,304	\$ 229,497
Total deferred inflows	176,373	75,932
Total fund balance	 4,184,496	 2,992,214
Total liabilities, deferred inflows and fund balance	\$ 4,792,173	\$ 3,297,643

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2025	 2024
Total revenues	\$ 4,315,667	\$ 3,356,179
Total expenditures	 (3,123,385)	 (2,456,895)
Revenues over expenditures	1,192,282	899,284
Other changes in fund balance	 	 58,915
Net change in fund balance	\$ 1,192,282	\$ 958,199

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, revenues received in exchange for the provision of water and sewer services to customers within the District and tap connection fees charged to homebuilders in the District. Financial resources are influenced by a variety of factors each year:

- Property tax revenues are dependent upon assessed values in the District and the maintenance tax rate set by the District. While the District decreased its maintenance tax levy, property tax revenues increased because assessed values in the District increased from the prior year.
- Water, sewer and surface water revenues are dependent upon customer usage, which fluctuates from year to year as a result of factors beyond the District's control.
- Fire protection services fees charged for fire protection services provided by the City of Rosenberg, Texas fluctuate based on the number of connections in the District and increases as the number of connections increases.
- Tap connection fees fluctuate with homebuilding activity within the District.

Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

		2025			2024
Total assets	\$	4,153,516		\$	2,840,024
	¢	20.201		¢	50 (10
Total liabilities	\$	39,201		\$	58,642
Total deferred inflows		250,193			101,467
Total fund balance		3,864,122			2,679,915
Total liabilities, deferred inflows and fund balance	\$	4,153,516	-	\$	2,840,024

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	 2025	 2024
Total revenues	\$ 2,882,481	\$ 1,973,902
Total expenditures	 (1,992,777)	 (1,171,753)
Revenues over expenditures	889,704	 802,149
Other changes in fund balance	 294,503	 250,000
Net change in fund balance	\$ 1,184,207	\$ 1,052,149

The District's financial resources in the Debt Service Fund in both the current and prior fiscal year are from property tax revenues and the receipt of capitalized interest from the sale of bonds. The difference between these financial resources and debt service requirements resulted in an increase in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of February 28, 2025 and February 29, 2024, is as follows:

	2()25	 2024
Total assets	\$	2,817	\$ 171,758
Total fund balance	\$	2,817	\$ 171,758

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

				2024
Total revenues	\$	2,651	\$	2,634
Total expenditures	(14,072,089)			(9,576,730)
Revenues under expenditures	(.	(14,069,438)		(9,574,096)
Other changes in fund balance	13,900,497			9,614,517
Net change in fund balance	\$	(168,941)	\$	40,421

The District has had considerable capital asset activity in the last two fiscal years, which was financed with proceeds from the issuance of its Series 2024 Unlimited Tax Bonds in the current fiscal year and the sale of its Series 2023 Unlimited Tax Bonds in the prior fiscal year.

General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$857,732 greater than budgeted. The *Budgetary Comparison Schedule* on page 42 of this report provides variance information per financial statement line item.

Capital Assets

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer funded capital assets are recorded on the District's financial statements upon completion of construction.

Capital assets held by the District at February 28, 2025 and February 29, 2024, are summarized as follows:

	2025	2024
Capital assets not being depreciated		
Land and improvements	\$ 1,501,151	\$ 1,501,151
Capital assets being depreciated/amortized		
Infrastructure	35,144,670	26,192,017
Landscaping improvements	6,475,579	5,103,188
Other facilities	520,335	520,335
Right-to-use leased assets	535,843	535,843
Impact fees	2,275,496	1,632,037
	44,951,923	33,983,420
Less accumulated depreciation/amortization		
Infrastructure	(3,085,232)	(2,111,396)
Landscaping improvements	(1,516,413)	(1,188,006)
Other facilities	(123,129)	(99,320)
Right-to-use leased assets	(258,992)	(151,823)
Impact fees	(387,425)	(252,560)
	(5,371,191)	(3,803,105)
Depreciable capital assets, net	39,580,732	30,180,315
Capital assets, net	\$ 41,081,883	\$ 31,681,466

As previously noted, the District implemented GASBIG 2021-1, Question 5.1 during the current fiscal year. As a result, prior year data is not consistent with current year data due to the recognition of certain capital assets and the related accumulated depreciation at the beginning of the current fiscal year (See Notes 3 and 6).

Capital asset additions during the current fiscal year include the following:

- Stonecreek Estates Sections 10, 12, 13 and 14 utilities
- A Myers Road Extension Phases I and II drainage
- Stonecreek Estates Drive Extension landscaping
- Stonecreek Estates Section 12 landscaping
- Walnut Creek at Stonecreek Estates Phase II landscaping
- Stonecreek Estates Dry Creek along 266 Lots landscaping
- Stonecreek Estates 266 Lots landscaping
- City of Rosenberg impact fees Stonecreek Estates Sections 9, 10 and 11; Walnut Creek Sections 1 and 2
- Water meters

Additionally, Fort Bend County assumes responsibility (after a one-year maintenance period) for road facilities constructed within the boundaries of the County. Accordingly, these facilities are not considered assets of the District. The estimated value of these assets is recorded as transfers to other governments upon completion of construction. This estimated cost is trued-up when the developers are reimbursed. For the year ended February 28, 2025, capital assets in the amount of \$4,757,865 have been recorded as transfers to other governments in the government-wide statements.

Lease Obligations

The District has entered into an equipment lease obligation for interim wastewater treatment plant. The District recognized a right-to-use leased asset and lease obligation in the amount of \$535,843 for this lease. The balance due for the lease as of February 28, 2025, was \$303,377.

Long-Term Debt and Related Liabilities

As of February 28, 2025, the District owes approximately \$31,728,093 to developers for completed projects and operating advances. The initial cost of the completed project and related liability is estimated based on actual construction costs plus 10-15% for engineering and other fees and is recorded on the District's financial statements upon completion of construction. As discussed in Note 7, the District has an additional commitment in the amount of \$4,624,468 for projects under construction by the developers. As noted, the District will owe its developers for these projects upon completion of construction. The District intends to reimburse the developers from proceeds of future bond issues or other lawfully available funds. The estimated cost of amounts owed to the developers are trued up when the developers are reimbursed.

At February 28, 2025 and February 29, 2024, the District had total bonded debt outstanding as shown below:

Series	2025	2024
2018	\$ 2,360,000	\$ 2,460,000
2019 Road	2,285,000	2,360,000
2020	2,675,000	2,750,000
2021 Road	3,890,000	4,015,000
2022	10,755,000	11,000,000
2023	10,000,000	10,000,000
2024	14,195,000	
	\$ 46,160,000	\$ 32,585,000

During the current fiscal year, the District issued \$14,195,000 in unlimited tax bonds. At February 28, 2025, the District had \$243,145,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving the water, sanitary sewer and drainage systems within the District and the refunding of such bonds; \$33,000,000 for parks and recreational facilities and the refunding of such bonds; and \$54,325,000 for road improvements and the refunding of such bonds.

Property Taxes

The District's property tax base increased approximately \$96,093,000 for the 2025 tax year from \$359,224,427 to \$455,317,396, based on preliminary values. This increase was primarily due to new construction in the District and increased property values.

Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and water/sewer services and the projected cost of operating the District and providing services to customers. A comparison of next fiscal year's budget to current fiscal year actual amounts for the General Fund is as follows:

	2025 Actual	2026 Budget		
Total revenues	\$ 4,315,667	\$ 3,721,000		
Total expenditures	(3,123,385)	(2,933,750)		
Revenues over expenditures	1,192,282	787,250		
Beginning fund balance	2,992,214	4,184,496		
Ending fund balance	\$ 4,184,496	\$ 4,971,746

Note 1 – Summary of Significant Accounting Policies

The accounting policies of Fort Bend County Municipal Utility District No. 184 (the "District") conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). The following is a summary of the most significant policies:

Creation

The District was organized, created and established by the 83rd Legislature, Regular Session, Chapter 1250 and 1309, Senate Bill 1910, Section 3, and House Bill 1309, Section 5 dated September 1, 2013, and operates in accordance with Section 59, Article XVI and Section 52, Article III of the Texas Constitution and the Texas Water Code, Chapters 49 and 54. The Board of Directors held its first meeting on May 23, 2014 and the first bonds were issued on April 6, 2018.

The District's primary activities include construction, maintenance and operation of water, sewer and drainage facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

Reporting Entity

The District is a political subdivision of the State of Texas governed by an elected five-member board. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate, and be fiscally independent of other state and local governments, while a component unit is a legally separate government for which the elected officials of a primary government are financially accountable. Fiscal independence implies that the government has the authority to adopt a budget, levy taxes, set rates, and/or issue bonds without approval from other governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District's financial statements as component units.

Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or "major"

funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- <u>The General Fund</u> is used to account for the operations of the District's water and sewer system and all other financial transactions not reported in other funds. The principal sources of revenue are property taxes and water and sewer service fees. Expenditures include costs associated with the daily operations of the District.
- <u>The Debt Service Fund</u> is used to account for the payment of interest and principal on the District's general long-term debt. The primary source of revenue for debt service is property taxes. During the current fiscal year, financial resources also included capitalized interest from the sale of bonds. Expenditures include costs incurred in assessing and collecting these taxes.
- <u>The Capital Projects Fund</u> is used to account for the expenditures of bond proceeds for the construction of the District's water, sewer, drainage and road facilities.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes, interest earned on investments and income from District operations. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

Prepaid Items

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At February 28, 2025, an allowance for uncollectible accounts was not considered necessary.

Interfund Activity

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

Capital Assets

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost that exceeds the capitalization threshold for the asset class and an estimated useful life in excess of one year. Capital assets that individually are below the capitalization threshold but, in the aggregate, are above the threshold are capitalized. Subsequent replacements of these assets that do not exceed the threshold are not capitalized. The District's capitalization threshold for infrastructure assets is \$50,000. The threshold for subscription-based information technology arrangements (SBITAs) is \$250,000.

Capital assets are recorded at historical cost or estimated historical cost. Right-to-use leased assets are valued at the present value of future lease payments. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets, which primarily consist of water, wastewater and drainage facilities, are depreciated (or amortized in the case of intangible assets) using the straight-line method as follows:

Assets	Useful Life
Infrastructure	10-45 years
Landscaping improvements	10-20 years
Right-to-use leased asset	5 years
Other facilities	20-30 years
Impact fees	Remaining life of contract

Deferred Inflows and Outflows of Financial Resources

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District's nonspendable fund balance consists of prepaid items.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service and capitalized interest from the sale of bonds in the Debt Service Fund.

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables; the value of unbilled utility revenues and receivables; the useful lives and impairment of capital assets; the value of amounts due to developers; the value of capital assets transferred to Fort Bend County, and the value of capital assets for which the developers have not been fully reimbursed. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

Note 2 – Adjustment from Governmental to Government-wide Basis

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

Total fund balance, governmental funds		\$ 8,051,435
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds. Historical cost Less accumulated depreciation/amortization	\$ 46,453,074 (5,371,191)	41,081,883
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of: Accrued interest payable Due to developers Lease obligations Bonds payable	(6666,346) (31,728,093) (303,377) (46,160,000)	(78,857,816)
Deferred inflows in the fund statements consist of property taxes receivable that have been levied and are due, but are not available to pay current period expenditures. These amounts are included in revenues in the government-wide statements.		426,566
Total net position - governmental activities		\$ (29,297,932)

Reconciliation of the *Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances* to the *Statement of Activities*

Net change in fund balances - total governmental funds		\$ 2,207,548
Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for property taxes and penalties and interest.		249,167
Financial reporting for capital assets varies significantly between the fund statements and the government-wide statements. Reporting at the fund level focuses on the impact of transactions on financial resources (i.e., cash), while reporting at the government-wide level seeks to allocate the cost of the acquisition of capital assets over their useful lives and to measure the economic impact of developer financing of capital assets used by the District or conveyed to other governmental entities. Differences during the current fiscal year are for the following: Capital outlays Transfers to other governments Depreciation/amortization expense	\$ 12,014,276 (4,757,865) (1,422,214)	5,834,197
Financial reporting for certain obligations varies between the fund statements and the government-wide statements. At the fund level, the focus is on increases and decreases of financial resources as debt is issued and repaid. At the government-wide level, the focus is on measuring and reporting on changes in the District's obligation to repay liabilities in the future. Differences during the current fiscal year are for the following: Issuance of long-term debt Principal payments Interest expense accrual	(14,195,000) 721,652 (137,559)	(13,610,907)
Change in net position of governmental activities		\$ (5,319,995)

Note 3 – Implementation of New Accounting Guidance

During the current fiscal year, the District implemented GASB Implementation Guide ("GASBIG") 2021-1, Question 5.1, which requires the capitalization of the acquisition of a group of individual capital assets whose individual acquisition costs are less than the capitalization threshold when the cost of the acquisition of the assets in the aggregate is significant. Under this new guidance, the District's acquisition of water meters that exceeds the capitalization threshold in the aggregate should

be recorded as Capital outlays instead of Contracted services in the *Statement of Revenues, Expenditures* and *Changes in Fund Balances.* On the government-wide statements, the acquisition of water meters should not be recorded as an expense on the *Statement of Activities* but should be recorded as capital assets on the *Statement of Net Position*.

GASBIG 2021-1, Question 5.1 is required to be retroactively implemented, which means the District is required to record the acquisition of water meters that were expensed in previous fiscal years as infrastructure capital assets and to record the related accumulated depreciation at the beginning of the current fiscal year. Accordingly, the District has recorded a restatement to recognize \$336,498 in depreciable capital assets, which were measured at net book value (i.e., cost less accumulated depreciation) as of the beginning of the current fiscal year and increased its beginning net position by the same amount. Prior year amounts in the Management's Discussion and Analysis and supplementary schedules were not restated.

Note 4 – Deposits and Investments

Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

Investments

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

				Weighted
		Carrying		Average
Туре	Fund	Value	Rating	Maturity
TexSTAR	General	\$ 3,922,372		
	Debt Service	3,550,851		
	Capital Projects	4,268		
		\$ 7,477,491	AAAm	35 days

As of February 28, 2025, the District's investments consist of the following:

TexSTAR

The Texas Short Term Asset Reserve fund ("TexSTAR") is managed by Hilltop Securities, and J.P. Morgan Investment Management, Inc. Hilltop Securities provides participant and marketing services while J.P. Morgan provides investment management services. Custodial and depository services are provided by J.P. Morgan Chase Bank N.A. or its subsidiary.

TexSTAR uses amortized cost rather than fair value to report net assets to compute share price. Accordingly, investments in TexSTAR are stated at amortized cost which approximates fair value. Investments in TexSTAR may be withdrawn via wire transfer on a same day basis, as long as the transaction is executed by 4 p.m. ACH withdrawals made by 4 p.m. will settle on the next business day.

Investment Credit and Interest Rate Risk

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

Note 5 – Interfund Balances and Transactions

Amounts due to/from other funds at February 28, 2025, consist of the following:

Receivable Fund	Payable Fund	Amounts	Purpose
General Fund	Debt Service Fund	\$ 167,364	Maintenance tax collections not remitted as of year end
General Fund	Capital Projects Fund	1,876	Debt issuance costs paid by the General Fund

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Note 6 – Capital Assets

A summary of changes in capital assets, for the year ended February 28, 2025, is as follows:

	Beginning Balances		Additions/ Adjustments		Ending Balances	
Capital assets not being depreciated						
Land and improvements	\$,501,151	\$	-	\$	1,501,151
Capital assets being depreciated/amortized						
Infrastructure	20	5,674,387		8,470,283		35,144,670
Landscaping improvements	1	5,103,188		1,372,391		6,475,579
Other facilities		520,335				520,335
Right-to-use leased assets		535,843				535,843
Impact fees		,632,037		643,459		2,275,496
	34	4,465,790		10,486,133		44,951,923
Less accumulated depreciation/amortization						
Infrastructure	(2	2,257,268)		(827,964)		(3,085,232)
Landscaping improvements	(,188,006)		(328,407)		(1,516,413)
Other facilities		(99,320)		(23,809)		(123,129)
Right-to-use leased assets		(151,823)		(107,169)		(258,992)
Impact fees		(252,560)		(134,865)		(387,425)
	(.)	3,948,977)		(1,422,214)		(5,371,191)
Subtotal depreciable capital assets, net	30),516,813		9,063,919		39,580,732
Capital assets, net	\$ 32	2,017,964	\$	9,063,919	\$	41,081,883

Depreciation/amortization expense for the current fiscal year was \$1,422,214.

As discussed in Note 3, the District recorded a restatement to capitalize the acquisition of certain capital assets and accumulated depreciation at the beginning of the current fiscal year. In previous fiscal years, these costs were expensed. As a result, beginning balances for infrastructure capital assets in the current fiscal year are not consistent with prior year data.

Note 7 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of water, sewer, drainage, and park and recreational facilities and road improvements. Under the agreements, the developers will advance funds for the construction of facilities to serve the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developers are reimbursed.

The District's developers have also advanced funds to the District for operating expenses.

Changes in the estimated amounts due to developers during the fiscal year are as follows:

Due to developers, beginning of year	\$ 28,498,371
Developer reimbursements	(11,892,736)
Developer funded construction and adjustments	 15,122,458
Due to developers, end of year	\$ 31,728,093

In addition, the District will owe the developers approximately \$4,624,468, which is included in the following schedule of contractual commitments. The exact amount is not known until approved by the TCEQ and verified by the District's auditor. As previously noted, these projects will be reported in the government-wide financial statements upon completion of construction.

Note 8 – Lease Obligations

On September 20, 2021, the District entered into an equipment lease agreement for a wastewater treatment plant. This lease is for a 60-month term at rate of 8% with payments commencing October 1, 2022. The lease agreement shall automatically be extended on a month-to-month basis after the initial term, unless otherwise terminated. The District recognized a lease liability and an intangible right-to-use leased asset in the amount of \$535,843, which is measured at the present value of remaining lease payments at March 1, 2022. The remaining balance of the liability at February 28, 2025, is \$303,377. The District is responsible for all ordinary expenses related to repairing and maintaining the equipment. Monthly payments for the lease are \$10,865. Total annual payments are \$130,380, which includes principal of \$101,652 and interest of \$28,728.

Year Ended	F	Principal		Interest		Total
2026	\$	110,086	\$	20,294	\$	130,380
2027		119,224		11,156		130,380
2028		74,067		1,988		76,055
	\$	303,377	\$	33,438	\$	336,815
Due within one year	\$	110,086	\$	20,294	\$	130,380

Annual requirements to amortize long-term lease obligations and related interest are as follows:

In addition to these leases the District has a lease which is not included in the calculation of lease obligations because the payments are month to month. See Note 12 for additional information.

Note 9 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	\$ 46,160,000
Due within one year	\$ 865,000

The District's bonds payable at February 28, 2025, consists of unlimited tax bonds as follows:

				Maturity Date,	_	
				Serially,	Interest	
	Amounts	Original	Interest	Beginning/	Payment	Call
Series	Outstanding	Issue	Rates	Ending	Dates	Dates

				2026 - 2049	October 1	2029
	\$ 46,160,000					

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

At February 28, 2025, the District had authorized but unissued bonds in the amount of \$243,145,000 for water, sewer and drainage facilities and the refunding of such bonds; and \$33,000,000 for parks and recreational facilities and the refunding of such bonds; and \$54,325,000 for road improvements and the refunding of such bonds.

On December 20, 2024, the District issued its \$14,195,000 Series 2024 Unlimited Tax Bonds at a net effective interest rate of 4.290222%. Proceeds of the bonds were used to (1) reimburse developers for the cost of capital assets constructed within the District plus interest expense at the net effective interest rate of the bonds and (2) to pay capitalized interest into the Debt Service Fund.

The change in the District's long-term debt during the fiscal year is as follows:

Bonds payable, beginning of year	\$ 32,585,000
Bonds issued	14,195,000
Bonds retired	(620,000)
Bonds payable, end of year	\$ 46,160,000

Year	Principal	Interest	Totals
2026	\$ 865,000	\$ 1,795,411	\$ 2,660,411

	\$ 46,160,000	\$ 25,952,932	\$ 72,112,932

As of February 28, 2025, annual debt service requirements on bonds outstanding are as follows:

Note 10 - Property Taxes

On May 9, 2015, the voters of the District authorized the District's Board of Directors to levy taxes annually for use in financing general operations limited to \$1.50 per \$100 of assessed value and road maintenance tax limited to \$0.25 per \$100 of assessed value. The District's bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2025 fiscal year was financed through the 2024 tax levy, pursuant to which the District levied property taxes of \$1.46 per \$100 of assessed value, of which \$0.65 was allocated to maintenance and operations, \$0.70 was allocated to debt service, and \$0.11 was allocated to road debt service. The resulting tax levy was \$5,244,677 on the adjusted taxable value of \$359,224,427.

Property taxes receivable, at February 28, 2025, consisted of the following:

Current year taxes receivable	\$ 379,651
Prior years taxes receivable	16,603
	396,254
Penalty and interest receivable	30,312
Property taxes receivable	\$ 426,566

Note 11 - Transfers to Other Governments

Fort Bend County assumes responsibility for the maintenance of public roads constructed within the county limits. Accordingly, road facilities are considered to be capital assets of Fort Bend County, not the District and are recorded as transfers to other governments on the *Statement of Activities* upon completion of construction. This cost is trued-up when the developers are subsequently reimbursed. For the year ended February 28, 2025, the District recorded transfers to other governments in the amount of \$4,757,865 for road facilities constructed by a developer within the District.

Note 12 – Lease Agreement

On May 11, 2016, the District entered into a lease agreement for a temporary wastewater treatment plant. The initial term of this 60-month lease expired on September 1, 2022. The lease is currently on a month-to-month basis. Accordingly, the District does not have an associated lease obligation because the payments are month-to-month. Monthly payments for the lease are \$15,000 with a total cost for the current fiscal year of \$180,000. Standard lease terms required the District to prepay the last month's lease payment upon inception of the lease. All such amounts are recorded as a prepaid expense on the *Statement of Net Position*. The District is responsible for all ordinary expenses related to repairing and maintaining the equipment.

Note 13 – Agreements with the City of Rosenberg

Water Supply and Wastewater Services Agreement

On August 26, 2014, one of the District's developers, Dry Creek (Houston) ASLI VII, LLC ("Dry Creek"), entered into a Water Supply and Wastewater Services Agreement (the "Agreement") with the City of Rosenberg (the "City") to obtain water supply services from the City. On May 15, 2015, Dry Creek assigned all of its rights, obligations, liabilities, and interests in the Agreement to the District. Additionally, the Agreement allows for the provision of wastewater services to the District at the City's sole discretion. The term of the agreement is 25 years and automatically renews for one-year terms thereafter.

Under this agreement, the District is obligated to and has designed and constructed and owns, operates and maintains, at its sole cost and expense, water, wastewater and drainage facilities necessary to distribute water from the City's water system to customers within the District. The City provides 1,700 equivalent single-family connections of water supply services to the District.

Under this agreement, the District is permitted to, and is, meeting its wastewater capacity needs via interim wastewater treatment plants; provided, however, that if the City elects to provide wastewater services to the District, the District shall construct a sewer line connecting to the City's wastewater facilities and discontinue use of the interim wastewater treatment plants.

The District is billed on a monthly basis as a wholesale customer at the rates established in the City's Code of Ordinances for City wholesale customers. During the current fiscal year, the District recognized expenses in the amount of \$415,897 for water supply purchased from the City.

Fire Protection Service Agreement

On September 6, 2016, the District entered into a Fire Protection Services Agreement with the City to obtain fire protection services from the City. The term of the agreement is 20 years and automatically renews for one-year terms thereafter.

Pursuant to the agreement, the District agrees to pay the City a monthly payment of \$30 for each residential and service unit in the District that is connected to the public water supply system. For the year ended February 28, 2025, the District recognized revenues of \$358,625 for fire protection from its residents and expenses of \$354,720 for amounts paid to the City for such services.

Note 14 – Escrow Agreements

Effective November 9, 2020, the District entered into an escrow agreement with Dry Creek and Lennar Homes ("Lennar") to construct water, wastewater, and drainage facilities to serve an 88-acre tract of land within the District's boundaries. Pursuant to the agreement, Lennar advanced funds to the District to finance the design and construction of facilities to serve the tract. During the current year, construction of the facilities was completed and the remaining balance of \$12,364 was refunded to Lennar.

Effective April 26, 2022, the District entered into an escrow agreement with Dry Creek and Lennar Homes ("Lennar") to construct water, wastewater, and drainage facilities to serve a 25-acre tract of land within the District's boundaries. Pursuant to the agreement, Ashton advanced funds to the District to finance the design and construction of facilities to serve the tract. During the current year, construction of the facilities was completed and the remaining balance of \$909 was refunded to Lennar.

Note 15 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Note 16 – Subsequent Event

On June 24, 2025, the District approved a preliminary official statement and notice of sale for its Series 2025 Unlimited Tax Road Bonds in the amount of \$15,300,000. The acceptance of bids and award of sale is scheduled for July 22, 2025. Proceeds of the bonds will primarily be used to reimburse developers for amounts currently reported in "Due to developers."
